ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(1) BASIS OF PRESENTATION

The consolidated financial statements contained in this report have not been audited by independent public accountants, except for balance sheet information presented at September 30, 2003. However, in the opinion of the company, the consolidated financial statements reflect all adjustments, which include only normal recurring adjustments, necessary to present fairly the data contained therein. The results of operations for the periods covered are not necessarily indicative of results for a full year. Certain amounts for the prior year have been reclassified to conform to the current year's presentation.

(2) CONVERSION TO ONE CLASS OF COMMON STOCK

On October 22, 2003, the Board of Directors approved the conversion of all of the issued shares of Class A common stock into Class B common stock on a one share-for-one share basis in accordance with the terms of the company's certificate of incorporation. The conversion became effective after the close of business on November 5, 2003. The single class of common stock continues to trade on the New York Stock Exchange under the symbol ACV. Following the conversion, all outstanding options to purchase shares of Class A common stock became options to purchase an equal number of shares of Class B common stock.

The company accounts for its stock compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. Under these rules, the conversion to one class of common stock requires the company to recognize a non-cash charge from the remeasurement of the intrinsic value of all Class A stock options outstanding on the conversion date. A portion of this non-cash charge was recognized on the conversion date for vested stock options and the remaining non-cash charges related to unvested stock options and restricted shares will be recognized over the remaining vesting periods. As a result, the company will record a non-cash charge against pre-tax earnings of \$105.9 million (\$68.8 million after taxes), of which \$63.2 million (\$41.1 million after taxes) was recognized in the first quarter of fiscal year 2004, another \$23.6 million (\$15.3 million after taxes) will be recognized during the remainder of fiscal year 2004 and \$19.1 million (\$12.4 million after taxes) will be recognized over the following three fiscal years in diminishing amounts. The non-cash charges will reduce operating earnings, provision for income taxes, net earnings and basic and diluted net earnings per share. The balance sheet effect of the options remeasurement increased total stockholders' equity by \$22.1 million in the first quarter of fiscal year 2004 and resulted in the recognition of a deferred tax asset of the same amount. Thereafter, the remaining non-cash charges will increase total stockholders' equity and result in the recognition of additional deferred tax assets of \$8.3 million during the remainder of fiscal year 2004 and \$6.7 million over the following three fiscal years in diminishing amounts.

(3) STOCKHOLDERS' EQUITY

On January 21, 2004, the Board of Directors approved a 3-for-2 stock split in the form of a 50% stock dividend on the company's outstanding shares. The additional shares will be distributed February 20, 2004 to shareholders of record at the close of business on February 2, 2004. The stock dividend is being distributed only on outstanding shares and not on shares held in the treasury. All share and per share information in this report, except for treasury shares, has been restated to reflect the 50% stock dividend.

The Board of Directors also approved on January 21, 2004 an increase in the cash dividend, raising the quarterly dividend 42.9% to 10 cents per share or 40 cents annually after reflecting the 50% stock dividend. The cash dividend is payable February 20, 2004 to stockholders of record on

February 2, 2004.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Continued)

On January 22, 2004, the shareholders approved an amendment to the company's certificate of incorporation that eliminated Class A common stock from the authorized capital of the company and redesignated the Class B common stock to Common Stock. The newly designated Common Stock continues to trade on the New York Stock Exchange under the symbol ACV.

In July, 2002, the Board of Directors authorized the company to purchase up to 2,384,150 shares of Class A common stock. As of October 22, 2003, the company had purchased 331,700 Class A shares under the authorization at a total cost of \$15.1 million. On October 22, 2003, the Board of Directors authorized the company to purchase up to 2,052,450 shares of Common Stock. This authorization replaced the Class A repurchase program. A total of 2,052,450 shares remain available for purchase under the program as of December 31, 2003.

During the three months ended December 31, 2003 and 2002, the company acquired \$39.8 million and \$871,000, respectively, of common stock surrendered by employees in connection with the exercise of stock options and the payment of withholding taxes as provided under the terms of certain incentive plans. Shares acquired under these plans are not subject to the above-mentioned stock repurchase program.

