EXPLANATORY NOTE

We are filing this Form 10-Q/A Amendment No. 1 (this Amendment) to amend and restate certain information that was included in our original Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2007 (the Second Quarter 2007 Form 10-Q) as described below. For convenience of the reader, this Amendment sets forth the entire Second Quarter 2007 Form 10-Q. However, this Amendment amends and restates Item 1 and Item 4 of Part I of the Second Quarter 2007 Form 10-Q. The other Items are not being amended. Except as described in this Explanatory Note, this Amendment does not modify or update the disclosures in our Second Quarter 2007 Form 10-Q. Therefore, this Amendment does not reflect any other events that occurred after the original August 9, 2007 filing date of the Second Quarter 2007 Form 10-Q. Forward-looking statements in this Amendment have also not been updated from the Second Quarter 2007 Form 10-Q that we filed on August 9, 2007. For updated information, please see the reports that we have filed with the SEC for subsequent periods. In addition, in connection with the filing of this Amendment and pursuant to Rules 12b-15 and 13a-14 under the Exchange Act, we are including with this Amendment currently dated certifications of our chief executive and financial officers.

Subsequent to the issuance of our condensed consolidated financial statements for the three and six months ended June 30, 2007, we identified errors in certain amounts in our consolidated balance sheet as of June 30, 2007 and December 31, 2006 related to the immaterial overstatement of certain leasehold and ownership interests in land, accrued property taxes and certain other items. See Note 16 to the condensed consolidated financial statements included in Item 1 for further detail.

INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

June 30, 2007

(Dollars in thousands, except per share amounts)

(1) Basis of Presentation

The accompanying interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting and include the accounts of International Coal Group, Inc. and its subsidiaries (the Company) and its controlled affiliates. Significant intercompany transactions, profits and balances have been eliminated in consolidation. The Company accounts for its undivided interest in oil and gas properties using the proportionate consolidation method, whereby its share of assets, liabilities, revenues and expenses are included in the appropriate classification in the financial statements.

The accompanying interim condensed consolidated financial statements as of June 30, 2007 and for the three and six months ended June 30, 2007 and 2006, and the notes thereto, are unaudited. However, in the opinion of management, these financial statements reflect all normal, recurring adjustments necessary for a fair presentation of the results of the periods presented. The balance sheet information as of December 31, 2006 has been derived from the Company's audited consolidated balance sheet. These statements should be read in conjunction with the Company's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2006. The results of operations for the three and six months ended June 30, 2007 are not necessarily indicative of the results to be expected for future quarters or for the year ending December 31, 2007.

(2) Summary of Significant Accounting Policies and General

Fair Value Measurements In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 clarifies the definition of fair value, establishes a framework for measuring fair value and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the effect, if any, that the adoption of SFAS No. 157 will have on its financial position, results of operations and cash flows.

Fair Value Option In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 provides entities with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. The Company is currently evaluating the effect, if any, that the adoption of SFAS No. 159 will have on its financial position, results of operations and cash flows.

Income Taxes Effective January 1, 2007, the Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 increases the relevancy and comparability of financial reporting by clarifying the way companies account for uncertainty related to income taxes. As a result of the adoption of FIN 48, the Company recognized a \$109 increase in the liability for unrecognized income tax benefits and \$3 in accrued interest, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings. As of the date of adoption, the total amount of unrecognized income tax benefits was \$137. Included in the balance at January 1, 2007, are \$109 of unrecognized income tax benefits that, if recognized, would affect the annual effective income tax rate. There have been no material changes in the unrecognized tax benefits during the period since the date of the FIN 48 adoption. The change in the unrecognized tax benefit within the next 12 months is not expected to be material to the financial statements.

The Company files income tax returns in the U.S. and various states. With few exceptions, the Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2003. The Company is not currently under examination by the Internal Revenue Service, state or local tax authorities related to income taxes.

The Company recognizes interest expense and penalties related to unrecognized tax benefits as interest expense and other expense, respectively, in its consolidated statement of operations.

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

Reclassifications Ash disposal income and royalty income, as well as certain other revenues earned by the Company in activities that are incidental to operations, but were not expected to be on-going revenue streams, were previously included in other income (expense) in the consolidated statements of operations and related disclosures in previously issued financial statements. Such revenue streams have increased and will most likely remain in the future. As a result, the Company believes inclusion of such revenues in other operating revenue provides a more accurate accounting of total revenue earned from operations. Revenues of \$1,823 and \$3,138 have been reclassified as other operating revenues in the accompanying financial statements for the three and six months ended June 30, 2006, respectively. Related disclosures have been reclassified to conform to the 2007 presentation.

Cost of other revenues totaling \$6,828 and \$12,869 for the three and six months ended June 30, 2006, respectively, which were included in cost of coal sales and other revenues in previously issued financial statements have been presented in a separate line item in the accompanying financial statements. Related disclosures have been reclassified to conform to the 2007 presentation.

Table of Contents**INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****June 30, 2007****(Dollars in thousands, except per share amounts)****(3) Inventories**

Inventories consisted of the following:

	June 30, 2007	December 31, 2006
Coal	\$ 34,619	\$ 23,736
Parts and supplies	19,517	17,427
Reserve for obsolescence parts and supplies	(596)	(576)
 Total	 \$ 53,540	 \$ 40,587

(4) Property, Plant, Equipment and Mine Development

Property, plant, equipment and mine development are summarized by major classification as follows:

	June 30, 2007	December 31, 2006
Coal lands	\$ 603,339	\$ 598,843
Mining and other equipment and related facilities	364,767	324,362
Mine development and contract costs	74,522	59,115
Construction work in process	64,794	37,012
Land and land improvements	19,350	16,285
Coalbed methane well development costs	15,442	6,280
Mine development in process	6,873	12,274
	1,149,087	1,054,171
Less accumulated depreciation, depletion and amortization	(181,434)	(134,077)
 Net property, plant, equipment and mine development	 \$ 967,653	 \$ 920,094

Depreciation, depletion and amortization expense related to property, plant, equipment and mine development for the three and six months ended June 30, 2007 was \$26,178 and \$53,262, respectively. Depreciation, depletion and amortization expense related to property, plant, equipment and mine development for the three and six months ended June 30, 2006 was \$19,690, and \$37,867, respectively.

Table of Contents**INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****June 30, 2007****(Dollars in thousands, except per share amounts)****(5) Goodwill**

Adjustments to goodwill for the six months ended June 30, 2007 are as follows:

Balance at December 31, 2006	\$ 196,757
Bonding royalty	1,908
Balance at June 30, 2007	\$ 198,665

Bonding royalty represents payments made on the gross sales receipts for coal mined and sold by the former Horizon Natural Resources companies that the Company acquired.

(6) Long-term Debt and Capital Leases

Long-term debt and capital leases consisted of the following:

	June 30, 2007	December 31, 2006
10.25% Senior notes, due 2014	\$ 175,000	\$ 175,000
Credit facility	65,000	
Equipment notes	13,633	4,619
Capital leases	158	416
Total	253,791	180,035
Less current portion	4,098	1,749
Long-term debt	\$ 249,693	\$ 178,286

Credit Facility On June 23, 2006, the Company entered into a second amended and restated credit agreement (the Amended Credit Facility) consisting of a revolving credit facility of \$325,000, of which up to a maximum of \$125,000 may be used for letters of credit, and matures on June 23, 2011. As of June 30, 2007, the Company had borrowings and letters of credit totaling \$65,000 and \$66,201, respectively, outstanding, leaving \$193,799 available for future borrowing capacity. Interest on the borrowings under the Amended Credit Facility is payable, at the Company's option, at either the base rate plus an applicable margin based on the Company's leverage ratio of 1.25% to 2.00% as of June 30, 2007 or LIBOR plus an applicable margin based on the Company's leverage ratio of 2.25% to 3.00% as of June 30, 2007. The weighted-average interest rate applicable to the debt outstanding under the Amended Credit Facility was 8.11% as of June 30, 2007. As of June 30, 2007, the Company was in compliance with its covenants under the Amended Credit Facility. In July 2007, the Company further amended the Amended Credit Facility and repaid the \$65,000 outstanding as of June 30, 2007 in conjunction with the completion of a private offering of \$195,000 of convertible senior notes. The amendment, among other things, modified the maximum permitted leverage ratio, the minimum interest coverage ratio and the maximum amount of capital expenditures permitted. Further, the Amendment also revised certain interest rate thresholds and unused commitment fee levels under the Amended Credit Facility. See Note 15.

