## Table of Contents

### 1. Overview

#### A. Industry

##### (1) Industry characteristics and growth potential

- TFT-LCD technology is one of the most widely used technologies in the manufacture of flat panel displays and the demand for the flat panel displays is growing rapidly. There are high entry barriers due to its technology, capital-intensive characteristics, and the significant investments required to achieve economies of scale, among other factors. There is strong competition between a limited number of players within the industry and production capacity in the industry including ours is being continually increased.
- The demand for LCD panels for Notebook PC & Monitor has been closely related to the IT industry. The demand for LCD panels for TV is growing with the start of HDTV broadcasting and as LCD TV is anticipated to play a key role in the digital display area. In addition, LCD panel markets for applications, such as mobile phones, PDAs, medical applications and automobile navigation systems, among others, are growing steadily.
- The average selling prices of our display panels have declined in general and are expected to continually decline with time irrespective of industry-wide fluctuations as a result of, among other factors, technology advances and cost reductions.

##### (2) Cyclicalities

- The TFT-LCD business has high cyclicalities as a capital intensive business. In spite of the increase in demand for products, this industry has experienced periodic volatility caused by imbalances between demand and supply due to capacity expansion within the industry.
- Intense competition and demand growth expectations may result in panel manufacturers investing in manufacturing capacity on similar schedules, resulting in a surge in capacity when production is ramped up at new fabrication facilities.
- During such surges in capacity growth, our customers can exert and have exerted strong downward pricing pressure, resulting in sharp declines in average selling prices and significant fluctuations in our gross margins. Conversely, demand surges and fluctuations in the supply chain can lead to price increases.

##### (3) Competitiveness

- Our ability to compete successfully also depends on factors both within and outside our control, including product pricing, performance and reliability, successful and timely investment and product development, success or failure of our end-brand customers in marketing their brands and products, component and raw material supply costs, and general economic and industry conditions.
- Core competitiveness includes technology leadership, capability to design new products and premium products, timely investment in advanced fabs, cost leadership through application of large production lines, innovation of process and productivity, and collaborative customer relationships.

**Table of Contents**

- Most importantly, cost leadership and stable and long-term relationships with customers are critical to secure profit even in a buyer's market.
- A substantial portion of our sales is attributable to a limited group of end-brand customers and their designated system integrators. The loss of these end-brand customers, as a result of customers entering into strategic supplier arrangements with our competitors or otherwise, would thus result in reduced sales.
- Developing new products and technologies that can be differentiated from those of our competitors is critical to the success of our business. We take active measures to obtain international protection of our intellectual property by obtaining patents and undertaking monitoring activities in our major markets. It is also necessary to recruit and retain the experienced key staffs and highly skilled line operators.

(4) Sourcing material

- Materials are sourced in-house (color filters) as well as from domestic and overseas vendors. However, the domestic portion has grown due to the active participation of domestic vendors.
- The shortage of raw materials may arise temporarily due to the rapid increase in demand for raw materials from capacity expansion in the TFT-LCD industry.
- We have purchased, and expect to purchase, a substantial portion of our equipment from a limited number of qualified foreign and local suppliers. From time to time, increased demand for new equipment may cause lead times to extend beyond those normally required by the equipment vendors.

(5) Others

- Most TFT-LCD panel makers are located in Asia.
  - a. Korea: LG.Philips LCD, Samsung Electronics (including Joint Venture between Samsung Electronics and Sony Corporation), BOE-Hydis

b. Taiwan: AU Optronics, Chi Mei Optoelectronics, CPT, QDI, etc.

c. Japan: Sharp, Hitachi, etc.

d. China: SVA-NEC LCD, BOE-OT

B. Company

(1) Business overview

- We started the TFT-LCD business in 1998. We currently operate six fabrication facilities located in Gumi, Korea and three module facilities located in Gumi, Korea and Nanjing, China.

**Table of Contents**

- We became the first LCD maker in the world to commence commercial production at a 4th generation fab (P3) in July 2000 and at a 5th generation fab (P4) in March 2002 to meet the demand for large-size monitors.
- We started mass production at our 6th generation fab (P6) in August 2004, which provided us with a full line-up of products and which allows us to meet growing customer demand for LCD TV panels in addition to LCD panels for Notebook PC and Monitor, etc.
- Business area of the company for disclosure is limited to LCD business.

