NTT DoCoMo, Inc.

Earnings Release for the Three Months Ended June 30, 2005

Consolidated financial results of NTT DoCoMo, Inc. and its subsidiaries (collectively we or DoCoMo) for the three months ended June 30, 2005 (April 1, 2005 to June 30, 2005), are summarized as follows.

<< Highlights of Financial Results >>

For the three months ended June 30, 2005, operating revenues were ¥1,187.1 billion (down 2.8% compared to the same period of the prior year), operating income was ¥287.6 billion (up 4.0% compared to the same period of the prior year), income before income taxes was ¥353.4 billion (up 27.6% compared to the same period of the prior year) and net income was ¥207.9 billion (up 22.0% compared to the same period of the prior year).

Earnings per share were ¥4,495.01 and EBITDA margin* was 38.3%, up 1.8 points compared to the same period of the prior year.

Notes:

1. Consolidated financial statements in this release are unaudited.
2. Amounts in this release are rounded off.

* EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of EBITDA, see the reconciliations to the most directly comparable financial measures calculated and presented in accordance with GAAP on page 15.

Table of Contents<< Comment from Masao Nakamura, President and CEO >>

In the first quarter of the fiscal year ending March 31, 2006, we worked to strengthen our after-sales support to customers, for example, by providing free-of-charge extra battery packs to DoCoMo Premier Club members, continued our network quality enhancement endeavors, and enriched our handset lineup by releasing new models such as the FOMA 90iS series handsets, all of which are equipped with new features such as the Osaifu-Keitai* function. These measures, combined with the expanded Family Discount program and other strategic price revisions implemented during the last fiscal year, enabled us to increase the number of our net additional subscribers by approximately 20% compared to the same quarter of last fiscal year, while the total number of net additions in the market marked a decrease. Meanwhile, our churn rate in the first quarter dropped 0.26 points year-on-year to 0.80%, our record low, which makes us believe that our business reform programs focused on customers' perspectives have delivered tangible results in reinforcing our core business in the last three months.

Due to the above-mentioned price revisions aimed at strengthening our competitiveness and other factors that could have downside pressure on revenues, our consolidated operating revenues for the first quarter dropped from the same period of the last fiscal year, but we posted gains in operating income through extensive cost-cutting efforts. We believe we have started this fiscal year with a favorable performance in the first quarter vis-à-vis our annual forecast for the year.

The number of subscribers using handsets compatible with our Osaifu-Keitai* service, which was commenced a year ago ahead of the competition in order to establish a platform for functions we hope will lead to future revenue sources, reached some 5 million as of July 22, 2005, and the number of shops where the service is provided grew to over 22,000 as of June 30, 2005, showing steadfast progress toward realizing our goal of making our mobile phones a part of the lifestyle infrastructure in Japan.

In November 2005, we are planning to introduce a more simplified rate structure, abolishing the different charging classifications set by time zones and distance of outbound calls, as additional options to the existing rate plans. We believe this will provide our customers with enhanced convenience and contribute our competitiveness.

Going forward, we are committed to continuing our efforts to strengthen our core business, reduce costs, and secure new revenue sources, so that we can react to the rapidly changing market environment and maximize our enterprise value.

* *Osaifu-Keitai* refers to mobile phones equipped with a contactless IC card, as well as the useful function and services enabled by the ICcard. With this function, a mobile phone can be utilized as electronic money, a credit card, an electronic ticket, a membership card, an airline ticket, and more.

Table of Contents**1. Business Overview**

(1) Operating revenues totaled ¥1,187.1 billion (down 2.8% compared to the same period of the prior year).

Cellular (FOMA+mova) services revenues decreased to ¥1,029.0 billion (down 1.6% compared to the same period of the prior year). Despite the positive impact on revenues from subscriber growth as a result of the acquisition of new subscribers and lowered churn rate driven by the expansion of our handset lineup, cellular (FOMA+mova) services revenues decreased mainly due to a decline in average revenue per unit (ARPU) resulting from our rate reductions, such as the expansion of our Family Discount program.

