**PROXY STATEMENT**

**Voting Information**

Who may vote. Shareholders recorded in our stock register on March 15, 2004, may vote at the meeting. As of that date, there were 80,000,000 shares of our common stock outstanding. Each share of common stock has one vote.

CenterPoint Energy, Inc. currently indirectly owns 64,764,240 shares, or approximately 81%, of our common stock. CenterPoint Energy will be able to vote these shares at our annual meeting and intends to vote them in favor of the director candidates and in favor of the ratification of independent auditors.

Voting by proxy or in person. Your vote is important. You may vote in person at the meeting or by proxy. We recommend you vote by proxy even if you plan to attend the meeting. You may always change your vote at the meeting if you are a holder of record or have a proxy from the record holder. Giving us your proxy means that you authorize us to vote your shares at the meeting in the manner you indicated on your proxy. You may also provide your proxy using the Internet or telephone procedures described on the proxy card. You may vote for all, some, or none of our director candidates. You may also vote for or against the ratification of independent auditors or abstain from voting.

If you give us your proxy but do not specify how to vote, we will vote your shares in favor of the director candidates and in favor of the ratification of independent auditors. If any other matters properly come before the annual meeting, we will vote the shares in accordance with our best judgment and discretion, unless you withhold authority to do so in the proxy.

Your proxy may be revoked before it is voted by submitting a new proxy with a later date, by voting in person at the meeting, or by giving written notice to Mr. Scott E. Rozzell, Corporate Secretary, at Texas Genco's address shown above.

If you plan to attend the meeting and your shares are held by banks, brokers or investment plans (in street name), you will need proof of ownership to be admitted to the meeting. A recent brokerage statement or letter from your broker or bank are examples of proof of ownership.

Quorum needed. In order to carry on the business of the meeting, we must have a quorum. This means at least a majority of the outstanding shares of common stock eligible to vote must be represented at the meeting, either by proxy or in person. The shares owned by CenterPoint

## Edgar Filing: TEXAS GENCO HOLDINGS INC - Form DEF 14A

Energy are sufficient to represent a quorum.

Votes needed. The director candidates receiving the most votes will be elected to fill the open seats on the Board. Ratification of the appointment of independent auditors requires the favorable vote of a majority of the shares of common stock voted for or against the matter. Abstentions and broker non-votes count for quorum purposes. For voting purposes, however, abstentions and broker non-votes do not affect whether the appointment of independent auditors is ratified. Broker non-votes occur when a broker returns a proxy but does not have authority to vote on a particular proposal. The shares owned by CenterPoint Energy are sufficient to ensure the requisite votes.

**Information About Directors**

Texas Genco's Board of Directors consists of one class of directors having a term of one year each. Directors serve until their respective successors are elected and qualified, or until resignation or removal. The Board's nominees for director are J. Evans Attwell, Donald R. Campbell, Robert J. Cruikshank, Patricia A. Hemingway Hall, David M. McClanahan, Scott E. Rozzell, David G. Tees and Gary L. Whitlock. If any nominee becomes unavailable for election, the Board of Directors can name a substitute nominee and proxies will be voted for each substitute nominee pursuant to discretionary authority, unless withheld.

As part of its business separation plan under the Texas electric restructuring law, on August 31, 2002, CenterPoint Energy became the parent holding company for Reliant Energy, Incorporated, Texas Genco and other subsidiaries. As part of the restructuring, Reliant Energy conveyed the formerly regulated electric generating assets of its electric utility division, Reliant Energy HL&P, to its indirect wholly owned subsidiary, Texas Genco. Also as part of the restructuring, on September 30, 2002, CenterPoint Energy distributed its remaining equity interest in Reliant Resources, Inc. to its shareholders. Reliant Resources, to which Reliant Energy had previously transferred substantially all of its unregulated businesses, ceased to be affiliated with CenterPoint Energy as of that date. On January 6, 2003, CenterPoint Energy distributed approximately 19 percent of the common stock it owned in Texas Genco to CenterPoint Energy's shareholders.

Information about each of the nominees, each of whom is a current director of Texas Genco, is set forth below.