(2) Market shares

- World wide market share of large-size TFT-LCD panels ( $\geq 10$  ) based on revenue

	<u>2004</u>	<u>2003</u>
Panel for Notebook PC	19.7%	19.9%
Panel for Monitor	22.7%	23.4%
Panel for TV	19.9%	26.0%
Total	21.0%	22.5%

(Source: DisplaySearch Q1 2005)

(3) Market characteristics

- Due to the recent high growth in the display appliance market for the flat display format, the scale of the LCD market is growing at a rapid rate, resulting in expansion of the market centered in America, Japan, Europe and China.

(4) New business and forecast

- In March 2004, we broke ground for a new TFT-LCD industrial complex in Paju, Korea, and construction of P7 is currently in progress.
- We plan to commence mass production at P7 with an initial design capacity of 45,000 sheets per month, using 1,950 x 2,250 mm glass, during the first half of 2006. We may expand P7's capacity to 90,000 sheets per month depending on future market and other conditions. We currently estimate that the construction and build-out of P7, at a capacity of 90,000 sheets per month, will cost approximately W5.3 trillion.

B. Sales route and sales method

(1) Sales organization

- Sales departments for Notebook PC sales, Monitor sales, TV sales and applications sales, including sales planning & administration department, under Worldwide Sales EVP.
- Sales subsidiaries in America, Germany, Japan, Taiwan and China (Hong Kong, Shanghai) perform sales activities in overseas countries and provide technical support to customers.

\* There is a production subsidiary in Nanjing, China.

(2) Sales route

- LG.Philips LCD HQ & Nanjing subsidiary → Overseas subsidiaries(USA/Europe/Japan /Taiwan /Hong Kong/Shanghai) → System integrators, Branded customers → End users
- LG.Philips LCD HQ → System integrators, Branded customers → End users

(3) Sales method and condition

- Direct sales & sales through overseas subsidiaries

(4) Sales strategy

- To secure stable sales to major PC makers and electronic home appliance makers in world market, and to maintain strong leadership in growing and high value added products such as large monitor market, growing LCD TV market, car navigation market, avionics, medical and FA.

**Table of Contents**

- Sales order from end users to overseas subsidiaries → Information to HQ → Scheduling the production plan → Shipping products to subsidiaries → Sales to end users by overseas subsidiaries.

## 1) Development of 20.1-inch AMOLED

- Joint development of 20.1-inch AMOLED with LG Electronics

- Development of world's largest 20.1-inch wide AMOLED based on LTPS technology

## 2) Development of Copper bus line

- Next generation LCD technology to significantly improve brightness, definition and resolution, etc.

3) Development of World's largest size TFT LCD TV (55W)

- Stitch Lithography and Segmented Circuit Driving to cope with Large-size LCD Panel
- Achievement of High Contrast Ratio and Fast Response Time through new technologies
- Application of innovative panel technology to solve the weak point (gravity/touch stains) of large size

**Report of Independent Auditors**

To the Board of Directors and Shareholders of

LG.Philips LCD Co., Ltd.

We have audited the accompanying non-consolidated balance sheets of LG.Philips LCD Co., Ltd. (the Company ) as of December 31, 2004 and 2003, and the related non-consolidated statements of income, appropriations of retained earnings, and cash flows for the years then ended, expressed in Korean won. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the non-consolidated financial statements referred to above present fairly, in all material respects, the financial position of LG.Philips LCD Co., Ltd. as of December 31, 2004 and 2003, and the results of its operations, the changes in its retained earnings and its cash flows for the years then ended in conformity with accounting principles generally accepted in the Republic of Korea.

As discussed in Note 1 and 14, in July 2004, pursuant to Securities Registration Statement filed on July 16, 2004 with the Korea Stock Exchange, the Company sold 8,640,000 shares of common stock for gross proceeds of (Won)298,080 million. Concurrently, pursuant to a Form F-1 registration statement filed on July 15, 2004 with the U.S. Securities and Exchange Commission, the Company sold 24,960,000 shares of common stock in the form of American Depositary Shares ( ADSs ) for gross proceeds of US\$748,800 thousand. In September 2004, pursuant to underwriting agreement dated July 15, 2004, the Company sold an additional 1,715,700 shares of common stock in the form of ADSs for gross proceeds of US\$51,471 thousand. The Company intends to use the proceeds of these sales to fund the capital expenditures associated with the construction of its seventh generation TFT-LCD fabrication plant ( P7 ) and other LCD facility in Korea.

