2005 PROXY STATEMENT

MICROSOFT CORPORATION
ONE MICROSOFT WAY
REDMOND, WASHINGTON 98052

PROXY STATEMENT FOR ANNUAL MEETING OF SHAREHOLDERS

TO BE HELD NOVEMBER 9, 2005

This Proxy Statement, which was first mailed to shareholders on or about September 30, 2005, is furnished in connection with the solicitation of proxies by the Board of Directors of Microsoft Corporation (the Company or Microsoft), to be voted at the Annual Meeting of the shareholders of the Company, which will be held at 8:00 a.m. on November 9, 2005, at the Meydenbauer Center, 11100 NE 6th Street, Bellevue, Washington 98004, for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders. Shareholders who execute proxies retain the right to revoke them at any time before the shares are voted by proxy at the meeting. A shareholder may revoke a proxy by delivering a signed statement to the Secretary of the Company at or prior to the Annual Meeting or by executing and delivering another proxy dated as of a later date. The Company will pay the cost of solicitation of proxies.

Shareholders of record at the close of business on September 9, 2005 will be entitled to vote at the meeting on the basis of one vote for each share held. On September 9, 2005, there were 10,659,471,791 shares of common stock outstanding, held of record by 149,637 shareholders.

1. ELECTION OF DIRECTORS AND MANAGEMENT INFORMATION

Ten directors are to be elected at the Annual Meeting to hold office until the next annual meeting of shareholders, and until their successors are elected and qualified. The accompanying proxy will be voted in favor of the following persons to serve as directors unless the shareholder indicates to the contrary on the proxy. The election of the Company's directors requires a plurality of the votes cast in person or by proxy at the meeting. However, pursuant to the Microsoft Corporation Corporate Governance Guidelines, if a majority of the votes cast are withheld for a director in an uncontested election, the director is to tender his or her resignation to the Board and the Board, taking into consideration the recommendation of the Governance and Nominating Committee, will determine whether to accept the resignation. Management expects that each of the nominees will be available for election, but if any of them is unable to serve at the time the election occurs, the proxy will be voted for the election of another nominee to be designated by the Board of Directors.

INFORMATION ABOUT THE BOARD AND ITS COMMITTEES

The system of governance practices followed by the Company is memorialized in the Microsoft Corporation Corporate Governance Guidelines and the charters of the five committees of the Board of Directors. The Governance Guidelines and charters are intended to assure that the Board will have the necessary authority and practices in place to review and evaluate the Company's business operations and to make decisions that are independent of the Company's management. The Governance Guidelines also are intended to align the interests of directors and management with those of Microsoft's shareholders. The Governance Guidelines establish the practices the Board will follow with respect to board composition and selection, board meetings and involvement of senior management, chief executive officer performance evaluation, succession planning, board committees, and director compensation. The Board annually conducts a self-evaluation to assess compliance with the Governance Guidelines and identify opportunities to improve Board performance.

The Governance Guidelines and committee charters are reviewed periodically and updated as necessary to reflect changes in regulatory requirements and evolving oversight practices. The Governance Guidelines comply with corporate governance requirements contained in both the Nasdaq Stock Market (Nasdaq) and New York Stock Exchange listing standards and make other enhancements to the Company's corporate governance policies, including creating the role of lead independent director. The chair of the Governance and Nominating Committee serves as the lead independent director. The lead independent director is responsible for coordinating the activities of the non-management directors, coordinating with the Chairman to set the agenda for Board meetings, chairing meetings of the non-management directors, and leading the Board's review of the chief executive officer. The Board has five committees: an Audit Committee, a Compensation Committee, a Finance Committee, a Governance and Nominating Committee, and an Antitrust Compliance Committee. The Governance Guidelines, as well as the charter for each committee of the Board, may be viewed at www.microsoft.com/msft/corpinfo.mspx.

The Board of Directors holds regularly scheduled quarterly meetings. Typically, committee meetings occur the day prior to the board meeting. One quarter each year, the committee and board meetings occur on a single day so that the evening and following day can be devoted to presentations and discussions with senior management about long-term Company strategy as part of the

Edgar Filing: MICROSOFT CORP - Form DEF 14A

Board's annual retreat. In addition to the quarterly meetings, typically there are two other regularly scheduled meetings and several special meetings each year. At each quarterly board meeting, time is set aside for the non-management directors to meet without management present. The Board of Directors met nine times during fiscal year 2005. All directors attended 75% or more of the Board meetings and meetings of the committees on which they served during the fiscal year. Directors are encouraged to attend the Annual Meeting of shareholders. Five directors attended the 2004 Annual Meeting.

