**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Benefit Plan Administrative Committee of the  
Northrop Grumman Financial Security and Savings Program

We have audited the accompanying statements of net assets available for benefits of the Northrop Grumman Financial Security and Savings Program (the Plan) as of December 31, 2005 and 2004, and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and 2004, and the changes in net assets available for benefits for the year ended December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2005 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2005 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

## NORTHROP GRUMMAN FINANCIAL SECURITY AND SAVINGS PROGRAM

### NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2005 AND 2004, AND FOR THE YEAR ENDED DECEMBER 31, 2005

---

#### 1. DESCRIPTION OF THE PLAN

The following description of the Northrop Grumman Financial Security and Savings Program (the "FSSP" or the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Benefit Plan Administrative Committee of Northrop Grumman Corporation ("NGC" or the "Company") controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

**General** The FSSP is a qualified defined contribution plan established for the benefit of certain employees of NGC acquired as part of NGC's acquisition of Litton Industries, Inc. ("Litton"), and Premier America Credit Union, an unaffiliated entity of Litton. As of September 30, 2004, Premier America Credit Union employees were no longer eligible to participate in the Plan. The accounts of those employees were fully vested and the employees were treated as having terminated employment for purposes of the Plan's distribution rules.

Employees are eligible to participate in the Plan upon their date of hire on a voluntary basis. Both the savings and Employee Stock Ownership Plan features are reported within the Plan's 2005 financial statements as they have been in prior periods.

The Plan maintains all retirement account assets ("FSSP Retirement Account") and all savings account assets ("FSSP Savings Account") in the Northrop Grumman Defined Contribution Plans Master Trust (the "DC Master Trust") as of December 31, 2005. Through September 30, 2005, the Plan maintained its FSSP Retirement Account in the Northrop Grumman Employee Benefit Plan Master Trust (the "Pension Master Trust").

Effective July 1, 2003, certain employees were no longer eligible to make deposits to the Plan. Instead, such employees became eligible to actively participate and make deposits to the Northrop Grumman Savings Plan.

**Employee Deposits and Company Contributions** A participant may deposit from 1 percent to 4 percent of annual cash compensation into the FSSP Retirement Account. A participant's FSSP Retirement Account deposits provide the basis for determining the extent to which the participant is entitled to receive pension benefits under the Litton-heritage retirement plans (collectively, the "Litton Retirement Plans"). A participant who deposits 4 percent of annual cash compensation into the FSSP Retirement Account could elect to deposit an additional 1 percent to 71 percent into the FSSP Savings Account. Subject to certain collective bargaining agreements, the Company matches 50 percent of the first 6 percent of a participant's deposits to the FSSP, with such contributions remitted to the participant's FSSP Savings Account. The aggregate amount of deposits and contributions to the Plan may not exceed the limitations prescribed by the Internal Revenue Code of 1986, as amended (the "Code").

## **Table of Contents**

Investment of FSSP Retirement Account deposits is directed solely by the Plan's Investment Committee. FSSP Savings Account deposits are invested, as designated by the participant, in one or more of the investment funds currently available (see *Investment Options* below). Each year, as required by the Plan document, the Plan re-allocates current year deposits to ensure that each participant receives the eligible maximum pension and company matching contributions, subject to tax deferral and compensation limits imposed by the Code. Match maximization is performed after the end of the calendar year or upon termination of employment, whichever comes first. To the extent that deposits are re-allocated from a participant's FSSP Savings Account to the FSSP Retirement Account, the amount of Company matching contributions on any such re-allocated amounts may be forfeited if the re-allocation reduces a participant's deposits below the maximum level eligible for Company matching contributions. Forfeitures of Company matching contributions plus investment earnings thereon are used to reduce subsequent Company matching contributions.

***Vesting*** A participant is always fully vested in FSSP deposits (including any investment earnings thereon). Participants vest at 50 percent in all Company matching contributions plus related investment earnings after two full years of service and 100 percent after three full years of service. Full vesting also occurs if a participant (while in the employ of the Company) dies, becomes totally disabled or terminates employment on or after reaching age 65.

Non-vested amounts of a participant's Company matching contributions are forfeited upon termination of employment if the participant takes a distribution of his/her vested account balance. Otherwise, a forfeiture shall not occur until the participant has incurred a five-year break in service. Forfeitures for a terminated participant may be restored depending on the time elapsed from the termination date and the time that the terminated participant was employed by the Company immediately prior to such termination of employment.

