Audit Committee

The audit committee of the board of directors was established in accordance with Section 3(a)(58)(A) of the Exchange Act to oversee our corporate accounting and financial reporting processes and audits of its financial statements. The audit committee held seven meetings in fiscal 2009. Our board of directors has determined that each of the members of our audit committee satisfies the requirements for audit committee independence and financial literacy under the current rules and regulations of the SEC and the NYSE. The board of directors has also determined that Messrs. Paisley and Sheridan are each an audit committee financial expert as defined in SEC rules and satisfies the financial sophistication requirements of the NYSE. This designation does not impose on each of Messrs. Paisley or Sheridan any duties, obligations or liabilities that are greater than is generally imposed on him as a member of our audit committee and our board of directors. The audit committee will be responsible for, among other things:

overseeing the accounting and financial reporting processes and audits of our financial statements;

selecting and hiring our independent registered public accounting firm, and approving the audit and non-audit services to be performed by our independent registered public accounting firm;

assisting the board of directors in monitoring the integrity of our financial statements, our internal accounting and financial controls, our compliance with legal and regulatory requirements, the performance of our internal audit function and the qualifications, independence and performance of our independent registered public accounting firm;

providing to the board of directors information and materials to make the board of directors aware of significant financial and audit-related matters that require the attention of the board of directors; and

reviewing and discussing with management and our independent registered public accounting firm our annual and quarterly financial statements and annual and quarterly reports on Form 10-K and 10-Q.

These persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms filed by such person. Based solely on our review of the forms furnished to us and written representations from certain reporting persons, we believe that all filing requirements applicable to our executive officers, directors and persons who beneficially own more than 10% of our Common Stock were complied with in the fiscal year ended March 31, 2009.

ITEM 11. EXECUTIVE COMPENSATION.

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

The principal objectives of our compensation and benefits programs for executive officers are to attract and retain senior executive management, to motivate their performance toward clearly defined corporate goals, and to align their long term interests with those of our stockholders. Our compensation committee believes that maintaining and improving the quality and skills of our management and appropriately incentivizing their performance are critical factors that will affect the long-term value realized by our stockholders.

At the beginning of each fiscal year, our compensation committee establishes corporate goals and objectives for our senior management to address within the fiscal year. Through our annual goal-setting process, individual objectives are aligned with our corporate objectives. We also evaluate and reward our executive officers based on their willingness to take a leadership position in improving the operation of our business and their ability to identify and exploit opportunities to grow our business.

Until our initial public offering in late 2007, our compensation programs for our executive officers reflected the fact that we were a start up company. In an effort to preserve cash resources, our historical compensation programs focused heavily on long-term equity incentives relative to cash compensation. With a relatively larger equity weighting, this approach sought to place a substantial portion of executive compensation at risk by rewarding our executive officers, in a manner comparable to our stockholders, for achieving our business and financial objectives. Beginning in fiscal 2007, as our business had grown beyond the development stage and we were increasingly focused on growing our revenues and improving our operating results and financial condition, we implemented our first cash bonus plan to reward achievement of annual financial objectives. Since becoming a public company, we have designed and implemented compensation programs that combine both long term equity elements and shorter term cash elements.

Other than the cash bonus plans implemented beginning in fiscal 2007, our compensation committee has not adopted any formal or informal policies or guidelines for allocating compensation between cash and equity compensation or among different forms of non-cash compensation. The compensation committee's philosophy is that a substantial portion of an executive officer's compensation should be performance-based, whether in the form of equity or cash compensation. In that regard, we expect to continue to use options or other equity incentive awards as a significant component of compensation because we believe that they best align individual compensation with the creation of stockholder value, and we expect any payments under cash incentive plans to be tied to annual financial performance targets.

Role of Our Compensation Committee

Our compensation committee is comprised of three non-employee members of our board of directors, Messrs. Fong, Wei and Siegel, each of whom is an independent director under the rules of the NYSE, an outside director for purposes of Section 162(m) of the Internal Revenue Code, and a non-employee director for purposes of Rule 16b-3 under the Exchange Act.

