EXPLANATORY NOTE REGARDING RESTATEMENT

In this quarterly report on Form 10-Q, we are restating our condensed consolidated statement of income and the related condensed consolidated statement of cash flows for the three and six months ended December 24, 2005, as a result of an independent stock option investigation conducted by a special committee of our board of directors. This restatement is more fully described in Note 2, Restatement of Condensed Consolidated Financial Statements, to our condensed consolidated financial statements in this quarterly report on Form 10-Q and in our

Explanatory Note Regarding Restatement preceding Part I of our annual report on Form 10-K for the year ended June 24, 2006 (the 2006 Form 10-K), as well as in Item 3, Legal Proceedings, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Note 2, Restatement of Consolidated Financial Statements to our consolidated financial statements of our 2006 Form 10-K.

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

NOTE 1: BASIS OF PRESENTATION

The accompanying unaudited condensed interim consolidated financial statements of Maxim Integrated Products, Inc. and all of its majority-owned subsidiaries (collectively, the Company or Maxim) included herein have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles of the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting of normal recurring items) considered necessary for fair presentation have been included. The year-end condensed balance sheet data was derived from audited financial statements but does not include all disclosures required by GAAP. The results of operations for the three and six months ended December 23, 2006 are not necessarily indicative of the results to be expected for the entire year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Annual Report on Form 10-K for the fiscal year ended June 24, 2006.

The Company has a 52-to-53 week fiscal year that ends on the last Saturday in June. Accordingly, every sixth or seventh fiscal year will be a 53-week fiscal year. Fiscal year 2007 is a 53 week fiscal year.

NOTE 2: RESTATEMENT OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In this quarterly report on Form 10-Q, the Company restated its condensed consolidated statements of income for the three and six months ended December 24, 2005 and condensed consolidated statement of cash flows for the six months ended December 24, 2005 as a result of an independent stock option review initiated by the Company's Board of Directors.

The following table presents the impact of the financial statement restatement adjustments on the Company's previously reported condensed consolidated statements of income for the three and six months ended December 24, 2005.

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

The pre-tax impact of the restatement to the three and six months ended December 24, 2005 is approximately \$22.8 million and \$53.4 million, respectively and primarily reflect corrections in the Company's previous accounting for stock-based compensation and other pre-tax adjustments previously considered immaterial and related to certain accruals, reserves, and allowances and the amortization of manufacturing variances.

The following table summarizes the restated stock-based compensation and other adjustments to the previously reported financial statements for three and six months ended December 24, 2005:

	Pre-tax Adjustments to Stock-based Compensation	Related Payroll and Withholding Charges Increase (Decrease) in Pre-tax Income (in thousands)	Pre-tax Adjustment Not Related to Stock-based Compensation	Total Pre-tax Adjustment
Three months ended Dec. 24, 2005	\$ (19,774)	\$ (317)	\$ (2,729)	\$ (22,820)
Six months ended Dec. 24, 2005	(43,267)	(322)	(9,844)	(53,433)
<i>Stock-Based Compensation Corrections</i>				

The Company recorded adjustments to its previously reported amounts of stock-based compensation related to errors identified in connection with the investigation into accounting for stock-based transactions. The Company concluded adjustments were required for:

- (a) instances where periodic grants were made to employees and independent directors where the selection of grant dates was made with the benefit of hindsight or prior to the completion of the granting process;
- (b) instances where grants were made to new employees prior to commencement of employment or were dated prior to the completion of the granting process;
- (c) instances where the accounting treatment of other granting activities was not in compliance with Generally Accepted Accounting Principles (GAAP); and
- (d) instances where modifications to grants were not properly accounted for.

Other Corrections

The following table summarizes the adjustments not related to stock-based compensation to the previously reported financial statements for three and six months ended December 24, 2005:

Three Months Ended December 24, 2005	Six Months Ended December 24, 2005

	\$ (2,729)	\$ (9,844)

Table of Contents

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Accounts Receivable Corrections

The Company corrected errors in previously reported accounts receivable. These adjustments resulted from errors in amounts recorded for revenue deferrals and returns reserves. The correction of these errors resulted in a decrease in accounts receivable allowances and a decrease in net revenues.

Inventory Corrections

The Company corrected errors in previously reported inventory. These errors resulted from inaccurate matching of the amortization of variances with the related cost of goods sold. The correction of these errors resulted in a decrease in inventory and increase in cost of goods sold.

Property, Plant and Equipment Corrections

The Company corrected errors in previously reported property, plant and equipment (PP&E). These adjustments resulted from errors recorded to reduce the net realizable value of certain PP&E. The correction of these errors resulted in a decrease in PP&E, net and an increase in cost of goods sold.

Accrued Employee Bonus Corrections

The Company corrected errors in previously reported accrued employee bonuses which are included in accrued salary and related expenses in the Condensed Consolidated Balance Sheets. These errors resulted from not accurately reflecting the service period for the employees' bonuses when determining amounts which needed to be accrued for such bonuses. The correction of these errors, net of amounts recorded into inventory, resulted in a decrease in salary and related expenses and an increase in salary and related expenses for the three and six months ended December 24, 2005, respectively.

Accrued Expenses Corrections

The Company corrected errors in previously reported accrued expenses. These adjustments resulted from errors in amounts for certain accruals and reserves. The correction of these errors resulted in an increase in accrued expenses.

Interest Income and Other, Net Corrections

The Company recorded adjustments to its previously reported amounts related to errors identified in interest income and other, net. These errors resulted from not properly accruing for interest income receivable at the end of a fiscal reporting period. The correction of these errors resulted in an increase in other current assets and an increase in interest income and other, net, as well as an increase in selling, general and administrative expenses as such amounts being previously misclassified in selling, general and administrative expenses.

Income Taxes

The Company recorded adjustments to previously reported income taxes, penalties and interest in connection with the above stock-based and other adjustments and the use of incorrect cash exercise dates.

Adjustments to Additional Paid-in Capital for Common Stock Repurchases

In certain years, the Company charged retained earnings in connection with stock repurchases as previously reported additional paid-in capital had been depleted from such repurchases. As a consequence of the restatement adjustments, additional paid-in capital was increased. Accordingly, the Company has reclassified amounts previously charged to retained earnings to the extent restated additional paid-in capital was available.

Table of Contents

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Statements of Cash Flow Adjustments

The Company excluded the impact of purchases of property, plant and equipment that remain unpaid and as such are included in accounts payable at the end of the reporting period. Historically, changes in accounts payable related to such purchases were included in cash flows from operating activities, while the investing activity caption Additions to property, plant and equipment included these purchases. As these unpaid purchases do not reflect cash transactions, the Company is correcting its cash flow presentations to exclude them.

Adoption of Statement of Financial Accounting Standard (SFAS) No. 123 (revised 2004), Share-Based Payment (SFAS 123(R)) Adjustment

The adoption of SFAS 123(R) as previously reported did not include a cumulative effect of a change in accounting principle in fiscal year 2006, the period of adoption. As a consequence of the restatement adjustments, the Company recorded as an increase to net income, a cumulative effect adjustment of \$1.6 million, net of tax, as of June 26, 2005. This adjustment reflects the difference between using actual forfeitures under Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25) and estimated forfeitures under APB 25 for unvested stock options outstanding on the adoption date. Additionally, upon the adoption of SFAS 123(R), the unamortized balance of \$166.7 million of deferred stock-based compensation, as restated, within stockholder s equity was reclassified to additional paid in capital.

These adjustments are more fully described in Note 2 Restatement of Consolidated Financial Statements to the Company s consolidated financial statements of the Company s fiscal year 2006 Form 10-K.

NOTE 3: RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109* (FIN 48), which prescribes comprehensive guidelines for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on tax returns. FIN 48, effective for fiscal years beginning after December 15, 2006, seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. The cumulative effect of applying FIN 48 is expected to result in a \$9.4 million and \$19.2 million decrease in retained earnings and additional-paid-in-capital, respectively, at the beginning of fiscal year 2008.

In September 2006, the FASB issued Statement of Financial Standard (SFAS) No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosures about fair value measurements. The statement clarifies that the exchange price is the price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The statement emphasizes that fair value is a market-based measurement and not an entity-specific measurement. It also establishes a fair value hierarchy used in fair value measurements and expands the required disclosures of assets and liabilities measured at fair value. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. In addition, in February 2008, the FASB issued FSP No. 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13* (FSP 157-1) and FSP No.157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2). FSP 157-1 amends SFAS 157 to remove certain leasing transactions from its scope. FSP 157-2 delays the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. The Company is currently evaluating the impact of adopting SFAS 157 on the Company s consolidated financial condition, results of operations and liquidity.