Voice revenues from FOMA services increased to ¥228.8 billion (up 201.8% compared to the same period of the prior year) and packet communications revenues from FOMA services increased to ¥116.9 billion (up 180.3% compared to the same period of the prior year) owing to a significant increase in the number of FOMA services subscribers which resulted from the release of new handsets such as the FOMA 90iS series and further improvements in our coverage areas.

Total operating revenues	¥ 1,187.1	¥ 1,221.1	¥ (34.1)	(2.8%)

Notes:

- (i) In this earnings release, Quickcast services revenues, which were presented separately in the past, are included in Other revenues, and international services revenues, which were previously included in Other revenues, are included in Cellular (FOMA+mova) services revenues. However, international services revenues related to FOMA services are not included in FOMA services revenues for the three months ended June 30, 2004 because such information was not previously maintained.

Edgar Filing: NTT DOCOMO INC - Form 6-K

(ii) Voice revenues include data communications revenues through circuit switching system.

(2) Operating expenses were ¥899.5 billion (down 4.8% compared to the same period of the prior year).

Personnel expenses were ¥62.0 billion. The number of employees as of June 30, 2005 was 22,219.

Non-personnel expenses decreased to ¥566.2 billion (down 7.1% compared to the same period of the prior year) mainly due to a decrease in revenue-linked variable expenses (down 7.2% compared to the same period of the prior year), including commissions paid to agent resellers, reflecting a decrease in the number of handsets sold.

Impairment loss represents the impairment of PHS related assets, which were acquired during the three months ended June 30, 2005.

Income before income taxes, net of other income (expense), including a gain on sale of Hutchison 3G UK Holdings Limited (H3G UK) shares (¥62.0 billion), interest income and interest expense, increased to ¥353.4 billion (up 27.6% compared to the same period of the prior year).
- (4) Net income was ¥207.9 billion (up 22.0% compared to the same period of the prior year).

2. Segment Information

- (1) Mobile phone business

Operating revenues were ¥1,166.3 billion and operating income was ¥288.9 billion.

Cellular (FOMA) services

In and after June 2005, we released the FOMA 901iS series handsets, all of which are equipped with features such as Osaifu-Keitai function and PDF file viewer. In April 2005, we have launched a new billing plan called Packet-Pack 90. In June 2005, we have restructured our billing plans for FOMA data-card-type-handset users and launched the Limit-Plus billing plan for FOMA subscribers, which limits calling charges at a value set in advance by the subscribers and was previously available only for mova subscribers. In June 2005, we launched mopera U, an internet access service for FOMA services subscribers via our public wireless LANs as well as FOMA networks. The number of FOMA services subscribers increased steadily and reached 13.71 million as of June 30, 2005.

Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA) services were ¥5,990, ¥3,100 and ¥9,090, respectively.

Edgar Filing: NTT DOCOMO INC - Form 6-K

Cellular (mova) services

In May 2005, we released premini-II S, a compact and easy-to-use handset which features a unique design and music player function. Due to continuous progress in the migration of subscribers from mova services to FOMA services, the number of mova subscribers decreased to 35.72 million as of June 30, 2005.

Voice ARPU, i-mode ARPU and aggregate ARPU of cellular (mova) services were ¥4,820, ¥1,370 and ¥6,190, respectively.

In addition, in both FOMA and mova services, we have launched the DoCoMo Coin service, designed mainly for enterprises to be able to provide DoCoMo Coins as their sales promotion tool, the amount of which can be deducted from monthly bills of their prospective customers in April 2005. We have also upgraded our Hearty Discount program so that no handling charge will be applied to handset upgrades by eligible disabled subscribers starting June 1, 2005. The aggregate number of the FOMA and mova services subscribers increased to 49.43 million.

Voice ARPU, packet ARPU and aggregate ARPU of cellular (FOMA+mova) services were ¥5,120, ¥1,820 and ¥6,940, respectively.