**The Board of Directors recommends a vote FOR all nominees for Director.**

## **Board Organization and Committees; Other Governance Provisions**

The Board of Directors directs the management of the business and affairs of Texas Genco. The Board appoints committees to help carry out its duties. The current Board of Directors was constituted in March 2003. From December 2002 to March 2003, the Board was comprised of two directors, appointed by CenterPoint Energy, who were also executive officers of Texas Genco. Before December 2002, the Board was comprised of a sole director appointed by CenterPoint Energy. As of the date of this proxy statement, Texas Genco had the following committees:

The **Audit Committee** was formed in March 2003 and has three non-employee director members: Mr. Campbell (Chairman), Mr. Attwell and Mr. Cruikshank. The Board of Directors has determined that the members of the Audit Committee are independent within the meaning of the current listing standards of the New York Stock Exchange for audit committee membership, as well as revised listing standards that will become effective for the Company at the time of the annual meeting. In addition, the Board of Directors has determined that each of Mr. Campbell and Mr. Cruikshank is an audit committee financial expert within the meaning of the regulations of the Securities and Exchange Commission.

The primary responsibilities of the Audit Committee are to assist the Board of Directors in fulfilling its oversight responsibility for the integrity of the Company's financial statements, the qualifications, independence and performance of the Company's independent auditors, the performance of the Company's internal audit function, compliance with legal and regulatory requirements and the Company's systems of disclosure controls and internal controls. The Audit Committee has sole responsibility to appoint and, where appropriate, replace the Company's independent auditors and to approve all audit engagement fees and terms. A copy of the Audit Committee Charter can be found on the Company's website at [www.txgenco.com](http://www.txgenco.com) in the Investor Relations area. The Audit Committee Charter also appears as Appendix I. During 2003, the Audit Committee held eight meetings.

Edgar Filing: TEXAS GENCO HOLDINGS INC - Form DEF 14A

The **Compensation Committee** was formed in April 2003 and has two non-employee director members: Mr. Cruikshank (Chairman) and Ms. Hemingway Hall. The duties of the committee include oversight of

---

compensation for Texas Genco's executive officers who are compensated by Texas Genco, including salary, bonus and incentive awards. The committee has responsibility for incentive compensation plans. Prior to its formation, the functions of the Compensation Committee were performed for Texas Genco by CenterPoint Energy's compensation committee. A copy of the Compensation Committee charter can be found on the Company's website at [www.txgenco.com](http://www.txgenco.com) in the Investor Relations area. During 2003, the Compensation Committee met once.

**Director Independence.** The Board of Directors has determined that Ms. Hall and Messrs. Attwell, Campbell, and Cruikshank are independent within the meaning of the listing standards for general independence of the New York Stock Exchange. Under the listing standards, which will become effective for the Company at the time of the annual meeting, the Audit Committee is required to be composed solely of directors who are independent under the standard for general independence and an additional independence requirement applicable specifically to Audit Committee members under regulations of the Securities and Exchange Commission.

Texas Genco is a controlled company under the new listing standards of the New York Stock Exchange because more than 50% of the voting power of its outstanding stock is held by CenterPoint Energy. Controlled companies need not comply with the portions of the listing standards that (i) will require a majority of independent directors and (ii) will require that a nominating and corporate governance committee and a compensation committee be composed solely of independent directors. Texas Genco expects to utilize the exception from the requirement for a majority of independent directors and for a nominating and corporate governance committee consisting of independent directors in view of the approximate 81% indirect ownership of Texas Genco's outstanding common stock by CenterPoint Energy and CenterPoint Energy's intent to monetize its remaining interest in Texas Genco. In lieu of requiring a majority of independent directors, Texas Genco's Corporate Governance Guidelines provide that at least three members of the Board will be persons who meet the criteria for independence required by the New York Stock Exchange. Texas Genco does not intend to utilize the controlled company exception for its Compensation Committee, which consists entirely of directors who are independent within the meaning of the listing standards.

The listing standards relating to general independence consist of both a requirement for a board determination that the director has no material relationship with the listed company and a listing of several specific relationships that preclude independence. To assist it in making determinations of independence, the Board has adopted categorical standards as permitted under the listing standards. Although the Board considers all relevant facts and circumstances in assessing whether a director is independent, relationships falling within the categorical standards are not required to be disclosed or separately discussed in the proxy statement in connection with the Board's independence determinations. A relationship falls within the categorical standards adopted by the Board if it:

is a type of relationship addressed in

the rules of the Securities and Exchange Commission requiring proxy statement disclosure of relationships and transactions or

the provisions of the New York Stock Exchange Listed Company Manual listing relationships that preclude a determination of independence,

but under those rules neither requires disclosure nor precludes a determination of independence, or

consists of charitable contributions by the Company to an organization where a director is an executive officer and does not exceed the greater of \$1 million or 2% of the organization's gross revenue in any of the last three years.