***Participant Accounts*** A separate account is maintained for each participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) administrative expenses. Allocations are based on participant earnings on account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

***Investment Options*** Participant deposits to the FSSP Retirement Account were invested in the Pension Master Trust through September 30, 2005. Effective October 1, 2005, the participant deposits to the FSSP Retirement Account were invested in the DC Master Trust. Once the participant has deposited the maximum 4 percent of tax-deferred compensation into the FSSP Retirement Account, the participant may direct his or her employee deposits and Company matching contributions, in 1 percent increments, to be invested in one or more of the following FSSP Savings Account (participant directed) investment options.

***U.S. Equity Fund*** The U.S. Equity Fund consists predominantly of holdings in large and medium sized U.S. company stocks. The fund's objectives are capital appreciation over the long term, along with current income (dividends). The fund's stock investments are selected by independent professional investment managers appointed by the Plan's Investment Committee.

***U.S. Fixed Income Fund*** The U.S. Fixed Income Fund consists of holdings in marketable, fixed income securities rated within the three highest investment grades assigned by

## **Table of Contents**

Moody's Investor Services or Standard & Poor's Corporation, U.S. Treasury or federal agency obligations, or cash equivalent instruments. The fund is broadly diversified and maintains an average maturity of 10 years. The securities are selected by independent professional investment managers appointed by the Plan's Investment Committee.

*Stable Value Fund* The Plan holds an interest in the Northrop Grumman Stable Value Fund (the Stable Value Fund; see Notes 5 and 6). Investments of the Stable Value Fund are diversified among U.S. Government securities and obligations of government agencies, bonds, short-term investments, cash and investment contracts issued by insurance companies and banks. The Stable Value Fund is managed by an independent professional investment manager appointed by the Plan's Investment Committee.

*Northrop Grumman Fund* The Northrop Grumman Fund ( NG Stock Fund ) invests primarily in Northrop Grumman Corporation common stock.

*Balanced Fund* The Balanced Fund is designed to provide investors with a fully diversified portfolio consisting of targeted proportions of fixed income (35 percent), U.S. equities (45 percent), and international equities (20 percent). The fund seeks to exceed the return of the bond market and approach the return of the stock market, but with less risk than an investment only in stocks.

*International Equity Fund* The International Equity Fund consists of stocks of a diversified group of companies in developed countries outside the United States. The fund's objectives are capital appreciation over the long term, along with current income (dividends).

*Small Cap Fund* The Small Cap Fund consists of stocks of a diversified group of small capitalization U.S. companies. The stocks purchased by the fund typically have a market capitalization similar to companies in the Russell 2000 Index, which are companies with an average market capitalization of \$500 million. The fund's objective is capital appreciation over the long term, rather than current income (dividends).

*Equity Index Fund* The Equity Index Fund consists of a diversified portfolio of stocks, as defined by an established market index. These stocks are selected by independent professional investment managers appointed by the Plan's Investment Committee. This fund is designed to provide results that closely match those of the Standard & Poor's 500 Stock Index.

*High Yield Bond Fund* The High Yield Bond Fund consists of below-investment-grade securities assigned by Moody's Investor Services or Standard & Poor's Corporation. The fund seeks to exceed the return of the high-quality (investment grade) bond market.

*International Bond Fund* The International Bond Fund consists of non-U.S. dollar denominated debt instruments rated within the three highest investment grades by Moody's Investor Services or Standard & Poor's Corporation. The fund's objective is to provide a higher level of income and capital appreciation than the domestic fixed income market.

*Emerging Markets Fund* The Emerging Markets Fund consists of a diversified portfolio of stocks issued by companies based in developing countries. The fund's objective is capital appreciation over the long term.

## **Table of Contents**

Participants may change their investment direction in the FSSP Savings Accounts weekly in 1 percent increments. Existing account balances can be transferred daily, subject to certain restrictions.

Contributions deposited into each investment fund buy units of that fund based on unit values that are updated daily prior to any Plan transactions, including contributions, withdrawals, distributions and transfers. The value of each participant's account within each fund depends on two factors: (1) the number of units purchased to date and (2) the current value of each unit.