The table below provides current membership and meeting information for each of the Board committees for fiscal year 2005. Committee memberships changed during the fiscal year. Wm. G. Reed, Jr. retired from the Board as of the date of the Company's Annual Meeting in November 2004. In December 2004, Ms. Korologos was appointed to the Audit Committee and Mr. Cash was appointed to the Compensation Committee. In March 2005, Ms. Dublon was appointed to the Audit Committee.

* Committee Chairperson

Below is a description of each committee of the Board of Directors. Each of the committees has authority to engage legal counsel or other experts or consultants as it deems appropriate to carry out its responsibilities. The Board of Directors has determined that each member of each committee meets the standards of independence under the Governance Guidelines and applicable Nasdaq listing standards, including that each member is free of any relationship that would interfere with his or her individual exercise of independent judgment.

Audit Committee. The Audit Committee assists the Board of Directors in its oversight of the quality and integrity of the accounting, auditing, and reporting practices of the Company. The Audit Committee's role includes overseeing the work of the Company's internal accounting and financial reporting and internal auditing processes and discussing with management the Company's processes to manage business and financial risk, and for compliance with significant applicable legal, ethical, and regulatory requirements. The Audit Committee is responsible for the appointment, compensation, retention, and oversight of the independent auditor engaged to prepare or issue audit reports on the financial statements and internal control over financial reporting of the Company. The Audit Committee relies on the expertise and knowledge of management, the internal auditors, and the independent auditor in carrying out its oversight responsibilities. The Committee's specific responsibilities are delineated in the Audit Committee Responsibilities Calendar accompanying the Audit Committee Charter. The Charter and Responsibilities Calendar as amended and restated effective July 1, 2005 are attached as Exhibit 1 to this Proxy Statement. The Board of Directors has determined that each Audit Committee member has sufficient knowledge in financial and auditing matters to serve on the Committee. In addition, the Board has determined that each of Dina Dublon and Charles H. Noski is an audit committee financial expert as defined by Securities and Exchange Commission (SEC) rules.

Compensation Committee. The primary responsibilities of the Compensation Committee are: (a) in conjunction with the lead independent director, review and approve the annual goals and objectives of the chairman and chief executive officer and evaluate performance against those goals and objectives, (b) approve the compensation of the chairman and chief executive officer; (c) oversee the performance evaluation of the Company's other executive officers and approve their compensation; (d) oversee and advise the Board on the adoption of policies that govern the Company's compensation programs; (e) oversee the Company's administration of its equity-based compensation and other benefit plans; and (f) approve grants of equity compensation awards under the Company's stock plan. The Compensation Committee's role includes producing the report on executive compensation required by SEC rules. The specific responsibilities and functions of the Compensation Committee are delineated in the Compensation Committee Charter.

Finance Committee. The Finance Committee is responsible for overseeing and making recommendations to the Board about the financial affairs and policies of the Company including: (a) policies relating to the Company's cash flow, cash management, and working capital, shareholder dividends and distributions, and share repurchases and investments; (b) financial strategies; (c) policies for managing financial risk; (d) tax planning and compliance; and (e) proposed mergers, acquisitions, divestitures, and strategic investments. The Finance Committee's role includes designating officers and employees who can execute documents and act on behalf of the Company in the ordinary course of business under previously approved banking, borrowing, and other financing agreements. The specific responsibilities and functions of the Finance Committee are delineated in the Finance Committee Charter.

Governance and Nominating Committee. The principal responsibilities of the Governance and Nominating Committee are to: (a) determine the slate of director nominees for election to the Company's Board of Directors; (b) identify and recommend candidates to fill vacancies occurring between annual shareholder meetings; (c) review the composition of Board committees; (d) monitor compliance with, review, and recommend changes to the Company's Corporate Governance Guidelines; and (e) review the Company's policies and programs that relate to matters of corporate responsibility, including public issues of significance to the Company and its stakeholders. The Governance and Nominating Committee's role includes periodically reviewing the compensation paid to non-employee directors, and making recommendations to the Board for any adjustments. In addition, the Chair of the Governance and Nominating Committee acts as the lead independent director and is responsible for leading the Board of Directors' annual review of the chief executive officer's performance. The Governance and Nominating Committee regularly reviews the charters of Board committees and, after consultation with the respective committee chairs, makes recommendations, if

necessary, about changes to the charters. The specific responsibilities and functions of the Governance and Nominating Committee are delineated in the Governance and Nominating Committee Charter.