Accounting principles and auditing standards and their application in practice vary among countries. The accompanying non-consolidated financial statements are not intended to present the financial position, results of operations and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying financial statements are for use by those who are knowledgeable about Korean accounting principles or auditing standards and their application in practice.

### **2. Summary of Significant Accounting Policies**

The significant accounting policies followed by the Company in the preparation of its non-consolidated financial statements are summarized below.

#### **Basis of Financial Statement Presentation**

The Company maintains its accounting records in Korean won and prepares statutory financial statements in the Korean language (Hangul) in conformity with the accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Company that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English from the Korean language non-consolidated financial statements. Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company's financial position, results of operations or cash flows, is not presented in the accompanying non-consolidated financial statements.

#### **Accounting Estimates**

The preparation of the financial statements requires management to make estimates and assumptions that affect amounts reported therein. Although these estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future, actual results may differ from those estimates.

#### **Application of the Statements of Korean Financial Accounting Standards**

The Korean Accounting Standards Board has published a series of Statements of Korean Financial Accounting Standards ( SKFAS ), which will gradually replace the existing financial accounting standards, established by the Korean Financial Supervisory Board. As SKFAS No. 2 through No. 9 became applicable to the Company on January 1, 2003, and it adopted these statements in its financial statements for the year ended December 31, 2003.

Further, as SKFAS Nos. 10, 12 and 13 became applicable to the Company on January 1, 2004, it adopted these Standards in its financial statements for the year ended December 31, 2004.

As a result of these changes, (Won)57,487 million of non-operating expense has been reclassified to cost of sales for the year ended December 31, 2004 (2003 : (Won)27,007 million). These changes had no effect on ordinary income or net income.

**Cash and Cash Equivalents**

The Company considers cash on hand, bank deposits and highly liquid marketable securities with original maturities of three months or less to be cash and cash equivalents.

## **Table of Contents**

**LG. Philips LCD Co., Ltd.**

**Notes to Non-Consolidated Financial Statements**

**December 31, 2004 and 2003**

### **Revenue Recognition**

Sales of manufactured products are recognized when significant risks and rewards of ownership of the goods are transferred.

### **Allowance for Doubtful Accounts**

The Company provides an allowance for doubtful accounts and notes receivable based on the aggregate estimated collectibility of the receivables.

### **Inventories**

The Company accounts for inventories under the provision of SKFAS No.10, *Inventories*.

Inventories are stated at the lower of cost or market, with cost being determined using the weighted-average method, except for materials in-transit, which are stated at actual cost using the specific identification method. If the net realizable value of inventory is less than its cost, the carrying amount is reduced to the net realizable value. Any inventory valuation loss is added to the cost of sales.

### **Investments in Affiliates and Other Investments**

The Company accounts for equity and debt securities under the provision of SKFAS No. 8, *Investments in Securities*. This statement requires investments in equity and debt securities to be divided into one of three categories: trading, available-for-sale and held-to-maturity.

Securities are initially carried at cost, including incidental expenses, with cost being determined using the gross average method. Debt securities, which the Company has the intent and ability to hold to maturity, are generally carried at cost, adjusted for the amortization of discounts or premiums. Premiums and discounts on debt securities are amortized over the term of the debt using the effective interest rate method. Trading and available-for-sale securities are carried at fair value, except for non-marketable securities classified as available-for-sale securities, which are carried at cost. Non-marketable debt securities are carried at a value using the present value of future cash flows, discounted at the reasonable interest rate determined considering the credit ratings provided by the independent credit rating agencies.

Unrealized valuation gains or losses on trading securities are charged to current operations, and those resulting from available-for-sale securities are recorded as a capital adjustment, the accumulated amount of which shall be charged to current operations when the related securities are sold, or when an impairment loss on the securities is recognized. Impairment losses are recognized in the income statement when the recoverable amounts are less than the acquisition cost of securities or adjusted cost of debt securities for the amortization of discounts or premiums.

Investments in equity securities of companies, over which the Company exercises significant control or influence (controlled investees), are recorded using the equity method of accounting. Under the equity method, the Company records changes in its proportionate ownership of the book value of the investee in current operations, as capital adjustments or as adjustments to retained earnings, depending on the nature of the underlying change in book value of the investee. The Company discontinues the equity method of accounting for investments in equity method investees when the Company's share of accumulated losses of the investees equals the costs of the investments, and until the subsequent cumulative changes in its proportionate net income of the investees equals its cumulative proportionate net losses not recognized during the periods when the equity method was suspended.

