PART I

ITEM 1. *Business*

General

ADVO, Inc. (ADVO or the Company) is a direct mail media company primarily engaged in soliciting and processing printed advertising from retailers, manufacturers and service companies for targeted distribution by both shared and solo mail, as well as private carrier delivery, to consumer households in the United States and Canada on a national, regional and local basis. The Company's network reaches over 114 million households with its ShopWise® shared mail advertising and the ADVO National Network Extension (A.N.N.E.) program.

The Company satisfies clients of all types and sizes with customized targeting solutions for their marketing communication needs. Founded in 1929 as a hand delivery company, the Company entered the direct mail industry as a solo mailer in 1946 and began its shared mail program in 1980. The Company currently is the largest commercial user of standard mail (formerly third-class mail) in the United States.

ADVO competes primarily with newspapers, direct mail companies, periodicals and other local distribution entities for retail advertising expenditures. The Company believes that its insert advertising programs, targeting technology and logistics capabilities enable advertisers seeking superior return on investment to target advertisements to specific customers or geographic areas and deliver their printed advertising directly to consumers most likely to respond.

ADVO distributes the Have you Seen Me® missing child card with each ShopWise® package. This public service program has been responsible for safely recovering 139 children. The program was created in partnership with the National Center for Missing and Exploited Children and the U.S. Postal Service in 1985.

ADVO's principal executive offices are located at One Targeting Centre, Windsor, Connecticut 06095.

Products and Services

ADVO's direct mail marketing products and services include shared mail and solo mail. ADVO provides ancillary services to complement its direct mail marketing programs and also provides private carrier delivery in certain markets. In addition, the Company provides direct mail advertising solutions for local neighborhood businesses. The Company's consumer website, ShopWise.com, allows retailers to electronically target promotions and values to subscribers.

Shared Advertising Programs

Edgar Filing: ADVO INC - Form 10-K

In the Company's branded shared advertising program, ShopWise®, the individual advertisements of various businesses within a mailing radius are combined into a single mail package. Because the cost of the postage is fixed up to a certain weight level, the clients share the savings of combining their advertisements.

The Company offers various targeting levels for the customer's designated mailing area based on the level of geo-demographic precision that is requested by the customer. The Company customizes shared mail packages by targeting levels selected by the customer. In most instances, each household within the predetermined targeting level will receive a mail package. Individual customers can choose predetermined clusters of ZIP Code zones, all ZIP Codes covered by a program, or ADVO Targeting Zones (ATZs). ATZs enable advertisers to target their ads to consumer clusters, which average approximately 3,500 households. ATZs are neighboring postal carrier delivery routes within a ZIP Code that are clustered together based on shared demographic characteristics and proximity to key retail shopping areas.

Table of Contents

The flexibility and targeting capabilities of the Company's targeting platform enable customers, such as retail store chains, to select areas serviced by their retail stores and, at the same time, distribute different versions to reach their choice consumers. The Company uses geographic, demographic and psychographic data to tailor the customers' advertisements to their targeted audience.

The Company's shared advertising program offers the features of penetration and targeted marketing at a significant cost reduction when compared to mailing on an individual or solo mail basis. This cost advantage is available because the Company pays the total postage expense, and advertisers are generally charged a selling price based on, among other factors, the incremental weight of their promotional piece.

As a part of its shared advertising program, the Company provides the addresses of the households receiving the mail packages, sorts, processes and transports the advertising material for ultimate delivery primarily through the United States Postal Service (USPS). Generally, larger businesses, such as grocery chains and mass merchandisers, will provide the Company with preprinted advertising materials in predetermined quantities. In the case of manufacturers and small retail customers, the Company may perform graphics services and/or contract for the required printing. The Company also offers shared mail customers numerous standard turnkey advertising products in a variety of sizes and colors. The Company believes its shared advertising program is the largest program of its kind.

Solo Mail

Solo mail services include list procurement, addressing, processing, and distributing brochures and circulars for an individual customer through the USPS. Each customer bears the full cost of postage and handling for each mailing. Customers choosing this form of direct mail are generally those who wish to maintain an exclusive image and complete control over the timing and the target of their mailings, or who want to mail to areas where the Company does not have a shared mail program.

The Company processes solo mail using its own mailing list or lists supplied by the customer. The Company charges a processing fee based on the solo mail services rendered.

Other Products and Services

The Company rents portions of its mailing list, through a specialized firm hired by the Company, to organizations interested in distributing their own mailings. The Company may or may not perform the associated distribution services for the customer.

MailCoups, Inc. (MailCoups), a wholly-owned subsidiary of ADVO, is a franchise-based cooperative coupon mail company headquartered in Taunton, Massachusetts. This company, operating under the trade name of SuperCoups, creates and distributes attractive, cost-effective targeted coupons in a distinctive envelope format for local neighborhood merchants via an extended network of franchise owners. At the end of fiscal year 2005, MailCoups had approximately 54 franchisees in 19 states.

ADVO Canada, a wholly-owned subsidiary of ADVO based in Toronto, Canada, is an innovator in both the targeting and distribution of in-home print advertising. Similar to ADVO, ADVO Canada uses a proprietary software tool that leverages both geographic and demographic

Edgar Filing: ADVO INC - Form 10-K

information to help identify desirable audiences and target advertising messages to consumers. ADVO Canada's client base includes most major international food service/restaurant groups and international packaged goods manufacturers. ADVO Canada distributes approximately 247 million pieces of advertising mail per year to targeted segments of Canada's 12.4 million households.

Mail Marketing Systems, Inc. (MMSI), a wholly-owned subsidiary of ADVO, is a direct mail advertising company located in Columbia, Maryland. MMSI complements ADVO's core distribution network by providing additional shared mail coverage to approximately 4.6 million households in 109 smaller market areas not served by ADVO. MMSI also provides solo direct mail advertising for its clients.

Table of Contents

Distribution Network

ADVO's distribution network offers a diversified approach to delivering its clients' messages.

The Company's core distribution network is delivered under the ShopWise® banner, which is primarily a four-page, colored magazine wrapped around the shared mail package. The core ShopWise® program reaches approximately 78 million households, primarily on a weekly basis, in approximately 140 markets. The zone configuration selected for each market is normally determined by population density and by proximity to retail outlets. Advertisers with multiple locations and weekly mailing frequency are a key determinant of the zones chosen by the Company for its core distribution. The Company derives most of its revenues from the ShopWise® shared advertising program.

The Company is part of a network, the ADVO National Network Extension, known as A.N.N.E. This network, comprised of regional shared mail companies, provides its clients with extended coverage outside the markets already served by the Company. Approximately 36 million additional households can be reached on a shared mail basis through A.N.N.E. The Company handles the clients' orders directly and manages distribution of their advertising through A.N.N.E.'s members. Conversely, A.N.N.E. enables participating members (shared mail companies) to offer their clients extended marketplace reach using the Company's household coverage.

The Company extended its core shared advertising program by establishing its rural expansion program. Once a month, the Company reaches rural U.S. households and provides targeted shared mail advertising coverage to areas that previously were only served via solo mail.

The Company's primary form of delivery is through the USPS. In a few instances, the Company uses private carrier delivery (PCD) services in markets where package weights are typically heavier.

The Company's introduction of additional in-home mailing dates in existing markets offers our current clients additional targeting capabilities through delivery on weekends and also provides new opportunities with clients who traditionally prefer weekend in-home dates. At the end of fiscal year 2005, the Company had stand-alone additional mailings in these existing markets: Albuquerque, Las Vegas, Akron, Pittsburgh and Southern California.

In response to client demand, ADVO expanded advertising programs in the Southern California and Pittsburgh metropolitan areas at the end of fiscal year 2004, approximately doubling ADVO's advertising program frequency in those markets. The Company began a full-weekend shared advertising program in Southern California to complement its mid-week program. The Company also began a full-market, mid-week shared advertising program in the Pittsburgh region.

The Company's newspaper alliances offer clients an integrated print advertising solution that combines targeted direct mail with newspaper distribution while optimizing distribution costs. By joining newspaper and direct mail distribution, both clients and consumers benefit from the efficiencies and enriched content of these targeted advertising offerings. During fiscal 2005, the Company had newspaper alliances with the Chicago Daily Herald, Gannett Co., Inc., MediaNews Group, Inc., Knight-Ridder, Inc., The New York Times Co., St. Petersburg Times, E.W. Scripps Co. and The Tribune Company.

Edgar Filing: ADVO INC - Form 10-K

The aforementioned delivery methods comprise the Company's vast distribution network that reaches over 114 million homes.

Mailing List

ADVO's management believes its computerized mailing list is the largest and highest quality residential/household mailing list in the country. It contains over 132 million addresses (constituting virtually 100% of the households in the United States). The Company also maintains 13.2 million business addresses, which have been

Table of Contents

integrated into the household file in postal carrier walk sequence order. The Company's management believes that the list is particularly valuable and that replication in its entirety by competitors would be extremely difficult and costly. The list enables the Company to target mailings to best serve its customers.