Churn rate for cellular (FOMA+mova) services for the three months ended June 30, 2005 was 0.80%, a decrease of 0.26 points compared to the same period of the prior year.

Table of Contents

i-mode services

In April 2005, DoCoMo entered into an agreement with Sumitomo Mitsui Card Co. Ltd. (Sumitomo Mitsui Card), Sumitomo Mitsui Financial Group, Inc., and Sumitomo Mitsui Banking Corporation that DoCoMo and these companies would form a strategic alliance for the launch of new credit transaction services using the Osaifu-Keitai phones equipped with i-mode FeliCa IC cards and form a capital alliance with Sumitomo Mitsui Card. The number of subscribers using i-mode-FeliCa-compatible handsets reached approximately 4.40 million and the number of Osaifu-Keitai compatible shops increased to approximately 22,000 as of June 30, 2005. In April 2005, we upgraded the i-mode Disaster Message Board Service and made packet charges to access the service free in order to further improve the convenience of our customers. Furthermore, as a part of our efforts to promote further security and comfort in mobile internet environment, we have continued to work against spam-mails and upgraded our i-mode web access restriction function. The number of i-mode services subscribers reached 44.66 million as of June 30, 2005.

In terms of our global development, starting from May 2005, the eight overseas i-mode alliance carriers jointly procured i-mode-compatible GSM handsets to lower procurement costs. The i-mode services are rolled out in 10 countries and areas including Japan, and the aggregate number of i-mode services subscribers of all foreign carriers which participate in the i-mode alliance exceeded 5 million as of June 30, 2005.

International services

In May 2005, we launched international roaming-out services for packet communications in China, in addition to the existing international roaming-out service for voice calls and short messaging service (SMS). From June 2005, FOMA videophone users who subscribe to an international dialing service WORLD CALL are able to make videophone calls with 3G videophone customers in South Korea. Starting June 1, 2005, we allow our customers to apply allowances, which are included in both the base monthly charge and the additional charge for a billing arrangement called Packet Pack, toward international services such as an international roaming-out service WORLD WING. As of June 30, 2005, we expanded the service area of international roaming-out services for voice calls and SMS to 127 countries and areas; for packet communications to 43 countries and areas; and for videophone calls to 6 countries and areas.

Note:

ARPU: Average monthly revenue per unit

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues from our wireless services, such as monthly charges, voice transmission charges and packet transmission charges, from designated services which are incurred consistently each month, by number of active subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures provide useful information regarding the average usage of our subscribers. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations. This definition applies to all ARPU figures hereinafter. See page 14 for the details of the calculation methods.

Table of Contents

<Number of subscribers by services>	Thousand subscribers			
	June 30, 2005	March 31, 2005	Increase (Decrease)

(2) PHS business

Edgar Filing: NTT DOCOMO INC - Form 6-K

Operating revenues were ¥12.9 billion and operating loss was ¥0.9 billion.

In order to concentrate our business resources on FOMA services, we ceased accepting new PHS subscriptions on April 30, 2005. We will consider terminating the service while monitoring the usage of current subscribers.

ARPU was ¥3,320.

Note:

See page 14 for the details of the ARPU calculation methods.

PHS business operating loss	(0.9)	(7.2)	6.4

Table of Contents

(3) Miscellaneous businesses

Operating revenues were ¥7.9 billion and operating loss was ¥0.4 billion.

In our public wireless LAN service, Mzone, we launched an international roaming service with Singapore Telecommunications Limited, a Singaporean company, in April 2005. The number of hot spots in Japan increased to 564 as of June 30, 2005. In June 2005, we launched a plan called U public wireless LAN course as a part of our internet access service mopera U.

In April 2005, considering the continuous decline in the number of Quickcast subscribers, we decided to terminate the services on March 31, 2007.

<Operating results>	Billions of yen

	Three months ended		(UNAUDITED)	
	June 30, 2005	Three months ended June 30, 2004	Increase (Decrease)	
Miscellaneous businesses operating revenues	¥ 7.9	¥ 5.4	¥ 2.4	44.8%
Miscellaneous businesses operating loss	(0.4)	(0.6)	0.2	

Note:

Starting from the three months ended June 30, 2005, Quickcast business, which were presented separately in past releases, are included in Miscellaneous businesses. As a result thereof, certain reclassifications are made to the operating results for the three months ended June 30, 2004.

