CHESAPEAKE ENERGY CORPORATION

PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS

To Be Held On June 8, 2007

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Chesapeake Energy Corporation, an Oklahoma corporation (the "Company"), for use at the Annual Meeting of Shareholders of the Company to be held on the date, at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders, and any adjournment of the meeting.

This proxy statement, the accompanying form of proxy and our Annual Report for the year ended December 31, 2006 are being mailed on or about April 30, 2007 to shareholders of record as of April 16, 2007. Shareholders are referred to the Annual Report for information concerning the activities of the Company.

Who Can Vote

Only shareholders of record as of April 16, 2007, the record date for the meeting, are entitled to notice of and to vote at the meeting. At the close of business on April 16, 2007, there were 461,441,659 shares of our common stock outstanding and 451,849,045 shares entitled to vote at the meeting. Each outstanding share of common stock is entitled to one vote, except unvested shares of restricted stock issued to our directors and employees do not have voting rights.

Establishing a Quorum

The holders of a majority of the outstanding common stock, present in person or by proxy, will constitute a quorum for the transaction of business at the meeting.

How to Vote

Most shareholders can vote their shares one of three ways:

placing a toll-free telephone call from the U.S. or Canada to 1-800-690-6903;

using the Internet at www.proxyvote.com; or

mailing the signed proxy card.

The telephone and Internet voting procedures are designed to authenticate shareholders' identities, to allow you to vote your shares and to confirm that your instructions have been properly recorded. Please refer to your proxy card or the information forwarded by your bank, broker or other nominee to see which options are available to you.

If you are a Chesapeake employee and also a shareholder directly, or through the Chesapeake Energy Corporation Savings and Incentive Stock Bonus Plan (the "Plan"), you will receive one proxy for your Plan shares and shares in accounts that are registered in the same name. This single proxy, which will be sent to you electronically via email, will allow you to simultaneously vote all of your Plan and directly-held shares as one block and will serve as your voting instruction for the trustee of the Plan to vote your Plan shares. **To allow sufficient time for the trustee to vote the Plan shares, your voting instructions must be received by 11:00 p.m. (CDT) on June 5, 2007.** Please note, however, that since you only vote one time for all shares you own directly and in the Plan, your vote on each proposal will be identical across all of those shares. If you do not vote your proxy, the trustee will not vote the Plan shares credited to your Plan account.

Table of Contents

Votes Needed

The election of the director nominees will be by plurality vote (that is, the three nominees receiving the greatest number of votes will be elected). You may not cast more than one vote per share for each nominee. The affirmative vote of holders of a majority of shares of common stock present at the meeting in person or by proxy will be required to approve the amendments to our Long Term Incentive Plan and to our Stock Award Plan for Non-Employee Directors.

How Votes Can Be Revoked

You may revoke your proxy at any time before it is voted by:

executing and submitting a revised proxy;

providing a written revocation to the Secretary of the Company; or

voting in person at the meeting.

In the absence of a revocation, shares represented by the proxies will be voted at the meeting. Your attendance at the meeting will not automatically revoke your proxy. If you do not hold your shares directly, you should follow the instructions provided by your broker, bank or nominee to revoke your previously voted proxy.

How Votes Are Counted

Each proxy properly completed and returned to the Company in time for the meeting, and not revoked, will be voted in accordance with the instructions given. If there are no contrary instructions, proxies will be voted **FOR** the election of the nominees as directors, **FOR** the approval of the amendment to our Long Term Incentive Plan and **FOR** the approval of the amendment to the 2003 Stock Award Plan for Non-Employee Directors. The Company will appoint an inspector of election to tabulate all votes and to certify the results of all matters voted upon at the meeting.

It is the Company's policy (i) to count abstentions and broker non-votes for purposes of determining the presence of a quorum at the meeting; (ii) to treat abstentions as shares represented at the meeting and voting against a proposal and to disregard broker non-votes in determining results on proposals requiring a majority or higher vote; and (iii) to consider neither abstentions nor broker non-votes in determining results of plurality votes.

Under the rules of the New York Stock Exchange, brokers who hold shares on behalf of their customers have the authority to vote on certain proposals when they have not received instructions from beneficial owners. A broker non-vote occurs when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner. Your broker has discretionary authority to vote your shares in the election of directors. Your broker is not empowered to vote your shares on the proposals to approve the amendments to our Long Term Incentive Plan and 2003 Stock Award Plan for Non-Employee Directors in the absence of specific instructions from you.

When the Voting Results Will Be Announced

We will announce preliminary voting results at the meeting and publish final results in our quarterly report on Form 10-Q for the second quarter of 2007.

Cost of Proxy Solicitation

Edgar Filing: CHESAPEAKE ENERGY CORP - Form DEF 14A

We will pay the cost of soliciting proxies. We have retained The Proxy Advisory Group, LLC to assist in the solicitation of proxies for a fee of \$7,500, plus out-of-pocket expenses. In addition, employees of the Company

Table of Contents

may solicit proxies by mail, personally, or by telephone, facsimile transmission or email communication. We will request banks and brokers or other similar agents or fiduciaries to transmit the proxy material to the beneficial owners for their voting instructions and will reimburse their expenses in so doing.

Electronic Access to Proxy Materials and Annual Report

This proxy statement and our 2006 Annual Report are available on our website at www.chkenergy.com. If you are interested in receiving all future shareholder communications electronically, including proxy statements and annual reports, please visit www.icsdelivery.com/chk and register for electronic distribution. Once you register, any time we distribute materials or communications to our shareholders, you will receive an email notification containing an internet address which will direct you to these documents. Once you have registered for electronic distribution, you will continue to receive all shareholder communications electronically until you change this election at www.icsdelivery.com/chk. Electronic distribution saves the Company the cost of printing and mailing the documents to you, reduces the amount of mail you receive and is environmentally friendly by helping to conserve natural resources consumed in the printing process.

Householding

Based on Securities and Exchange Commission rules, we are permitted to send a single set of proxy materials to shareholders who share the same last name and address. This procedure is called "householding" and is designed to reduce our printing and postage costs. If you would like to receive a separate copy of a proxy statement or annual report, either now or in the future, please email us at investorinfo@chkenergy.com or write to us at the following address: Attn: Investor Relations, 6100 N. Western Avenue, Oklahoma City, Oklahoma, 73118.

If you hold your shares in street name and would like additional copies of the proxy materials, or if you are currently receiving multiple copies of the proxy materials and would like to request householding, please contact your broker.

VOTING ITEM 1 ELECTION OF DIRECTORS

Pursuant to provisions of the Company's Certificate of Incorporation and Bylaws, the Board of Directors has fixed the number of directors at eight, subject to the rights of the holders of our preferred stock to nominate and elect two additional directors on the occurrence of a voting rights triggering event as defined in the preferred stock certificates of designation. Our Certificate of Incorporation and Bylaws provide for three classes of directors serving staggered three-year terms, with each class to be as nearly equal in number as possible. The terms of three directors expire at the meeting.

The Board of Directors has nominated Frank A. Keating and Frederick B. Whittemore for re-election as directors. The Board of Directors has also nominated Merrill A. Pete Miller, Jr. for election as a director. Mr. Miller was initially recommended to the Nominating and Corporate Governance Committee by Aubrey K. McClendon, our Chairman and Chief Executive Officer, and was appointed to the Board of Directors effective January 16, 2007. Mr. Miller's nomination as a director fills the vacancy created by Tom L. Ward, who resigned as a director effective February 10, 2006. Upon election, Governor Keating and Messrs. Whittemore and Miller will serve for terms expiring at the 2010 Annual Meeting of Shareholders and, in each case, until their successors are elected and qualified. Proxies cannot be voted for a greater number of persons than the number of nominees named. Other directors will continue in office until the expiration of their terms at the 2008 or 2009 Annual Meeting of Shareholders, as the case may be.

Table of Contents

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR EACH OF THE NOMINEES FOR ELECTION TO THE BOARD OF DIRECTORS.

It is the intention of the persons named in the enclosed form of proxy to vote such proxies for the election of the three nominees. The Board of Directors expects that each of the nominees will be available for election but, in the event that any of the nominees is not available, proxies received will be voted for substitute nominees to be designated by the Board or, in the event no such designation is made, proxies will be voted for a lesser number of nominees.

VOTING ITEM 2 PROPOSAL TO AMEND LONG TERM INCENTIVE PLAN

We are asking shareholders to vote to approve an amendment to the Long Term Incentive Plan (the "LTIP") to increase the aggregate number of shares of common stock which are available for awards under the LTIP from 7,000,000 shares to 17,000,000 shares. The additional shares requested will allow the Company to deliver restricted shares to its employees pursuant to the 2006 Long Term Incentive Program (described below) and to continue to provide stock-based compensation to its employees, consultants and non-employee directors over the next year at current award levels.

Our shareholders initially approved the LTIP on June 10, 2005 and approved an amendment to the LTIP on June 9, 2006. Our Board approved the amendment, subject to shareholder approval at the meeting, on March 2, 2007. The full text of the LTIP, as amended, is included as Exhibit A to this proxy statement.

Over the last 25 years, industry and global economic factors have resulted in a significant drop-off in enrollment in critical technical undergraduate programs such as petroleum engineering and geoscience. While enrollment is now increasing in those areas, the outcome has been a well-documented "experience gap". U.S.-based energy companies find themselves with a predominance of technical staff that is approaching retirement and only relatively inexperienced staff on hand to replace them.

At the same time, increasing demand for energy has created an environment of tremendous competition for new talent as well as experienced industry specialists. The Company's management believes that in order to effectively execute our business strategy, it is essential for us to manage our talent by 1) attracting top-notch new industry professionals; 2) rewarding and retaining our experienced professionals; and 3) properly developing our less experienced professionals and assuring the transfer of knowledge from the experienced staff to the less-experienced.

For the past several years, Chesapeake has been meeting this talent challenge through a comprehensive human resource strategy that addresses the problem on multiple fronts - from developing our own training program for rig hands and land brokers to investing in partnerships with colleges and universities across the country to encourage students to pursue careers in energy-related fields and providing compensation packages that attract, motivate and retain top talent. We have also built a culture rich with opportunity while promoting work-life balance and we have invested in the communities where we operate and where our employees live. Such a culture makes Chesapeake the employer of choice when we are recruiting new talent.

One key component of our human resource strategy is to reward and retain our workforce through the issuance of restricted stock awards. Consistent with our compensation philosophy, we believe stock-based compensation fosters and promotes the sustained progress, growth and profitability of the Company by:

attracting, motivating and retaining individuals of exceptional ability;

allowing employees, directors and consultants to acquire a proprietary and vested interest in the growth and performance of the Company;

Table of Contents

providing incentives and rewards to employees, directors and consultants who are in a position to contribute materially to the success and long-term objectives of the Company; and

aligning the financial interests of employees and directors with those of the Company's shareholders.

In August 2006, in response to intense competitive pressures in the oil and gas industry for employees as described above, Chesapeake implemented an employee retention program we refer to as the 2006 Long Term Incentive Program or 2006 Program. Under this program, we will make cash payments to the employees of our drilling subsidiaries and issue shares of restricted common stock to all other employees (other than employees who are subject to a collective bargaining arrangement) under the LTIP. One-half of the cash payments promised to our drilling subsidiary employees will be paid three years from the date promised and the remaining payments will be made five years from the date promised. The restricted shares to be granted under the 2006 Program will vest 50% after a three-year period and 50% after a five-year period. Employees who terminate employment prior to the vesting dates will not receive unvested cash or restricted stock. The restricted shares to be issued pursuant to the 2006 program are subject to shareholder approval of the amendment and therefore are not currently issued and outstanding. As of the record date, future cash payments and restricted stock to be issued under the 2006 Program totaled \$14.3 million and 9.9 million shares, respectively. In accordance with SFAS 123(R), awards made under an arrangement that is subject to shareholder approval are not deemed to be granted until that approval is obtained. The date upon which we receive shareholder approval of the amendment will be the date of grant for these shares. **Awards to our named executive officers under this program will total 289,310 shares or less than 3% of the total program (see table on page 14). Our Chief Executive Officer and our Chief Financial Officer voluntarily elected not to receive awards of restricted stock under this program to make more shares available for other employees.**

The additional 10,000,000 shares of common stock the Board has reserved for issuance under the LTIP pursuant to the amendment represents 2.2% of our outstanding common shares and less than 2.0% of our fully diluted common shares (which assumes the issuance of shares pursuant to outstanding stock options, shares available for issuance under our stock-based compensation plans and conversions of our preferred stock and convertible senior notes into common stock at the current conversion prices).

As of the record date, stock options outstanding and shares available for issuance under the Company's stock incentive plans, including our obligations under the 2006 Program, are the following:

Background on Stock Compensation at Chesapeake

Since our initial public offering in 1993, the Board and management have firmly believed in and encouraged broad employee stock ownership through participation in our stock-based compensation plans across all levels of the Company. In the 11 years that followed, the Company implemented this strategy through semi-annual grants of stock options to all employees. Additionally, our senior management is required to hold certain levels of our common stock as a condition to their continued employment. The success, growth and profitability that the Company experienced over this time period was, we believe, in large measure due to the efforts of the management team and employees. Key performance statistics during the eleven-year period ending in 2003 are as follows:

We recorded the 13th best stock price performance among all U.S. public companies, with a 2,476% increase in our stock price (including the reinvestment of dividends);

Our annual revenues increased 9,900%, from \$17 million to \$1.7 billion;

Our total assets increased 5,700%, from \$79 million to \$4.6 billion;

Our shareholders' equity increased 5,400%, from \$31 million to \$1.7 billion;

Our oil and gas reserves increased 2,200%, from 137 bcfe to 3.2 tcf; and

Our annual oil and gas production increased 6,600%, from 4 bcfe to 268 bcfe.