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS 158). SFAS 158 amends SFAS No. 87, *Employers' Accounting for Pensions*, SFAS No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits*, SFAS No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions*, and SFAS No. 132 (revised 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*. SFAS 158 requires employers to recognize in the statement of financial position an asset for a plan's overfunded status or a liability for a plan's underfunded status. It also requires employers to measure plan assets and obligations that determine the funded status as of the end of the fiscal year. Lastly, employers are required to recognize changes in the funded status of a defined benefit postretirement plan in the year that the changes occur with the changes reported in comprehensive income. SFAS 158 is required to be adopted by entities with fiscal years ending after December 15, 2006. The adoption of SFAS 158 in fiscal year 2007 is not expected to have a material impact on the Company's consolidated financial condition, results of operations or liquidity.

In September 2006, the SEC released Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108), which addresses how uncorrected errors in previous years should be considered when quantifying errors in current year financial statements. SAB 108 requires registrants to consider the effect of all carry over and reversing effects of prior-year misstatements when quantifying errors in current year financial statements. SAB 108 does not change the SEC staff's previous guidance on evaluating the materiality of errors. It allows registrants to record the effects of adopting SAB 108 guidance as a cumulative-effect adjustment to retained earnings. This adjustment must be reported in the annual financial statements of the first fiscal year ending after November 15, 2006. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial condition, results of operations or liquidity.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits companies to choose to measure certain financial instruments and certain other items at fair value. The standard requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings. The Company is required to adopt the provisions of SFAS 159 as of the beginning of the fiscal year that begins after November 15, 2007, although earlier adoption is permitted. The adoption of SFAS 159 is not expected to have a material impact on the Company's consolidated financial position, results of operations or liquidity.

In March 2007, the FASB ratified Emerging Issues Task Force (EITF) Issue No. 06-10, *Accounting for Collateral Assignment Split-Dollar Life Insurance Agreements* (EITF 06-10). EITF 06-10 provides guidance for determining a liability for the post-retirement benefit obligation as well as recognition and measurement of the associated asset on the basis of the terms of the collateral assignment agreement. EITF 06-10 is effective for fiscal years beginning after December 15, 2007, although earlier adoption is permitted. The Company early adopted EITF 06-10 during the three months ended September 29, 2007 and recorded a cumulative effect adjustment as a net reduction to retained earnings of approximately \$14.1 million. No corporate income tax benefit was netted against the charge to retained earnings because the liabilities being accrued are not deductible for corporate income tax purposes.

In June 2007, the FASB ratified EITF Issue No. 07-3, *Accounting for Nonrefundable Advance Payments for Goods or Services to Be Used in Future Research and Development Activities* (EITF 07-3). EITF 07-3 requires nonrefundable advance payments for goods or services that will be used or rendered for future research and development activities to be deferred and capitalized. Such amounts should be recognized as an expense as the related goods are delivered or the related services are performed. Entities should continue to evaluate whether they expect the goods to be delivered or services to be rendered. If an entity does not expect the goods to be delivered or services to be rendered, the capitalized advance payment should be charged to expense. EITF 07-3 applies prospectively for new contractual arrangements entered into in fiscal years beginning after December 15, 2007. Earlier adoption is not permitted. The adoption of EITF 07-3 is not expected to have a material effect on the Company's consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS 160). SFAS 160 amends Accounting Research Bulletin No. 51, *Consolidated Financial Statements*, to establish accounting and reporting standards for the noncontrolling interest in

Table of Contents

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS 160 improves the relevance, comparability and transparency of financial statements and eliminates diversity in practice that currently exists in accounting for transactions between an entity and noncontrolling interests. This standard is effective for annual periods beginning after December 15, 2008. Earlier adoption is prohibited. The Company does not believe the adoption of SFAS 160 will have a material effect on its consolidated financial position, results of operations and cash flows.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)) which replaces SFAS No. 141, *Business Combinations*. SFAS 141(R) requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction; establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; and requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. This standard is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is currently evaluating the impact of adopting SFAS 141(R) on the Company's consolidated financial position or results of operations.

In December 2007, the FASB ratified EITF Issue No. 07-1, *Accounting for Collaborative Arrangements* (EITF 07-01). EITF 07-1 provides guidance on the classification, income statement presentation and disclosure associated with collaborative arrangements involving parties considered to be active participants to an activity and are exposed to significant risks and rewards which are dependent on the commercial success of the activity. EITF 07-1 is effective for fiscal years beginning after December 15, 2008. The adoption of EITF 07-01 is not expected to have a material impact on the Company's consolidated financial position, results of operations or cash flows.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities – an amendment of SFAS No. 133* (SFAS 161) which changes the disclosure requirements for derivative instruments and hedging activities. SFAS 161 requires the Company to provide enhanced disclosures about (a) how and why the Company uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and its related interpretations, and (c) how derivative instruments and related hedged items affect the Company's financial position, financial performance and cash flows. These disclosure requirements are effective for fiscal years and interim periods beginning after November 15, 2008. The Company is currently evaluating the impact of adopting SFAS 161 on its consolidated financial position, results of operations and cash flows.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). SFAS 162 identifies the sources of accounting consistent with GAAP. SFAS 162 is effective sixty days following the SEC's approval of the Public Company Accounting Oversight Board's amendments to AU Section 411 on September 16, 2008, *The Meaning of "Present fairly in conformity with generally accepted accounting principles"*. The Company is currently evaluating the potential impact, if any, of the adoption of SFAS 162 on its consolidated financial statements.

NOTE 4: STOCK-BASED COMPENSATION

During the first quarter of fiscal year 2006, the Company adopted the provisions of SFAS No. 123(R), *Share-Based Payment* (SFAS 123(R)). SFAS 123(R) establishes accounting for stock-based awards exchanged for employee services. Accordingly, stock-based compensation cost is measured at grant date, based on the fair value of the award, and is recognized as an expense over the requisite service period. The Company elected to adopt the modified prospective application method as provided by SFAS 123(R), and, accordingly, prior periods are not restated for the effect of SFAS 123(R). The Company records compensation costs as the requisite service is rendered for the unvested portion of previously issued awards that remain outstanding at the initial date of adoption and any awards issued, modified, repurchased, or cancelled after the effective date of SFAS 123(R). In March 2005, the Securities and Exchange Commission (SEC) issued Staff Accounting Bulletin No. 107 (SAB 107) relating to SFAS 123(R). The Company has applied SAB 107 in its adoption of SFAS 123(R). In November 2005, the FASB issued Staff Position FAS 123(R)-3, *Transition Election Related to Accounting for the Tax Effects of Share-Based Payment*

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

Awards. The Company has elected to adopt the alternative transition method in its adoption of SFAS 123(R). The adoption of SFAS 123(R) as previously reported did not include a cumulative effect of a change in accounting principle in fiscal year 2006, the period of adoption. As a consequence of the restatement adjustments, the Company recorded as an increase to net income, a cumulative effect adjustment of \$1.6 million, net of tax, as of June 25, 2006. This adjustment reflects the difference between using actual forfeitures under APB 25 and estimated forfeitures under APB 25 for unvested stock options outstanding on the adoption date. Additionally, upon the adoption of SFAS 123(R), the unamortized balance of \$166.7 million of deferred stock-based compensation, as restated, within stockholder's equity was reclassified to additional paid in capital.

The following table shows total stock-based compensation expense by type of award and resulting tax effect for the three months and six months ended December 23, 2006 and December 24, 2005, included in the Condensed Consolidated Statements of Income:

	Three Months Ended		Six Months Ended	
	December 23, 2006	December 24, 2005	December 23, 2006	December 24, 2005
	(In thousands)			
Cost of goods sold				
Stock options	\$ 10,620	\$ 15,656	\$ 41,788	\$ 32,279
Employee stock purchase plan		658	1,431	1,428
Restricted stock units	5,065		9,025	
	15,685	16,314	52,244	33,707
Research and development expense				
Stock options	21,955	29,491	121,103	62,535
Employee stock purchase plan		2,146	4,672	4,660
Restricted stock units	12,853		24,159	
	34,808	31,637	149,934	67,195
Selling, general and administrative expense				
Stock options	8,642	11,959	42,820	23,190
Employee stock purchase plan		658	1,431	1,428
Restricted stock units	3,038		5,629	
	11,680	12,617	49,880	24,618
Total stock-based compensation expense				
Stock options	41,217	57,106	205,711	118,004
Employee stock purchase plan		3,462	7,534	7,516
Restricted stock units	20,956		38,813	
Pre-tax stock-based compensation expense	62,173	60,568	252,058	125,520
Less: Income tax effect	21,465	19,766	87,201	40,913
Net stock-based compensation expense	\$ 40,708	\$ 40,802	\$ 164,857	\$ 84,607

Edgar Filing: MAXIM INTEGRATED PRODUCTS INC - Form 10-Q

Stock-based compensation cost capitalized as part of inventory as of December 23, 2006 and June 24, 2006 was \$16.4 million and \$17.5 million, respectively.

