Table of Contents**RENTRAK CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(UNAUDITED)****Note 1. Basis of Presentation**

The accompanying unaudited Condensed Consolidated Financial Statements of Rentrak Corporation have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with the accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The results of operations for the three-month period ended June 30, 2009 are not necessarily indicative of the results to be expected for the entire fiscal year ending March 31, 2010. The Condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included in our 2009 Annual Report to Shareholders.

The Condensed Consolidated Financial Statements reflect, in the opinion of management, all material adjustments (which include only normal recurring adjustments) necessary to present fairly our financial position, results of operations and cash flows. Certain reclassifications have been made to the prior period financial statements to conform to the current period presentation.

Note 2. Net Income Per Share

Basic net income per share (EPS) and diluted EPS are computed using the methods prescribed by Statement of Financial Accounting Standards (SFAS) No. 128, Earnings per Share. Following is a reconciliation of the shares used for the basic EPS and diluted EPS calculations (in thousands, except footnote reference):

	Three Months Ended June 30, 2009	2008
Basic EPS:		
Weighted average number of shares of common stock outstanding and vested deferred stock units (DSUs)	10,492 ⁽¹⁾	10,448
Diluted EPS:		
Effect of dilutive DSUs and stock options	416	535
	10,908	10,983
Options not included in diluted EPS because the exercise price of the options was greater than the average market price of the common shares for the period	275	
Performance-based grants not included in diluted EPS	559	

(1) Includes 87,000 vested DSUs that will not be issued until the director holding the DSUs retires from our Board of Directors.

Note 3. Business Segments, Significant Suppliers and Major Customers

We operate in two business segments, our Pay-Per-Transaction (PPT) Division and Advanced Media and Information (AMI) Division, and, accordingly, we report certain financial information by individual segment under this structure. The PPT Division focuses on managing our business operations that facilitate the delivery of home entertainment content products and related rental and sales information for that content to our Participating Retailers on a revenue sharing basis. The AMI Division concentrates on the management and growth of our Essentials Suite of business information services, primarily offered on a recurring subscription basis, which are no longer in the early stages.

We did not have any revenues from our Other Division in the fiscal 2010 or fiscal 2009 periods.

Edgar Filing: RENTRAK CORP - Form 10-Q

Assets are not specifically identified by segment as the information is not used by the chief operating decision maker to measure the segments performance.

Table of Contents

Certain information by segment was as follows (in thousands):

	PPT	AMI	Other ⁽¹⁾	Total
Three Months Ended June 30, 2009				
Sales to external customers	\$ 18,066	\$ 3,571	\$	\$ 21,637
Depreciation and amortization	25	369	130	524
Income (loss) from operations	3,127	(222)	(2,793)	112
Three Months Ended June 30, 2008				
Sales to external customers	\$ 22,310	\$ 3,043	\$	\$ 25,353
Depreciation and amortization	27	210	151	388
Income (loss) from operations	3,919	277	(2,515)	1,681

(1) Includes revenue and expenses relating to products and/or services that are still in early stages, as well as corporate expenses and other expenses that are not allocated to a specific segment.

Additional results of operations information by segment was as follows:

(Dollars in thousands)	Three Months Ended June 30, ⁽¹⁾			
	2009	% of revenues	2008	% of revenues
	Dollars		Dollars	
PPT Division				
Revenues	\$ 18,066	100.0%	\$ 22,310	100.0%
Cost of sales	12,928	71.6	16,206	72.6
Gross margin	\$ 5,138	28.4%	\$ 6,104	27.4%
AMI Division				
Revenues	\$ 3,571	100.0%	\$ 3,043	100.0%
Cost of sales	1,309	36.7	606	19.9
Gross margin	\$ 2,262	63.3%	\$ 2,437	80.1%

(1) Percentages may not add due to rounding.

Revenue by service activity was as follows (in thousands):

	Three Months Ended June 30,	
	2009	2008
Order processing fees	\$ 1,673	\$ 2,398
Transaction fees	11,608	14,422
Sell-through fees	3,003	3,608
DRS fees	1,658	1,744
Essentials Suite	3,571	3,043
Other	124	138
	\$ 21,637	\$ 25,353

Edgar Filing: RENTRAK CORP - Form 10-Q

During the three-month periods ended June 30, 2009 and 2008, we had Program Suppliers that supplied product that generated in excess of 10% of our total revenues as follows:

	Three Months Ended June 30,	
	2009	2008
Program Supplier 1	22%	23%
Program Supplier 2	12%	13%
Program Supplier 3	12%	12%
Program Supplier 4	7%	10%

There were no other Program Suppliers who provided product that accounted for 10% or more of our total revenues for the quarters ended June 30, 2009 or 2008. Although management does not believe that the relationships with our significant Program Suppliers will be terminated in the near term, a loss of any one of these suppliers could have an adverse effect on our financial condition and results of operations.

Table of Contents

There were no customers that accounted for 10% or more of our total revenue in the quarters ended June 30, 2009 or 2008.

Note 4. Stock-Based Compensation

We account for stock-based compensation pursuant to SFAS No. 123R, Share-Based Payment.

