#### H1 2014 Preliminary interim results

#### 25 July 2014

The Royal Bank of Scotland Group plc ("RBS") is today issuing an update in respect of its financial results for the six months ended 30 June 2014. The interim results processes are in progress and the financial results are subject to finalisation and approval by the Board. RBS will announce its 2014 Half Year Results on 1 August 2014.

RBS results for H1 2014 are expected to reflect better than anticipated operating performance, driven by more favourable credit conditions and good results from RBS Capital Resolution, with a consequential beneficial impact on capital ratios. Profit before tax is expected to be £2,652 million for H1 2014, up from £1,374 million in H1 2013, with operating profit(1) at £2,601 million, up from £708 million in H1 2013.

"The results we are posting today show the steady progress we are making as we take the steps to be a much simpler, smaller and fairer bank. These results show that underneath all the noise and huge restructuring of recent years, RBS is a fundamentally stronger bank that can deliver good results for customers and shareholders."

"There is progress on all of our key priorities - capital is stronger, costs are lower and customer activity is gradually improving - although we have only just started with our programme to make it easier for customers to do more business with us."

"But let me sound a note of caution. We are actively managing down a slate of significant legacy issues. This includes significant conduct and litigation issues that will likely hit our profits going forward. I am pleased we have had two good quarters, but no one should get ahead of themselves here - there are bumps in the road ahead of us."

"Today's results are pleasing but no one at this bank is complacent about the challenges ahead."

Ross McEwan, Chief Executive

#### H1 2014 Preliminary interim results

Key points

#### H1 2014 performance

Operating performance in the first half of 2014 was good, with all customer-facing businesses reporting improved operating profits compared with H1 2013. Operating profit(1) of £2,601 million included £514 million of restructuring costs (compared with £271 million in H1 2013) and £250 million of litigation and conduct costs, with £150 million added to provisions for Payment Protection Insurance and £100 million to interest rate swap redress provisions.

Operating profit(1), excluding restructuring and litigation and conduct costs ('adjusted operating profit'), improved to £3,365 million, compared with £1,599 million in H1 2013.

Total income declined 6% to £9,978 million. Growth of 3% in Personal & Business Banking (PBB) and 2% in Commercial & Private Banking (CPB) was more than offset by lower income, down 10%, in Corporate & Institutional Banking (CIB), reflecting its smaller balance sheet and reduced risk profile. Net interest margin improved to 2.17%, up 20 basis points compared with H1 2013, with continuing benefits from deposit repricing in PBB and CPB outweighing modest erosion of asset margins.

Total expenses were 8% lower at £7,108 million, including £514 million of restructuring costs and £250 million of litigation and conduct costs. Operating expenses, excluding restructuring and litigation and conduct costs ('adjusted operating expenses'), were down 8% to £6,344 million. Overall headcount has fallen by 8,000 over the past 12 months.

Impairment losses declined by £1,881 million to £269 million. All core businesses showed significant reductions in impairment losses as UK and Irish credit conditions continued to improve. In RBS Capital Resolution (RCR) there was a net write-back of provisions, reflecting disposals at favourable prices. At 30 June 2014, risk elements in

lending represented 8.3% of gross loans to customers, compared with 9.4% at 31 December 2013.

Profit before tax was £2,652 million compared with £1,374 million in the first half of 2013, including a gain of £191 million from the sale of the remaining interest in Direct Line Insurance Group in Q1 2014 and a write-down of goodwill of £130 million in Q2 2014. Own credit adjustment was a charge of £51 million compared with a credit of £376 million in H1 2013 which also included a gain of £191 million on redemption of own debt compared with £20 million in H1 2014.

The tax charge was £733 million, representing 27.6% of profit before tax, and included a £76 million write-off of deferred tax assets.

The Common Equity Tier 1 capital ratio strengthened to 10.1% from 8.6% at the end of 2013, principally driven by reductions in risk-weighted assets in CIB and RCR and the retained profit for the period. RBS remains on track to achieve its medium-term capital targets.

After charging the initial £320 million Dividend Access Share retirement dividend, profit attributable to ordinary and B shareholders was £1,425 million. Tangible net asset value per ordinary and B share was 376p at 30 June 2014 compared with 363p at the end of 2013.