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

Equipment Notes The equipment notes have maturity dates extending to October 2011 and are collateralized by mining equipment. At June 30, 2007 the equipment notes accrued interest at fixed rates that range from 2.31% to 7.25%.

Table of Contents**INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****June 30, 2007****(Dollars in thousands, except per share amounts)****(7) Income Taxes**

The effective income tax rate for the three and six months ended June 30, 2007 was calculated using an estimated annual effective rate based on projected earnings for the year. The effective income tax rate for the three months ended June 30, 2007 increased to 38% from 37% for the three months ended June 30, 2006, primarily as the result of the effect of income tax deductions for depletion of mineral rights on projected earnings. The effective income tax rate for the six months ended June 30, 2007 increased to 40% from 27% for the six months ended June 30, 2006, primarily as the result of the effect of income tax deductions for depletion of mineral rights on projected earnings.

(8) Employee Benefits

The following table details the components of the net periodic benefit cost for postretirement benefits other than pensions for the three and six months ended June 30, 2007 and 2006.

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Net periodic benefit cost:				
Service cost	\$ 514	\$ 324	\$ 1,028	\$ 648
Interest cost	262	167	526	334
Amortization of net loss	71	14	142	28
Benefit cost	\$ 847	\$ 505	\$ 1,696	\$ 1,010

The plan is unfunded, therefore, no contributions were made by the Company for the three and six months ended June 30, 2007 and 2006.

(9) Earnings Per Share

Basic earnings per share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period, excluding restricted common stock subject to continuing vesting requirements. Diluted earnings per share is calculated based on the weighted-average number of common shares outstanding during the period and, when dilutive, potential common shares from the exercise of stock options and restricted common stock subject to continuing vesting requirements, pursuant to the treasury stock method.

Reconciliations of weighted-average shares outstanding used to compute basic and diluted earnings per share for the three and six months ended June 30, 2007 and 2006 are as follows:

	Three months ended		Six months ended	
	June 30,		June 30,	
	2007	2006	2007	2006
Net loss	\$ (10,234)	\$ (601)	\$ (18,302)	\$ (6,790)

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

June 30, 2007

(Dollars in thousands, except per share amounts)

Options to purchase 1,792,832 shares of common stock and 486,920 shares of restricted common stock outstanding at June 30, 2007 have been excluded from the computation of diluted net loss per share for the three and six months ended June 30, 2007 because their effect was anti-dilutive. Options to purchase 1,220,412 shares of common stock and 588,180 shares of restricted common stock outstanding at June 30, 2006 have been excluded from the computation of diluted net loss per share for the three and six months ended June 30, 2006 because their effect was anti-dilutive.

On July 2, 2007, the Company granted stock options and restricted stock awards to certain employees under its 2005 Equity and Performance Incentive Plan. Stock options were granted to purchase 264,580 shares of common stock at an exercise price of \$6.00 per share with an aggregate fair value of \$709. Restricted stock awards of 98,520 were granted with an aggregate fair value of \$591. The stock option and restricted stock awards vest in equal annual installments of 25% over a four-year period.

In July 2007, the Company completed an offering of \$195,000 aggregate principal amount of 9.00% convertible senior notes due 2012 to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. See Note 15.

(10) Sale-leaseback of Coal Lands

On June 29, 2006, the Company sold coal lands to an unrelated third party for \$5,500. The Company subsequently leased back all of the coal lands from the buyer. The estimated gain on the sale-leaseback transaction of \$1,500 was deferred and is being amortized over the term of the lease as tons are mined.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

June 30, 2007

(Dollars in thousands, except per share amounts)

(11) Commitments and Contingencies

Guarantees and Financial Instruments with Off-balance Sheet Risk In the normal course of business, the Company is a party to certain guarantees and financial instruments with off-balance sheet risk, such as bank letters of credit and performance or surety bonds. No liabilities related to these arrangements are reflected in the Company's condensed consolidated balance sheets. Management does not expect any material losses to result from these guarantees or off-balance sheet financial instruments. The Company has outstanding surety bonds with third parties of approximately \$105,405 as of June 30, 2007 to secure reclamation and other performance commitments. As of June 30, 2007, the Company has bank letters of credit outstanding of \$66,201 under its revolving credit facility.

Legal Matters On November 18, 2005, ICG, LLC, the Company's wholly-owned subsidiary, filed a complaint in the United States District Court for the Eastern District of Kentucky, Ashland Division, against Massey Coal Sales Company, Inc. (Massey Coal Sales), seeking damages for breach of a coal supply agreement under which Massey Coal Sales supplies coal to ICG, LLC for resale to a customer of ICG, LLC. ICG, LLC asserted various claims related to Massey Coal Sales' failure to ship significant tonnages required to be shipped under the contract and the failure of numerous shipments to meet quality specifications set forth in the contract. On August 14, 2006, Massey Coal Sales asserted various counterclaims against ICG, LLC in the Federal Court litigation claiming that ICG, LLC failed to provide rail cars, that the contract should have been terminated and, as a result, ICG, LLC was unjustly enriched. Massey Coal Sales claimed damages in excess of \$50,000. ICG, LLC denied any liability under the counterclaim. On June 1, 2006, ICG, LLC filed a complaint in Pike County, Kentucky, against Massey Energy Company and various of its affiliates seeking compensatory and punitive damages claiming that the defendants tortiously interfered with ICG, LLC's contract and relationship with its customer. On July 5, 2007, ICG, LLC and Massey Coal Sales entered into a Mutual Release and Settlement Agreement settling all claims among the parties in both the federal court action and the state court action, with no payments due to be paid by the Company.

On April 5, 2007 a class action lawsuit was filed in the U.S. District Court in the Southern District of West Virginia against the Company and certain of its officers and directors. The complaint alleges that the Company's registration statements filed in connection with its initial public offering contained false and misleading statements, and that investors relied upon those securities filings and suffered damages as a result. The Company has not yet responded to the complaint.

From time-to-time, the Company is involved in legal proceedings arising in the ordinary course of business. In the opinion of management, the Company has recorded adequate reserves for these liabilities and there is no individual case or group of related cases pending that is likely to have a material adverse effect on the financial condition, results of operations or cash flows of the Company.

(12) Related Party Transactions and Balances

Under an Advisory Services Agreement dated as of October 1, 2004 between the Company and WL Ross & Co. LLC (WLR), WLR has agreed to provide advisory services to the Company (consisting of consulting and advisory services in connection with strategic and financial planning, investment management and administration and other matters relating to the business and operation of the Company of a type customarily provided by sponsors of U.S. private equity firms to companies in which they have substantial investments, including any consulting or advisory services which the Board of Directors reasonably requests). WLR is paid a quarterly fee of \$500 and reimbursed for any reasonable out-of-pocket expenses (including expenses of third-party advisors retained by WLR). The agreement is for a period of seven years; however, it may be terminated upon the occurrence of certain events.

The Company has paid legal fees relating to the representation of WLR and the Company's Chairman, Mr. Wilbur L. Ross, Jr., by counsel in connection with various litigation matters pending against the Company, WLR and Mr. Ross related to the Sago mine accident. During the three and six months ended June 30, 2007, the Company recorded expenses totaling approximately \$149 and \$334, respectively, relating to these matters.

On July 16, 2007, the Company and its subsidiaries entered into a \$25,000 bridge loan facility with a certain fund affiliated with WLR. The Company and its subsidiaries were jointly and severally liable for the loan, which was repaid on July 31, 2007. See Note 15.

(13) Segment Information

The Company extracts, processes and markets steam and metallurgical coal from deep and surface mines for sale to electric utilities and industrial customers, primarily in the eastern United States. The Company operates only in the United States with mines in the Central Appalachian, Northern Appalachian and Illinois Basin regions. The Company has three reportable business segments: Central Appalachian, Northern Appalachian and Illinois Basin. The Company's Central Appalachian operations are located in southern West Virginia and eastern Kentucky and include seven underground mines and nine surface mines. The Company's Northern Appalachian operations are located in northern West Virginia and Maryland and include four underground mines and five surface mines. The Company's Illinois Basin operations include one underground mine. The Company also has an Ancillary category, which includes the Company's brokered coal functions, corporate overhead, contract highwall mining services and land activities.