(4) WEIGHTED AVERAGE SHARES OUTSTANDING

The following table provides information on basic and diluted weighted average shares outstanding (in thousands):

(5) ACCOUNTING FOR STOCK-BASED COMPENSATION

The Financial Accounting Standards Board's Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, requires either the adoption of a fair value based method of accounting for stock-based compensation or the continuance of the intrinsic value method with pro-forma disclosures as if the fair value method was adopted. The company has elected to continue measuring compensation expense for its stock-based plans using the intrinsic value method prescribed by APB No. 25 and, accordingly, no compensation cost related to stock options has been recognized in the consolidated statements of earnings.

Had compensation expense for these stock option plans been determined based upon the fair value of stock options on the dates of grant and recognized over the vesting period consistent with SFAS No. 123, the company's pro-forma net earnings and net earnings per share for the three months ended December 31, 2003 and 2002 would have been as follows (in thousands, except per share amounts):

	Three Months Ended December 31	
	2003	2002
Net earnings:		
As reported	\$ 1,741	36,016
Add: Stock-based compensation expense included in reported net income, net of related income tax effects	41,319	219
Less: Stock-based compensation expense determined under the fair-value based method for all awards, net of related income tax effects	(2,811)	(1,721)
Pro-forma	\$ 40,249	34,514
Basic net earnings per share:		
As reported	\$.02	.41
Pro-forma	\$.45	.40
Diluted net earnings per share:		
As reported	\$.02	.40
Pro-forma	\$.44	.38

The \$41.3 million addback for the three months ended December 31, 2003 for stock-based compensation expense included in reported net income includes the \$41.1 million after-tax non-cash charge related to the conversion to a single class of common stock. The \$2.8 million deduction for the three months ended December 31, 2003 for stock-based compensation expense determined under the fair-value based method for all awards includes a \$74,000 pro-forma after-tax non-cash charge related to the conversion to a single class of common stock. See note 2 for further discussion of the conversion.

(8) GOODWILL AND TRADE NAMES

Information about changes in the carrying amount of goodwill by operating segment for the three months ended December 31, 2003 is as follows (in thousands):

	Global Consumer Products	Specialty distribution- Sally	Total
Balance as of September 30, 2003	\$ 142,440	212,845	355,285
Additions		94,650	94,650

Balance as of December 31, 2003	<u>\$ 144,293</u>	<u>308,837</u>	<u>453,130</u>

The increase in Specialty distribution Sally goodwill was primarily due to the acquisition of West Coast Beauty Supply in December, 2003. See note 9 for further discussion of the acquisition.

Indefinite-lived trade names by operating segment at December 31, 2003 and September 30, 2003 were as follows (in thousands):

	December 31, 2003	September 30, 2003
Global Consumer Products	\$ 89,065	79,950
Specialty distribution Sally	4,513	4,513
	<u>\$ 93,578</u>	<u>84,463</u>

The increase in Global Consumer Products trade names was mainly attributable to the acquisition of a nutritional supplement product line in Norway by the company's Cederroth International subsidiary and the effect of foreign exchange rates.

(9) ACQUISITION

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

On December 1, 2003, the company acquired the net assets of West Coast Beauty Supply, a full-service distributor of professional beauty products, in order to expand the geographic area served by Sally Beauty Company's Beauty Systems Group. The total amount paid for the acquisition in the first quarter of fiscal year 2004 was \$117.8 million. In addition, approximately \$20.7 million will be paid over future periods in accordance with the purchase agreement. Total goodwill of \$94.7 million, including the \$20.7 million of estimated future payments, was recorded as a result of the acquisition. The acquisition was accounted for using the purchase method and, accordingly, the results of operations of West Coast Beauty Supply have been included in the consolidated financial statements from the date of acquisition. West Coast Beauty Supply is included in the company's Specialty distribution Sally segment.

(9) ACQUISITION (continued)

The following table provides pro-forma results for the three months ended December 31, 2003 and 2002 as if West Coast Beauty Supply had been acquired on October 1, 2002. Anticipated cost savings and other effects of the planned integration of West Coast Beauty Supply are not included in the pro-forma results. The pro-forma amounts presented are not necessarily indicative of the results that would have occurred had the acquisition been completed as of October 1, 2002, nor are the pro-forma amounts necessarily indicative of future results.