Customer Base

Typically, the Company's customers are those businesses whose products and services are used by the general population. These businesses (including national and local grocers, quick serve restaurants, drug stores, discount and department stores and other retailers) require continuous advertising to a mass audience. The enhanced targeting capabilities of the Company's distribution system have led to the development of opportunities for new customer categories, such as telecommunications, insurance, financial services, and entertainment companies. The Company's targeting capabilities can also provide additional opportunities for more effective advertising to existing customers who advertise to a mass audience.

In fiscal years 2005, 2004 and 2003 no one customer accounted for more than 6% of the Company's sales.

Operations

Customers' advertising circulars are processed by approximately 1,700 ADVO production employees who work at 24 processing facilities strategically located throughout the U.S. and Canada. Inserting machines, which collate the individual advertising pieces into the packages, and addressing and labeling equipment are the principal pieces of equipment used to process the Company's products and services which are distributed by the USPS, private carrier delivery, newspapers and Canadian Post. The Company uses different inserting machines at its processing facilities. The Alphaliner, which is a computerized mail collator/inserter, is utilized at nine of its mail processing facilities. The Alphaliner offers higher speed and capacity, enhanced productivity and computerized controls that automate order processing. Additionally, it is electronically integrated with other machines and links to ADVO's order fulfillment system. ADVO expects to continue the rollout of Alphaliners to gain operating efficiencies.

In all of ADVO's processing facilities, excluding Canada, the transportation department analyzes and sorts all mailings to the appropriate USPS facility. Each of the Company's U.S. facilities has a Detached Mail Unit (DMU) where the USPS is on site, verifies and accepts all of ADVO's mailings. The Company's mail is accepted under an optional procedure that compares financial, production and other business records in lieu of the standard verification procedures of weighing 100% of the mail in bulk. Approximately 85% of the time, the Company ships the mail directly to the local post office for final delivery by the individual postal carrier. The Company tracks the mail from its departure at our processing facilities to its final destination at local post offices and monitors the timely and proper delivery of the client's advertisement on the requested in-home delivery dates.

MailCoups operates a cooperative direct mail coupon advertising business and performs print and distribution services for the franchisees at its one production facility. MMSI operates under a business model and environment similar to ADVO's. MMSI provides shared mail programs predominantly in the Mid-Atlantic states, as well as a full range of solo mail services.

The Company entered into an agreement with IBM Global Services (IBM) to provide computer processing, systems development and systems legacy support to the Company. The Company's regional production sites, sales offices and corporate headquarters are on-line with this computer

Edgar Filing: ADVO INC - Form 10-K

center, enabling the day-to-day processing functions to be performed and providing ADVO's corporate headquarters with management information. The systems include: order processing and production control, transportation/distribution, address list maintenance, market analysis, label printing and distribution, billing and financial systems, human resources and payroll processing, carrier routing of addresses received from customer files and demographic analyses. The Company also has agreements with IBM to provide a customer support center (help desk) and client server (server farm) management services. On April 1, 2005, the Company amended its three agreements with IBM. The terms of the amendments are detailed in Note 14 to the Consolidated Financial Statements and included in this Annual Report on Form 10-K.

Table of Contents

Competition

The printed advertising market is highly competitive with companies competing primarily on the ability to target selected potential customers on a cost-effective basis and on speed of delivery. ADVO's competitors for the delivery of retail and other printed advertising are numerous and include newspapers, regional and local mailers, direct marketing firms, shoppers and pennysavers.

Newspapers represent the Company's most significant and direct competition. Through the distribution of preprinted circulars, classified advertising and run of press advertising (ROP), newspapers have historically been the traditional and dominant medium for advertising by retailers.

ADVO's principal direct marketing competitors are other companies with residential lists and similar cooperative mailing programs. These companies have a significant presence in many of the Company's markets and represent competition to the Company's ShopWish shared mail program in those markets.

There are local mailers in practically every market of the country. In addition to local mailers, there are many local private delivery services, such as shoppers and pennysavers, which compete by selling ROP advertisements and classified advertisements. ADVO believes that it competes effectively in its various markets.

Seasonality

ADVO's business generally follows the trends of retail advertising spending. The Company has historically experienced slightly higher revenues in the second half of the fiscal year.

Research and Development

Company expenditures in research and development during the last three years have not been material.

Environmental Matters

The Company believes that it is substantially in compliance with all regulations concerning the discharge of materials into the environment, and such regulations have not had a material effect on the capital expenditures or operations of the Company.

Raw Materials

The Company manages the supply of paper through its printing network on behalf of its print vendors. ADVO has agreements with various paper suppliers and print vendors to assure continuity of supply as well as supply of proper paper grades at competitive prices.

Employees

As of September 24, 2005, the Company had a total of approximately 3,700 full and part-time employees. ADVO also uses outside temporary employees for the outsourcing of certain production jobs and during busy seasons.

ADVO has one union contract covering production employees in the Windsor, Connecticut branch, which expires January 31, 2007. The Company believes that its relations with its employees, including its union employees, are satisfactory.

Available Information

We make available free of charge through our website, www.advo.com, our Annual Report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K as soon as reasonably practicable after such

Table of Contents

material is electronically filed with the Securities and Exchange Commission. Our internet website and the information contained therein are not intended to be incorporated into this Annual Report on Form 10-K.

We have adopted a Code of Business Ethics and Conduct that applies to all employees as well as our Board of Directors. The Code of Business Ethics and Conduct, as well as the Charters of each of the committees of our Board of Directors (the Audit Committee; Qualified Legal Compliance Committee; Nominating/Corporate Governance Committee; and Compensation Committee) and the Company's Corporate Governance Guidelines are posted on our website, www.advo.com. Copies of these documents will be provided free of charge upon written request directed to the Corporate Secretary, ADVO, Inc., One Targeting Centre, Windsor, CT, 06095.

ITEM 2. *Properties*

ADVO does not own any real estate except for its corporate headquarters and one processing facility, both of which are located in Windsor, Connecticut. The corporate headquarters, located at One and Ten Targeting Centre, consists of two buildings totaling approximately 142,000 square feet. In fiscal 2004, the Company relocated its former Hartford, Connecticut production facility to a new operations and technology facility at Great Pond in Windsor, Connecticut. This location features research and development capabilities, client services and engineering. The Great Pond production facility consists of approximately 171,000 square feet.

The Company leases its other 23 processing facilities, including the MailCoups and ADVO Canada facilities, and 33 sales offices (which excludes the sales offices that are located in the mail processing facilities) throughout the United States. The production facilities, including the one production facility owned by ADVO, are located in the following cities:

Phoenix, Arizona	Atlanta, Georgia	Pittsburgh, Pennsylvania
Los Angeles 1, California	Florence, Kentucky	Memphis, Tennessee
Los Angeles 2, California	Columbia, Maryland	Dallas, Texas
San Francisco, California	Taunton, Massachusetts	Houston, Texas
Denver, Colorado	Detroit, Michigan	Salt Lake City, Utah
Windsor, Connecticut	Cincinnati, Ohio	Seattle, Washington
Miami, Florida	Folcroft, Pennsylvania	Milwaukee, Wisconsin
Orlando, Florida	Philadelphia, Pennsylvania	Toronto, Canada

The Company believes its facilities are suitable and adequate for the purposes for which they are used and are adequately maintained. Access to the facilities is strictly limited to authorized personnel only.

ITEM 3. *Legal Proceedings*

ADVO is party to various lawsuits and regulatory proceedings which are incidental to its business. The Company believes these lawsuits will not have a material adverse effect on its consolidated financial condition, liquidity or results of operations. Please refer to Note 14 to the Consolidated Financial Statements included in this Annual Report on Form 10-K, for details on the previously settled lawsuits.

ITEM 4. *Submission of Matters to a Vote of Security Holders*

None.

Table of Contents**PART II****ITEM 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

The Company's common stock is traded under the symbol AD on the New York Stock Exchange (NYSE).

The following table sets forth for the periods indicated the high and low closing prices per share of the Company's common stock on the NYSE:

	<u>High</u>	<u>Low</u>
Fiscal Year Ended September 24, 2005:		
First Quarter	\$ 36.74	\$ 29.30
Second Quarter	38.72	33.95
Third Quarter	38.26	27.30
Fourth Quarter	35.80	30.85
Fiscal Year Ended September 25, 2004:		
First Quarter	\$ 33.57	\$ 27.42
Second Quarter	34.20	31.00
Third Quarter	33.58	30.55
Fourth Quarter	33.60	26.50

During each of the fiscal years ended September 24, 2005 and September 25, 2004 the Company declared cash dividends totaling \$0.44 per share to holders of ADVO common stock. During the fiscal year ended September 27, 2003 the Company declared no cash dividends.