Table of Contents**INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****June 30, 2007****(Dollars in thousands, except per share amounts)**

Reportable segment results for continuing operations for the three and six months ended June 30, 2007 and 2006 and segment assets as of June 30, 2007 and 2006 were as follows:

Three months ended June 30, 2007:

	Central Appalachian	Northern Appalachian	Illinois Basin	Ancillary	Consolidated
Revenue	\$ 129,847	\$ 30,532	\$ 16,978	\$ 30,693	\$ 208,050
Adjusted EBITDA	16,539	(5,293)	3,799	(3,791)	11,254
Depreciation, depletion and amortization	15,245	2,634	1,516	2,399	21,794
Capital expenditures	39,588	8,275	(37)	1,905	49,731
Total assets	797,743	161,361	44,063	368,003	1,371,170
Goodwill	168,725			29,940	198,665

Three months ended June 30, 2006:

	Central Appalachian	Northern Appalachian	Illinois Basin	Ancillary	Consolidated
Revenue	\$ 138,986	\$ 34,931	\$ 10,707	\$ 40,519	\$ 225,143
Adjusted EBITDA	28,714	(6,211)	(1,289)	(926)	20,288
Depreciation, depletion and amortization	10,722	3,470	1,430	974	16,596

Goodwill	165,624			182,004	347,628

Revenue in the Ancillary category consists primarily of \$52,156 and \$81,361 relating to the Company's brokered coal sales and \$9,271 and \$7,964 relating to contract highwall mining activities for the six months ended June 30, 2007 and 2006, respectively. Capital expenditures include non-cash amounts of \$21,796 and \$23,409 for the six months ended June 30, 2007 and 2006, respectively.

Table of Contents**INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****June 30, 2007****(Dollars in thousands, except per share amounts)**

Adjusted EBITDA represents net income or loss, before deducting net interest expense, income taxes, depreciation, depletion and amortization and minority interest. Adjusted EBITDA is presented because it is an important supplemental measure of the Company's performance used by the Company's chief operating decision maker.

Reconciliation of net loss to Adjusted EBITDA for the three and six months ended June 30, 2007 and 2006 is as follows:

	Three months ended June 30,		Six months ended June 30,	
	2007	2006	2007	2006
Net loss	\$ (10,234)	\$ (601)	\$ (18,302)	\$ (6,790)
Depreciation, depletion and amortization	21,794	16,596	42,970	33,692
Interest expense, net	5,870	4,328	12,201	6,383
Income tax benefit	(6,162)	(234)	(12,317)	(2,509)
Minority interest	(14)	199	(375)	87
Adjusted EBITDA	\$ 11,254	\$ 20,288	\$ 24,177	\$ 30,863

(14) Supplementary Guarantor Information

The Company issued \$175,000 of Senior Notes due 2014 (the "Notes") in June 2006. In connection with the Company's exchange of the Notes for an equal principal amount of notes registered under the Securities Act of 1933, the following consolidating financial information presents, in separate columns, financial information for (i) the Company (on a parent only basis) with its investment in its subsidiaries recorded under the equity method, (ii) the subsidiaries of the Company that guarantee the Notes on a combined basis, (iii) the subsidiaries and joint ventures of the Company that do not guarantee the Notes on a combined basis, (iv) the eliminations and reclassifications necessary to arrive at the information for the Company and its subsidiaries on a consolidated basis and (v) the Company on a consolidated basis as of June 30, 2007 and December 31, 2006 and for the three and six months ended June 30, 2007 and 2006. The Notes are fully and unconditionally guaranteed on a joint and several basis by the Company and each of its current and future domestic restricted subsidiaries which are 100% owned, directly or indirectly, by the Company within the meaning of Rule 3-10 of Regulation S-X (the "Subsidiary Guarantors"). The composition of Subsidiary Guarantors may change from time-to-time due to acquisitions or disposals. The Notes are not guaranteed by the Company's joint venture, The Sycamore Group LLC. The Notes place certain restrictions on the payment of dividends, other payments or distributions by the Company and between the Subsidiary Guarantors. The Company has not presented separate financial information for each of the Subsidiary Guarantors because the Company's management believes that such financial information would not provide investors with any additional information that would be material in evaluating the sufficiency of the guarantees.

In its previously issued Form 10-Q for the quarterly period ended June 30, 2006, the Company incorrectly presented its consolidating financial statement schedules contained in the supplementary guarantor information as of and for the three and six months ended June 30, 2006 using the cost method of accounting for its investments in subsidiaries rather than the equity method. The presentation of the supplementary guarantor information for the three and six months ended June 30, 2006 included herein has been restated to reflect the accounting for all investments in subsidiaries using the equity method of accounting. Net loss of the subsidiaries is therefore reflected in the parent's investment accounts. The net income (loss) of the parent as originally reported was \$(188) and \$2,087 for the three and six months ended June 30, 2006, respectively. The restated net (loss) of the parent after the correction was \$(601) and \$(6,790) for the three and six months ended June 30, 2006, respectively. The statement of cash flows of the parent as originally reported was restated to reflect investments in its subsidiaries of \$171,093 for the six months ended June 30, 2006. Eliminations shown in the consolidating financial statement schedules represent adjustments for the parent's investments in subsidiaries and intercompany balances and transactions. A portion of the eliminations shown in previously issued financial statements have

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

been reclassified into the guarantor subsidiaries column for accurate presentation under the equity method of accounting. The changes in presentation did not affect the Company's consolidated financial position, consolidated results of operations or consolidated cash flows.

Table of Contents**INTERNATIONAL COAL GROUP, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****June 30, 2007****(Dollars in thousands, except per share amounts)****(15) Subsequent Events**

On July 16, 2007, the Company and its subsidiaries entered into a \$25,000 bridge loan facility with a certain fund affiliated with WLR. The Company and its subsidiaries were jointly and severally liable for the loan, which was repaid on July 31, 2007.

On July 31, 2007, the Company completed a private offering (the Offering) of \$195,000 aggregate principal amount of 9.00% Convertible Senior Notes due 2012 (the Convertible Notes) to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. The Company granted the initial purchaser a 30-day over-allotment option of up to an additional \$30,000. The Convertible Notes are the Company's senior unsecured obligations and are guaranteed on a senior unsecured basis by the Company's material future and current domestic subsidiaries (the Guarantors). The Convertible Notes and the related guarantees rank equal in right of payment to all of the Company's and the Guarantors' respective existing and future unsecured senior indebtedness. Interest is payable semi-annually on February 1 and August 1. The Company received proceeds of \$189,150, after deducting the initial purchaser's discounts and commissions of \$5,850. The Company used the net proceeds to repay the \$25,000 bridge loan due to WLR and the \$65,000 outstanding on its Amended Credit Facility. The remaining \$99,150 will be used for general corporate purposes and other expenses related to the Offering estimated to be \$1,150. The principal amount of the Convertible Notes is payable in cash and amounts above the principal amount, if any, will be convertible into shares of the Company's common stock or, at the Company's option, cash. The Convertible Notes are convertible (1) under certain circumstances, which are tied to the price of the Company's common stock, after September 30, 2007 and prior to February 1, 2012; (2) if the Company engages in certain corporate transactions; or (3) anytime from, and including, February 1, 2012 until the business day immediately preceding August 1, 2012.

Concurrent with the closing of the Offering, the Company amended certain covenants to allow for additional flexibility under its financial covenants which include: a maximum leverage ratio, a minimum interest coverage ratio and maximum capital expenditures and to allow for the Offering. The amendment to the Company's senior credit facility also reduced the Company's total senior credit facility commitments by the same amount of the gross proceeds from the Offering to \$130,000. If the initial purchaser exercises its right to purchase an additional \$30,000 aggregate principal amount of Convertible Notes to cover any over-allotments, the commitments under the Company's senior credit facility will be reduced on a commensurate basis. The initial purchaser's offer to purchase the additional Convertible Notes expires 30 days after the closing of the Offering.

