Forward-Looking Statements

This release contains, in addition to statements of historical fact, certain forward-looking statements. These forward-looking statements involve risk and uncertainty. Actual results could differ from those currently anticipated due to a number of factors including those mentioned in documents filed with the SEC by both Belden Inc. and Cable Design Technologies Corporation. Forward-looking statements are based on information available to management at the time, and they involve judgments and estimates. There can be no assurance as to the timing of the closing of the merger, or whether the merger will close at all, or that the expected synergies and cost savings will be realized. Factors that could cause results to differ from expectations include the level of market demand for the products of the Companies, competitive pressures, economic conditions in the U.S. and other countries where the Companies operate, working capital needs, information technology spending, the ability to achieve reductions in costs, price fluctuations of raw materials and the potential unavailability thereof, foreign currency fluctuations, technological obsolescence, environmental matters, industry competition and other specific factors discussed in the Belden annual report filed with the SEC on Form 10K on March 14, 2003, and the CDT annual report on form 10K filed with the SEC on October 29, 2003. Belden and CDT assume no responsibility to update any forward-looking statements as a result of new information or future developments.