The closing price as of November 18, 2005 of the Company's common stock, under the symbol AD, on the New York Stock Exchange as reported in *The Wall Street Journal* was \$26.96 per share. The approximate number of holders of record of the common stock on November 18, 2005 was 544.

During fiscal year 2005, the Company engaged in no sales of its securities that were not registered under the Securities Act of 1933, as amended.

Below is a summary of stock purchases made by the Company or on behalf of the Company for the quarter ended September 24, 2005.

<u>Issuer Purchases of Equity Securities</u>			
<u>Total Number Of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Shares Purchased as Part of Publicly Announced Program (1)</u>	<u>Total Maximum Number of Shares that May Yet Be Purchased Under the Program (1)</u>

- (1) In October 2003, the Company announced a stock buyback program allowing the repurchase of 1.5 million shares. Under the authorization, the Company can purchase shares on the open market. The stock buyback program does not have an expiration date. The Company purchased no shares under the program for the quarter and year ended

Table of Contents

September 24, 2005. The maximum number of shares that may yet be purchased under the program is 1.5 million shares.

- (2) Includes shares attested to in satisfaction of the exercise price by holders of employee stock options who exercised options and those shares withheld to satisfy tax withholding obligations upon the release of restricted shares.
- (3) The Company has a non-qualified deferred compensation plan (plan) that provides participants the option to invest in several investment opportunities one of which is the ADVO Stock Fund. These shares of ADVO stock are purchased and sold by the plan s trustee on the open market.

ITEM 6. *Selected Financial Data*

The information required by this item is contained under the heading Selected Financial Data which is included in this Annual Report on Form 10-K and listed in the index to the financial information on page 14.

ITEM 7. *Management s Discussion and Analysis of Financial Condition and Results of Operations*

The information required by this item is contained under the heading Management s Discussion and Analysis of Results of Operations and Financial Condition, which is included in this Annual Report on Form 10-K and listed in the index to financial information on page 14.

ITEM 7A. *Quantitative and Qualitative Disclosures About Market Risk*

The information required by this item is contained under the heading Management s Discussion and Analysis of Results of Operations and Financial Condition, under the subcaption Market Risk which is included in this Annual Report on Form 10-K and listed in the index to financial information on page 14.

ITEM 8. *Financial Statements and Supplementary Data*

ADVO s Consolidated Financial Statements, together with the Report of Independent Registered Public Accounting Firm thereon dated November 18, 2005 is included in this Annual Report on Form 10-K and listed in the index to financial information on page 14.

The selected quarterly information required by this item is included under the caption Quarterly Financial Data (Unaudited) in Note 18 to the Consolidated Financial Statements and is included in this Annual Report on Form 10-K and listed in the index to financial information on page 14.

ITEM 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

None.

ITEM 9A. Controls and Procedures

Management's Responsibility for Financial Statements

Management is responsible for the integrity and objectivity of the consolidated financial statements and other financial information presented in this report. These statements have been prepared in accordance with generally accepted accounting principles and necessarily include amounts based on judgements and estimates by management.

The Audit Committee of the Board of Directors, which is composed solely of independent directors, meets regularly with the independent auditors, the internal auditors and representatives of management to review accounting, financial reporting, internal control and audit matters, as well as the nature and extent of the audit effort. The Audit Committee is responsible for the engagement of the independent auditors. Both the independent auditors and internal auditors have unrestricted access to the Audit Committee.

Table of Contents

Disclosure Controls and Procedures

As of the end of the period covered by this Annual Report on Form 10-K the Company evaluated, under the supervision and with the participation of management, the principal executive officer and principal financial officer, the effectiveness of the design and operation of its disclosure controls and procedures.

The principal executive officer and principal financial officer have concluded, based on their review, that the Company's disclosure controls and procedures, as defined in Securities Exchange Act Rules 13a-14(c) and 15d-14(c), were, as of the end of the period covered by this Annual Report on Form 10-K, effective to ensure that information required to be disclosed by the Company in reports it files under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

Management's Report on Internal Control over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the rules promulgated under the Exchange Act of 1934. Under the supervision and with the participation of our management, including our principal executive, financial and accounting officers, the Company has conducted an evaluation of the effectiveness of its internal control over financial reporting based on the framework in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The evaluation included a review of the documentation of controls, evaluation of the design effectiveness of controls, and testing of the operating effectiveness of controls.

Based on this evaluation, management has concluded that as of September 24, 2005, the Company did not have any material weakness in its internal control over financial reporting and its internal control over financial reporting was effective. Management's assessment of the effectiveness of its internal control over financial reporting as September 24, 2005, has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in their report, which is included in this Annual Report on Form 10-K and listed in the index to financial information on page 14.

Changes in Internal Control over Financial Reporting

No change to the Company's internal control over financial reporting occurred during the period covered by this Annual Report on Form 10-K that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. Other Information

None.

Table of Contents**PART III****ITEM 10. Directors and Executive Officers of the Registrant**

The information required by this item, to the extent not set forth below, appears in the Company's definitive proxy statement dated December 15, 2005 for the annual meeting of stockholders to be held on January 26, 2006 (the Proxy Statement), under the captions Election of Directors, Corporate Governance Section 16(a) Beneficial Ownership Reporting Compliance, and is incorporated herein by reference and made a part hereof.

EXECUTIVE OFFICERS OF THE REGISTRANT

Name	Age	Position With Company
S. Scott Harding	57	Chief Executive Officer
Jeffrey E. Epstein	49	Executive Vice President Chief Financial Officer
Edwin Harless	58	Executive Vice President Chief Administrative Officer
Myron L. Lubin	65	Executive Vice President President, Diversified Business Group
Donald E. McCombs	49	Executive Vice President President, Operations Group
Stephanie Molnar	46	Executive Vice President President, Sales and Services
Donald S. Schneider	58	Executive Vice President Chief Human Resources Officer
Marie Gant	46	Senior Vice President Chief Information Officer
Vincent Giuliano	58	Senior Vice President Government Relations
Matthew Spahn	42	Senior Vice President Chief Marketing Officer
Christopher T. Hutter	39	Vice President Financial Planning and Analysis and Investor Relations; Treasurer and Assistant Secretary
John D. Speridakos	44	Vice President and Controller

Mr. Harding became Chief Executive Officer and was elected to the Board of Directors on October 15, 2004. From June 1992 to October 2004 he was Chairman and Chief Executive Officer of Newspaper Services of America (NSA), which he co-founded. NSA, the nation's largest print media planning and buying agency, was sold to Interpublic Group of Companies in 1995.

Mr. Epstein became Executive Vice President Chief Financial Officer on June 6, 2005. He is a member of the Board of Directors of Revonet, Inc., a business-to-business marketing and database company, since January 2004 and Chairman of the Board of Revonet since January 2005. Mr. Epstein was employed by Revonet as acting President and Chief Executive Officer from June 2004 to December 2004. Previously, Mr. Epstein was Senior Vice President and Chief Financial Officer of VNU Inc.'s Media Measurement and Information Group from March 2002 to December 2003. Prior to that, from March 1998 to February 2002, he held senior management positions, including Chief Financial Officer, with DoubleClick, Inc., a provider of multi-channel marketing solutions. Mr. Epstein also currently serves on the Board of Directors of Priceline.com.

Mr. Harless became Executive Vice President Chief Administrative Officer on May 14, 2002. From August 2000 to May 2002 he was Senior Vice President Chief Human Resources Officer. Prior to that, he held various positions at Aventis-Behring, a subsidiary of Aventis, S.A., a life science company, including Senior Vice President and General Manager from October 1997 to August 2000.

Edgar Filing: ADVO INC - Form 10-K

Mr. Lubin became Executive Vice President President, Diversified Business Group (previously known as Strategic Business Development) on April 12, 2000. Prior to that, he held various positions with the Company since 1981 including senior management positions in the marketing and sales areas.

Table of Contents

Mr. McCombs became Executive Vice President President, Operations Group on October 26, 2001. Prior to that, he held various positions with the Company since 1987, including most recently, Executive Vice President and Chief Financial Officer from December 1998 to October 2001 and other senior management positions in the finance area.

Ms. Molnar became Executive Vice President President, Sales and Services on October 14, 2004. From February 2004 to October 2004, she was Executive Vice President President, Sales and Marketing. Prior to that, she held various positions with the Company since 1983, including most recently senior management positions in the marketing and client logistics areas.

Mr. Schneider became Executive Vice President Chief Human Resources Officer on October 14, 2004. Prior to that, he held the position of Senior Vice President, Human Resources from July 2004 to October 2004. From April 2003 to June 2004 he was a principal at Rev Solutions, a consulting practice focused on development and execution of company-wide Human Resource strategies. Prior to that, from November 2002 to March 2003 he was Executive Vice President Director of Human Resources at McCann Erickson World Group, a multi-national marketing communications network. From September 1998 to September 2002, he was Senior Vice President Human Resources and Administration at Winstar Communications, a broadband services company.