The Governance and Nominating Committee annually reviews with the Board the applicable skills and characteristics required of Board nominees in the context of current Board composition and Company circumstances. In making its recommendations to the Board, the Governance and Nominating Committee considers, among other things, the qualifications of individual director candidates. The Governance and Nominating Committee works with the Board to determine the appropriate characteristics, skills, and experiences for the Board as a whole and its individual members with the objective of having a Board with diverse backgrounds and experience in business, government, education, and public service. In evaluating the suitability of individual Board members, the Board takes into account many factors, including general understanding of marketing, finance, and other disciplines relevant to the success of a large publicly-traded company in today's business environment; understanding of the Company's business and technology; educational and professional background; and personal accomplishment. The Board evaluates each individual in the context of the Board as a whole, with the objective of recommending a group that can best perpetuate the success of the Company's business and represent shareholder interests through the exercise of sound judgment using its diversity of experience. In determining whether to recommend a director for re-election, the Governance and Nominating Committee also considers the director's past attendance at meetings and participation in and contributions to the activities of the Board. If a majority of the votes for a director are cast as withheld in an uncontested election, the Governance Guidelines require that the director tender his or her resignation to the Board. The Board will determine whether to accept the resignation taking into consideration the recommendation of the Governance and Nominating Committee.

The Committee will consider shareholder recommendations for candidates for the Board. The name of any recommended candidate for director, together with a brief biographical sketch, a document indicating the candidate's willingness to serve, if elected, and evidence of the nominating shareholder's ownership of Company stock should be sent to the attention of the Deputy General Counsel, Finance and Operations, of the Company.

Antitrust Compliance Committee. The Antitrust Compliance Committee oversees the performance of the Compliance Officer, who is charged under the Final Judgment entered by the District Court for the District of Columbia in *State of New York et al. v. Microsoft Corp.*, No. 98-1232 (the Final Judgment) with developing and supervising Microsoft's internal programs and processes to ensure compliance with antitrust laws and the Final Judgment. The Compliance Officer reports directly to the Antitrust Compliance Committee and the Chief Executive Officer, and may be removed by the Chief Executive Officer only with the concurrence of the Committee. The specific responsibilities in carrying out the Antitrust Compliance Committee's oversight role are delineated in the Antitrust Compliance Committee Responsibilities Checklist attached to the Antitrust Compliance Committee Charter. The Compliance Officer is required to maintain a record of complaints received and actions taken by the Company with respect to them and to report credible evidence of violations of the Final Judgment to the Final Judgment plaintiffs. The Antitrust Compliance Committee receives regular reports from the Compliance Officer about existing and planned internal compliance programs and processes, complaints received and the Company's response to them, and violations reported to the Final Judgment plaintiffs. In addition, the Antitrust Compliance Committee receives reports from the General Counsel and from other members of management about compliance with the Final Judgment and about other issues that may arise concerning the Company's compliance with antitrust and competition laws. The Antitrust Compliance Committee can authorize further inquiries into matters reported to it for the purpose of ensuring the adequacy of the Company's processes and programs for fulfilling its obligations under the Final Judgment and antitrust laws. The Antitrust Compliance Committee provides guidance to the Compliance Officer and to management and reports regularly to the Board of Directors.

Director Compensation. Messrs. Gates and Ballmer receive no compensation for serving as directors, except that they, like all directors, are eligible to receive reimbursement of any expenses incurred in attending Board and committee meetings. During fiscal year 2005, each director, other than Messrs. Gates and Ballmer, received compensation for serving on the Board of Directors and committees of the Board as follows:

- an annual retainer of \$50,000;
- for each Board Committee chair, an annual retainer of \$10,000;
- for each Audit Committee member, an annual retainer of \$10,000;
- a per meeting fee of \$1,000 for attendance at special meetings of Board Committees; and
- a stock award grant for 4,000 shares, which vests over 5 years.

In addition, to assist directors in developing an in-depth understanding of the company's business and products, and to facilitate the efficient operation of the Board through the use of various computing devices that feature Microsoft software, directors are provided with a Tablet PC for their use while they serve on the Board. Each year directors also may receive an additional personal computing device and a game device, each with associated peripherals, and Microsoft software and subscription services with an aggregate value up to \$10,000.