Our chief executive officer supports the compensation committee's work by providing information relating to our financial plans, performance assessments of our officers and other personnel-related data. In particular, our chief executive officer, as the person to whom our other officers directly report, is responsible for evaluating individual officers' contributions to corporate objectives as well as their performance relative to individual objectives. At the beginning of each fiscal year, our chief executive officer makes recommendations to the compensation committee with respect to merit salary increases, cash bonuses and stock option grants or other equity incentives. Our compensation committee meets regularly to evaluate, discuss, modify or approve these recommendations. Without the participation of the chief executive officer, as part of the annual review process our

compensation committee conducts a similar evaluation of the chief executive officer's contribution and individual performance and makes determinations after the beginning of each fiscal year with respect to merit salary increases, bonus payments, stock option grants, or other forms of compensation for our chief executive officer.

Our compensation committee has the authority under its charter to engage the services of outside advisors, experts and others for assistance. The compensation committee retained Compensia, Inc. ("Compensia"), an independent executive compensation consulting firm, to assist it in structuring and implementing our executive compensation policies for fiscal 2008. In fiscal 2009, Compensia completed a competitive assessment of the compensation for our executive officers based on companies with annual revenues between \$50 million and \$200 million included in a list of peer group public companies compiled by Compensia and in the April 2008 Radford High Technology Executive Compensation Survey by Aon Consulting, and made recommendations to the compensation committee regarding our overall compensation strategy for our executive officers.

In addition, as discussed below in the section titled, *Competitive Market Review for Fiscal 2010*, in May 2009, the Compensation Committee again engaged Compensia to perform a competitive assessment of the compensation of our executive officers based on an updated list of peer group public companies with annual revenues between \$50 million and \$500 million and the January 2009 Radford High Technology Executive Compensation Survey by Aon Consulting. The results of that assessment are described in the section below titled *Competitive Market Review for fiscal 2010*.

Competitive Market Review for Fiscal 2009

The market for experienced management is highly competitive in the technology industry. We seek to attract and retain the most highly qualified executives to manage each of our business functions, and we face substantial competition in recruiting and retaining management from companies ranging from large and established technology companies to entrepreneurial early-stage companies. We expect competition for appropriate technical, commercial and management skills to remain strong for the foreseeable future.

In July 2008, Compensia completed a competitive assessment of the compensation of our executive officers. This assessment included the identification of a public company peer comparison group for purposes of evaluating our compensation policies against current market trends, an assessment of our executive officers' current compensation as compared to executive officers' compensation at such peer group companies and other companies identified in the April 2008 Radford High Technology Executive Compensation Survey, a profile of our executive officers' equity holdings and potential retention risks, and recommendations for annual equity award levels and equity allocations. The companies included in the identified public company peer compensation group were as follows:

Acme Packet	Maxwell Technologies
Adaptec	Netezza
Aruba Networks	Netscout Systems
Compellent Technologies	Numerex
Data Domain	Opnet Technologies
Datalink	Packeteer
Dot Hill Systems	Sonicwall
Echelon	STEC
Isilon Systems	Sycamore Networks
Lantronix	Veza Networks

Compensia gathered and evaluated our compensation levels relative to compensation data from public filings of the peer companies listed above. In addition, Compensia compared our compensation practices to compensation data from the April 2008 Radford High Technology Executive Compensation Survey by Aon Consulting. The Compensia and Radford surveys used for fiscal 2009 compensation determinations each provided summary compensation data for companies with annual revenues between \$50 million and \$200 million.

Compensia's review concluded that the overall average of base salaries for our Named Executive Officers, consisting of those executive officers identified in the Summary Compensation Table below, fell approximately within the 50th percentile for similar positions and the overall average of our Named Executive Officers' total targeted cash compensation was between the 50th and 75th percentile for similar positions. With respect to equity based incentives, Compensia noted that the unvested equity holdings of most of our Named Executive Officers would significantly decline beginning in fiscal 2009. As a result and as discussed below, the compensation committee considered and approved additional equity incentive grants to executive officers to provide a further retention incentive.

In making its executive compensation determinations for fiscal 2009, our compensation committee relied principally on the identified public company peer group and the April 2008 Radford High Technology Executive Compensation Survey by Aon Consulting (together, the 2009 Compensation Survey Data) to compare our compensation levels to the markets in which we compete for executives. Our compensation committee did not benchmark against any individual companies, however, but relied instead on the ranges provided in the 2009 Compensation Survey Data.

In evaluating the 2009 Compensation Survey Data, our compensation committee compared our compensation practices and levels for each compensation component, including base salary, target annual cash incentive opportunity and equity compensation. The competitive comparisons made in this process were then used to determine appropriate levels of compensation based on market benchmarks for various functional titles.