In connection with its determinations as to independence, the Board considered the service of Mr. Cruikshank as a director of CenterPoint Energy until May 2003 as described below under Compensation of Directors. The Board did not regard that relationship as adversely affecting the independence of Mr. Cruikshank

## Table of Contents

or his ability to discharge the responsibilities of a director in the best interests of Texas Genco and its shareholders, having regard among other things for the fact that the concern of the listing standards is independence from management. All other relationships of the directors determined to be independent were considered to fall within the categorical standards adopted by the Board.

**Director Nomination Process.** The functions of a nominating committee are performed by the entire Board of Directors of Texas Genco. In light of the provision in the New York Stock Exchange listing standards exempting controlled companies from the requirement for a nominating committee consisting solely of independent directors as discussed above under Director Independence, the Board of Directors has determined that the functions relating to the nomination process can effectively be performed by the full Board. In assessing the qualifications of candidates for director, the Board will consider, in addition to qualifications set forth in the Company's bylaws, each potential nominee's personal and professional integrity, experience, reputation, skills, ability and willingness to devote the time and effort necessary to being an effective board member, and commitment to acting in the best interests of Texas Genco and its shareholders. The Board also takes into account that CenterPoint Energy owns approximately 81% of the Company's Common Stock. The Board also considers the need for independent directors to satisfy audit committee requirements under New York Stock Exchange rules and Securities and Exchange Commission regulations as well as to provide the contributions that independent directors make to good corporate governance generally. Texas Genco's Corporate Governance Guidelines provide that the Board's objective in making nominations to the Board is to select eligible individuals whose qualifications are such that they will contribute to the formulation and implementation of the Company's strategic direction.

Suggestions for potential nominees for director can come to the Board from a number of sources, including incumbent directors, officers, executive search firms and others. The Board will consider director candidates recommended by shareholders. The extent to which the Board dedicates time and resources to the consideration and evaluation of any potential nominee brought to its attention depends on the information available to it about the qualifications and suitability of the individual, viewed in light of the needs of the Board, and is at its discretion. The Board evaluates the desirability for incumbent directors to continue on the Board following the expiration of their respective terms, taking into account their contributions as Board members and the benefit that results from increasing insight and experience developed over a period of time.

Shareholders may submit the names and other information regarding individuals they wish the Board to consider for nomination as directors by writing to the Chairman of the Board at the address of the Company's principal executive offices indicated on the first page of this proxy statement. In order to be considered, submissions of potential nominees should be made no later than November 15 in the year prior to the meeting at which the election is to occur.

**Shareholder Communications with Directors.** The Company's Corporate Governance Guidelines provide, as required by the new New York Stock Exchange listing standards, that non-management directors of the Company will hold regular executive sessions without management participation. If at any time the non-management directors include one or more directors who do not meet the listing standards of the New York Stock Exchange for general independence, an executive session is required to be held at least once each year including only the non-management directors who are also independent. The Corporate Governance Guidelines provide that at any time when the Chairman of the Board is a non-management director, the Chairman will preside at each executive session, and that at all other times the non-management directors will select from among themselves a director to preside or establish a procedure whereby the presiding director will be selected. Interested parties who wish to make concerns known to the non-management directors may communicate directly with the non-management directors by making a submission in writing to Board of Directors (independent members) in care of the Company's Corporate Secretary at the address indicated on the first page of this proxy statement. In addition to the procedure for communications with the non-management directors, the entire Board of Directors will receive communications in writing from shareholders. Any such communications should be addressed to the Board of Directors in care of the Corporate Secretary at the same address.

## **Table of Contents**

**Attendance at Meetings of Shareholders.** Directors are expected to attend annual meetings of shareholders. All directors attended the 2003 annual meeting.