The pro-forma amounts for the three months ended December 31, 2003 include the non-cash charge related to the conversion to a single class of common stock. The non-cash charge reduced net earnings by \$41.1 million and basic and diluted net earnings per share by 46 cents and 45 cents, respectively, in the first quarter of fiscal year 2004. See note 2 for further discussion of the conversion.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

DESCRIPTION OF BUSINESS

Alberto-Culver Company and its consolidated subsidiaries (the company) have two segments for external financial reporting purposes. The Global Consumer Products segment consists of two divisions: (1) Alberto-Culver Consumer Products Worldwide, which develops, manufactures, distributes and markets branded beauty care products as well as branded food and household products to the United States, Canada and more than 120 other countries, and (2) Cederroth International, which manufactures, markets and distributes beauty and health care products throughout Scandinavia and in Europe. The company's Specialty distribution Sally segment consists of Sally Beauty Company which is comprised of two operations: (1) Sally Beauty Supply, a domestic and international chain of cash-and-carry outlets offering professional beauty supplies to both salon professionals and retail consumers and (2) Beauty Systems Group, a full-service beauty products distributor offering professional brands directly to salons and through its own sales force professional-only stores in exclusive geographical territories.

OVERVIEW

As discussed in Note 2, on October 22, 2003, the Board of Directors approved the conversion of all of the issued shares of Class A common stock into Class B common stock on a one share-for-one share basis in accordance with the terms of the company's certificate of incorporation. The conversion became effective after the close of business on November 5, 2003. The single class of common stock continues to trade on the New York Stock Exchange under the symbol ACV. Following the conversion, all outstanding options to purchase shares of Class A common stock became options to purchase an equal number of shares of Class B common stock.

The company accounts for its stock compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. Under these rules, the conversion to one class of common stock requires a remeasurement of the intrinsic value of all Class A stock options outstanding. As a result, the company will record a non-cash charge against pre-tax earnings of \$105.9 million (\$68.8 million after taxes) of which \$63.2 million (\$41.1 million after taxes) was recognized in the first quarter of fiscal year 2004, another \$23.6 million (\$15.3 million after taxes) will be recognized during the remainder of fiscal year 2004 and \$19.1 million (\$12.4 million after taxes) will be recognized over the following three fiscal years in diminishing amounts (hereafter the non-cash charge). The non-cash charges will reduce operating earnings, provision for income taxes, net earnings and basic and diluted net earnings per share. The balance sheet effect of the options remeasurement increased total stockholders' equity by \$22.1 million in the first quarter of fiscal year 2004 and resulted in the recognition of a deferred tax asset of the same amount. Thereafter, the remaining non-cash charges will increase total stockholders' equity and result in the recognition of additional deferred tax assets of \$8.3 million during the remainder of fiscal year 2004 and \$6.7 million over the following three fiscal years in diminishing amounts.

Net earnings excluding the non-cash charge, basic net earnings per share excluding the non-cash charge and diluted net earnings per share excluding the non-cash charge are used in the accompanying analysis of results of operations. These measures are non-GAAP financial measures as defined by Regulation G of the Securities and Exchange Commission. The non-cash charge relates to a change in the capital structure of the company rather than the normal operations of the company's core businesses. Management uses the non-GAAP financial measures excluding the non-cash charge to evaluate the operating results of the company and believes the presentation of these amounts provides the reader with information necessary to analyze the company's normal operations over various quarters. Reconciliations of these measures to the most directly comparable financial measures under generally accepted accounting principles (GAAP) in the United States are provided in the Reconciliation of Non-GAAP Financial Measures section of Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A).

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

On January 21 2004, the Board of Directors approved a 3-for-2 stock split in the form of a 50% stock dividend on the company's outstanding shares. The additional shares will be distributed February 20, 2004 to shareholders of record at the close of business on February 2, 2004. The stock dividend is being distributed only on outstanding shares and not on shares held in treasury. All share and per share information in this report, except for treasury shares, has been restated to reflect the 50% stock dividend.

On January 22, 2004, the shareholders approved an amendment to the company's certificate of incorporation that eliminated Class A common stock from the authorized capital of the company's charter and redesignated the Class B common stock to Common Stock. The newly designated Common Stock continues to trade on the New York Stock Exchange under the symbol ACV.