Stock Options

Stock option activity for the first quarter of fiscal 2010 was as follows:

	Options Outstanding	Weighted Average Exercise Price
Outstanding at March 31, 2009	1,349,788	\$ 7.53
Granted	200,000	14.50
Exercised	(27,050)	9.25
Forfeited		
Outstanding at June 30, 2009	1,522,738	8.42

The stock options to purchase 200,000 shares of our common stock granted in the first quarter of fiscal 2010, all have an exercise price of \$14.50 per share, vest in equal amounts over four years and have a 10-year term. These options were granted to our new Chief Executive Officer, Mr. William P. Livek, who was appointed in June 2009. The fair value of these stock options was determined to be \$1.1 million using the Black-Scholes valuation model. Of this amount, \$0.3 million will be recognized in fiscal 2010. Upon termination without cause or for good reason, up to 100,000 stock options will vest to the extent not previously vested. If a change in control of Rentrak occurs on or after December 15, 2009, the stock options will vest in full. If a change in control occurs prior to December 15, 2009, 50% of the stock options will vest.

As of June 30, 2009, the unrecognized compensation expense related to unvested stock options, exclusive of certain performance-based options which, at this time, are not expected to vest, was \$1.1 million, which will be recognized over the weighted average remaining vesting period of 3.7 years.

Deferred Stock Units

DSU activity for the first quarter of fiscal 2009 was as follows:

	Units Outstanding	Weighted Average Grant Date Fair Value
Outstanding at March 31, 2009	127,500	\$ 12.67
Granted	48,000	8.87
Issued		
Forfeited		
Outstanding at June 30, 2009	175,500 ⁽¹⁾	11.63

(1) Of the 175,500 DSUs outstanding at June 30, 2009, 87,000 were vested. However, the DSUs are not issued until the director holding such DSUs retires from the Board.

The 48,000 DSUs granted in the first quarter of fiscal 2010 vest in three equal annual installments, beginning one year after the date of grant. The total value of the DSUs granted was \$0.4 million and will be recognized over the three year vesting period.

Edgar Filing: RENTRAK CORP - Form 10-Q

As of June 30, 2009, the unrecognized compensation expense related to unvested DSUs was \$0.8 million, which will be recognized over the weighted average remaining vesting period of 2.3 years.

Restricted Stock Units

We also granted 213,750 restricted stock units (RSUs) to Mr. Livek. Each of the RSUs represents a contingent right to receive one share of our common stock and will vest upon satisfaction of performance goals tied to achievement of either (a) specified levels of earnings before interest, taxes, depreciation and amortization (EBITDA), as modified by subtracting certain other expenditures, over the current and next

Table of Contents

two fiscal years, or (b) trading-price targets for our common stock ranging from \$20 to \$40 per share for 65 consecutive trading days during the period of June 15, 2009 through March 31, 2013 (the *Market Condition*). The fair value of the RSUs was estimated to be a maximum of \$3.1 million, based on the market value of our common stock on the date of grant. As of June 30, 2009, the unrecognized compensation expense related to unvested RSUs was \$3.1 million, which will be recognized over the estimated weighted average remaining vesting period of 3.75 years (the *Service Period*). Compensation expense for the quarter ended June 30, 2009 was insignificant. For the remainder of fiscal 2010, compensation expense which will be recognized is not expected to exceed \$0.7 million. Also, in the event that the *Market Condition* is satisfied at an earlier date than the end of the *Service Period* and corresponding RSUs vest, any unrecognized compensation expense would be recognized immediately at that time.

Vesting of a portion or all of the RSUs will also occur if a change in control of Rentrak occurs at price levels ranging from \$20 to \$40 per share. Upon termination without cause or for good reason, 60,000 RSUs will vest if termination is on or prior to March 31, 2010, 90,000 RSUs will vest if termination occurs on or after April 1, 2010 and prior to April 1, 2011, and 120,000 RSUs will vest if termination occurs on or after April 1, 2011 and on or prior to March 31, 2012.

Stock Appreciation Rights

During October and November 2008, we granted a total of 277,625 stock appreciation rights (*SARs*) to 42 employees. The base price of the *SARs* was \$11.10 and vesting is subject to performance goals based on the achievement of minimum amounts of operating income by various lines of business. The performance goals relate to the two-year period ending March 31, 2011 and vested *SARs* will be settled in cash based on the closing sale price of our common stock on August 30, 2011 and paid no later than September 30, 2011. As of June 30, 2009, no compensation cost has been recognized for these *SARs* as the performance goals are not probable of being attained.

Stock-Settled Stock Appreciation Rights

We also granted stock-settled stock appreciation rights (*SSARs*) relating to 75,000 shares of our common stock to Mr. Livek. The *SSARs* have a base price of \$14.50 per share, vest over four years, and have a 10-year term. The fair value of the *SSARs* was determined to be \$0.4 million using the Black-Scholes valuation model. Of this amount, \$0.1 million will be recognized in fiscal 2010.

Upon termination without cause or for good reason, two annual installments of the *SSARs* will vest to the extent not previously vested. If a change in control of Rentrak occurs on or after December 15, 2009, the *SSARs* will vest in full. If a change in control occurs prior to December 15, 2009, 50% of the *SSARs* will vest.