**Code of Ethics and Ethics and Compliance Code.** The Company has a Code of Ethics for its Chief Executive Officer, Chief Financial Officer, Chief Accounting Officer, Treasurer and Controller. This Code of Ethics may be accessed on the Company's website at [www.txgenco.com](http://www.txgenco.com) in the Investor Relations area. Information regarding any amendments to, or waivers of, the provisions of this code applicable to the Chief Executive Officer, Chief Financial Officer, Chief Accounting Officer, Treasurer and Controller will be posted at the same website location.

The Company also has an Ethics and Compliance Code applicable to directors, officers and employees. This code addresses, among other things, the requirements for a code of business conduct and ethics required under New York Stock Exchange listing standards that will become effective for the Company at the time of the annual meeting. This Code is also available on the Company's website at [www.txgenco.com](http://www.txgenco.com) in the Investor Relations area. Any waivers of this code for executive officers or directors may be made only by the Board of Directors or a committee of the Board and must be promptly disclosed to shareholders.

## **Compensation of Directors**

CenterPoint Energy and Texas Genco employees receive no extra pay for serving as directors of Texas Genco. Compensation for each non-employee director consists of an annual retainer fee of \$30,000 and a fee of \$1,000 for each Board and committee meeting attended. The Chairmen of the Audit Committee and the Compensation Committee receive the compensation payable to other non-employee directors plus a supplemental annual retainer of \$2,000 each.

Texas Genco director Robert J. Cruikshank was also a director of CenterPoint Energy until May 2003. As a non-employee director of CenterPoint Energy, Mr. Cruikshank received an annual retainer fee of \$30,000, a fee of \$1,200 for each board and committee meeting attended and an annual grant of shares of CenterPoint Energy common stock. Commencing in January 2004, Mr. Cruikshank began receiving benefits under CenterPoint Energy's director benefits plan in the form of an annual cash amount of \$30,000, payable for ten years, which is equal to the number of full years of his service as a director of CenterPoint Energy and its predecessors.

Mr. Cruikshank also participates in CenterPoint Energy's executive life insurance plan described under Retirement Plans, Related Benefits and Other Arrangements. This plan provides endorsement split-dollar life insurance with a death benefit equal to six times his annual retainer with coverage continuing after his termination of service. The annual premium due on the policy is payable solely by CenterPoint Energy and, in accordance with the Internal Revenue Code, Mr. Cruikshank must recognize imputed income, which is currently based on the policyholder's one-year term rates. The plan also provides for a paid tax gross-up to Mr. Cruikshank to cover his after-tax cost of this imputed income. Upon his death, Mr. Cruikshank's beneficiaries will receive the specified death benefit, and CenterPoint Energy will receive any balance of the insurance proceeds in excess of the death benefit. The plan is designed so that the proceeds CenterPoint Energy ultimately receives are sufficient to cover the cumulative premiums paid and the after-tax cost to CenterPoint Energy of the gross-up payments.

Mr. Cruikshank also served as a non-employee director of Reliant Resources during a period in 2002 when Reliant Resources was a subsidiary of CenterPoint Energy, and received retainer and meeting fees for that service of \$23,400.

**Table of Contents****Stock Ownership**

The following table shows stock ownership as of March 1, 2004 of known beneficial owners of more than 5% of Texas Genco's common stock, each director, the President and Chief Executive Officer, and the executive officers and directors as a group. - (1) Mr. Tees participates in CenterPoint Energy's retirement plan and benefit restoration plan under which accrued benefits are based on a participant's years of service, final average pay and covered compensation. Final average annual compensation means the highest compensation for 36 consecutive months out of the 120 consecutive months immediately preceding retirement, based solely on base salary and bonus amounts. For purposes of the table above, final average compensation is frozen as of December 31, 2008 pursuant to the terms of the plans. Mr. Tees' benefits are not expected to exceed the amounts reflected in that table. Mr. Tees had 35 years of credited benefit service under the retirement plan as of December 31, 2003. Mr. Tees has a retention agreement with CenterPoint Energy dated October 15, 2001 that provides for benefits upon the occurrence of certain events in connection with the anticipated sale of Texas Genco. The retention agreement provides for a supplemental retirement benefit to be determined by a set formula under the retirement plan of CenterPoint Energy at the time of Mr. Tees' termination of employment (if such termination occurs prior to December 31, 2005). The benefit would be offset by any transition retirement benefit or similar benefit provided by either CenterPoint or a purchaser in connection with the Texas Genco sale. The estimated amount

## Edgar Filing: TEXAS GENCO HOLDINGS INC - Form DEF 14A

of such supplemental lump sum benefit (assuming no offset) as of January 1, 2005 is \$788,618.

