NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
DESCRIPTION OF BUSINESS AND CHANGE IN CONTROL

## Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB

Prior to December 31, 1997, Internet Business's International, Inc. (the "Company" and "IBII") was in the food product manufacturing business formerly known as "International Food and Beverage, Inc.". In November 1998, new stockholders bought majority control from the previous Chief Executive Officer through a private transaction. Immediately thereafter, the former CEO resigned and the new stockholders assumed the executive management positions. In December, 1998, after new management was in place, a decision was made to change the Company's principal line of business from manufacturing to high technology. The Company changed its name from International Food & Beverage, Inc. to Internet Business's International, Inc., and reincorporated the Company on December 8, 1998 in the state of Nevada. During 1999, the Company announced the opening of its first e-commerce site and engaged in the development, operation and marketing of a number of commercial activities. The Company's subsidiaries Lending on Line ( wireless high speed Internet access and Internet web design and hosting), E-commerce (providing auction sites, B2C and B2B Internet transactions, and reverse auction sites for Europe and the United States) and Direct Marketing (providing direct marketing of long distance phone services, computers with Internet access, wireless high speed Internet access and bandwidth, and Internet web design hosting). The Company ceased operations during fiscal year ended June 30, 2003.

### BASIS OF PRESENTATION

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Significant intercompany balances and transactions are eliminated in consolidation. Affiliated companies in which the Company does not have a controlling interest are accounted for using the equity method.

### USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### CASH AND CASH EQUIVALENTS

The Company considers all short-term, highly liquid investments with an original maturity date of three months or less to be cash equivalents.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost and depreciated using the straight-line method over the estimated useful life of the assets, which is generally five years for computers and computer related equipment and seven years for furniture and other equipment. Leasehold improvements are amortized using the straight-line method over the shorter of their estimated useful lives or the term of the lease, ranging from one to ten years.

INTANGIBLE ASSETS

Intangible assets consist primarily of acquired customer bases, long-term marketing agreements, goodwill, and other items. Customer bases acquired directly are valued at cost, which approximates fair value at the time of purchase. When material intangible assets such as customer bases and goodwill are acquired in conjunction with the purchase of a company, IBII undertakes a study by an independent third party to determine the allocation of the total purchase price to the various assets acquired and the liabilities assumed. The costs assigned to intangible assets are being amortized on a straight-line basis over the estimated useful lives of the assets, which is 36 months for substantially all remaining intangible assets as of March 31, 2004. Goodwill and other intangible assets are periodically reviewed for impairment to ensure they are appropriately valued. Conditions that may indicate an impairment issue exists include an economic downturn, changes in the churn rate of subscribers or a change in the as methodologies, including cash flow analysis, estimates of sales proceeds and independent appraisals.

ADDITIONAL PAID IN CAPITAL

In April of 2003 the par value of the Company's stock was changed from \$.01 per share to \$.001 per share. The net difference of \$704,462 was included in paid-in capital.

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In May of 2002 a one for ten reverse stock split became effective. This was the first part of a Securities Purchase Agreement in conjunction with a stock registration. The Company received \$120,000 as a loan to be paid with the registration of stock during the fiscal year. Due to the price drop in the stock after the reverse, the registration did not occur. The Loan proceeds were booked as long-term debt. The difference of shares issued and outstanding in the amount of \$2,544,624 was included in additional paid-in capital. In March 2000, the Company issued an additional 7,000,000 shares of the Company's common stock in a private placement to a qualified investor which

## Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB

provided \$3,382,560 to the Company.

### USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the accounting period. Actual results could differ from those estimates.

### REVENUE RECOGNITION AND FINANCIAL STATEMENTS

Sales are recognized at the time of service to customers.

In December 1999, the Securities and Exchange Commissions (SEC) issued Staff Accounting Bulletin (SAB) No. 101, "Revenue Recognition in Financial Statements." Which provides guidance related to revenue recognition. The Company has adopted SAB 101 and it has not had a material impact on the Company's consolidated financial position or results of operations, nor did it result in the Company reporting a change in accounting principles from its application.

### ADVERTISING COSTS

The Company expenses all advertising costs as incurred.