On June 2, 2007, the West Virginia Department of Environmental Protection issued a permit for the Tygart No. 1 underground mine and preparation plant complex. On July 3, 2007, an environmentalist group filed an appeal of the permit with the West Virginia Surface Mining Board. The Company will vigorously defend this appeal.

(16) Restatement of Previously Issued Financial Statements

Subsequent to the issuance of its condensed consolidated financial statements for the three and six months ended June 30, 2007, the Company identified errors in certain amounts in its consolidated balance sheet as of June 30, 2007 related to certain leasehold and ownership interests in land, accrued property taxes and certain other items. Related disclosures have also been corrected to reflect the adjustments to the condensed consolidated balance sheet. In addition, June 30, 2006 balance sheet information within Note 13 has been corrected to reflect the adjustments.

The effects of the restatement on the condensed consolidated balance sheet as of June 30, 2007 are as follows:

	As Originally Filed	Restatement Adjustments	As Restated
Condensed Consolidated Balance Sheet at June 30, 2007			
Deferred income taxes	14,030	(2,543)	11,487
Prepaid expenses and other	8,584	(18)	8,566

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

Total current assets	173,698	(2,561)	171,137
Property, plant, equipment and mine development, net	976,411	(8,758)	967,653
Advance royalties, net	15,380	(85)	15,295
Goodwill	194,130	4,535	198,665
Total assets	1,378,039	(6,869)	1,371,170
Accounts payable	71,593	430	72,023
Accrued expenses and other	65,104	(6,774)	58,330
Total current liabilities	153,719	(6,344)	147,375
Deferred income taxes	131,695	(1,094)	130,601
Total liabilities	735,165	(7,438)	727,727
Retained earnings	7,748	569	8,317
Total stockholders' equity	642,153	569	642,722
Total liabilities and stockholders' equity	1,378,039	(6,869)	1,371,170

Additionally, the Company had reported in its supplemental disclosure of non-cash items purchases of property, plant, equipment and mine development through accounts payable totaling \$13,397. As a result of the errors noted above, the amount has been restated to \$11,517.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Cautionary Note Regarding Forward-Looking Statements**

This Quarterly Report on Form 10-Q/A contains forward-looking statements that are not statements of historical fact and may involve a number of risks and uncertainties. We have used the words anticipate, believe, could, estimate, expect, intend, may, plan, predict, project, and other similar terms and phrases, including references to assumptions, in this report to identify forward-looking statements. These forward-looking statements are made based on expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed in or implied by these forward-looking statements. The following factors are among those that may cause actual results to differ materially from our forward-looking statements:

market demand for coal, electricity and steel;

availability of qualified workers;

future economic or capital market conditions;

weather conditions or catastrophic weather-related damage;

our production capabilities;

the consummation of financing, acquisition or disposition transactions and the effect thereof on our business;

our plans and objectives for future operations and expansion or consolidation;

our relationships with, and other conditions affecting, our customers;

the availability and costs of key supplies or commodities such as diesel fuel, steel, explosives and tires;

prices of fuels which compete with or impact coal usage, such as oil and natural gas;

timing of reductions or increases in customer coal inventories;

long-term coal supply arrangements;

risks in coal mining;

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

unexpected maintenance and equipment failure;

environmental, safety and other laws and regulations, including those directly affecting our coal mining and production, and those affecting our customers' coal usage;

competition;

railroad, barge, trucking and other transportation availability, performance and costs;

employee benefits costs and labor relations issues;

replacement of our reserves;

our assumptions concerning economically recoverable coal reserve estimates;

availability and costs of credit, surety bonds and letters of credit;

title defects or loss of leasehold interests in our properties which could result in unanticipated costs or inability to mine these properties;

future legislation and changes in regulations or governmental policies or changes in interpretations thereof, including with respect to safety enhancements;

the impairment of the value of our goodwill;

the on-going effects of the Sago mine explosion;

our liquidity, results of operations and financial condition;

the adequacy and sufficiency of our internal controls; and

legal and administrative proceedings, settlements, investigations and claims.

You should keep in mind that any forward-looking statement made by us in this Quarterly Report on Form 10-Q/A speaks only as of the date on which we make it. New risks and uncertainties arise from time-to-time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the forward-looking statements in this report after the date of this report, except as may be required by law. In light of these risks and uncertainties, you should keep in mind that any forward-looking statement made in this report might not occur. When considering these forward-looking statements, you should keep in mind the cautionary statements in this document and in our other SEC filings, including the more detailed discussion of these factors, as well as other factors that could affect our results, contained in Item 3, "Quantitative and Qualitative Disclosures About Market Risk," as well as in the "Risks Relating to Our Business" section of Item 1A of our 2006 Annual Report on Form 10-K/A.

Table of Contents**RESULTS OF CONTINUING OPERATIONS****Three months ended June 30, 2007 compared to the three months ended June 30, 2006**

Revenues The following table depicts revenues for the three months ended June 30, 2007 and 2006 for the indicated categories:

	Three months ended		Increase	
	June 30, 2007	June 30, 2006	(Decrease) \$ or Tons	%
(in thousands, except percentages and per ton data)				
Coal sales revenues	\$ 188,033	\$ 212,164	\$ (24,131)	(11)%
Freight and handling revenues	4,571	4,596	(25)	(1)%
Other revenues	15,446	8,383	7,063	84 %
Total revenues	\$ 208,050	\$ 225,143	\$ (17,093)	(8)%
Tons sold	4,445	4,866	(421)	(9)%
Coal sales revenue per ton	\$ 42.30	\$ 43.60	\$ (1.30)	(3)%

Coal sales revenues Coal sales revenues decreased \$24.1 million for the three months ended June 30, 2007, or 11%, compared to the same period in 2006. This decrease was primarily due to a 9% decrease in tons sold in the second quarter of 2007 compared to the same period in 2006 resulting from the delayed ramp-up of our new mine production, geologic issues at several other mines and constricted rail service that delayed June 2007 shipments, as well as the expiration of brokered coal contracts. Further impacting the decrease in coal sales revenue was a \$1.30 per ton reduction in sales realization primarily related to coal supply agreements.

Freight and handling revenues Freight and handling revenues remained constant for the three months ended June 30, 2007 compared to the same period in 2006.

Other revenues Other revenues increased \$7.1 million for the three months ended June 30, 2007 compared to the same period in 2006. The increase was due to increased revenue of \$7.2 million from the sale of a narrow bench highwall mining system by ICG ADDCAR, as well as \$1.1 million of revenue generated from newly developed coalbed methane wells owned jointly by our subsidiary, CoalQuest, and CDX Gas, LLC (CDX). The increases were partially offset by lower plant processing revenue of \$0.5 million and a decrease of \$0.8 million representing a negotiated cash payment to us relating to a customer's tax credit.

Cost and expenses The following table reflects cost of operations for the three months ended June 30, 2007 and 2006:

	Three months ended		Increase	
	June 30, 2007	June 30, 2006	(Decrease) \$	%
(in thousands, except percentages and per ton data)				
Cost of coal sales	\$ 175,282	\$ 186,315	\$ (11,033)	(6)%
Freight and handling costs	4,571	4,596	(25)	(1)%
Cost of other revenues	11,351	6,828	4,523	66 %
Depreciation, depletion and amortization	21,794	16,596	5,198	31 %
Selling, general and administrative expenses	8,214	7,971	243	3 %
Gain on sale of assets	(2,312)	(158)	(2,154)	1363 %
Total costs and expenses	\$ 218,900	\$ 222,148	\$ (3,248)	(1)%

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

Cost of coal sales per ton sold	\$ 39.43	\$ 38.29	\$ 1.14	3 %
---------------------------------	----------	----------	---------	-----

Table of Contents

Cost of coal sales For the three months ended June 30, 2007, our cost of coal sales decreased \$11.0 million, or 6%, to \$175.3 million compared to \$186.3 million for the three months ended June 30, 2006. The decrease in cost of coal sales was primarily the result of a 9% decrease in sales tons as described above which was partially offset by 3% increase in cost per ton.