SFAS 123(R) requires cash flows resulting from excess tax benefits to be classified as a part of cash flows from financing activities. Since the Company has adopted the alternative transition method, described in FSP SFAS 123(R)-3, 100% of the realized tax benefits generated by stock based employee awards that were fully vested and outstanding upon the adoption of SFAS 123(R) are classified as excess tax benefits. Stock based employee awards partially vested upon, or granted after, the adoption of SFAS 123(R) generate excess tax benefits to the extent that realized tax benefits exceed the deferred tax asset and proforma deferred tax asset attributable to such awards. The Company recorded \$8.1 million and \$25.3 million of excess tax benefits as financing cash inflows for the six months ended December 23, 2006 and December 24, 2005, respectively.

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Share-Based Compensation and Other Adjustments Resulting From the Blackout Period

On September 8, 2006, the SEC was notified that the Company would delay filing its Annual Report on Form 10-K for the fiscal year ended June 24, 2006, due September 23, 2006, as a result its ongoing stock option investigation into the Company's historical stock option granting practices. As a result of such delay, the Company has suspended the issuance of shares to employees upon the exercise of stock options, vesting of restricted stock units or pursuant to planned purchases of stock under the Employee Stock Participation Plan until the Company becomes current with all of its required SEC filings and its registration statements on Form S-8 are declared effective (Blackout Period). The Company instituted multiple programs in an attempt to make employees whole during this period, as described below.

Restricted Stock Units

On February 1, 2006, the Company filed with the SEC a tender offer statement allowing employees, excluding officers, to exchange vested, outstanding employee stock options previously granted under various Maxim stock option plans with an exercise price equal to or greater than \$35 per share for restricted stock units (RSUs) vesting quarterly over four or six quarters beginning on May 15, 2006. The restricted stock units represent a promise by the Company to the employees to issue shares of its common stock in the future, provided the vesting criteria have been satisfied. During the third quarter of fiscal year 2006 a total of 11.8 million vested options were exchanged for approximately 2.4 million RSUs in this program. The aggregate value of the RSUs issued exceeded the value of the options exchanged by \$20.3 million. This amount will be amortized as a charge to earnings over a service period of up to 18 months.

RSU Loan Program

In October 2006 the Company offered certain domestic employees an opportunity to receive cash in the form of a non-recourse loan (RSU Loan) for common stock that they would have otherwise been able to receive in settlement for RSUs that vested during the Blackout Period. The program was not offered to executive officers or the Board of Directors. Employees accepting the offer were also entitled to additional shares of common stock if the Company's stock price appreciates (SAR) between the vest date and the settlement date at the end of the Blackout Period. Employees foregoing the loan would receive shares of common stock at the conclusion of the Blackout Period. The Company also offered to cash-settle RSUs vesting during the Blackout Period held by foreign employees. The aforementioned offers were considered modifications of the RSUs triggering a change in the classification from equity to liability for all eligible awards vesting during the Blackout Period. The Company recorded a reclassification from additional paid in capital to accrued salary and related expenses of \$19.4 million on the modification date and incremental compensation expenses of \$2.2 million from the modifications. Vesting of eligible awards and changes in stock price will result in additional reclassifications from additional paid-in capital to accrued salary and related expenses and additional compensation expenses in periods they occur. The Company made cash payments of \$10.1 million pursuant to the RSU loan program and \$2.3 million for settlement of RSUs held by foreign employees during the six months ended December 23, 2006 as a result of this program.

The SAR given to domestic employees accepting the loan offer was valued using a Black-Scholes model and will be recorded as compensation expenses at each respective vest date in the Blackout Period. The Company recorded additional compensation expenses of \$2.9 million from the SAR for the three months and six months ended December 23, 2006.

Other Modifications

Employee Stock Participation Plan (ESPP)

As a result of the aforementioned suspension of the issuance of shares under the Company's Form S-8 registration statements, the September 30, 2006 planned stock purchases under the Company's ESPP did not occur and all employee contributions made during the September 30, 2006 purchase period were refunded on or about September 28, 2006. The Company ceased withholdings as no future stock purchases can be made until the Company is current with all of its required SEC filings.

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

The Company had unrecognized compensation expenses of \$6.2 million as of June 24, 2006 related to its ESPP. In addition, the Company began a new offering period on July 3, 2006 for new plan participants with a fair value of \$1.3 million. The Company determined that the contribution refund results in a cancellation of all awards associated with the respective offerings without a concurrent offer to grant a replacement award, which is considered a repurchase for no consideration under SFAS 123(R). Accordingly, the Company recognized compensation expense, including the acceleration of all unrecognized compensation expense, totaling \$7.5 million in the three months ended September 23, 2006.

Extension of Options that Expire after Reaching 10 Year Contractual Term

In September 2006, the Company approved the extension of the terms of vested stock options that expire during the Blackout Period as a result of the expiration of the 10 year contractual term. The extension was considered a modification under SFAS 123(R). The incremental compensation expense of the modification was based on the fair value of the option at the modification date after the extension compared to the fair value of the option prior to modification. The Company recognized additional compensation expense totaling \$118.9 million for 8.3 million options in the three months ended September 23, 2006. The stock-based compensation expense adjustment was based on modified vested options held by employees that expired during the period from September 22, 2006 through the end of the Blackout Period.

Extension of Post-Termination Exercise Period

In September 2006, the Company also decided to extend the post-termination exercise period for employees holding vested options granted under the Dallas Semiconductor stock option plans, which were assumed by the Company as part of its acquisition of Dallas Semiconductor Corporation, who were terminated after September 22, 2006 and whose stock options would expire prior to reaching the 10 year contractual term during the Blackout Period. The extension provided these employees with 90 days to exercise vested options from the end of the Blackout Period. The Company calculated the incremental compensation expense of this modification in accordance with SFAS 123(R) and recognized compensation expense in the quarter ended September 23, 2006 totaling \$0.8 million for 0.2 million options for the extension of the options held by these employees terminating employment during the Blackout Period.

Fair Value

The fair value of share-based awards granted to employees was estimated using a Black-Scholes option pricing model and the following weighted-average assumptions:

	Stock Option Plan Three Months Ended		Stock Option Plan Six Months Ended	
	December 23, 2006	December 24, 2005	December 23, 2006	December 24, 2005
Expected option holding period (in years)	6.3	4.8	6.3	5.2
Risk-free interest rate	4.7%	4.3%	4.9%	4.1%
Stock price volatility	30%	28%	31%	28%
Dividend yield	2.1%	1.3%	2.1%	1.1%

The fair value of each option is estimated on the date of grant using the Black-Scholes option valuation model. Expected volatilities are based on the implied volatilities from traded options on the Company's stock and its historical stock prices. The Company analyzes historical exercise patterns of relatively homogeneous groups of employees to estimate the expected holding period. The risk-free interest rate is based on the U.S. Treasury yield. The Company determines the dividend yield by dividing the annualized dividends per share by the quarter's average stock price. The result is analyzed by the Company to decide whether it represents expected future dividend yield. As required by SFAS 123(R), the Company also estimates forfeitures at the time of grant and makes revisions if the estimates change or the actual forfeitures differ from those estimates.

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

The weighted-average fair value of stock options granted during the three months and six months ended December 23, 2006 was \$9.14 per share, and \$8.54 per share, respectively. The weighted-average fair value of stock options granted during the three months and six months ended December 24, 2005 was \$11.11 and \$12.23 per share, respectively.

STOCK OPTION PLANS**Stock Options and Restricted Stock Units**

The following table summarizes outstanding stock options as of December 23, 2006 and the activity during the period then ended:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value(1)
Balance at June 24, 2006	89,378,424	\$ 34.14		
Options granted	2,438,591	28.42		
Options exercised	(1,527,356)	11.89		
Options cancelled	(2,403,360)	37.02		
Balance at December 23, 2006	87,886,299	34.29	5.8	\$ 233,461,303
Exercisable, December 23, 2006	42,643,074	31.04	4.0	\$ 200,061,706
Vested and expected to vest, December 23, 2006	84,562,360	34.16	5.7	\$ 232,049,779

- (1) Aggregate intrinsic value for stock options represents the difference between exercise price and the closing price per share of our common stock on December 23, 2006, multiplied by the number of stock options outstanding, exercisable, or vested and expected to vest as of December 23, 2006.

As of December 23, 2006, there was \$295.8 million of unrecognized stock compensation related to 45.2 million unvested stock options which is expected to be recognized over a weighted average period of approximately 2.2 years.

The following table summarizes outstanding and expected to vest restricted stock units (RSUs) as of December 23, 2006 and their activity during the period then ended:

	Number of Shares	Weighted Average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value(1)
Balance at June 24, 2006	6,075,591		
Restricted stock units granted	843,579		
Restricted stock units released	(773,238)		
Restricted stock units cancelled	(296,311)		

Edgar Filing: MAXIM INTEGRATED PRODUCTS INC - Form 10-Q

Balance at December 23, 2006	5,849,621	1.7	\$ 178,530,433
Expected to vest at December 23, 2006	4,775,595	1.6	\$ 145,751,155

(1) Aggregate intrinsic value for RSUs represents the closing price per share of our stock on December 23, 2006, multiplied by the number of RSUs outstanding or expected to vest as of December 23, 2006.