Principal Components of Executive Compensation

Our executive compensation program consists of five components:

base salary;

annual cash bonuses;

equity-based incentives;

benefits; and

severance/termination protection.

Currently, all of our cash compensation plans provide short-term incentives that are paid out within one year. We do not have any deferred compensation cash plans. Our equity-based incentives are long-term incentives that are based on the parameters described below under Equity Based Incentives. We believe that a program containing each of these components, combining both short and long-term incentives, is necessary to achieve our compensation objectives and that collectively these components have been effective in properly incentivizing our Named Executive Officers and helping to achieve our corporate goals.

Annual Review Process

Our compensation committee reviews data and makes executive compensation decisions on an annual basis, typically during the first quarter of the new fiscal year. In connection with that process, executive officers are responsible for establishing and submitting for review to the chief executive officer (and in the case of the chief executive officer, directly to the compensation committee) their departmental goals and financial objectives for the then current fiscal year. The chief executive officer then compiles the information submitted and provides it, along with information relating to his own personal goals and objectives, to the compensation committee for review. The compensation committee reviews, considers, and may amend the terms and conditions proposed by management. Our chief executive officer participates in the review and consideration of compensation for all executive officers other than himself.

As part of the annual review process, the compensation committee makes determinations of changes in annual base compensation based on numerous factors, including our operating budgets, a review of survey data

relating to base compensation for the position at comparable companies, and individual performance over the prior fiscal year. In May 2008, in connection with the fiscal 2009 annual review process, our compensation committee established the performance objectives for fiscal 2009 under our Employee and Executive Incentive Compensation Plan. As described below, achievement of these performance objectives resulted in the payment of cash bonuses to our executive officers and employees under the Employee and Executive Incentive Compensation Plan. During the annual review process, the compensation committee also considered each executive's equity incentive position, including the extent to which he or she was vested or unvested, the executive's aggregate equity incentive position relative to benchmarks established in the 2009 Compensation Survey Data and the retention value of the executive's aggregate equity incentive position based on the average price of our Common Stock over a certain period and the Black-Scholes value of such equity incentives. In addition, the committee also considered individual officers' equity positions relative to each other and the equity incentive we would expect to offer a newly hired officer in the same position based on current market terms. Historically, our practice has been to provide refresher equity incentive grants, typically in the form of stock options, as an individual officer becomes substantially vested in his or her current equity position. An officer will generally be deemed substantially vested as he or she approaches his fourth year of service following the vesting commencement date of the applicable equity award. Our equity incentives have historically vested over four years.

From time to time, the compensation committee may make off-cycle adjustments in executive compensation as it determines appropriate.

Weighting of Compensation Components

The determination of the board of directors or compensation committee as to the appropriate use and weight of each component of executive compensation is subjective, based on their view of relative importance of each component in meeting our overall objectives and factors relevant to the individual executive. Our committee has not established any specific weightings for the various elements of executive compensation. In connection with its review of survey compensation data provided by Compensia for each executive officer, the compensation committee compares our levels of compensation for each element—base salary, cash incentives, and equity incentives—to peer group levels, and it also compares aggregate total compensation.

Base Salary

Base salary for our chief executive officer and other officers reflects the scope of their respective responsibilities and seniority as well as competitive market factors. Salary adjustments are determined by the compensation committee and are typically based on a comparison of our executive officers' base salaries to those of executive officers in similar positions at our peer public companies, competitive conditions, our overall financial results, our budget requirements, and individual performance.

Our compensation committee believes that competition for experienced executive management in the technology industry has been and will for the foreseeable future continue to be intense. We believe that historic base salaries for our executive officers have been generally within the ranges identified in the compensation survey data that the compensation committee reviews in connection with its annual assessment of our executive officers' compensation.

Our chief executive officer's base salary during fiscal 2009 was increased to \$358,750 from \$350,000 for fiscal 2008. Our compensation committee based this increase principally on our chief executive officer's job performance, a comparison of our chief executive officer's base salary to the 2009 Compensation Survey Data, and our improved financial performance as compared to prior fiscal years.

Our chief financial officer's base salary during fiscal 2009 was increased to \$220,000 from \$210,000 for fiscal 2008. Our compensation committee based this increase principally on Mr. Lares' job performance,

comparison of his base salary to the 2009 Compensation Survey Data, and increasing job responsibilities as we continued the process of implementing new policies and procedures in order to comply with new regulatory and disclosure obligations that we became subject to as a public company.

