NOTE A - BASIS OF PRESENTATION

In management's opinion, the financial information, which is unaudited, reflects all adjustments (consisting solely of normal recurring adjustments) necessary for a fair presentation of the financial information as of and for the three and nine month periods ended September 30, 2004 and 2003, in conformity with accounting principles generally accepted in the United States of America. The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the consolidated financial statements filed as part of the Company's 2003 annual report on Form 10-KSB. This quarterly report should be read in conjunction with such annual report.

Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE C - PER SHARE RESULTS**

Basic earnings per share represents income available to common stockholders divided by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the company relate solely to outstanding stock options and warrants and are determined using the treasury stock method.

NOTE E BUSINESS COMBINATION

On November 5, 2003, the Company entered into an Agreement and Plan of Merger with FNB Bancshares, Inc. (First National), a bank holding company headquartered in Gaffney, SC, which is the parent company of First National Bank of the Carolinas (FNB). The acquisition was approved at a special shareholders meeting on March 4, 2004 and the transaction took place effective at the close of business on April 15, 2004. First National shareholders could elect to receive \$22.64 in cash for each share of First National stock they owned, exchange each share of First National stock for 1.6347 shares of American Community Bancshares, Inc. stock, or a combination of stock and cash. As a result of the combination, the Company paid \$7.1 million for shares exchanged for cash and has issued 617,343 additional shares of stock. The acquisition was accounted for using the purchase method of accounting, with the operating results of First National subsequent to April 15, 2004 included in the Company's financial statements. The Company's Board of Directors believes that the merger is in the best interest of the Company and its shareholders because it presents an important opportunity to increase shareholder value through growth by acquiring a financial institution in a market that is both a logical expansion for the Company and a means to expand into South Carolina.

A summary of the total purchase price of the transaction is as follows:

Table of Contents**AMERICAN COMMUNITY BANCSHARES, INC.****Notes to Consolidated Financial Statements****NOTE E BUSINESS COMBINATION (Continued)**

The following table reflects the unaudited pro forma combined results of operations for the three and nine months ended September 30, 2004 and 2003, assuming the acquisition had occurred at the beginning of the fiscal year 2003.

	Three Months Ended		Nine Months Ended

The pro forma net income for the three and nine months ended September 30, 2004 does not reflect approximately \$398,000 in acquisition related costs incurred by First National. In management's opinion, these unaudited results are not necessarily indicative of what actual combined results of operations might have been if the acquisition had been effective at the beginning of fiscal year 2003.

Aggregate amortization expense on intangible assets acquired from First National for the quarter ended September 30, 2004 totaled \$26,700. The estimated amortization expense on intangible assets acquired from First National for the years ending December 31, 2004 through 2008 is \$106,800 annually. The weighted average amortization period is 8.0 years for the intangible assets acquired from First National.

NOTE F - STOCK COMPENSATION PLAN

Statement of Financial Accounting Standards (SFAS) No. 123, *Accounting for Stock-Based Compensation*, encourages all entities to adopt a fair value based method of accounting for employee stock compensation plans, whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. However, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, whereby compensation cost is the excess, if any, of the quoted market price of the stock at the grant date (or other measurement date) over the amount an employee must pay to acquire the stock. Stock options issued under the company's stock option plans have no intrinsic value at the grant date and, under Opinion No. 25, no compensation cost is recognized for them. The Company has elected to continue with the accounting methodology in Opinion No. 25. Presented below are the pro forma disclosures of net income and earnings per share and other disclosures as if the fair value based method of accounting had been applied.

NOTE G CONTINGENT LIABILITY

On May 11, 2004, a Mecklenburg County, North Carolina jury returned a \$631,600 verdict against ACB. The verdict was the result of a suit brought by MC Contractors, Inc., f/k/a Mann Contractors (Mann). The case involved an account opened at ACB in 2001 on behalf of Mann by a person, who was, at the time, Vice President, Secretary, Director and a 50% owner of Mann. ACB has appealed the decision. At this time, management cannot determine the ultimate outcome of the appeal. An appellate decision could take from 12 to 24 months or more before a final determination. No provision for loss has been made in the consolidated financial statements due to the uncertainty of the final decision of this claim.

NOTE H RECENT ACCOUNTING PRONOUNCEMENTS

On July 1, 2004, the Company adopted FIN 46R which resulted in the deconsolidation of the Company's trust preferred subsidiaries, American Community Capital Trust I (Capital Trust I) and American Community Capital Trust II, Ltd (Capital Trust II). Upon deconsolidation, the junior subordinated debentures issued by the Company to the trusts were included in borrowings (instead of trust preferred securities) and the Company's equity interests in the trusts were included in non-marketable equity securities. As a result, non-marketable equity securities and borrowings increased by \$418,260. Except for accounting treatment, the relationship between the Company and Capital Trust I and Capital Trust II has not changed. Capital Trust I and Capital Trust II continue to be wholly owned trust preferred subsidiaries of the Company, and the full and unconditional guarantee of the Company for the repayment of the trust preferred securities remains in effect.