On November 9, 2004, the Company's shareholders approved amendments to the Company's equity compensation plans that allowed the Board to adjust eligible equity awards, including awards under the shared performance stock award (SPSA) program, to maintain their pre-dividend value after the \$3.00 special dividend that was paid in December 2004. Additional awards were granted for SPSA awards by the ratio of post- and pre-special dividend price as of the ex-dividend date. The numbers of shares listed in the table above reflect such adjustments to the SPSA awards for each of Messrs. Allchin, Johnson, and Raikes. Additionally, the numbers of shares listed in the table above for Mr. Johnson reflect an increase of 340,740 shares in the target amount and 511,110 shares in the maximum amount under his SPSA award in connection with an increase in Mr. Johnson's compensation during fiscal year 2005.

The SPSA program is designed to focus our top leaders on shared business goals to guide our long term growth and address our biggest challenges by rewarding participants based on growth in customer satisfaction, unit volumes of our Windows products and usage of our development tools, and desktop application deployment over a multi-year performance period. Metrics were developed to measure performance in each of these areas. For the Named Executive Officers, the performance period is the two-and-one-half year period ending June 30, 2006.

At the beginning of the performance period, objective performance targets for each metric were established and each executive received a target SPSA award. At the end of the performance period, the performance for the metric is measured against the metric target resulting in a percentage score ranging from 0% if the minimum performance level isn't achieved to 150% for maximum performance, in increments of 25%. The weighted average of these percentage scores will be multiplied by a participant's target SPSA award to determine the actual SPSA award for the participant.

The SPSA awards for the current Named Executive Officers will range from 0% to 150% of target. One-third of the total awards will be paid following the end of the performance period in Microsoft common stock. The remaining two-thirds will be paid in Microsoft common stock over the following two years in equal installments on or about August 31, 2007 and August 31, 2008, subject to continued employment. SPSA awards are subject to forfeiture if the executive's employment terminates before the end of the performance period for any reason other than disability or death. Similarly, unpaid amounts are forfeited if the executive's employment terminates prior to the payment date for any reason other than disability or death. The Compensation Committee will determine the final percentage in the exercise of its discretion. The Committee may amend the program to take into account significant changes in business or business strategy.

CHANGE IN CONTROL AND SEVERANCE ARRANGEMENTS

The Company does not have change of control arrangements for its Named Executive Officers. Named Executive Officers may be eligible for severance under the Company's severance plan, which provides up to 32 weeks base salary upon involuntary termination in certain circumstances.

REPORT OF THE MICROSOFT CORPORATION BOARD OF DIRECTORS COMPENSATION COMMITTEE

Role and Composition of the Committee

The Compensation Committee discharges the Board's responsibilities relating to compensation of the Company's executive officers, including reviewing the competitiveness of executive compensation programs, evaluating the performance of the Company's executive officers, and approving their annual compensation. The Committee working in conjunction with the Governance and Nominating Committee and the lead independent director also reviews and approves Chairman and CEO goals and objectives, evaluates Chairman and CEO performance, and sets Chairman and CEO compensation. The specific responsibilities and functions of the Compensation Committee are delineated in the Compensation Committee Charter.

The Compensation Committee has three members. Dr. James I. Cash Jr. joined the Committee in December 2004 following the retirement of Wm. G. Reed, Jr. from the Board of Directors. Each Committee member meets the independence requirements established by Nasdaq or, if higher, the New York Stock Exchange, as prescribed by the Company's Corporate Governance Guidelines and the Committee's Charter.

The Committee is retaining an external compensation consultant to provide insights into market place trends in executive compensation, proposals for compensation programs, and other items as the Committee deems appropriate.

Compensation Philosophy and Practice

Edgar Filing: MICROSOFT CORP - Form DEF 14A

The Company operates in a highly competitive and rapidly changing industry. The key objectives of the Company's executive compensation programs are to attract, motivate, and retain executives who drive Microsoft's success and industry leadership. The Company achieves these objectives through a compensation philosophy that provides employees with a distinctive overall compensation package and the opportunity for outstanding performers to earn very competitive compensation over the long-term through a pay-for-performance approach. The programs are designed to:

Provide executives with competitive cash and stock compensation with a significant portion of total compensation at risk, tied both to near-term individual performance and long-term Company performance as well as to the creation of shareholder value.

