Your Fund's Performance

Fund objectives

The primary investment objective of **The High Yield Income Fund, Inc.** is to maximize current income to shareholders. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The Fund will seek to achieve its objectives by investing primarily in corporate bonds rated below investment grade by independent rating agencies. Bonds rated below investment grade are commonly known as "junk" bonds and are subject to greater risk of default and higher volatility than investment grade bonds. Furthermore, these bonds tend to be less liquid than higher-quality bonds. The Fund is diversified, and we carefully research companies to find those with attractive yields and improving credit quality. There can be no assurance that the Fund will achieve its investment objectives.

Subject to shareholder approval, all of the assets of the Fund will be acquired by the Dryden High Yield Fund, Inc. (the Dryden Fund) and the Dryden Fund will assume all of the liabilities of the Fund on or about June 22, 2009.

Past performance does not guarantee future results and current performance may be lower or higher than the past performance data quoted. The investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than the original cost. There are no sales charges.

¹Source: Prudential Investments LLC. Total return of the Fund represents the change in net asset value from the beginning of the period (9/1/08) through the end (2/28/09) and assumes the reinvestment of dividends and distributions. Shares of the Fund are traded on the New York Stock Exchange, Inc. using the symbol HYI. Past performance is not indicative of future results.

²Source: Barclays Capital. The Barclays Capital U.S. Corporate High Yield 1% Issuer Capped Index (1% Issuer Capped Index) covers the universe of U.S. dollar denominated, non-convertible, fixed rate, noninvestment grade debt. Issuers are capped at 1% of the Index. Index holdings must have at least one year to final maturity, at least \$150 million par amount outstanding, and be publicly issued with a rating of Ba1 or lower. Index returns do not include the effect of any sales charges, mutual fund operating expenses or taxes.

³Source: Barclays Capital. The Barclays Capital U.S. Corporate High Yield 2% Issuer Capped Index (the Prior Index) is an unmanaged index of fixed-rate, noninvestment grade debt securities with at least one year remaining to maturity. However, the representation of any single bond issuer is restricted to a maximum of 2% of the total index.

⁴Source: Lipper Inc. These are the average returns of 31 funds in the Closed-End High Current Yield Funds (Leveraged) category for six months.

The High Yield Income Fund, Inc 17

Portfolio of Investments

as of February 28, 2009 (Unaudited) continued

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The following is a summary of the inputs used as of February 28, 2009 in valuing the Fund's assets carried at fair value:

Valuation inputs	Investments in Securities	Other Financial Instruments*
Level 1 Quoted Prices	\$ 1,125	\$
Level 2 Other Significant Observable Inputs	55,507,894	
Level 3 Significant Unobservable Inputs	76	
Total	\$ 55,509,095	\$

* Other financial instruments are derivative instruments not reflected in the Portfolio of Investments, such as futures, forwards and swap contracts, which are valued at the unrealized appreciation/depreciation on the instrument.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities
Balance as of 8/31/08	\$ 76
Realized gain (loss)	
Change in unrealized appreciation (depreciation)	
Net purchases (sales)	
Transfers in and/or out of Level 3	
Balance as of 2/28/09	\$ 76

The High Yield Income Fund, Inc 23

Notes to Financial Statements

(Unaudited)

The High Yield Income Fund, Inc. (the Fund) was organized in Maryland on August 21, 1987 as a diversified, closed-end management investment company. The Fund's primary investment objective is to maximize current income to shareholders through investment in a diversified portfolio of high-yield, fixed-income securities rated in the medium to lower categories by recognized rating services, or non-rated securities of comparable quality. As a secondary investment objective, the Fund will seek capital appreciation, but only when consistent with its primary objective. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic or political developments in a specific industry or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Securities Valuation: Securities for which market quotations are readily available including securities listed on national securities exchanges and those traded over-the-counter are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by a principal market maker. Securities for which market quotations are not readily available or for which the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the adviser, does not represent fair value, are valued by a Valuation Committee appointed by the Board of Directors, in consultation with the adviser. When determining the fair valuation of securities some of the factors influencing the valuation include, the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Short-term debt securities, which mature in sixty days or less, are valued at amortized cost, which approximates market value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between the principal amount due at maturity and cost. Short-term debt securities, which mature in more than sixty days, are valued at current market quotations.

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian or designated subcustodians, as the case may be under tri-party repurchase agreements, take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction including accrued interest. If the seller defaults and the value of the collateral declines, or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. The Fund's custodian will maintain, in a segregated account of the Fund, cash, U.S. Government securities, equity securities or other liquid, unencumbered assets marked to market daily, having a value equal to or greater than the Fund's purchase commitments with respect to certain investments.

Restricted Securities: The Fund may invest up to 20% of its total assets in securities, which are not readily marketable, including those which are restricted as to disposition under securities law (restricted securities).

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Foreign Currency Translation: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the current rates of exchange.

- (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Notes to Financial Statements

(Unaudited) continued

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at the end of the period. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of long-term debt securities sold during the period. Accordingly, such realized foreign currency gains or losses are included in the reported net realized gains or losses on investment transactions.

Net realized gains or losses on foreign currency transactions represent net foreign exchange gains or losses from sales and maturities of short-term securities and forward currency contracts, disposition of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net currency gains or losses resulting from the valuing of foreign currency denominated assets (excluding investments) and liabilities at period-end exchange rates are reflected as a component of net unrealized appreciation or depreciation on investments and foreign currencies.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. companies as a result of, among other factors, the possibility of political or economic instability and the level of governmental supervision and regulation of foreign securities markets.

