**Item 2.02. Results of Operations and Financial Condition.**

On April 21, 2005, Baxter International Inc. issued the attached press release reporting its financial results for the first quarter of 2005 and reiterating financial guidance for full-year 2005. The press release, including attachments, is furnished as Exhibit 99 and incorporated herein by reference.

The press release contains a non-GAAP financial measure, as defined by Securities and Exchange Commission rules. Specifically, free cash flow, which is defined as cash flow from continuing operations less capital expenditures, is not a measure defined in accordance with generally accepted accounting principles ( GAAP ). This measure is used internally to evaluate the company's cash performance and should be considered in addition to, but not as a substitute for, other measures of financial performance in accordance with GAAP. Free cash flow provides the company with the flexibility to reduce debt outstanding, pay common stock dividends, repurchase common stock or make strategic investments and acquisitions. Management encourages investors to review our consolidated financial statements and publicly filed reports in their entirety and to not rely on any single financial measure.
