To the Global Retirement Programs Committee

Coca-Cola Enterprises Inc.

Atlanta, Georgia:

We have audited the accompanying statement of net assets available for benefits of Coca-Cola Enterprises Inc. Matched Employee Savings and Investment Plan (the Plan) as of December 31, 2005 and the related statement of changes in net assets available for benefits for the year ended December 31, 2005. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit. The statement of net assets available for benefits of the Plan as of December 31, 2004 was audited by other auditors whose report dated June 24, 2005, expressed an unqualified opinion on that financial statement.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005 and the changes in net assets available for benefits for the year ended December 31, 2005, in conformity with accounting principles generally accepted in the United States.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplemental information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Finance Committee of the Board of Directors

Coca-Cola Enterprises Inc.

We have audited the accompanying statement of net assets available for benefits of Coca-Cola Enterprises Inc. Matched Employee Savings and Investment Plan as of December 31, 2004. This financial statement is the responsibility of the Plan's management. Our responsibility is to express an opinion on the financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 in conformity with U.S. generally accepted accounting principles.

Notes to Audited Financial Statements

December 31, 2005

1. Description of the Plan

The following description of the Coca-Cola Enterprises Inc. Matched Employee Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was originally adopted effective January 1, 1988 and restated most recently effective January 1, 1997. The Plan is a defined contribution plan covering all non-bargaining employees of Coca-Cola Enterprises Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 as amended (ERISA).

Eligibility

Non-bargaining employees are eligible to participate in the Plan on the later of (1) the first of the month following the completion of two months of service or (2) the month in which such employee becomes a covered employee as defined by the Plan. At that time, the participant may elect to begin compensation deferrals. Participants become eligible to receive employer matching contributions as of the first payroll date following the later of (1) completion of two months of service or (2) the date such employee becomes a covered member.

Contributions

The Plan allows a participant to contribute up to 30% of eligible compensation on a pre-tax basis, and between 1% and 10% of eligible compensation on an after-tax basis, as defined by the Plan agreement and subject to certain Internal Revenue Code (the Code) limitations. A participant may elect to change his or her rate of contributions or suspend contributions at any time. The Company matched participant contributions in an amount equal to 25% of the first 7% of the participant's pre-tax deferral contributed during 2005. All contributions are invested as directed by participants.

Savings and Investment Plan

Notes to Audited Financial Statements (continued)

Vesting

Participants are immediately vested in their contributions and the Company's matching contributions plus actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms generally range from one to five years for general purpose loans and extend up to 15 years for principal residence loans. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest are repaid ratably through payroll deductions and the interest paid is applied directly to the participant's account balance.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, if any, and allocations of the Plan's earnings and losses. The allocation of earnings and losses is based on participant account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

In the event a participant's union membership status changes, the participant may elect to transfer his or her account out of this Plan. During the year ended December 31, 2005, other Company-sponsored plans transferred participant accounts totaling \$94,480 to the Plan.

Withdrawals and Payments of Benefits

Distributions of a participant's fully vested account balance shall be made during the period following his or her retirement, death, disability or termination of employment.

Savings and Investment Plan

Notes to Audited Financial Statements (continued)

Withdrawals and Payments of Benefits (continued)

Distributions to participants shall be made in a single lump sum payment if their vested account balance is \$1,000 or less. If the participant's vested account balance exceeds \$1,000, the Plan permits distribution in a single lump sum, installment payments or a combination of lump sum and installment payments at the discretion of the participant. If the participant has any loan balance at the time of distribution, the amount of cash available to the participant or beneficiary shall be reduced by the outstanding principal balance of the loan.

Voluntary withdrawals from the balance of the participant's pre-tax contribution account become available after the participant attains age 59^{1/2}. Prior to the attainment of age 59^{1/2}, a withdrawal from these accounts would be available only for a financial hardship.

Plan Termination

The Company expects to continue the Plan indefinitely but has the right under the Plan agreement to terminate the Plan. In the event of Plan termination, all participants become fully vested and shall receive a full distribution of their account balances.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared using the accrual method of accounting.

