## Edgar Filing: UNITEDHEALTH GROUP INC - Form 8-K

UnitedHealth Group and its representatives may from time to time make written and oral forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (PSLRA), including statements in this report, in presentations, press releases, filings with the Securities and Exchange Commission, reports to shareholders and in meetings with analysts and investors. Generally the words believe, expect, intend, estimate, anticipate, project, will and similar expressions identify forward-looking statements, which generally are not historical in nature. Statements about 2005 year-end results and 2006 results are forward-looking statements. These statements may contain information about financial prospects, economic conditions, trends and unknown certainties. We caution that actual results could differ materially from those that management expects, depending on the outcome of certain factors. These forward-looking

statements involve risks and uncertainties that may cause our actual results to differ materially from the results discussed in the forward-looking statements. Some factors that could cause results to differ materially from the forward-looking statements include:

increases in health care costs that are higher than we anticipated in establishing our premium rates, including increased consumption of or costs of medical services;

heightened competition as a result of new entrants into our market, and consolidation of health care companies and suppliers;

events that may negatively affect our contract with AARP;

increased competition and other uncertainties resulting from changes in Medicare laws;

increases in costs and other liabilities associated with increased litigation, legislative activity and government regulation and review of our industry;

our ability to execute contracts on competitive terms with physicians, hospitals and other service providers;

failure to maintain effective and efficient information systems, which could result in the loss of existing customers, difficulties in attracting new customers, difficulties in determining medical costs estimates and appropriate pricing, customer and physician and health care provider disputes, regulatory problems, increases in operating expenses, or other adverse consequences;

possible impairment of the value of our intangible assets if future results do not adequately support goodwill and intangible assets recorded for businesses that we acquire;

costs associated with compliance with restrictions on patient privacy, including system changes, development of new administrative processes, and potential noncompliance by our business associates;

misappropriation of our proprietary technology;

potential effects of terrorism, including increased use of health care services, disruption of information and payment systems, and increased health care costs;

inability to achieve expected synergies and operating efficiencies in the PacifiCare transaction within expected time frames or at all;

our anticipated acquisition of PacifiCare Health Systems, Inc. may be delayed or impeded as a result of required governmental consents, approval by PacifiCare's stockholders, and other conditions to the merger, which may increase the costs of the merger and reduce anticipated benefits;

integration of PacifiCare's operations may be more difficult, time-consuming or costly than expected; and

we may experience difficulties in maintaining relationships with employees, customers, clients, providers or suppliers following completion of the merger with PacifiCare.

A further list and description of some of these risks and uncertainties can be found in our reports filed with the Securities and Exchange Commission from time to time, including our annual reports on Form 10-K and quarterly reports on Form 10-Q. Any or all forward-looking statements we make may turn out to be wrong. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. Except to the extent otherwise required by federal securities laws, we do not undertake to publicly update or revise any forward-looking statements.