In addition to these financial and operational successes, employee retention was among the strongest in the industry over this time period.

In 2004, the Board and management re-evaluated the Company's equity compensation program and decided to begin utilizing restricted stock in place of stock options for the following reasons:

The Company could realize a substantial reduction in its annual stock usage rate or "burn rate", without a reduction in compensation value transferred to the employees;

A lower annual stock usage rate would reduce the dilutive effect of employee stock compensation to our shareholders;

The income statement impact of restricted stock is more predictable, and less volatile, than that of stock options;

The compensation value and tax treatment of restricted stock is easier for employees to measure and understand; and

Edgar Filing: CHESAPEAKE ENERGY CORP - Form DEF 14A

The ease with which restricted stock is transferred to employees upon vesting (as opposed to an intentional action by the employee to exercise a stock option) better facilitates and promotes the long-term ownership of our common stock by employees. The shift to restricted stock was supported by the Company's management and employees who, together, have delivered strong performance to our shareholders since 2003, as indicated by the following:

Our stock price increased 114% from \$13.58 per share on December 31, 2003 to \$29.05 per share on December 31, 2006 and was \$33.63 on the record date, an increase of 16% from December 31, 2006;

Our annual revenues increased 327% from \$1.7 billion in 2003 to \$7.3 billion in 2006;

Our net income available to common shareholders increased 555% from \$291 million in 2003 to \$1.9 billion in 2006;

Our total assets increased 430% from \$4.6 billion at December 31, 2003 to \$24.4 billion at December 31, 2006;

Our proved oil and natural gas reserves increased 181% from 3.2 tcf at December 31, 2003 to 9.0 tcf at December 31, 2006;

Our annual oil and natural gas production increased 116% from 268 bcf in 2003 to 578 bcf in 2006;

We were selected to join the Fortune 500 and the S&P 500 in 2006; and

We were recognized by Forbes as the best managed oil & gas company in the U.S. in January 2007.

As the Company's assets and revenues have grown, so have the number of employees, with the Company now employing almost 5,000 employees, an addition of 3,700 employees since 2003, a 310% increase. The rapid growth of the Company, combined with the extreme competition in the industry for top-notch talent, as discussed previously, has dramatically increased the importance of equity-based compensation as a key component for employee recruitment and retention. Thus the Board and management believe that approval of the amendment to the LTIP is crucial to the Company's ability to execute its business plan and growth strategy. In their view, stock-based compensation and employee and director stock ownership have greatly contributed to the Company's growth and success to date and should continue to contribute to its success in the future.

The following is a summary of the material terms of the LTIP as proposed to be amended. The only amendment to the LTIP is the increase in the number of shares of common stock available for issuance.

Plan Features

Administration. The Compensation Committee of the Board of Directors has overall authority to administer the LTIP. The Employee Compensation and Benefits Committee (the ECBC), a subcommittee of the Compensation Committee, can be authorized to grant and determine the terms and conditions of awards granted to consultants and employees who are not executive officers. The Compensation Committee and ECBC are collectively, the Committee. Mr. Whittemore and Governor Keating serve as the Compensation Committee and Mr. McClendon serves as the ECBC. Any awards or formula for granting awards under the LTIP made to non-employee directors must be approved by the Board. The Compensation Committee is authorized and has complete discretion to formulate policies and establish rules and regulations for the administration of the LTIP.

Eligible Participants. As of the record date, the Company had approximately 5,000 employees (nine of whom were executive officers) and seven non-employee directors who were eligible to participate in the LTIP. The Committee determines from time to time the awards to be granted under the LTIP, taking into account the duties of the respective participants, their present and potential contributions to the success of the Company and such other factors as the Committee deems relevant.

Shares Available for Award. The aggregate number of shares of common stock which are available for award under the LTIP will not exceed 17,000,000 shares, an increase of 10,000,000 shares. Any of the authorized shares of common stock may be used for any of the types of awards described in the LTIP, except that no more than 3,000,000 shares of common stock may be issued pursuant to incentive stock options. The aggregate number of shares of common stock underlying options and stock appreciation rights that may be granted to any participant in any calendar year may not exceed 750,000 shares and the aggregate number of shares of common

Table of Contents

stock pursuant to restricted stock, performance awards or other stock awards granted to any participant in any calendar year may not exceed 750,000 shares.

Common stock that is related to awards that (i) are forfeited, cancelled, terminated or expire prior to the delivery of the common stock, (ii) are ultimately paid in cash rather than common stock, (iii) are tendered or withheld in order to satisfy payment of the exercise price of an option, or (iv) are tendered or withheld in order to satisfy payment of withholding tax obligations, will again be available for future awards under the LTIP.

The LTIP provides for appropriate adjustments in the event of a merger, consolidation, recapitalization, stock split, combination of shares, stock dividend or similar transaction involving the Company.

Types of Awards. The LTIP authorizes the issuance of the following types of awards:

Options. Incentive stock options and nonqualified stock options may be granted under the LTIP. The exercise price of options may not be less than the fair market value of our common stock on the date of grant (or 110% of the fair market value of such shares in the case of an incentive stock option granted to a person who holds more than 10% of the combined voting power of the Company's outstanding securities) and no option may be exercised after the expiration of ten years from the date of grant. An option may be exercised only to the extent that the option is vested in accordance with a schedule determined by the Committee in its sole discretion. With respect to incentive stock options, the aggregate fair market value (determined as of the grant date) of the stock which a participant may first have the right to acquire pursuant to the exercise of any incentive stock options in any calendar year under all incentive stock options of the Company may not exceed \$100,000. In the event options granted to a participant exceed the \$100,000 annual limitation, the participant will be deemed to have been granted incentive stock options with respect to shares within the \$100,000 limitation and nonqualified stock options with respect to shares which cause such limitation to be exceeded. The fair market value of shares of common stock is determined by reference to the reported closing price on the NYSE on the date of grant.

Stock Appreciation Rights. SARs may be granted to participants alone or in tandem with concurrently or previously issued stock options. The exercise price of a SAR may not be less than the fair market value of our common stock on the date of grant and no SAR may be exercised after the expiration of ten years from the date of grant. A SAR issued in tandem with an option will only be exercisable to the extent that the related option is exercisable and when a tandem SAR is exercised, the option to which it relates will cease to be exercisable, to the extent of the number of shares with respect to which the tandem SAR is exercised. Similarly, when the option is exercised, the tandem SARs relating to the shares covered by such option exercise will terminate. The payment of the appreciation associated with the exercise of a SAR will be made by the Company in shares of our common stock.

Performance Shares. Performance shares issued under the LTIP will vest in accordance with the achievement of certain performance or other criteria as determined by the Committee in its sole discretion. The Committee has the discretion to (i) permit a participant who ceases to be an eligible participant in the LTIP before the end of any performance period, or the personal representative of a deceased participant, to continue to be subject to a performance award relative to the current performance period until such awards are forfeited or earned pursuant to their terms and conditions or (ii) authorize the payment to such participant, or the personal representative of a deceased participant, of the performance shares which would have been paid to the participant had the participant remained an eligible participant in the LTIP to the end of the performance period. A participation period may be no less than one year in duration.

Restricted Stock. Restricted stock issued under the LTIP will vest in accordance with a schedule or achievement of certain performance or other criteria as determined by the Committee in its sole discretion. The Committee has the discretion to grant a holder of restricted stock the right to vote such

Table of Contents

shares and to receive dividends. The minimum restriction period applicable to any restricted stock that is not subject to performance criteria will be three years from the date of grant.

Other Stock Awards. The Committee, in its sole discretion, may specify the terms and provisions of other forms of equity-based or equity-related awards not described above which the Committee determines to be consistent with the purpose of the LTIP and the interests of the Company, which awards may provide for cash payments based in whole or in part on the value or future value of our common stock, for the acquisition or future acquisition of common stock, or any combination thereof. The minimum restriction period applicable to other stock awards that are not subject to performance criteria will be three years from the date of grant.

Cash Awards. The Committee, in its sole discretion, may grant cash awards, including without limitation, discretionary awards, awards based on objective performance criteria or awards based on subjective performance criteria. The total amount of all cash awards made under the LTIP, in the aggregate, will not exceed \$10 million.

No Discounted Options or SARs; No Repricing; No Dividend Equivalents. The LTIP does not permit the granting of discounted stock options or SARs and, without the approval of shareholders, prohibits the repricing or cancellation and re-grant of stock options, and the repurchase of underwater stock options or SARs. The LTIP also prohibits dividend equivalents with respect to stock options and SARs.

Fundamental Transaction; Change of Control. Upon the occurrence of a fundamental transaction or a change of control; (i) all outstanding options and SARs will be fully exercisable and any unexercised options and SARs will terminate; (ii) restrictions on outstanding restricted stock, other stock awards and cash awards will lapse; and (iii) each outstanding performance award will be deemed to have achieved a level of performance that would cause all of the performance shares to become payable. A fundamental transaction is defined as the merger of the Company with another entity in which the Company is not the surviving entity or other business combination or transaction resulting in other securities being substituted for the common stock or the common stock no longer being issued.

Section 4999 of the Code imposes an excise tax on executives who receive compensation in connection with a change of control that exceeds certain specified limits. The Committee may, in its sole discretion, provide in any award agreement for an additional gross-up payment by the Company in the event that acceleration of vesting of any award under the LTIP is subject to such a change of control excise tax. If an LTIP participant were entitled to receive a gross-up payment, we would pay the participant an additional amount such that the amount received under the award after payment of the excise tax will equal the total payments that the participant would have been entitled to receive absent the excise tax.

Termination and Amendment. The LTIP will terminate at midnight, September 30, 2014, but will continue in effect until all matters relating to the exercise or settlement of awards outstanding as of the time of termination of the LTIP have been completed. Prior to such time, the LTIP may be earlier terminated or amended by the Board of Directors. Shareholder approval is required for any amendment to the LTIP if (i) such approval is necessary or desirable to qualify or comply with any tax or regulatory requirement for which or with which the Board deems it necessary or desirable to qualify or comply, or (ii) in the opinion of counsel to the Company, shareholder approval is required by any federal or state laws or regulations or the rules of any stock exchange on which the common stock may be listed.

Acceleration of Awards. The Committee has the discretion to accelerate the vesting of unvested awards in the case of retirement from employment or service on the Board, death, disability, or in involuntary termination circumstances.

Transferability. Awards are not transferable except by will or by the laws of descent and distribution; however, options held by non-employee directors may be transferable under certain circumstances, as determined by the Committee.

Federal Income Tax Consequences. Under current federal tax law, the following are the United States federal income tax consequences generally arising with respect to restricted stock, performance shares, other stock awards and options granted under the LTIP. The discussion is not a complete analysis of all federal income tax consequences and does not cover all specific transactions which may occur.

Absent the filing of a Section 83(b) election with the Internal Revenue Service, no income will be recognized by a participant for U.S. federal income tax purposes upon the grant of restricted stock, performance shares or other stock awards. Upon the vesting of an award for which no payment was made by the participant, the participant will recognize ordinary income in an amount equal to the fair market value of the common stock on the vesting date. Income recognized upon vesting by a participant who is an employee will be considered compensation subject to withholding at the time the income is recognized and, therefore, the Company must make the necessary arrangements with the participant to ensure that the amount of tax required to be withheld is available for payment. Stock awards provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. A participant's adjusted basis in the common stock received through stock awards is equal to any ordinary income related to the award recognized by the participant. If a participant thereafter sells the common stock, any amount realized over (under) the adjusted basis of the common stock will constitute capital gain (loss) to the participant for U.S. federal income tax purposes. If a participant forfeits an award prior to its vesting, the participant will not recognize gain or loss as a result of such forfeiture.

Upon the grant of restricted stock, performance shares or other stock awards, the participant may file an election under Section 83(b) of the Code to accelerate the recognition of ordinary income to the grant date of the award. Such ordinary income is equal to the fair market value of the common stock on the grant date (assuming no payment by the participant for the stock) and is considered compensation subject to withholding for employees. If a participant subsequently forfeits the stock or the stock depreciates in value after a Section 83(b) election is filed, the participant will not be eligible for capital loss treatment with respect to the stock.

There are no tax consequences associated with the grant or timely exercise of an incentive stock option. If a participant holds the common stock acquired upon the exercise of an incentive stock option for at least one year after exercise and two years after the grant of the option, the participant will recognize capital gain or loss upon sale of the common stock equal to the difference between the amount realized on the sale and the exercise price. If the common stock is not held for the required period, the participant will recognize ordinary income upon disposition in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the exercise price, up to the amount of the gain on disposition. Any additional gain realized by the participant upon disposition will be capital gain. The excess of the fair market value of common stock received upon the exercise of an incentive stock option over the option price for the common stock is a preference item for purposes of the alternative minimum tax. An expense deduction by the Company in connection with the exercise of an incentive stock option is not allowed unless the participant recognizes ordinary income.