### CONCENTRATION OF CREDIT RISK

The Company is subject to credit risk through trade receivables. Monthly Internet access fees and web hosting are billed to the customer's credit card, thus reducing the credit risk. The Company routinely assesses the financial strength of significant customers and this assessment, combined with the large number and geographic diversity of its customers, limits the Company's concentration of risk with respect to trade accounts receivable.

8

INTERNET BUSINESS'S INTERNATIONAL, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2004

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### INCOME TAXES

The Company accounts for income taxes under the asset and liability approach where deferred income tax assets and liabilities reflect the future tax consequences, based on enacted tax laws, of the temporary differences between financial and tax reporting at the balance sheet date.

## Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB

### EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is based on the weighted effect of all common shares issued and outstanding, and is calculated by dividing net income by the weighted average shares outstanding during the period. Diluted earnings (loss) per share is calculated by dividing net income by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming conversion of all potentially dilutive common shares outstanding. Dilutive earnings (loss) per share is not presented since diluted securities have an anti-dilutive effect.

### NOTE 2- BUSINESS COMBINATIONS

The Company's business combinations have been accounted for using the purchase method and, accordingly, the total purchase price of each acquired company was allocated to the tangible assets and liabilities and identifiable intangible assets based on their estimated fair values as of the closing date of the acquisition. The excess purchase price over fair value is recorded as goodwill. Results of operations for the acquired companies are included prospectively from the date of acquisition.

In June 1999, the Company acquired the assets of L.A. Internet, a southern California based Internet Service Provider, which included customer accounts, trade name, websites, etc. for \$545,000 in exchange for a reduction of the Note Receivable from Iron Horse Holdings, Inc. (see Preferred Stock Note 7).

In July 1999, the Company acquired MBM Capital Group for \$72,000 and 112,667 shares of restricted common stock valued at \$1,127. MBM was sold during the fiscal year of acquisition for a \$150,000 note. After the sale MBM ceased operations and the Company considers the note valueless.

In August 1999, the Company acquired the website, Net 2 Loan, an on-line loan processing website, for 400,000 shares of restricted common stock valued at \$4,000.

In November 1999, the Company acquired an e-commerce website Optical Brigade, an on-line sunglass distribution website, for 50,500 shares of restricted common stock valued at \$50,500.

### NOTE 2- BUSINESS COMBINATIONS (CONTINUED)

In December 1999, the Company entered into a service agreement with an auction company to market its services on the Internet for 6,000,000 shares of its common stock valued at \$60,000.

## Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB

In February 2000, the Company acquired the assets and assumed certain liabilities of Direct Communications, Inc., a wireless communications company. In addition to assuming certain liabilities, the Company paid \$80,000 cash and issued 30,000 shares of restricted company stock valued at \$300. Intangible assets purchased totaled \$265,000, which consisted of customer lists, website and workforce-in-place and is being amortized over 5 years. These assets and liabilities were transferred to the newly formed and wholly owned subsidiary of the Company, Allstates Communications Inc.

In March 2000, the Company acquired 80% of the outstanding shares of Global GPP for \$500,000. Global GPP owns a business-to-business website, equipment and has strategic agreements with IBM Hungary to market business-to-business services in Eastern Europe.

In March 2000, the Company acquired the assets and assumed certain liabilities of Internet 2xtreme, an Internet Service Provider ("ISP") based in northern California. The total purchase price was \$735,000, which consisted of \$17,635 cash and 124,589 shares of restricted common stock valued at \$186,888. In connection with the acquisition, the Company recorded intangible assets of approximately \$666,000, which consisted of approximately 4,800 customer accounts, website and workforce-in-place, which are being amortized over 5 years.

In April 2000, IBII acquired all of the outstanding stock of Atlas Capital Corporation, a mortgage-banking company, for 600,000 shares of restricted common stock valued at \$6,000. In connection with the acquisition, the Company acquired assets of approximately \$3,183,000 and assumed liabilities of approximately \$3,179,000. The difference of \$260,000 was recorded as intangible assets related to acquisition of trade names, websites, and workforce-in-place and is being amortized over 5 years. In August 2001 the Company sold Atlas Capital Corporation with its assets and liabilities.

