News Release

Nomura Reports Third Quarter Financial Results

Tokyo, January 31, 2008 Nomura Holdings, Inc. today reported consolidated financial results for the third quarter of the fiscal year ending March 31, 2008.

Third quarter summary

Net revenue for the third quarter was 276.1 billion yen (US\$2.5 billion)¹, a 25.4% increase from the prior quarter. Income before income taxes was 46.1 billion yen (US\$413 million), while net income was 22.6 billion yen (US\$202 million). ROE for the third quarter was 4.1%.

The third quarter dividend will be 8.5 yen per share, in line with the target dividend previously announced. Payment of the dividend is planned for March 1, 2008. As March 1 is a Saturday, payment will start on the next business day.

Turmoil in the global financial markets led to a tough third quarter. However, our client base continues to grow and we are redoubling our efforts to focus on client-centric businesses, said Nobuyuki Koga, Nomura President and CEO.

Third quarter highlights

Domestic Retail: Net asset inflow remained steady at 900 billion yen. Number of accounts with balance increased to 4.12 million. Investment trust administration fees and other grew for the twelfth straight quarter.

Global Markets: Robust trading of interest rate and currency-linked derivatives as well as equity-related trading. Order flow at Instinet increased.

Global Investment Banking: Ranked number one in Equity and Equity-related (Japan) and M&A advisory league tables² for calendar year 2007.

Asset Management: Strong sales of Nomura New Global High Interest Rate Currencies Fund. Increased product lineup with new exchange-traded funds marketed as Next Funds.

¹ US dollar amounts are included solely for the convenience of the reader and have been translated at the rate of 111.71 yen = 1 US dollar, the noon buying rate in New York for cable transfers in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2007. This translation should not be construed to imply that the yen amounts actually represent, or have been or could be converted into, equivalent amounts in US dollars.

Table of Contents

Third quarter business segment results

Total net revenue from business segments for the third quarter was 251.4 billion yen (US\$2.3 billion), a 25.7% increase from the prior quarter. Income before income taxes from business segments was 51.5 billion yen (US\$461 million).

Domestic Retail

Domestic Retail recorded net revenue of 98.4 billion yen and income before income taxes of 28.5 billion yen, both of which represent quarter-on-quarter and year-on-year declines.

Domestic Client Assets declined by 3 trillion yen from the end of September to 81.3 trillion yen, due to a downturn in the stock market. However, net asset inflow remained steady at 900 billion yen, while the number of accounts with balance increased to 4.12 million.

Although turmoil in the global financial markets caused commissions for distribution of investment trusts to decline 11.1% from the second quarter to 31.4 billion yen, Nomura saw a significant increase in sales of products that accurately meet clients' needs, such as the Nomura New Global High Interest Rate Currencies Fund. Moreover, investment trust administration fees and other grew for the twelfth straight quarter. Sales credit rose 5.4% quarter-on-quarter to 21.6 billion yen, partly due to strong sales of Toyota Motor Credit Corporation bonds. Stock brokerage commissions fell 8.3% from the prior quarter to 18.7 billion yen, due to the stock market decline.

Global Markets

Global Markets net revenue of 103.2 billion yen and income before income taxes of 24.4 billion yen represent a rebound from the previous quarter and year-on-year increases.

In Fixed Income, net revenue increased to 32.3 billion yen, partly due to robust interest rate and currency-linked derivative trading, particularly in Japan and Europe. In Equity, net revenue remained strong at 68.0 billion yen. This was due to robust stock trading, solid equity derivative trading in Europe, as well as firm revenue from Instinet.

Global Investment Banking

Global Investment Banking reported net revenue of 20.8 billion yen and income before income taxes of 5.7 billion yen. These results represent an increase compared to the previous quarter but a decline from the same quarter of the previous year.

During the period, overall equity finance volume declined, primarily due to the poor performance of the Japanese stock market. However, we acted as lead manager in the large IPO by Sony Financial Holdings and several other deals and retained our high market share. As a result, we ranked number one in the Global Equity and Equity-related (Japan) league table² for calendar year 2007.

In M&A, we were financial advisor on the tender offer by Japan Tobacco for Katokichi, and acted as financial advisor in the management integration of TIS and INTEC Holdings. We also ranked number one in the M&A league table² for any Japanese involvement for calendar year 2007.

Table of Contents

Global Merchant Banking

Global Merchant Banking recorded net revenue of minus 10.2 billion yen for the quarter and income before income taxes of minus 12.3 billion yen. There were no exits during the quarter, and unrealized losses and gains were booked due to the valuation of certain investee companies in Europe at fair value.

Asset Management

Net revenue in Asset Management was 23.2 billion yen and income before income taxes was 8.6 billion yen. Compared to the previous quarter, net revenue declined while income before income taxes increased. Both net revenue and income before income taxes were lower compared to the same quarter of the previous year.

Although the pace of sales of existing investment trusts slackened, partly due to the global turmoil in financial markets as well as the implementation of the Financial Instruments and Exchange Law, sales of newly-launched funds were generally robust, highlighted by the Nomura New Global High Interest Rate Currencies Fund which saw over 200 billion yen in sales during the quarter. As a result, total assets under management in Asset Management remained virtually unchanged from the end of the second quarter at 29.7 trillion yen.

Nomura Approves Share Buyback Program

Tokyo, January 31, 2008 Nomura Holdings, Inc. today announced that its Board of Directors approved a resolution to set up a share buyback program for the fourth quarter of the current fiscal year ending March 31, 2008, pursuant to the company's articles of incorporation set out in accordance with Article 459-1 of the Companies Act of Japan.

The share buyback program will run from February 8, 2008, to March 14, 2008, and have an upper limit of 25 million shares of Nomura Holdings common stock. This translates to a maximum of 40 billion yen, or 1.27 percent of outstanding shares.

Nomura recognizes the need to set out flexible financial strategies that allow the Board to respond quickly to changes in the business environment.

As of December 31, 2007, Nomura Holdings had 1,965,919,860 outstanding shares and 55,695,762 shares as treasury stock.