Ms. Gant became Senior Vice President Chief Information Officer on February 14, 2005. Previously from January 1999 to January 2005, she was Vice President, Information Systems at Jostens, Inc., a school products manufacturer based in Minneapolis, MN.

Mr. Giuliano has been Senior Vice President Government Relations since October 28, 1996. From April 1983 to October 1996, he was Vice President Government Relations.

Mr. Spahn became Senior Vice President Chief Marketing Officer on May 1, 2005. From May 1997 to April 2005, he was Director, Media Planning at Sears, Roebuck and Company. Prior to that, he was a principal at Newspaper Services of America from April 1993 to May 1997.

Mr. Hutter became Vice President, Treasurer and Investor Relations on October 28, 1999 and assumed responsibility of Financial Planning and Analysis on November 19, 2003. He became the Company's Assistant Secretary on July 11, 2005. Previously he held various financial management positions with the Company since 1993.

Mr. Speridakos became Vice President and Controller on April 1, 2002. Prior to that, he held the position of Vice President and Assistant Controller from October 2001 to March 2002. From June 2000 to June 2001, he was Chief Financial Officer of Aluminium.com. Prior to that, he worked for Geller & Co., servicing Bloomberg L.P. from June 1998 to March 2000.

The Company is not aware of any family relationships between any of the foregoing officers and any of the Company's directors. Each of the foregoing officers holds such office until his or her successor shall have been duly chosen and qualified, or until his earlier resignation or removal.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of ADVO's financial condition and results of operations should be read in conjunction with the Company's Consolidated Financial Statements and the notes to those statements included in Item 15 of Part IV of this Form 10-K.

Forward Looking Statements

This Annual Report on Form 10-K and, in particular, this Management's Discussion and Analysis of Financial Condition and Results of Operations contain forward looking statements within the meaning of Section 27A of the Securities Exchange Act of 1933 and Section 21E of the Securities Exchange Act of 1934, each as amended. Such forward looking statements are based on current information and expectations and are subject to risks and uncertainties that could cause the Company's actual results to differ materially from those in the forward looking statements. The Company's business is promotional in nature, and ADVO serves its clients on a just in time basis. As a result, fluctuations in the amount, timing, pages and weight, and kinds of advertising pieces can vary significantly from period to period, depending on its customers promotional needs, inventories and other factors. In any particular period these transactional fluctuations are difficult to predict, and can materially affect the Company's revenue and profit results. The Company's business contains additional risks and uncertainties that include but are not limited to: general changes in customer demand and pricing, the possibility of consolidation in the retail sector, the impact of economic and political conditions on advertising spending and the Company's distribution system, postal and paper prices, possible governmental regulation or legislation affecting aspects of the Company's business, the efficiencies achieved with technology upgrades, fluctuations in interest rates and other general economic factors.

General

ADVO, Inc. (ADVO or the Company) is a direct mail media company that operates under one segment and is primarily engaged in soliciting and processing printed advertising from retailers, manufacturers and service companies for targeted distribution by both shared and solo mail to consumer households in the United States and Canada on a national, regional and local basis. In addition to ADVO's direct mail products, shared mail and solo mail, ADVO also provides ancillary services to complement its direct mail programs. Founded in 1929 as a hand delivery company, ADVO entered the direct mail industry as a solo mailer in 1946 and began its shared mail program in 1980.

The Company's shared mail programs are its predominant source of revenue. These programs combine the advertisements of several advertisers into a single mail package. Such combination offers the features of penetration and targeted marketing at a significant cost reduction when compared to mailing on an individual or solo mail basis. The Company's client base consists principally of national and local grocers, quick serve restaurants, drug stores, discount and department stores, telecommunications companies, auto service and other retailers.

The Company's latest three fiscal years ended: September 24, 2005 (fiscal 2005); September 25, 2004 (fiscal 2004); and September 27, 2003 (fiscal 2003).

Financial Overview

Edgar Filing: ADVO INC - Form 10-K

The Company reported record revenues in fiscal 2005, increasing 11.2% over fiscal 2004 revenues. Increased advertising piece volumes fueled by increased client demand and benefits realized from the market expansion programs initiated at the end of fiscal 2004 were the key drivers behind the revenue growth. This growth was present across the majority of advertising retail categories and across the country. In fiscal 2005, shared advertising pieces increased 14.8% and shared advertising packages increased 16.1%. The market expansion programs included offering second weekly advertising programs on alternative days of the week in the

Table of Contents

Southern California and Pittsburgh markets, the Raleigh-Durham market and the rural Shared Expansion Zone program. These programs have allowed, and continue to allow, advertisers to utilize the Company's targeting capabilities on alternative days of the week and the Company to offer these markets to local and national clients. These market expansion initiatives have been incorporated into the Company's shared advertising mail offerings and represent a significant part of the Company's growth strategy.

The Company's market expansion programs have contributed positively to fiscal 2005's revenue growth, however, due to unused postage costs associated with the additional packages in some of the expansion programs, operating margins were negatively affected. The Company incurred unused postage costs in the expansion packages, particularly those in Southern California, because the packages delivered were not completely filled. Postage costs associated with the advertising packages are fixed in nature for packages that weigh 3.3 ounces or less, whether or not the package is partially or completely filled. In the expansion programs the Company delivered an average of 5 pieces of advertising pieces per package, as compared to the Company's overall average of approximately 8 pieces per package.

The unused postage costs and other distribution costs associated with the market expansion programs were the primary factors influencing the \$11.9 million comparative decrease in reported operating income for fiscal 2005 versus fiscal 2004. Because of these costs, the Company's operating margin decreased 1.5 percentage points in fiscal 2005. Another factor affecting the fiscal 2005 operating income was a \$3.5 million pretax charge for the Company's organizational realignment that was designed to focus its internal resources toward the most significant and profitable business opportunities.

The Company finished fiscal 2005 with a cash balance of \$46.2 million and a debt balance of \$124.9 million, consisting of senior secured ten-year notes, which was essentially unchanged from the prior year. Supported by strong cash flow management, the Company funded capital investments and paid quarterly cash dividends. Stockholders' equity at the end of fiscal 2005 was \$185.3 million, an increase of \$43.5 million over the end of fiscal 2004.

Business Outlook

The following business outlook is as of the date of this annual report and is subject to the Company's safe harbor policy detailed above in Forward Looking Statements .

As previously noted, the Company's fiscal 2005 top line revenue growth did not translate positively to the Company's operating margin. For fiscal 2006, margin improvement will be a major focal point for the Company. The Company's margin enhancement efforts will focus on better leveraging the Company's distribution costs, specifically unused postage costs through the following initiatives:

establishing a dedicated remnant sales team dedicated to maximizing postage utilization;

refocusing the Company's network group, which is responsible for the profile of the households where packages with unused postage are delivered;

continuing to grow new retail category expansions;

Edgar Filing: ADVO INC - Form 10-K

continuing to sell a greater proportion of the Company's higher profit margin products; and

continuing to improve the financial results in the Company's expansion program in the Southern California market.

In addition, during fiscal 2006, the Company will continue to strive to ensure that its customers understand and appreciate the beneficial qualities of and the value inherent in ADVO's targeting capabilities and ADVO's ability to positively affect and ultimately drive its advertisers sales. In fiscal 2006, as in previous years, the Company will continue to focus on improving ADVO's operational efficiencies.

Table of Contents

Other items of note that will affect fiscal 2006 include:

The Company's operating results for fiscal 2006 will include the Company's performance for a ~~5~~ week due to the timing of the last Saturday in September.

The Company will implement its new order delivery system, the service delivery redesign project, during fiscal 2006.

The United States Postal Service Board of Governors completed its final consideration of the Postal Rate Commission's (PRC) recommendation and announced a 5.4% postage rate increase across the board effective January 8, 2006. The Company intends to pass any postage increase through to its customers in fiscal 2006.

RESULTS OF OPERATIONS

FISCAL 2005 COMPARED TO FISCAL 2004

Revenues

Full-year fiscal 2005 revenues increased \$139.8 million to \$1,385.6 million over full-year fiscal 2004 revenues of \$1,245.8 million. The double-digit revenue growth of 11.2% was predominantly the result of increased volume in the Company's shared advertising products with new and existing clients. Nearly every region of the country and virtually all of the Company's top ten retail-advertising categories experienced revenue growth. The Company's volume growth was primarily attained through improved business in existing markets and increased frequency of mailings as a result of the Company's ongoing market expansion programs, which commenced late in the fourth quarter of the prior year.

The revenue volume gains in fiscal 2005 were also realized because of shared advertising piece and package growth. During fiscal 2005, shared advertising pieces increased 14.8% to 34.2 billion pieces and shared advertising packages increased 16.1% to 4.2 billion packages. These increases in the Company's shared advertising products were a significant component of the revenue growth during the reporting period.