Mining operations that significantly increased or reached full production subsequent to June 30, 2006 at our East Mac and Nellie, Flint Ridge, Raven, Crown, Imperial, Sentinel and Jackson Mountain mines increased cost of coal sales by \$24.4 million. Increased costs from new mining operations were partially offset by a decrease in costs of \$24.2 million resulting from the closure or cutback of production at our higher cost Flint Ridge Surface, Rowdy Gap, Flint Ridge Highwall, Crown East II, Sycamore No. 1, Sycamore No. 2 and Island mines. Cost of coal sales at existing mines decreased \$11.2 million, primarily as a result of a 0.4 million ton decrease in coal sales.

Cost of coal sales per ton increased to \$39.43 for the three months ended June 30, 2007 compared to \$38.29 in the same period in 2006. The increase was caused primarily by a \$1.4 million increase in labor costs, increased costs for steel supplies related to certain geological issues of \$1.3 million and a \$2.2 million charge related to the shut in of our Flint Ridge surface mine. In addition, cost per ton increased due to decreased productivity at existing mines, higher costs per ton at new mines which are not yet running at their full annual production rate and costs arising from new state and federal mine regulations. These increases were partially offset by decreases which consisted of reductions of \$6.0 million in purchased coal resulting from the expiration of brokered coal contracts, \$2.1 million of vehicle and equipment lease and rental expense and \$7.3 million caused by increased coal stockpile inventories, as well as decreases related to the closure of certain higher cost mines.

Freight and handling costs Freight and handling costs remained constant for the three months ended June 30, 2007 compared to the same period in 2006.

Cost of other revenues For the three months ended June 30, 2007, cost of other revenues increased \$4.5 million, or 66%, to \$11.3 million compared to \$6.8 million for the three months ended June 30, 2006. The increase was primarily due to costs related to ICG ADDCAR resulting from the sale of a narrow bench highwall mining system during the quarter.

Depreciation, depletion and amortization Depreciation, depletion and amortization expense increased \$5.2 million, or 31%, to \$21.8 million for the three months ended June 30, 2007 compared to \$16.6 million in the same period in 2006. The principal component of the increase was an increase in depreciation and amortization expense of \$5.0 million for the three months ended June 30, 2007 related to increased property and equipment purchased to improve efficiency at existing operations and to equip new mine developments. Depreciation of coalbed methane well development costs resulted in an additional increase of \$1.4 million. The increases were partially offset by an increase in amortization income on below-market coal supply agreements of \$1.3 million during the three months ended June 30, 2007.

Selling, general and administrative expenses Selling, general and administrative expenses for three months ended June 30, 2007 were \$8.2 million compared to \$8.0 million for the same period in 2006. The increase was primarily due to increases in legal and professional fees of \$0.8 million and bad debt expense of \$0.5 million. The increases were offset by a decrease of \$1.1 million in compensation expense, primarily attributable to equity awards.

Gain on sale of assets Gain on sale of assets increased \$2.2 million for the three months ended June 30, 2007 from the comparable period in 2006, primarily due to a sale of haul trucks from our ICG Eastern operation during the second quarter of 2007.

Table of Contents**Six months ended June 30, 2007 compared to the six months ended June 30, 2006**

Revenues The following table depicts revenues for the six months ended June 30, 2007 and 2006 for the indicated categories:

	Six months ended		Increase	
	June 30, 2007	June 30, 2006	(Decrease) \$ or Tons	%
(in thousands, except percentages and per ton data)				
Coal sales revenues	\$ 400,993	\$ 415,500	\$ (14,507)	(3)%
Freight and handling revenues	9,601	9,193	408	4 %
Other revenues	25,770	13,953	11,817	85 %
 Total revenues	 \$ 436,364	 \$ 438,646	 \$ (2,282)	 (1)%
 Tons sold	 9,426	 9,564	 (138)	 (1)%
Coal sales revenue per ton	\$ 42.54	\$ 43.44	\$ (0.90)	(2)%

Coal sales revenues Coal sales revenues decreased \$14.5 million for the six months ended June 30, 2007, or 3%, compared to the same period in 2006. This decrease was due to a 1% decrease in tons sold in 2007 compared to 2006 that resulted from a decrease of approximately 1.9 million tons sold related to the idling and closing of mines during the fourth quarter of 2006 and the expiration of certain brokered coal contracts, as well as the delayed ramp-up of our new mine production, geologic issues at several other mines and constricted rail service that delayed June 2007 shipments. The decrease in coal sales revenue from decreased sales tons was further impacted by a \$0.90 per ton reduction in sales realization primarily related to coal supply agreements. These decreases were partially offset by a 1.6 million ton increase from new mines that commenced full production subsequent to the second quarter of 2006.

Freight and handling revenues Freight and handling revenues increased \$0.4 million to \$9.6 million for the six months ended June 30, 2007 compared to the same period in 2006. The increase is due to an increase in shipments where we initially pay the freight and handling costs and are then reimbursed by the customer.

Other revenues Other revenues increased \$11.8 million for the six months ended June 30, 2007 compared to the same period in 2006. The increase was due to \$3.1 million of revenue generated from newly developed coalbed methane wells owned jointly by our subsidiary, CoalQuest, and CDX, as well as increased revenue of \$1.3 million from our highwall mining activities and \$7.2 million from the sale of a narrow bench highwall mining system by ICG ADDCAR. Additionally, we experienced an increase of \$0.6 million in ash disposal revenue and a decrease of \$0.4 million representing a negotiated cash payment to us relating to a customer's tax credit.

Cost and expenses The following table reflects cost of operations for the six months ended June 30, 2007 and 2006:

	Six months ended		Increase	
	June 30, 2007	June 30, 2006	(Decrease) \$	%
(in thousands, except percentages and per ton data)				
Cost of coal sales	\$ 369,431	\$ 369,474	\$ (43)	*
Freight and handling costs	9,601	9,193	408	4 %
Cost of other revenues	19,539	12,869	6,670	52 %
Depreciation, depletion and amortization	42,970	33,692	9,278	28 %
Selling, general and administrative expenses	16,842	17,964	(1,122)	(6)%

Cost of coal sales per ton sold	\$ 39.19	\$ 38.63	\$ 0.56	1 %

* Not meaningful.

Table of Contents

Cost of coal sales For the six months ended June 30, 2007, our total cost of coal sales remained constant compared to the six months ended June 30, 2006. Decreases in costs due to reduced coal sales were offset by higher production costs and additional costs related to the idling of higher cost mines.

Mining operations that significantly increased or reached full production subsequent to June 30, 2006 at our East Mac and Nellie, Flint Ridge, Raven, Crown, Imperial, Sentinel and Jackson Mountain mines increased cost of coal sales by \$62.9 million. Increased costs from new mining operations were partially offset by a decrease in costs of \$40.6 million resulting from the closure or cutback of production at our higher cost Flint Ridge Surface, Rowdy Gap, Flint Ridge Highwall, Crown East II, Sycamore No. 1, Sycamore No. 2 and Island mines. Cost of coal sales at existing mines decreased \$22.3 million, primarily as a result of a 0.1 million ton decrease in coal sales.

Cost of coal sales per ton increased to \$39.19 for the six months ended June 30, 2007 compared to \$38.63 for the same period in 2006. The increase was primarily caused by a \$4.5 million increase in labor costs, increased costs for steel supplies related to certain geological issues of \$2.6 million and a \$2.2 million reclamation charge related to the shut in of the Flint Ridge surface mine. In addition, cost per ton increased due to decreased productivity at existing mines and higher costs per ton at new mines which are not yet running at their full annual production rate and costs arising from new state and federal mine regulations. These increases were partially offset by decreases which consisted of \$9.8 million in purchased coal resulting from the expiration of brokered coal contracts, \$3.8 million of vehicle and equipment lease and rental expense and decreases related to the closure of certain higher cost mines.

Freight and handling costs Freight and handling costs increased \$0.4 million to \$9.6 million for the six months ended June 30, 2007 compared to the same period in 2006. The increase was due to an increase in shipments where we initially pay the freight and handling costs and are then reimbursed by the customer.

Cost of other revenues For the six months ended June 30, 2007, cost of other revenues increased \$6.6 million, or 52%, to \$19.5 million compared to \$12.9 million for the six months ended June 30, 2006. Of the increase, approximately \$4.7 million was due to costs related to ICG ADDCAR resulting from the sale of a narrow bench highwall mining system during the period, exploration and development of coalbed methane resulted in a \$0.4 million increase and \$0.3 million was attributable to increased costs of coal processing, as well as increases in labor, repairs and maintenance, chemicals, lease, property tax and equipment relocation expenses.