As of December 23, 2006, there was \$19.3 million of unrecognized compensation expense related to 5.1 million unvested RSUs, not subject to the RSU loan program, which is expected to be recognized over a weighted average period of approximately 2.3 years.

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****NOTE 5: INVENTORIES**

The components of inventories consist of:

	December 23, 2006	June 24, 2006
	(in thousands)	
Raw materials	\$ 22,289	\$ 15,963
Work-in-process	164,298	144,501
Finished goods	60,274	50,431
	\$ 246,861	\$ 210,895

The Company recorded inventory write downs of \$7.6 million and \$0.0 million, \$14.6 million and \$0.0 million, for the three and six months ended December 23, 2006 and December 24, 2005, respectively.

NOTE 6: EARNINGS PER SHARE

Basic earnings per share are computed using the weighted average number of common shares outstanding during the period. For purposes of computing basic earnings per share, the weighted average number of outstanding common shares excludes unvested RSUs. Diluted earnings per share incorporates the incremental shares issuable upon the assumed exercise of stock options, assumed vesting of outstanding RSUs and assumed issuance of stock under the ESPP using the treasury stock method. As discussed in Note 4, the Company will cash settle vested RSUs during the Blackout Period. These RSUs are considered liability instruments under SFAS 123(R) and as such are excluded from the diluted earnings per share calculation.

The following table sets forth the computation of basic and diluted earnings per share.

	Three Months Ended		Six Months Ended	
	December 23, 2006	December 24, 2005	December 23, 2006	December 24, 2005
	(Amounts in thousands, except per share data)			
Numerator for basic earnings per share and diluted earnings per share				
Net income	\$ 97,568	\$ 97,671	\$ 117,906	\$ 184,449

Diluted	\$ 0.30	\$ 0.29	\$ 0.36	\$ 0.54

Edgar Filing: MAXIM INTEGRATED PRODUCTS INC - Form 10-Q

Approximately 66.3 million and 34.7 million of the Company's stock options were excluded from the calculation of diluted earnings per share for the three months ended December 23, 2006 and December 24, 2005, respectively. Approximately 67.0 million and 33.0 million of the Company's stock options were excluded from the calculation of diluted earnings per share for the six months ended December 23, 2006 and December 24, 2005, respectively. These options were excluded because they were determined to be antidilutive. However, such options could be dilutive in the future and, under those circumstances, would be included in the calculation of diluted earnings per share.

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****NOTE 7: SHORT-TERM INVESTMENTS**

All short-term investments as of December 23, 2006 are classified as available-for-sale and consist primarily of U.S. Treasury and Federal Agency debt securities with original maturities beyond three months. Unrealized gains and losses, net of tax, on securities in this category are included in accumulated other comprehensive loss which is a separate component of stockholders' equity. The cost of securities sold is based on the specific identification method. Interest earned on securities is included in Interest income and other, net in the Condensed Consolidated Statements of Income.

NOTE 8: SEGMENT INFORMATION

The Company operates and tracks its results as one reportable segment. The Company designs, develops, manufactures and markets a broad range of linear and mixed-signal integrated circuits. The Chief Executive Officer has been identified as the Chief Operating Decision Maker as defined by SFAS 131, *Disclosures about Segments of an Enterprise and Related Information* (SFAS 131).

Enterprise-wide information is provided in accordance with SFAS 131. Geographical revenue information is based on the customer's ship-to location. Long-lived assets consist of property, plant and equipment. Property, plant and equipment information is based on the physical location of the assets at the end of each reporting period.

Net revenues from unaffiliated customers by geographic region were as follows:

	Three Months Ended		Six Months Ended	
	December 23, 2006	December 24, 2005 (Restated)	December 23, 2006	December 24, 2005 (Restated)
	(in thousands)			
United States	\$ 110,514	\$ 99,859	\$ 224,803	\$ 199,423
China	143,983	121,549	277,945	240,721

	\$ 1,304,004	\$ 1,164,484

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)****NOTE 9: COMPREHENSIVE INCOME**

Comprehensive income consists of net income and net unrealized gains (losses) on available-for-sale investments and forward exchange contracts, and deferred income taxes on unrealized exchange gains (losses) on intercompany receivables. The components of comprehensive income and related tax effects were as follows:

	Three Months Ended		Six Months Ended	
	Dec. 23, 2006	Dec. 24, 2005 (Restated)	Dec. 23, 2006	Dec. 24, 2005 (Restated)
	(in thousands)			
Net income, as reported	\$ 97,568	\$ 97,671	\$ 117,906	\$ 184,449
Change in unrealized gains (losses) on investments, net of tax benefit (expense) of \$(710), \$391, \$(2,683) and \$1,552, respectively	1,237	(665)	4,507	(2,643)
Change in unrealized losses on forward exchange contracts, net of net of tax benefit (expense) of \$(96), \$205, \$(13) and \$246, respectively	165	(348)	25	(420)
Deferred tax on unrealized exchange gain (loss) on intercompany receivables	(616)		(1,778)	
Total comprehensive income	\$ 98,354	\$ 96,658	\$ 120,660	\$ 181,386

Accumulated other comprehensive gains (losses) presented in the Condensed Consolidated Balance Sheets as of December 23, 2006 and June 24, 2006 consist of net unrealized gains (losses) on available-for-sale investments of \$(2.3) million and \$(6.8) million, respectively, net unrealized gains (losses) on forward exchange contracts of \$0.2 million and \$0.2 million, respectively, net foreign currency translation adjustments of \$(1.5) million and \$(1.5) million, respectively, and deferred income tax of \$(1.8) million and \$0.0 million, respectively, on unrealized exchange gains related to an intercompany receivable that is of a long-term investment nature.

NOTE 10: COMMITMENTS AND CONTINGENCIES*Stock Option Litigation*

Beginning on or about May 22, 2006, several derivative actions were filed against certain current and former executive officers and directors of the Company. These derivative lawsuits were filed in: (1) the U.S. District Court for the Northern District of California, as In re Maxim Integrated Products, Inc. Derivative Litigation, Lead Case No. 5:06-cv-03344-JW, which consolidates McKinney v. Beck, et al. (Case No. 06-3344) and Horkay v. Beck, et al. (Case No. 06-3395), City of Pontiac Policemen s and Firemen s Retirement System v. Hood, et al. (Case No. 06-03754) and Corey v. Gifford, et al. (Case No. 06-03755); (2) the California Superior Court, Santa Clara County, as Louisiana Sheriffs Pension & Relief Fund v. Gifford et al. (Case No. 1-06-CV-065626); and (3) the Delaware Court of Chancery, as Ryan v. Gifford, et al. (Case No. Civ 2213-N). The complaints allege, among other things, that certain of Maxim s current and former executive officers and directors breached their fiduciary duties to the Company by engaging in alleged wrongful conduct of back-dating stock options as well as violating Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 and Rule 10b-5 promulgated thereunder. The Company is named solely as a nominal defendant against whom the plaintiffs seek no recovery.

The parties to the Delaware derivative litigation entered into a stipulated settlement agreement on September 16, 2008, conditioned upon approval of the Delaware Court of Chancery and subject to dismissal of all other pending derivative lawsuits. Currently, there is no trial date scheduled in any of the other actions.

On February 6, 2008, a class action lawsuit was filed in the United States District Court for the Northern District of California against the Company and its former chief executive officer and former chief financial officer. The complaint alleges that the Company and certain of its officers and directors violated the federal securities laws by making false and misleading statements and omissions relating to the grants of stock

Edgar Filing: MAXIM INTEGRATED PRODUCTS INC - Form 10-Q

options. The complaint seeks, on behalf of persons who purchased the Company's common stock during the period from April 29, 2003 to January 17, 2008, unspecified damages, interest and costs and expenses, including attorneys' fees and disbursements. The action has been stayed pending completion of the restatement of the Company's consolidated financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Stock Option Inquiry by Regulatory Authorities

On June 6, 2006, the Company was contacted by the SEC regarding an informal inquiry relating to the Company's past stock options grants and practices. On December 4, 2007, the Company settled the matter with the SEC without admission of any guilt or wrongdoing and without any assessment of penalties against the Company. On June 29, 2006, the Company received a subpoena from the U.S. Attorney for the Northern District of California (U.S. Attorney) requesting documents relating to its stock option grants and practices. The Company cooperated with the U.S. Attorney and was informed that the U.S. Attorney's office does not intend to pursue the matter.

Other Legal Proceedings

In the third quarter of fiscal year 2007, the Company settled ongoing litigation involving trade secret allegations brought by Analog Devices, Inc. (ADI) against the Company, and certain of its employees, relating to analog to digital converters. Under the terms of the settlement agreement, the Company paid ADI \$19.0 million in fiscal 2007, which amount was accrued in the fourth quarter of fiscal year 2006. The Company also agreed that for a four year period from the date of settlement, the Company will not develop new standalone analog to digital converters having certain specified resolutions, speeds and purposes. This restriction does not include the use of analog to digital converters when embedded on the same die with a more comprehensive device, system or functionality.