Slightly offsetting the year-over-year revenue growth was a 2.5% decrease in revenue per thousand pieces to \$37.31 in fiscal 2005 from \$38.28 in fiscal 2004. This decrease resulted from shifts in overall product mix to lower margin products and a decrease in product weights associated with the weight of customers' preprint circulars.

For fiscal 2005 average pieces per package decreased 1.2% from 8.33 pieces in fiscal 2004 to 8.23 pieces. The Company's market expansion programs led to increases in the overall number of shared advertising packages delivered, which diluted the Company's average number of pieces per package. Lower pieces per package are traditionally experienced within the industry during the early stages of a market expansion program until sales and marketing efforts are realized and the packages are completely filled. Throughout fiscal 2005 the Company's trended average pieces per package improved sequentially during each reporting period in fiscal 2005. However, average pieces per package ran unfavorably to the prior year in the first and second quarters of fiscal 2005 by approximately 3.0%; essentially flat in the third quarter; and favorable to the prior year in the fourth quarter; resulting in an overall 1.2% decrease in fiscal 2005 from fiscal 2004 levels.

Total shared advertising packages and pieces delivered under the market expansion programs were 2.7 billion pieces and 0.5 billion packages for fiscal 2005. Excluding the unfavorable effect experienced as a result of the startup of the market expansion programs, total shared advertising packages and total shared advertising pieces increased 2.9% and 6.2%, respectively, over the prior fiscal year. These results demonstrate the continued growth in the Company's core advertising business, outside of the market expansion programs.

Table of Contents

Operating Expenses

Cost of sales for the year ended September 24, 2005 increased \$146.6 million to \$1,062.4 million against the prior year. This increase was mainly attributed to the distribution, printing and production costs associated with the volume growth in shared advertising packages and pieces delivered.

Printing costs increased 28.2% over prior year due to the volume growth in shared advertising pieces, as well as a shift towards printed products. Similarly, the growth in number of packages and pieces processed in the Company's facilities led to increased production costs of 16.6% in fiscal 2005.

Distribution costs, predominately postage costs, increased 15.0% in fiscal 2005 and reflected costs associated with the packages and pieces mailed under the Company's market expansion programs. Continuing the trend previously reported throughout fiscal 2005, the primary component of higher distribution costs was unused postage. Unused postage results from the lower pieces per package delivered in the market expansion programs. The Company is continuing its efforts to increase the average pieces per package in its market expansion programs and lower unused postage costs. In support of this effort, the Company has redirected certain resources toward improving its unused postage and has implemented several initiatives aimed at reducing unused postage costs.

For fiscal 2005 gross margin decreased 3.2 percentage points when compared to the prior year. This decline in gross margin was largely due to the postage costs associated with the market expansion programs, particularly in the Southern California market, and to a lesser extent, to the shift in overall product mix to lower margin products. The Company is focused on improving its gross margin performance in fiscal 2006.

Selling, general and administrative costs, (SG&A costs) increased \$2.3 million for the fiscal year ended September 24, 2005 when compared to the same period of the prior year. As a percentage of revenue, SG&A costs were 17.6% for fiscal 2005 compared to 19.4% for fiscal 2004. The components of the increase in SG&A costs included the following:

a \$6.3 million increase in commissions paid as a result of revenue growth and higher sales incentives;

a \$2.8 million increase in employee benefit costs resulting from rising health and medical costs;

a \$2.5 million decrease in incentive compensation because the Company did not reach its performance goals;

a \$1.0 million decrease in consulting costs due to the termination of certain consulting projects performed in the prior year; and

a \$3.3 million decrease in various miscellaneous costs, including lower amortization of aircraft rights as a result of the sale of those rights, fewer legal settlements, and decreased insurance premiums for directors and officers as a result of Company instituted coverage changes.

Edgar Filing: ADVO INC - Form 10-K

SG&A costs for both fiscal 2005 and 2004 included certain non-recurring charges. In the third quarter of fiscal 2005, the Company recorded a \$3.5 million charge as a result of the Company's organizational realignment which was designed to better focus the Company's resources on the most significant and profitable business opportunities. In the third quarter of fiscal 2004, the Company incurred a \$3.9 million charge related to the departure of the Company's former Chief Executive Officer.

Bad debt expense was \$9.6 million for fiscal 2005, which represents a \$2.8 million increase over the prior year. This increase was primarily due to experience with specific customers in the Company's satellite category. Bad debt expense as a percentage of revenues was 0.7% in fiscal 2005 versus 0.5% in fiscal 2004. Although bad debt expense is a result of many uncontrollable events and circumstances, the Company does not believe that its fiscal 2005 bad debt experience is indicative of a trend toward continuing increased bad debt expense.

Table of Contents

Depreciation and amortization expense, which is a component of both costs of sales and SG&A costs, increased \$3.4 million year-over-year. The increase is a result of the implementation and activation of certain phases of the service delivery redesign project and the depreciation expense associated with the new Windsor, Connecticut production facility which was placed into service in the last quarter of fiscal 2004.

Operating Income

The Company reported operating income of \$69.1 million for fiscal 2005, which represented a decrease of \$11.9 million from fiscal 2004 operating income of \$81.0 million. As a percentage of revenues, operating income decreased 1.5 percentage points to 5.0% versus 6.5% in fiscal 2004. This decrease in operating margin was largely due to the additional distribution expenses related to the market expansion programs, particularly in the Southern California market. The year-over-year impact to operating income specifically attributable to the Southern California market was a loss of \$28.9 million.

Interest Expense

Even though the Company's average outstanding debt balance decreased in fiscal 2005 versus fiscal 2004, the Company incurred increased interest expense of \$1.5 million to \$6.9 million when compared to fiscal 2004, primarily due to higher market interest rates. The Company's average interest rate in fiscal 2005 was 5.5% compared to 3.9% in fiscal 2004. The average outstanding debt balance was \$124.9 million during fiscal 2005 versus \$138.3 million during fiscal 2004.

Equity Earnings in Joint Ventures

The Company owns a 50% interest in Detroit Weekend Direct (DWD) and New England Direct (NED) and accounts for these interests under the equity method. These joint ventures with specific metropolitan newspapers create integrated print advertising solutions by combining targeted direct mail with newspaper distribution. The Company's equity earnings in joint ventures were \$2.0 million for fiscal 2005 versus \$2.6 million for fiscal 2004.

Income Taxes

The Company's effective tax rate for fiscal 2005 was 37.5% versus 36.0% in fiscal 2004. The fiscal 2004 tax rate was lower due to the beneficial impact of adjustments made to the tax accrual resulting from the completion of both state and federal audits. These adjustments were not available to the Company in fiscal 2005 resulting in a higher effective rate. The effective income tax rate for fiscal 2006 is expected to be between 38% and 39%.

Earnings per Share

Edgar Filing: ADVO INC - Form 10-K

Diluted earnings per share for fiscal 2005 were \$1.27 compared to \$1.59 in fiscal 2004. Fiscal 2005 diluted earnings per share were affected negatively by the decline in the Company's operating margin as discussed above. In addition, fiscal 2005 diluted earnings per share were negatively affected \$0.07 by the realignment charge.

FISCAL 2004 COMPARED TO FISCAL 2003

Revenues

The Company reported revenues of \$1,245.8 million in fiscal 2004 increasing \$82.7 million over fiscal 2003 revenues of \$1,163.1 million. The 7.1% revenue growth was primarily attributable to volume gains in the Company's shared advertising products, which were achieved through increased business in existing markets and increased frequency of mailings in response to client demand. The revenue growth was present across the country

Table of Contents

and in each of the Company's top ten advertising categories, with the exception of the grocery category which would have grown absent the grocery strike. The grocery category was negatively affected by the grocery strike in Southern California that ended during the Company's second quarter. The revenue volume gains were also illustrated by the growth in shared advertising packages and shared advertising pieces delivered. Shared advertising packages increased 4.9% to 3.6 billion packages and shared advertising pieces increased 9.9% to 29.8 billion pieces. Average shared advertising pieces per package, another key performance indicator of the Company, was 8.33, increasing 4.8% over fiscal 2003.

Offsetting the volume increases mentioned above was a 1.7% decrease in shared mail revenue per thousand pieces to \$38.28 for fiscal 2004. This decline reflects the shift in product mix to lower priced products and a decrease in pricing.

During the fourth quarter of fiscal 2004, the Company announced the start-up of several additional advertising programs on alternative days of the week in Southern California and Pittsburgh. These programs commenced in the middle of September and contributed approximately \$1.8 million of revenues.