3. Capital Expenditures

Total capital expenditures were ¥210.7 billion.

The capital expenditures increased because we expanded the coverage areas of FOMA services including a rollout of FOMA Plus Area, which enables calls in mountainous areas, where previous FOMA handsets could not make calls; reinforced FOMA network to meet the increase in demand; and constructed networks and equipment to provide new services. On the other hand, we continued our efforts to make our capital expenditures more efficient and less costly by reducing the acquisition costs of equipment and improving the design and construction process.

Billions of yen

<Breakdown of capital expenditures>

(UNAUDITED)

PHS business	0.2	0.8	(0.6)	(77.5%)
Other (including information systems)	25.0	45.2	(20.2)	(44.6%)
Total capital expenditures	¥ 210.7	¥ 187.6	¥ 23.1	12.3%

Note:

Starting from the three months ended June 30, 2005, capital expenditures of Quickcast business, which were presented separately in past releases, are included in Other (including information systems). As a result thereof, certain reclassifications are made to the capital expenditures for the three months ended June 30, 2004.

Table of Contents**4. Cash Flow Conditions**

Net cash provided by operating activities was ¥326.3 billion (up 177.2% compared to the same period of the prior year). Net cash provided by operating activities increased mainly owing to a decrease in the payment of income taxes, which was ¥318.5 billion in the same period of the prior year, to ¥56.2 billion.

Net cash used in investing activities was ¥141.2 billion (down 30.5% compared to the same period of the prior year). Net cash used in investing activities decreased mainly due to a decrease in purchases of property, plant and equipment and proceeds from the sale of H3G UK shares. During the three months ended June 30, 2005, we had an inflow of cash from redemption of short-term investments of ¥100.0 billion and an outflow of cash to manage a part of our cash efficiently into a trust of ¥50.0 billion for NTT Leasing Co. Ltd., one of our related party, based on a contract of bailment for consumption. These changes in investments for cash management purposes decreased net cash used in investing activities by ¥50.0 billion.

Net cash used in financing activities was ¥68.1 billion (down 62.3% compared to the same period of the prior year). Net cash used in financing activities decreased mainly due to a decrease in repayments of outstanding debt. During the three months ended June 30, 2005, we repurchased our own stock for ¥16.9 billion in the stock market.

Free cash flows were ¥185.2 billion. Free cash flows excluding changes in investments for cash management purpose* (¥50.0 billion) were ¥135.2 billion.

Equity ratio and debt ratio improved compared to the same period of the prior year due to an increase in shareholders' equity and a decrease in interest bearing liabilities.

* International service-related revenues, which had not been included in previous reports, have been included in the ARPU data calculation from the fiscal year ending Mar. 31, 2006, due to its growing contribution to total revenues.

[Notes associated with the above-mentioned change]

International service-related ARPU included in the full-year forecasts and the first quarter results of the fiscal year ending Mar. 31, 2006 are as below:

	FY2005 First Quarter (Apr.-Jun. 2005) Results	FY2005 (Ending Mar. 31, 2006) Full-year forecast
Aggregate ARPU (FOMA+mova)	30 yen	40 yen
Aggregate ARPU (FOMA)	60 yen	60 yen
Aggregate ARPU (mova)	20 yen	30 yen

* ARPU data in previous reports do not include International service-related revenues. ARPU generated from International services, derived from the revenues thereof, for the relevant periods are as below:

FY2004 (Ended Mar. 31, 2005)	First Quarter (Apr-Jun)
---------------------------------	----------------------------

Edgar Filing: NTT DOCOMO INC - Form 6-K

	Full-year result	Result
Aggregate ARPU (FOMA+mova)	20 yen	20 yen
* No. of DoPa Single Service subscribers has been included in the number of mova subscribers starting with the results for the first six months of the fiscal year ended Mar. 31, 2005 in order to standardize the definition of subscribers used by all mobile operators in Japan.		

