Total comprehensive income, consisting of net income and unrealized gains and losses on available for sale securities, net of taxes, was \$583,000 and \$178,000 for the three months ended March 31, 2004 and 2003.

NOTE E STOCK COMPENSATION PLAN

Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, encourages all entities to adopt a fair value based method of accounting for employee stock compensation plans, whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. However, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, whereby compensation cost is the excess, if any, of the quoted market price of the stock at the grant date (or other measurement date) over the amount an employee must pay to acquire the stock. Stock options issued under the company s stock option plans have no intrinsic value at the grant date and, under Opinion No. 25, no compensation cost is recognized for them. The company has elected to continue with the accounting methodology in Opinion No. 25. Presented below are the proforma disclosures of net income and earnings per share and other disclosures as if the fair value based method of accounting had been applied.

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-QSB may contain certain forward-looking statements consisting of estimates with respect to the financial condition, results of operations and business of the Company that are subject to various factors which could cause actual results to differ materially from these estimates. These factors include, but are not limited to, general economic conditions, changes in interest rates, deposit flows, loan demand, real estate values, and competition; changes in accounting principles, policies, or guidelines; changes in legislation or regulation; and other economic, competitive, governmental, regulatory, and technological factors affecting the Company s operations, pricing, products, and services. There are no pending legal proceedings other than those incurred in the normal course of business to which the Bank or Company is a party, or of which any of their property is the subject.

COMPARISON OF FINANCIAL CONDITION AT MARCH 31, 2004 AND DECEMBER 31, 2003

Total assets at March 31, 2004 increased by \$2.8 million or 1.0% to \$284.1 million compared to \$281.3 million at December 31, 2003. The Company had earning assets of \$269.2 million at month-end March 31, 2004 consisting of \$212.1 million in gross loans, \$49.6 million in investment securities and Federal Home Loan Bank (FHLB) stock and \$7.5 million in overnight investments. Total deposits as of March 31, 2004 increased by \$2.6 million or 1.2% to \$210.8 million compared to \$208.2 million at December 31, 2003. Total borrowed money as of March 31, 2004 decreased \$391,000 or .89% to \$47.9 million compared to \$48.3 million at December 31, 2003. Stockholders equity was \$24.5 million at March 31, 2004 compared to \$24.2 million at December 31, 2003 for an increase of \$317,000 or 1.2%. The increase resulted from net income of \$475,000, the exercise of stock options which provided net proceeds of \$17,000, other comprehensive income of \$108,000 offset by the payment of a cash dividend in the amount of \$283,000.

The Company recorded a \$118,000 provision for loan losses for the quarter ended March 31, 2004, representing a decrease of \$247,000 or 68% from the \$365,000 provision for the quarter ended March 31, 2003. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management. The Company has continued to provide provisions for loan losses principally as a result of the continued growth in the loan portfolio. Total loans receivable increased by \$7.5 million during the quarter ended March 31, 2004. The allowance for loan losses at March 31, 2004 of \$2.65 million equaled 1.25% of total loans outstanding and 945% of non-performing loans, which totaled \$280,000. The allowance for loan losses at December 31, 2003 of \$2.53 million equaled 1.24% of total loans outstanding and 766% of non-performing loans which totaled \$330,000.

The Company had investment securities available for sale of \$47.0 million at March 31, 2004. The portfolio decreased by \$3.2 million or 6.4% from the \$50.2 million balance at December 31, 2003 as the Company sold two available for sale securities for a gain of \$58,000. In addition the Company had investment securities held to maturity of \$1.9 million at March 31, 2004 and December 31, 2003.

Interest-earning deposits with banks at March 31, 2004 decreased by \$3.5 million or 31.8% to \$7.5 million compared to \$11.0 million at December 31, 2003. This decrease was primarily a result of the increase in cash and due from banks. The Company holds funds in interest-earning deposits with banks to provide liquidity for future loan demand and to satisfy fluctuations in deposit levels.

Non interest-earning assets at March 31, 2004 increased by \$2.2 million or 14.3% to \$17.6 million compared to \$15.4 million at December 31, 2003. The increase is primarily attributable to an increase of \$2.0 million to \$9.3 million in the cash and due from banks category. This primarily represents customer deposits that are in the process of collection and not available for overnight investment combined with cash on hand in the branches. Accrued interest receivable increased \$53,000 to \$1.2 million at March 31, 2004 as a result of the timing in the collection of interest income. Bank premises

and equipment was \$5.3 million at March 31, 2004, a decrease of \$72,000 from December 31, 2003. The net decrease resulted from depreciation of \$142,000 offset by purchases of \$70,000. Other real estate owned decreased by \$96,000 as a result of the sale of a 1-4 family property obtained through foreclosure. Other assets increased by \$315,000 at March 31, 2004 to \$1.8 million primarily as a result of the increase in other receivables and capitalized merger expenses.