**Participant Loans** FSSP loans may be made only from an active participant's vested FSSP Savings Account for a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000, reduced by the highest outstanding loan balance over the past 12 months, or 50 percent of their account balances (not including Company contributions). A participant may not have more than two outstanding loans at any given time (except for those merged from other plans). Loans will be prorated across all investment funds and are secured by the balance in the participant's FSSP Savings account. The interest rate is fixed on the first business day of each month at the prime rate of the Plan's trustee plus 1 percent. Repayments are made from payroll deductions (for active employees) or personal check (for former employees or employees on leave of absence). The maximum loan period for a regular loan is five years, however, it is fifteen years for a loan used to acquire a dwelling that is the principal residence of the participant. Loans may be repaid early in full; partial early repayments are not permitted. However, loans merged from other plans may have maximum periods greater than 15 years.

**Payment of Benefits** On termination of employment with the Company (including termination due to death, disability or retirement), a participant may receive a lump sum payment of FSSP Retirement and/or Savings Account balances. A participant may also delay payment until the age of 70 1/2, if the total account balance exceeds \$1,000 (\$5,000 prior to March 28, 2005). In addition, a participant has the option of choosing to take the total distribution as an annuity subject to Plan terms, or, at retirement, to elect a rollover of his or her FSSP Retirement Account to the Litton Retirement Plans. Certain partial distributions after termination of employment and before age 70 1/2 are permitted by the Plan. Participants may rollover account balances to individual retirement accounts (IRA) or another employer's qualified retirement plan to postpone federal and most state income taxes. Participants with frozen account balances under a previous savings plan may be eligible to elect special distribution options under the previous plan.

Distributions from the Northrop Grumman Fund will be paid in cash, stock, or a combination of both, depending on the participant's election.

A participant's benefit under the Litton Retirement Plans is determined by the amount of deposits to the participant's FSSP Retirement Account. To achieve the maximum retirement benefit under such retirement plans, the FSSP provides that employees must, on an annual basis, deposit the lesser of: (i) 4 percent of their annual compensation, (ii) the 401(k) deferral limit as defined by the Code, (iii) 4 percent of the pay cap limit as defined by the Code or (iv) such lesser maximum amount as may result from the application of the nondiscrimination tests. The FSSP and Litton Retirement Plans together constitute a qualified offset arrangement as defined in Section 1116(f) of the Tax Reform Act of 1986.

**Withdrawals** A participant may withdraw all or a portion of his or her Company matching contributions (plus earnings) and all or a portion of his or her FSSP Savings Account deposits, net of any loan balances outstanding, for any reason after reaching age 59 1/2, or prior to reaching age 59 1/2 in the case of hardship (as described in the Plan document).

## **Table of Contents**

On or after August 29, 2005 but not later than March 31, 2006, a participant may request a distribution of all or a portion of his or her account balance to pay for certain expenses incurred to satisfy an immediate and heavy financial need directly related to Hurricane Katrina or Hurricane Rita, provided the participant certifies a loan in accordance with the Plan provisions would itself cause a financial hardship and the need cannot be reasonably relieved through other means.

## **2. SIGNIFICANT ACCOUNTING POLICIES**

***Basis of Accounting*** The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

***Use of Estimates*** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

***Risks and Uncertainties*** The Plan invests in various securities, including U.S. Government securities, corporate debt instruments and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur in the near term, and that such changes could materially affect the amounts reported in the financial statements.

***Investment Valuation and Income Recognition*** The Plan's investments other than guaranteed investment contracts, including the Plan's interests in the master trusts, are stated at fair value as determined by State Street Bank and Trust Company (State Street or the Trustee). The underlying investments in the master trusts are valued as follows:

Investments in common and preferred stock are valued at the last reported sales price of the stock on the last business day of the plan year. The shares of registered investment companies are valued at quoted market prices that represent the net asset values of shares held by the Plan at year end. Investments in common trust funds are valued based on the redemption price of units owned by the Plan, which is based on the current fair value of the funds underlying assets. Fair values for securities are based on information in financial publications of general circulation, statistical and valuation services, records of security exchanges, appraisals by qualified persons, transactions and bona fide offers in assets of the type in question and other information customarily used in the valuation of assets or if market values are not available, at their fair values as provided to the Trustee by the party with authority to trade in such securities (investment managers or the Plan's Investment Committee, as applicable).

Guaranteed investment contracts held by the Plan through the Stable Value Fund are considered to be fully benefit-responsive and therefore are recorded at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and contract administrative expenses. Contract value approximates fair value. In addition, the Plan entered into synthetic investment contracts in order to manage the market risk and return of certain securities held by the Plan (see Notes 5 and 6).