Operating Expenses

The \$56.5 million increase in fiscal 2004 cost of sales over fiscal 2003 was primarily attributable to higher distribution and print costs. Distribution costs, predominately comprised of postage costs, increased 6.2% over the prior year. The Company incurred increased postage costs as a result of the volume growth in shared advertising pieces and packages delivered. Print expense increased 15.2% due to the print costs associated with the growth in certain shared mail products. Also included in cost of sales were \$2.4 million of costs associated with the new programs in Southern California and Pittsburgh that began in the fourth quarter of fiscal 2004. The Company opened a second facility in Los Angeles to fulfill the incremental demand driven by the expected volume increases in Southern California from the new weekend program and the continued growth in existing programs.

Cost of sales as a percentage of revenues decreased 0.4 percentage points from 73.9% in fiscal 2003 to 73.5% in fiscal 2004. This improvement was driven by increased revenues associated with the growth in average shared mail pieces per package in fiscal 2004 and the resulting efficiencies in postage utilization.

As a percentage of revenues, selling, general and administrative costs, including the provision for bad debts, (SG&A costs) were 19.1% in fiscal 2003 compared to 20.0% in fiscal 2004. SG&A costs increased \$26.8 million over the prior year and were comprised of a \$16.9 million increase in selling expense and a \$9.9 million increase in general and administrative costs.

Selling expense increased over the prior fiscal year mainly due to increased commission and sales support costs directly associated with the fiscal 2004 revenue growth. Also contributing to the increased selling costs were the Company's continued investments in selling capabilities associated with its Breakout Growth strategy. In addition, bad debt expense increased \$3.0 million during fiscal 2004 primarily due to receivables associated with two specific clients.

The year-over-year increase in general and administrative costs was primarily due to the following factors:

Edgar Filing: ADVO INC - Form 10-K

a \$4.0 million increase in employee benefits costs due to rising medical and insurance costs;

the \$3.9 million severance charge associated with the departure of the Company's former CEO;

a \$1.4 million increase in depreciation expense primarily as a result of certain phases of the service delivery redesign project being placed into service; and

increases in miscellaneous costs including insurance premiums for directors and officers and legal fees.

Table of Contents

In fiscal 2004 certain reductions in general and administrative expenses offset the year-over-year increases mentioned above. Specifically, the Company did not incur in fiscal 2004 the consulting expenses to the level recorded in fiscal 2003 related to that year's project that focused on accelerating the Company's revenue growth potential. The Company also paid lower incentive compensation wages in fiscal 2004 than fiscal 2003.

Operating Income

In fiscal 2004 the Company experienced a slight decrease in operating income, recording \$81.0 million in fiscal 2004 versus \$81.6 million in fiscal 2003. Fiscal 2004's operating results were negatively affected by the \$3.9 million pretax charge related to the departure of the Company's former CEO.

Interest Expense

For fiscal 2004, the Company reported interest expense of \$5.4 million versus \$7.4 million in fiscal 2003. This \$2.0 million decrease was primarily due to lower interest rates and a lower average outstanding debt balance. The average outstanding debt balance was \$138.3 million in fiscal 2004 versus \$163.5 million in 2003.

In an effort to lower interest expense and provide additional sources of capital for the Company's ongoing operations, on December 4, 2003, the Company replaced its existing credit facilities, term loan and revolving line of credit, with the private placement of senior secured notes and a new bank revolver. The Company concluded that the replacement of the term loan with senior secured notes met the criteria of an extinguishment of debt per EITF 96-19, *Debtor's Accounting for a Modification or Exchange of Debt Instruments*. Consequently, all unamortized debt issue costs associated with the term loan were written off. In addition, the Company followed the guidance per EITF 98-14, *Debtor's Accounting for Changes in the Line-of-Credit or Revolving-Debt Arrangements*, to calculate the amount of unamortized debt issue costs associated with the replacement of the revolving line of credit. In total, the Company wrote off \$1.4 million of unamortized debt issue costs associated with the previous credit facilities.

Equity Earnings in Joint Ventures

The Company owns a 50% interest in Detroit Weekend Direct (*DWD*) and New England Direct (*NED*) and accounts for these interests under the equity method. These joint ventures with specific metropolitan newspapers create integrated print advertising solutions by combining targeted direct mail with newspaper distribution. The Company's equity earnings in joint ventures increased \$1.2 million to \$2.6 million in fiscal 2004 primarily driven by increased revenue performance in the *DWD* joint venture.

Income Taxes

The Company's effective tax rate for fiscal 2004 was 36.0% versus 34.3% in fiscal 2003. The lower effective tax rate in fiscal 2003 was the result of R&D credits earned and taken by the Company.

Earnings per Share

The Company reported diluted earnings per share of \$1.59 in fiscal 2004 compared to \$1.64 in fiscal 2003. The fiscal 2004 diluted earnings per share were affected negatively in the aggregate amount of \$0.11 per share by charges discussed above related to the departure of the Company's former CEO (\$0.08) and the write-off of the unamortized debt issue costs associated with the debt retirement (\$0.03).

Table of Contents**FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES***Stockholders' Equity*

Stockholders' equity was \$185.3 million at September 24, 2005, a \$43.5 million increase from the end of the prior fiscal year. This increase was primarily attributable to fiscal 2005's net income of \$40.0 million. Other items contributing positively to the increase were \$15.7 million associated with employee stock plan activity and related tax benefits and \$2.7 million of amortization of deferred compensation. Offsetting these increases were treasury stock purchases of \$1.6 million related to elections by employees to satisfy tax withholding requirements for stock option exercises and quarterly cash dividends totaling \$13.7 million.

Liquidity and Capital Resources

The following table summarizes selected measures of liquidity and capital resources.

<i>(In millions)</i>	September 24, 2005	September 25, 2004
Cash and cash equivalents	\$ 46.2	\$ 30.3
Cash generated from operating activities	\$ 70.2	\$ 95.0
Working capital	\$ 126.0	\$ 89.2
Working capital ratio	2.08	1.77
Total debt	\$ 124.9	\$ 125.2

The Company's primary source of liquidity has been cash and cash equivalents and cash generated from operating activities. The Company also has unused commitments under its revolving line of credit that may be used to fund operating activities.

The Company's cash and cash equivalents consist of bank balances and short-term investment funds. These investments have a high degree of liquidity and the maturities of these funds do not exceed three months. The management of cash is carefully controlled both to optimize returns on cash balances and to ensure that it is readily available to meet the Company's operating requirements as they arise. The amount of cash on hand and borrowings available under the credit facilities are influenced by a number of factors including, fluctuations in the Company's operating results, revenue growth, accounts receivable collections, the level of capital expenditures, cash requirements related to financing instruments, vendor terms and the timing of tax and other payments.

Based on current earnings projections and the prevailing economic conditions for customer demand, the Company believes that over the next twelve months it will have sufficient liquidity from cash and cash equivalents, cash flow from operating activities and borrowings from unused commitments on its revolving line of credit to fund its operations and working capital requirements as currently planned, its capital plan expenditures, interest payments on its indebtedness, contractual obligations, investments in additional advertising programs and anticipated quarterly cash dividends. While it is the Company's intention to pay quarterly cash dividends in fiscal 2006 and beyond, any decision to pay future cash dividends will be made by the Company's Board of Directors and will depend upon the Company's earnings, financial condition and other factors.

Sources and Uses of Cash

The Company's financial position remained strong throughout fiscal 2005 with cash and cash equivalents increasing \$16.0 million over fiscal 2004. Net cash provided from operating activities totaled \$70.2 million, while net cash of \$52.5 million was used for investing activities and \$1.8 million for financing activities.

Table of Contents

Operating Activities

For the period ended September 24, 2005, net cash provided by operating activities was \$70.2 million versus \$95.0 million in the prior year. The Company's earnings, which are the primary driver of cash provided by operating activities, decreased \$8.8 million. In addition, the year-over-year decline was attributed to changes within working capital assets and liabilities.

Significant working capital requirements affecting net cash provided by operating activities for the year ended September 24, 2005 were as follows:

an increase in accounts receivable primarily due to the revenue growth and the extension of credit terms to existing larger reputable clients versus prepayment. This extension has contributed to the increase in the DSO metric from 40 days at September 25, 2004 to 43 days at September 24, 2005;

an increase in prepaid postage resulting from the prepayment of postage costs to United States Postal Service;

an increase in accounts payable due to the timing of vendor payments; and

a decrease in federal and state income taxes payable due the Company's lower fiscal 2005 earnings and due to the prepayment of postage which lowered the Company's tax liability.

Net cash provided by operating activities for fiscal 2004 was \$95.0 million, slightly increasing \$1.9 million from net cash provided by operating activities for fiscal 2003. The Company's earnings, which are the primary driver of cash provided by operating activities, remained relatively consistent year-over-year. In addition, the year-over-year change included non-cash charges to earnings, specifically a decrease in deferred income taxes offset to a degree by an increase to the provision for bad debts primarily due to receivables associated with two specific clients.