[Notes associated with the above-mentioned change]

Market share, net increase from the previous period and churn rate data are all calculated inclusive of DoPa Single Service subscribers.

ARPU and MOU data are calculated without including DoPa Single Service subscribers and DoPa Single Service-related revenues.

* Please refer to the attached sheet (P.14) for an explanation of the methods used to calculate ARPU, and the number of active subscribers used in calculating ARPU, MOU and Churn Rate.

- (1) Source for other cellular telecommunications operators: Data announced by Telecommunications Carriers Association.
- (2) DoPa Single Service subscribers are included in the calculation.
- (3) Calculation does not include DoPa Single Service-related revenues and DoPa Single Service subscribers.
- (4) Inclusive of circuit-switched data communications.
- (5) MOU (Minutes of Usage): Average communication time per one month per one user
- (6) Sum of FOMA handsets and mova handsets.
- (7) Data on independent sites are from OH!NEW? by Digital Street Inc.
- (8) Not inclusive of data communication time via @FreeD service.
- (9) Percentage of data traffic to total outbound call time
- (10) Included in total cellular subscribers.

Table of Contents

(APPENDIX 2)

ARPU Calculation Methods

1. ARPU (Average monthly revenue per unit)*1

i) **ARPU(FOMA + mova)**

Aggregate ARPU (FOMA+mova)=Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova)

Voice ARPU (FOMA+mova) : Voice ARPU (FOMA+mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

Packet ARPU (FOMA+mova) : {Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges)+ i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges)}/ No. of active cellular phone subscribers (FOMA+mova)

i-mode ARPU (FOMA+mova) *2 : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

ARPU generated purely from i-mode (FOMA+mova) *3 : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA+mova)

ii) **ARPU (FOMA)**

Aggregate ARPU (FOMA)=Voice ARPU (FOMA) + Packet ARPU (FOMA)

Voice ARPU (FOMA) : Voice ARPU (FOMA) Related Revenues (monthly charges, voice transmission charges) / No. of

Edgar Filing: NTT DOCOMO INC - Form 6-K

active cellular phone subscribers (FOMA)

Packet ARPU (FOMA) : Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

i-mode ARPU*² (FOMA) : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

ARPU generated purely from i-mode (FOMA) *³ : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (FOMA)

iii) **ARPU (mova)**

Aggregate ARPU (mova)=Voice ARPU (mova) + i-mode ARPU (mova)

Voice ARPU (mova) : Voice ARPU (mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (mova)

i-mode ARPU (mova) *² : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (mova)

ARPU generated purely from i-mode (mova) *³ : i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) / No. of active i-mode subscribers (mova)

iv) **ARPU (PHS)**

ARPU (PHS) : ARPU (PHS) Related Revenues (monthly charges, voice transmission charges) / No. of active PHS subscribers

2. Active Subscribers Calculation Methods*¹

Edgar Filing: NTT DOCOMO INC - Form 6-K

No. of active subscribers used in ARPU/MOU/Churn Rate calculations are sum of No. of active subscribers^{*4} for each month.

- *1 DoPa single service subscribers and the revenues thereof are not included in the ARPU and MOU calculations.
- *2 The denominator used in calculating i-mode ARPU (FOMA+mova, FOMA, mova) is the aggregate number of cellular subscribers to each service (FOMA+mova, FOMA, mova, respectively), regardless of whether i-mode service is activated or not.
- *3 ARPU generated purely from i-mode (FOMA+mova, FOMA, mova) is calculated using only the number of active i-mode subscribers as a denominator.
- *4 active subscribers = (No. of subscribers at the end of previous month + No. of subscribers at the end of current month) / 2