All securities and cash or cash equivalents are quoted in the local currency and then converted into U.S. dollars using the appropriate exchange rate obtained by the Trustee. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Broker commissions, transfer taxes, and other

## **Table of Contents**

charges and expenses incurred in connection with the purchase, sale, or other disposition of securities or other investments are added to the cost of such securities or other investments, or are deducted from the proceeds of the sale or other disposition thereof, as appropriate. Taxes, if any, on the assets of the funds, or on any gain resulting from the sale or other disposition of such assets, or on the earnings of the funds, are apportioned among the participants whose interests in the Plan are affected, and the share of such taxes apportioned to each such person is charged against his or her account in the Plan.

The Trustee relies on the prices provided by pricing sources, the investment managers or Plan's Investment Committee as a certification as to value in performing any valuations or calculations required of the Trustee.

Participant loans are valued at their outstanding balances, which approximate fair value.

The Pension Master Trust and DC Master Trust allocate investment income, realized gains and losses and unrealized appreciation and depreciation on the underlying securities to the participating plans monthly and daily, respectively, based on the market value of each plan's investment. The unrealized appreciation or depreciation in the aggregate current value of investments is the difference between current value and the cost of investments. The realized gain or loss on investments is the difference between the proceeds received and the average cost of the investments sold.

**Expenses** Administrative expenses of the Plan are paid by either the Plan or the Plan's sponsor as provided in the Plan document.

**Payment of Benefits** Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid were \$3,126,431 and \$2,836,644 at December 31, 2005 and 2004, respectively, and such amounts continue to accrue income until paid.

**Reclassifications** Certain prior year amounts have been reclassified to conform to the current year presentation.

### **3. INVESTMENTS**

The Plan's investments consist of a proportionate interest in certain investments held by the DC Master Trust and the Pension Master Trust (prior to October 1, 2005). Those investments are stated at fair values determined and reported by the Trustees, in accordance with the master trust agreements established by the Company.

Proportionate interests of each participating plan are ascertained on the basis of the Trustees' plan accounting method for master trust arrangements. Plan assets represent 0 percent and 2 percent and 10 percent and 7 percent of total net assets as reported by the Trustees of the Pension Master Trust and DC Master Trust as of December 31, 2005 and 2004, respectively.

## Edgar Filing: NORTHROP GRUMMAN CORP /DE/ - Form 11-K

Pension Master Trust and DC Master Trust assets of \$2,433,982,223 and \$1,030,050,999, respectively, were on loan to third party borrowers under security-lending agreements as of December 31, 2005. Pension Master Trust and DC Master Trust assets of \$2,685,847,513 and \$945,632,923, respectively, were on loan to third party borrowers under security-lending agreements as of December 31, 2004. Such assets could be subject to sale restrictions in the event security-lending agreements are terminated and the securities have not been returned to the master trusts.

**Table of Contents**

The Pension Master Trust held \$2,495,454,636 and \$2,745,227,224 of collateral for securities on loan as of December 31, 2005 and 2004, respectively. The DC Master Trust held \$1,052,025,787 and \$964,720,499 of collateral for securities on loan as of December 31, 2005 and 2004, respectively.

Plan assets held in the Pension Master Trust were invested within the following investment pools as of December 31, 2005 and 2004:

	<b>2005</b>	<b>2004</b>
	<u>          </u>	<u>          </u>
Equity	\$ 0	\$ 267,493,923
Fixed income	0	148,482,198
Private equity and alternative investments	0	34,598,296
Money market	0	5,068,962
	<u>          </u>	<u>          </u>
<b>Total</b>	<b>\$ 0</b>	<b>\$ 455,643,379</b>
	<u>          </u>	<u>          </u>

**Table of Contents**

The net assets of the Pension Master Trust and DC Master Trust are as follows as of December 31, 2005 and 2004:

	2005		2004	
	Pension Master Trust	DC Master Trust	Pension Master Trust	DC Master Trust
<b>Assets:</b>				
Common and preferred stocks	\$ 9,143,227,425	\$ 4,506,263,263	\$ 8,987,439,835	\$ 3,996,701,303
Common/collective trust funds	1,151,102,227	3,525,719,304	1,425,883,063	2,497,187,691
U.S. and foreign government securities	3,057,701,362	408,733,576	2,753,605,861