Note 5. Fair Value Disclosures***FSP No. FAS 157-4***

Effective June 30, 2009, we adopted FASB Staff Position (*FSP*) No. FAS157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This *FSP* provides additional guidance for estimating fair value in accordance with SFAS No. 157, *Fair Value Measurements*, and emphasizes that, even if there has been a significant decrease in the volume and level of activity for the asset or liability and regardless of the valuation techniques used, the fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. This *FSP* also amends SFAS No. 157 to require disclosure in interim and annual periods regarding the inputs and valuation techniques used to measure fair value and a discussion of changes in valuation techniques and related inputs, if any, during the period. It also requires that entities define major categories for equity and debt securities in accordance with paragraph 19 of SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. The disclosure requirements related to this *FSP* are included below.

Table of Contents

SFAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring the fair value of our financial assets and liabilities and are summarized into three broad categories:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.; and

Level 3 significant unobservable inputs, including our own assumptions in determining fair value.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Following are the disclosures related to our financial assets pursuant to SFAS No. 157 (in thousands):

	June 30, 2009	
	Fair Value	Input Level
<u>Available for sale marketable securities</u>		
Municipal tax exempt bond fund	\$ 30,126	Level 1

The fair value of our available for sale securities is determined based on quoted market prices for identical securities on a quarterly basis.

Note 6. Stock Repurchases

During the three-month period ended June 30, 2009, we repurchased a total of 29,850 shares of our common stock at an average price of \$10.13 per share, which totaled approximately \$0.3 million. No additional shares have been repurchased since June 30, 2009. The stock repurchase plan, approved by our Board of Directors in January 2006, authorizes the purchase of up to 1,000,000 shares of our common stock and does not have an expiration date. Following these repurchases, a total of 723,367 shares had been repurchased pursuant to this plan at an average price of \$10.78 per share and 276,633 shares remained available for repurchase under this plan.

Note 7. Income Taxes

Our unrecognized tax benefits increased \$55,000 in the three-month period ended June 30, 2009 in conjunction with uncertain tax positions related to prior tax filings and uncertain tax positions included in the current year tax computations. Unrecognized tax benefits totaled \$1.3 million at June 30, 2009, all of which would reduce our effective tax rate if recognized. Due to statute expiration, approximately \$0.3 million of uncertain tax provisions may reverse in the next three months.

Note 8. New Accounting Pronouncements**SFAS No. 168**

In June 2009, the Financial Accounting Standards Board (FASB) issued SFAS No. 168 FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162. SFAS No. 168 will become the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. This Statement is effective for financial statements issued for interim and annual periods ending after September 15, 2009. On the effective date, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification will become non-authoritative. As we believe that our accounting practices are consistent with the Codification, we do not believe that the adoption of SFAS No. 168 will have a material effect on our financial position, results of operations or cash flows.

Table of Contents

SFAS No. 167

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)*. SFAS No. 167 improves financial reporting by enterprises involved with variable interest entities. SFAS No. 167 is effective as of the beginning of an entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. We do not have any entities that fall under the guidance of SFAS No. 167 and, accordingly, the adoption of SFAS No. 167 will not have any effect on our financial position, results of operations or cash flows.

SFAS No. 166

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an Amendment of FASB Statement No. 140*. SFAS No. 166 improves the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement in transferred financial assets. SFAS No. 166 also amends certain provisions of SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. SFAS No. 166 is effective as of the beginning of an entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. SFAS No. 166 must be applied to transfers occurring on or after the effective date. While we are still analyzing the effects of the adoption of SFAS No. 166, we do not believe that the adoption of SFAS No. 166 will have a material effect on our financial position, results of operations or cash flows.

SFAS No. 165

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events*. SFAS No. 165 defines subsequent events as transactions that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS No. 165 defines two types of subsequent events: (i) events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events); and (ii) events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date (that is, nonrecognized subsequent events). In addition, SFAS No. 165 requires an entity to disclose the date through which subsequent events have been evaluated, as well as whether that date is the date the financial statements were issued or the date the financial statements were available to be issued. SFAS No. 165 is effective for periods ending after June 15, 2009. The adoption of SFAS No. 165 effective June 30, 2009 did not have any effect on our financial position, results of operations or cash flows.

FSP No. FAS 107-1 and APB 28-1

In April 2009, the FASB issued FSP No. FAS107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This FSP amends SFAS No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about fair value of financial instruments for interim reporting periods as well as in annual financial statements. This FSP also amends APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in summarized financial information at interim reporting periods. The adoption of this FSP effective June 30, 2009 did not have any impact on our financial position, results of operations or cash flows, nor were any additional interim disclosures required.

SFAS No. 162

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles*, which identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's approval of the Public Company Accounting Oversight Board amendments to AU Section 4311, *The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles*. We believe that our accounting principles and practices are consistent with the guidance in SFAS No. 162, and, accordingly, we do not expect the

Table of Contents

adoption of SFAS No. 162 to have a material effect on our financial position, results of operations or cash flows.

SFAS No. 161

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, which requires certain disclosures related to derivative instruments. The adoption of SFAS No. 161 effective April 1, 2009 did not have any effect on our financial position, results of operations or cash flows.

SFAS No. 141R and SFAS No. 160

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations*, and SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements*. SFAS Nos. 141R and 160 require most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value and require noncontrolling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. The adoption of SFAS No. 141R and SFAS No. 160 effective April 1, 2009 did not have any effect on our financial position, results of operations or cash flows.