#### Q2 2014 performance

Operating profit(1) in Q2 2014 was £1,318 million, compared with £174 million in Q2 2013 and £1,283 million in Q1 2014. Restructuring costs totalled £385 million and litigation and conduct costs £250 million. Adjusted operating profit rose to £1,953 million, compared with £893 million in Q2 2013 and £1,412 million in Q1 2014. Total income was 10% lower than in Q2 2013 at £4,925 million, with a 4% improvement in UK PBB more than offset by the 13% reduction in CIB, reflecting its smaller balance sheet and lower risk levels. Within CIB, Rates, Currencies and Credit income was £765 million, down 10% from Q2 2013 and 25% from Q1 2014. Citizens Financial Group benefited from a net gain of \$283 million on the sale of its Illinois branch network.

#### H1 2014 Preliminary interim results

Key points (continued)

Q2 2014 performance (continued)

Adjusted operating expenses were £3,065 million, down 11% from Q2 2013 and 7% from Q1 2014.

Impairments amounted to a net release of £93 million compared with losses of £1,117 million in Q2 2013 and £362 million in Q1 2014, benefiting from improvements in bad debt flows and latent provision releases totalling £258 million.

Profit before tax totalled £1,010 million, after a write-down of goodwill of £130 million and a charge of £190 million for own credit. Profit attributable to ordinary and B shareholders was £230 million.

Balance sheet and capital

Funded assets fell to £736 billion, down £107 billion from June 2013, principally driven by the reduction in CIB's balance sheet and the run-off of RCR and Non-Core assets.

In UK PBB gross new mortgage lending totalled £9.8 billion in H1 2014, a market share of 9.9%. Repayments remain high, with the low interest rate environment enabling higher levels of principal repayment.

In CPB Commercial Banking, loans and advances in the growable book increased to £64.9 billion, up £2 billion from the prior year, but this was offset by a £2.8 billion decline in the non-growable book, which comprises real estate finance, businesses in restructuring and excess single-name concentrations.

Overall SME applications were 11% higher in H1 2014 than in the prior year and gross new lending was up 31% at £5.0 billion.

Risk-weighted assets (RWAs) fell to £392 billion at the end of June 2014, down £22 billion from the end of March 2014.

The CET1 ratio was 10.1%(2) at the end of June 2014, up from 8.6% at the end of 2013 and 9.4% at the end of March 2014 reflecting the attributable profit for the period and lower RWAs.

The bank's liquid asset buffer was £138 billion at the end of June 2014, up slightly from the first quarter but down from £146 billion at the end of 2013, leaving ample headroom to accommodate lending growth in H2 2014.

#### **RBS** Capital Resolution

Over the course of H1 2014 RCR reduced funded assets by £8 billion, or 28%, to £21 billion. RWA equivalent(3) decreased by £21 billion, or 33%, to £44 billion.

Operating loss in H1 2014 was £48 million, with an operating profit of £66 million recorded in the second quarter of the year, driven by net impairment releases of £128 million.

The combined effect of the small operating loss and RWA equivalent reduction was net CET1 capital accretion of £2 billion.

#### Notes:

- (1) Operating profit before tax, own credit adjustments, gain on redemption of own debt, strategic disposals, write-down of goodwill and RFS Holdings minority interest ('operating profit'). Statutory operating profit before tax is expected to be £2,652 million for the half year ended 30 June 2014.
- (2) The CET1 ratio includes the benefit of the retained profit for the period. This is subject to approval by the Prudential Regulation Authority, which is expected to be obtained prior to the publication of the Interim Results on 1 August 2014.
- (3) RWA equivalent (RWAe) is an internal metric that measures the equity capital employed in segments. RWAe converts both performing and non-performing exposures into a consistent capital measure, being the sum of the regulatory RWAs and the regulatory capital deductions, the latter converted to RWAe by applying a multiplier of 10.

#### H1 2014 Preliminary interim results

#### Outlook

These results reflect increasing economic confidence and improvements in asset values seen in RBS's core UK and Irish markets. Economic growth is expected to continue, although the pace may moderate.

NIM is expected to remain close to H1 levels, with the majority of deposit re-pricing benefits having now taken place.

Income from the fixed income product suite is expected to be lower in the second half of 2014, reflecting both normal seasonal trends and the continuation of the bank's reduced balance sheet risk appetite.

RBS remains on track to deliver its target of £1 billion cost reductions in 2014. Restructuring costs are expected to be higher in the second half of 2014 as the pace of activity to reduce costs in later years picks up. A restructuring charge of around £1.5 billion is expected for 2014, with overall restructuring costs still expected to be around £5 billion over 2014 to 2017 as the change agenda across the bank from economic, legal and regulatory perspectives remains very full.

