Item 2.02. Results of Operations and Financial Condition.

On January 9, 2007, we issued a press release confirming that we expect to meet our most recently disclosed financial guidance for 2006, issued as part of our third quarter 2006 earnings release, based on preliminary 2006 results. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated in this Item 2.02 by reference.

Item 2.05 Costs Associated with Exit or Disposal Activities.

An integral component of our Blueprint for Growth strategy is creating financial flexibility to fund investments for growth and to create shareholder value.

Through our Financial Flexibility Program, we continually and systematically seek ways to improve our performance in terms of quality and cost. Specifically, we seek to eliminate, standardize, consolidate and automate our business functions. As a part of each program, we have incurred a restructuring charge, which generally consists of, among other things, employee severance and termination costs. We also have incurred transition costs, which generally consist of other costs necessary to accomplish the process changes such as consulting fees, cost of temporary workers, relocation costs and stay bonuses.

Our 2007 Financial Flexibility Program is designed to significantly reduce the complexity of our business, a process that we anticipate continuing over the next several years. Specifically, in 2007, we will begin addressing complexity reduction and create financial flexibility through several initiatives including the following:

Organizational Design: this initiative is intended to improve the efficiency of how we are organized and how we operate as a business by addressing spans of control, organizational layers and the effectiveness of leadership processes;

Product and Technology Complexity: this initiative is intended to simplify our product and technology environment by reducing product complexity and proliferation as well as eliminating and consolidating systems and technology infrastructure;

Sales Force Effectiveness: this initiative is intended to improve our sales force tools, reduce the non-selling time of our sales force and enhance our new customer acquisition activities; and

Other Efficiency Measures: this initiative is intended to improve the operating efficiencies of our facilities, reduce our purchasing costs and simplify our data collection and product delivery.

On an annualized basis, the actions under our 2007 Financial Flexibility Program are expected to create \$80 million to \$85 million of financial flexibility, of which approximately \$60 million to \$65 million will be generated in 2007, before any transition costs and restructuring charges and before any reallocation of savings generated by the initiatives. We expect all actions under our 2007 program to be completed by December 2007. To implement these initiatives, we expect to incur transition costs of approximately \$13 million to \$15 million.

In addition, we expect to incur non-core charges totaling \$30 million to \$35 million pre-tax, of which \$27 million to \$32 million relate to severance, approximately \$1 million relates to lease termination obligations and approximately \$2 million relate to other exit costs in 2007.

Table of Contents

Approximately \$42 million to \$49 million of these transition costs and restructuring charges are expected to result in cash expenditures. As a result of this re-engineering program, we expect that approximately 400 positions will be eliminated globally.

Item 7.01 Regulation FD Disclosure.

On January 9, 2007, we issued a press release announcing our 2007 full-year financial guidance. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated in this Item 7.01 by reference.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.