In December 2005, Master Chips bvba (Master Chips), a former distributor of the Company's products in Belgium, filed a demand for arbitration against the Company before the International Court of Arbitration of the International Chamber of Commerce alleging that the Company failed to give adequate advance notice to Master Chips of termination of the distribution agreement under Belgian law and that the Company failed to pay Master Chips commissions on part sales (Case No. 14 123 RCH/JHN). Master Chips sought the recovery of the alleged value of their entire business at the time of termination which they claimed exceeded \$12 million and an unspecified amount for the alleged underpayment of commissions. In response to the arbitration demand, the Company asserted a claim against Master Chips alleging that the Company over-paid commissions on part sales. In July 2008, the arbitrator issued a final award awarding Master Chips approximately \$9.1 million on all claims. The Company accrued for this award in fiscal year 2006.

Following the issuance of the partial arbitration award and before the issuance of the final award, in March 2008 the Company filed a petition to vacate the arbitration award in the U.S. District Court for the Northern District of California alleging that the interim award, along with the final award when so issued, should be vacated (C 08-00721 JW). In its answer, Master Chips asserted that the partial award (along with any final award) should not be vacated and filed a cross-petition to confirm the arbitration award. In August 2008, the Court denied the Company's petition to vacate the arbitration award and confirmed the arbitration award.

In addition to the above, the Company is subject to other legal proceedings and claims that arise in the normal course of our business. The Company does not believe that the ultimate outcome of matters arising in the normal course of our business will have a material adverse effect on the financial position of the Company.

Potential Tax Liabilities Under Section 409A of the Internal Revenue Code and Other Tax Penalties

As a result of the Company's investigation into its historical stock option granting practices, the Company has determined that a number of its outstanding stock option awards were granted at exercise prices below the fair market value of the Company's stock on the appropriate accounting measurement date. A significant adverse tax consequence is that the re-measured options vesting after December 31, 2004, or options that are materially modified after October 3, 2004, are potentially subject to option holder excise tax under Section 409A of the Internal Revenue Code (and, as applicable, similar excise taxes under state law) (Section 409A). Maxim's option holders who hold options which are determined to have been granted with exercise prices below the fair market value of the underlying shares of common stock on the appropriate measurement date would be subject to taxes, penalties and interest under Section 409A if no action is taken to cure the options from exposure under Section 409A before December 31, 2008. The Company took action in fiscal year 2008 to cure certain options from exposure under Section 409A. There can be no assurance that Maxim's action cured all potential circumstances in which Section 409A would apply. Should it be found that excise taxes under

Table of Contents

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Section 409A apply to option holders subsequent to the Company's ability to cure the options from exposure to Section 409A, and the Company decides to reimburse option holders for such taxes, the Company's results of operations may be materially adversely affected.

Also as a result of its investigation into equity awards, the Company has determined that certain payroll taxes, interest and penalties apply under various sections of the Internal Revenue Code, various state tax statutes, and tax statutes in various foreign jurisdictions. Maxim has reviewed these potential liabilities and accrued the estimated probable amount of the liability. There can be no assurance that Maxim's accruals covered all potential circumstances in which additional payroll taxes, interest and penalties would apply. Should it be found that additional payroll taxes, interest and penalties would apply, our results of operations may be materially adversely affected.

Indemnifications

The Company indemnifies certain customers, distributors, suppliers, and subcontractors for attorney fees and damages and costs awarded against these parties in certain circumstances in which the Company's products are alleged to infringe third party intellectual property rights, including patents, registered trademarks, or copyrights. The terms of the Company's indemnification obligations are generally perpetual from the effective date of the agreement. In certain cases, there are limits on and exceptions to the Company's potential liability for indemnification relating to intellectual property infringement claims.

Legal fees associated with indemnification obligations, defense and other related costs

Pursuant to the Company's charter documents and indemnification agreements, the Company has certain indemnification obligations to its officers, directors, and certain former officers and directors. Pursuant to such obligations, the Company has incurred expenses related to legal fees and expenses advanced to certain former officers of the Company who are subject to pending civil charges by the SEC and other governmental agencies in connection with Maxim's historical stock option granting practices. The Company expenses such amounts as incurred.

NOTE 11: SELF-INSURANCE ACCRUALS

The Company is self-insured with respect to defective product claims, employment practice claims and general liability. Accruals are primarily based on the actuarially estimated, undiscounted cost of claims, which includes incurred-but-not-reported claims. Amounts accrued for defective product claims, employment practice claims, workers' compensation claims and general liability in the amount of \$13.3 million and \$11.7 million are included in accrued expenses in the Condensed Consolidated Balance Sheets as of December 23, 2006 and June 24, 2006, respectively.

In addition to the above, the Company is primarily self-insured with respect to healthcare benefits for most of its domestic employees. Accruals are primarily based on estimated incurred-but-not-reported claims. Amounts accrued for employee healthcare claims included in Accrued salary and related expenses in the Condensed Consolidated Balance Sheets were immaterial as of December 23, 2006 and June 24, 2006, respectively.

NOTE 12: COMMON STOCK REPURCHASES

From fiscal years 2002 through 2006, the Board of Directors authorized the Company to repurchase up to 53.5 million shares of the Company's common stock from time to time at the discretion of the Company's management. As of June 24, 2006, approximately 7.8 million shares remained available under the repurchase authorization.

During the three months ended September 23, 2006, the Company repurchased 2.1 million shares of its common stock for \$60.8 million. As of December 23, 2006, approximately 5.7 million shares remained available for repurchase under the repurchase authorization approved by the Board of Directors, which has no expiration date. Common stock repurchased is retired and is not held as treasury stock.

Table of Contents**MAXIM INTEGRATED PRODUCTS, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

In connection with the stock options investigation, the Company suspended repurchases of stock under this program as of September 23, 2006.

NOTE 13: DEFERRED COMPENSATION

The Company and the Chief Executive Officer (CEO) have entered into a deferred compensation plan, pursuant to which the CEO defers receipt of a portion of his cash compensation. Deferred compensation bears interest at 4%. Compensation deferred on or prior to December 31, 2004, including interest, is payable upon the CEO's termination over a five-year period. In June 2006, the Board of Directors approved payment of the pre December 31, 2004 deferred amounts in 15 quarterly installments starting on September 21, 2006 through March 18, 2010. Compensation deferred after December 31, 2004, including interest, is payable under the same terms and conditions as compensation deferred on or prior to December 31, 2004, except to the extent that those terms and conditions would cause a violation of Section 409A of the Internal Revenue Code, as supplemented by any guidance issued by the Internal Revenue Service thereunder. As of December 23, 2006 and June 24, 2006, the CEO's deferred compensation balances, including interest thereon, totaled \$30.6 million and \$29.6 million, respectively, which is included in accrued salary and related expenses in the Condensed Consolidated Balance Sheets.

NOTE 14: OTHER ASSETS

The components of other assets consist of:

	December 23, 2006	June 24, 2006
	(in thousands)	
Deferred tax assets	\$ 53,565	\$ 36,410
Other	34,209	33,527
	\$ 87,774	\$ 69,937

NOTE 15: SUBSEQUENT EVENTS

On December 31, 2006, John F. Gifford retired from his positions as Company President, Chief Executive Officer, and Chairman of the Board of Directors. On January 5, 2007, the Company and Mr. Gifford entered into a Binding Memorandum of Understanding (MOU) which superseded the employment agreement previously entered into between the Company and Mr. Gifford as amended and restated in 1994. Under the MOU, Mr. Gifford was employed by the Company on a part-time basis on matters assigned to him by the Company and would receive certain compensation and benefits. Mr. Gifford remained with the Company on a part-time basis as a strategic advisor until January 26, 2007 when he voluntarily resigned without good reason. In accordance with the MOU, the Company did not make any payment or allow Mr. Gifford to continue to vest in any equity awards. The Board did not approve the payment of any bonus to Mr. Gifford for fiscal year 2007 service and Mr. Gifford was not paid any such bonus. In connection with the MOU, the Company recorded a post-retirement obligation estimate of \$3.1 million in fiscal year 2007 for Mr. Gifford. Before December 31, 2006, \$3.1 million was distributed to Mr. Gifford from his deferred compensation account. In addition, in January 2007, pursuant to the Retirement Agreement, \$22.4 million was distributed to Mr. Gifford from his deferred compensation account. In May 2008, the remaining balance of \$7.1 million was distributed to Mr. Gifford from his deferred compensation account.

In February 2007, the Company entered into a five-year supply agreement with Seiko Epson Corporation (Epson) under which Epson will manufacture the Company's mixed signal semiconductor product at Epson's fabrication facility located in Sakata, Japan. Epson and the Company will cross-license key mixed-signal process technologies which will be deployed at Epson's facility.