**Reconciliations of the Disclosed Non-GAAP Financial Measures to
the Most Directly Comparable GAAP Financial Measures**

1. EBITDA and EBITDA margin

	Billions of yen	
	Three months ended	Three months ended
	June 30, 2005	June 30, 2004
a. EBITDA	¥ 455.0	¥ 445.9
Depreciation and amortization	(165.3)	(165.2)
Losses on sale or disposal of property, plant and equipment	(1.9)	(4.1)
Impairment loss	(0.2)	
Operating income	287.6	276.6
Other income (expense)	65.8	0.3
Income taxes	(144.8)	(106.0)
Equity in net losses of affiliates	(0.8)	(0.5)
Minority interests in consolidated subsidiaries	0.0	(0.0)
b. Net income	207.9	170.4
c. Total operating revenues	1,187.1	1,221.1
EBITDA margin (=a/c)	38.3%	36.5%
Net income margin (=b/c)	17.5%	14.0%

Note: EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of regulation S-K

and may not be comparable to similarly titled measures used by other companies.

2. Free cash flows excluding changes in investments for cash management purpose

Billions of yen

Edgar Filing: NTT DOCOMO INC - Form 6-K

	Three months ended	Three months ended
	June 30, 2005	June 30, 2004
Free cash flows excluding changes in investments for cash management purpose	¥ 135.2	¥ (85.5)
Changes in investments for cash management purpose	50.0	
Free cash flows	185.2	(85.5)
Net cash used in investing activities	(141.2)	(203.2)
Net cash provided by operating activities	326.3	117.7

Note: Changes in investments for cash management purpose were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purpose with original maturities of longer than three months.

Special Note Regarding Forward-Looking Statements

This Earnings Release contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as expected number of subscribers, and expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this report were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following:

Competition from other cellular service providers or other technologies could limit our acquisition of new subscribers, retention of existing subscribers and average revenue per unit (ARPU), or may lead to an increase in our costs and expenses.

The new services and usage patterns introduced by our corporate group may not develop as planned, which could limit our growth.

The introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group may adversely affect our financial condition and results of operations.

The introduction of number portability in Japan may increase our expenses, and may lead to a decrease in our number of subscribers if our subscribers choose to switch to other cellular service providers.

Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction.

The W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers.

Our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect.

Our PHS business, which is expected to operate at a loss until the service is terminated, may incur greater losses than we project.

As electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects, or missing of handsets or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations.

Social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image.

Inadequate handling of subscriber information by our corporate group or contractors may adversely affect our credibility or corporate image.

Edgar Filing: NTT DOCOMO INC - Form 6-K

Earthquakes, power shortages, malfunctioning of equipment, and software bugs, computer viruses, cyber attacks and other problems could cause systems failures in our networks, handsets or other networks required for the provision of service, disrupting our ability to offer services to our subscribers.

Concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations.

Our parent company, Nippon Telegraph and Telephone Corporation (NTT), could exercise influence that may not be in the interests of our other shareholders.