In October 2000, IBII acquired the auction website operations of the Sonic Auction Company for a purchase price of approximately \$5,000. With this acquisition, the Company acquired a database and a functioning web auction site. The Company issued 500,000 shares of restricted common stock to acquire Sonic Auction Company. This site ceased operations in March of 2001.

### NOTE 2- BUSINESS COMBINATIONS (CONTINUED)

In October 2000, IBII signed an acquisition agreement with Auction-Sales.Com. The Company invested \$180,000 in Auction-Sales.Com and in December 2000 rescinded the acquisition due to undisclosed debts. The Company sued for the return of the funds and the case was remanded to arbitration. The Company lost the arbitration and wrote off the \$180,000 investment.

In March 2001, IBII ceased to operate Global GPP Corporation and

## Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB

closed its corresponding operation in Europe. The Company started a new corporation, a wholly owned subsidiary, Global Construction Buying Group, whose main asset was the equipment acquired from Global GPP Corporation.

In September 2001 the Company started a new marketing subsidiary 1st 2 Market Incorporated and ceased operating its predecessor, Allstates Communications Inc. The new subsidiary only marketed the Company's products whereas Allstates marketed cell phones for cellular phone companies.

In September 2001 the Company started Guarantee Capital Group ("GCG"), which acquired the computer, furniture and processing equipment from the new owner of Atlas Capital Corporation for \$30,000. In November 2001 GCG had exceeded the capacity of its mortgage banking line. This prevented the funding of the balance of its processed loans and resulted in most of the employees being laid off.

In February 2002 the Company announced that it planned to spin-off the Global Construction Buying Group to its shareholders by the end of 2002. This transaction was never completed.

In June 2002 the Company announced that it planned to divest itself of the GCG subsidiary, and in anticipation of that occurrence ceased operations of the on-line mortgage lending group.

In June 2002 the Company announced the sale of Ace Optics, a subsidiary of GCG, to CRT Corporation for \$2,000,000 worth of CRT restricted stock (2,000,000 shares).

In August 2003 the Company acquired Alpha Tooling, Inc. with 190,000 shares of DCM Enterprises, Inc. stock, as per an agreement with DCM Enterprises, Inc. The Company then transferred Alpha Tooling, Inc. to DCM Enterprises, Inc. for credit towards the debit it had with DCM Enterprises, Inc. After October 1, 2003 the transaction was changed by agreement to an Asset Assignment. The Company assigned certain assets of Alpha Tooling for credit of \$311,639 which reduced the debt owed to DCM Enterprises, Inc. from \$760,000 to \$448,361. The Company retained the Alpha Tooling Corporation which had assets of \$42,050 (which were not assigned to DCM Enterprises, Inc.), and debt of \$351,306. (See Note 4 Long Term Note for current balance owed.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
MARCH 31, 2004

### NOTE 6- EXTRAORDINARY ITEM

The California Code of Civil Procedure Section 337 states; "Within 4 (four) years, an action upon any contract, obligation or liability founded upon a written statement or written contract." The debts of companies (see Note 1) identified were greater than 4 years old and not enforceable. Legal counsel Edgar Scheck reviewed the debts and issued an opinion letter that the prior Company's debts were not collectable based upon this Code Section 337. The Company then extinguished these debts and recognized the amount of the debt as extraordinary income. SFAS 125 lists two sets of circumstances under which a liability is not recognized (see below). The second set of circumstances states the GAAP basis for which the Company extinguished the debt and recognized the debt amount as extraordinary income in the fiscal year ended June 30, 1999.

Per SFAS 125, defeasance does not result in the extinguishments of a

liability. A liability is derecognized only if:

1. The creditor is paid and the debtor is relieved of the obligation.
2. The debtor is released legally either by the creditor or judicially from being the primary obligor.

All gains and losses from extinguishments, if material in amount, receive extraordinary item treatment.

### NOTE 9- SEGMENT INFORMATION

In accordance with SFAS No. 131, "Disclosure about Segments of an Enterprise and Related Information," management has determined that there are three reportable segments based on the customers served by each segment: Full service internet service provider ("ISP"), mortgage banking business (which ceased operation in June 2002), and business-to-consumer ("B2C") provider (which ceased operations during fiscal year ended June 2003). Such determination was based on the level at which executive management reviews the results of operations in order to make decisions regarding performance assessment and resource allocation.