In connection with transferring certain wafer manufacturing production from its San Jose, California facility to Epson's facility, the Company incurred an asset impairment charge of \$10.2 million in the fourth quarter of fiscal year 2007 and also recognized \$2.4 million in severance and benefits for employee terminations resulting from this decision. The transfer was completed in the second quarter of fiscal year 2008.

Table of Contents

MAXIM INTEGRATED PRODUCTS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In May 2007, the Company acquired a wafer manufacturing facility from Atmel Corporation located in Irving, Texas for \$38.8 million.

In September 2007, as a result of changes in NASDAQ regulations, the Company decided to cash settle all options expiring as a result of the expiration of the 10 year contractual term during the Blackout Period (goodwill payment) based a price determined by a formula approved by the Board of Directors. The cash payment is subject to the option holder executing a release of all claims relating to the option. The goodwill payment modification changed the classification of the associated awards from equity to liability instruments. The modification resulted in a reclassification from additional paid in capital to accrued salaries and related expenses of \$126.8 million and incremental compensation expenses of \$27.5 million. The Company made goodwill payments totaling \$117.3 million in fiscal year 2008.

In October 2007, the Company acquired the storage products business from Vitesse Semiconductor Corporation for approximately \$64.1 million in cash (including direct costs) and agreed to pay up to an additional \$12 million if the acquired business meets certain financial goals through the period ended October 28, 2008.

In January 2008, the Company announced the wind down and eventual closure of its wafer manufacturing facility in Dallas over an 18-month time period and the restructuring of certain businesses including the cancellation of research and development for the handset radio frequency transceiver product line. Estimated restructuring costs associated with these actions of \$6.2 million will be incurred over the 18 month time period for severance and benefits for the employees to be terminated. In connection with the closure of the Dallas facility, the Company also reevaluated the useful lives and salvage values of the fixed assets used in the facility based on the new period of intended use. As a result, the Company changed its depreciable lives and salvage values resulting in the recognition of additional depreciation of \$22.6 million in fiscal year 2008.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The Company disclaims any duty to and undertakes no obligation to update any forward-looking statement, whether as a result of new information relating to existing conditions, future events or otherwise or to release publicly the results of any future revisions it may make to forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events except as required by federal securities laws. Readers are cautioned not to place undue reliance on such statements, which speak only as of the date of this Quarterly Report on Form 10-Q. Readers should carefully review future reports and documents that the Company files from time to time with the SEC, such as its annual reports on Form 10-K (particularly Management's Discussion and Analysis of Financial Condition and Results of Operations), its quarterly reports on 10-Q (particularly Management's Discussion and Analysis of Financial Condition and Results of Operations), and any current reports on Form 8-K.

Restatements of Prior Period Condensed Consolidated Financial Statements in Previous Filings

In this quarterly report on Form 10-Q, we restated our condensed consolidated statements of income for the three and six months ended December 23, 2006 and condensed consolidated statement of cash flows for the six months ended December 23, 2006 as discussed in Note 2 to the Condensed Consolidated Financial Statements. The following Management's Discussion and Analysis reflects the restatement.

Overview

Maxim Integrated Products, Inc. (Maxim or the Company and also referred to as we, our or us) designs, develops, manufactures, and markets a broad range of linear and mixed-signal integrated circuits, commonly referred to as analog circuits, for a large number of geographically diverse customers and is incorporated in the state of Delaware. The Company also provides a range of high-frequency process technologies and capabilities that can be used in custom designs. The analog market is fragmented and characterized by many diverse applications, a great number of product variations and, with respect to many circuit types, relatively long product life cycles. The Company is a global company with manufacturing facilities in the United States, testing facilities in the Philippines and Thailand, and sales and circuit design offices throughout the world. The major end-markets the Company's products are sold in are the communications, computing, consumer and industrial markets.

Table of Contents

RESULTS OF OPERATIONS

Net Revenues

Net revenues were \$497.5 million and \$445.5 million for the three months ended December 23, 2006 and December 24, 2005, respectively, an increase of 11.7%. Net revenues for the six months ended December 23, 2006 and December 24, 2005, were \$1,000.2 million and \$869.6 million, respectively, an increase of 15.0%. The increase in net revenues for three and six months ended December 23, 2006 as compared to the three and six months ended December 24, 2005 was primarily due to unit shipments increasing by more than 25%, partially offset by a change in product mix related to increased sales of products with lower average selling prices.

During the three months ended December 23, 2006 and December 24, 2005, approximately 78% of net revenues were derived from customers outside of the United States. During the six months ended December 23, 2006 and December 24, 2005, approximately 78% and 77%, respectively, of net revenues were derived from customers outside of the United States. While the majority of these sales are denominated in U.S. dollars, we enter into foreign currency forward contracts to mitigate our risks on firm commitments and net monetary assets denominated in foreign currencies. The impact of changes in foreign exchange rates on revenue and our results of operations for the three and six months ended December 23, 2006 and December 24, 2005 was immaterial.

Gross Margin

Our gross margin as a percentage of net revenues was 62.0% and 65.8% for the three months ended December 23, 2006 and December 24, 2005, respectively. The gross margin percentage for the three months ended December 23, 2006 as compared to the three months ended December 24, 2005, decreased primarily due to an increase of inventory write-downs for inventories in excess of demand. Inventory write-downs increased by \$7.6 million during the three months ended December 23, 2006 as compared to the three months ended December 24, 2005. Inventory write-downs were \$7.6 million and \$0.0 million for the three months ended December 23, 2006 and December 24, 2005, respectively. In addition, product mix combined with decreased average unit selling prices contributed to an unfavorable impact on gross margin percentage for the three months ended December 23, 2006 as compared to the three months ended December 24, 2005.

Our gross margin as a percentage of net revenues was 60.7% and 66.2% for the six months ended December 23, 2006 and December 24, 2005, respectively. The gross margin percentage for the six months ended December 23, 2006 as compared to the six months ended December 24, 2005, decreased due to an increase in stock-based compensation of \$18.5 million and increased inventory write-downs of \$14.6 million. The increase in stock-based compensation for the six months ended December 23, 2006 as compared to six months ended December 24, 2005 was primarily due to the extension of the terms of vested stock options that expire during the Blackout Period as a result of the expiration of the 10 year contractual term and the resulting modification charge. In addition, product mix combined with decreased average unit selling prices contributed to an unfavorable impact on gross margin percentage for the six months ended December 23, 2006 as compared to the six months ended December 24, 2005.

Research and Development

Research and development expenses were \$138.3 million and \$123.4 million for the three months ended December 23, 2006 and December 24, 2005, respectively, which represented 27.8% and 27.7% of net revenues, respectively. The increase in research and development expenses was primarily due to increased salary and related expenses and increased stock-based compensation. Salary and related expenses for the three months ended December 23, 2006 as compared to the three months ended December 24, 2005 increased by \$11.6 million due to salary increases and hiring additional engineers to support our research and development and process development efforts. Stock-based compensation increased by \$3.2 million for the three months ended December 23, 2006 as compared to three months ended December 24, 2005.

Research and development expenses were \$351.6 million and \$252.9 million for the six months ended December 23, 2006 and December 24, 2005, respectively, which represented 35.2% and 29.1% of net revenues, respectively. The increase in research and development expenses was primarily due to an increase in stock-based compensation and increased salary and related expenses. Stock-based compensation increased by \$82.7 million for the six months

Table of Contents

ended December 23, 2006 as compared to six months ended December 24, 2005 primarily due to the extension of the terms of vested stock options that expire during the Blackout Period as a result of the expiration of the 10 year contractual term and the resulting modification charge. Salary and related expenses for the six months ended December 23, 2006 as compared to six months ended December 24, 2005 increased by \$15.4 million due to salary increase and hiring additional engineers to support our research and development and process development efforts.

The level of research and development expenditures as a percentage of net revenues will vary from period to period, depending, in part, on the level of net revenues and, in part, on our success in recruiting the technical personnel needed for our new product introductions and process development, and on the level of stock-based compensation expense. We view research and development expenditures as critical to maintaining a high level of new product introductions, which in turn are critical to our plans for future growth.

Selling, General and Administrative

Selling, general and administrative expenses were \$43.0 million and \$36.9 million for the three months ended December 23, 2006 and December 24, 2005, respectively, which represented 8.6% and 8.3% of net revenues, respectively. The increase in selling, general, and administrative expenses for the three months ended December 24, 2005 as compared to the three months ended December 25, 2004 was primarily due to an increase of \$3.3 million in salary and related expenses resulting from hiring additional headcount to support our growth. In addition, legal expenses increased by \$2.7 million primarily due to costs related to the investigation of our stock option granting practices.