Generally, no income will be recognized by a participant for U.S. federal income tax purposes upon the grant of a nonqualified stock option. Upon exercise of a nonqualified stock option, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the amount of the exercise price. Income recognized by a participant who is an employee, upon the exercise of a nonqualified stock option, will be considered compensation subject to withholding at the time the income is recognized and, therefore, the Company must make the necessary arrangements with the participant to ensure that the amount of tax required to be withheld is available for payment. Nonqualified stock options provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. The adjusted basis of common stock transferred to a participant pursuant to the exercise of a nonqualified stock option is the price paid for the common stock plus an amount equal to any income recognized by the participant as a result of the exercise of the option. If a participant thereafter sells common stock acquired upon exercise of a nonqualified stock option, any amount realized over (under) the

Table of Contents

adjusted basis of the common stock will constitute capital gain (loss) to the participant for U.S. federal income tax purposes.

If a participant surrenders common stock which the participant already owns as payment for the exercise price of a stock option, the participant will not recognize gain or loss as a result of such surrender. The number of shares received upon exercise of the option equal to the number of shares surrendered will have a tax basis equal to the tax basis of the surrendered shares. The holding period for such shares will include the holding period for the shares surrendered. The remaining shares received will have a basis equal to the amount of income the participant recognizes upon receipt of such shares. The participant's holding period for such shares will commence on the day after such exercise.

Generally, no income will be recognized by a participant for U.S. federal income tax purposes upon the grant of a stand-alone or tandem SAR. Upon exercise of a SAR, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the common stock on the date of exercise over the amount of the exercise price. Income recognized by a participant who is an employee, upon the exercise of a SAR, will be considered compensation subject to withholding at the time the income is recognized and, therefore, the Company must make the necessary arrangements with the participant to ensure that the amount of tax required to be withheld is available for payment. SARs provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. The adjusted basis of common stock transferred to a participant pursuant to the exercise of a SAR is the price paid for the common stock plus an amount equal to any income recognized by the participant as a result of the exercise of the SAR. If a participant thereafter sells common stock acquired upon exercise of a SAR, any amount realized over (under) the adjusted basis of the common stock will constitute capital gain (loss) to the participant for U.S. federal income tax purposes.

Upon the vesting of a cash award, the participant will recognize ordinary income in an amount equal to the cash received. Income recognized upon the vesting of a cash award by a participant who is an employee will be considered compensation subject to withholding at the time the cash is received and, therefore, the Company must properly withhold the required tax.

Burn Rate and Plan Benefits

For 2004 through 2006, the Company's three-year average annual stock usage rate or burn rate was 2.45%. Burn rate is defined by Institutional Shareholder Services as the total number of equity awards granted in a given year divided by the number of common shares outstanding. Our burn rate in 2006 was 2.18%, reflecting the change we made to awarding officers and employees restricted stock rather than stock options. As of the record date, the weighted average exercise price of all outstanding stock options is \$7.52 per share and the weighted average remaining contractual life is five years.

There are currently 2,737,500 shares authorized for future issuance pursuant to new awards under the LTIP and 125,000 shares are subject to outstanding stock options granted to our non-employee directors. As of the record date, we intend to issue shares of restricted stock from the LTIP pursuant to our 2006 Program to the following persons and groups:

In addition to the shares for the 2006 Program, the annual award of 12,500 shares of restricted common stock to non-employee directors, as described below on page 20 under 2006 Directors Compensation, will be made from the LTIP. Other than such director equity compensation and our commitments to employees under the 2006 Program, it is not possible to predict the benefits or amounts that will be received by, or allocated to, particular individuals or groups eligible to receive future awards. The selection of officers, employees, consultants and non-employee directors who will receive future awards under the LTIP and the size and types of awards will be determined by the Committee and the Board of Directors.

The Company intends to provide five-year incentive compensation to its employees under the 2006 Program even if the amendment is not approved by the shareholders. If the amendment is not approved, the Committee will consider other compensation alternatives, including the payment of cash to employees.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE AMENDMENT OF THE LONG TERM INCENTIVE PLAN.

The affirmative vote of the holders of a majority of the shares of common stock present at the meeting, in person or by proxy, will be required for approval of the amendment to the LTIP.

VOTING ITEM 3 PROPOSAL TO AMEND 2003 STOCK AWARD PLAN FOR NON-EMPLOYEE DIRECTORS

We are asking shareholders to vote to approve an amendment to our 2003 Stock Award Plan for Non-Employee Directors (the Director Plan) to increase the aggregate number of shares of common stock which are available for awards under the Director Plan from 50,000 shares to 100,000 shares. The additional 50,000 shares requested will allow the Company to continue to provide one-time awards of 10,000 shares to new non-employee directors upon their appointment to our Board of Directors. Our Board approved the amendment, subject to shareholder approval, on March 2, 2007. The full text of the Director Plan, as amended, is included as Exhibit B to this proxy statement.

The purpose of the Director Plan is to attract and retain persons of outstanding competence, who are not employed by the Company, to serve on our Board and to enable such persons to acquire or increase their ownership interests in the Company. Under the terms of the plan, each newly appointed non-employee director is awarded 10,000 shares of our common stock on his or her first day of service as a director.

Our non-employee directors are each required to hold, at all times during their service on the Board, at least 15,000 shares of our common stock and new directors are given one year from their date of appointment to attain the required ownership level. Awards from the Director Plan provide our new non-employee directors with immediate ownership in the Company and reduce the out-of-pocket investment required by the director to meet the ownership requirement.

Since its inception in January 2003, we have issued 40,000 shares to new non-employee directors under the Director Plan, leaving only 10,000 shares, or one award, available for newly appointed directors in the future. The additional 50,000 shares of common stock the Board has reserved for issuance under the Director Plan pursuant to the amendment represents approximately 0.01% of our outstanding common shares and five 10,000-share awards for new directors. If the amendment is not approved by our shareholders, we will not be able to continue to award 10,000 shares of common stock to new directors in the future and we will reconsider the stock ownership requirements of our directors, including the initial period of time given to each director to meet our ownership requirements.

Plan Features

Administration. The Board of Directors is responsible for administration of the Director Plan and has complete discretion to formulate policies and establish rules and regulations for its administration.

Table of Contents

Eligible Participants. Only individuals who are not officers or otherwise employed by the Company or any of its subsidiaries and who become directors of the Company after the effective date of the Director Plan are eligible for awards under the Director Plan.

Shares Available for Award. The maximum number of shares of common stock which are available for award under the Director Plan will be 100,000 shares, an increase of 50,000 shares. Each individual who becomes a non-employee director will be awarded 10,000 shares of common stock on his or her first day of service as a non-employee director. If the amendment is approved, awards to six new non-employee directors may be made under the Director Plan.

The Director Plan provides for appropriate adjustments in the event of a stock split, reverse stock split, stock dividend, combination or reclassification of shares.

Termination and Amendment. The Board may suspend or terminate the Director Plan at any time. In addition, the Board may, from time to time, amend the Director Plan in any manner, but may not adopt any amendment without shareholder approval if in the opinion of counsel to the Company, shareholder approval is required by any federal or state laws or regulations or the rules of any stock exchange on which the common stock may be listed.

Federal Income Tax Consequences. For U.S. federal income tax purposes, on the date of a stock award for which no payment was made by the participant, the participant will recognize ordinary income in an amount equal to the fair market value of the common stock on the award date. Stock awards provide the Company with a deduction equal to the amount of income recognized by the participant, subject to certain deduction limitations. A participant's adjusted basis in the common stock received through stock awards is equal to any ordinary income related to the award recognized by the participant. If a participant thereafter sells the common stock, any amount realized over (under) the adjusted basis of the common stock will constitute capital gain (loss) to the participant for U.S. federal income tax purposes.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE AMENDMENT OF THE 2003 STOCK AWARD PLAN FOR NON-EMPLOYEE DIRECTORS. The affirmative vote of the holders of a majority of the shares of common stock present at the meeting, in person or by proxy, will be required for approval of the amendment to the Director Plan.

Board Independence

In 2007, the Board, through its Nominating and Corporate Governance Committee evaluated the independence of each director in accordance with the NYSE's corporate governance listing standards which are posted on the Company's website at www.chkenergy.com. During this review, the Committee considered transactions and relationships between the Company (and/or any of its executive officers) and each director or any member of his immediate family, including those transactions disclosed on page 48 under Transactions with Related Persons. As a result of this review, the Committee affirmatively determined that all directors other than Mr. McClendon, due to his employment with the Company, are independent under the NYSE's director independence standards.

In assessing director independence, the Committee considered any business conducted with or payments made/received by the Company with an organization in which a director served as an executive officer in 2006. All such business and payments considered, with respect to each independent director, represented less than 1% of the organization's gross revenues during each of the last three years, well below the NYSE's 2% of gross revenues threshold. The Committee also considered the employment by the Company of members of the directors' immediate family. The Committee determined that all such transactions and relationships it considered during its review were not material transactions or relationships with the Company and did not impair the independence of the directors.

Executive Sessions

Non-employee directors meet in executive session after each scheduled quarterly Board meeting. The non-employee directors rotate (alphabetically by last name) their service as presiding director over the executive sessions.

THE BOARD OF DIRECTORS AND ITS COMMITTEES

During 2006, the Board of Directors held four meetings in person and nine meetings by telephone conference. Additionally, management frequently discusses matters with the directors on an informal basis. The

Board of Directors has a standing Compensation Committee, an Audit Committee and a Nominating and Corporate Governance Committee. Each director attended, either in person or by telephone conference, at least 90% of the Board and committee meetings held while serving as a director or committee member in 2006. It is the Company's policy that a majority of the directors be in attendance at all annual meetings of shareholders. All of the Company's directors attended the 2006 annual meeting of shareholders.

Compensation Committee

The Compensation Committee is responsible for establishing the Company's compensation policies and monitoring the implementation of the Company's compensation system for its executives. The Committee's objective is to develop an executive compensation system that encourages both short-term and long-term performance aligned with shareholders' interests and is competitive with the Company's peers.

Messrs. Whittemore and Maxwell and Governor Keating serve on the Compensation Committee. Mr. Maxwell joined the Committee in March 2007 and Mr. Whittemore and Governor Keating constituted the Compensation Committee in 2006. The Compensation Committee held three meetings during 2006. Messrs. Whittemore and Maxwell and Governor Keating are independent, as determined by the Board of Directors in accordance with the NYSE corporate governance listing standards. A copy of the Compensation Committee Charter, as approved by the Committee and the Board of Directors, is posted on the Company's website at www.chkenergy.com and is available in print to any shareholder who requests it.

The Compensation Committee has delegated its authority for the administration of the Company's compensation program with respect to all employees who are not executive officers to the Employee Compensation and Benefits Committee (ECBC). The ECBC is chaired by Mr. McClendon, our chairman and chief executive officer, and further consists of our chief financial officer, chief operating officer, senior vice president human resources, general counsel, vice president compensation and benefits, vice president human resources and corporate secretary. For purposes of granting equity compensation to employees who are not executive officers, the ECBC consists of Mr. McClendon and all other members of the ECBC act in an advisory capacity only. The ECBC held four meetings during 2006.

Director Compensation. The full Board, rather than the Compensation Committee, is responsible for establishing and approving director compensation. The Company analyzes its director compensation package on an annual basis and provides the Board with its analysis and recommendations for adjustments, if any, at the Board's meeting in March of each year. Adjustments to director compensation are subsequently considered and approved by the Board at its meeting in June. Cash compensation adjustments approved by the Board in June are effective July 1 and annual restricted stock awards to directors are issued on the first trading day in July.

Employee Compensation. We review the cash and equity compensation for substantially all of the Company's employees, including executive officers, on a semi-annual basis, in June and December. With respect to the June compensation review, salary adjustments are effective on July 1, cash bonuses are paid prior to the last business day in July and restricted stock is awarded effective the first trading day of July. With respect to the December compensation review, salary adjustments are effective on January 1 of the following year, cash bonuses are paid prior to the last business day in January and restricted stock is awarded effective the first trading day of January. Employees of certain of our drilling and service operations subsidiaries do not receive equity compensation. Our employees who are subject to collective bargaining agreements receive cash compensation in accordance with the agreement and do not receive equity compensation.

Executive Officer Compensation. Mr. McClendon together with Mr. Rowland are responsible for analyzing, developing and recommending base salary adjustments, cash bonuses and restricted stock awards with respect to the Executive Officers, including themselves, for review, discussion and approval by the Committee at its regularly scheduled meetings in June and December of each year.

Table of Contents

Senior Management Compensation. Messrs. McClendon, Rowland and Dixon, collectively representing the ECBC, are responsible for developing and approving base salary adjustments, cash bonuses and restricted stock awards for employees representing the Company's senior management team. These employees include senior vice presidents, vice presidents and our senior-most managers and directors.

All Other Employee Compensation. The Company's human resources department coordinates the semi-annual compensation review process for all other employees through an automated program that allows supervisors to provide performance assessments and to propose compensation adjustments for his/her subordinates. Each supervisor's performance assessments and compensation proposals are sequentially reviewed, adjusted, approved and forwarded upward through the supervisor's chain-of-command and are aggregated by department. Each department head then meets with Messrs. McClendon, Rowland and Dixon, representing the ECBC, for final discussion, adjustment and approval of base salary, cash bonuses and restricted stock awards with respect to all employees under the department head. Additionally, compensation adjustments for employees who are members of a director's immediate family are submitted by the ECBC to the Compensation Committee for review and approval along with executive officer compensation.

Internal Pay Equity and Tally Sheets. In performing our semi-annual reviews of executive compensation, the Compensation Committee reviews a spreadsheet showing internal pay equity within the senior management group. This spreadsheet shows the base salary, cash bonus and equity compensation of our senior management levels (including the CEO, executive officers, senior vice presidents, vice presidents and our senior-most managers and directors) for the prior three years. Additionally, the Committee reviews tally sheets prepared by management which aggregate all components of cash and equity compensation, calculates estimates of compensation payments due under various termination scenarios and estimates wealth accumulation over time from equity compensation at various stock prices.