Reclassifications

Certain amounts have been reclassified in the Plan's prior year financial statements to conform to the current year presentation.

Valuation of Investments

Effective August 1, 2005 the Plan began participation in the Coca-Cola Enterprises Inc. Defined Contribution Plans Master Trust (the "Master Trust") with similar retirement plans sponsored by the Company and certain other subsidiaries of the Company, whereby investments are held collectively for all plans by JPMorgan Chase Bank, N.A. (the "Trustee"). Each participating plan's investment in the Master Trust is equal to the sum of its participant account balances in relation to total Master Trust investments.

Notes to Audited Financial Statements (continued)

Valuation of Investments (continued)

Short-term investments are stated at fair value, which approximates cost and is based on quoted redemption values determined by the Trustee. Mutual funds and the common stock of The Coca-Cola Company and Coca-Cola Enterprises Inc. are valued based on quoted market prices on national exchanges on the last business day of the Plan year. Investments in collective trusts are stated at fair value, based on quoted redemption values as determined by the Trustee. Participant loans are valued at their outstanding balances, which approximate fair value.

The INVESCO Stable Value Fund (the INVESCO fund) invests in guaranteed investment contracts (GICs), both traditional and synthetic, and cash equivalents. The synthetic guaranteed investment contracts (SICs) represent a diversified portfolio of corporate and government bonds, 103-12 investment entities, and pooled separate accounts; the underlying values of which are based on quoted redemption value as determined by the Trustee. These assets are held in the name of the Master Trust in conjunction with a corresponding contract (a wrapper) with the issuer of the SIC to provide a rate of return (based on investment experience and reset periodically) on the cost of the investments.

Contracts within the INVESCO fund are fully benefit-responsive and are therefore carried at contract value in accordance with AICPA Statement of Position 94-4, Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans. At December 31, 2005 and 2004, contract value approximated fair value. Contract value represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. The weighted-average yields were approximately 4.6% and 4.4%, for the years ended December 31, 2005 and 2004, respectively. The crediting interest rates were approximately 4.6% and 4.5%, at December 31, 2005 and 2004, respectively. Participants investing in the INVESCO fund are subject to risk of default by issuers of the investment contracts and the specific investments underlying the SICs. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Valuation of Investments (continued)

The fair values of the underlying assets of the SICs and the values of the related wrapper contract are as follows:

	December 31	
	2005	2004
Fair value of the underlying assets of the SICs:		
Fixed income securities	\$ 224,888	\$ 660,331

103-12 Investment Entities	164,347,116	155,192,151
	169,756,162	164,315,318
Fair value of the related wrapper contracts	1,626,450	(2,376,015)
Contract value	\$ 171,382,612	\$ 161,939,303

Administrative Expenses

Certain administrative expenses are paid by the Plan, as permitted by the Plan document. All other expenses are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

ESOP

A portion of the MESIP is designated as an employee stock ownership plan (ESOP). An ESOP permits plan participants flexibility in electing to either reinvest Coca-Cola Enterprises Inc. stock dividends or have the dividends distributed as a taxable cash payment.

Recently Issued Accounting Standards

The Plan will adopt the following new accounting pronouncement for the year ending December 31, 2006:

FASB Staff Position (FSP) No. AAG INV-1 and Statement of Position (SOP) 94-1-1 - *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans*. The FSP and SOP revises the definition of fully benefit-responsive investment contracts as of the last day of annual period ending after December 15, 2006 and sets forth new financial statement presentation and disclosure requirements for such contracts for plan years ending after December 15, 2006. In accordance with the new standards, guaranteed investment contracts meeting the definition within the FSP, while currently reported at contract value (see Valuation of Investments above), must be reported at fair value with adjustments to contract value shown on the face of the financial statements. It is anticipated that the financial statements of the Plan as of and for the year ended December 31, 2006 will meet all reporting and disclosure requirements of the FSP and the SOP.

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated January 3, 2003, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

7. Risks and Uncertainties

The Master Trust invests in various investment securities as directed by participants. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