The base salaries for the other Named Executive Officers for fiscal 2009 were as follows: James Dawson, former vice president of worldwide sales, \$225,000; Jeffrey Price, vice president of engineering, co-founder and director, \$254,400; and Ashok Singhal, chief technical officer and co-founder, \$220,000. Mr. Dawson's salary represented an increase from his \$200,000 salary in fiscal 2008; however, the salaries for Messrs. Price and Singhal were the same as their salaries for fiscal 2008. Our compensation committee determined that increasing Mr. Dawson's salary and maintaining the same salaries for Messrs. Price and Singhal was appropriate based on a comparison of each base salary to the 2009 Compensation Survey Data reviewed by the committee.

Cash Bonuses

Annual cash incentive bonuses for our employees, including our executive officers, are designed principally to reward performance that furthers key corporate goals and to date have focused exclusively on the achievement of annual financial goals. As discussed below, in fiscal 2009, our executive officers were eligible to receive a cash bonus if we achieved specific target levels relating to total revenues and operating income/loss. We believe that the performance objectives used to provide annual cash incentives will change from year-to-year as our business evolves and our priorities change. In order to create appropriate performance incentives, the compensation committee generally sets performance goals that moderately exceed the operating plan approved by our board of directors, but the committee maintains discretion to increase or decrease variable compensation if it determines appropriate.

In May 2008, our compensation committee approved the performance objectives for fiscal 2009 under our Employee and Executive Incentive Compensation Plan. The compensation committee set these targets at levels moderately in excess of the operating plan for fiscal 2009 approved by our board of directors as an incentive for superior performance. In establishing the targets, the compensation committee considered management's historic performance relative to prior operating plans as well as the committee's view of the prospects for our business in fiscal 2009.

Under the fiscal 2009 plan, eligible employees, generally consisting of non-commissioned employees, were eligible to receive a target cash bonus equal to a percentage of their applicable base salary, as follows: non-director employees, 10%; director employees, 15%; executive officers other than the chief executive officer, 40%; and our chief executive officer, 100%. Our chief executive officer's target award of 100% of his base salary is also reflected in his employment agreement. The compensation committee determined the applicable target percentage bonus levels for fiscal 2009 based principally on the impact of bonus payments on our operating results and based on these factors concluded that cash bonus targets equal to 10%, 15%, 40% and 100%, as applicable, of our employees' base salaries were appropriate and within our operating budget for fiscal 2009.

The compensation committee maintains discretion to provide for cash incentive awards under the Employee and Executive Incentive Compensation Plan in excess of the target base salary percentages if we exceed the established financial performance targets. We do not currently have any policy regarding the adjustment or recovery of awards or payments if the relevant performance measures are restated or otherwise adjusted in a manner that would reduce the size of an award or payment. Awards will be reduced if we do not achieve the targets under the plan. The compensation committee may also approve payments of bonuses outside the Employee and Executive Incentive Compensation Plan, regardless of whether performance targets have been achieved.

The objectives that we established for management under the cash incentive plans for fiscal 2009 were the same as those applicable for non-executive employees. We believe rewarding our executive management and non-executive employees based on achievement of the same financial and corporate objectives contributes to a culture of collaborative, team-oriented management.

Under the fiscal 2009 plan, our Named Executive Officers received the following cash bonuses for fiscal 2009: David Scott, \$358,212; Adriel Lares, \$87,754; Jeffrey Price, \$101,760; and Ashok Singhal, \$88,006. The cash bonuses represent a payment of 100% of the targeted amounts under the fiscal 2009 plan, based on us achieving 100% of our performance targets for fiscal 2009.

James Dawson, our former vice president of worldwide sales, did not participate in the fiscal 2009 plan. Mr. Dawson received sales commissions in a manner similar to the commission-based compensation program for our sales group, which he headed. We paid Mr. Dawson commissions of approximately \$212,605 during fiscal 2009 based on fiscal 2008 and 2009 transactions. The timing of our commission payments to Mr. Dawson tended to lag the time when the underlying customer transactions were entered, and we paid commissions in fiscal 2010 arising from customer transactions entered in fiscal 2009.

In fiscal 2009, Mr. Dawson became entitled to approximately \$216,524 in commissions based on fiscal 2009 transactions, which were paid in part during fiscal 2009 and the remainder during fiscal 2010.

Equity Based Incentives

We grant equity based incentives to employees, including our executive officers, in order to create a corporate culture that aligns employee interests with stockholder interests. We have not adopted any specific stock ownership guidelines, and other than the issuance of shares to our founders when we were established, our equity incentive plans have provided the principal method for our executive officers to acquire an equity position in our company, whether in the form of shares or options.