Compensation Consultants. Neither the Compensation Committee nor the ECBC employs the services of compensation consultants in determining or recommending executive officer and director compensation.

Audit Committee

Kerr, Davidson and Maxwell and Senator Nickles served on the Audit Committee in 2006 and in March 2007, Mr. Miller replaced Mr. Maxwell on the Audit Committee. The Committee held eight meetings during 2006. Messrs. Kerr, Davidson, Maxwell and Miller and Senator Nickles are all independent, as determined by the Board in accordance with Section 10A of the Securities Exchange Act of 1934 and the NYSE corporate governance listing standards. Frederick B. Whittemore	\$ 107,000	\$ 164,157	\$	\$ 49,976	\$ 321,133

(a) The amounts shown in this column represent the expense recognized in our financial statements in 2006 for the fair value of restricted stock granted in 2006 and prior fiscal years in accordance with SFAS 123(R). As of December 31, 2006, the aggregate number of shares of unvested restricted stock held by each of the directors, excluding Mr. Davidson, was 15,625 shares. As of December 31, 2006, Mr. Davidson held 9,375 shares of unvested restricted stock.

On March 1, 2006, Mr. Davidson received an award of 10,000 shares of common stock with a value, based on the closing price of the Company's common stock on the date of the award, of \$304,300, pursuant to our 2003 Stock Award Plan for Non-Employee Directors.

On July 3, 2006, each of the directors received an award of 12,500 shares of restricted stock with a value, based on the closing price of the Company's common stock on the date of the award, of \$384,250.

(b) We granted no stock options in 2006. As of December 31, 2006, the aggregate numbers of shares of common stock subject to stock options held by each of the directors were as follows: Mr. Maxwell, 120,000 shares; Senator Nickles, 25,000 shares; and Mr. Whittemore, 72,500 shares. As of December 31, 2006, Messrs. Davidson and Kerr and Governor Keating held no stock options.

(c) Includes (i) gross-up payments for taxes incurred when family members accompany non-employee directors on fractionally-owned company aircraft when travel is related to their service to the Company; and (ii) personal use of fractionally-owned company aircraft (Mr. Davidson, \$62,480; Governor Keating, \$67,163; Mr. Kerr, \$37,901; Senator Nickles, \$39,723; and Mr. Whittemore, \$49,976).

Mr. Maxwell did not use fractionally-owned company aircraft for personal travel in 2006. The value of the personal use of fractionally-owned company aircraft is based on the incremental cost to the Company determined by the number of flight hours multiplied by the hourly variable operating costs. The variable operating costs include the cost of fuel, trip-related maintenance, crew travel expenses, on-board catering, landing fees and trip-related parking/hangar costs. Since the fractionally-owned company aircraft are used primarily for business travel, we do not include the fixed costs that do not change based on the usage, such as purchase costs and maintenance costs not related to trips.

(d) Senator Nickles deferred \$101,500 of his 2006 cash retainer and meeting fees into the Deferred Compensation Plan. Please refer to the narrative to the Nonqualified Deferred Compensation Table on page 44 for more information about the Deferred Compensation Plan. Non-employee director compensation currently consists of (i) an annual retainer of \$50,000, payable in quarterly installments of \$12,500; (ii) \$10,000 and \$2,500 payable for each board meeting attended in person and telephonically, respectively, not to exceed \$75,000 per year for board meetings attended; and (iii) an annual grant of 12,500 shares of restricted stock, 25% of which vests immediately upon award and the remaining 75% of which vests ratably over the three years following the date of award. The annual grant of restricted stock is made from our Long Term Incentive Plan (see page 6, Voting Item 2 Proposal to Amend Long Term Incentive Plan) on the first business day in July of each year. No additional compensation is paid to directors for participating on or chairing a Board committee. Directors are also reimbursed for travel and other expenses directly related to their service as directors.

Table of Contents

Directors are eligible to defer any or all of their annual retainers and/or meeting fees through the Chesapeake Energy Corporation Deferred Compensation Plan on a tax-favored basis. Deferrals into the Deferred Compensation Plan are not matched or subsidized by the Company nor are they eligible for above-market or preferential earnings. Please refer to the narrative to the Nonqualified Deferred Compensation Table on page 44 for more information about the Deferred Compensation Plan. In addition, non-employee directors are required to hold at least 15,000 shares of the Company's common stock at all times while serving as a director. Newly appointed directors are given one year from the date of appointment to comply with this stock ownership requirement.

Under the Company's 2003 Stock Award Plan for Non-Employee Directors, 10,000 shares of our common stock are awarded to each newly appointed non-employee director on his or her first day of service. This plan is discussed in further detail on page 15, Voting Item 3 Proposal to Amend 2003 Stock Award Plan for Non-Employee Directors.

Under the Company's policy regarding the use of fractionally-owned company aircraft, our directors are provided access to fractionally-owned company aircraft for travel to and from Board meetings. For Board meetings and other Company activities at which the attendance of a director's spouse and immediate family members are also requested by the Company, we make tax gross-up payments to the director associated with the taxable compensation attributable to the spouse/family member travel. In addition, each non-employee director is entitled to personal use of fractionally-owned company aircraft seating eight passengers or fewer for up to 40 hours of flight time per calendar year in North America, the Caribbean and Mexico. We apply the Internal Revenue Service's Standard Industry Fare Level (SIFL) valuation methodology to determine the taxable compensation attributable to our directors' personal usage of fractionally-owned company aircraft.

Audit Committee Report

The Audit Committee assists the Board of Directors in overseeing (i) the integrity of the Company's financial statements; (ii) the Company's compliance with legal and regulatory requirements; (iii) the independent auditor's qualifications and independence; and (iv) the performance of the Company's internal auditors and independent auditor. In so doing, it is the responsibility of the Committee to maintain free and open communication between the directors, the independent auditor and the management of the Company.

The Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the independent auditor for the purpose of preparing or issuing audit reports or performing other audit, review or attest services for the Company. The independent auditor reports directly to the Committee.

The Committee has discussed and reviewed with management the audited financial statements of the Company for the year ended December 31, 2006. The Committee has also discussed with our independent auditing firm, PricewaterhouseCoopers LLP, the matters required by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended by Statement on Auditing Standards No. 90. The Committee has received and reviewed the written disclosures from PricewaterhouseCoopers LLP as required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, regarding the firm's independence. We have discussed with PricewaterhouseCoopers LLP its independence and considered the compatibility of non-audit services rendered by PricewaterhouseCoopers LLP with its independence. Based on these reviews and discussions, the Committee recommended to the Board of Directors that the Company's audited financial statements be included in its 2006 Annual Report on Form 10-K for filing with the Securities and Exchange Commission.

Nominating and Corporate Governance Committee Report

The Nominating and Corporate Governance Committee is responsible for identifying and recommending qualified candidates to the Board for nomination as members of the Board and for recommending to the Board the corporate governance principles applicable to the Company.

The Committee periodically assesses, and advises the Board, whether the current size of the Board is sufficient to function effectively as a body, assesses the current Board mix and considers skill sets that would complement those of the current Board and provide value-added perspective.

It is an increasing challenge to identify highly qualified candidates who are willing to serve on public company boards. Therefore, we believe it is essential to continuously and actively identify and evaluate candidates, on an informal basis, who would potentially be willing to serve as a director on the Board at some future time. We may also use our network of contacts or may engage, as we deem appropriate, a professional search firm to identify potential candidates. In addition, we will consider director candidates recommended by shareholders.

The Committee has no minimum qualifications for candidates. In general, however, we review and evaluate both incumbent and potential new directors in light of the following criteria:

experience in business, government, education, technology or public interests;

high-level managerial experience in large organizations;

breadth of knowledge regarding the Company's business or industry;

specific skills, experience or expertise related to an area of importance to the Company such as energy production, consumption, distribution or transportation, government, policy, finance or law;

moral character and integrity;

commitment to shareholders' interests;

an understanding of a Board's fiduciary responsibilities to the shareholders and a director's duty to represent all shareholders as opposed to individual constituencies;

ability to apply sound and independent business judgment;

ability to provide insights and practical wisdom based on experience and expertise;

ability to read and understand financial statements; and

ability to devote the time necessary to carry out the duties of a director, including attendance at meetings and consultation on Company matters.

Edgar Filing: CHESAPEAKE ENERGY CORP - Form DEF 14A

Qualified candidates for nomination to the Board are considered without regard to race, color, religion, gender, ancestry or national origin.

On an annual basis, in advance of the annual meeting of shareholders, the Committee will recommend to the Board a slate of nominees to be submitted to the Company's shareholders at the next annual meeting. The Board has the authority to accept, modify or reject the slate of nominees recommended by the Committee.

The Committee, with the approval of the full Board, may determine from time to time that it is in the best interests of the Company and its shareholders to add a new director to the Board between annual meeting dates. If such determination is made, the Committee will evaluate potential candidates, as described above and may make a formal recommendation to the Board that a potential candidate be appointed to the Board to serve until the next annual meeting of the Company's shareholders.

Table of Contents

In accordance with the Company's bylaws, the Committee considers candidates recommended by a shareholder of record provided such shareholder follows the procedure set forth below. Recommendations complying with the following requirements will receive the same consideration that the Committee's candidates receive, in accordance with the procedures set forth above.

The shareholder must deliver a written notice to the Company's Secretary recommending a potential director nominee for the Committee's consideration. Such notice must be delivered to the Company not less than 120 days prior to the meeting of shareholders.

 - b. The nominee's written consent to being named as a nominee and to serving as a director if elected and the shareholder's written consent to being identified as a shareholder recommending the nominee;

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers and persons who beneficially own more than 10% of the Company's common stock to file reports of ownership and subsequent changes with the Securities and Exchange Commission. Based only on a review of copies of such reports and written representations delivered to the Company by such persons, the Company believes that there were no violations of Section 16(a) by such persons during 2006 except that Mr. McClendon filed one late Form 4 to report purchases of 228 shares of common stock by his children.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The goal for our executive compensation system is to encourage both short-term and long-term performance aligned with shareholders' interests. In establishing executive compensation, our objective is to attract, retain and motivate executive officers and key employees with the competence, knowledge and experience to promote the growth and profitability of the Company.

Our executive compensation system is designed to take into consideration and reward the following:

Individual performance;

Performance of the executive's department or functional unit;

Operational performance of the Company, with respect to our production, reserves, finding and operating costs, drilling results, risk management activities and asset acquisitions;

Financial performance of the Company, with respect to our cash flow, net income, cost of capital, general and administrative costs and common stock price performance;

Level of responsibility; and

Soft skills leadership ability, demonstrated commitment to the organization, motivational skills, attitude and work ethic.

As the chief executive officer and a founder of the Company, Mr. McClendon has been instrumental in shaping the vision for the Company and transforming it into a leader in U.S. natural gas production. Accordingly, his compensation is predominantly awarded in the form of long-term equity incentives. As a significant shareholder, Mr. McClendon has a major portion of his personal wealth tied directly to sustained stock price appreciation and performance, providing direct alignment with shareholder interests.

The company provides Mr. McClendon with certain perquisites specifically designed to provide him with the flexibility to focus on the myriad of critical and complex issues that currently face the U.S. natural gas industry while remaining involved in the oversight of the day-to-day management of the Company.

Because of Mr. McClendon's unique role as a founder of the Company, he is the only executive with the opportunity to participate as a working interest owner in the oil and natural gas wells that the Company drills. The Founder Well Participation Program (FWPP), which was approved by our shareholders on June 10, 2005 (see Transactions with Related Persons on page 46) is a continuation of the well participation program previously administered through Mr. McClendon's employment agreement and initiated by the Company in connection with its initial public offering in February 1993. The FWPP fosters and promotes the development and execution of the Company's business by: (a) retaining and motivating our chief executive officer who founded the Company; (b) aligning the financial rewards and risks of Mr. McClendon with the Company more effectively and directly than other performance incentive programs maintained by many of the Company's peers; and

(c) imposing on Mr. McClendon the same risks incurred by the Company in its exploration and production operations. The Compensation Committee reviews Mr. McClendon's participation in the FWPP on a semi-annual basis and annually adjusts the acreage costs charged to Mr. McClendon to ensure he reimburses the Company for such costs.

Table of Contents

The Company currently considers the positions of chief operating officer and chief financial officer to be equivalent in terms of the level of responsibility and the significance of contribution to the Company. However, because Mr. Rowland chose to forgo an award of restricted stock under our 2006 Long Term Incentive Program, the Compensation Committee rewarded him with additional permitted personal usage of our fractionally-owned company aircraft. Specifically, Mr. Rowland's performance is measured in terms of his execution of the Company's hedging program, the quality of the Company's financial reporting, access to capital markets, balance sheet management, stock price performance and the performance of the accounting, treasury and information technology departments. Mr. Dixon's performance is measured in terms of the Company's production rates, finding and operating costs, drilling results, reserve replacement, and leasehold acquisition efforts.

The Company also considers our executive vice president exploration and executive vice president acquisitions and divestitures positions to be of equivalent responsibility and significance to the Company. Mr. Lester's performance is measured in terms of the Company's drilling results and reserve replacement. Mr. Jacobson's performance is measured in terms of his team's identification, negotiation, execution and integration of attractive acquisition targets.