Differentiate strongly within the organization so that Microsoft's best performers receive a highly competitive compensation package.

Encourage executives to act as owners with an equity stake in the Company.

Components of Executive Compensation

The components of the compensation program for executive officers are described below. Generally, compensation is substantially weighted towards equity compensation, and in particular towards performance based compensation. Salary and bonus generally constitutes 15% to 40%, and equity compensation constitutes 60% to 85% of total compensation. Bonus and shared performance stock awards generally constitute 65% to 90% of total compensation for executive officers. For executives and other senior leaders, the proportion of compensation provided by equity and the proportion of total compensation at risk increases with responsibility.

Cash. This element includes base salary and any bonus award earned for the fiscal year's performance. The Company's cash compensation policies provide a base salary that is consistent with industry pay levels and offer bonuses that reward superior performance. Executives have the opportunity to earn an annual bonus of up to 120% of base salary. Bonuses are determined based on a combination of qualitative and quantitative measures the details of which are established annually for each executive. The performance-based commitments used to determine bonuses will vary for each executive based on his/her responsibilities and may include financial or strategic measures, including but not limited to: revenue, contribution margin, innovation, product development and implementation, quality, customer satisfaction, or developer community satisfaction. Individual bonus awards reflect the individual's performance compared to his/her performance-based commitments for the year and relative to performance of peers at the Company.

Stock-based Incentives.

Stock Awards. Under Microsoft's equity compensation program, employees receive grants of stock awards. A stock award is a right to receive Microsoft common shares over a vesting period. Upon vesting, employees receive Microsoft common shares that they own outright. We believe stock awards are a better way than stock options to provide significant equity compensation to employees that provides more predictable long-term rewards. The size of stock award grants is based on various factors relating to the responsibilities of the individual officers and their expected future contributions. We do not grant regular stock awards to our most senior executives (approximately 10 individuals), as we believe that their equity compensation should be tied to the performance of the Company through the shared performance stock awards described in the next paragraph.

Shared Performance Stock Awards. Executives may also receive grants under the Company's shared performance stock award (SPSA) program, a long-term incentive program for executives and other senior leaders under which a significant portion of stock-based compensation depends on the growth in the number and satisfaction of our customers.

Target SPSA awards were made during fiscal year 2004 for the initial performance period ending June 30, 2006. At the end of the performance period, the actual number of shares of stock subject to an award will be determined by multiplying the target by a percentage ranging from 0% to 150% for the current Named Executive Officers, and ranging from 33% to 150% for other executive officers, based on the Company's weighted performance against objective metrics for customer satisfaction, unit volumes of Windows products and usage of Microsoft's developer tools, and desktop application deployment. Each stock award is equivalent in value to one share of Microsoft common stock. Shares of stock are issued in equal one-third increments following the end of the performance period and annually over the following two years.

The size of an executive's SPSA grant is based on the executive's level and role assessed against long-term compensation data for competitive positions, and the executive's expected future contributions to Microsoft. Additional details about the SPSA program and the grants made to the Named Executive Officers for the fiscal year 2004-2006 performance period are provided on page 6. In fiscal year 2005, SPSA grants were made only to newly-hired executives and in conjunction with employment related changes such as promotions.

Executive Benefits

In fiscal year 2005, Microsoft's executives were eligible for the same level and offering of benefits made available to other employees, including the Company's 401(k) Plan and welfare benefit programs. In addition to the standard benefits offered to all employees, Microsoft maintains a non-qualified deferred compensation plan that allows executives to defer bonus income and stock option income. Microsoft does not contribute to the non-qualified deferred compensation plan and participation is voluntary.

How Executive Pay Levels are Determined

Microsoft participates in several executive compensation benchmarking surveys that provide summarized data on levels of base salary, target annual incentives, and stock-based and other long-term incentives. These surveys also provide benchmark information on compensation practices such as the prevalence of types of compensation plans and the proportion of the types of pay components as part of the total compensation package. These surveys are supplemented by other publicly available information and input from compensation consultants on other factors such as recent market trends. The comparison group includes approximately 15 leading information technology companies and large market capitalization U.S. companies with whom Microsoft competes for executive talent. The median CEO salary and bonus for the comparison group were \$1.065 million in base salary and \$2.385 million in bonus. The Committee uses tally sheets that ascribe dollar amounts to the components of executive officer compensation, including salary, bonus, stock awards, shared performance stock awards, and executive benefits. Information about the Company's severance arrangements is provided on page 7.