Note 9. Related Party Transaction

In connection with the hiring of Mr. Livek as our CEO in June 2009, we amended our employment agreement with Mr. Rosenbaum, our former CEO, for his continued employment in a non-executive capacity as Chairman of the Board. The agreement expires on September 30, 2011, and provides for an annual salary of \$489,000 through September 30, 2010, and \$325,000 for the ensuing 12 months, a car allowance of up to \$900 per month through December 31, 2009 and fringe benefits. The agreement provides for severance upon termination of employment for specified reasons, including death, voluntary termination by Mr. Rosenbaum for good reason, or involuntary termination without cause and monthly payments of salary and benefits would continue to be made based on the above annual amounts through the term of the agreement. Additionally, if Mr. Rosenbaum dies during the term of the agreement, his estate will be entitled to a lump sum payment of \$500,000 less any amounts payable under any life insurance policies purchased by us for the benefit of Mr. Rosenbaum's dependents.

Upon expiration of his agreement, we will continue to provide Mr. Rosenbaum with all medical, dental, group life, long-term care and long-term disability insurance benefits through September 30, 2013, the amount of which is estimated to be approximately \$38,000. This postretirement benefit will be recognized over the term of the employment agreement.

Note 10. Subsequent Events

We have considered all events that have occurred subsequent to June 30, 2009 and through August 6, 2009, the date the financial statements as of and for the period ended June 30, 2009 were available to be issued.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
Forward Looking Statements

Certain information included in this Quarterly Report on Form 10-Q (including Management's Discussion and Analysis of Financial Condition and Results of Operations regarding revenue growth, gross profit margin and liquidity) constitute forward-looking statements that involve a number of risks and uncertainties. Forward-looking statements may be identified by the use of forward-looking words such as *may*, *will*, *expects*, *intends*, *anticipates*, *estimates* or *continues* or the negative thereof or variations thereon or comparable terminology. The following factors are among the factors that could cause actual results to differ materially from the forward-looking statements: our ability to retain and grow our customer base of retailers participating in the Pay-Per-Transaction system (the PPT System) (Participating Retailers) and

Table of Contents

customers for our business intelligence software and services; the financial stability of the Participating Retailers and their performance of their obligations under our PPT System; business conditions and growth in the video industry and general economic conditions, both domestic and international; customer demand for movies in various media formats; competitive factors, including increased competition, expansion of revenue sharing programs other than the PPT System by motion picture studios or other licensees or owners of the rights to certain video programming content (Program Suppliers) and new technology; the continued availability of home entertainment content products (DVDs, Blue-ray Discs, etc.) (collectively Units) leased/licensed to home video specialty stores and other retailers from Program Suppliers; the loss of significant Program Suppliers; our ability to successfully develop and market new services, including our business intelligence services, to create new revenue streams; and the development of similar business intelligence services by competitors with substantially greater financial and marketing resources than our company. This Quarterly Report on Form 10-Q further describes some of these factors. In addition, some of the important factors that could cause actual results to differ from our expectations are discussed in Item 1A to our fiscal 2009 Form 10-K, which was filed with the Securities and Exchange Commission on June 11, 2009. These risk factors have not significantly changed since the filing of the fiscal 2009 Form 10-K.

Business Trends

Our corporate structure includes separate Pay-Per-Transaction (PPT) and Advanced Media and Information (AMI) operating divisions and, accordingly, we report certain financial information by individual segment under this structure.

Our PPT Division focuses on managing our business operations that facilitate the delivery of Units and related rental and sales information for the content to home video specialty stores and other retailers, on a revenue sharing basis. We lease product from various suppliers, typically motion picture studios. Under our PPT System, retailers sublease that product from us and rent it to consumers. Retailers then share a portion of the revenue from each retail rental transaction with us and we share a portion of the revenue with the studio. Since we collect, process and analyze rental and sales information at the title level, we report that information to both the studio and the respective retailers.

Our PPT Division also includes our Traditional and Digital Direct Revenue Sharing (DRS) services, which encompasses the collection, tracking, auditing and reporting of transaction and revenue data generated by DRS retailers, such as Blockbuster Entertainment, Movie Gallery and Netflix, to our respective DRS clients under established agreements on a fee for service basis.

Our AMI Division concentrates on the management and growth of our Essentials Suite of business information services. Our Essentials Suite software and services, offered primarily on a recurring subscription basis, provide unique data collection, management, analysis and reporting functions, resulting in business information valuable to our clients.

The PPT Division

The financial results from the PPT Division continue to be affected by the changing dynamics in the home video rental market as well as overall economic trends and conditions. This market is highly competitive and influenced greatly by consumer spending patterns and behaviors. The end consumer has a wide variety of choices from which to select their entertainment content and can easily shift from one provider to another. Some examples include renting Units of product from our Participating Retailers or other Retailers, purchasing previously viewed Units from our Participating Retailers or other Retailers, ordering product via online subscriptions and/or online distributors (mail delivery), renting or purchasing product from kiosk locations, subscribing to at-home movie channels, downloading or streaming content via the Internet, purchasing and owning the Unit directly, or selecting an at-home pay-per-view or on demand option from a satellite or cable provider. Our PPT system focuses on the traditional brick and mortar retailer. We believe that our system successfully addresses the many choices available to consumers and affords our Participating Retailers the opportunity to stock their stores with a wider selection of titles and a greater supply of popular box office releases. Many of our arrangements are structured so that the Participating Retailers pay minimal upfront fees and lower per transaction fees in exchange for ordering Units of all titles offered by a particular Program Supplier (referred to as output programs). Since these

Table of Contents

programs usually result in more overall Units rented, our Participating Retailers' revenue and the corresponding share with the studios also increase.