Elements of Compensation

We have historically favored a simple, easy to understand and easy to administer compensation program that we utilize throughout the Company rather than a more complex structure with different programs for different employee groups. We provide short-term compensation in the form of base salaries and cash bonuses and our restricted stock program provides long-term incentives to our employees. Additionally, our more highly-compensated employees, including our executive officers, are eligible for compensation deferral and company matching opportunities beyond IRS limitations through a nonqualified deferred compensation program and certain prerequisites.

We believe that as an individual's business responsibilities increase, the proportion of his or her variable, long-term compensation as a percentage of total compensation should increase. Therefore, depending upon an executive officer's level of responsibility, his or her annual base salary is typically only 10%-20% of the officer's total salary, bonus and equity compensation. Additionally, Mr. McClendon's compensation, as our Chairman and CEO, but also as the Company's founder, is more heavily weighted towards long-term equity compensation, which generally represents approximately 70%-80% of his annual total compensation, to better align his compensation with his responsibility for the long-term strategies, growth and profitability of the Company. The Compensation Committee does not utilize pre-determined guidelines for allocating between cash and equity and short-term and long-term compensation.

The Company has not utilized any specific tools or contracted for services to benchmark its total compensation, or any material element of compensation, to peer companies or other benchmarks. However, the Company does review and consider the executive compensation programs of its peers at least annually to ensure the Company's compensation programs remain competitive.

The Compensation Committee reviews the following elements of executive officer compensation on a semi-annual basis, as described on page 18 under Compensation Committee, and approves adjustments as it deems appropriate. Our CEO, COO, CFO and Senior Vice President Human and Corporate Resources provide the Compensation Committee with detailed analyses and recommendations regarding each element of executive officer compensation to facilitate the Compensation Committee's reviews.

Base Salary. The base salary levels of our executive officers are intended to reflect each officer's level of responsibility, leadership ability and the contribution of the officer's department or functional unit to the success and profitability of the Company. Although we review the salary levels of executive officers of peer companies to determine whether our executive officers' salaries are reasonable in comparison, we do not specifically target a percentile or range within peer group salary levels for our executive officers' salaries.

Table of Contents

Cash Bonuses. Cash bonuses are awarded to the executive officers based on a subjective evaluation of the performance of the Company and the individual during the six-month review period. The Company's financial and operating performance measurements are based on reserves, production, net income, cash flow, successful drilling results, finding and operating costs, general and administrative costs, asset acquisitions and divestitures, risk management activities and common stock price performance. Individual performance factors include leadership, commitment, attitude, motivational effect, level of responsibility, prior experience and extraordinary contributions to the Company. Additionally, individual performance by an executive officer in a review period that is expected to provide substantial benefit to the Company in future periods is also considered in semi-annual cash bonus decisions.

Cash bonuses are discretionary and not awarded pursuant to a formal plan or an agreement with any executive officer. Additionally, cash bonuses are not awarded based on objective Company or individual performance criteria or targets.

Restricted Stock. Consistent with our compensation objectives, we believe stock-based compensation provides strong incentives for long-term financial performance that increases shareholder value while retaining executive officers. Specifically, in conjunction with the Compensation Committee's semi-annual review of cash compensation, on the first business day of each January and July, we award restricted stock that vests over a period of four years to employees, including executive officers. After June 2003, we chose to award restricted stock, rather than stock options, for the following reasons:

The Company could realize a substantial reduction in its annual stock usage rate or burn rate, without a reduction in compensation value transferred to the executives;

A lower annual stock usage rate would reduce the dilutive effect of stock compensation to our shareholders;

The income statement impact of restricted stock is more predictable, and less volatile, than that of stock options; and

Structurally, we believe restricted stock better facilitates long-term employee stock ownership than stock options. Because the semi-annual award of restricted stock to our employees is primarily intended to provide incentives for future financial performance and not rewards for prior performance, the Compensation Committee does not consider current holdings of Company securities, the amount and terms of stock options or restricted stock previously granted to the executive officer or gains realized by the executive officer from prior awards of restricted stock or stock options when granting restricted stock to executive officers.

Other Compensation Arrangements. We also provide compensation in the form of personal benefits and perquisites to our executive officers. Most of the benefits we provide to our executive officers are the same benefits that we provide to all employees or large groups of senior-level employees, including health and welfare insurance benefits, 401(k) matching contributions, nonqualified deferred compensation arrangements and financial planning services (see footnotes and narrative to the Summary Compensation Table). We do not have a pension plan or any other retirement plan other than our 401(k) and nonqualified deferred compensation plans.

The perquisites that we provide exclusively to our chief executive officer, executive vice presidents and senior vice presidents include reimbursement of monthly country club dues and personal use of fractionally-owned company aircraft (see narrative to the Summary Compensation Table). Feedback from our executive officers indicates that access to fractionally-owned company aircraft for personal use greatly enhances productivity and work-life balance which we believe may impact their willingness to work to or beyond normal retirement age. Additionally, we provide accounting support services to our chief executive officer and chief financial officer, a portion of which is reimbursed to the Company by the chief executive officer. The Compensation Committee regularly reviews the terms under which these perquisites are provided and their value

Table of Contents

in relation to the executive's total compensation package; however, as these benefits and perquisites represent generally less than 15% of the executive officers' total compensation, they do not materially influence the Compensation Committee's decisions in setting such officers' total compensation. Further, the Company includes the above benefits and perquisites as taxable income to the executive on Form W-2 after each fiscal year, in accordance with Internal Revenue Service (IRS) guidelines.

Our qualified 401(k) profit sharing plan is the Chesapeake Energy Corporation Savings and Incentive Stock Bonus Plan, which is open to employees of the Company and all our subsidiaries except certain employees of Chesapeake Appalachia, L.L.C. Eligible employees may elect to defer compensation through voluntary contributions to their 401(k) plan accounts, subject to plan limits and those set by the IRS. The Company matches employee contribution dollar for dollar with shares of our common stock purchased in the open market for up to 15% of an employee's annual base salary and bonus compensation.

Termination Arrangements

We maintain employment agreements with our executive officers, the material terms of which are described throughout this proxy statement. The Compensation Committee reviews the terms of the agreements at least annually, generally focusing on the permitted activities allowed for our executive officers, the competitiveness, value and adequacy of the severance arrangements and the competitiveness and value of the perquisites and other personal benefits provided to such officers, as well as permitted outside activities. Please refer to the narrative to the Post-Employment Compensation tables for details of the termination arrangements for our named executive officers.

The energy industry's history of terminating professionals during its cyclical downturns, and the more current trend of mergers, acquisitions and consolidation, are two important factors that have contributed to a widespread, heightened concern for long-term job stability by many professionals in our industry. In response to this concern, arrangements that provide compensation guarantees in the event of an employee's termination without cause, change of control, death or incapacity have become common practice. These provisions in our employment agreements are integral to our ability to recruit and retain the high caliber of professionals that are critical to the successful execution of our business strategy.

Additionally, in 2006, the Compensation Committee added provisions to the employment agreements of our CEO, executive vice presidents and senior vice presidents that provide for accelerated vesting of unvested equity compensation upon retirement. The percentage of unvested equity compensation to be vested upon retirement ranges from 0% to 100% based on the executive's age and years of service at retirement. This provision was added to recognize the longevity of our senior management team and, because we do not have a pension plan, is intended to motivate our executives to remain with the Company until retirement. We have been a public company for 14 years and, among our named executive officers, the employment of Messrs. McClendon, Rowland, Dixon and Lester pre-dates our initial public offering and Mr. Jacobson is in his eighth year as an employee with the Company.

Accounting and Tax Treatment of Compensation

In structuring executive compensation, the Company analyzes the anticipated accounting and tax treatment of various arrangements and payments; however, the accounting for or deductibility of compensation is not a determinative factor in compensation decisions. We award compensation which is not deductible under Section 162(m) of the Internal Revenue Code, or which results in less favorable accounting treatment than other types of compensation arrangements, if we believe it is consistent with our compensation objectives and would be in the best interest of the Company and its shareholders. Compensation recognized by the executive officers upon the vesting of restricted stock, as currently structured, is not deductible pursuant to Section 162(m), which limits the tax deduction to \$1 million for compensation paid by a publicly held company to its chief executive officer and each of the Company's four other most highly compensated executive officers, unless certain performance-based requirements are met.

Table of Contents

In 2006, like many other public companies, we received investor inquiries regarding our practices in granting employee and executive stock options in past years, one of which questioned the timing of several option grants during the period from 1995 to 2003 in relation to the trading price of our common stock. Our Audit Committee undertook internal reviews of our practices in this area, including these specific option grants, primarily for the purpose of confirming that the past accounting treatment of our equity compensation awards was appropriate. While these internal reviews revealed some deficiencies in the documentation of our option grants in prior years, there was no evidence of any misconduct by our executives or directors in the timing or selection of our option grant dates, or that would cause us to conclude that our prior accounting for stock option grants was incorrect in any material respect.

Stock Ownership Requirements

Each executive officer has a stock ownership obligation arising from his or her employment agreement. Mr. McClendon is required to hold shares of the Company's common stock having an aggregate investment value equal to 500% of his annual base salary and bonus. Our executive vice presidents, including Messrs. Rowland, Dixon, Lester and Jacobson are required to hold not less than 25,000 shares of the Company's common stock throughout the term of their agreements and our senior vice presidents are required to hold not less than 10,000 shares of the Company's common stock throughout the term of their employment agreements. The Compensation Committee reviews a report of each executive officer's stock ownership at its meetings in June and December of each year.

Compensation Committee Report

The Committee has discussed and reviewed with management the Compensation Discussion and Analysis of the Company for the year ended December 31, 2006. Based on the review and discussion, the Committee recommended to the Board of Directors that the Company's Compensation Discussion and Analysis be included in its 2006 Annual Report on Form 10-K and 2007 Proxy Statement for filing with the Securities and Exchange Commission.

The 401(k) Make-Up Plan is discussed in more detail in the narrative to the Nonqualified Deferred Compensation Table. The bonus amounts shown reflect bonuses earned in 2006 which were paid to the executive officers in July 2006 and January 2007.
- (b) The amounts shown in these columns represent the expense recognized in our financial statements in 2006 for the fair value of stock options and restricted stock granted in 2006 and in prior fiscal years, in accordance with SFAS 123(R). Notes 1 and 9 to our consolidated financial statements included in our 2006 Form 10-K describe the manner in which such fair values are calculated and the assumptions used in such calculations. For information regarding the acceleration of Mr. Ward's equity compensation upon his termination, please refer to footnote (g) to this table. Since Messrs. Rowland, Lester and Jacobson will become retirement-eligible in accordance with the terms of their employment agreements in 2007, 2008 and 2009, respectively, the amortization of the fair value of their restricted stock is based on the time remaining to their 55th birthdays rather than the full four-year vesting periods of the restricted stock awards. Refer to the Grants of Plan-Based Awards Table for additional information regarding restricted stock awards made to the named executive officers in 2006. The Company did not grant stock options in 2006. More information about our named executive officers' outstanding stock options and restricted stock as of December 31, 2006 is provided in the Outstanding Equity Awards at 2006 Fiscal Year End Table. The amounts shown above reflect our 2006 accounting expense related to our executive officers' stock options and restricted stock and

- may not be representative of the actual value that the executive officers will receive from such awards. Stock options and unvested restricted stock do not accrue dividends, nor do we pay dividend equivalents on equity awards.
- (c) The Company does not have any non-equity incentive plans.
- (d) The Company does not have a pension plan. In addition, our nonqualified deferred compensation plans do not provide for above-market or preferential earnings. Our nonqualified deferred compensation plans are discussed in detail in the narrative to the Nonqualified Deferred Compensation Table.
- (e) See the All Other Compensation Table below for additional information.
- (f) The relationship of each named executive officer's salary and bonus compensation to total compensation for 2006 is the following: Mr. McClendon 17%, Mr. Rowland 38%, Mr. Dixon 55%, Mr. Lester 46% and Mr. Jacobson 53%. As discussed in Compensation Discussion and Analysis, as the responsibility level of our employees increase, the variable portion of such compensation increases.
- (g) Mr. Ward resigned as a director, officer and employee of the Company effective February 10, 2006. His resignation agreement provided for the immediate vesting of all of his unvested equity awards, which consisted of stock options to purchase 724,615 shares of our common stock at an average exercise price of \$8.01 per share and 1,291,875 shares of restricted stock. The fair value of Mr. Ward's stock options as of February 10, 2006 was approximately \$15.7 million and was calculated using the Black-Scholes option pricing model.

- (a) The value of personal use of fractionally-owned company aircraft is based on the incremental cost to the Company determined by the number of flight hours multiplied by the hourly variable operating costs associated with each flight. The variable operating costs include the cost of fuel, trip-related maintenance, crew travel expenses, on-board catering, landing fees and trip-related parking/hangar costs. Since the fractionally-owned company aircraft are used primarily for business travel, we do not include the fixed costs that do not change based on the usage, such as purchase costs and maintenance costs not related to trips. Mr. Ward's resignation agreement allowed him personal use of fractionally-owned company aircraft through August 10, 2006.
- (b) Under the terms of their employment agreements in 2006, Messrs. McClendon, Ward and Rowland were provided personal accounting support. The value of personal accounting support allocated to each executive officer for 2006 includes allocations of the following with respect to such support personnel: (i) cash compensation; (ii) equity compensation; (iii) company-matching contributions to our 401(k) and 401(k) Make-Up plans; (iv) company-paid life insurance premiums; and (v) overhead (utilities, office equipment, health and welfare benefit plans, etc.). During 2006, Messrs. McClendon and Ward were required by their employment agreements to each reimburse the Company for 50% of the salaries and cash bonuses of the personnel providing such accounting support. Mr. Ward was entitled to accounting support through August 10, 2006 pursuant to his resignation agreement. The amounts in this column are shown net of such reimbursements.
- (c) Filing fees paid by Messrs. McClendon and Ward in 2005 for required filings pursuant to the Hart-Scott-Rodino Antitrust Improvements Act of 1976 were reimbursed by the Company to such executive officers in

2006. Such filings were made as the result of significant acquisitions by the executives of the Company's common stock in prior years. Because the Board supports, encourages and appreciates the ongoing acquisition of the Company's common stock by its executive officers, it unanimously approved the reimbursement of such fees.

