REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To: The Altria Group Benefits Investment Committee, the Administrator and the Participants of the Deferred Profit-Sharing Plan for Hourly Employees:

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Deferred Profit-Sharing Plan for Hourly Employees (the Plan), formerly known as the Deferred Profit-Sharing Plan for Tobacco Workers (the Tobacco Workers Plan), at December 31, 2009 and 2008 and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan:

General:

The Deferred Profit-Sharing Plan for Hourly Employees (the Plan), formerly known as the Deferred Profit-Sharing Plan for Tobacco Workers (the Tobacco Workers Plan), is a defined contribution plan maintained for the benefit of eligible union hourly-paid employees of Philip Morris USA Inc. (Philip Morris). Effective December 31, 2009 with the transfer of the assets and liabilities attributable to eligible union hourly-paid employees of U.S. Smokeless Tobacco Manufacturing Company (USSTC) from the UST LLC Employees Savings Plan (the UST Plan) to the Plan as described below, these employees of USSTC, a subsidiary of UST LLC (UST), became participants in the Plan (UST Participants). Philip Morris and UST are subsidiaries of Altria Group, Inc.

The assets and liabilities of the Deferred Profit-Sharing Plan for Craft Employees (the Craft Employees Plan) were merged with and into the Tobacco Workers Plan after the close of business on August 31, 2009. Immediately after the merger, the surviving plan was renamed the Deferred Profit-Sharing Plan for Hourly Employees. Effective September 1, 2009, participants from the Craft Employees Plan became eligible to participate in the Plan with the same benefits, rights and features that existed under the Craft Employees Plan.

The assets and liabilities of the UST Plan attributable to eligible union hourly-paid employees of USSTC were merged with and into the Plan after the close of business on December 30, 2009. Effective December 31, 2009, UST Participants became participants in the Plan, although they were not eligible to make or receive any contributions or make withdrawals until January 1, 2010. See Note 10 *Subsequent Events Plan Participation*.

The Plan is designed to provide eligible employees with an opportunity to share in the profits of Philip Morris and to invest certain of their funds in a tax-advantaged manner. Participants should refer to the official Plan document that legally governs the operation of the Plan for a complete description of the Plan's provisions. A brief description of provisions applicable to the reporting periods is included herein. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The administration of the Plan has generally been delegated to the Administrator, as defined in the Plan. The Altria Group Benefits Investment Committee (the Investment Committee) is the named fiduciary responsible for the operation and management of the investment options in the Plan, other than the investment options (the Altria Stock Investment Option, the Kraft Stock Investment Option and the PMI Stock Investment Option) invested exclusively in the common stock of Altria Group, Inc. (Altria Stock), the Class A common stock of Kraft Foods Inc. (Kraft Stock) and common stock of Philip Morris International Inc. (PMI Stock), respectively (collectively, the Common Stocks). Fiduciary Counselors Inc. (Fiduciary Counselors) is the named fiduciary with respect to the management of the investment of the Altria Stock Investment Option, the Kraft Stock Investment Option and the PMI Stock Investment Option. The Altria Stock Investment Option, the Kraft Stock Investment Option and the PMI Stock Investment Option are permanent features of the Plan. The Kraft Stock Investment Option and the PMI Investment

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

Options are closed options and, therefore, Plan participants are not permitted to purchase shares of Kraft Stock or PMI Stock or to perform an exchange into the Kraft Stock Investment Option or PMI Investment Option from other investment options. The Administrator, the Investment Committee, and Fiduciary Counselors are hereinafter collectively referred to as the Fiduciaries.

Contributions:

Each eligible employee may make before-tax and after-tax contributions to the Plan as soon as administratively feasible after his or her date of hire. Employees (other than Match-Eligible Participants described below) become eligible for the Philip Morris contribution (the Company Contribution) upon completion of twenty-four months of eligibility service. See further discussion regarding plan participation and change in company contribution formula in Note 10 *Subsequent Events*. Match-Eligible Participants (defined generally as Philip Morris employees hired or re-hired on or after specified dates based on their union affiliation) become eligible for the Company Contribution upon completion of twelve months of eligibility service. Participants can direct all contributions among eight investment options. See Note 10 *Subsequent Events Investment Options*.