Depreciation, depletion and amortization Depreciation, depletion and amortization expense increased \$9.3 million, or 28%, to \$43.0 million for the six months ended June 30, 2007 compared to \$33.7 million in the same period in 2006. The principal component of the increase was an increase in depreciation and amortization expense of \$12.4 million for the six months ended June 30, 2007 related to increased property and equipment purchased to improve efficiency at existing operations and to equip new mine developments. Depreciation of coalbed methane well development costs resulted in an additional increase of \$3.0 million. The increases were partially offset by an increase in amortization income on below-market coal supply agreements of \$6.1 million during the six months ended June 30, 2007.

Selling, general and administrative expenses Selling, general and administrative expenses for the six months ended June 30, 2007 were \$16.8 million compared to \$18.0 million for the same period in 2006. The decrease of \$1.2 million was primarily attributable to gifts aggregating \$2.0 million made in 2006 to the families of the thirteen miners involved in the Sago mine accident, partially offset by an increase of \$0.4 million in attorney fees and a \$0.5 million increase in bad debt expense.

Gain on sale of assets Gain on sale of assets increased \$1.4 million for the six months ended June 30, 2007 from the comparable period in 2006, primarily due to a sale of haul trucks from our ICG Eastern operation during the second quarter of 2007.

Table of Contents

Liquidity and Capital Resources

Our business is capital intensive and requires substantial capital expenditures for, among other things, purchasing, upgrading and maintaining equipment used in developing and mining our coal lands, as well as remaining in compliance with environmental laws and regulations. Our principal liquidity requirements are to finance our coal production, fund capital expenditures and service our debt and reclamation obligations. We may also engage in acquisitions from time-to-time. Our primary sources of liquidity to meet these needs are cash flows from sales of our coal, other income, borrowings under our senior credit facility, the proceeds of our convertible notes offering and capital equipment financing arrangements.

As of June 30, 2007, our total cash was \$16.5 million, we had \$65.0 million drawn and we had \$66.2 million of letters of credit issued under our \$325.0 million senior credit facility. However, weak performance in the first half of the year led management to believe that we would not be able to meet the financial covenants in our senior credit facility at future required certification dates. As a result, we did not expect to have access to the availability under our senior credit facility.

Accordingly, management proactively sought additional sources of liquidity to provide financial flexibility and to avoid constraining our capital growth program for the Beckley, Sentinel and Tygart Valley projects. On July 16, 2007, we and our subsidiaries entered into a \$25.0 million bridge loan facility with a certain fund affiliated with WL Ross & Co. LLC (WLR). We and our subsidiaries were jointly and severally liable for the loan, which was repaid on July 31, 2007.

On July 31, 2007, we completed a private offering (the Offering) of \$195.0 million aggregate principal amount of 9.00% Convertible Senior Notes due 2012 (the Convertible Notes) to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933. We granted the initial purchaser a 30-day over-allotment option of up to an additional \$30.0 million. The Convertible Notes are our senior unsecured obligations and are guaranteed on a senior unsecured basis by our material future and current domestic subsidiaries (the Guarantors). The Convertible Notes and the related guarantees rank equal in right of payment to all of our and the Guarantors' perspective existing and future unsecured senior indebtedness. Interest is payable semi-annually on February 1 and August 1. We received proceeds of \$189.2 million, after deducting the initial purchaser's discounts and commissions of \$5.8 million. We used the net proceeds to repay the \$25.0 million bridge loan due to WLR and the \$65.0 million outstanding on our Amended Credit Facility. The remaining \$99.2 million will be used for general corporate purposes and other expenses related to the Offering estimated to be \$1.2 million. The principal amount of the Convertible Notes is payable in cash and amounts above the principal amount, if any, will be convertible into shares of our common stock or, at our option, cash. The Convertible Notes are convertible (1) under certain circumstances, which are tied to the price of our common stock, after September 30, 2007 and prior to February 1, 2012; (2) if we engage in certain corporate transactions; or (3) anytime from, and including, February 1, 2012 until the business day immediately preceding August 1, 2012.

Concurrent with the closing of the Offering, we amended certain covenants to allow for additional flexibility under our financial covenants which include: a maximum leverage ratio, a minimum interest coverage ratio and maximum capital expenditures and to allow for the Offering. The amendment to our senior credit facility also reduced our total senior credit facility commitments by the same amount of the gross proceeds from the Offering to \$130.0 million. If the initial purchaser exercises its right to purchase an additional \$30.0 million aggregate principal amount of Convertible Notes to cover any over-allotments, the commitments under our senior credit facility will be reduced on a commensurate basis. The initial purchaser's offer to purchase the additional Convertible Notes expires 30 days after the closing of the Offering.

We currently expect our total capital expenditures will be approximately \$177.0 million in 2007, primarily for investments in new equipment and for mining development operations. Cash paid for capital expenditures was approximately \$80.0 million for the six months ended June 30, 2007. We have funded these capital expenditures from our internal operations, proceeds from our senior notes offering in 2006, borrowing under our credit facility and our \$50.0 million equipment revolving credit facility with Caterpillar Financial Services Corporation. We believe that these sources of capital, as well as the proceeds from the Offering, will be sufficient to fund our anticipated capital expenditures under our current budget plan through 2008.

As a result of recent accidents in the mining industry, new legislation has been announced that will require additional capital expenditures to meet enhanced safety standards. For the six months ended June 30, 2007, we spent \$3.2 million to meet these standards and anticipate spending an additional \$3.8 million for the remainder of 2007.

Despite some market improvement, we continue to be affected by weakened demand for coal. The weakened demand forced production schedule cutbacks and increased handling costs. Consequently, certain operations at our Flint Ridge complex were unprofitable at current market prices. As a result, we sharply curtailed production at Flint Ridge's No. 1 surface mine. As part of the reconfiguration, we redeployed some of the surface equipment to lower-cost reserves at ICG Hazard's County Line surface mine.

Table of Contents**Cash Flows**

Net cash provided by operating activities was \$26.8 million for the six months ended June 30, 2007, an increase of \$8.0 million from the same period in 2006. This increase is attributable to an increase in net operating assets and liabilities of \$24.0 million offset by an increase in net loss of \$16.0 million after adjustment for non-cash charges.

For the six months ended June 30, 2007, net cash used in investing activities was \$76.7 million compared to \$79.3 million for the six months ended June 30, 2006. For the first six months of 2007, \$80.0 million of cash was used to support existing mining operations and for development of new mining complexes compared to \$85.3 million in the same period 2006. Investing activities for the first six months of 2007 also included cash paid of \$1.9 million representing contingency payments related to the Horizon acquisition as compared to \$2.9 million in 2006. Additionally, we collected proceeds from asset sales of \$4.7 million during the six months ended June 30, 2007 versus \$3.2 million during the comparable period of 2006.

Net cash provided by financing activities of \$47.7 million for the six months ended June 30, 2007 was primarily due to borrowings of \$65.0 million on our credit facility. An additional \$0.5 million was provided by short-term notes entered into during the period. These borrowings were offset by repayments on our short-term and long-term debt and capital leases of \$15.5 million and \$1.3 million, respectively. Also impacting financing activities for the three months ended June 30, 2007 was additional finance costs of \$1.0 million related to amending our credit facility.

Credit Facility and Long-term Debt Obligations

As of June 30, 2007 our total long-term indebtedness, including capital lease obligations, consisted of the following (in thousands):

	June 30, 2007
10.25% Senior notes, due 2014	\$ 175,000
Credit facility	65,000
Equipment notes	13,633
Capital leases	158
Total	253,791
Less current portion	4,098
Long-term debt and capital leases	\$ 249,693

Table of Contents

Other

As a regular part of our business, we review opportunities for, and engage in discussions and negotiations concerning, the acquisition of coal mining assets and interests in coal mining companies, and acquisitions of, or combinations with, coal mining companies. When we believe that these opportunities are consistent with our growth plans and our acquisition criteria, we will make bids or proposals and/or enter into letters of intent and other similar agreements, which may be binding or nonbinding, that are customarily subject to a variety of conditions and usually permit us to terminate the discussions and any related agreement if, among other things, we are not satisfied with the results of our due diligence investigation. Any acquisition opportunities we pursue could materially affect our liquidity and capital resources and may require us to incur indebtedness, seek equity capital or both. There can be no assurance that additional financing will be available on terms acceptable to us, or at all.