RESULTS OF OPERATIONS

First Fiscal Quarter Ended December 31, 2003 versus First Fiscal Quarter Ended December 31, 2002

The company achieved record net sales of \$764.8 million in the first quarter of fiscal year 2004, up \$68.0 million or 9.8% over the comparable period of the prior year. Current quarter sales increased by 3.2% due to the effect of foreign exchange rates.

Net earnings were \$1.7 million in the first quarter of fiscal year 2004 versus \$36.0 million in the prior year. The lower net earnings in the current year resulted from the non-cash charge of \$41.1 million, net of income taxes, discussed in the Overview section of the MD&A. As a result, basic earnings per share were 2 cents in the current quarter versus 41 cents last year and diluted earnings per share were 2 cents in fiscal year 2004 compared to 40 cents in the prior year.

Net earnings excluding the non-cash charge were \$42.8 million for the three months ended December 31, 2003 or 18.8% higher than the prior year's first quarter net earnings of \$36.0 million. Basic earnings per share excluding the non-cash charge were 48 cents in the first quarter of fiscal year 2004, which was 7 cents or 17.1% higher than the same period of fiscal year 2003. Diluted earnings per share excluding the non-cash charge for the current quarter increased 17.5% to 47 cents from 40 cents in the same period of the prior year.

Compared to the same period of the prior year, sales of Global Consumer Products increased 7.2% in the first quarter of fiscal year 2004. The current year increase was primarily due to the effect of foreign exchange rates, which increased sales by 6.2%, and higher sales of TRESemme hair care products, St. Ives Swiss Formula skin care products and Mrs. Dash seasonings. These increases were partially offset by lower sales of Pro-Line's ethnic hair care products and decreased sales for custom label operations.

The Specialty distribution Sally (Sally) business segment achieved a sales increase of 10.9% for the first quarter of fiscal year 2004 compared to the same period of the prior year. The current year sales increase was mainly attributable to the expansion of Sally's full-service operations, including the acquisition of West Coast Beauty Supply in December, 2003, higher sales for established Sally Beauty Company stores, the addition of new stores during the year and the effect of foreign exchange rates.

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

Cost of products sold as a percentage of net sales was 50.0% for the first quarter of fiscal year 2004 compared to 50.6% for the first quarter of the prior year. The decrease in the cost of products sold percentage in the first quarter of fiscal year 2004 was primarily attributable to cost savings programs and efforts to control obsolete inventory for Alberto-Culver Consumer Products Worldwide and improved vendor pricing for Sally.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Compared to the prior year, advertising, marketing, selling and administrative expenses in fiscal year 2004 increased \$28.2 million or 10.0% for the first quarter. The increase primarily resulted from the higher selling and administrative costs associated with the growth of the Sally Beauty Company business and higher expenditures for advertising and marketing.

Advertising and marketing expense was \$57.8 million for the first quarter of fiscal year 2004 versus \$49.4 million for the first quarter of fiscal year 2003. The \$8.4 million increase in the current quarter primarily resulted from higher advertising expenditures for St. Ives Swiss Formula skin care products, Alberto VO5 hair care products and Mrs. Dash seasonings along with the effects of foreign exchange rates for Alberto-Culver Consumer Products Worldwide and increases related to the growth of Sally Beauty Company.

The provision for income taxes as a percentage of earnings before income taxes was 35.0% for the first quarter of fiscal year 2004 compared to 36.0% for the first quarter of fiscal year 2003. The lower tax rate for the first quarter of fiscal year 2004 is mainly due to the mix of foreign taxable earnings.

FINANCIAL CONDITION

December 31, 2003 versus September 30, 2003

Working capital at December 31, 2003 was \$673.3 million, a decrease of \$26.7 million from \$700.0 million at September 30, 2003. The resulting ratio of current assets to current liabilities was 2.48 to 1.00 at December 31, 2003 compared to 2.50 to 1.00 at September 30, 2003. The decreases in working capital and the ratio of current assets to current liabilities was primarily due to cash outlays for the acquisition of West Coast Beauty Supply in December, 2003, capital expenditures and cash dividends, partially offset by working capital generated from operations.