Selling, general and administrative expenses were \$112.7 million and \$74.3 million for the six months ended December 23, 2006 and December 24, 2005, respectively, which represented 11.3% and 8.5% of net revenues, respectively. The increase in selling, general, and administrative expenses for the six months ended December 23, 2006 as compared to the six months ended December 24, 2005 was primarily due to increased stock-based compensation, increased salary and related expenses and increased legal expenses. Stock-based compensation increased by \$25.3 million for the six months ended December 23, 2006 as compared to six months ended December 24, 2005 primarily due to the extension of the terms of vested stock options that expire during the Blackout Period as a result of the expiration of the 10 year contractual term and the resulting modification charge. Salary and related expenses for the six months ended December 23, 2006 as compared to the six months ended December 24, 2005 increased by \$4.7 million due to salary increases and the hiring of additional headcount to support our growth. Legal expenses increased by \$5.9 million for the six months ended December 23, 2006 as compared to the six months ended December 24, 2005 primarily due to the investigation of our stock option granting practices.

The level of selling, general and administrative expenditures as a percentage of net revenues will vary from period to period, depending on the level of net revenues, our success in recruiting sales and administrative personnel needed to support our operations, and the level of stock-based compensation expense. We expect a significant increase in selling, general and administrative expenditures in fiscal years 2007 and 2008 for expenses associated with our restatement, related private litigation and other associated activities, particularly, for accounting, legal and other professional service fees.

Table of Contents**Stock-based Compensation**

The following tables show stock-based compensation expense by type of award and resulting tax effect included in the Condensed Consolidated Statements of Income for the three and six months ended December 23, 2006 and December 24, 2005:

	Three Months Ended		Six Months Ended	
	December 23, 2006	December 24, 2005	December 23, 2006	December 24, 2005
	(In thousands)			
Cost of goods sold				
Stock options	\$ 10,620	\$ 15,656	\$ 41,788	\$ 32,279
Employee stock purchase plan		658	1,431	1,428
Restricted stock units	5,065		9,025	
	15,685	16,314	52,244	33,707
Research and development expense				
Stock options	21,955	29,491	121,103	62,535
Employee stock purchase plan		2,146	4,672	4,660
Restricted stock units	12,853		24,159	
	34,808	31,637	149,934	67,195
Selling, general and administrative expense				
Stock options	8,642	11,959	42,820	23,190
Employee stock purchase plan		658	1,431	1,428
Restricted stock units	3,038		5,629	
	11,680	12,617	49,880	24,618
Total stock-based compensation expense				
Stock options	41,217	57,106	205,711	118,004
Employee stock purchase plan		3,462	7,534	7,516
Restricted stock units	20,956		38,813	
Pre-tax stock-based compensation expense	62,173	60,568	252,058	125,520
Less: Income tax effect	21,465	19,766	87,201	40,913
Net stock-based compensation expense	\$ 40,708	\$ 40,802	\$ 164,857	\$ 84,607

Interest Income and Other, Net

Interest income and other, net, was \$14.8 million for the three months ended December 23, 2006, compared to \$11.5 million for the three months ended December 24, 2005, respectively. Interest income and other, net, was \$28.2 million for the six months ended December 23, 2006, compared to \$22.5 million for the six months ended December 24, 2005, respectively. The increase was mainly due to higher average interest rates partially offset by lower average levels of invested cash, cash equivalents, and short-term investments.

Provision for Income Taxes

The effective income tax rate for the three months ended December 23, 2006 and December 24, 2005 was 31.1% and 32.4%, respectively. The effective income tax rate for the six months ended December 23, 2006 and December 24, 2005 was 31.1% and 32.4%, respectively. The decrease in the effective tax rate for three and six months ended December 23, 2006 compared to three and six months ended December 24, 2005 was primarily due to the extension of the Federal research tax credit, which had expired on December 31, 2005. The effective rates were

Edgar Filing: MAXIM INTEGRATED PRODUCTS INC - Form 10-Q

lower than the U.S. federal and state combined statutory rate primarily due to tax benefits generated by export sales, the research and development credit, and the domestic production activities deduction.

The Company's net deferred tax asset at December 23, 2006 was \$281.3 million. The Company believes it is more likely than not that the net deferred tax assets will be realized based on historical earnings and expected levels of

Table of Contents

future taxable income. Levels of future taxable income are subject to the various risks and uncertainties as described in this Report and in the Company's Annual Report on Form 10-K for the fiscal year ended June 24, 2006. An increase in the valuation allowance against net deferred tax assets may be necessary if it becomes more likely than not that all or a portion of the net deferred tax assets will not be realized. The Company periodically assesses the need for increases to the deferred tax asset valuation allowance.

Recently Issued Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109* (FIN 48), which prescribes comprehensive guidelines for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on tax returns. FIN 48, effective for fiscal years beginning after December 15, 2006, seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. The cumulative effect of applying FIN 48 is expected to result in a \$9.4 million and \$19.2 million decrease in retained earnings and additional-paid-in-capital, respectively, at the beginning of fiscal year 2008.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosures about fair value measurements. The statement clarifies that the exchange price is the price in an orderly transaction between market participants to sell an asset or transfer a liability at the measurement date. The statement emphasizes that fair value is a market-based measurement and not an entity-specific measurement. It also establishes a fair value hierarchy used in fair value measurements and expands the required disclosures of assets and liabilities measured at fair value. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. In addition, in February 2008, the FASB issued FSP No. 157-1, *Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13* (FSP 157-1) and FSP No.157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2). FSP 157-1 amends SFAS 157 to remove certain leasing transactions from its scope. FSP 157-2 delays the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. The Company is currently evaluating the impact of adopting SFAS 157 on the Company's consolidated financial condition, results of operations and liquidity.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS 158). SFAS 158 amends SFAS No. 87, *Employers' Accounting for Pensions*, SFAS No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits*, SFAS No. 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions*, and SFAS No. 132 (revised 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*. SFAS 158 requires employers to recognize in the statement of financial position an asset for a plan's overfunded status or a liability for a plan's underfunded status. It also requires employers to measure plan assets and obligations that determine the funded status as of the end of the fiscal year. Lastly, employers are required to recognize changes in the funded status of a defined benefit postretirement plan in the year that the changes occur with the changes reported in comprehensive income. SFAS 158 is required to be adopted by entities with fiscal years ending after December 15, 2006. The adoption of SFAS 158 in fiscal year 2007 is not expected to have a material impact on the Company's consolidated financial condition, results of operations or liquidity.

In September 2006, the SEC released Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108), which addresses how uncorrected errors in previous years should be considered when quantifying errors in current year financial statements. SAB 108 requires registrants to consider the effect of all carry over and reversing effects of prior-year misstatements when quantifying errors in current year financial statements. SAB 108 does not change the SEC staff's previous guidance on evaluating the materiality of errors. It allows registrants to record the effects of adopting SAB 108 guidance as a cumulative-effect adjustment to retained earnings. This adjustment must be reported in the annual financial statements of the first fiscal year ending after November 15, 2006. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial condition, results of operations or liquidity.

Table of Contents

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits companies to choose to measure certain financial instruments and certain other items at fair value. The standard requires that unrealized gains and losses on items for which the fair value option has been elected be reported in earnings. The Company is required to adopt the provisions of SFAS 159 as of the beginning of the fiscal year that begins after November 15, 2007, although earlier adoption is permitted. The adoption of SFAS 159 is not expected to have a material impact on the Company's consolidated financial position, results of operations or liquidity.

In March 2007, the FASB ratified Emerging Issues Task Force Issue No. 06-10, *Accounting for Collateral Assignment Split-Dollar Life Insurance Agreements* (EITF 06-10). EITF 06-10 provides guidance for determining a liability for the post-retirement benefit obligation as well as recognition and measurement of the associated asset on the basis of the terms of the collateral assignment agreement. EITF 06-10 is effective for fiscal years beginning after December 15, 2007, although earlier adoption is permitted. We early adopted EITF 06-10 during the three months ended September 29, 2007 and recorded a cumulative effect adjustment as a net reduction to retained earnings of approximately \$14.1 million. No corporate income tax benefit was netted against the charge to retained earnings because the liabilities being accrued are not deductible for corporate income tax purposes.

In June 2007, the FASB ratified Emerging Issues Task Force Issue No. 07-3, *Accounting for Nonrefundable Advance Payments for Goods or Services to Be Used in Future Research and Development Activities* (EITF 07-3). EITF 07-3 requires nonrefundable advance payments for goods or services that will be used or rendered for future research and development activities to be deferred and capitalized. Such amounts should be recognized as an expense as the related goods are delivered or the related services are performed. Entities should continue to evaluate whether they expect the goods to be delivered or services to be rendered. If an entity does not expect the goods to be delivered or services to be rendered, the capitalized advance payment should be charged to expense. EITF 07-3 applies prospectively for new contractual arrangements entered into in fiscal years beginning after December 15, 2007. Earlier adoption is not permitted. The adoption of EITF 07-3 is not expected to have a material effect on the Company's consolidated financial position or results of operations.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51* (SFAS 160). SFAS 160 amends Accounting Research Bulletin No. 51, *Consolidated Financial Statements*, to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS 160 improves the relevance, comparability and transparency of financial statements and eliminates diversity in practice that currently exists in accounting for transactions between an entity and noncontrolling interests. This standard is effective for annual periods beginning after December 15, 2008. Earlier adoption is prohibited. We do not believe the adoption of SFAS 160 will have a material effect on our consolidated financial position, results of operations and cash flows.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141(R)) which replaces SFAS No. 141, *Business Combinations*. SFAS 141(R) requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction; establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; and requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. This standard is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is currently evaluating the impact of adopting SFAS 141(R) on the Company's consolidated financial position or results of operations.