- (2) Amounts are determined on a single-life annuity basis and are not subject to any deduction for Social Security or other offsetting amounts. The qualified retirement plan limits compensation and benefits in accordance with provisions of the Internal Revenue Code. Retirement benefits based on compensation above the qualified plan limit or in excess of the limit on annual benefits are provided through the benefit restoration plan.

CenterPoint Energy maintains an executive benefits plan that provides certain salary continuation, disability and death benefits to certain key officers of CenterPoint Energy and certain of its subsidiaries. Mr. Tees participates in this plan pursuant to an individual agreement that generally provides for (a) a salary continuation benefit of 100% of his current salary for 12 months after death during active employment and then 50% of salary for nine years or until the deceased officer would have attained age 65, if later, and (b) if Mr. Tees retires after attainment of age 65, an annual postretirement death benefit of 50% of his preretirement annual salary payable for six years.

**Table of Contents**

CenterPoint Energy has an executive life insurance plan providing split-dollar life insurance in the form of a death benefit for designated officers. This plan provides endorsement split-dollar life insurance, with coverage continuing after the officer's termination of service at age 65 or later. Mr. Tees' retention agreement provides that he will be treated as having attained age 65 as of the date of his termination of employment with CenterPoint Energy or its subsidiaries for purposes of this plan. Mr. Tees has single-life coverage equal to two times current salary. The annual premium due on the policy is payable solely by CenterPoint Energy, and CenterPoint Energy is reimbursed by Texas Genco for this premium. In accordance with the Internal Revenue Code, Mr. Tees must recognize imputed income, which is currently based upon the policy holder's one-year term rates. The plan also provides for a paid tax gross-up to Mr. Tees to cover his after-tax cost of this imputed income. Upon his death, Mr. Tees' beneficiaries will receive the specified death benefit, and Texas Genco will receive any balance of the insurance proceeds payable in excess of such death benefit. The executive life insurance plan is designed so that the proceeds Texas Genco ultimately receives are sufficient to cover the cumulative premiums paid and the after-tax cost to Texas Genco of the gross-up payments.

Mr. Tees was eligible to participate in a former deferred compensation plan through 1989. Under this plan, Mr. Tees could elect to defer up to 25% of his salary and any annual incentive compensation awarded in the plan year. Participants in the plan who continue employment until at least age 60 receive equal distributions from the plan over a 15-year period beginning at age 65. Mr. Tees will reach age 60 in July of 2004; however, under the terms of his retention agreement, for purposes of this plan, Mr. Tees will be treated as if he had reached age 60 as of the date of his termination of employment with Texas Genco if that date occurs before July 2004. His benefits calculated in accordance with his retention agreement will be \$73,721 per year for 15 years beginning at age 65. Fixed rates of 19% to 24% were established for deferrals made in 1985 through 1988, as a result of then-higher prevailing rates and other factors. Current accruals of the above-market portion of the interest on deferred compensation amounts are included in the "All Other Compensation" column of the Summary Compensation Table. An amended and restated deferred compensation plan is currently in effect, the terms of which are different from the plan described above. Mr. Tees has been eligible to participate in this plan; however, to date he has not elected to do so.

CenterPoint Energy maintains a trust agreement with an independent trustee establishing a rabbi trust for the purpose of funding benefits payable to participants (including Mr. Tees) under CenterPoint Energy's deferred compensation plans, executive incentive compensation plans, benefit restoration plan and savings restoration plan, also referred to as the Designated Plans. The trust is a grantor trust, irrevocable except in the event of an unfavorable ruling by the Internal Revenue Service as to the tax status of the trust or certain changes in tax law. It is currently funded with a nominal amount of cash. Future contributions will be made to the grantor trust if and when required by the provisions of the Designated Plans or when required by CenterPoint Energy's Benefits Committee. The Benefits Committee consists of officers of CenterPoint Energy designated by the Board of Directors and has general responsibility for funding decisions, selection of investment managers for CenterPoint Energy's retirement plan and other administrative matters in connection with other employee benefit plans of CenterPoint Energy. If there is a change of control of CenterPoint Energy (substantially the same as the definition in Mr. Tees' severance agreement), the grantor trust must be fully funded, within 15 days following the change of control, with an amount equal to the entire benefit to which each participant would be entitled under the Designated Plans as of the date of the change of control (calculated on the basis of the present value of the projected future benefits payable under the Designated Plans). The assets of the grantor trust are required to be held separate and apart from the other funds of CenterPoint Energy and its subsidiaries, but remain subject to claims of general creditors under applicable state and federal law.