Match-Eligible Participants are also eligible for a matching contribution from Philip Morris (Company Match Contribution) for each payroll period, after completing 90 days of eligibility service, that they make before-tax and/or after-tax contributions to the Plan, as further discussed in Note 3 *Contributions*.

Employee Stock Ownership Plan:

The employee stock ownership plan (ESOP) portion of the Plan permits each participant who invests in the Altria Stock Investment Option to elect, no later than the business day immediately preceding an ex-dividend date with respect to a cash dividend payable on shares of Altria Stock, to have the dividend paid to them in cash or have the dividend reinvested in additional shares of Altria Stock. Altria Stock dividends paid in cash to participants for the year ended December 31, 2009 were \$7,572,640. Altria Stock dividends payable in cash directly to participants as of December 31, 2009 were \$2,673,686.

Any cash dividends paid on Kraft Stock held in the Kraft Stock Investment Option or on PMI Stock held in the PMI Stock Investment Option cannot be reinvested in Kraft Stock or PMI Stock, respectively, but instead will be invested according to the participant's current investment elections. If the participant has not provided an investment election, cash dividends are invested in the Balanced Fund Investment Option. The participant does not have the right to elect to have these dividends paid to them in cash.

Master Trusts:

Certain assets of the Plan are co-invested with the assets of the Deferred Profit-Sharing Plan for Salaried Employees (the Salaried Employees Plan) and the Savings Plan for Employees of Philip Morris de Puerto Rico, in a commingled investment fund known as the Altria Client Services Deferred Profit-Sharing Master Trust (Master Trust A) for which State Street Bank and Trust Company (State Street) serves as the trustee. Certain assets of

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

the Plan are co-invested with the assets of the Salaried Employees Plan in a commingled investment fund known as the Altria Client Services Deferred Profit-Sharing Trust for Altria Stock, Kraft Stock and PMI Stock (Master Trust B) for which Fidelity Management Trust Company serves as the trustee.

Master Trust A and Master Trust B are hereinafter collectively referred to as the Master Trusts .

Participant Accounts:

Each participant s Plan accounts, which include a company account and may include company match, personal before-tax, personal before-tax catch-up, personal after-tax, rollover, personal after-tax rollover and Paysop accounts, are credited with the Company Contribution, any Company Match Contribution, participant s personal contributions, and the allocated share of the investment activities for each investment option in which he or she participates. Allocations are based on participant Plan account balances, as defined.

Vesting:

Each participant is at all times fully vested in the balance held in each of his or her Plan accounts.

Withdrawals and Distributions:

Participants may make in-service withdrawals in accordance with the provisions outlined in the Plan.

Distributions are made only when a person ceases to be a participant. Upon termination of employment, including retirement, a participant has numerous options available, as outlined in the Plan, with respect to the distribution of his or her Plan account balances.

Participant Loans:

Participants are permitted to borrow from their Plan accounts in accordance with the loan provisions outlined in the Plan. Interest on participant loans, which is determined at the time of the loan issuance, is equal to the prime rate as published in *The Wall Street Journal* generally as of the last business day of the month preceding the loan request and is fixed for the term of the loan. The minimum loan amount is \$1,000 and the maximum loan amount is the lesser of one-half of a participant s account balance at the time of the loan request or \$50,000, less the participant s highest outstanding loan balance during the 12-month period preceding the loan request. Loan repayment periods range from two to twenty-five years depending on the type of loan.

A participant s loan account equals the original principal amount less principal repayments. The principal amounts of loan repayments reduce the loan account and are added back to the participant s Plan accounts originally used as the source of the loan. The repaid amount (including interest) is reinvested in the investment options according to the participant s investment authorization in effect at the time of repayment.

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

2. Summary of Significant Accounting Policies:

Basis of Presentation:

The financial statements are prepared using the accrual basis of accounting.