Cash and cash equivalents decreased \$117.9 million during the first three months of fiscal year 2004 to \$252.2 million primarily due to the acquisition of West Coast Beauty Supply in December, 2003, capital expenditures and cash dividends. These outflows were partially offset by cash flow provided by operating activities.

Inventories increased \$70.5 million during the first three months of fiscal year 2004 to \$601.6 million primarily due to the acquisition of West Coast Beauty Supply in December, 2003, the timing of inventory purchases, the growth of the Sally Beauty business, including new stores and new product lines, and the weakening of the U.S. dollar versus certain foreign currencies.

Net goodwill increased \$97.8 million during the first three months of fiscal year 2004 mainly due to the acquisition of West Coast Beauty Supply.

Net trade names increased \$9.1 million during the first three months of fiscal year 2004 primarily due to the acquisition of a nutritional supplement product line in Norway by the company's Cederroth International subsidiary in December, 2003.

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

Accounts payable increased \$11.0 million during the first three months of fiscal year 2004 mainly due to the operations of West Coast Beauty Supply, which was acquired in December, 2003, and the timing of inventory purchases and vendor payments.

Accrued expenses decreased \$15.0 million in the first quarter of fiscal year 2004 to \$207.8 million primarily due to payments under various incentive plans and semi-annual interest payments on the company's \$320 million of public debt securities. These decreases were partially offset by the addition of accrued expenses attributable to the acquisition of West Coast Beauty Supply in December, 2003.

Deferred income taxes and accrued income taxes decreased \$27.0 million during the first three months of fiscal year 2004. The decrease in deferred income taxes was primarily due to the deferred tax asset of \$22.1 million recorded in the first quarter in connection with the non-cash charge related to the conversion to a single class of common stock. The decrease in accrued income taxes was mainly due to the tax benefits realized from the exercise of employee stock options, partially offset by higher current income taxes payable resulting from increased taxable earnings.

Other liabilities increased \$14.7 million during the first three months of fiscal year 2004 primarily due to deferred purchase obligations related to the acquisition of West Coast Beauty Supply in December, 2003.

Additional paid-in capital increased \$83.7 million during the first quarter of fiscal year 2004. The increase was primarily related to the \$63.2 million of additional paid-in capital associated with the conversion to a single class of common stock and additional paid-in capital from the exercise of employee stock options.

Accumulated other comprehensive income - foreign currency translation decreased \$18.0 million during the first three months of fiscal year 2004 mainly due to the weakening of the U.S. dollar versus certain foreign currencies, primarily the Swedish krona, British pound, Euro, Canadian dollar and Australian dollar.

FORWARD - LOOKING STATEMENTS

This Quarterly Report on Form 10-Q and the documents incorporated by reference herein, if any, may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Such statements are based on management's current expectations and assessments of risks and uncertainties and reflect various assumptions concerning anticipated results, which may or may not prove to be correct. Some of the factors that could cause actual results to differ materially from estimates or projections contained in such forward-looking statements include: the pattern of brand sales, including variations in sales volume within periods; competition within the relevant product markets, including the ability to develop and successfully introduce new products, ensuring product quality, pricing, promotional activities, introduction of competing products and continuing customer acceptance of existing products; loss of distributorship rights; risks inherent in acquisitions and strategic alliances; the loss of one or more key employees; the effects of a prolonged United States or global economic downturn or recession; changes in costs, including changes in labor costs, raw material prices or advertising and marketing expenses; the costs and effects of unanticipated legal or administrative proceedings; unanticipated effects of the conversion to a single class of common stock; health epidemics; and variations in political, economic or other factors such as currency exchange rates, inflation rates, tax changes, legal and regulatory changes or other external factors over which Alberto-Culver Company has no control. Alberto-Culver Company has no obligation to update any forward-looking statement in this Quarterly Report on Form 10-Q or any incorporated document.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in the company's market risk during the three months ended December 31, 2003.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this quarterly report on Form 10-Q, the company carried out an evaluation, under the supervision and with the participation of the company's management, including the chief executive officer and the chief financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act). Based upon that evaluation, the chief executive officer and the chief financial officer of the company have concluded that Alberto-Culver Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