In December 2003, CenterPoint Energy entered into severance agreements with certain executive officers, including Mr. Tees. The severance agreement, effective January 1, 2004, provides for the payment of certain benefits in the event of a Covered Termination of employment occurring after the execution of a binding agreement to effect a Change of Control or within two years after the date of a Change of Control. A Change of Control will be deemed to occur under the severance agreement if (a) any person or group becomes the direct or indirect beneficial owner of 30% or more of CenterPoint Energy's outstanding voting securities, unless acquired

**Table of Contents**

directly from CenterPoint Energy; (b) a majority of the Board members changes; (c) there is a merger or consolidation of, or involving, CenterPoint Energy (a transaction) unless, (i) more than 70% of the surviving corporation's outstanding voting securities is owned by former shareholders of CenterPoint Energy, (ii) if the transaction involves CenterPoint Energy's acquisition of another entity, then the total fair market value of such consideration, plus long-term debt of the entity or business being acquired, does not exceed 50% of the total fair market value of CenterPoint Energy's outstanding voting securities, plus CenterPoint Energy's consolidated long-term debt (determined immediately prior to the consummation of the transaction by a majority of the incumbent Board), (iii) no person is the direct or indirect beneficial owner of 30% or more of the then outstanding shares of voting stock of the parent corporation resulting from the transaction and (iv) a majority of the members of the board of directors of the parent corporation resulting from the transaction were members of the Board immediately prior to consummation of the transaction; or (d) the sale or disposition of 70% or more of CenterPoint Energy's assets (an asset sale) unless (i) individuals and entities that were beneficial owners of CenterPoint Energy's outstanding voting securities immediately prior to the asset sale are the direct or indirect beneficial owners of more than 70% of the then outstanding voting securities of CenterPoint Energy (if it continues to exist) and of the entity that acquires the largest portion of the assets (or the entity, if any, that owns a majority of the outstanding voting stock of such acquiring entity), and (ii) a majority of the members of Board (if CenterPoint Energy continues to exist) and of the entity that acquires the largest portion of the assets (or the entity, if any, that owns a majority of the outstanding voting stock of such acquiring entity) were members of the Board immediately prior to the asset sale.

Under the severance agreement, a Covered Termination occurs if the officer's employment is terminated for reasons other than death, disability as defined in the Company's long-term disability plan, termination on or after age 65, involuntary termination for Cause (as defined), or resignation of the officer unless such resignation is due to (a) a failure to maintain the officer in his position or a substantially equivalent position; (b) a significant adverse change in the authorities, powers, functions, responsibilities or duties held; (c) a reduction in the officer's base salary; (d) a significant reduction in the officer's qualified, nonqualified and welfare benefits; (e) a reduction in the officer's overall compensation; (f) a change in the location of the officer's principal place of employment by more than 50 miles; or (g) a failure to provide directors and officers liability insurance covering the officer. If Mr. Tees experiences a Covered Termination of employment, he will be entitled to a lump-sum payment of two times the sum of his base salary plus target short-term incentive plan bonus, as well as certain welfare benefits for a period of two years. Two years of service and age will be added for benefit purposes under the retirement plan. The severance agreement also provides for a pro rata distribution of the short-term incentive plan bonus for the current plan year, as well as continued coverage under the executive life insurance plan. In addition, the agreement provides for career transition placement services, the reimbursement of legal fees incurred related to the severance, financial planning fees under the Company's program for a period of up to the earlier of (a) six months or (b) when the maximum reimbursement amount has been reached and a tax gross-up payment to cover any excise taxes, interest and penalties that may be assessed on the officer as a result of the severance payment. The term of the severance agreements is three years, with an evergreen provision under which, at the election of CenterPoint Energy's board of directors, the term may be extended for an additional year on an annual basis.

The costs of the benefits provided to Mr. Tees under the CenterPoint Energy plans described above are borne by Texas Genco.