Classification of certain prior year amounts have been revised to conform to the current year's presentation.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, in the financial statements and related disclosures. Actual results could differ from those estimates.

Risks and Uncertainties:

The Plan provides for diversified investment options in investment securities, other than the investment options in Common Stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. The financial markets, both domestically and internationally, can experience significant volatility on a daily basis that affects the valuation of investments. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur and that such changes could materially affect participant account balances and the amounts reported in the financial statements. Substantially all of the assets of Master Trust B are invested in Common Stocks, each of which could be subject to significant market fluctuations.

Valuation of Investment in Master Trusts:

The Plan's allocated share of the Master Trusts' net assets and investment activities is based upon the total of each individual participant's share of the Master Trusts.

Valuation of the Master Trusts' Investments:

Trust assets are reported at fair value. Fair value is based upon quoted market prices where available. If listed prices or quotes are not available, fair value is based upon other observable inputs that provide the basis for the fair value determination.

For Master Trust A, securities listed on an exchange are valued at the closing price on the last business day of the year; listed securities for which no sale was reported on that date are recorded at the last reported bid price. Securities that are not listed on an exchange are generally valued based on a compilation of primarily observable market information or broker quotes. For Master Trust B, Common Stocks are valued at the closing price on the

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

last business day of the year; in the event no sale was reported on that date, the trustee of Master Trust B will determine the value based on all available information.

For a more detailed discussion on the valuation methodologies used for the Master Trust assets, see Note 6 *Fair Value Measurements*.

Investment Transactions and Investment Income of the Master Trusts:

Investment transactions are accounted for on the date the purchase or sale is executed. Dividend income is recorded on the ex-dividend date; interest income is recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair value, the net appreciation (depreciation) in the fair value of investments reflects both realized gains or losses and the change in the unrealized appreciation (depreciation) of investments held at year-end. Realized gains or losses from security transactions are reported on the average cost method.

The Statement of Net Assets Available for Benefits presents the fair value of the investment in Master Trust A, as well as the adjustment of the investment from fair value to contract value relating to investment contracts, which have fully benefit-responsive features. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Withdrawals and distributions:

Withdrawals and distributions are recorded when paid.

Expenses:

Investment management fees, brokerage commissions (excluding those for the Common Stocks held in Master Trust B) and other investment related expenses are charged against the net asset value of the specific investment option and reduce investment return.

Administrative fees such as trustee fees, participant recordkeeping, communications, investment advisory, audit and certain legal fees are paid by the Master Trusts and charged directly to participant accounts, usually on a monthly basis.

Individual participant transaction fees (including fees associated with the trading of Common Stocks) are paid by the Master Trusts and are charged solely to the accounts of the participant that initiated the transaction.

3. Contributions:

The Company Contribution on behalf of eligible employees who have met the applicable service requirement is an amount equal to the lesser of (1) three percent of Operating Profit (defined below), less the amounts allocated to participants in the Salaried Employees Plan, or (2) 15 percent of the aggregate participant compensation, as defined by the Plan for such year, of the participants among whom the Company Contribution is to be allocated. The

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

aggregate of the Company Contribution to the Plan and the company contribution to the Salaried Employees Plan may not be more than three percent of Altria Group, Inc.'s consolidated earnings before income taxes and cumulative effect of an accounting change, and provisions for deferred profit-sharing and incentive compensation plans.

However, Match-Eligible Participants who are eligible for a Company Contribution receive a Company Contribution of no less than ten percent of their eligible compensation.

Operating Profit is defined as the earnings of Philip Morris before cumulative effect of accounting changes, discontinued operations, extraordinary items, interest and other debt expense, income taxes, general corporate expenses, any minority interest, the amount of any deduction used in computing such earnings for the Company Contribution and the Company Match Contributions to the Plan and the Company Contribution and the Company Match Contributions to the Salaried Employees Plan, charges for any incentive compensation plan, and any broad-based stock awards under the 2005 Performance Incentive Plan (or any successor plans), the expense of which is charged to the earnings of Philip Morris, but excluding any sales incentives programs of Philip Morris, any other stock-based awards under the 2005 Performance Incentive Plan (or any successor plans), and before such other charges as the Compensation Committee of the Board of Directors of Altria Group, Inc., in its sole discretion, shall determine to exclude from Operating Profit. See Note 10 *Subsequent Events* *Change in Company Contribution Formula*.