How Microsoft's Use of Stock-Based Awards is Determined

Edgar Filing: MICROSOFT CORP - Form DEF 14A

As described above, during fiscal year 2005 the Company's compensation and retention strategy included the use of stock awards and SPSA awards. The level of usage was determined based on factors such as compensation levels at comparison companies relative to Microsoft's target total compensation levels and the desired mix of cash and equity pay. Each year, the Committee and management determine the appropriate usage, balancing these factors against the projected needs of the business as well as financial considerations, including the projected impact on shareholder dilution. The Company emphasizes differentiation in executive stock compensation and in the broad-based stock award program.

Compensation for the Chairman and Chief Executive Officer

The Committee annually approves the compensation of Steven A. Ballmer, Chief Executive Officer, and William H. Gates III, Chairman and Chief Software Architect. The compensation of Messrs. Ballmer and Gates reflects their status as significant shareholders of the Company. Their salaries are significantly below competitive levels elsewhere in the information technology industry and large market capitalization U.S. companies, and they do not participate in the Company's equity compensation program. They are eligible for an annual bonus of up to 120% of their salary based on a review of performance against objectives for the year. As the leaders of the Company they are focused on building long-term success, and as significant shareholders in the Company, their personal wealth is tied directly to sustained increases in the Company's value.

Mr. Ballmer's bonus was determined based on an evaluation of his performance against his annual objectives including achievement of revenue and profit plans, achievement of major product development objectives, progress in improving the number and satisfaction of Company customers, progress in business growth initiatives, and development of senior leadership. The Summary Compensation Table sets forth all compensation received by Mr. Ballmer during fiscal years 2003, 2004, and 2005. There is no Company-sponsored retirement program for Mr. Ballmer other than the Company's 401(k) program, and he receives no benefits or perquisites from the Company other than the general Company benefits described above. Mr. Ballmer does not have a change of control arrangement. He may be eligible for severance under the Company's general severance plan, which provides up to 32 weeks base salary upon involuntary termination in certain circumstances.

Tax Deductibility under Section 162(m)

Under Section 162(m) of the Internal Revenue Code, the Company may not be able to deduct certain forms of compensation in excess of \$1,000,000 paid to any of the Named Executive Officers that are employed by the Company at year-end. The Committee believes that it is generally in the Company's best interests to satisfy the require -

ments for deductibility under Section 162(m). Accordingly, the Committee has taken appropriate actions, to the extent it believes feasible, to preserve the deductibility of annual incentive and long-term performance awards. However, notwithstanding this general policy, the Committee also believes that there may be circumstances in which the Company's interests are best served by maintaining flexibility in the way compensation is provided, whether or not compensation is fully deductible under Section 162(m).

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Mr. Gates is the sole shareholder of Corbis Corporation, a company that provides digitized images and production services. The Company paid Corbis approximately \$701,000 in fiscal year 2005 as licensing fees for digital images. Those licenses were entered into at arm's length, and are similar to license agreements Microsoft enters into from time to time with other providers of digital images. The terms of the Corbis transactions are established by Corbis and the relevant business group at Microsoft seeking to use the digital images in Microsoft's products, services, and marketing materials. The Company believes the terms are no less favorable to Microsoft than what are offered by Corbis to other large customers. Mr. Gates is not involved in negotiating agreements with Corbis or setting price or other terms, either on behalf of Microsoft or Corbis. Microsoft's Audit Committee has reviewed and approved these arrangements.

A son of Mr. Shirley, a brother-in-law of Robert J. (Robbie) Bach, an executive officer of the Company, and a brother-in-law of Eric D. Rudder, an executive officer of the Company, were employed by the Company or one of its subsidiaries in fiscal year 2005, and each of them received fiscal year 2005 compensation that exceeded \$60,000. Mr. Shirley's son left the Company in March 2005.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Due to an administrative error, Bradford L. Smith was late in filing one Form 4 to report the exercise of a stock option and the same-day-sale of the underlying shares. Jean-Philippe Courtois was late in filing one Form 4 to report the indirect purchase of shares. Wm. G. Reed, Jr., who retired from the board in November 2004, was late in filing a Form 4 to report an open market purchase of stock after he retired from the Board but within six months of an open market sale.