Security Transactions and Investment Income: Security transactions are recorded on the trade date. Realized and unrealized gains or losses from securities transactions are calculated on the identified cost basis. Interest income, which is comprised of stated coupon rate, original issue discount, market discount and premium, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. The Fund amortizes premium and accretes discounts on debt securities as adjustments to interest income. Expenses are recorded on the accrual basis.

Taxes: For federal income tax purposes, it is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its shareholders. Therefore, no federal income tax provision is required.

Withholding taxes on foreign dividends are recorded net of reclaimable amounts at the time the related income is earned.

Dividends and Distributions: The Fund expects to pay dividends of net investment income monthly and make distributions of net realized capital and currency gains, if any, annually. Dividends and distributions to shareholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified amongst undistributed net investment income, accumulated net realized gain or loss and paid-in capital in excess of par, as appropriate.

Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

The Fund has a management agreement with Prudential Investments LLC (PI). Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser s performance of such services. PI has entered into a subadvisory agreement with Prudential Investment Management, Inc. (PIM). PIM furnishes investment advisory services in connection with the management of the Fund. PI pays for the services of PIM, the compensation of officers and employees of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other costs and expenses.

The management fee paid to PI is computed weekly and payable monthly, at an annual rate of .70 of 1% of the average weekly net assets of the Fund.

PI and PIM are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. (Prudential).

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended February 28, 2009, aggregated \$20,758,862 and \$29,785,733, respectively.

Notes to Financial Statements

(Unaudited) continued

Note 4. Tax Information

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of February 28, 2009, were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Depreciation
\$70,886,595	\$406,253	\$(15,783,753)	\$(15,377,500)

The difference between book basis and tax basis was attributed to deferred losses on wash sales and differences in the treatment of premium amortization and accreting market discount for book and tax purposes.

For federal income tax purposes, the Fund had a capital loss carryforward as of August 31, 2008 of approximately \$19,388,700 of which \$5,010,500 expires in 2009, \$6,960,200 expires in 2010, \$7,076,300 expires in 2011, \$282,300 expires in 2014 and \$59,400 expires in 2016. Accordingly, no capital gains distribution is expected to be paid to shareholders until net realized gains have been realized in excess of such amounts. It is unlikely the Fund will be able to realize the full benefit of the remaining carryforwards prior to the expiration date. Approximately \$3,249,200 of its capital loss carryforward expired unused in the fiscal year ended August 31, 2008. The Fund elected to treat post-October capital losses of approximately \$1,344,400 as having been incurred in the following fiscal year (August 31, 2009).

Management has analyzed the Funds' tax positions taken on federal income tax returns for all open tax years and has concluded that as of February 28, 2009, no provision for income tax would be required in the Funds' financial statements. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 5. Borrowings

The Fund has a credit agreement with State Street Bank & Trust Co. The maximum commitment under this agreement is \$30,000,000. Interest on any such borrowings outstanding fluctuates daily at .85 of 1% over the Federal Funds rate and is payable

monthly. The Fund may utilize these borrowings (leverage) in order to increase the potential for gain on amounts invested. There can be no guarantee that these gains will be realized. There are increased risks associated with the use of leverage. The expiration of the credit agreement is June 29, 2009. The average daily balance outstanding for the six months ended February 28, 2009, was \$18,723,757 at a weighted average interest rate of 1.78%. The maximum face amount of borrowings outstanding at any month-end during the six months ended February 28, 2009 was \$23,500,000.

The Fund pays commitment fees at an annual rate of .15 of 1% of the maximum commitment under the credit agreement, regardless of usage. The commitment fee is accrued daily and paid quarterly. Commitment fees are included in Loan interest expense as reported on the Statement of Operations.

Note 6. Capital

There are 200 million shares of \$.01 par value common stock authorized. Prudential owned 11,000 shares of common stock as of February 28, 2009.

During the six months ended February 28, 2009 the Fund issued 4,678 shares in connection with the reinvestment of dividends. During the year ended August 31, 2008 the Fund did not issue shares in connection with the reinvestment of dividends.

Note 7. Reorganization

On March 10, 2009, the Board of Directors of the Fund approved an Agreement and Plan of Reorganization (the Plan) which provides for the transfer of all the assets of the Fund for Class A shares of the Dryden High Yield Fund, Inc., and the assumption of the liabilities of the Fund. The Plan is subject to approval by the shareholders of the Fund at a special meeting to be held on May 11, 2009.

In the event the Fund is acquired by Dryden High Yield Fund, Inc. pursuant to the Plan, the future utilization of the capital loss carryforward (Note 4) will be limited under certain conditions defined in the Internal Revenue Code of 1986, as amended.

Note 8. Subsequent Events

On March 3, 2009 and April 1, 2009 the Board of Directors of the Fund declared dividends of \$.0400 and \$.0375 per share, respectively, payable on March 31, 2009 and April 30, 2009, respectively, to shareholders of record on March 17, 2009 and April 15, 2009, respectively.

Notes to Financial Statements

(Unaudited) continued

Note 9. New Accounting Pronouncements

In March 2008, the FASB released Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements has not yet been determined.