Additionally, we have other long-term liabilities, including, but not limited to, mine reclamation and mine closure costs, below-market coal supply agreements and black lung costs, and some of our subsidiaries have long-term liabilities relating to retiree health and other employee benefits.

Our ability to meet our long-term debt obligations will depend upon our future performance, which in turn, will depend upon general economic, financial and business conditions, along with competition, legislation and regulation factors that are largely beyond our control. Based upon our current operations, the historical results of our predecessors, as well as those of Anker and CoalQuest, we believe that cash flow from operations, together with other available sources of funds, including additional borrowings under our credit facility, will be adequate for at least the next 12 months for making required payments of principal and interest on our indebtedness and for funding anticipated capital expenditures and working capital requirements. However, we cannot assure you that our operating results, cash flow and capital resources will be sufficient for repayment of our debt obligations in the future.

Recent Accounting Pronouncements

Fair Value Measurements. In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 clarifies the definition of fair value, establishes a framework for measuring fair value and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the effect, if any, that the adoption of SFAS No. 157 will have on our financial position, results of operations and cash flows.

Fair Value Option. In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 provides entities with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective as of the beginning of the first fiscal year that begins after November 17, 2007. The Company is currently evaluating the effect, if any, that the adoption of SFAS No. 159 will have on its financial position, results of operations and cash flows.

Income Taxes. In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 increases the relevancy and comparability of financial reporting by clarifying the way companies account for uncertainty related to income taxes. FIN 48 is effective for fiscal years beginning after December 15, 2006. Adoption of FIN 48 resulted in a decrease of \$0.1 million in our retained earnings balance as of January 1, 2007.

Critical Accounting Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts. These estimates and assumptions are based on information available as of the date of the financial statements. Accounting measurements at interim dates inherently involve greater reliance on estimates than at year-end. The results of operations for the three and six month periods ended June 30, 2007 is not necessarily indicative of results that can be expected for the full year. Please refer to the section entitled Critical Accounting Policies and Estimates of Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K/A for the year ended December 31, 2006 for a discussion of our critical accounting policies and estimates.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest rate risk. In May 2006, we entered into an Interest Rate Collar Agreement, which became effective on March 31, 2007 and expires March 31, 2009, to hedge our interest risk on an initial \$100 million (increasing to \$200 million in March 2008) notional amount of revolving debt. The interest rate collar is designed as a cash flow hedge to offset the impact of changes in the LIBOR interest rate above 5.92% and below 4.80%. This agreement was entered into in conjunction with our renegotiated credit facility dated June 23, 2006. We recognize the change in the fair value of this agreement in the income statement in the period of change.

Market price risk. We are exposed to market price risk in the normal course of mining and selling coal. As of June 30, 2007, 93% of 2007 planned production is committed for sale, leaving approximately 7% uncommitted for sale. A hypothetical decrease of \$1.00 per ton in the market price for coal would reduce pre-tax income by approximately \$1.2 million for 2007.

Item 4. Controls and Procedures

We maintain a set of disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. Our disclosure controls and procedures are also designed to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), to allow timely decisions regarding required disclosure. Periodically, we review the design and effectiveness of our disclosure controls and controls over financial reporting to ensure they remain effective. If such reviews identify a need, we will make modifications to improve the design and effectiveness of our control structure.

Control systems, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that control objectives are met. Because of inherent limitations in all control systems, no evaluation of controls can provide assurance that all control issues and instances of fraud, if any, within a company will be detected. Additionally, controls can be circumvented by individuals, by collusion of two or more people, or by management override. Over time, controls can become inadequate because of changes in conditions or the degree of compliance may deteriorate. Further, the design of any system of controls is based in part upon assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goals under all future conditions. Because of the inherent limitations in any cost-effective control system, misstatements due to errors or fraud may occur and not be detected.

Restatement of Previously Issued Financial Statements

While finalizing our quarterly results for the period ended September 30, 2007, we identified immaterial overstatements related to certain leasehold and ownership interests in land, accrued property taxes and certain other items. As a result, we filed an amendment to our Annual Report on Form 10-K/A to restate our consolidated balance sheets, consolidated statements of operations and cash flows as of and for the two years ended December 31, 2006 and 2005, and for the period May 11, 2004 (inception) to December 31, 2004 to make the required corrections. These restatements primarily relate to amounts recorded on our opening balance sheets associated with acquisitions. In addition, as discussed in Note 16 to the condensed consolidated financial statements in Item 1, the June 30, 2007 financial statements have also been restated to reflect these corrections. The impact of the identified overstatements was immaterial on the results of operations in each period affected.

Evaluation of Disclosure Controls and Procedures

As a result of the restatement described above, we reevaluated the effectiveness of our controls and procedures under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer. We concluded that the control deficiencies noted above aggregate to the level of a material weakness. A material weakness is defined as a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. Based upon their reassessed evaluation, our CEO and CFO concluded that our disclosure controls and procedures were ineffective as of June 30, 2007.

Notwithstanding the material weakness noted above, our management has concluded, based on its evaluation and additional procedures performed to measure the potential impact of the material weakness, that the condensed consolidated financial statements in this Quarterly Report on Form 10-Q/A reflect all normal, recurring adjustments necessary for a fair presentation of the results of the periods presented.

Changes in Internal Control Over Financial Reporting

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

Management did not make any significant changes in our internal controls over financial reporting during the second quarter of fiscal 2007 that would have materially affected, or would be reasonably likely to materially affect, our internal control over financial reporting.

Subsequent to June 30, 2007, management has continued to review, revise and improve the effectiveness of our internal control over financial reporting. Management, with oversight from the Audit Committee, has been addressing the material weakness disclosed in our amended Form 10-K/A and is committed to effectively remediating this material weakness. Although we have put new control procedures in place, control weaknesses will not be considered remediated until the new controls are operational for a period of time and tested, and until management and its registered public accounting firm conclude that these controls are operating effectively.

Table of Contents

PART II

Item 1. Legal Proceedings

On November 18, 2005, ICG, LLC, our wholly-owned subsidiary, filed a complaint in the United States District Court for the Eastern District of Kentucky, Ashland Division, against Massey Coal Sales Company, Inc. (Massey Coal Sales), seeking damages for breach of a coal supply agreement under which Massey Coal Sales supplies coal to ICG, LLC for resale to a customer of ICG, LLC. ICG, LLC asserted various claims related to Massey Coal Sales' failure to ship significant tonnages required to be shipped under the contract and the failure of numerous shipments to meet quality specifications set forth in the contract. On August 14, 2006, Massey Coal Sales asserted various counterclaims against ICG, LLC in the Federal Court litigation claiming that ICG, LLC failed to provide rail cars, that the contract should have been terminated and, as a result, ICG, LLC was unjustly enriched. Massey Coal Sales claimed damages in excess of \$50 million. ICG, LLC denied any liability under the counterclaim. On June 1, 2006, ICG, LLC filed a complaint in Pike County, Kentucky, against Massey Energy Company and various of its affiliates seeking compensatory and punitive damages claiming that the defendants tortiously interfered with ICG, LLC's contract and relationship with its customer. On July 5, 2007, ICG, LLC and Massey Coal Sales entered into a Mutual Release and Settlement Agreement settling all claims among the parties in both the federal court action and the state court action, with no payments due to be paid by us.

On April 5, 2007 a class action lawsuit was filed in the U.S. District Court in the Southern District of West Virginia against us and certain of our officers and directors. The complaint alleges that our registration statements filed in connection with our initial public offering contained false and misleading statements, and that investors relied upon those securities filings and suffered damages as a result. We have not yet responded to the complaint.

In addition, from time-to-time, we are involved in legal proceedings arising in the ordinary course of business. We believe we have recorded adequate reserves for these liabilities and there is no individual case or group of related cases pending that is likely to have a material adverse effect on our financial condition, results of operations or cash flows.

