CELLTECH'S METADATE® CD NOW AVAILABLE IN 100-COUNT BOTTLE

ROCHESTER, NY - 02/19/03 - Celltech Pharmaceuticals, Inc. today announced the introduction of once-daily Metadate® CD (methylphenidate HCl, USP) Extended-Release Capsules (CII) 20 mg in a new, convenient 100-count bottle. Metadate® CD is a once-daily biphasic formulation of methylphenidate for the treatment of ADHD in patients six years of age and older.

The new Metadate® CD 20 mg 100-count bottle provides pharmacists with improved dispensing flexibility and physicians with greater flexibility in prescribing quantities. It will also contribute to improved patient ease of use, especially for those patients taking concomitant medications stored in a medication tray

The Metadate® CD 20 mg 30-count dose pack will continue to be available while supplies last. Once inventory is depleted the dose pack will be discontinued.

To order Metadate CD 20 mg in 100-count bottles or for more information, contact your wholesaler or Celltech Customer Service at 1.888.963.3382.

Metadate® CD: An optimal once-daily formulation

Metadate® CD offers fast and lasting control of ADHD symptoms with a single dose, controlling symptoms without impacting appetite or sleep in the majority of patients. Metadate® CD can be sprinkled (onto 1 tablespoon of applesauce) for patients who may have difficulty swallowing a capsule.

Metadate® CD Capsules are contraindicated in patients with marked anxiety, tension, and/or agitation; in patients with glaucoma, tics or Tourette's syndrome; with or within 14 days of using MAO inhibitors. Metadate® CD should not be used in children under six years of age.

Use caution in patients with a history of psychosis; drug or alcohol dependence; seizures; hypertension or cardiovascular disease. As with all methylphenidate products, abuse may lead to dependence. The most common adverse reactions are headache, abdominal pain, decreased appetite and insomnia.

About Celltech Pharmaceuticals

Celltech Pharmaceuticals, Inc. is the US sales, marketing and manufacturing pharmaceutical marketing arm of Celltech Group plc (LSE: CCH, NYSE: CLL). Celltech is one of Europe's largest biotechnology companies, with an extensive late stage development pipeline and drug discovery capabilities of exceptional strength, including a leading position in antibody engineering. Celltech's U.S. operations are headquartered in Rochester, NY. In addition to being an emerging leader in gastroenterology, its areas of therapeutic focus include ADHD; liquid extended release cough and cold products; and a variety of niche products. More details about Celltech Group can be found at www.celltechgroup.com.

Please see accompanying full prescribing information.

Metadate CD is a registered trademark of Celltech Pharma, Ltd.