- (d) This column represents the company-matching contributions made for the benefit of the executive officers in the 401(k) and 401(k) Make-Up plans. These plans are discussed in more detail in the narrative to the Nonqualified Deferred Compensation Table.
- (e) This column represents the value of other benefits provided to the executive officers including financial advisory services, supplemental life insurance premiums, a car allowance, country club dues, and tax reimbursements related to spouse/family member travel to the Company's Board meetings.

Other Perquisites

From time to time, the Company may provide additional inconsequential perquisites to senior managers and officers of the Company, including the executive officers. Examples of such perquisites include physical, fitness and nutritional assessments, home security system reviews and tickets to cultural and sporting events.

Employment Agreements

Mr. McClendon's current employment agreement has a term of five years commencing January 1, 2007, which term is automatically extended for one additional year on each December 31 unless the Company provides 30 days prior notice of non-extension. Such agreement provides, among other things, for an annual base salary of not less than \$975,000, bonuses at the discretion of the Board of Directors (through its Compensation Committee), eligibility for equity awards under the Company's stock compensation plans and benefits, including club membership and personal accounting support. Effective January 1, 2007, Mr. McClendon is required to reimburse the Company for 100% of the salaries and cash bonuses of the personnel who provide him such accounting support.

The Company owns fractional interests in several aircraft through the NetJets (a Berkshire Hathaway company) program. For safety, security and efficiency, Mr. McClendon is required by his employment agreement to use aircraft owned or leased by the Company for business and personal use in the Western Hemisphere and is not required to reimburse the Company for any costs related to such use. In addition, Mr. McClendon's immediate family members may also use such aircraft for their personal use. If a family member travels without Mr. McClendon, he is required to reimburse the Company for the variable costs of such use. Mr. McClendon has recently purchased a personal share in a fractionally-owned aircraft to accommodate his family's travel needs.

The Company has employment agreements with Messrs. Rowland, Dixon, Lester and Jacobson that are in effect through September 30, 2009. Such agreements provide for annual base salaries (not less than \$725,000 for Mr. Rowland, \$725,000 for Mr. Dixon, \$675,000 for Mr. Lester and \$725,000 for Mr. Jacobson), bonuses at the discretion of the Board of Directors (through its Compensation Committee), eligibility for equity awards under the Company's stock compensation plans and benefits, including club membership and, for Mr. Rowland, personal accounting support.

Under the Company's policy regarding the use of fractionally-owned company aircraft, our executive officers (other than Mr. McClendon who is required by his employment agreement to use fractionally-owned company aircraft as discussed above) are entitled to personal use of fractionally-owned company aircraft seating eight passengers or fewer for up to a specified amount of flight time per calendar year in North America, the Caribbean and Mexico (175 hours for Mr. Rowland, 75 hours for Mr. Dixon, 50 hours for Mr. Lester and 50 hours for Mr. Jacobson). We apply the Internal Revenue Service's Standard Industry Fare Level (SIFL) valuation methodology to determine the taxable compensation attributable to our executive officers' personal usage of fractionally-owned company aircraft. For Board meetings and other Company activities at which the

Table of Contents

attendance of an executive officer's spouse and immediate family members are also requested by the Company, we make tax gross-up payments to the executive officer associated with the taxable compensation attributable to the spouse/family member travel.

The executive officers' employment agreements also provide for a six-month non-competition period after the termination of employment and prohibit disclosure of confidential information for a three year period (or, with respect to Mr. McClendon, a one-year period) following the termination of the agreement. In addition, the agreement contains non-solicitation restrictions with respect to employees, contractors, customers, vendors and subcontractors.

Employment agreement provisions related to compensation payable upon certain termination events are described under Post-Employment Compensation.

Post-Employment Compensation

As discussed in our Compensation Discussion and Analysis, we provide our key employees and officers with certain compensation guarantees in the event of a termination without cause, change of control, retirement incapacity or death. The termination arrangements with respect to our named executive officers are contained in their respective employment agreements. The discussion below describes these arrangements.

Table of Contents

Termination Without Cause

The Company may terminate its employment agreements with its named executive officers at any time without cause; however, upon such termination the executive officer is entitled to continue to receive the following:

Mr. McClendon. Base Compensation (defined as salary equal to his base salary on the date of termination plus annual bonus compensation equal to the bonus compensation he received during the twelve month period preceding the termination date) and benefits, including office space, personal secretarial and accounting support and fractionally-owned company aircraft usage, for the balance of the contract term. In addition, any unvested equity awards will become immediately vested upon such termination.

Other Named Executive Officers. Base salary for one year and immediate vesting of all unvested equity awards.

Change of Control

A Change of Control is defined in our named executive officers' employment agreements to include:

- (1) a person acquiring beneficial ownership of 30% or more of the Company's outstanding common stock or the voting power of the Company's existing voting securities unless one of the circumstances described in clause 3(i), (ii) and (iii) below exists or it is an acquisition directly from the Company or an acquisition by the Company or a Company employee benefit plan;
- (2) a majority of the members of the Incumbent Board is replaced by directors who were not nominated or elected by the Incumbent Board (the current directors and directors later nominated or elected by a majority of such directors are referred to as the Incumbent Board);
- (3) the consummation of a business combination such as a reorganization, merger, consolidation or sale of all or substantially all of the Company's assets unless following such business combination (i) the persons who beneficially owned the Company's common stock and voting securities immediately prior to the business combination beneficially own more than 60% of such securities of the corporation resulting from the business combination in substantially the same proportions, (ii) no person beneficially owns 30% or more of such securities of the corporation resulting from the business combination unless such ownership existed prior to the business combination, or (iii) a majority of the members of the board of directors of the corporation resulting from the business combination were members of the Incumbent Board at the time of the execution or approval of the business combination agreement; and
- (4) the approval by the shareholders of a complete liquidation or dissolution of the Company.

Upon a change of control, the executive officer is entitled to the following:

Mr. McClendon. If within three years after a change of control, any one of the events described below occurs (each a Change of Control Termination), (i) a severance payment in an amount equal to three times his base compensation, plus three times the value of his benefits provided during the preceding twelve months, plus a gross-up amount to be paid with respect to any excise or income taxes or penalties imposed on the severance payment, (ii) immediate vesting of all unvested equity compensation and (iii) office space and secretarial and accounting support for a period of twelve months:

his employment agreement expires in accordance with its terms;

his employment agreement is not extended and he resigns within one year after such non-extension;

he is terminated by the Company other than for cause, incapacity or death;

Edgar Filing: CHESAPEAKE ENERGY CORP - Form DEF 14A

he resigns as a result of a change in his duties or title, a reduction of his then current compensation, a required relocation of more than 25 miles from his then current place of employment or a default by the Company under his employment agreement;

Table of Contents

the failure by the Company after a change of control to obtain the assumption of his employment agreement by any successor or parent of the Company; or

after a change of control, he agrees to remain employed by the Company for a period of three months to assist in the transition and thereafter resigns.

Other Named Executive Officers. A severance payment in an amount equal to 200% of the sum of (i) the executive officer's base salary as of the date of the change of control and (ii) bonus compensation paid to the executive during the twelve month period immediately prior to the change of control and immediate vesting of all unvested equity compensation.

Retirement

Upon retirement after the attainment of age 55, the executive officer will be eligible for immediate vesting of unvested equity compensation, with the exception of restricted stock awarded to Messrs. Dixon, Lester and Jacobson under the 2006 Long Term Incentive Program (see page 14).

Incapacity

If the executive officer becomes incapacitated, as determined by the Company's Board of Directors, and is unable to perform his duties set out in the employment agreement for a period of three consecutive months (four consecutive months for Mr. McClendon), the Board may terminate his services. In the event such a termination should occur, the executive officer is entitled to receive the following:

Mr. McClendon. Compensation and benefits through the remaining term of the agreement and immediate vesting of all unvested equity awards

Other Named Executive Officers. Base salary on the date of termination and benefits (including health and welfare benefits, accrued vacation pay and club memberships) for 180 days and immediate vesting of all unvested equity awards. In addition, for Mr. Rowland, personal accounting support benefits would also continue for 180 days.

Death

If an executive officer dies during the term of the agreement, the Company is obligated to continue payments of base salary for twelve months after the date of his death and his unvested equity compensation will vest immediately upon his death.

(b) Represents the gross-up of estimated excise tax payable under IRC 4999 as a result of the deemed acceleration of Mr. Jacobson's unvested stock options and restricted stock as of December 31, 2006.

In the event any payment by the Company to Mr. McClendon is subject to the excise tax imposed by Section 4999 of the Internal Revenue Code or any interest or penalties related to such excise tax, he will be entitled under his employment agreement to receive a gross-up payment from the Company. The gross-up payment will be equal to the amount such that after payment of all taxes (including penalties and interest on the taxes) on the gross-up payment, Mr. McClendon will retain an amount of the gross-up payment equal to the excise tax imposed. Additionally, under the terms of each named executive officer's equity award agreement, in the event that acceleration of vesting of an award is subject to the excise tax imposed by Section 4999 of the Code or any interest or penalties with respect to such excise tax, he will be entitled to receive a gross-up payment from the Company. The gross-up payment will be equal to the amount such that after payment of all taxes (including penalties and interest on the taxes) on the gross-up payment, the executive will retain an amount of the gross-up payment equal to the excise tax imposed as a result of the vesting acceleration.

Tom L. Ward, our former President and Chief Operating Officer and a co-founder of the Company, resigned as a director, officer and employee of the Company on February 9, 2006. Our Board of Directors accepted Mr. Ward's resignation effective February 10, 2006 and approved a proposed resignation agreement with Mr. Ward in recognition of his significant contributions to the Company, his participation in the founding and success of the Company and his agreement to assist in the transition of his duties for a six-month period after his resignation (the Consulting Period). Upon his resignation, his employment agreement with the Company, which provided for Mr. Ward's full-time employment as Chesapeake's President and Chief Operating Officer and was substantially identical to Mr. McClendon's employment agreement, terminated.

During the Consulting Period, Mr. Ward received no cash compensation but the Company provided him support staff for personal administrative and accounting services and the use of our fractionally-owned company aircraft in accordance with historical practices. The resignation agreement further provided for the immediate vesting of all of Mr. Ward's unvested stock options and restricted stock on February 10, 2006. As a result of such vesting, options to purchase 724,615 shares of Chesapeake's common stock at an average exercise price of \$8.01 per share and 1,291,875 shares of restricted common stock became immediately vested. The estimated Black-Scholes value of these stock options was approximately \$15.7 million and the fair market value of the previously restricted common stock was approximately \$38.3 million as of February 10, 2006. Mr. Ward exercised all of his

outstanding stock options to purchase 7,815,808 shares of common stock on March 14, 2006. Mr. Ward's 2006 compensation is discussed in further detail in the notes to the Summary Compensation Table and the details of his stock option exercises are provided in the Option Exercises and Stock Vested Table.

- (a) Executive contributions are included as compensation in the Salary and Bonus columns of the Summary Compensation Table.
(b) The aggregate balances for Messrs. McClendon and Rowland include amounts of \$854,875 and \$409,750, respectively, which were reported as compensation in previous years.

We maintain a 401(k) Make-Up Plan (MUP) and a Deferred Compensation Plan (DCP), both of which are nonqualified deferred compensation plans. To be eligible to participate in the MUP, an employee must receive annual compensation (base salary and bonus combined) of at least \$100,000, have a minimum of five years of service as a Company employee and have made the maximum contribution allowable under the 401(k) plan. The Company matches employee contributions to the MUP, on a quarterly basis in arrears, in our common stock dollar for dollar for up to 15% of the employee's annual cash compensation. Each quarterly matching contribution vests at the rate of 25% per year over four years from the date of each contribution. At the earlier of (i) age 55 with at least 10 years of service with the Company or (ii) age 60, all currently unvested and future matching contributions are deemed 100% vested.

Employees with at least one year of service receiving an annual base salary of at least \$95,000 during the twelve months prior to the enrollment date are eligible to participate in our DCP. In addition, non-employee directors are able to defer up to 100% of director fees into the DCP. The maximum compensation that can be deferred by employees under all Company deferred compensation plans, including the Company's 401(k) plan, is a total of 75% of base salary and 100% of cash bonus. The Company has made no matching or other contributions to the DCP, although the plan permits the Company to make discretionary contributions. Three of our directors, Senator Nickles, Governor Keating and Mr. Whittemore, currently participate in the DCP. None of our named executive officers are DCP participants.

Participant contributions to the MUP and DCP are held in Rabbi Trusts. Notional earnings on participant contributions are credited to each participant's MUP or DCP account based on the market rate of return of the available benchmark investment alternatives offered under each plan. The benchmark investments are indexed to traded mutual funds and each participant allocates his or her contributions among the investment alternatives. Participants may change the asset allocation of their account balance or make changes to the allocation for future contributions at any time. Any unallocated portion of a participant's account is deemed to be invested in the money market fund.