REPORT OF THE MICROSOFT CORPORATION BOARD OF DIRECTORS AUDIT COMMITTEE

The Audit Committee operates under a written charter adopted by the Board of Directors that is available on the Company's website at <http://www.microsoft.com/msft/governance>, and is attached as Exhibit 1. The charter, which was last amended effective July 1, 2005, includes a calendar that outlines the Audit Committee's duties and responsibilities on a quarter-by-quarter basis. The Audit Committee reviews the charter, including the calendar, on an annual basis.

The Board annually reviews the Nasdaq listing standards definition of independence for audit committee members and has determined that each member of the Audit Committee meets that standard as well as the definition of independence for audit committee members contained in the listing standards for the New York Stock Exchange. In addition, the Board has determined that each of Dina Dublon and Charles H. Noski is an audit committee financial expert as defined by SEC rules.

The Board of Directors has the ultimate authority for effective corporate governance, including the role of oversight of the management of the Company. The Audit Committee's purpose is to assist the Board of Directors in fulfilling its responsibilities by overseeing the accounting and financial reporting processes of Microsoft, the audits of Microsoft's consolidated financial statements, the qualifications of the independent registered public accounting firm engaged as Microsoft's independent auditor, and the performance of Microsoft's internal auditors and independent auditors.

The Committee relies on the expertise and knowledge of management, the internal auditors and the independent auditor in carrying out its oversight responsibilities. Management is responsible for the preparation, presentation, and integrity of the Company's consolidated financial statements, accounting and financial reporting principles, internal control over financial reporting, and procedures designed to ensure compliance with accounting standards, applicable laws, and regulations. Management is responsible for objectively reviewing and evaluating the adequacy, effectiveness, and quality of the Company's system of internal control. Microsoft's independent auditor, Deloitte & Touche LLP (Deloitte & Touche), is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States. The independent auditor is also responsible for expressing opinions on management's assessment of the effectiveness of the Company's internal control over financial reporting and on the effectiveness of the Company's internal control over financial reporting.

During the fiscal year ended June 30, 2005, the Audit Committee fulfilled its duties and responsibilities generally as outlined in the charter and the accompanying calendar. Specifically, the Committee, among other actions:

- Reviewed and discussed the Company's quarterly earnings press releases, consolidated financial statements, and related periodic reports filed with the SEC, with management and the independent auditor;
- Reviewed with management, the independent auditor, and the internal auditor management's assessment of the effectiveness of the Company's internal control over financial reporting and the independent auditor's opinion about management's assessment and the effectiveness of the Company's internal control over financial reporting;
- Reviewed with the independent auditor, management, and the internal auditor the audit scope and plan; and
- Met in periodic executive sessions with each of the independent auditor, management, and the internal auditor.

The Audit Committee has reviewed and discussed the Company's audited consolidated financial statements and related footnotes for the fiscal year ended June 30, 2005, and the independent auditor's report on those financial statements, with the Company's management and independent auditor. Management represented to the Audit Committee that the Company's financial statements

Edgar Filing: MICROSOFT CORP - Form DEF 14A

were prepared in accordance with generally accepted accounting principles and Deloitte & Touche represented that its presentations included the matters required to be discussed with the Audit Committee by Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees and SEC Regulation S-X, Rule 2-07. This review included a discussion with management and the independent auditor of the quality (not merely the acceptability) of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the disclosures in the Company's financial statements, including the disclosures relating to critical accounting policies.

The Audit Committee recognizes the importance of maintaining the independence of the Company's independent auditor, both in fact and appearance. Consistent with its charter, the Audit Committee has evaluated Deloitte & Touche's qualifications, performance, and independence, including that of the lead audit partner. As part of its auditor engagement process, the Audit Committee considers whether to rotate the independent audit firm. The Audit Committee has established a policy pursuant to which all services, audit and non-audit, provided by the independent auditor must be pre-approved by the Audit Committee or its delegate. The Company's pre-approval policy is more fully described in this proxy statement under the caption Fees Billed by Deloitte & Touche. The Audit Committee has concluded that provision of the non-audit services described in that section is compatible with maintaining the independence of Deloitte & Touche. In addition, Deloitte & Touche has provided the Audit Committee with the letter required by the Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and the Audit Committee has engaged in dialogue with Deloitte & Touche regarding their independence.

Based on the reviews and discussions described above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2005 for filing with the SEC, and selected Deloitte & Touche as the independent registered public accounting firm for fiscal year 2006. The Board is recommending that shareholders ratify that selection at the Annual Meeting.