In December 2007, the FASB ratified EITF Issue No. 07-1, *Accounting for Collaborative Arrangements* (EITF 07-01). EITF 07-1 provides guidance on the classification, income statement presentation and disclosure associated with collaborative arrangements involving parties considered to be active participants to an activity and are exposed to significant risks and rewards which are dependent on the commercial success of the activity. EITF 07-1 is effective for fiscal years beginning after December 15, 2008. The adoption of EITF 07-01 is not expected to have a material impact on our consolidated financial position, results of operations or cash flows.

Table of Contents

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* – an amendment of SFAS No. 133 (SFAS 161) which changes the disclosure requirements for derivative instruments and hedging activities. SFAS 161 requires the Company to provide enhanced disclosures about (a) how and why the Company uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and its related interpretations, and (c) how derivative instruments and related hedged items affect the Company's financial position, financial performance and cash flows. These disclosure requirements are effective for fiscal years and interim periods beginning after November 15, 2008. We are currently evaluating the impact of adopting SFAS 161 on our consolidated financial position, results of operations and cash flows.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). SFAS 162 identifies the sources of accounting consistent with GAAP. SFAS 162 is effective sixty days following the SEC's approval of the Public Company Accounting Oversight Board's amendments to AU Section 411 on September 16, 2008, *The Meaning of Present fairly in conformity with generally accepted accounting principles*. We are currently evaluating the potential impact, if any, of the adoption of SFAS 162 on our consolidated financial statements.

BACKLOG

At the end of the second quarter of fiscal year 2007, backlog shippable within the next 12 months was approximately \$404 million, including approximately \$343 million requested for shipment in the third quarter of fiscal year 2007. The Company's previous quarter ending backlog shippable within the next 12 months was approximately \$415 million, including approximately \$365 million that was requested for shipment in the second quarter of fiscal year 2007.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The Company's primary sources of funds the six month period ended December 23, 2006 were net cash generated from operating activities of \$301.1 million. In addition, we received approximately \$25.7 million of proceeds from the exercise of stock options and purchases of common stock under the Employee Stock Participation Plan.

The principal uses of funds for the six month period ended December 23, 2006 were repurchases of our common stock of \$60.8 million, \$125.8 million for income tax payments, purchases of property, plant and equipment of \$194.4 million, payment of dividends of \$100.1 million, and \$12.4 million related to cash settlements of vested restricted stock units and payouts under the RSU loan program.

As of December 23, 2006, the Company's available funds consisted of \$1,315.7 million in cash, cash equivalents, and short-term investments. This amount represents a decrease of \$26.9 million from \$1,342.7 million as of June 24, 2006. The Company anticipates that the available funds and cash generated from operations will be sufficient to meet cash and working capital requirements, including its anticipated level of capital expenditures and dividend payments for the next twelve months.

Significant Cash Outlays Resulting From the Restatement of Previously Reported Financial Statements

Since the beginning of the stock option investigation through June 28, 2008, we have incurred significant cash outlays as noted below:

We have incurred \$91.9 million for expenses associated with the investigation, subsequent restatement of our previously filed financial statements, private litigation and other associated activities, particularly, for accounting, legal and other professional service fees. We will incur significant expenses for these in fiscal year 2009.

Table of Contents

We have spent \$117.3 million to cash-settle stock options which expired as a result of the expiration of the 10 year contractual term during the Blackout Period due to the inability of the affected employees to exercise their stock options. We will incur significant cash payments for certain stock options that expire subsequent to June 28, 2008.

We have spent \$54.8 million in the form of non-recourse loans to employees for common stock that they would have otherwise been able to receive in settlement for RSUs that vested during the Blackout Period. We will loan employees additional amounts subsequent to June 28, 2008 for RSUs that vest during the Blackout Period and such amounts may be significant.

We have spent \$10.0 million to cash-settle certain international employees' RSUs which vested during the Blackout Period for which we were unable to deliver the shares of common stock. We will pay additional amounts subsequent to June 28, 2008 to cash-settle certain international employees' RSUs which vest during the Blackout Period.

In addition to the above, while we intend to vigorously defend against lawsuits related to our past stock options granting practices, we do not presently know whether we will be successful in such lawsuits. If we are not successful, we may be required to pay substantial cash settlement expenses which could have a material adverse impact on our results of operations and liquidity.

Off-Balance-Sheet Arrangements

As of December 23, 2006, the Company did not have any material off-balance-sheet arrangements, as defined in Item 303 (a)(4)(ii) of SEC Regulation S-K.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's market risk has not changed materially from the interest rate and foreign currency risks disclosed in Item 7A of the Company's Annual Report on Form 10-K for the fiscal year ended June 24, 2006.

Table of Contents

ITEM 4: CONTROLS AND PROCEDURES

Stock Option Investigation

As described in the Explanatory Note in this Form 10-Q, we have restated certain of our historical consolidated financial statements to record additional stock-based compensation expense as a result of errors identified in connection with our independent stock option review. We have also included in the restatement certain other adjustments to these historical consolidated financial statements.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our current chief executive officer (CEO) and our interim chief financial officer (CFO), evaluated the effectiveness of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act as of December 23, 2006. The purpose of these controls and procedures is to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules, and that such information is accumulated and communicated to our management, including our CEO and our CFO, to allow timely decisions regarding required disclosures.

Our management, including the CEO and the CFO, has concluded that the Company's disclosure controls and procedures were not effective as of December 23, 2006 due to the presence of the material weaknesses in our internal control over financial reporting relating to deficiencies in our (1) control environment, due to the Company's failure to maintain proper tone and control consciousness at the executive management level, effective policies and procedures for monitoring our stock administration department, effective monitoring controls to detect or prevent non-compliance with the Company's policies regarding option grants, and proper lines of communication regarding identification and processing of stock option transactions; and (2) controls over stock option practices and the related accounting for stock option transactions, due to the Company's failure to maintain sufficient procedures and controls over granting and accounting for stock options, lack of sufficient staffing, accounting knowledge and training among the personnel dealing with stock options, and lack of complete and consistent documentation for stock option transactions. These material weaknesses are more fully described in our Annual Report on Form 10-K for the fiscal year ended June 24, 2006, and continue to exist as of December 23, 2006.

Changes in Internal Control Over Financial Reporting

Other than the activities to remediate our material weaknesses described in Item 9A of our Annual Report on Form 10-K for the fiscal year ended June 24, 2006 that took place or that were ongoing during the three months ended December 23, 2006, there were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) that occurred during the three months ended December 23, 2006 that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

Implementation of Remedial Actions of Material Weaknesses

Throughout the second half of fiscal year 2007 and fiscal year 2008, the Company has implemented the remedial actions described in Item 9A of our Annual Report on Form 10-K for the fiscal year ended June 24, 2006.

As of the date of this filing, the Company has completed its evaluation of such remedial actions, including the design of the new policies, procedures and controls it has instituted, which have been in place for a sufficient period of time, and has tested their operating effectiveness. The Company considers that the corrective steps have improved the effectiveness of the Company's internal control over financial reporting and have remediated the material weaknesses discussed above.

Inherent Limitations on the Effectiveness of Internal Controls

A system of internal control over financial reporting is intended to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with GAAP and no control system, no matter how well designed and operated, can provide absolute assurance. The design of any control system

Table of Contents

is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of its inherent limitations, internal control over financial reporting may not prevent or detect financial statement errors and misstatements. Also, projection of any evaluation of effectiveness to future periods is subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

PART II. OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

The information set forth above under Note 10 contained in the Notes to Condensed Consolidated Financial Statements is incorporated herein by reference.

ITEM 1A: RISK FACTORS

A description of the risks associated with our business, financial condition and results of operation is set forth in Item 1A Risk Factors of our Annual Report on Form 10-K for the fiscal year ended June 24, 2006, which is herein incorporated by reference. We have no material changes in our risks from such description.

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The Company did not make stock repurchases during the second quarter of fiscal year 2007. During fiscal year 2006, the Company repurchased 15.6 million shares of its common stock for \$580.4 million. At June 24, 2006, approximately 7.8 million shares remained available under the repurchase authorization approved by the Board of Directors. All shares repurchased during the six months ended December 23, 2006 were pursuant to the Company's share repurchase programs described above, which have no expiration date. As of December 23, 2006, approximately 5.7 million shares remained available under the repurchase authorization. In connection with the stock options investigation, we suspended repurchases of stock under this program as of September 23, 2006.