**Report of the Compensation Committee**

The Texas Genco Compensation Committee was formed in April of 2003. During 2003, the various components of executive compensation were determined either by CenterPoint Energy's or Texas Genco's Compensation Committee and recommended to its respective Board. CenterPoint Energy determined base pay and short-term incentive compensation for Mr. Tees prior to the organization of the Texas Genco Compensation Committee, and long-term incentive compensation was determined by Texas Genco.

**Compensation Policy**

It is the executive compensation policy of Texas Genco to have compensation programs that:

attract, retain and encourage the development of highly qualified and experienced executives;

strengthen the relationship between individual pay and performance;

promote overall corporate performance; and

provide compensation that is externally competitive and internally equitable.

CenterPoint Energy retained an independent consulting firm this year to review the competitiveness of Mr. Tees' base pay, short-term incentive and long-term incentive targets. A group of both utility and other industrial companies was used to determine the appropriate mix of base pay, short-term incentives and long-term incentives for Mr. Tees. The companies included in the compensation review are not identical to the companies referred to in the Stock Performance Graph on page 14 because the Compensation Committee believes that Texas Genco's most direct competitors for executive talent are not limited to the companies included in the Performance Graph. In establishing individual compensation targets, the Compensation Committee considers the level and nature of responsibility, experience and its own subjective assessment of performance. The Compensation Committee generally considers that the objectives of Texas Genco's pay philosophy are best served when each element of compensation for Mr. Tees, which includes base salary, short-term incentive and long-term incentive, approximates the 50th percentile of the market represented by the companies included in the review.

The Compensation Committee evaluates each element of compensation separately and in relation to the other elements of an executive's total compensation package. The percentage of an executive's compensation that is variable or performance-based generally increases with higher levels of total compensation. The result is that the majority of the executive officer's compensation is considered at risk. The ultimate value of this at-risk compensation is determined based on the performance of the company.

*Base Salary.* The CenterPoint Energy's Compensation Committee's recommendation to its Board concerning Mr. Tees' base salary is based on its analysis of salary levels for executive officer positions using available survey data, and its subjective evaluation of Mr. Tees' individual performance and level of responsibility.

## Edgar Filing: TEXAS GENCO HOLDINGS INC - Form DEF 14A

*Short-Term Incentive Compensation.* Annual bonuses for the 2003 plan year are paid pursuant to CenterPoint Energy's short-term incentive plan, which provides for cash bonuses based on achievement over the course of the year of performance objectives approved by the Compensation Committee at the commencement of the year. The target annual incentive established at the beginning of the year 2003 for Mr. Tees was 50% of base salary. Actual payouts under the plan can vary from 0% to 200% of the targeted amount. The performance goals for 2003 were based on CenterPoint Energy's earnings per share weighted at 60%, Texas Genco's earnings before interest and taxes weighted at 16%, capabilities and system performance goals weighted at 20% and a safety-related goal weighted at 4%. The performance of each of these goals ranged from 0% to 150%, resulting in Mr. Tees' cumulative achievement of 120% of target.

*Long-Term Incentive Compensation.* The current approach to long-term incentives consists of grants of performance units under the terms of the Texas Genco plan. For the performance cycle that began in 2003, Mr.

**Table of Contents**

Tees received a grant of performance units with a target value of \$100 each. The performance goals are based on total operation and maintenance and capital expenditures weighted 50% and a solid fuel equivalent forced outage rate weighted 50%. These performance goals are measurable over a three-year performance cycle. Performance levels for the units are calculated by determining the percentage of achievement for each objective and can range from 0% to 150% of target, resulting in payout values of \$0 to \$150 per unit.

For the performance cycle that ended in 2003, the cumulative performance achievement level was 32%, which was less than the 50% threshold level, resulting in no payout under the terms of the CenterPoint Energy plan.

**Chief Executive Officer Compensation**

In evaluating Mr. Tees' total compensation, the Compensation Committee considered his contributions to the overall success of Texas Genco through his leadership and individual performance. During 2003, the Compensation Committee of CenterPoint Energy set Mr. Tees' base salary at \$239,000 and his short-term incentive target at 50% of base salary. The Compensation Committee of Texas Genco set his long-term incentive target at 90% of base salary.