Prior to our initial public offering in November 2007 (the "IPO"), we granted options and other equity incentives to our officers under either the 1999 Stock Option Plan or the 2000 Management Stock Option Plan. In connection with the IPO, our board of directors adopted the 2007 Plan, which was implemented following the IPO. The 2007 Plan permits the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, performance units, performance shares and other stock-based awards. Historically, our equity incentive plans were administered by our board of directors. Since the IPO, all equity incentive plans and awards are administered by our compensation committee under the delegated authority established in the compensation committee charter. In addition, the compensation committee has delegated authority to grant stock options to newly hired employees, other than our executive officers, to our new employee option administrator.

The size and terms of any initial option grants to new employees, including executive officers, are based largely on competitive conditions applicable to the specific position. In making its determination of the size of option grants for our current officers, the compensation committee relies in part on compensation survey data that includes information on equity incentives for specific positions at similarly situated companies.

In addition, our practice has been to make additional annual option grants to employees, including executive officers, when the individual has become substantially vested and the board of directors or compensation committee believed additional unvested equity incentives are appropriate as a retention incentive. We expect to continue this practice in the future in connection with the compensation committee's annual performance review at the beginning of each fiscal year. In making its determination concerning additional option grants, the compensation committee will also consider, among other factors, individual performance and the size and terms of the individual's outstanding equity grants in the then-current competitive environment. Moreover, when evaluating equity incentive compensation, the committee considers Compensation survey data, which provides valuation data using the Black-Scholes Option Pricing Model and similar valuation metrics to permit a comparison of the value of our equity incentive awards to our peer group.

To date, our equity incentives have been granted principally with time-based vesting. Most new hire option grants, including for executive officers, vest over a four-year period with 25% vesting on each annual anniversary of the employee's date of hire. We expect that additional annual option grants to continuing employees will typically vest over a four-year period with 25% vesting on each annual anniversary of the date of

grant. Although our practice in recent years has been to provide equity incentives principally in the form of stock option grants that vest over time, in 2008, our compensation committee approved the grant of restricted stock units to our executive officers as identified below. Each of these restricted stock units will vest on July 1, 2012, assuming the executive officer continues to provide services to us. The committee believes that the extended vesting term of these grants, together with the fact that they will have some intrinsic value regardless of the trading value of our common stock, makes these grants an effective retention tool, particularly as compared to option grants which have value only if the then-current trading price of the common stock exceeds the option exercise price. The committee also noted the reduced dilutive effect of restricted stock grants relative to options.

During fiscal 2009, our compensation committee reviewed the aggregate equity position of each of our executive officers as compared to executive officers in similar positions at companies included in our public company peer group, as well as reviewing the retention value of such equity incentives based on our stock price and the Black-Scholes value of such equity incentives. In particular, they compared outstanding equity positions for each executive officer's respective position with ranges presented in the 2009 Compensation Survey Data to ensure that each executive officer's equity position fell within the range, without targeting any particular percentage within the range for the executive officers as a group. They also evaluated the extent to which prior equity incentives were then vested. As a result of these reviews, in July 2008, based on Compensia's review and the recommendations of our chief executive officer, except with respect to his own compensation, our compensation committee approved the following grants to our Named Executive Officers:

Name	RSUs	Options
	Granted (#)	Granted (#) (1)
David C. Scott	30,000	145,000
Adriel G. Lares	20,000	60,000
James L. Dawson	20,000	60,000
Jeffrey A. Price	20,000	50,000
Ashok Singhal	20,000	50,000

- (1) The exercise price of the option grants is \$8.96, which is the closing price of our Common Stock as reported by NYSE Arca on August 5, 2008, the first trading day that fell within an open trading window under our insider trading policy following the date that our compensation committee approved the grants.

In addition, in July 2008, our compensation committee approved the categories of business criteria that can be used in setting performance goals for performance-based awards under our 2007 Plan. When setting these performance goals, the compensation committee may use all or a portion of the approved business criteria categories. Our compensation committee has not yet granted any performance-based awards under our 2007 Plan and has not approved a policy with respect to the use of performance-based awards in the compensation practices for our executive officers.

Benefits

We provide the following benefits to our Named Executive Officers, generally on the same basis provided to all of our employees:

health, dental and vision insurance;

life insurance;

employee stock purchase plan;

employee assistance plan;

medical and dependant care flexible spending account;

short-and long-term disability, accidental death and dismemberment; and

a 401(k) plan.