In an effort to stabilize and maintain our current level of overall PPT revenue and earnings, we have implemented strategies to obtain new Participating Retailers, as well as assist in the retention and growth of our current Participating Retailers. The popularity of other choices an end consumer has to obtain entertainment content has been growing and our Participating Retailers' market share has been negatively affected. Thus, for the foreseeable future, we expect their market share to experience low to mid single digit annual percentage declines and we are evaluating other initiatives to offset the effect this trend has on our PPT revenue and earnings.

We continue to be in good standing with our Program Suppliers and we make on-going efforts to strengthen those business relationships through enhancements to our current service offerings and the development of new service offerings, such as the addition of Blu-ray product.

We are also continually seeking to develop business relationships with new Program Suppliers. Our relationships with Program Suppliers typically may be terminated without cause upon thirty days' written notice by either party.

AMI and Other Divisions

We continue to allocate significant resources towards our business information service offerings, both those services that are currently operational as well as those that are in various stages of development. Our suite of business information services has been well received in the various targeted markets to date, as our offerings fit well with the needs identified by those market participants. Our Essentials' business information service offerings that are fully operational and no longer in significant stages of development, realized a revenue increase of 17.4% in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009.

The AMI Division lines of business which contribute most of the revenues currently are Box Office Essentials, which reports domestic and international gross receipt theatrical ticket sales, and OnDemand Essentials, which measures and reports anonymous video on demand (VOD) usage data. Additionally, we are making significant investments in TV Essentials, which provides our clients with the ability to analyze anonymous audience viewing of programming and advertising across linear and interactive television and Digital Video Recorder (DVR), and have begun generating corresponding revenues.

Box Office Essentials primarily reports domestic and international theatrical gross receipt ticket sales to motion picture studios and movie theater owners. We provide studios with access to box office performance data pertaining to specific motion pictures and movie theater circuits, both real-time and historical. Data is currently collected for virtually all movie theaters in North America, Guam and Puerto Rico and is primarily obtained via electronic connectivity to theater box offices. We continue to make on-going efforts to strengthen our business relationships with our existing clients as well as focus on our syndication services and international expansion plans.

OnDemand Essentials provides multi-channel operators, content providers (including broadcast/cable networks and studios) and advertisers with a transactional tracking and reporting system to view and analyze the viewership of on demand content. We currently have over 100 OnDemand Essentials' service clients and 28 multiple system operators (MSOs), including the top 25 MSOs that offer video on demand programming and representing over 70 million set-top boxes, supporting our OnDemand Essentials' services. We are well positioned to grow this business by adding new clients and adjusting rates as the business activity increases and as advanced advertising technology is rolled out by the industry.

We are also working with SeaChange International, the leading provider of video on demand and Internet protocol television (IPTV) software, to provide a seamless process for dynamic video on demand ad insertion, verification and reporting. Together, we will integrate solutions to improve the ability of MSOs,

Table of Contents

networks and advertisers to monetize VOD advertising on a regional and national basis. Advanced TV advertising includes VOD, requests for information (RFIs), long-form showcases, DVR advertising, interactive program guide advertising, addressable advertising, creative versioning and advanced trafficking systems.

TV Essentials comprehensive suite of research tools enables customers to analyze anonymous audience viewing of programming and advertising across linear and interactive television, video on demand and DVR across all three TV platforms cable, satellite and telecommunications. Utilizing proprietary technology to process massive amounts of click-stream data, our TV Essentials system is able to aggregate and report second-by-second information from 100 million digital set-top boxes. Today, based on data from our current operator partners, we are translating viewing patterns from over 10 million digital set-top boxes into insights for our clients. We expect success in this area to result in continued growth in client demand.

We are making good progress on expanding our data partners for our TV Essentials services from our commercial relationships today with AT&T and Charter Communications. In addition to those partners, we also have a relationship with DISH Network (Dish) to provide TV Essentials for their internal use for a subscription fee as we work toward commercialization of that relationship. The Dish relationship has resulted in the creation of our DVR and iTV reporting, which can be rolled out to other partners as the data to drive those services becomes available to us. We are also working on securing national ad occurrence data in order to launch the ad module of TV Essentials services as well as build research capabilities to begin creating syndicated products for our measurement service.

Mobile Essentials has been developed to provide a comprehensive system to track usage and consumer dynamics in the mobile sector including video, video clips, games, music, mobile web, small message servicing (SMS) data (also known as text messaging), ring tones, wallpaper and other mobile content. We recently announced our first Mobile Essentials customer, NBC Universal.

We continue new product development for other component products as we work toward measuring and comparing entertainment consumption across multiple platforms, which will help us expand our Multi-Screen Essentials suite of services. For example, Online Video Essentials is being developed to measure and analyze advertiser-supported online video usage across the Internet.