No contribution is required from any participant under the Plan. However, employees hired or rehired after a specified date are automatically enrolled in the Plan to make before-tax contributions of three percent (3%) of their compensation beginning with the first payroll period that is at least 90 days after their date of hire or rehire. Employees who are automatically enrolled can elect not to make contributions or to contribute a different percentage of their compensation. Match-Eligible Participants who make before-tax and/or after-tax contributions for a payroll period after completing 90 days of service will also receive a Company Match Contribution for that payroll period, dollar for dollar, up to the first 3% of compensation that is contributed for each such payroll period.

Participants may make contributions on a before-tax and after-tax basis to the Plan. Participants who are age 50 or older by the end of a Plan year are eligible to make before-tax catch-up contributions up to the limit prescribed in the Internal Revenue Code of 1986, as amended (the Code). For 2009 and 2008, the catch-up contribution was limited to \$5,500 and \$5,000, respectively. If a participant has not made the maximum after-tax contribution, he or she may make an additional after-tax contribution in a lump sum, subject to certain statutory and Plan limits. The aggregate contributions actually made by participants may not cause the Plan to violate limitations on such contributions set forth in the Code. The Code also imposes a dollar limitation on the amount of before-tax contributions for a calendar year. For 2009 and 2008, a participant's before-tax contribution was limited to \$16,500 and \$15,500, respectively, with a Plan limitation of 15% of compensation on the total amount of before-tax and after-tax contributions. Before-tax catch-up contributions are not subject to these limits.

(continued)

4. Master Trust A Investments:

The Plan had a 23% and 19% interest in Master Trust A at December 31, 2009 and 2008, respectively. The Plan's interest in Master Trust A represents over 5% of the Plan's net assets at December 31, 2009 and 2008.

At December 31, 2009 and 2008, the net assets of Master Trust A were as follows (in thousands of dollars):

	2009	2008
Investments at fair value:		
Common collective trusts	\$ 787,041	\$ 623,572
Registered investment companies	178,549	98,410
Investment contracts	1,070,036	1,035,395
Government securities	251,236	298,304
Short-term temporary investments UST merger	239,727	
Other	16,876	21,514
Total investments	2,543,465	2,077,195
Receivables:		
Sale of securities		6,752
Interest and dividend income	2,710	2,337
Total receivables	2,710	9,089
Net assets at fair value	2,546,175	2,086,284
Adjustment from fair value to contract value for fully benefit- responsive investment contracts	(14,504)	39,479
Net assets	\$ 2,531,671	\$ 2,125,763

Master Trust A investment activities for the year ended December 31, 2009 were as follows (in thousands of dollars):

Interest and dividends	\$ 49,203
Net appreciation in common collective trusts	184,313
Net appreciation in registered investment companies	25,508
Net depreciation in government securities	(11,147)
Investment income, net	\$ 247,877

Edgar Filing: ALTRIA GROUP, INC. - Form 11-K

Investment contracts held in the Interest Income Fund Investment Option may consist of synthetic and/or traditional guaranteed investment contracts (GICs) as determined by the investment manager for that option. The crediting interest rates of the investment contracts ranged from 2.81% to 4.19% and from 3.35% to 4.57% at December 31, 2009 and 2008, respectively. The blended crediting rate of the investment contracts was 3.79% and 4.20% for the years ended December 31, 2009 and 2008, respectively.

-12-

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

The crediting interest rates for the synthetic GICs are calculated on a quarterly basis (or more frequently if necessary) using the contract value, and the value, yield and duration of the underlying securities, but cannot be less than zero. The crediting interest rates for the traditional GICs are either agreed to in advance with the issuer or vary based on the agreed formulas, but cannot be less than zero.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investments of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investments and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include, but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, or the initiation of an extended termination (immunization) of one or more synthetic GIC contracts by the manager or the contract issuer.

