Results of Operations

Alliance HealthCard is not an insurance provider, but is a provider of an innovative membership organization that receives discounts for healthcare-related products and services from networks of providers. Alliance offers its programs to consumers who are underinsured, uninsured and to individuals who participate in employer sponsored health plans that provide primary health insurance, but do not provide insurance coverage for certain healthcare-related services and products.

Three Months Ended December 31, 2005, Compared to Three Months Ended December 31, 2004

Net revenues for the Company slightly decreased to \$890,848 for the three months ended December 31, 2005 from \$898,747 for the three months ended December 31, 2004. The change is a result of an increase of \$69,410 from the Melaleuca contract and prescription transaction fees. The increase in revenues was offset by a decrease of \$77,309 for the CVS Pharmacy, State Farm and dental contracts due to a decline in memberships.

Gross profit increased \$11,276 to \$595,926 for the three months ended December 31, 2005 from \$584,650 for the same prior year period. The increase in gross profit is attributable to higher gross profit percentage for the Melaleuca contract resulting from an amendment to the contract in October 2005.

Marketing and sales expenses remained constant with expenses at \$62,660 for the three months ended December 31, 2005, and \$61,839 for the same prior year period.

General and administrative expenses decreased to \$320,376 for the three months ended December 31, 2005 from \$348,045 in the same prior year period resulting from a decline in consulting expense from 2004 to 2005.

Interest income increased \$4,084 for the three months ended December 31, 2005 due to interest earned on the excess cash balance for the quarter.

The Company reported net income of \$216,974 for the three months ended December 31, 2005 compared to \$174,766 for the same prior year period. As discussed above, the increase of \$42,208 is a result of an increase in gross profit and the decline in general and administrative expenses.