We believe these benefits are consistent with companies with which we compete for employees.

Severance and Termination Compensation

In connection with certain terminations of employment, our executive officers may be entitled to receive certain severance payments and benefits pursuant to their respective employment agreements, offer letters and management retention agreements. In setting the terms of and determining whether to approve these arrangements, our compensation committee recognized that executives often face challenges securing new employment following termination, in particular following a change of control of the company, and that distractions created by uncertain job security surrounding potential beneficial transactions may have a detrimental impact on their performance. As a result, the severance benefits identified below are primarily intended to provide these executive officers with post-change of control termination protection of salary and benefits while they seek new employment. We also have agreed to accelerate vesting of certain equity incentives in connection with certain terminations following a change of control, based on our view that these executive officers are not likely to be retained in comparable positions by a large acquiror, and the benefit of these equity incentives would otherwise be forfeited upon a termination of employment, including an involuntary termination by an acquiring company.

Chief Executive Officer

Under the terms of an employment agreement we entered with our chief executive officer, David C. Scott, in July 2007, if within 18 months following a change of control, Mr. Scott is involuntarily terminated (other than for cause, death or disability) or he terminates voluntarily for good reason, we have agreed that Mr. Scott will be entitled to receive the following benefits:

a lump sum cash payment equal to 300% of his base salary payable within 30 days of termination;

until the earlier of one year from the date of termination or such time as Mr. Scott has become covered under another employer's plans with comparable coverage, continued health, dental, vision and life insurance benefits at the same levels of coverage and with the same relative ratios of premium payments by us and Mr. Scott as existed prior to the termination; and

immediate vesting of all then unvested stock options, restricted stock or other unvested equity incentives held by Mr. Scott.

In addition, Mr. Scott will receive equivalent cash severance and insurance benefits to those described above in the event of a termination of employment resulting from his death or disability, an involuntary termination of his employment by us other than for cause outside the change of control period, or a voluntary termination by Mr. Scott for good reason outside the change of control period. In the event of such a termination, Mr. Scott will also receive one year's accelerated vesting credit with respect to any unvested stock options, restricted stock or other equity incentives.

Payment of the benefits described above is also subject to Mr. Scott's executing and not revoking a standard release of any claims against us and his complying with certain non-solicitation obligations in his employment agreement.

The compensation committee and board of directors approved post-termination benefits for Mr. Scott that are greater than or in addition to the benefits provided to our other executives after consulting with Compensia to determine similar benefits provided to other chief executive officers at similarly situated companies and considering factors such as the high likelihood that a chief executive officer will be terminated in connection with a change of control transaction as compared to the other executive officers.

Other Executive Officers

We have also entered management retention agreements with our other executive officers. Under the terms of these agreements, if within 12 months following a change of control, the executive is involuntarily terminated

(other than for cause, death, or disability) or the executive voluntarily terminates for good reason, our executive officers will be entitled to receive the following benefits:

a lump sum cash payment equal to 50% of the executive's annual base salary as in effect immediately prior to the date of termination (except in the case of our vice president and general counsel, who is entitled to a lump sum cash payment equal to his annual base salary);

until the earlier of one year from the date of termination or such time as the executive has become covered under another employer's plans with comparable coverage, continued health, dental, vision, long term disability and life insurance benefits at the same levels of coverage and with the same relative ratios of premium payments by us and the executive as existed prior to the termination; and

immediate vesting of 50% of the then-unvested portion of any stock options, restricted stock or other unvested equity incentives held by the executive (except in the case of our vice president and general counsel, who is entitled to immediate vesting of 100% of the then-unvested securities held by him).

Payment of the benefits described above under these management retention agreements is also subject to the executive's executing and not revoking a mutual release of claims with us.

Recent Compensation Determinations

Base Salaries for Fiscal 2010

In connection with its annual review of our executive officers' compensation for fiscal 2010, in May 2009, the compensation committee considered each Named Executive Officer's current base salary. In light of macro economic conditions that existed at the time, the committee determined that it was appropriate to focus on cash and expense management initiatives and as a result concluded that no salary increases would be approved for executive officers at that time. The committee may, however, reconsider the executive officers' base salaries for fiscal 2010 as may be appropriate based on subsequent events that occur during the remainder of fiscal 2010.