We intend to continue to invest in our existing, as well as new, business information services in the near-term as we expand the markets we serve and our service lines. The cost of these investments will likely lower our earnings in the short-term. For example, during the quarter ended June 30, 2009, we invested heavily in our Multi-Screen Essentials line of business, including expansion of our executive, sales and marketing team located in New York City, New York, which reduced our gross margin and led to a loss from operations within our AMI Division. Longer-term, we believe we will be able to leverage these investments in order to provide significant future revenue and earnings streams and contribute to our overall success.

Sources of Revenue

Revenue by segment includes the following:

PPT Division

order processing fees generated when Units are ordered by, and distributed to, retailers;

transaction fees generated when retailers rent Units to consumers; additionally, certain arrangements include guaranteed minimum revenues from our customers; we recognize the guaranteed minimum revenue on the street (release) date in accordance with Statement of Position 00-2, Accounting by Producers or Distributors of Films, (SOP 00-2) provided all other revenue recognition criteria are met;

sell-through fees generated when retailers sell previously-viewed rental Units to consumers and/or buy-out fees generated when retailers purchase Units at the end of the lease term; and

Table of Contents

Traditional and Digital DRS fees from data tracking and reporting services provided to Program Suppliers.
AMI Division

Subscription fee revenues from:

Box Office Essentials ;

Home Entertainment Essentials ;

Supply Chain Essentials ; and

Multi-Screen Essentials , which includes OnDemand Essentials , TV Essentials and Mobile Essentials .
Other Division

revenue relating to other products and/or services that are still in the development stage, including AdEssentials , which will capture census-level data regarding viewing patterns of on demand advertising for reporting to marketers and advertising agencies.

Revenue by service activity was as follows (in thousands):

	Three Months Ended June 30,	
	2009	2008
Order processing fees	\$ 1,673	\$ 2,398
Transaction fees	11,608	14,422
Sell-through fees	3,003	3,608
DRS fees	1,658	1,744
Essentials Suite	3,571	3,043
Other	124	138
	\$ 21,637	\$ 25,353

Revenue

Revenue decreased \$3.8 million, or 14.7%, to \$21.6 million in the first quarter of fiscal 2010 compared to \$25.4 million in the first quarter of fiscal 2009. The decrease in revenue was primarily due to lower order processing, transaction and sell-through fees, as described more fully below.

PPT Division

PPT Division revenues decreased \$4.2 million, or 19.0%, in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. Detail of our PPT Division revenue by service line was as follows (in thousands):

Three Months Ended June 30,	2009	2008
Order processing fees	\$ 1,673	\$ 2,398
Transaction fees	11,608	14,422

Edgar Filing: RENTRAK CORP - Form 10-Q

Sell-through fees	3,003	3,608
DRS	1,658	1,744
Other	124	138
	\$ 18,066	\$ 22,310

Order processing fees decreased \$0.7 million, or 30.2%, in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009 primarily due to decreases in both volume and per unit amounts as detailed below:

	Three Months Ended June 30,	
	2009	2008
Units shipped (in thousands)	1,341	1,819
Fee per Unit	\$ 1.25	\$ 1.32

Table of Contents

	Three-month period ended June 30, 2009 compared to three- month period ended June 30, 2008
Percentage decrease in Units shipped	26.3%
Effect of decrease in Units shipped on revenue	\$(0.6) million
Decrease in fee per Unit	\$0.07
Effect of decrease in fee per Unit on revenue	\$(0.1) million

The decrease in volume in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009 was due to fewer theatrical releases from Program Suppliers in the current period. The timing and availability of new releases tends to fluctuate from studio to studio.

Fees per Unit are affected by our mix of Units received from Program Suppliers with varying rates of upfront fees and tend to fluctuate from period to period.

Transaction fees decreased \$2.8 million, or 19.5%, in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. The decrease was primarily due to fewer rental transactions at our Participating Retailers, which decreased 12.1%, while the rate per transaction decreased 2.0%, excluding the impact of minimum guarantees. The decrease in transactions was due in part to the volume decrease discussed above as well as continued changing market conditions, including changes in consumer behavior, technological advances in entertainment content delivery and the perceived value of other home video entertainment alternatives.

Sell-through fees decreased \$0.6 million, or 16.8%, in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009. The decrease was primarily due to an 11.7% decrease in the number of transactions as a result of an overall decline in Units available for sale.

DRS fees were relatively flat at \$1.7 million in both the first quarter of fiscal 2010 and the first quarter of fiscal 2009.

AMI Division

Revenues from our AMI division, which consists of our Essentials business information service offerings, increased \$0.5 million, or 17.4%, in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009.

Box Office Essentials revenues increased \$0.07 million, or 4.6%, in the first quarter of fiscal 2010 compared to the first quarter of fiscal 2009, primarily as a result of international expansion. OnDemand Essentials increased \$0.2 million, or 18%, due to a combination of obtaining new clients and rate increases to existing clients. TV Essentials, which began generating revenue for us in the second half of fiscal 2009, contributed \$0.2 million to the revenue increase. Revenues related to our Essentials business information service offerings have increased primarily due to our continued investment in and successful marketing of these offerings and successful retention of clients. We expect continued future increases in our Essentials revenues as a result of further investments and additional successful launches of those services.