**Table of Contents**

**LG. Philips LCD Co., Ltd.**

**Notes to Non-Consolidated Financial Statements**

**December 31, 2004 and 2003**

Differences between the initial purchase price and the Company's initial proportionate ownership of the net book value of the investee are amortized over less than 20 years using the straight-line method.

Unrealized profit arising from sales by the Company to equity method investees is fully eliminated. The Company's proportionate unrealized profit arising from sales by the equity method investees to the Company or sales between equity method investees is also eliminated.

Foreign currency financial statements of equity method investees are translated into Korean won using the basic exchange rates in effect as of the balance sheet date for assets and liabilities, and annual average exchange rates for income and expenses. Any resulting translation gain or loss is included in the capital adjustment account, a component of shareholders' equity.

**Property, Plant and Equipment**

The cost of property, plant and equipment includes purchase costs or manufacturing costs, incidental costs directly related to preparing the premises and equipment for use, and the discounted estimated costs to remove, dismantle or restore property, plant and equipment at the end of the estimated useful lives of the related assets when those costs meet the conditions for the recognition of liabilities.

Property, plant and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets as described below:

	<u>Estimated useful lives</u>
Buildings	20 - 40 years
Structures	20 - 40 years
Machinery and equipment	4 years
Vehicles	4 years
Tools, furniture and fixtures	4 years

Routine maintenance and repairs are charged to current operations as incurred. Betterments and renewals, which enhance the value of the assets over their recently appraised value, are capitalized.

The Company assesses the potential impairment of property, plant and equipment when there is evidence that events or changes in circumstances have made the recovery of an asset's carrying value to be unlikely. The carrying value of the assets is reduced to the estimated

realizable value and an impairment loss is recorded as a reduction in the carrying value of the related asset and charged to current operations. However, the recovery of the impaired assets would be recorded in current operations up to the cost of the assets, net of accumulated depreciation before impairment, when the estimated value of the assets exceeds the carrying value after impairment.

### **Intangible Assets**

Intangible assets, comprising industrial property rights, rights to use electronics and gas supply facilities, rights to use the industrial water facility, and software costs, are stated at cost, net of accumulated amortization. Amortization is computed using the straight-line method over the estimated useful lives of the assets ranging from four to ten years. Research and development costs are charged to current operations when incurred, and are included in operating expenses.

The Company assesses the potential impairment of intangible assets when there is evidence that events or changes in circumstances have made the recovery of an asset's carrying value to be unlikely. The carrying value of the assets is reduced to the estimated realizable value, and an impairment loss is recorded as a reduction in the carrying value of the related asset and charged to current operations. However, the recovery of the impaired assets would be recorded in current operations up to the cost of the asset, net of accumulated amortization before impairment, when the estimated value of the assets exceeds the carrying value after impairment.

### **Discounts on Debentures**

Discounts on debentures are amortized over the repayment period of the debentures using the effective interest rate method. Amortization is included in interest expense.

### **Foreign Currency Translation**

Monetary assets and liabilities denominated in foreign currencies are translated into Korean won at the basic rates in effect at the balance sheet date ((Won)1,035.6:US\$1 as of December 31, 2004; (Won)1,194.3:US\$1 as of December 31, 2003), and the resulting translation gains and losses are recognized in current operations.

### **Warranty Reserve**

The Company provides a warranty relating to product defects for a specified period of time after sale. Estimated costs of product warranties are charged to cost at the time of sale and are included in the accompanying balance sheet as a warranty reserve.

**Accrued Severance Benefits**

Employees and directors with at least one year of service are entitled to receive a lump-sum payment upon termination of their employment, based on their length of service and rate of pay at the time of termination. Accrued severance benefits represent the amount which would be payable assuming all eligible employees and directors were to terminate their employment as of the balance sheet date.

The Company has made deposits to the National Pension Fund in accordance with the National Pension Funds Law. The use of the deposit is restricted to the payment of severance benefits. Accordingly, accrued severance benefits in the accompanying balance sheet are presented net of this deposit.