In fiscal 2004, the Company's principal working capital requirements, which also affected the net cash provided by operating activities, were as follows:

an increase in accounts receivable primarily due to the 12% revenue growth for the month of September compared to the same month of fiscal 2003. The revenue growth was attributable to shared mail piece and package growth. Also contributing to the increase was the extension of credit terms to existing major clients. The Company, however, maintained the same accounts receivable level of percent current as the previous fiscal year;

an increase in accounts payable due to the timing of vendor payments;

an increase in accrued compensation and benefits primarily due to the severance accrual recorded for the departure of the Company's former CEO that will be paid through June 2006;

Edgar Filing: ADVO INC - Form 10-K

an increase in accrued other expenses due to higher client incentives, higher legal contingencies and the timing of interest expense payments.

Investing Activities

Net cash used by investing activities of \$52.5 million for the year ended September 24, 2005 was primarily due to capital expenditures of \$54.9 million. Offsetting the cash outflows for investing activities were proceeds from sale of aircraft rights of \$2.4 million.

Investments in property, plant and equipment for the year ended September 24, 2005 totaled \$54.9 million versus \$71.0 million for the year ended September 25, 2004. Prior year expenditures were higher due to costs associated with the construction of the Company's then new production facility that began in the first quarter of fiscal 2004.

Table of Contents

Property, plant and equipment expenditures for fiscal 2005 included the following:

\$25.2 million for software development for the Company's service delivery redesign project;

\$10.1 million for various production equipment including Alphaliners (computerized mail sorters);

\$9.7 million for computer hardware and upgrades to existing software; and

\$6.2 million for leasehold improvements at certain of the Company's production facilities.

During fiscal 2005 the Company continued to develop software for the service delivery redesign project that is scheduled to be implemented in stages through fiscal 2006. This project will upgrade current software applications, employ new technology and work processes to speed information flow, and will automate several functions throughout the organization. Certain phases of the new software and systems have been placed into service during fiscal 2005 and 2004 with the remaining expected to be placed into service during fiscal 2006. In fiscal 2005 and 2004, the Company capitalized \$25.2 million and \$25.3 million, respectively, relating to software and software development for the service delivery redesign project.

During fiscal 2004 acquisitions of property, plant and equipment totaled \$71.0 million and included projects similar to those discussed above along with the cost of a new production facility. The Company relocated its former Hartford, Connecticut production facility to a new location in Windsor, Connecticut. The total cost of the new facility through fiscal 2004 was \$25.0 million, which includes \$1.6 million of land acquisition costs. The construction costs for the Company's new facility were recorded to construction in progress (CIP), which is included in property, plant & equipment. The majority of the construction costs were placed into service when the new facility opened in September 2004.

Other property, plant and equipment expenditures for fiscal 2004 included:

\$25.3 million for software development for the Company's service delivery redesign project;

\$10.9 million for the deployment of Alphaliners (computerized mail sorters) and other production equipment; and

\$4.6 million for the upgrade of computer hardware to meet the needs of financial and operational software currently being developed by the Company.

The Company's fiscal 2006 capital plan estimates capital expenditures to be approximately \$50.0 million. Historically, cash from operating activities has been sufficient to cover the financing of these capital expenditures. The Company expects this trend will continue and that cash from operating activities will be sufficient to cover future capital expenditures.

Financing Activities

Edgar Filing: ADVO INC - Form 10-K

Net cash used by financing activities was \$1.8 million in fiscal 2005 and included cash inflows of \$13.4 million of proceeds from the exercise of stock options. This cash inflow was offset by cash outflows of \$1.6 million for treasury stock transactions pursuant to elections by employees to satisfy tax withholding requirements, and cash dividends totaling \$13.7 million that were paid quarterly throughout fiscal 2005.

Net cash used by financing activities was \$10.7 million in fiscal 2004 and reflects the following debt activity resulting from the refinancing in the first quarter of fiscal 2004:

the net effect of the payment of the term loan and borrowing of the senior secured notes;

net repayments on the revolving line of credit; and

the payment of \$2.2 million of debt issue costs.

Table of Contents

Other financing outflows for fiscal 2004 included quarterly cash dividend payments totaling \$13.3 million and treasury stock transactions of \$5.2 million pursuant to elections by employees to satisfy tax withholding requirements. Financing activity inflows for the year included proceeds of \$15.2 million from stock options exercises, \$9.2 million of which represented proceeds from exercises by the Company's former CEO.

In the first quarter of fiscal 2004, the Company replaced its then existing credit facilities. The aggregate principal amount of the new credit agreements total \$275 million, including the private placement of \$125 million senior secured notes with several institutional investors and a \$150 million revolving line of credit (revolver) with a syndicate of banks.

The senior secured notes consist of \$65 million notes at a fixed interest rate of 5.71% (Series A Notes) and \$60 million notes at a variable interest rate of LIBOR rate plus 0.92% (Series B Notes). The senior secured notes have a ten-year life and mature in December 2013. Interest is payable semi-annually on the Series A and quarterly on the Series B Notes.

The revolver has a four-year life and remains available until maturity in December 2007. The revolver bears interest, at the Company's option, equal to the LIBOR rate or to the bank's base rate plus an applicable margin based on certain financial ratios. The applicable margin ranges from 0.875% to 1.50% on the LIBOR rate and 0% to 0.50% on the base rate. Interest is payable quarterly or upon the maturity of the LIBOR contracts, whichever is shorter.

At September 24, 2005, the senior secured notes accounted for the entire outstanding debt balance of \$125.0 million. There was no outstanding balance on the revolving line of credit. The Company anticipates it will be able to meet its debt obligations through internally generated funds from operations.

The Company pays fees on the unused commitments at a rate ranging from 0.20% to 0.40% depending on the Company's debt ratio, as defined in the definitive agreement governing the revolver. At September 24, 2005, there was \$138.5 million available for future borrowings, which reflects \$11.5 million utilized by letters of credit under separate agreements related to the Company's workers' compensation program.

In the first quarter of fiscal 2004, the Company capitalized \$2.2 million of debt issue costs directly associated with the issuance of the new debt. These costs are included in other assets and are being amortized either over the ten-year life of the senior secured notes or over the four-year life of the revolver, whichever is applicable.

Under the terms of the senior secured notes and the revolver, the Company is required to maintain certain financial ratios. The credit facilities also place restrictions on disposals of assets, mergers and acquisitions, dividend payments, investments and additional debt.

Contractual Obligations

The Company anticipates it will be able to meet the commitments detailed below through funds generated from operations or from available credit under its revolving line of credit.

Edgar Filing: ADVO INC - Form 10-K

	Total debt	Operating leases
	<u> </u>	<u> </u>
<i>(In millions)</i>		
Less than one year	\$ (0.1)	\$ 15.3
One to three years		30.8
Four to five years		14.5
After five years	125.0	11.0
	<u> </u>	<u> </u>
Total	\$ 124.9	\$ 71.6
	_____	_____

Table of Contents

The Company's long-term debt obligations are discussed above in the Financing Activities section. The amount of \$(0.1) million listed in the less than one year category represents the fair value of the Company's fixed to floating interest rate swap agreement at September 24, 2005.

The Company leases property in its normal business operations under noncancellable operating leases. Certain of these leases contain renewal options and certain leases also provide for cost escalation payments.

On April 1, 2005, the Company amended its three agreements with International Business Machines (IBM) to provide systems application, development and maintenance, a customer support center and client server management services. The Company's regional production sites, sales offices and corporate headquarters are on-line with IBM's computer center, enabling the day-to-day processing functions to be performed and providing ADVO's corporate headquarters with management information.

The amendments extend the terms of the three agreements to December 31, 2012 and allow for cancellation of two of the agreements starting January 1, 2007, subject to certain possible termination charges ranging from \$2.6 million to \$0.3 million depending on the year in which the cancellation becomes effective. The third agreement can be terminated on January 1, 2009 subject to termination charges ranging from \$0 to \$30.5 million, depending on the Company's spending with IBM over the contract period. Total charges under the terms of the agreement through 2012 would be approximately \$165.0 million if not cancelled. Future commitments for the noncancellable portion of the agreements are \$25.2 million for fiscal 2006, \$20.8 million for fiscal 2007, \$8.7 million for fiscal 2008 and \$9.1 million for fiscal 2009. The agreements provide for the Company to pay a cost of living adjustment indexed on the rate of inflation. In addition, the Company may receive credits or incur additional charges if certain baseline utilization assumptions are exceeded or not met.

The Company has cancellable agreements with various paper suppliers to assure the continuity of supply as well as the supply of proper paper grades. Approximately 60 to 70% of the Company's expected paper requirements are covered by these agreements. The Company has negotiated prices that are tied to a published paper price index. These arrangements expire at various dates through 2006 and bear no risk to loss as they are all cancellable at the Company's option.

The Company has outstanding letters of credit of approximately \$11.5 million under separate agreements expiring in April 2006, primarily relating to its workers' compensation program.

