Item 2.02 Results of Operations and Financial Condition.

J. C. Penney Company, Inc. (the “Company”) issued an earnings press release on November 13, 2015 announcing its 2015 third quarter results of operations and financial condition. This information is attached as Exhibit 99.1.

The press release and accompanying schedules provide certain information regarding (i) earnings before net interest expense, income tax expense/(benefit) and depreciation and amortization (EBITDA), (ii) adjusted EBITDA, (iii) adjusted net income/(loss), (iv) adjusted earnings/(loss) per share - diluted and (v) free cash flow, all of which may be considered non-GAAP financial measures under the rules of the Securities and Exchange Commission. A reconciliation of each such non-GAAP financial measure to the most directly comparable financial measure calculated and presented in accordance with GAAP is included with the release.

The Company defines (i) EBITDA as net income/(loss) excluding net interest expense (including the loss on extinguishment of debt), income tax expense/(benefit) and depreciation and amortization, (ii) adjusted EBITDA as EBITDA excluding restructuring and management transition charges, the impact of the Company’s qualified defined benefit pension plan, the net gain on the sale of non-operating assets, the proportional share of net income from the Company’s joint venture formed to develop the excess property adjacent to the Company’s Home Office in Plano, Texas (Home Office Land Joint Venture), and certain other net gains, (iii) adjusted net income/(loss) as net income/(loss) excluding restructuring and management transition charges, the impact of the Company’s qualified defined benefit pension plan, the loss on extinguishment of debt, the net gain on the sale of non-operating assets, the proportional share of net income from the Home Office Land Joint Venture, and certain other net gains, in each case, net of tax, and the tax impact from the allocation of income taxes to other comprehensive income items related to the Company’s qualified defined benefit pension plan and interest rate swaps and (iv) adjusted earnings/(loss) per share - diluted as earnings/(loss) per share - diluted excluding restructuring and management transition charges, the impact of the Company’s qualified defined benefit pension plan, the loss on extinguishment of debt, the net gain on the sale of non-operating assets, the proportional share of net income from the Home Office Land Joint Venture, and certain other net gains, in each case, net of tax, and the tax impact from the allocation of income taxes to other comprehensive income items related to the Company’s qualified defined benefit pension plan and interest rate swaps. Unlike other operating expenses, restructuring and management transition charges, the loss on extinguishment of debt, the net gain on the sale of non-operating assets, the proportional share of net income from the Home Office Land Joint Venture, certain other net gains and the tax impact from the allocation of income taxes to other comprehensive income items related to the Company’s qualified defined benefit pension plan and interest rate swaps are not directly related to the Company’s ongoing core business operations. Pension plan expense/(income) is determined using numerous complex assumptions about changes in pension assets and liabilities that are subject to factors beyond the Company’s control, such as market volatility. Accordingly, the Company eliminates pension plan expense/(income) in its entirety as the Company views all components of net periodic benefit expense/(income) as a single, net amount, consistent with its presentation in the Company’s consolidated financial statements. The Company believes that the presentation of these non-GAAP financial measures, which management uses to assess the Company’s operating results, is useful in order to better understand the Company’s financial performance and facilitate the comparison of the Company’s results to the results of its peer companies.

---

The Company defines free cash flow as cash flow from operating activities less capital expenditures, plus proceeds from the sale of operating assets. The Company believes that free cash flow is a relevant indicator of its ability to repay maturing debt, revise its dividend policy or fund other uses of capital that the Company believes will enhance stockholder value. Free cash flow is limited and does not represent remaining cash flows available for discretionary expenditures due to the fact that the measure does not deduct the payments required for debt maturities, pay-down of off-balance sheet pension debt and other obligations or payments made for business acquisitions.

The Company believes it is important to view each of these non-GAAP financial measures in addition to, rather than as a substitute for, the GAAP measures of net income/(loss), earnings/(loss) per share - diluted, and cash flow from operating activities, respectively.

Item 9.01 Financial Statements and Exhibits.
