Item 8.01 Other Events.

On September 16, 2005, Integrated Device Technology, Inc., a Delaware corporation (IDT) issued a press release relating to the proposed merger between IDT and Integrated Circuit Systems, Inc., a Pennsylvania corporation (ICS).

A copy of the press release is attached hereto as Exhibit 99.1 and incorporated by reference herein.

Forward-Looking Statements. This report contains, in addition to statements of historical fact, certain forward-looking statements. These forward-looking statements relate to the proposed merger and the combined company and involve risk and uncertainty. Actual results could differ from those currently anticipated due to a number of factors, including those mentioned in documents filed with the Securities and Exchange Commission by both IDT and ICS. Forward-looking statements are based on information available to management at the time, and they involve judgments and estimates. There can be no assurance that the expected synergies and cost savings will be realized. Factors that could cause results to differ from expectations include: the risk that the businesses will not be integrated successfully; the risk that the cost savings and any other synergies from the transaction may not be fully realized or may take longer to realize than expected; disruption from the transaction making it more difficult to maintain relationships with customers, employees or suppliers; transaction costs; the level of market demand for the products of the companies; competitive pressures; economic conditions in the U.S. and other countries where the companies operate; information technology spending; technological obsolescence; industry competition; and other specific factors discussed in IDT's and ICS's most recent Annual Reports on Form 10-K and IDT's and ICS's Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. IDT and ICS assume no responsibility to update any forward-looking statements as a result of new information or future developments.