Credit impairment charges in the second half of the year are expected to remain low, subject to macro economic conditions, resulting in a full year charge of around £1 billion, although at these low levels there will be volatility from quarter to quarter.

RCR funded assets are expected to be down from £29 billion at its inception to around £15 to £18 billion at the end of 2014. The overall cost (comprising impairments, disposal losses and running expenses) for RCR to achieve its goals was originally expected to be around £4.0 to £4.5 billion between 2014 and 2016. In light of the strong performance in the first half and the more favourable economic environment, these costs are now expected to total around £2.5 to £3.0 billion, of which c.£0.8 billion in 2014, although outcomes are subject to significant potential volatility.

The bank is making good progress towards achieving its target CET1 ratio of 11% by the end of 2015 and at least 12% by the end of 2016. However, ongoing conduct and regulatory investigations and litigation continue to present challenges and uncertainties and are expected to be a drag on capital generation over the coming quarters. The timing and amounts of any further settlements or redress remain uncertain and could be significant.

- (1) As set out in the Q2 Restatement Document dated 21 July 2014, comparative financial information has been restated to reflect: the changes to the RBS structure announced in February 2014, the allocation to reporting segments of a number of one-off and other items previously reported below the operating profit line; and revisions to the allocation of Central and Treasury costs to reflect the centralisation of services and functions and its internal reorganisation. These restatements do not affect statutory income statement, balance sheet, other primary statements or regulatory capital measures.
- (2) The gain of £191 million resulted from the sale of the bank's remaining stake in Direct Line Insurance Group in Q1 2014.
- (3) The tax charge reflects profits in high tax jurisdictions including the US and includes a £76 million write-off of deferred tax assets in Q2 2014.

(1) Net interest income for the half year ended 30 June 2014 was decreased by £28 million (H1 2013 - £38 million; Q2 2014 - £14 million; Q1 2014 - £14 million) to record interest on financial assets and liabilities designated as at fair value through profit or loss and increased by nil (H1 2013 - £31 million, Q2 2014 - nil; Q1 2014 - nil) in respect of non-recurring adjustments. Average interest-earning assets have also been adjusted.

#### Key points

#### H1 2014 compared with H1 2013

- · Net interest income improved by 1% to £5,468 million. The increase was consistent across all businesses, with notable improvements in PBB (£97 million, 4%) and CPB (£90 million, 7%).
- · Net interest margin (NIM) increased by 20 basis points to 2.17%, driven by deposit repricing initiatives across a number of businesses. The benefit of reduced funding costs outweighed lower yields on assets.

#### Q2 2014 compared with Q1 2014

- · Net interest income improved by 4% to £2,784 million principally driven by improved margins and an additional day in the quarter.
- · NIM increased by 10 basis points to 2.22%, driven by lower funding costs, reflecting repricing initiatives across a number of businesses, RCR run-down and a small number of one-off recoveries.

- · A net gain of £170 million (\$283 million) was recorded on Citizens' sale of its Illinois branch network.
- Gains on the disposal of available-for-sale securities in Treasury were down £245 million to £215 million for H1 2014 (Q2 2014 £15 million; Q1 2014 £200 million).

#### Q2 2014 compared with Q1 2014

· Non-interest income declined by £228 million or 10%, principally reflecting the seasonality of CIB income and lower disposal income in RCR. This was partly offset by the net gain on sale from Citizens' branch sale.

#### Key points

#### H1 2014 compared with H1 2013

- · Operating expenses were £642 million, 8%, lower. Adjusted operating expenses decreased by £515 million or 8% to £6,344 million. Much of the decrease was achieved in CIB through headcount reductions and tight control of discretionary expenditure. Overall operating expense trends are starting to show the benefits of the reshaping of the bank's cost base.
- · Litigation and conducts costs totalled £250 million, with an additional provision of £150 million for Payment Protection Insurance redress recorded in UK PBB and a further £100 million relating to interest rate hedging product redress booked within Commercial Banking and CIB.
- Restructuring costs increased by £243 million to £514 million, including significant charges in relation to Williams & Glyn and to the restructuring of the property portfolio.

#### Q2 2014 compared with Q1 2014

.

Operating expenses were up £292 million, 9% reflecting higher restructuring and litigation and conduct costs. Adjusted operating expenses decreased by £214 million or 7%. This was principally driven by lower staff costs in CIB, operational cost saving initiatives in CPB and lower costs in PBB. This was only partly offset by higher staff costs in RCR.

  exchange movements, deposit repricing in Private Banking and lower balances in CIB. This was partly offset by
  increased deposit balances in UK PBB.