Other Division

We did not have any revenues from our Other Division in the first quarter of fiscal 2010 or fiscal 2009.

Cost of Sales

Cost of sales consists of order processing costs, transaction costs, sell-through costs, handling and freight costs in the PPT Division and costs in the AMI Division associated with certain Essentials business information service offerings. These expenditures represent the direct costs to produce revenues.

Table of Contents

In the PPT Division, order processing costs, transaction costs and sell through costs represent the amounts due to the Program Suppliers that hold the distribution rights to the Units. Freight costs represent the cost to pick, pack and ship orders of Units to the Participating Retailers. Our cost of sales can also be impacted by the release dates of Units with guarantees. We recognize the guaranteed minimum costs on the release date. The terms of some of our agreements result in 100% cost of sales on titles in the first month in which the Unit is released, which results in lower margins during the initial portion of the revenue sharing period. Once the Unit's rental activity exceeds the required amount for these guaranteed minimums, margins generally expand during the second and third months of the Unit's revenue sharing period. However, since these factors are highly dependent upon the quality, timing and release dates of all new products, margins may not expand to any significant degree during any period. As a result, it is difficult to predict the impact these Program Supplier Revenue Sharing programs with guaranteed minimums will have on future results of operations in any reporting period.

In the AMI Division, a portion of the Essentials business information service offerings costs represent costs associated with the operation of a call center for our Box Office Essentials services, as well as costs associated with amortizing capitalized internally developed software used to provide the corresponding services and direct costs incurred to obtain, cleanse and process data and maintain our systems.

Cost of sales decreased \$2.6 million, or 15.3%, to \$14.2 million in the first quarter of fiscal 2010 compared to \$16.8 million in the first quarter of fiscal 2009. Cost of sales as a percentage of revenue was 65.8% in the first quarter of fiscal 2010 compared to 66.3% in the first quarter of fiscal 2009. The decrease in cost of sales was primarily due to lower PPT Division revenues as discussed above. The decrease in cost of sales as a percentage of revenue was primarily due to a larger percentage of our revenue being generated by our AMI Division during the first quarter of fiscal 2010. We achieve higher gross margins on our AMI Division revenue than on our PPT Division revenue. However, in the first quarter of fiscal 2010, we realized an increase in cost of sales within the AMI Division, as a percentage of AMI revenues, as compared to the first quarter of fiscal 2009. This increase was due to increased costs associated with purchasing data within OnDemand and Multi-Screen Essentials services and increased costs associated with amortizing capitalized internally developed software used to provide those services.

Selling and Administrative

Selling and administrative expenses consist primarily of compensation and benefits, development, marketing and advertising costs, legal and professional fees, communications costs, depreciation and amortization of tangible fixed assets and software, real and personal property leases, as well as other general corporate expenses.

Selling and administrative expenses increased \$0.3 million, or 4.0%, to \$7.1 million in the first quarter of fiscal 2010 compared to \$6.8 million in the first quarter of fiscal 2009. This increase was primarily due to the continued expansion of our Multi-Screen Essentials line of business, including the expansion of our executive, marketing and sales team and office in New York, as well as costs incurred as a result of hiring our new Chief Executive Officer, such as additional legal fees and director fees. Selling and administrative expenses also increased as a percentage of revenue to 32.6% for the first quarter of fiscal 2010 compared to 26.7% for the first quarter of fiscal 2009 as a result of the higher overall costs combined with lower revenues. We are expecting to see increases in selling and administrative expenses during fiscal 2010 due to equity awards granted to our new Chief Executive Officer. Please refer to Note 4, Stock-Based Compensation.

Provision for Doubtful Accounts and Notes

Our provision for doubtful accounts and notes increased \$0.1 million, or 114%, to \$0.2 million in the first quarter of fiscal 2010 compared to \$0.1 million in the first quarter of fiscal 2009. The increase is primarily due to an increase in accounts written off because the amounts owed were determined to be uncollectible and those amounts exceeded the amount we could recover from our Program Suppliers.

Table of Contents

Asset Impairment

Asset impairment of \$65,000 in the first quarter of 2010 relates to various components of our Essentials lines of business, which had been in development. Management concluded that it was likely the components would not be placed in service.

Interest Income

Interest income was \$299,000 and \$170,000 in the first quarter of fiscal 2010 and 2009, respectively. The increase in interest income primarily relates to our investment in a short-term, tax-exempt municipal bond fund, which has earned a higher rate of interest than the investments held in fiscal 2009, as well as the result of maintaining a higher average investment balance. Our average combined cash and investment balance was \$35.8 million and \$33.9 million for the first quarter of fiscal 2010 and 2009, respectively.

Income Taxes

Our effective tax rate was 31.4% in the first quarter of fiscal 2010 and was positively impacted by federal and state research and experimentation credits as well as earnings on marketable securities that are exempt from federal income taxes. The effective tax rate was 44.0% in the first quarter of fiscal 2009. Our effective tax rate differs from the federal statutory tax rate primarily due to state income taxes, offset by the favorable adjustments noted above.

Liquidity and Capital Resources

Our sources of liquidity include our cash and cash equivalents, marketable securities, cash expected to be generated from future operations and investment income and our \$15.0 million line of credit. Based on our current financial projections and projected cash needs, we believe that our available sources of liquidity will be sufficient to fund our current operations, the continued current development of our business information services and other cash requirements through at least June 30, 2010.