### **Transactions and Arrangements between CenterPoint Energy and Texas Genco**

During 2003, CenterPoint Energy and its affiliates derived revenues from sales of natural gas to Texas Genco totaling \$29 million.

CenterPoint Energy also provides some corporate services to Texas Genco. The costs of these services have been directly charged to Texas Genco using methods that management believes are reasonable. These methods include negotiated usage rates, dedicated asset assignment, and proportionate corporate formulas based on assets, operating expenses and employees. These charges are not necessarily indicative of those that would have been incurred had Texas Genco not been an affiliate of CenterPoint Energy. Amounts charged to Texas Genco for these services were \$32 million for 2003.

In connection with the distribution of a portion of Texas Genco's common stock to CenterPoint Energy's shareholders, CenterPoint Energy and Texas Genco entered into a separation agreement. This agreement contains provisions governing Texas Genco's relationship with CenterPoint Energy following the distribution and specifies the related ancillary agreements between Texas Genco and CenterPoint Energy. In addition, the separation agreement provides for cross-indemnities intended to place sole financial responsibility on Texas Genco and its subsidiaries for all liabilities associated with the current and historical business and operations Texas Genco conducts, regardless of the time those liabilities arose, and to place sole financial responsibility for liabilities associated with CenterPoint Energy's other businesses with CenterPoint Energy and its other subsidiaries. The separation agreement also contains indemnification provisions under which Texas Genco and CenterPoint Energy each indemnify the other with respect to breaches by the indemnifying party of the separation agreement or any ancillary agreements.

CenterPoint and Texas Genco have also entered into a transition services agreement under which CenterPoint Energy provides Texas Genco, through the earlier of such time as all services under the agreement are terminated or CenterPoint Energy ceases to own a majority of Texas Genco's common stock, various corporate support services that include accounting, finance, investor relations, planning, legal, communications, governmental and regulatory affairs and human resources, as well as information technology services and other previously shared services such as corporate security, facilities management, accounts receivable, accounts payable and payroll, office support services and purchasing and logistics. These services consist generally of the same types of services as have been provided on an intercompany basis prior to this distribution. The charges Texas Genco pays for these services are on a basis generally intended to allow CenterPoint Energy to recover the fully allocated direct and indirect costs of providing the services, plus all out-of-pocket costs and expenses, but without any profit to CenterPoint Energy, except to the extent routinely included in traditional utility cost of capital. Pursuant to a separate lease agreement, CenterPoint Energy has agreed to lease office space in its principal office building in Houston, Texas to Texas Genco for an interim period.

Texas Genco is a member of CenterPoint Energy's consolidated group for tax purposes, and Texas Genco will continue to file a consolidated federal income tax return with CenterPoint Energy while CenterPoint Energy retains its 81% interest in Texas Genco. Accordingly, Texas Genco has entered into a tax allocation agreement with CenterPoint Energy to govern the allocation of U.S. income tax liabilities and to set forth agreements with respect to certain other tax matters. CenterPoint Energy will be responsible for preparing and filing any U.S. income tax returns required to be filed for any company or group of companies of the CenterPoint Energy consolidated group, including all tax returns for Texas Genco for so long as it is a member of CenterPoint Energy's consolidated group. CenterPoint Energy will also be responsible for paying the taxes related to the returns it is responsible for filing. Texas Genco will be responsible for paying CenterPoint Energy its allocable

**Table of Contents**

share of such taxes. CenterPoint Energy will determine all tax elections for tax periods during which Texas Genco is a member of CenterPoint Energy's consolidated group. Generally, if there are tax adjustments related to Texas Genco which relate to a tax return filed for a period when Texas Genco was a member of the CenterPoint Energy consolidated group, Texas Genco will be responsible for any increased taxes and will receive the benefit of any tax refunds.

From time to time, Texas Genco has borrowed money from CenterPoint Energy or its subsidiaries. As of December 31, 2003, Texas Genco had no short-term or long-term working capital borrowings from CenterPoint Energy and its subsidiaries. Interest expense associated with borrowings during 2003 was \$7 million. The largest principal amount of such borrowings outstanding during 2003 was \$272 million, and the weighted average interest rate on the borrowings during 2003 was 6.2%. In addition, Texas Genco had net accounts payable to CenterPoint Energy and affiliates of \$8 million as of December 31, 2003.