Table of Contents

In 2006, the benchmark investments and their respective notional annual rates of return for the MUP and the DCP were the following:

Benchmark Investment	2006 Rate of Return
Reserve Primary	2.91%
American Century Inflation-Adjusted Bond	0.06%
PIMCO Total Return	3.66%
Wells Fargo Government Securities	3.50%
Selected American	15.19%
American Century Equity Index	15.40%
Federated Mid Cap Index	9.85%
Royce Total Return	14.54%
Baron Growth	15.50%
American Century International Growth	24.71%
AIM Energy	9.65%
Transamerica IDEX Balanced	7.85%

Employees participating in the MUP or DCP who retire or terminate employment after attainment of age 55 with at least 10 years of service can elect to receive distributions of their vested account balances in full or partial lump sum payments or in installments up to a maximum of 15 annual payments. Account balances less than \$50,000 will be automatically distributed in a lump sum upon termination. Upon retirement or termination of employment prior to the attainment of age 55 and at least 10 years of service with the Company, the employee will receive his or her entire account balance in a single lump sum. Participants can modify the distribution schedule for a retirement/termination distribution from lump sum to annual installments or from installments to lump sum if such modification requires that payments commence at least five years after retirement/termination and the modification is filed with the plan administrator at least twelve months prior to retirement/termination. Distributions from the plans upon the death of a participant will be made in a single lump sum and upon a participant's disability, as defined in the plan, based on the participant's retirement/termination distribution election. The Company has sole discretion to accelerate vesting of unvested Company matching contributions upon a participant's death or disability. Under Mr. McClendon's employment agreement, his unvested Company matching contributions in any nonqualified deferred compensation plan will become fully vested upon a termination without cause, a change of control event, his death or his incapacity.

Employees who are considered "key employees" for purposes of Section 409A of the Internal Revenue Code must wait six months after retirement/termination before distributions may begin. Named executive officers are typically key employees.

Participants in the DCP may elect to receive some or all of each year's deferrals and related earnings on a specific future date (an "in-service distribution date") prior to retirement or termination of employment. That portion of each year's deferrals so elected will be credited to an in-service account with a specified distribution date determined by the participant. A maximum of five in-service accounts may be outstanding at any time. Distributions from in-service accounts can be made either in a lump sum or in up to five annual installments. Participants can modify each in-service distribution date by extending it by at least five years (in-service distribution dates can not be accelerated) and filing such election with the plan administrator at least twelve months prior to the in-service distribution date.

Any assets placed in trust by the Company to fund future obligations of the MUP and the DCP are subject to the claims of creditors in the event of insolvency or bankruptcy, and participants are general creditors of the Company as to their deferred compensation in the plans.

TRANSACTIONS WITH RELATED PERSONS

Policy on Transactions with Related Persons

The Company has adopted a written policy and procedures for the Audit Committee's review of any transaction, arrangement or relationship or series of similar transactions, arrangements or relationships (including any indebtedness or guarantee of indebtedness) in which (1) the aggregate amount involved will or may be expected to exceed \$100,000 in any calendar year, (2) the Company is a participant, and (3) its directors, executive officers, and greater than 5% shareholders and their immediate family members have or will have a direct or indirect interest (other than solely as a result of being a director or beneficially owning less than 10% of the equity of another entity, excluding a partnership). The Audit Committee approves or ratifies only those transactions that it determines in good faith are in, or are not inconsistent with, the best interests of the Company and its shareholders. Each of the related person transactions described below has been approved or ratified in accordance with this policy.

In determining whether to approve or ratify a transaction, the Audit Committee takes into account the factors it deems appropriate, which may include, among others, the benefits to the Company, the availability of other sources for comparable products or services, the impact on a director's independence in the event the related person is a director, and the extent of the related person's interest in the transaction. The policy also provides for the delegation of its authority to the chairman of the Audit Committee for any related person transaction requiring pre-approval or ratification between meetings of the Audit Committee.

The Audit Committee reviews and assesses ongoing relationships with a related person on at least an annual basis to see that they are in compliance with the policy and remain appropriate. The Audit Committee has reviewed and pre-approved certain transactions even if the amount involved exceeds \$100,000. Transactions that have standing pre-approval under the policy include the Company's employment of executive officers and immediate family members if the Compensation Committee has approved the person's compensation, joint operating agreement services if the related person is subject to the same terms applicable to all working interest owners and Mr. McClendon's participation in the FWPP (which is overseen by the Compensation Committee).

Founder Well Participation Program

On June 10, 2005, our shareholders approved the Founder Well Participation Program (the "FWPP") which permitted the Company's two founders, Messrs. McClendon and Ward, to continue participating as working interest owners in new oil and natural wells drilled by the Company. The FWPP is a continuation of the well participation program previously administered through the founders' employment agreements and initiated by the Company in connection with its initial public offering in February 1993. As discussed in Compensation Discussion and Analysis, the Company believes the FWPP fosters and promotes the development and execution of the Company's business. Mr. McClendon has participated in all wells drilled by the Company since its initial public offering in February 1993, except during the five quarters from January 1, 1999 to March 31, 2000. Mr. Ward participated in all wells drilled by the Company from its initial public offering in February 1993 to August 10, 2006, except during the five quarters from January 1, 1999 to March 31, 2000. Mr. Ward's participation rights terminated on August 10, 2006, following his resignation as a director and the President and COO of the Company.

Under the FWPP, Mr. McClendon is permitted to participate in all of the wells spudded by or on behalf of the Company during each calendar year. In order to participate, prior to the beginning of each year Mr. McClendon must provide written notice to the members of the Compensation Committee of his election to participate in the FWPP and the percentage working interest which he proposes to participate with during the year. His working interest percentage may not exceed a 2.5% working interest in a well and is not effective for

Table of Contents

any well where the Company's working interest after Mr. McClendon's participation election would be reduced to below 12.5%.

The FWPP is administered and interpreted by the Compensation Committee of the Board. In addition, the Board, in its sole discretion, may take any action with respect to the FWPP that would otherwise be the responsibility of or delegated to the Compensation Committee. The Board of Directors has the right to suspend or terminate the FWPP after December 31, 2015 by providing written notice of termination to Mr. McClendon one year before the effective date of such termination. Shareholder approval is required for any amendment to the FWPP that increases the maximum working interest percentage applicable to Mr. McClendon or any amendment, which in the opinion of counsel to the Company, requires shareholder approval under any federal or state law or any regulations or rules promulgated thereunder. Mr. McClendon's right to participate in the FWPP during any calendar year will terminate on the earlier of (i) December 31 of such year; (ii) the termination of Mr. McClendon's employment by the Company for cause or death; or (iii) the expiration or termination of any and all covenants not to compete subsequent to the termination of Mr. McClendon for any reason not included in the foregoing clause (ii). In accordance with provision (iii), Mr. Ward's participation in the FWPP expired on August 10, 2006 when the non-compete covenants in his resignation agreement expired. The right to participate in the FWPP can only be assigned by Mr. McClendon to an affiliate designated as such in accordance with the FWPP.

Under the FWPP, Mr. McClendon cannot change his working interest percentage during any calendar year without the prior approval of the Compensation Committee, and he agrees to pay all joint interest billings immediately on receipt of the Company's invoice and to prepay amounts owing to a third party operator if the Company is required to prepay any such costs. The amount paid by Mr. McClendon for the acreage assigned in connection with his participation in the FWPP is equal to the following amount computed on a per acre basis: (a) all direct third party costs paid by the Company and capitalized in the appropriate accounting pool in accordance with the Company's accounting procedures (including capitalized interest, leasehold payments, acquisition costs, landman charges and seismic charges); divided by (b) the acreage in the applicable pool. The acreage charge amount is recomputed as of the first day of each calendar year by the Company and submitted to the Compensation Committee for approval. All other costs are billed in accordance with the Company's accounting procedures applicable to third party participants pursuant to any applicable joint operating agreement or exploration agreement relating to a particular well. Notwithstanding anything to the contrary, in each case Mr. McClendon's participation in a well will be on no better terms than the terms agreed to by unaffiliated third party participants in connection with the participation in such well or similar wells operated by the Company.

From January 1, 2006 to December 31, 2006, the Company billed Mr. McClendon \$106,177,855 and Mr. Ward \$86,697,545 for their share of leasehold, drilling, completion, equipping and operating costs. Messrs. McClendon and Ward paid each invoice promptly upon receipt. During the three months ended March 31, 2007, the Company billed Mr. McClendon \$36,603,774 and Mr. Ward \$13,601,782 for such costs. There was no amount owing by either of them for joint interest billing invoices at any month-end in 2006 or 2007.

Securities Issuances

On June 27, 2006, Mr. McClendon purchased 400,000 shares of the Company's common stock for \$29.05 per share pursuant to our public offering of 25 million shares of our common stock. Such purchase was made at the same price and subject to the same terms and conditions as such stock was purchased by the public in conjunction with the offering.

Unless otherwise provided in the bylaws of the Company or resolutions adopted from time to time by the Board establishing the Committee, the Board may from time to time remove members from, or add members to, the Committee. Subject to the provisions of the Plan, the Committee shall have the authority to:

- (a) Select the Eligible Persons to participate in the Plan.
- (b) Determine the time or times when Awards will be granted.
- (c) Determine the form of Award, the number of shares of Common Stock subject to any Award, all the terms, conditions (including performance requirements), restrictions and/or limitations, if any, of an Award, including the time and conditions of exercise or vesting, and the terms of any Award Agreement, which may include the waiver or amendment of prior terms and conditions or acceleration of the vesting or exercise of an Award under certain circumstances determined by the Committee (subject to Section 10.2 of the Plan). However, nothing in this Section 3.1 shall be construed to permit the repricing of any outstanding Award in violation of Section 4.3.
- (d) Determine whether Awards will be granted singly or in combination.
- (e) Determine whether, to what extent and under what circumstances Awards may be settled in cash or Common Stock.
- (f) Determine whether any conditions applicable to an Award have been met and whether an Award will be paid at the end of a Performance Period.

Section 3.2 Committee to Make Rules and Interpret Plan. The Committee in its sole discretion shall have the authority, subject to the provisions of the Plan, to establish, adopt, or revise such rules and regulations and to make all such determinations relating to the Plan as it may deem necessary or advisable for the administration of the Plan. (b) In the event that the shares of Common Stock, as presently constituted, shall be changed into or exchanged for a different number or kind or shares of stock or other securities of the Company or of another corporation (whether by reason of merger, consolidation, recapitalization, reclassification, stock split, combination of shares or other corporate event of similar nature), or if the number of such shares of Common Stock shall be increased through the payment of a stock dividend, then there shall be substituted for or added to each share available under and subject to the Plan as provided herein, the number and kind of shares of stock or other securities into which each outstanding share of Common Stock shall be so changed or for which each such share shall be exchanged or to which each such share shall be entitled, as the case may be, to reflect any increase or decrease in the number of, or change in the kind or value of, issued shares of Common Stock to preclude, to the extent practicable, the enlargement or dilution of rights under such Awards. In the event there shall be any other change in the number or kind of the outstanding shares of Common Stock, or any stock or other securities into which the Common Stock shall have been changed or for which it shall have been exchanged, then if the Committee shall, in its sole discretion, determine that such change equitably requires an adjustment in the shares available under and subject to the Plan, or in any Award theretofore granted or which may be granted under the Plan, such adjustments shall be made in accordance with such determination.

No fractional shares of Common Stock or units of other securities shall be issued pursuant to any such adjustment, and any fractions resulting from any such adjustment shall be eliminated in each case by rounding downward to the nearest whole share.

Section 3.4 *Share Counting.* The following shares of Common Stock related to Awards will be available for issuance again under the Plan:

- (d) Common Stock tendered or withheld in order to satisfy withholding tax obligations.

4. STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

Section 4.1 *Grant of Options and SARs.* The Committee may, from time to time, subject to the provisions of the Plan and such other terms and conditions as it may determine, grant Nonqualified Stock Options and Stock Appreciation Rights (SARs) to Eligible Persons and Incentive Stock Options to Employees. SARs may be granted either alone or in tandem with concurrently or previously issued Options. Each grant of an Option or SAR shall be evidenced by an Award Agreement executed by the Company and the Participant, and shall contain such terms and conditions and be in such form as the Committee may from time to time approve, subject to the requirements of Section 4.2.

Section 4.2 *Conditions of Options and SARs.* Each Option and SAR so granted shall be subject to the following conditions:

- (a) *Exercise Price.* As limited by Section 4.2(e) below, the Award Agreement for each Option and SAR shall state the exercise price set by the Committee on the Date of Grant. No Option or SAR shall be granted at an exercise price which is less than the Fair Market Value of the Common Stock on the Date of Grant.
- (b) *Exercise of Options and SARs.* Options and SARs granted under the Plan shall be exercisable, in whole or in such installments and at such times, and shall expire at such time, as shall be provided by the Committee in the Award Agreement. An SAR issued in tandem with an Option is only exercisable to the extent the related Option is exercisable and is subject to the conditions applicable to such Option. When a

tandem SAR is exercised, the Option to which it relates shall cease to be exercisable to the extent of the number of shares with respect to which the tandem SAR is exercised. Similarly when the Option is exercised, the tandem SARs relating to the shares covered by such Option exercise shall terminate.

