Edgar Filing: ANSELL LTD - Form 6-K

Yes  No

---

This Form 6-K contains forward-looking statements within the meaning of the Securities Exchange Act of 1934 as amended, and information that is based on management's beliefs as well as assumptions made by and information currently available to management. When used in this Form 6-K, the words anticipate, approach, begin, believe, continue, expect, forecast, going forward, improved, likely, look for, outlook, plans, potential, proposal, should and would and similar expressions are intended to identify forward-looking statements. These forward-looking statements necessarily make assumptions, some of which are inherently subject to uncertainties and contingencies that are beyond the Company's control. Should one or more of these uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, expected, estimated or projected. Specifically, the ability of the Company to realize its ongoing commitment to increasing shareholder value through its ongoing restructuring, asset dispositions, strategic review and implementation, and cost cutting initiatives, may be affected by many factors including: uncertainties and contingencies such as economic conditions both in the world and in those areas where the Company has or will have substantial operations; foreign currency exchange rates; pricing pressures on products produced by its subsidiaries; growth prospects; positioning of its business segments; future production output capacity; and the success of the Company's business strategies, including further structural and operational changes, business dispositions, internal reorganizations, cost cutting, and consolidations.

**FURTHER CLARIFICATION REGARDING FY 07 OUTLOOK**

Ansell Limited (ASX: ANN) yesterday reconfirmed the expectation that it would achieve FY 06 earnings per share (EPS) within the US54-57 cent guidance range, excluding the effect of the now exited SPT investment. Ansell also commented that analyst consensus for FY 07 EPS was too high.

Prior to yesterday's announcement, Ansell was aware that analysts' consensus EPS estimates for FY 07 were approximately US58 cents. Having seen some updated analysts' reports that were issued overnight, the Company is now providing the following clarification.

While Ansell is not in a position to provide definitive market guidance at this point, it can confirm that the net EPS impact of the anticipated higher latex price increases alone would be in the vicinity of US6-7 cents. In conjunction with the planned cost increases to support growth, this is likely to result in FY 07 EPS below US50 cents per share.

As stated yesterday, Ansell will provide detailed guidance to the market at the time of the release of the FY 06 full year results in August.