Cash Bonuses for Fiscal 2010

In May 2009, our compensation committee established the performance goals for our 2010 fiscal year under our Employee and Executive Incentive Plan. The fiscal 2010 performance goals relate to revenue and non-GAAP operating income. The non-GAAP operating income goal excludes the impact of stock-based compensation expense and is calculated after giving effect to the accrual for the bonus payouts under the Employee and Executive Incentive Compensation Plan. Similar to the fiscal 2009 performance goals, the compensation committee set these targets at levels moderately in excess of the operating plan for fiscal 2010 approved by our board of directors as an incentive for superior performance. The committee believed the targets identified were attainable but acknowledged they would require substantial management attention and growth in our revenues during fiscal 2010. In particular, increasing our revenue in fiscal 2010 to achieve the revenue targets under the fiscal 2010 plan will require our sales and customer support personnel to execute efficiently and aggressively in an uncertain economic environment and will require our sales and human resource executives to continue to recruit, hire and train a substantial number of additional sales personnel and to ensure that new sales personnel become productive as quickly as possible. We have experienced challenges in the past hiring and retaining appropriate sales personnel, in part because our sales personnel, in order to be effective, are required to have a substantial amount of industry and domain-specific expertise, which limits the pool of available talent from which we can recruit. Finally, achieving our non-GAAP operating income objectives under the fiscal 2010 plan will require, in addition to increases in our revenue, that our financial and operating executives maintain controls over our operating expenses, product manufacturing and assembly costs.

Under the fiscal 2010 plan, eligible employees, generally consisting of non-commissioned employees, are eligible to receive a target cash bonus equal to a percentage of their applicable base salary, as follows: non-director employees, 5%; director employees, 7.5%; executive officers other than the chief executive officer,

30%; and our chief executive officer, 85%. The compensation committee determined the applicable target percentage bonus levels for fiscal 2010 based principally on adverse macroeconomic conditions and the impact of bonus payments on our operating results. The committee set cash bonus targets at 5%, 7.5%, 30% and 85% base salaries for our non-director employees, director employees, non-CEO executive officers, and CEO.

Competitive Market Review for Fiscal 2010

In May 2009, Compensia completed a competitive assessment of the compensation of our executive officers. This assessment included the identification of an updated public company peer comparison group for purposes of evaluating our compensation policies against current market trends, an assessment of our executive officers' current compensation as compared to executive officers' compensation at such peer group companies and other companies identified in the January 2009 Radford High Technology Executive Compensation Survey, a profile of our executive officers' equity holdings and potential retention risks, and recommendations for annual equity award levels and equity allocations. The companies included in the identified public company peer compensation group were as follows:

Acme Packet	Ecehelon
Adaptec	Informatica
Aruba Networks	Isilon Systems
CommVault Systems	Maxwell Technologies
Compellent Technologies	Netezza
Data Domain	Netscout Systems
Datalink	Opnet Technologies
Dot Hill Systems	Sonicwall
Double-Take Software	STEC

Compensia gathered and evaluated our compensation levels relative to compensation data from public filings of the peer companies listed above. In addition, Compensia compared our compensation practices to compensation data from the January 2009 Radford High Technology Executive Compensation Survey by Aon Consulting. The Compensia and Radford surveys each provide summary compensation data for companies with annual revenues between \$50 million and \$500 million. The public company peer group and the January 2009 Radford High Technology Executive Compensation Survey were updated to include companies with higher revenues than were included in the public company peer group and compensation survey data used for the fiscal 2009 annual compensation review. It was determined that these companies constituted a more appropriate peer group for comparison purposes due to our increased revenues in fiscal 2009 as compared to fiscal 2008.

Compensia's review concluded that the overall average of our Named Executive Officers' base salaries and total targeted cash compensation falls between the 25th and 50th percentile of market trends for similar positions. Compensia's review also concluded that the equity based incentives for our Named Executive Officers, including the restricted stock units granted to our Named Executive Officers, fall between the 50th and 75th percentile of market trends for similar positions. Compensia noted, however, that due to the effect of the global economic conditions on the overall stock market, including the price of our Common Stock, retention values had been negatively impacted. As a result and as discussed below, the compensation committee considered and approved a mix of stock option grants and restricted stock unit grants to executive officers to provide a further retention incentive.

