Below is an outline of the highlights of this fiscal year:

Net results for the three-month period ended September 30, 2007 showed a Ps.30.0 million loss compared to a Ps.15.6 million profit recorded in the same period of fiscal year 2007. Rather than a deficiency in operating performance, this result reflects the increase in financial expenses and results from our related company Banco Hipotecario, which did not record operating losses either, but rather exchange differences resulting from its holdings of certain portfolio securities recorded at less than their market value.

Operating income increased 7.6%, from Ps. 51.3 million in the first three months of fiscal year 2007 to Ps. 55.2 million in the same period of fiscal year 2008, driven by a 15.3% increase in revenues, from Ps.169.6 million to Ps.195.6 million. The slower rate of growth of operating income compared to revenues was motivated by the review made in the acceleration of depreciation rates of fixed assets at the closing of fiscal year 2007. EBITDA amounted to Ps. 84.4 million, 17.7% up from the figure recorded in the same period of the previous fiscal year, evidencing improved operating efficiency.

The participation of the different segments in net revenues was: sales and developments Ps. 1.2 million; offices and other lease properties Ps. 20.7 million; shopping centers Ps. 80.1 million; hotels Ps. 35.3 million; credit cards Ps. 58.0 million; and financial and other transactions Ps. 0.3 million.

Our office buildings continue to have full occupancy rates, reaching 99.1% during the first three months of fiscal year 2008 compared to 96.1% in the first three months of the previous fiscal year. During this quarter we added 15,822 square meters of the Building known as Torre BankBoston.

Our shopping center business continues to grow, as evidenced by the year on year increase in revenues from Ps. 60.8 million to Ps 80.1 million. We are also making progress in the works of Av. Gral. Paz and Panamericana Highway and the startup of the Neuquén project.

The Hotels segment has grown from Ps. 28.6 million to Ps. 35.3 million as a result of the year on year average increase in rates from Ps. 470 to Ps. 537 and average occupancy rates from 68% to 74%. EBITDA ratios have remained stable in the region of 23%.

In the Credit Cards segment, although revenues increased by 44%, the EBITDA-revenue ratio fell from 28% to 14% as a result of higher financing charges and operating expenses.

The Sales and Development segment recorded operating losses due to the few transactions closed. In this quarter, the Company entered into an agreement with Cyrela Brazil Realty to boost business in this segment.

After year-end, significant financial debts were repaid and the holders of outstanding Convertible Notes and Warrants have exercised the majority of their holdings of these securities.

We are planning a capital increase through the issuance of shares, which shall be used to finance various expansion projects envisaged by the Company.