Cash and cash equivalents and marketable securities increased \$2.1 million to \$36.6 million at June 30, 2009 compared to \$34.5 million at March 31, 2009. This increase resulted primarily from \$2.6 million provided by operating activities, partially offset by \$0.8 million used for the purchase of equipment and capitalized IT costs and by \$0.3 million used for the repurchase of common stock. Our current ratio was 5.9:1.0 at June 30, 2009 and 5.3:1.0 at March 31, 2009.

Accounts receivable, net of allowances, decreased \$2.3 million to \$13.7 million at June 30, 2009 compared to \$16.0 million at March 31, 2009, primarily due to lower PPT Division revenues.

During the first quarter of fiscal 2010, we spent \$0.8 million on property and equipment, including \$0.7 million for the capitalization of internally developed software for our business information service offerings. We anticipate spending a total of approximately \$4.1 million on property and equipment in all of fiscal 2010, including approximately \$3.4 million for the capitalization of internally developed software, primarily for our business information service offerings. The remaining capital expenditures in fiscal 2010 will be primarily for computer equipment.

Deferred revenue of \$1.5 million at both June 30, 2009 and March 31, 2009 primarily relates to a long-term agreement with a customer/supplier relating to one of our Essentials lines of business, in which we will develop reporting tools specifically relating to their unique business requirements. As of June 30, 2009, we had received payments totaling \$1.0 million and incurred related costs of \$0.1 million, both of which have been deferred. We will recognize the revenue and related costs when the development project is completed, which is anticipated to be in the second quarter of fiscal 2010.

Deferred income tax liabilities, net of deferred tax assets, increased to \$1.0 million at June 30, 2009 compared to \$0.6 million at March 31, 2009 due primarily to increases in temporary book-tax differences related to accelerated expensing of internally developed software expenditures for tax purposes.

Deferred rent, current and long-term, of \$1.1 million at June 30, 2009 represents amounts received for qualified renovations on our corporate headquarters and free rent for the first three months of the lease

Table of Contents

terms. The deferred rent is being amortized against rent expense over the term of the related lease at the rate of approximately \$24,000 per quarter.

In January 2006, our board of directors adopted a share repurchase program authorizing the purchase of up to 1.0 million shares of our common stock. We repurchased 29,850 shares in the first quarter of fiscal 2010 at an average price of \$10.13 per share. Through June 30, 2009, a total of 723,367 shares had been repurchased under this plan at an average price of \$10.78 per share and 276,633 shares remained available for purchase. No additional shares have been repurchased since June 30, 2009. This plan does not have an expiration date. We do not have an established plan for definitive repurchases of shares in any period. All repurchases of shares are determined by a designated officer.

We currently have a secured revolving line of credit for \$15.0 million, with a maturity of December 1, 2011. Interest on the line of credit is LIBOR plus 1.5 percent. The credit line is secured by substantially all of our assets. The line of credit includes certain financial covenants requiring: (1) a consolidated pre-tax income to be achieved each fiscal quarter of a minimum of \$1.00, and consolidated after-tax income not less than \$1.00 on an annual basis, determined at fiscal year end; (2) a minimum current ratio of 1.5:1.0, measured quarterly; and (3) a maximum debt-to-tangible net worth ratio of 1.5:1.0, measured quarterly. Based upon the financial results reported as of and for the quarter ended June 30, 2009, we determined that we were in compliance with the financial covenants at June 30, 2009. At June 30, 2009, we had no outstanding borrowings under this agreement.

Critical Accounting Policies and Estimates

We reaffirm the critical accounting policies and estimates as reported in our fiscal 2009 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on June 11, 2009.

New Accounting Pronouncements

See Note 8 of Notes to Condensed Consolidated Financial Statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

There have been no material changes in our reported market risks since the filing of our fiscal 2009 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on June 11, 2009.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (Exchange Act). Based on that evaluation our Chief Executive Officer and our Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1A. RISK FACTORS**

Our Annual Report on Form 10-K for the fiscal year ended March 31, 2009 includes a detailed discussion of our risk factors. There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K. Accordingly, the information in this Form 10-Q should be read in conjunction with the risk factors and information disclosed in our fiscal 2009 Form 10-K, which was filed with the Securities and Exchange Commission on June 11, 2009.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We repurchased the following shares of our common stock in open market transactions during the first quarter of fiscal 2010 pursuant to our previously-announced repurchase program:

		Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plan	Maximum number of shares that may yet be purchased under the plan
April 1	April 30	15,050	\$ 10.01	15,050	291,433
May 1	May 31	9,800	10.21	9,800	281,633
June 1	June 30	5,000	10.32	5,000	276,633
Total		29,850	10.13	29,850	276,633

The stock repurchase plan, which was approved by our Board of Directors in January 2006 for a total of 1.0 million shares, does not have an expiration date.

ITEM 6. EXHIBITS

The following exhibits are filed herewith and this list is intended to constitute the exhibit index:

- 3.1 Bylaws of Rentrak Corporation as amended through June 15, 2009. Incorporated by reference to Exhibit 3.2 to Form 8-K as filed with the Securities and Exchange Commission on June 19, 2009.
