Tokyo, September 14, 2007 Hitachi, Ltd. (NYSE:HIT / TSE:6501) today announced that the Board of Directors today decided to revise, as follows, the Company's consolidated interim business forecasts for fiscal 2007, the year ending March 31, 2008, which were announced with operating results on July 31 this year and resolved the interim dividend for fiscal 2007. The Company also announced plans to record extraordinary items on a non-consolidated basis. The interim dividend applicable to fiscal 2007 is scheduled for final authorization by the Board of Directors in late October this year.

Previous forecast (A)	4,950.0	90.0	85.0	15.0	(25.0)
Revised forecast (B)	4,950.0	90.0	80.0	10.0	(35.0)

[Reasons for Revisions]

The Company will halt production on the plasma line of its former second plant and concentrate production in the previously announced third plant with its highly efficient production system at the Miyazaki Works of subsidiary Fujitsu Hitachi Plasma Display Limited (FHP). As a result of this move, which is intended to improve competitiveness in the plasma TV business, the Company will record an impairment loss of approximately 15.0 billion yen.

Due to the aforementioned reason, the Company has revised its consolidated interim business forecasts announced with operating results on July 31 this year. The Company is now projecting income before income taxes and minority interests of 80.0 billion yen, income before minority interests of 10.0 billion yen, and a net loss of 35.0 billion yen on a consolidated basis.