### **December 31, 2004 and 2003**

Accrued severance benefits are funded through a group severance insurance plan and are presented as a deduction from accrued severance benefits.

### **Sales or Discount of Accounts Receivable**

The Company sells or discounts certain accounts or notes receivable to financial institutions, and accounts for the transactions as sales of the receivables if the control over the receivables are substantially transferred to the buyers. The losses from the sales of the receivables are charged to current operations as incurred.

### **Derivatives**

The Company enters into derivative transactions to hedge against financial risks. Derivatives are classified into: cash flow hedges, hedges for fluctuations in fair market value caused by the changes in foreign exchange rates, and those acquired for profit. In case of cash flow hedges, unrealized holding gains and losses are recorded as capital adjustments in the balance sheet. In the case of hedging for fluctuations in fair market value, unrealized holding gains and losses are recorded in the income statement. If the contract expires, the gains and losses from derivative transactions are presented in the income statement in case of hedges for fluctuations in fair market value and are offset against sales in case of cash flow hedging.

### **Income Taxes**

The Company recognizes deferred income tax assets and liabilities, which represent temporary differences between the financial reporting and tax bases of assets and liabilities. Deferred income tax assets and liabilities are computed on such temporary differences, including available net operating loss carry-forwards and tax credits, by applying enacted statutory tax rates applicable to the years when such differences are expected to reverse. Deferred income tax assets are recognized when it is almost certain that such deferred income tax assets will be realized. The total income tax provision includes the current income tax expense computed under applicable tax regulations and the changes in the balances of deferred income tax assets and liabilities during the period.

Investment tax credits are accounted for by the flow-through method whereby income taxes are reduced in the period the assets giving rise to such credits are placed in service. To the extent such credits are not currently utilized, deferred income tax assets, subject to considerations on their recognition, are recognized for the carry-forward amount.

The beneficiaries of the severance insurance deposit are the Company's employees.

**13. Commitments and Contingencies**

As of December 31, 2004, the Company has bank overdraft agreements with various banks amounting to (Won)59,000 million.

As of December 31, 2004, the Company has a Revolving Credit Facility Agreement with Shinhan Bank and Hana Bank totaling (Won)200,000 million.

As of December 31, 2004, the Company has agreements with several banks for U.S. dollar denominated accounts receivable negotiating facilities up to an aggregate of US\$865 million. The Company has made agreements with several banks in relation to the opening of letters of credit amounting to (Won)140,000 million and US\$205 million. The related amounts of negotiated foreign currency receivables outstanding as of December 31, 2004, amounted to (Won)410,824 million (2003: (Won)117,991 million).

As of December 31, 2004, in relation to its TFT-LCD business, the Company has technical license agreements with Semiconductor Energy Laboratory Co., Ltd. and others. As of December 31, 2004, the Company has trademark license agreements with LG Corporation and Philips Electronics.

**Table of Contents****LG. Philips LCD Co., Ltd.****Notes to Non-Consolidated Financial Statements****December 31, 2004 and 2003**

The Company is involved in several legal proceedings and claims arising in the ordinary course of business. In August 2002, the Company filed a complaint against Chunghwa Picture Tubes, Tatung Company and Tatung Co., of America, alleging patent infringement relating to liquid crystal displays and the manufacturing process for TFD-LCDs. Subsequently, the Company filed a complaint against customers of Chunghwa Picture Tubes, which included ViewSonic Corp., Jeans Co, Lite-On Technology Corp., Lite-On Technology International, Inc., TpV Technology and Invision Peripheral Inc. In June 2004, Chunghwa Picture Tubes filed a counter-claim against the Company in the United States District Court for the Central District of California for alleged ownership for certain patent and violation of U.S. antitrust laws. In May 2004, the Company filed a complaint against Tatung Co., parent company of Chunghwa Picture Tubes and ViewSonic Corp., and other claiming patent infringement on rear mountable liquid crystal display devices in United States District of Delaware and Patent country Court in the United Kingdom. The Company filed a complaint against Chunghwa Picture Tubes in American Arbitration Association in connection with the ownership for patent. On May 25, 2004, the Company filed a Complaint for Declaratory Judgment of properly recorded inventorship in United States District Court for the district of Massachusetts. In January 2005, Chunghwa Picture Tubes filed a complaint for patent infringement against the Company. The Company's management does not expect that the outcome in any of these legal proceedings, individually or collectively, will have any material adverse effect on the Company's financial condition, results of operations or cash flows.