(c) *Form of Payment.* The payment of the exercise price of an Option by the Participant shall be made in cash, shares of Common Stock, a combination thereof or in such other manner as the Committee may specify in the applicable Award Agreement. The payment of the Appreciation associated with the exercise of a SAR shall be made by the Company in shares of Common Stock.

(d) *Term of Option or SAR.* The term of an Option or SAR shall be determined by the Committee and specified in the applicable Award Agreement, except that no Option or SAR shall be exercisable after the expiration of ten years from the Date of Grant.

(e) *Special Restrictions Relating to Incentive Stock Options.* Options issued in the form of Incentive Stock Options shall only be granted to Employees of the Company or a Subsidiary and not to Employees of an Affiliated Entity unless such entity is classified as a disregarded entity of the Company or the applicable Subsidiary under the Code. In addition to being subject to all applicable terms, conditions, restrictions and/or limitations established by the Committee, Options issued in the form of Incentive Stock Options shall comply with the requirements of Section 422 of the Code (or any successor Section thereto), including, without limitation, the requirement that the exercise price of an Incentive Stock Option not be less than 100% of the Fair Market Value of the Common Stock on the Date of Grant, the requirement that each Incentive Stock Option, unless sooner exercised, terminated or canceled, expire no later than ten years from its Date of Grant, and the requirement that the aggregate Fair Market Value (determined on the Date of Grant) of the Common Stock with respect to which Incentive Stock Options are exercisable for the first time by a Participant during any calendar year (under this Plan or any other plan of the Company or any Subsidiary) not exceed \$100,000. Incentive Stock Options which are in excess of the applicable \$100,000 limitation will be automatically recharacterized as Nonqualified Stock Options. No Incentive Stock Options shall be granted to any Employee if, immediately before the grant of an Incentive Stock Option, such Employee owns more than 10% of the total combined voting power of all classes of stock of the Company or its Subsidiaries (as determined in accordance with the stock attribution rules contained in Sections 422 and 424(d) of the Code) unless the exercise price is at least 110% of the Fair Market Value of the Common Stock subject to the Incentive Stock Option, and such Incentive Stock Option by its terms is exercisable no more than five years from the date such Incentive Stock Option is granted.

(f) *Shareholder Rights.* No Participant shall have any rights as a shareholder with respect to any share of Common Stock subject to an Option or SAR prior to the purchase or receipt of such share of Common Stock by exercise of the Option or SAR. In addition, no Option or SAR granted under the Plan shall include any dividend equivalents.

Section 4.3 No Repricing. Except for adjustments made pursuant to Section 3.3(b), in no event will the Committee, without first obtaining Shareholder Approval, (i) decrease the exercise price of an Option or SAR after the Date of Grant; (ii) accept for surrender to the Company any outstanding Option or SAR granted under the Plan as consideration for the grant of a new Option or SAR with a lower exercise price; or (iii) repurchase from Participants any outstanding Options or SARs that have an exercise price per share less than the then current Fair Market Value of a Share.

The Committee may, from time to time, subject to the provisions of the Plan and such other terms and conditions as it may determine, grant Restricted Stock to any Eligible Person. The Committee shall determine the Restriction Period or Periods that shall apply to the shares of Common Stock covered by each Award or portion thereof. In addition to any time vesting conditions determined by the Committee, Restricted Stock may be subject to the achievement by the Company of specified Performance Measures or other individual criteria as determined by the Committee. At the end of the Restriction Period, assuming the fulfillment of any other specified vesting conditions, the restrictions imposed by the Committee shall lapse with respect to the shares of Common Stock covered by the Award or portion thereof.

(b) *Code Section 162(m).* If the Committee intends for a Restricted Stock Award to be granted and administered in a manner designed to preserve the deductibility of the resulting compensation in accordance with Section 162(m) of the Code, then Performance Measures applicable to such Award shall be established in writing by the Committee no later than the earlier of (i) 90 days after the commencement of the relevant Performance Period and (ii) the date as of which 25% of the Performance Period has elapsed. The Committee's discretion to modify or waive the Performance Measures related to the vesting of the Award may be restricted in order to comply with Section 162(m).

(c) *Forfeiture.* Except as otherwise determined by the Committee, upon termination of service or employment during the Restriction Period, all shares of Restricted Stock still subject to forfeiture shall be forfeited by the Participant and any purchase price paid by the Participant shall be returned to such Participant.

(d) *Shareholder Rights.* During any Restriction Period, the Committee may, in its discretion, grant to or withhold from the holder of Restricted Stock all or any of the rights of a shareholder with respect to the shares, including, but not by way of limitation, the right to vote such shares or to receive dividends. If any dividends or other distributions are paid in shares of Common Stock and distributed to the holder of Restricted Stock, all such shares shall be subject to the same restrictions on transferability as the shares of Common Stock subject to the Award with respect to which they were paid.

(e) *Minimum Vesting Condition.* The minimum Restriction Period applicable to any Restricted Stock that is not subject to performance criteria restricting the vesting of the Award shall be three years from the Date of Grant (subject to the provisions of Section 10.2).

(b) *Code Section 162(m)*. If the Committee intends for a Performance Award to be granted and administered in a manner designed to preserve the deductibility of the resulting compensation in accordance with Section 162(m) of the Code, then the Performance Measures applicable to such Award shall be established in writing by the Committee no later than the earlier of (i) 90 days after the commencement of the relevant Performance Period and (ii) the date as of which 25% of the Performance Period has elapsed. The Committee's discretion to modify or waive the Performance Measures to the vesting of the Award may be restricted in order to comply with Section 162(m).

(c) *Payment Respecting Performance Shares*. Performance Shares shall be earned to the extent that their terms and conditions are met, as certified by the Committee. The form and timing of payment for Performance Shares earned shall be determined by the Committee and specified in the Award Agreement; however, in no event shall the payment for Performance Shares earned be made on a date that is later than 60 days after the vesting of such Performance Shares.

(d) *Termination of Employment*. The Committee, in its sole discretion, may (i) permit a Participant who ceases to be an Eligible Person before the end of any Performance Period, or the personal representative of a deceased Participant, to continue to be subject to a Performance Award relative to the current Performance Period until such Awards are forfeited or earned pursuant to their terms and conditions or (ii) authorize the payment to such Participant, or the personal representative of a deceased Participant, of the Performance Shares which would have been paid to the Participant had the Participant remained an Eligible Person to the end of the Performance Period. In the absence of such permission by the Committee, any unvested Performance Shares shall be forfeited when a Participant ceases to be an Eligible Person.

7. OTHER STOCK AWARDS

Section 7.1 *Grant of Other Stock Awards*. The Committee may, from time to time, subject to the provisions of the Plan and such other terms and conditions as it may determine, specify the terms and provisions of other forms of equity-based or equity-related awards not described above which the Committee determines to be consistent with the purpose of the Plan and the interests of the Company, which awards may provide for cash payments based in whole or in part on the value or future value of Common Stock, for the acquisition or future acquisition of Common Stock, or any combination thereof. Each Other Stock Award shall be evidenced by an Award Agreement executed by the Company and the Participant, and shall contain such terms and conditions and be in such form as the Committee may from time to time approve, subject to the requirements of Section 7.2.

Section 10.7 *Certain Additional Payments by the Company*. The Committee may, in its sole discretion, provide in any Award Agreement for certain payments by the Company in the event that acceleration of vesting of any Award under the Plan is subject to the excise tax imposed by Section 4999 of the Code or any interest or penalties with respect to such excise tax (such excise tax, interest and penalties, collectively, the Excise Tax). An Award Agreement may provide that the Participant shall be entitled to receive a payment (a Gross-Up Payment) in an amount such that after payment by the Participant of all taxes (including any interest or penalties imposed with respect to such taxes), including any Excise Tax imposed upon the Gross-Up Payment, the Participant retains an amount of the Gross-Up Payment equal to the Excise Tax imposed upon such acceleration of vesting of any Award.

Section 10.8 *Non-Transferability*. Subject to other provisions of the Plan and any applicable Award Agreement, Awards are not transferable other than by will or the laws of descent and distribution. Any attempted sale, transfer, assignment, pledge, hypothecation or other disposition of, or the levy of execution, attachment or similar process upon, any Award contrary to the provisions hereof shall be void and ineffective, shall give no right to any purported transferee, any may, at the sole discretion of the Committee, result in forfeiture of the Award involved in such attempt. The Committee shall impose such other restrictions and conditions on any shares of Common Stock covered by an Award as it may deem advisable including, without limitation, restrictions under applicable Federal or state securities laws, and may legend the certificates representing the shares of Common Stock subject to the Award to give appropriate notice of such restrictions. Notwithstanding the foregoing, an Award held by a Non-Employee Director may be transferable under certain circumstances as specified by the Committee in the Award Agreement.

Section 10.9 *Non-Uniform Determinations*. The Committee's determinations under the Plan, including without limitation, (i) the determination of the Eligible Persons to receive Awards, (ii) the form, amount and timing of such Awards, (iii) the terms and provisions of such Awards, (iv) minimum employment or service periods, and (v) agreements evidencing the same, need not be uniform and, subject to any restrictions set forth in the Plan, may be made by the Committee selectively among Participants who receive, or who are eligible to receive, Awards under the Plan, whether or not such Participants are similarly situated.

Section 10.10 *Leaves of Absence, Suspensions*. The Committee shall be entitled to make such rules, regulations and determinations as it deems appropriate under the Plan in respect of any suspension of employment or leave of absence from the Company granted to a Participant whether such suspension or leave is paid or unpaid and whether due to a Disability or otherwise. Without limiting the generality of the foregoing, the Committee shall be entitled to determine (i) whether or not any such suspension or leave of absence shall be treated as if the Participant ceased to be an employee of the Company and (ii) the impact, if any, of any such suspension or leave of absence on Awards under the Plan.

Section 10.11 *Participant Misconduct*. Notwithstanding anything in the Plan to the contrary, the Committee shall have the authority under the Plan to determine that in the event of serious misconduct by the Participant (including violations of employment agreements, confidentiality or other proprietary matters) or any activity of a Participant in competition with the business of the Company or any Subsidiary or Affiliated Entity, any outstanding Award granted to such Participant may be cancelled, in whole or in part, whether or not vested. The determination of whether a Participant has engaged in a serious breach of conduct or any activity in competition with the business of the Company or any Subsidiary or Affiliated Entity shall be determined by the Committee in

good faith and in its sole discretion. This Section 10.11 shall have no effect and be deleted from the Plan following a Change of Control.

Section 10.12 *Regulatory Approval and Listings.* The Company shall use its best efforts to file with the Securities and Exchange Commission as soon as practicable following the date this Plan is effective, and keep continuously effective and usable, a Registration Statement on Form S-8 with respect to shares of Common Stock subject to Awards hereunder. Notwithstanding anything contained in this Plan to the contrary, the Company shall have no obligation to issue or deliver certificates representing shares of Common Stock evidencing Awards prior to:

(a) the obtaining of any approval from, or satisfaction of any waiting period or other condition imposed by, any governmental agency which the Committee shall, in its sole discretion, determine to be necessary or advisable;

(b) the listing of such shares on any exchange on which the Common Stock may be listed; and

(c) the completion of any registration or other qualification of such shares under any state or federal law or regulation of any governmental body which the Committee shall, in its sole discretion, determine to be necessary or advisable.

Section 10.13 *Right to Continued Employment or Board Membership.* Participation in the Plan shall not give any Participant any right to remain in the employ of the Company, a Subsidiary or an Affiliated Entity or any right to remain on the Board of the Company. Further, the adoption of this Plan shall not be deemed to give any Employee, Non-Employee Director or Consultant or any other individual any right to be granted an Award.

Section 10.14 *Other Compensation Programs.* The existence and terms of the Plan shall not limit the authority of the Board in compensating Employees and Non-Employee Directors in such other forms and amounts, including compensation pursuant to any other plans as may be currently in effect or adopted in the future, as it may determine from time to time.

Section 10.15 *Reliance on Reports.* Each member of the Committee and each member of the Board shall be fully justified in relying or acting in good faith upon any report made by the independent public accountants of the Company and its Subsidiaries and upon any other information furnished in connection with the Plan by any person or persons other than the Committee or Board member. In no event shall any person who is or shall have been a member of the Committee or the Board be liable for any determination made or other action taken or any omission to act in reliance upon any such report or information, including the furnishing of information, or failure to act, if in good faith.

Section 10.16 *Construction.* The titles and headings of the sections in the Plan are for the convenience of reference only, and in the event of any conflict, the text of the Plan, rather than such titles or headings, shall control.

Section 10.17 *Governing Law, Severability.* The Plan shall be governed by and construed in accordance with the laws of the State of Oklahoma except as superseded by applicable federal law. If any provision of the Plan is held unlawful or otherwise invalid or unenforceable in whole or in part, the unlawfulness, invalidity or unenforceability will not affect any other parts of the Plan, which will remain in full force and effect.

Section 10.18 *Supersession.* Upon receipt of Shareholder Approval pursuant to Section 1.4, this Plan supersedes and replaces in all respects the Initial Plan and any Award Agreement issued pursuant to the Plan after the effective date of this Plan will be governed by the terms of this Plan and not by the Initial Plan or any other plans or agreements, oral or otherwise.

(b) In consideration for the Shares awarded under the Plan, each Participant shall pay the Company an amount equal to the aggregate par value of the Shares awarded (the Share Consideration). The Share Consideration shall be payable in cash, provided the Company shall withhold the Share Consideration from the first payment of director fees to be made by the Company to the Participant as a Non-Employee Director if the Share Consideration has not been earlier paid.