Table of Contents**Forward-Looking Statements**

The forecasts presented herein are forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Act of 1934. Statements made in this presentation with respect to DoCoMo's plans, objectives, projected financials, operational figures, beliefs and other statements that are not historical facts are forward-looking statements about the future performance of DoCoMo which are based on management's expectations, assumptions, estimates, projections and beliefs in light of information currently available to it. These forward-looking statements, such as statements regarding the introduction of new products and services or termination or suspension of existing services, financial and operational forecasts, dividend payments, the growth of the Japanese cellular market and the ubiquitous services market, the growth of data usage, the growth of DoCoMo's cellular phone business, the migration of users to DoCoMo's 3G services and associated improvements in 3G services, improvements in 3G and 2G coverage area, and management goals are subject to various risks and uncertainties that could cause actual results to be materially different from and worse than as described in the forward-looking statements. Potential risks and uncertainties include, without limitation, competition from other cellular service providers or other technologies could limit our acquisition of new subscribers, retention of existing subscribers and average revenue per unit (ARPU), or may lead to an increase in our costs and expenses; the new services and usage patterns introduced by our corporate group may not develop as planned, which could limit our growth; the introduction or change of various laws or regulations or the application of such laws and regulations to our corporate group may adversely affect our financial condition and results of operations; the introduction of number portability in Japan may increase our expenses, and may lead to a decrease in our number of subscribers if our subscribers choose to switch to other cellular service providers; limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction; the W-CDMA technology that we use for our 3G system and/or mobile multimedia services may not be introduced by other overseas operators, which could limit our ability to offer international services to our subscribers; our domestic and international investments, alliances and collaborations may not produce the returns or provide the opportunities we expect; our PHS business, which is expected to operate at a loss until the service is terminated, may incur greater losses than we project; as electronic payment capability and many other new features are built into our cellular phones, and services of parties other than those belonging to our corporate group are provided through our cellular handsets, potential problems resulting from malfunctions, defects, or missing of handsets or imperfection of services provided by such other parties may arise, which could have an adverse effect on our financial condition and results of operations; social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image; inadequate handling of subscriber information by our corporate group or contractors may adversely affect our credibility or corporate image; earthquakes, power shortages, malfunctioning of equipment, and software bugs, computer viruses, cyber attacks and other problems could cause systems failures in our networks, handsets or other networks required for the provision of service, disrupting our ability to offer services to our subscribers; concerns about wireless telecommunications health risks may adversely affect our financial condition and results of operations; our parent, NTT, could exercise influence that may not be in the interests of our other shareholders. Further information about the factors that could affect the company's results is included in Item 3.D: Risk Factors of its annual report on Form 20-F filed with the U.S. Securities and Exchange Commission on June 28, 2004, which is available in the investor relations section of the company's web page at www.nttdocomo.com and also at the SEC's web site at www.sec.gov.

Table of Contents

Measures Implemented in FY2005 1Q

n FY2005 1Q Results Highlights

- **Due to decline in wireless services revenues and Equipment sales revenues, Operating Revenues: 1,187.1 billion yen (down 34.1 billion yen or 2.8% year-on-year)**
- **Operating Income: 287.6 billion yen (Up 11.0 billion yen or 4.0% year-on-year) Progress to full-year operating income forecast: 35.5%**

n Measures Implemented in FY2005 1Q

- **Price revisions and discounts introduced in FY2004, added handset lineup (e.g. FOMA 901iS series) and improved network quality reinforced our competitiveness.**
- **Our churn rate dropped to 0.80%, share of net adds rose to 56.1% in FY2005 1Q**

n Future Activities

- **To maintain and further boost our competitiveness, we plan to introduce a new rate plans , and strengthen or review some discount services in November 2005.**

- n **Reorganized internal organization to accelerate CSR activities and fulfill accountability (CSR committee, Corporate Citizenship Department)**

Actions for cellular-related social issues

- n DoCoMo Classroom for safe use of mobile phones
- n Countermeasures against spam mails and education on usage manners
- n Establishment of Mobile Society Research Institute and its research activities

Promotion of universal design

- n Universal Design Shop Established DoCoMo Hearty Plaza universal
- n Development of user-friendly handsets and services
- n Provision of Hearty Discounts

Social contribution activities

- n Support childhood education by sponsoring sports camps for youth, multimedia training for parents and children, and music concerts for children, etc.
- n Environment protection through DoCoMo Woods program
- n Support for employees volunteer activities

Environment conservation activities

- n Acquired ISO14001 international certification for environment management at all levels of DoCoMo Group
- n Promotion of recollection and recycling of used cellular handsets and accessories
- n Reduced power consumption of handsets and communication facilities to help prevent global warming

Actions undertaken in disasters, etc.

- n i-mode Disaster Message Board service
- n Provision of free mobile phones & chargers
- n Donations to earthquake-stricken areas in Niigata

International contribution activities

- n Assisted school construction in Thailand and reforestation programs in Sumatra
- n Provided donations and commodities to areas hit by the Indian Ocean tsunami.

n Supports children s cultural exchange program between France and Japan by using i-mode.