A synthetic GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive wrapper contracts issued by a third party, which are backed by underlying assets owned by Master Trust A. The portfolio of assets, overall of investment grade quality, underlying the synthetic GICs includes fixed income securities such as mortgages, corporate bonds, and United States Treasury securities. The contract value of the synthetic GICs was \$1,055,532 thousand and \$1,074,874 thousand at December 31, 2009 and 2008, respectively.

A traditional GIC provides for a fixed return on principal over a specified period of time through fully benefit-responsive contracts issued by a third party, which are backed by assets owned by the third party. Master Trust A had no traditional GICs as of December 31, 2009 or 2008.

The average market value yield of the Interest Income Fund for 2009 and 2008 was 3.38% and 5.32%, respectively (calculated by taking the average of the quarterly market value weighted yields of the investments). The average yield earned by the Interest Income Fund that reflects the actual interest credited to participants for 2009 and 2008 was 3.72% and 4.34%, respectively (calculated by dividing annualized earnings credited to participants by the market value of the Interest Income Fund).

There are certain events not initiated by Plan participants that could limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each synthetic GIC may be different for each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off, or other significant

Table of Contents**DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES****NOTES TO FINANCIAL STATEMENTS**

(continued)

business restructuring, which may include early retirement incentive programs or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option, or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the stable value option; or events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The Plan Fiduciaries do not believe that the occurrence of any such event that would limit the Plan's ability to transact at contract value with participants is probable.

Contract issuers are not allowed to terminate any of the above synthetic GICs and settle at an amount different from contract value unless there is a breach of the contract which is not corrected within the applicable cure period. Actions that will result in a breach (after any relevant cure period) include, but are not limited to: material misrepresentation; failure to pay synthetic GIC fees, or any other payment due under the contract; or failure to adhere to investment guidelines.

5. Master Trust B Investments:

The Plan had a 33% and 23% interest in Master Trust B at December 31, 2009 and 2008, respectively. The Plan's interest in Master Trust B represents over 5% of the Plan's net assets at December 31, 2009 and 2008. At December 31, 2009 and 2008, the net assets of Master Trust B were as follows (in thousands of dollars):

	2009	2008
Investments at fair value:		
Common stock	\$ 1,493,195	\$ 1,393,107
Cash and cash equivalents	29,685	29,978
Total investments	1,522,880	1,423,085
Receivable dividend income	16,536	17,051
Net assets	\$ 1,539,416	\$ 1,440,136

Master Trust B investment activities for the year ended December 31, 2009 were as follows (in thousands of dollars):

Dividends	\$ 84,035
Net appreciation in common stock	212,953
Investment income	\$ 296,988

6. Fair Value Measurements:

Edgar Filing: ALTRIA GROUP, INC. - Form 11-K

FASB authoritative guidance provides a framework for measuring fair value. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Plan uses a fair value hierarchy, as provided under the FASB framework, which requires an entity

-14-

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs that may be used to measure fair value are:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such investments pursuant to the fair value hierarchy.

Level 3 holdings are immaterial to the total Master Trust investment assets at December 31, 2009 and 2008.

Common Collective Trusts:

Common collective trusts consist of pools of investments used by institutional investors to obtain exposure to equity and fixed income markets. Master Trust A common collective trust investments include equity index funds which are intended to mirror indices such as the Standard & Poor's 500 Index, Russell Small Cap Completeness Index, Morgan Stanley Capital International (MSCI) All Countries World ex US Index, and MSCI European Monetary Union Index. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. There are no restrictions on redemptions of these investments. The underlying assets are valued based on the net asset value as provided by the investment account manager and are classified in level 2 of the fair value hierarchy.

Registered Investment Companies:

Investments in mutual funds sponsored by a registered investment company are valued based on exchange listed prices and are classified in level 1 of the fair value hierarchy.

Investment Contracts:

The underlying fixed income assets of the synthetic guaranteed investment contracts are valued at representative quoted market prices in an active market or at a price which is based on a compilation of observable market information or a broker quote in a non-active market. These assets are classified in level 1 or level 2 of the fair value hierarchy.