Total deposits increased \$2.6 million or 1.3% from \$208.2 million at December 31, 2003 to \$210.8 million at March 31, 2004. Total securities sold under agreement to repurchase decreased \$224,000 or 1.1% from \$19.7 million at December 31, 2003 to \$19.4 million at March 31, 2004. In addition, Capital Trust I maintained Trust Preferred Securities in the amount of \$3.5 million at a fixed rate of 9%. Capital Trust II maintained Trust Preferred Securities in the amount of \$10.0 million at a rate based off 90 day LIBOR.

Other liabilities increased by \$269,000 to \$851,000 or 46.2% at March 31, 2004 from \$582,000 at December 31, 2003. The increase was primarily due to the increase in accrued expenses.

Comparison of Results of Operations for the Three Months Ended March 31, 2004 and 2003

Net Income The Company generated net income for the three months ended March 31, 2004 of \$475,000 compared to a profit for the three months ended March 31, 2003 of \$263,000. On a fully diluted per share basis earnings were \$.15 for 2004 compared to \$.09 for 2003. Return on average assets was 0.69% and 0.48% and return on average equity was 7.84% and 4.61% for the three months ended March 31, 2004 and 2003, respectively. Earnings for the three months ended March 31, 2004 were positively impacted by strong growth in average earning assets and by increases in net interest income and non-interest income.

Net Interest Income. Net interest income increased \$424,000 from \$1.8 million for the three months ended March 31, 2003 to \$2.2 million for the three months ended March 31, 2004. Total interest income benefited from growth in average earning assets.

Net interest margin is interest income earned on loans, securities and other earning assets, less interest expense paid on deposits and borrowings, expressed as a percentage of total average earning assets. The net interest margin for the quarter ended March 31, 2004 was 3.38% compared to 3.47% for the same quarter in 2003. The decrease in net interest margin resulted primarily from the decrease in yields on the Bank s loan portfolio. The interest rate spread, which is the difference between the average yield on earning assets and the cost of interest-bearing funds, decreased 13 basis points from 2.97% in the quarter ended March 31, 2003 to 2.84% for the same quarter in 2004.

Provision for Loan Losses. The Company s provision for loan losses for the quarter ended March 31, 2004 was \$118,000, representing a \$247,000 or 68% decrease from the \$365,000 recorded for the quarter ended March 31, 2003. While the Company has continued to provide provisions for loan losses as a result of the continued growth in the loan portfolio, the provision in the 2003 quarter was greater due to the charge-off of a loan in the amount of \$138,000 for which no previous loan allowance had been recorded. Provisions for loan losses are charged to income to bring the allowance for loan losses to a level deemed appropriate by management.

Non-interest Income. Non-interest income increased by \$22,000 or 3.2% to \$702,000 for the three months ended March 31, 2004 compared with \$680,000 for the same period in the prior year. Non-interest income as a percentage of total revenue (defined as net interest income plus non-interest income) decreased to 24% for the three months ended March 31, 2004 from 28% for the same period in the prior year. The largest components of non-interest income were service charges on deposit accounts of \$465,000 for the quarter ended March 31, 2004 as compared to \$467,000 for the same period in 2003 or a 0.4% decrease and fees from mortgage banking operations of \$66,000 in 2004 as compared to \$140,000 in 2003 or a 52.9% decrease. Fees from mortgage banking operations decreased due to a slowdown in the refinancing market in the first quarter of 2004. These decreases were offset by a gain on the sale of investment securities in the amount of \$58,000 and rental income received in the amount of \$20,000 from the lease of excess space in one of our branch locations which began April 2003.

Non-interest Expense. Total non-interest expense increased from \$1.7 million for the three months ended March 31, 2003 to \$2.0 million for the same period in 2004. This 21% increase was primarily due to increased expenses resulting from the full operation of all eight branches in 2004. In the first quarter of 2003, only six of our eight branches had been fully operational for the entire quarter.

Provision for Income Taxes. The Company s provision for income taxes, as a percentage of income before income taxes, was 37.3% and 36.5% for the three months ended March 31, 2004 and 2003, respectively.