Item 1A. Risk Factors

Listed below are risk factors that have changed or been added to those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2006:

Judicial rulings that restrict disposal of mining spoil material could significantly increase our operating costs, discourage customers from purchasing our coal and materially harm our financial condition and operating results.

Mining in the mountainous terrain of Appalachia typically requires the use of valley fills for the disposal of excess spoil (rock and soil material) generated by construction and mining activities. In our surface mining operations, we use mountaintop removal mining wherever feasible because it allows us to recover more tons of coal per acre and facilitates the permitting of larger projects, which allows mining to continue over a longer period of time than would be the case using other mining methods. Mountaintop removal mining, along with other methods of surface mining, depend on valley fills to dispose of mining spoil material. Construction of roads, underground mine portal sites, coal processing and handling facilities and coal refuse embankments or impoundments also require the development of valley fills. We obtain permits to construct and operate valley fills and surface impoundments from the Army Corps of Engineers, or ACOE, pursuant to Section 404 of the federal Clean Water Act. Lawsuits by various environmental groups challenging the ACOE's authority to authorize such valley fills and surface impoundments due to surface mining activities under Nationwide Permit 21 or under more comprehensive individual permits have been instituted by environmental groups. Related claims have been made seeking to enjoin the use of specific Nationwide Permit 21 or individual permits, or to appeal the issuance of such permits. The Fourth Circuit Court of Appeals rejected and remanded one such suit that was originally filed in West Virginia, concluding that the ACOE complied with the Clean Water Act in promulgating Nationwide Permit 21. A similar lawsuit filed in federal court in Kentucky is still pending. The Southern District of the U.S. District Court for West Virginia ruled in a challenge of specific Section 404 individual permits that the ACOE failed to adequately assess the impacts of surface mining on headwater streams and therefore could not appropriately evaluate mitigation efforts proposed by the applicant. The court suspended and remanded the Section 404 permits back to the ACOE. The Court also decided that in-stream sediment ponds violate the Clean Water Act. This decision is currently subject to appeal. We cannot predict the final outcome of the legal challenges to Section 404 permits and other mountaintop mining permits. If permitting requirements are substantially increased or if mining methods at issue are limited or prohibited, it could greatly lengthen the time needed to permit new reserves, significantly increase our operational costs, make it more difficult to economically recover a significant portion of our reserves, and lead to a material adverse effect on our financial condition and results of operation. We may not be able to increase the price we charge for coal to cover higher production costs without reducing customer demand for our coal.

Increased leverage may harm our financial condition and results of operations.

Our level of indebtedness could have important consequences on our future operations, including:

making it more difficult for us to meet our payment and other obligations under the notes and our other outstanding debt;

resulting in an event of default if we fail to comply with the financial and other restrictive covenants contained in our debt agreements, which could result in all of our debt becoming immediately due and payable;

subjecting us to the risk of increased sensitivity to interest rate increases on our indebtedness with variable interest rates, including borrowings under our senior credit facility;

reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes, and limiting our ability to obtain additional financing for these purposes;

limiting our flexibility in planning for, or reacting to, and increasing our vulnerability to, changes in our business, the industry in which we operate and the general economy; and

placing us at a competitive disadvantage compared to our competitors that have less debt or are less leveraged.

Any of the above-listed factors could have an adverse effect on our business, financial condition and results of operations and our ability to meet our payment obligations under our debt.

Table of Contents

Our ability and the ability of some of our subsidiaries to engage in some business transactions or to pursue our business strategy may be limited by the terms of our existing debt.

Our senior credit facility contains a number of financial covenants requiring us to meet financial ratios and financial condition tests. The indenture governing our outstanding senior notes and our senior credit facility also restrict our and our subsidiaries ability to:

incur additional debt or issue guarantees;

pay dividends on, redeem or repurchase capital stock;

allow our subsidiaries to issue new stock to any person other than us or any of our other subsidiaries;

make certain investments;

make acquisitions;

incur, or permit to exist, liens;

enter into transactions with affiliates;

guarantee the debt of other entities, including joint ventures;

merge or consolidate or otherwise combine with another company; and

transfer or sell a material amount of our assets outside the ordinary course of business.

These covenants could adversely affect our ability to finance our future operations or capital needs or to execute preferred business strategies.

Our ability to borrow under our senior credit facility will depend upon our ability to comply with these covenants and our borrowing base requirements. Our ability to meet these covenants and requirements may be affected by events beyond our control and we may not meet these obligations. Our failure to comply with these covenants and requirements could result in an event of default under the indenture governing our outstanding senior notes that, if not cured or waived, could permit acceleration of the convertible notes and our senior notes and permit foreclosure on any collateral granted as security under our senior credit facility. If our indebtedness is accelerated, we may not be able to repay it or borrow sufficient funds to refinance it. Even if we were able to obtain new financing, it may not be on commercially reasonable terms, on terms that are acceptable to us, or at all. If our debt is in default for any reason, our business, financial condition and results of operations could be materially and adversely affected.

We are subject to limitations on capital expenditures under our senior credit facility. Because of these limitations, we may not be able to pursue our business strategy to replace our equipment fleet as it ages, develop additional mines or pursue additional acquisitions without additional financing.

Changes in the accounting treatment of certain of our existing securities could decrease our earnings per share.

Edgar Filing: International Coal Group, Inc. - Form 10-Q/A

There may be, in the future, potentially new or different accounting pronouncements or regulatory rulings, which could impact the way we are required to account for the convertible notes, and which may have an adverse impact on our future financial condition and results of operations. With respect to the convertible notes we issued in July 2007, we are required under GAAP as presently in effect to include in outstanding shares for purposes of computing diluted earnings per share only a number of shares underlying the convertible notes that, at the end of a given quarter, have a value in excess of the outstanding principal amount of the convertible notes. This is because of the net share settlement feature of the notes, under which we are required to pay the principal amount of the notes in cash. The accounting method for net share settled convertible securities is currently under consideration by the Financial Accounting Standards Board (FASB). Under consideration is a proposed method of accounting for net share settled convertible securities under which the debt and equity components of the security would be bifurcated and accounted for separately. The outcome of this process could result in our being required to recognize additional interest expense, increase the number of shares we count as outstanding for purposes of measuring earnings per share, or a combination of both, which would in turn reduce our earnings per share.

Provisions of the notes could discourage an acquisition of us by a third party.

Certain provisions of both series of our outstanding notes could make it more difficult or more expensive for a third party to acquire us. Upon the occurrence of certain transactions constituting a fundamental change, holders of both series of notes will have the right, at their option, to require us to repurchase, at a cash repurchase price equal to at least 100% of the principal amount plus accrued and unpaid interest on the notes, all of their notes or any portion of the principal amount of such notes in integral multiples of \$1,000. We may also be required to issue additional shares of our common stock upon conversion of the convertible notes in the event of certain fundamental changes.

Item 4. Submission of Matters to a vote of Security Holders

The Company held its annual meeting of shareholders on May 17, 2007. In connection with the meeting, proxies were solicited pursuant to Section 14(a) of the Securities Exchange Act of 1934. Matters voted upon were (1) the election of two Class II directors for a term of three years expiring in 2010 and (2) the ratification of the Board of Directors' selection of Deloitte & Touche LLP as the Company's independent registered public accounting firm for 2007. The number of votes cast for, against or withheld, as well as abstentions and broker non-votes, if applicable, with respect to each matter are set out below.

1. All of the nominees for directors listed in the proxy statement were elected to hold office for a three year term or until their successors are elected and qualified with the following vote:

DIRECTOR NOMINEE	SHARES VOTED FOR	SHARES WITHHELD
Cynthia B. Bezik	108,449,197	785,106
William J. Catacosinos	108,243,858	990,445

The following directors remained in office: Wilbur L. Ross, Jr., Bennett K. Hatfield, Maurice E. Carino, Jr., Stanley N. Gaines and Wendy L. Teramoto.

2. The ratification of the Board of Directors' selection of Deloitte & Touche LLP as the Company's independent registered accounting firm for the fiscal year ending December 31, 2007 was approved with the following vote:

SHARES VOTED FOR	SHARES VOTED AGAINST	SHARES ABSTAINING
109,062,763	90,195	81,345