ISP serves customers requiring Internet access in the western United States through dial-up and high-speed wireless, web hosting and web design (which ceased operations as of June 30, 2003). Mortgage banking business includes online mortgage loan origination, processing, servicing and resales, (which ceased operations in June 2002). B2C primarily consists of cellular phone service origination fees and sales (which ceased operation as of June 30, 2003).

AGREEMENT BETWEEN THE COMPANY AND DCM ENTERPRISES, INC.

In DCM's March 18, 2004 8-K Filing, the original agreement between the Company and DCM was amended as follows:

The purchase price consisted of 2,000,000 restricted shares of DCM common stock. On August 22nd, 2003, DCM and IBII entered into an agreement to compensate DCM. A copy of this Agreement (hereinafter referred to as the "Compensation Agreement") is hereby attached to this 8K/A as Exhibit 2.1. ## Edgar Filing: INTERNET BUSINESS INTERNATIONAL INC - Form 10QSB

Agreement with Auction-Sales.Com, Inc. ("ASCI") and its majority shareholder, Zahid Rafiq (collectively, "Seller"), for the purchase of 96.62% of the outstanding and treasury shares of common stock of Auction-Sales.Com, Inc., a Delaware corporation. Under the terms of the Agreement, the Company was to exchange 11,000,000 shares of the Company's common stock for the Auction-Sales.Com, Inc. shares. The Company spent \$180,000 for marketing and subsequently discovered that ASCI had undisclosed liabilities and was not in compliance with California law regarding delivery of paid product.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the financial statements of the Company and notes thereto contained elsewhere in this report.

##### (A) PLAN OF OPERATION

The Company is currently not in operation.

The Company currently has less than 5 employees and leases office space in Henderson, Nevada.

The Company has equipment at several co-location facilities that will be relocated once payment for the facilities is made.

##### (B) MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

There was no revenue for the three month and nine month periods ended March 31, 2004. During the prior three month and nine month periods ended March 31, 2003, the Company still had operating subsidiaries with gross revenues of \$106,632 and \$778,874 respectively.

Selling, general and administrative expenses were reduced for the three and nine months periods ended March 31, 2004 to \$283,649 and \$632,227 respectively, from \$1,867,205 and \$2,282,647 respectively for the same periods ended March 31, 2003. The main reason for this decrease is the ceasing of operations.

The resulting loss for the three month and nine month periods ended March 31, 2004 of (\$838,053) and (\$3,567,652), respectively, when compared to the losses of (\$1,165,837) and (\$3,572,485) reported for the three month and nine month periods ended March 31, 2003 were comparable to each other by end of the ninth month. The losses at March 31, 2004 were primarily due to the closing of the Company, and the writeoff of the amounts due from each segment.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

## (I) COMPARISON BY SEGMENT

Management determined that there were three reportable segments for the quarter ended December 31, 2002. However, for the quarter ended March 31, 2004 there are only two reportable segments for the Company. They are the Internet service provider (ISP) and Corporate (Other).

Information on reportable segments is as follows:

## MARKETING

Marketing ceased operations during fiscal year ended June 30, 2003 and since there were no plans to restart the operations there will not be segment comparison of the quarters.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (CONTINUED)

#### OTHER

Revenues generated represent either extraordinary income from payment in full on debt for a reduced amount (with the difference represented as income) and from the sale of fully or partially depreciated equipment where the income from the sale is greater than the amount depreciated. Since there are no expectations that furthers sales will occur and that the revenues from previous operations are dissimilar there will be no comparison of the quarters. Amortization and Depreciation of assets of closed divisions represents the largest expense for the quarter.

#### (II) LIQUIDITY AND CAPITAL RESOURCES

Since the Company is not operating the Company's liquidity would come from the sale of its assets.

#### (III) CAPITAL EXPENDITURES

Other than as set forth below, no material capital expenditures were made during the quarter ended March 31, 2004.

The Company retained the Alpha Tooling Corporation which had assets of \$42,050 (which were not assigned to DCM Enterprises, Inc.), and debt of \$351,306.