MARKET RISK

The Company's interest expense is sensitive to changes in interest rates. In this regard, changes in interest rates affect the interest paid on its debt. To mitigate the impact of interest rate fluctuations, the Company maintains interest rate swap agreements.

The Company entered into one interest rate swap agreement with a notional amount of \$25 million to swap a portion of the 5.71% fixed rate interest on the Company's \$65 million senior secured notes for variable rate interest. At September 24, 2005, the fair market value of this agreement was a loss of \$0.1 million and at September 25, 2004 a gain of \$0.2 million. This fair value hedge expires on December 4, 2013.

Edgar Filing: ADVO INC - Form 10-K

The Company entered into three separate four-year interest rate swap agreements with notional amounts totaling \$25 million to swap a portion of the variable rate interest on the Company's \$60 million senior secured notes for fixed rate interest. The start and maturity dates of these agreements are detailed in Note 8 to the Consolidated Financial Statements and included in this Annual Report on Form 10-K. At September 24, 2005 and September 25, 2004, the fair market value of the agreements in effect was a loss of \$0.3 million and \$0.6 million, respectively.

Table of Contents

If interest rates should change by 2 percentage points in fiscal 2006 from those rates in effect at September 24, 2005, interest expense would increase/decrease by approximately \$1.6 million. These amounts are determined by considering the hypothetical interest rates on the Company's borrowing cost. The sensitivity analysis also assumes no changes in the Company's financial structure.

CRITICAL ACCOUNTING POLICIES

Critical accounting policies are defined as those that are most important to the portrayal of a company's financial condition and results of operations and which require complex or subjective judgments or estimates. The most significant areas involving management estimates and assumptions are detailed below. Actual results could differ from those estimates under different assumptions and conditions. Historically, actual results have not differed significantly from the Company's estimates.

Allowance for doubtful accounts

The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. The Company reviews the collectibility of its receivables on an ongoing basis taking into account a combination of factors. On a monthly basis, the Company conducts meetings to identify and review potential problems, such as a bankruptcy filing or deterioration in the customer's financial condition, to ensure the Company is adequately accrued for potential loss. The Company also calculates a trended write-off of bad debts over a rolling twelve-month period and takes into account aging categories, historical trends and specific accounts. If a customer's situation changes, such as bankruptcy or creditworthiness, or there is a change in the current economic climate, the Company may modify its estimate of the allowance for doubtful accounts.

Valuation of goodwill and intangible assets

Goodwill represents the excess purchase price paid over the fair value of net assets acquired in connection with the purchase of a business. The Company is required to test goodwill annually for impairment. Impairment exists when the carrying amount of goodwill exceeds its fair market value. The Company's goodwill impairment test was performed by comparing the net present value of projected cash flows to the carrying value of goodwill. The Company utilized discount rates determined by management to be similar with the level of risk in the current business model. The Company performed the annual impairment testing during the first quarter of fiscal 2005 and determined that no impairment of goodwill exists. Although not expected to change, if the assumptions the Company made regarding estimated cash flows, such as future operating performance and other factors used to determine the fair value, are less favorable than expected, the Company may be required to record an impairment charge.

Revenue Recognition

Revenues are recognized when persuasive evidence of a sales arrangement exists and when services are rendered. The Company's services are considered rendered when all printing, sorting, labeling and ancillary services have been provided and the package has been accepted by the United States Postal Service. There is no risk pertaining to customer acceptance and the sales arrangement specifies a fixed and determinable price and collectibility is reasonably assured. The Company provides for a reserve against revenues for estimated claims resulting from billing adjustments and sales adjustments in the event of incorrect or untimely mailings of customers' advertising material. The amount of this reserve is evaluated monthly taking into account historical trends, specific items and trended sales adjustments.

Self-Insurance Claims

The Company self-insures a significant portion of expected losses under its workers' compensation program and medical benefits claims. The Company's liability represents an estimate of the ultimate cost of claims.

Table of Contents

incurred as of the balance sheet date. The workers' compensation accrual is based on an analysis of historical data and independent actuarial estimates, and is reviewed by the Company on a quarterly basis to ensure the liability is appropriate. Actuarial assumptions take into account claim-development factors based on loss history, economic conditions, the frequency or severity of claims, and settlement practices. The medical benefits claims accrual is based upon historical and trended claims. The Company maintains stop loss coverage for medical benefits claims with a third party insurer to limit the Company's total liability exposure. Unexpected changes in claim trends, including the severity and frequency of claims, actuarial estimates, and medical cost inflation could result in costs that are significantly different than initially reported. The Company believes these estimates are reasonable based on information currently available, however, the possibility exists that future claims-related liabilities could increase due to unforeseen circumstances.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. These accounting estimates will change as new events occur, as more experience is acquired, as additional information is obtained and as the Company's operating environment changes.

Significant estimates and assumptions include, in addition to those detailed above:

Depreciable lives of assets Depreciation is computed generally by the straight-line method over the estimated useful lives of the respective assets. The valuation and classification of these assets and the assignment of useful depreciable lives is based on the Company's estimate of useful lives of similar assets.

Accrual for client incentives The Company bases its estimate for client incentives on the terms in the customer's contract, future volume expectations for the client's mailings and past historical trends of similar client incentives.

Income taxes The Company's future effective tax rate could be affected by changes in the valuation of deferred tax assets or liabilities or changes in federal or state tax laws or interpretations of the law. In addition, the Company is subject to the examination of its income tax returns by the Internal Revenue Service and other tax authorities. The Company considers the effect of legislative developments and the outcome of IRS examinations when it updates its estimate of the quarterly tax rate.

NEW ACCOUNTING PRONOUNCEMENTS

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued Statement No.123R (Statement 123R), Share-Based Payment, which requires companies to measure all employee stock-based compensation awards using a fair value method and record such expense in their consolidated financial statements. Statement 123R is effective for fiscal years that begin after June 15, 2005 (fiscal 2006 for the Company).

The Company intends to adopt Statement 123R using the modified prospective method. This method will require the Company to apply the provisions of Statement 123R to new awards and to any awards that are unvested on the effective date and will not require the Company to restate prior periods. Compensation cost for the unvested awards will be recognized over the remaining service period using the compensation cost calculated for the Company's pro forma disclosures that had been required by Statement 148, Accounting for Stock-Based Compensation Transition and Disclosure .

The Company reviewed and refined the assumptions utilized in determining its total stock compensation expense and will change its fair value option-pricing model from the Black-Scholes model to a binomial model for all options granted in fiscal 2006 and beyond. The Company believes that the binomial model is indicative of

Table of Contents

the stock option's fair value and considers characteristics that are not taken into account under the Black-Scholes model. The Company expects the incremental annualized cost associated with the adoption of Statement 123R to be approximately \$0.09 - \$0.11 per diluted share in fiscal 2006.

Pro forma disclosures regarding the effect on net earnings and earnings per share as if the Company had applied the fair value method of accounting for stock-based compensation using the Black-Scholes option-pricing method under Statement 123 are disclosed in note 2 to the Consolidated Financial Statements and included in this Annual Report on Form 10-K. The actual impact to the Company's financial statements upon adoption of the Statement 123R could differ from the pro forma information included in Note 2, as a result of differences in the option-pricing models used, estimates and assumptions, and options to be included in the calculation upon adoption.

Report of Independent Registered Public Accounting Firm

To Board of Directors and Shareholders of ADVO, Inc.

We have audited the accompanying consolidated balance sheets of ADVO, Inc. at September 24, 2005 and September 25, 2004 and the related consolidated statements of operations, cash flows, and changes in stockholders' equity for each of the three years in the period ended September 24, 2005. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ADVO, Inc. at September 24, 2005 and September 25, 2004, and the consolidated results of its operations and its cash flows for each of the three years in the period ended September 24, 2005, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of ADVO, Inc.'s internal control over financial reporting as of September 24, 2005, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated November 18, 2005 expressed an unqualified opinion thereon.

Ernst & Young LLP

Hartford, Connecticut

November 18, 2005

Table of Contents

Report of Independent Registered Public Accounting Firm

The Board of Directors and Shareholders of ADVO, Inc.

We have audited management's assessment, included in the accompanying *Management's Report on Internal Control over Financial Reporting*, included at Item 9A, that ADVO, Inc. maintained effective internal control over financial reporting as of September 24, 2005, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). ADVO, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that ADVO, Inc. maintained effective internal control over financial reporting as of September 24, 2005, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, ADVO, Inc. maintained, in all material respects, effective internal control over financial reporting as of September 24, 2005, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets as of September 24, 2005 and September 25, 2004, and the related consolidated statements of operations, cash flows, and changes in shareholders' equity for each of the three years in the period ended September 24, 2005 of ADVO, Inc. and our report dated November 18, 2005 expressed an unqualified opinion thereon.
