Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenue

Revenue for the first quarter of 2004 was \$527,737, an increase of \$77,531 or 17.2% over the first quarter of 2003. Virtually all of this increase was due to oil and gas operations, which represented 86% of 2004 revenue and 84.1% of 2003 revenue. An increase in agriculture revenue in 2004 over 2003 off set the decline in timber revenue for the same periods. Of the \$75,579 increase in oil and gas revenues for the first quarter of 2004 over the first quarter of 2003, \$39,321 was from new production at Castor Creek and the balance was due to higher oil and gas prices.

Operating Expenses

Operating expenses increased \$46,532 or 46.9% in the first quarter of 2004 compared to the first quarter of 2003. Of this amount, \$13,400 was due to an increase in severance taxes on oil and gas due to higher revenues from oil and gas. General and administrative expenses increased \$38,635. Of this amount \$20,319 was attributable to franchise tax paid in the first quarter of 2004 but not paid until the second quarter of 2003, and \$8,000 was due to additional expenses in 2004 for preparing and mailing the proxies and annual report.

Financial Condition

Current assets plus securities available for sale totaled \$2,981,568 on March 31, 2004, compared to \$2,721,239 on December 31, 2003, and \$2,253,736 on March 31, 2003. Current liabilities, which were also total liabilities were \$312,953 on March 31, 2004, compared to \$201,995 on December 31, 2003, and \$176,099 on March 31, 2003. Net current assets plus securities available for sale minus total liabilities were \$2,668,615 on March 31, 2004, \$2,519,244 on December 31, 2003, and \$2,077,637 on March 31, 2003.

Management believes existing cash and short-term investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

Issues and Uncertainties

This Quarterly Report contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those listed below, which, among others, should be considered in evaluating the Company's financial outlook.

Edgar Filing: CALCASIEU REAL ESTATE & OIL CO INC - Form 10QSB

Revenues from oil and gas provide most of the Company's income. All of these revenues come from wells operated by other companies from property belonging to Calcasieu Real Estate & Oil Co., Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

Table of Contents

During the first quarter of 2004, Calcasieu Real Estate & Oil Co., Inc. received its first income from a new field, Castor Creek, developed and operated by Unit Petroleum Company. Unit has drilled and completed four wells. Calcasieu's ownership in this production varies from 2.083% to 4.167%. The income received in the first quarter was for the first well and was for several months production. We do not yet know how much all four wells will produce for Calcasieu.

Item 4. Controls and Procedures