Equity Based Incentives for Fiscal 2010

In June 2009, based on Compensation Committee's review and the recommendations of our chief executive officer, except with respect to his own compensation, our compensation committee approved grants of restricted stock units, together with an additional stock option grant, to each of our Named Executive Officers as indicated below. The restricted stock units and the stock option grants will each vest over a four year period with 25% vesting on each annual anniversary of the date of grant. The restricted stock unit and stock option grants approved by our compensation committee to our Named Executive Officers are as follows:

Name	RSUs Granted (#)	Options Granted (#) (1)
David C. Scott	59,000	127,000
Adriel G. Lares	30,000	60,000
James L. Dawson(2)	N/A	N/A
Jeffrey A. Price	25,000	50,000
Ashok Singhal	25,000	50,000

- (1) The exercise price of the option grants is \$9.36, which is the closing price of our Common Stock as reported by the New York Stock Exchange on June 1, 2009, the grant date of such option grants.
- (2) Mr. Dawson resigned effective April 30, 2009.

On a going forward basis, our compensation committee anticipates maintaining the equity holdings of our Named Executive Officers at appropriate levels primarily through continued annual stock option grants.

Accounting and Tax Considerations

Internal Revenue Code Section 162(m) limits the amount that we may deduct for compensation paid to our chief executive officer and to each of our four most highly compensated officers to \$1,000,000 per person, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation. In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer's total compensation to exceed \$1,000,000. Under certain regulations, option spread compensation from options that meet certain requirements will not be subject to the \$1,000,000 cap on deductibility, and in the past, we have granted options that we believe met those requirements. While the compensation committee cannot predict how the deductibility limit may impact our compensation program in future years, the compensation committee intends to maintain an approach to executive compensation that strongly links pay to performance. While the compensation committee has not adopted a formal policy regarding tax deductibility of compensation paid to our chief executive officer and our four most highly compensated officers, the compensation committee expects to consider tax deductibility under Section 162(m) of the Internal Revenue Code as a factor in compensation decisions, when and as it becomes relevant.

Compensation Committee Report

The compensation committee has reviewed and discussed the Compensation Discussion and Analysis set forth above with our management. Based upon the review and discussions noted above, the compensation committee has recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement.

Employment Agreements and Offer Letters

David C. Scott

In July 2007, we entered into an employment agreement with David C. Scott, our president and chief executive officer, superseding a prior employment agreement. Under the employment agreement, we employ Mr. Scott on an at-will basis with no specified term for a base salary that was initially set at \$350,000. The compensation committee has since increased Mr. Scott's base salary and will continue to review it on an annual basis for potential adjustments.

In the event that within 18 months following a change of control, Mr. Scott is involuntarily terminated (other than for cause, death or disability) or he terminates voluntarily for good reason, we have agreed that Mr. Scott will be entitled to receive (i) a lump sum payment equal to 300% of his base salary, payable within 30 days of termination and (ii) continued health, dental, vision and life insurance benefits at the same level of coverage and with the same relative ratio of premium payment by us and Mr. Scott as existed while he was employed with us. The obligation to provide continued benefits to Mr. Scott will continue until the earlier of one year from the date of termination or such time as Mr. Scott has become covered under another employer's plans with comparable coverage. In addition, any unvested stock options, restricted stock or other unvested equity incentives held by Mr. Scott will become immediately vested upon such a termination.

In addition, Mr. Scott will receive equivalent cash severance and insurance benefits to those described above in the event of a termination of employment resulting from Mr. Scott's death or disability, an involuntary termination of his employment by us other than for cause outside of the change of control period, or a voluntary termination by Mr. Scott for good reason outside the change of control period. In the event of such a termination, Mr. Scott will also receive one year's accelerated vesting credit with respect to any unvested stock options, restricted stock or other equity incentives.

Payment of the benefits described above is also subject to Mr. Scott's executing and not revoking a standard release of any claims against us and his complying with certain non-solicitation obligations in his employment agreement.

Policies and Procedures for Related Party Transactions

We have adopted a formal policy that our executive officers, directors, holders of more than 5% of any class of our voting securities, or any member of the immediate family of or any entities affiliated with any of the foregoing persons, are not permitted to enter into a related party transaction with us without the prior consent of our audit committee, or other independent members of our board of directors in the case it is inappropriate for our audit committee to review such transaction due to a conflict of interest. Any request for us to enter into a transaction with an executive officer, director, principal stockholder, or any of such persons' immediate family members or affiliates, in which the amount involved exceeds \$120,000 must first be presented to our audit committee for review, consideration and approval. We were not a party to any related party transactions during fiscal 2009.
