### NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2002, December 31, 2003, and for the Nine Months ended September 30, 2004 (unaudited)

#### NOTE 1: Summary of Significant Accounting Policies

##### Nature of Business

Global Partners Securities, Inc. (the "Company") is a broker-dealer in securities registered with the Securities and Exchange Commission (SEC) and a member of the National Association of Securities Dealers (NASD). The Company operates one main office in Fort Lauderdale, Florida and a smaller office in New York. The Company is a wholly owned subsidiary of Global Partners Group, Inc. (the "Parent").

In connection with its activities as a broker-dealer, the Company does not hold customer funds or securities, and promptly transmits all customer funds received to its clearing firms. Although the Company's clearing firms maintain all of the accounts of such customers and preserve all required and customary records, the Company remains contingently liable for losses incurred on these accounts.

##### Interim Financial Information

The accompanying unaudited financial statements for the nine months ended September 30, 2004, have been prepared in accordance with generally accepted accounting principles for interim financial statements. The accompanying financial statements for the interim periods are unaudited and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the periods presented.

##### Securities Transactions

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis. Customers' securities transactions are reported on a settlement date basis with related commission income and expenses reported on a trade date basis.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

Marketable securities are valued at market value. Securities not readily marketable are valued by management based on their experience in the industry.

##### Clearing Expenses

Clearing expenses are recorded on a trade-date basis as securities transactions occur.

##### Cash and Cash Equivalents

The Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

##### Property and Equipment

Property and Equipment is stated at cost. Depreciation is computed primarily using accelerated methods over the estimated useful life of the respective assets, generally five to seven years.

## Edgar Filing: VFINANCE INC - Form 8-K/A

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and the carrying value of the asset.

### Use of Estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In October 2003, after a final hearing, the panel entered an award against the Company for breach of implied contract in the sum of \$218,833. In December 2003, the Company filed a Petition to Vacate Arbitration Award. The attorney is unable to opine on the likely outcome of the Petition to Vacate. As a result, the Company has included \$248,704 to cover the award and accrued interest in its accounts payable at December 31, 2003 and in other expenses for the year ended December 31, 2003. As of September 30, 2004, the Company had accrued \$258,973 as a reserve for this claim.

The Company is a co-defendant in a statement of claim filed with the NASD by one of its former customers for breach of fiduciary duty, negligence and respondent superior related to investment losses suffered seven years ago by the customer. Claimant seeks an unspecified amount of damages. The Company has filed an answer to the claim and is vigorously defending itself against the claim. A final arbitration hearing has yet to be scheduled and the attorney is unable to opine on the likely outcome of the claim.

The Company is a defendant in an action filed in New York State Court claiming breach of contract. The complaint seeks approximately \$50,000 in damages and other relief. This matter is being vigorously defended by the Company and a counterclaim has been interposed. The attorney has stated that based upon the facts and circumstances currently known, the underlying claim against the Company appears to be lacking in factual merit and otherwise overvalued.

The Company is a co-defendant in a number of state law causes of action alleging that the market price of the plaintiff's stock was "fraudulently manipulated" as the result of purported "Naked Short Sales" of the plaintiff's securities. The Company has not been served in the lawsuit but denies the plaintiff's allegations of wrongdoing and plans to vigorously defend itself. The lawsuit has not been set for trial and the attorney is unable to opine on the likely outcome of the lawsuit.

### NOTE 13: GOING CONCERN

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplates continuation of the Company as a going concern. However, the Company has sustained operating losses in recent years and has had negative cash flows from operating activities which has required the Company's shareholders to contribute substantial amounts of capital to fund the operating losses. In addition, as of December 31, 2003, the Company is in default on a SBA guaranteed loan.

In accordance with its 2003 business plan, the operating losses over the last six months of 2003 were reduced and in January of 2004 almost reached the breakeven point. In addition, the Company has prepared financial forecasts based upon current increased production and an improving environment for its emerging market bond trading division and is continuing to closely monitor productivity and expenditures. The Company is also currently negotiating with the SBA for an extension of the term (3 years) and a reduction of the interest rate (8%) of the loan payable because they are not consistent with more favorable terms being offered at other lending institutions. Management is committed to providing operating capital as needed for the upcoming year in anticipation of a turnaround in profitability. Management believes that the above actions presently being taken to revise the Company's operations provide the opportunity

## Edgar Filing: VFINANCE INC - Form 8-K/A

for the Company to continue as a going concern.

#### Advertising

Costs of advertising are expensed as incurred and amounted to \$45,610 for the year ended December 31, 2002, \$59,129 for the year ended December 31, 2003 and \$57,016 for the nine month period ended September 30, 2004.

#### Income Taxes

The Company files federal and state corporate income tax returns. The Company has not accrued any federal and state income tax liability for the year ended December 31, 2003 and the nine month period ended September 30, 2004.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

#### Cash Equivalents

For purposes of the statement of cash flows, the Company has defined cash equivalents as highly liquid investments, with original maturation of less than ninety days that are not held for sale in the ordinary course of business.

### NOTE 4: NET CAPITAL REQUIREMENTS