The Company enters into foreign currency forward contracts to manage the exposure to changes in currency exchange rates in accordance with its foreign currency risk management policy. The use of foreign currency forward contracts allows the Company to reduce its exposure to the risk that the eventual Korean won cash outflows resulting from operating expenses, capital expenditures, purchasing of materials and debt service will be adversely affected by changes in exchange rates.

A summary of these contracts follows (in millions):

<u>Contracting party</u>	<u>Selling position</u>	<u>Buying position</u>	<u>Contract foreign exchange rate</u>	<u>Maturity date</u>
HSBC and others	US\$ 1,408	(Won) 1,577,449	(Won) 1,038.96:US\$1 ~ (Won) 1,187.00:US\$1	January 14, 2005 - December 11, 2005

**Table of Contents****LG. Philips LCD Co., Ltd.****Notes to Non-Consolidated Financial Statements****December 31, 2004 and 2003**

As of December 31, 2004, the Company recorded unrealized gains and losses on outstanding foreign currency forward contracts of (Won)123,585 million and (Won)35 million, respectively. Total unrealized gains and losses of (Won)68,298 million and (Won)35 million, respectively, were charged to current operations for the year ended December 31, 2004, as these contracts did not meet the requirements for a cash flow hedge. Unrealized gains amounting to (Won)55,287 million, which were incurred relating to cash flow hedges from forecasted exports, were recorded as capital adjustments.

The hedged forecasted transactions are expected to occur on December 11, 2005, and the aggregate amount of all deferred gains recorded in capital adjustments, which is expected to be included in the determination of net income within a year from December 31, 2004, is (Won)55,287 million.

For the year ended December 31, 2004, the Company recorded realized exchange gains of (Won)80,306 million (2003: (Won)40,978 million) on foreign currency forward contracts upon settlement, and for year ended December 31, 2004, realized exchange losses amounted to (Won)51,597 million (2003: (Won)16,648 million).

The Company entered into cross-currency swap contracts to manage the exposure to changes in currency exchange rates in accordance with its foreign currency risk management policy and to manage the exposure to changes in interest rates related to Floating Rate Notes. These transactions do not meet the requirements for hedge accounting for financial statement purposes. Therefore, the resulting realized and unrealized gains or losses, measured by quoted market prices, are recognized in current operations as gains or losses as the exchange rates change.

A summary of these contracts follows (in millions):

<u>Contracting party</u>	<u>Buying position</u>	<u>Selling position</u>	<u>Contract foreign exchange rate</u>	<u>Maturity date</u>
HSBC	US\$ 600	(Won) 673,480	3M Libor 2.85 3.60%	March 4, 2005 - December 11, 2005

As of December 31, 2004, unrealized losses of (Won)54,107 million were charged to current operations as these contracts did not meet the requirements for hedge accounting for financial statement purposes.

	<b>(Won) 3,091,674</b>	<b>(Won) 1,436,229</b>

The Commercial Code of the Republic of Korea requires the Company to appropriate, as a legal reserve, an amount equal to a minimum of 10% of cash dividends paid until such reserve equals 50% of its issued capital stock. The reserve is not available for the payment of cash dividends, but may be transferred to capital stock through an appropriate resolution by the Company's Board of Directors or used to reduce accumulated deficit, if any, with the ratification of the Company's majority shareholders.

Pursuant to the Tax Exemption and Reduction Control Law, the Company is required to appropriate, as a reserve for business rationalization, a portion of retained earnings equal to tax reductions arising from investment and other tax credits. This reserve was not available for dividends until December 11, 2002 when the related law was abolished, and this may be transferred to capital stock through an appropriate resolution by the Company's Board of Directors or used to reduce accumulated deficit, if any, with the ratification of the Company's majority shareholders.

The Company's accumulated deficit amounting to (Won)99,819 million was offset against the reserve for business rationalization in accordance with the approval from the shareholders during a meeting in March 2002.

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Stockholders of

LG.Philips LCD Co., Ltd.

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, of changes in stockholders equity and of cash flows present fairly, in all material respects, the financial position of LG.Philips LCD Co., Ltd. and its subsidiaries (the Company ) as of December 31, 2003 and 2004, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2004, in conformity with accounting principles, which as described in Note 2, are generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule, Valuation and Qualifying Accounts, presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company s management; our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
