Business segment totals exclude these effects as well as unrealized gain (loss) on investments in equity securities held for operating purposes.

Non-interest expenses increased 32.2% year-on-year to 632 billion yen, and income before income taxes declined 41.9% year-on-year to 172.1 billion yen. Other	(6.2)	24.4		23.9
Income (loss) before income taxes	172.1	296.0	(41.9)	377.3

In Domestic Retail, income before income taxes decreased 5.4% from the previous year to 111.3 billion yen. Although fees from investment banking declined, strengthened consulting capability and an enhanced product offering meeting customers' needs led to strong sales of investment trusts and resulted in an increase in commissions for distribution of investment trusts as well as investment trust administration fees and other. Meanwhile, an expansion of customer contact points, as well as the enhancement of the Call Center and other IT-related investment in order to improve convenience for customers led to a rise in non-interest expenses.

In Global Markets, loss before income taxes was 17.2 billion yen. Fixed Income reported a year-on-year decline in income before income taxes due to losses related to our exit from the US RMBS business. In other Fixed Income businesses, firm domestic order flow for interest rate and currency-linked structured bonds, as well as strong credit derivatives trading, primarily in Europe, contributed to revenue. In Equity, solid customer order flow as well as firm stock and equity derivative trading contributed to revenue, as did Instinet, which was consolidated in February 2007.

In Global Investment Banking, income before income taxes decreased 31.2% year-on-year to 22.5 billion yen. Although M&A business revenue increased, equity financing by domestic corporates declined significantly from the same period last year, and even though we retained a high market share, the overall value of equity underwriting declined, leading to the drop in income before income taxes.

In Global Merchant Banking, income before income taxes declined 42.7% compared to the previous year to 33.2 billion yen. The sales of Deutsche Annington by Terra Firma as well as Sliontec and Wanbishi Archives by Nomura Principal Finance contributed to revenue.

In Asset Management, income before income taxes increased 0.2% from the prior year to 28.5 billion yen. Unlike last year, profits were not boosted by gains on sales of affiliated companies or unrealized gains on seed money. However, firm sales of existing balanced funds, such as the My Story Profit Distribution-type Course B Fund, and newly-launched funds, such as the Nomura Global High Interest Rate Currencies Fund, as well as new mandates in the domestic investment advisory business, pushed assets under management up by 2.6 trillion yen from the end of March to 29.7 trillion yen. As a result, revenue from core businesses increased significantly.

Loss before income taxes in Other was 6.2 billion yen.

Total income before income taxes for all business segments decreased 41.9% from the prior year to 172.1 billion yen.

Net cash used in investing activities during the period was 88.2 billion yen, mainly due to Payments for purchase of office buildings, land, equipment and facilities, and Increase in non-trading debt securities. Domestic Client Assets¹ declined by 3 trillion yen from the end of September to 81.3 trillion yen due to a downturn in the stock market. However, net asset inflow remained steady at 900 billion yen, while the number of accounts with balance increased to 4.12 million.

Although turmoil in the global financial markets caused commissions for distribution of investment trusts to decline, we saw strong demand for products that accurately meet clients' potential needs. Moreover, investment trust administration fees and other grew for the twelfth straight quarter. Sales credit increased, partly due to strong sales of Toyota Motor Credit Corporation bonds. Stock brokerage commissions fell, mainly due to the stock market decline.