Definition and Calculation Methods of MOU and ARPU

n MOU (Minutes of usage) : Average communication time per one month per one user.

n ARPU (Average monthly Revenue Per Unit) :

ARPU is used to measure average monthly revenues attributable to designated services on a per user basis. ARPU is calculated by dividing various revenue items included in operating revenues, such as monthly charges, voice transmission charges, and packet transmission charges from designated services, by the number of active subscribers to the relevant services. Accordingly, the calculation of ARPU excludes revenues that are not representative of monthly average usage such as activation fees. We believe that our ARPU figures calculated in the above way provide useful information regarding the monthly usage of our subscribers. The revenue items included in the numerators of our ARPU figures are based on our US GAAP results of operations.

n Aggregate ARPU (FOMA+mova) : Voice ARPU (FOMA+mova) + Packet ARPU (FOMA+mova)

n Voice ARPU (FOMA+mova) : Voice ARPU (FOMA+mova) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

n Packet ARPU (FOMA+mova): { Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) + i-mode ARPU (mova) Related Revenues (monthly charges, packet transmission charges) } / No. of active cellular phone subscribers (FOMA+mova)

n i-mode ARPU (FOMA+mova) : i-mode ARPU (FOMA+mova) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA+mova)

n Aggregate ARPU (FOMA) : Voice ARPU (FOMA) + Packet ARPU (FOMA)

n Voice ARPU (FOMA): Voice ARPU (FOMA) Related Revenues (monthly charges, voice transmission charges) / No. of active cellular phone subscribers (FOMA)

n Packet ARPU (FOMA): Packet ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

n i-mode ARPU (FOMA) : i-mode ARPU (FOMA) Related Revenues (monthly charges, packet transmission charges) / No. of active cellular phone subscribers (FOMA)

n Number of active subscribers used in ARPU and MOU calculations are as follows:

n Quarterly data: sum of No. of active subscribers in each month * of the current quarter

Edgar Filing: NTT DOCOMO INC - Form 6-K

n Full-year data: sum of No. of active subscribers in each month * of the current fiscal year.

* No. of active subs. in each month : (No. of subs at end of previous month +No. of subs at end of current month)/2

n DoPa Single Service subscribers are not included in the above calculation of ARPU, MOU, revenues and no. of subscribers.

Table of Contents

**Reconciliations of the Disclosed Non-GAAP Financial Measures to
the Most Directly Comparable GAAP Financial Measures**

1. EBITDA and EBITDA margin

	Billions of yen	
	Three months ended	Three months ended
	June 30, 2005	June 30, 2004
a. EBITDA	¥ 455.0	¥ 445.9
Depreciation and amortization	(165.3)	(165.2)
Losses on sale or disposal of property, plant and equipment	(1.9)	(4.1)
Impairment loss	(0.2)	
Operating income	287.6	276.6
Other income (expense)	65.8	0.3
Income taxes	(144.8)	(106.0)
Equity in net losses of affiliates	(0.8)	(0.5)
Minority interests in consolidated subsidiaries	0.0	(0.0)
b. Net income	207.9	170.4
c. Total operating revenues	1,187.1	1,221.1
EBITDA margin (=a/c)	38.3%	36.5%
Net income margin (=b/c)	17.5%	14.0%

Note: EBITDA and EBITDA margin, as we use them, are different from EBITDA as defined in Item 10(e) of regulation S-K and may not be comparable to similarly titled measures used by other companies.

2. Free cash flows excluding changes in investments for cash management purpose

	Billions of yen	
	Three months ended	Three months ended
	June 30, 2005	June 30, 2004
Free cash flows excluding changes in investments for cash management purpose	¥ 135.2	¥ (85.5)

Edgar Filing: NTT DOCOMO INC - Form 6-K

Changes in investments for cash management purpose	<u>50.0</u>	<u> </u>
Free cash flows	185.2	(85.5)
Net cash used in investing activities	(141.2)	(203.2)
Net cash provided by operating activities	326.3	117.7

 Note: Changes in investments for cash management purpose were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purpose with original maturities of longer than three months.