2. RATIFICATION OF INDEPENDENT AUDITOR

The Audit Committee has selected Deloitte & Touche LLP (Deloitte & Touche) as the Company's independent auditor for the current fiscal year, and the Board is asking shareholders to ratify that selection. Although current law, rules, and regulations, as well as the charter of the Audit Committee, require the Company's independent auditor to be engaged, retained, and supervised by the Audit Committee, the Board considers the selection of the independent auditor to be an important matter of shareholder concern and is submitting the selection of Deloitte & Touche for ratification by shareholders as a matter of good corporate practice.

The affirmative vote of holders of a majority of the shares of common stock represented at the meeting is required to approve the ratification of the selection of Deloitte & Touche as the Company's independent auditor for the current fiscal year. **THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE PROPOSAL.**

FEES BILLED BY DELOITTE & TOUCHE**Fees**

The following table presents fees for professional audit services rendered by Deloitte & Touche for the audit of the Company's annual financial statements for the years ended June 30, 2004 and 2005, and fees billed for other services rendered by Deloitte & Touche during those periods.

(In millions)			
Year Ended June 30		2004	2005
Audit Fees		\$15.9	\$15.5
Audit-Related Fees		6.9	5.0
Tax Fees		1.2	0.8
All Other Fees		2.8	1.1
Total		\$26.8	\$22.4

Audit Fees. These amounts represent fees of Deloitte & Touche for the audit of the Company's annual consolidated financial statements, the review of financial statements included in the Company's quarterly Form 10-Q reports, the Sarbanes-Oxley Act required audit of management's assessment of the effectiveness of the Company's internal control over financial reporting and the Deloitte & Touche independent audit of internal control over financial reporting, and the services that an independent auditor would customarily provide in connection with subsidiary audits, statutory requirements, regulatory filings, and similar engagements for the fiscal year, such as comfort letters, attest services, consents, and assistance with review of documents filed with the SEC. Audit Fees also include advice on accounting matters that arose in connection with or as a result of the audit or the review of periodic consolidated financial statements and statutory audits the non-U.S. jurisdictions require.

Audit-Related Fees. Audit-Related Fees consist of assurance and related services that are reasonably related to the performance of the audit or review of Microsoft's consolidated financial statements. This category includes fees related to the performance of

audits and attest services not required by statute or regulations, audits of the Company's employee benefit plans, due diligence related to mergers, acquisitions, and investments, additional revenue and license compliance procedures related to performance of the review or audit of Microsoft's financial statements, and accounting consultations about the application of generally accepted accounting principles to proposed transactions. Revenue assurance and license compliance includes procedures under contracts that provide for review by an independent accountant, and advice about controls associated with the completeness and accuracy of the Company's software licensing revenue. These services support the evaluation of the effectiveness of internal controls over revenue recognition, and enhance the independent auditor's understanding of licensing programs and controls.

Tax Fees. These fees consist generally of the two categories of tax compliance and return preparation, and of tax planning and advice. For fiscal year 2004, fees for tax compliance and return preparation were \$1,048,000 and fees for tax planning and advice were \$165,000. For fiscal year 2005, fees incurred for tax compliance and return preparation were \$774,000 and fees for tax planning and advice were \$17,000. The compliance and return preparation services consisted of the preparation of original and amended tax returns, claims for refunds, and support during income tax audit or inquiries.

All Other Fees. All Other Fees consist principally of services supporting the Company's volume licensing compliance and revenue assurance initiatives, including data analysis and risk assessment.

The Audit Committee has concluded the provision of the non-audit services listed above is compatible with maintaining the independence of Deloitte & Touche.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditor

The Audit Committee has established a policy regarding pre-approval of all audit and permissible non-audit services provided by the independent auditor. Each year, the Audit Committee approves the terms on which the independent auditor is engaged for the ensuing fiscal year. On at least a quarterly basis, the Committee reviews and, if appropriate, pre-approves services to be performed by the independent auditor, reviews a report summarizing fiscal year-to-date services provided by the independent auditor, and reviews an updated projection of the fiscal year's estimated fees. The Audit Committee, as permitted by its pre-approval policy, from time to time delegates the approval of certain permitted services or classes of services to a member of the Committee. The Committee then reviews the delegate's pre-approval decisions on a quarterly basis. Microsoft uses a centralized internal system to collate requests from Company personnel for services by the independent auditor to facilitate compliance with this pre-approval policy.