Table of Contents

DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

(continued)

Wrapper contracts are valued based on the replacement cost of the contract and are classified in level 3 of the fair value hierarchy.

Government Securities:

Government securities consist of investments in Treasury securities with maturities of 3 to 5 years. Government securities valued at quoted market prices in an active market or at a price which is based on a broker quote in a non-active market are classified in level 1 or level 2 of the fair value hierarchy, respectively.

Short-term Temporary Investments:

At December 31, 2009, the cash received by Master Trust A in conjunction with the Merger was temporarily invested in the Government Short Term Investment Fund managed by State Street. This investment is valued at amortized cost which approximates fair value, and is classified in level 2 of the fair value hierarchy.

Common Stocks:

Common stocks are valued based on the price of the security as listed on an open active exchange on last trade date, and are classified in level 1 of the fair value hierarchy.

Cash & Cash Equivalents:

Cash and cash equivalents are valued at cost which approximates fair value, and are classified in level 1 of the fair value hierarchy.

Participant Loans:

Participant loans are valued at their outstanding principal balance which approximates fair value, and are classified in level 3 of the fair value hierarchy.

The methods described above are not necessarily indicative of net realizable value or reflective of future fair values. Nor is categorization of a security in any particular valuation level necessarily an indication of the risk associated with an investment in that security. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In January 2010, the FASB issued authoritative guidance that requires additional disclosures on fair value measurements and provides clarification to existing disclosures. The requirements include additional disclosure of significant transfers in and out of Level 1 and Level 2 measurements which will be adopted by the Plan for the period ending December 31, 2010. Management is evaluating the impact that the adoption of this guidance will have on the Plan's disclosures.

7. Transactions with Parties-in-Interest:

The applicable Fiduciaries are not aware of any transaction between the Plan and a party-in-interest (as defined by ERISA) or disqualified person (as defined in the Code) to the Plan (1) which is prohibited under the fiduciary responsibility provisions of ERISA or the prohibited transaction provisions of the Code, or (2) which has not been exempted from such prohibitions pursuant to a class exemption issued by the Department of Labor. The Plan invests in Altria Stock which is exempt from the party-in-interest transaction prohibitions of ERISA. Certain Master Trust investments are shares of mutual funds managed by State

NOTES TO FINANCIAL STATEMENTS

(continued)

Street Global Advisors, an affiliate of State Street. State Street is a trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions under ERISA.

8. Plan Termination:

The Board of Directors of Altria Group, Inc. (the Board) has the right, subject to the applicable provisions of ERISA and the Code, to amend (retroactively or otherwise) the Plan, suspend making the Company Contribution and/or Company Match Contribution to the Plan or to terminate the Plan. The Board has delegated to the Corporate Employee Benefit Committee of Altria Group, Inc. and the Administrator the right to amend the Plan, provided that the first year cost of such amendment does not exceed specified dollar limits. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

9. Tax Status:

By letter dated June 5, 2002, the Internal Revenue Service has determined that the Plan, as amended and in effect as of January 1, 2000 and December 15, 2001, is a qualified plan under Section 401(a) of the Code and that the ESOP portion of the Plan is a stock bonus plan as described in Sections 401(a) and 4975(e) of the Code. The Plan has been amended since the receipt of the determination letter; however, the Administrator believes that the Plan continues to be designed and operated in accordance with the applicable provisions of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. On January 8, 2009 Philip Morris filed with the Internal Revenue Service for a determination that the Plan, as amended to July 1, 2008, continues to qualify under Section 401(a) of the Code and the related Master Trusts continue to be exempt from tax under Section 501(a) of the Code. In 2009, the Plan adopted the authoritative guidance for uncertainty in income taxes and the Plan's management has determined that the adoption of this authoritative guidance had no impact on the financial statements.

10. Subsequent Events:

Plan Participation:

Effective January 1, 2010, UST Participants became eligible to participate in the Plan on terms and conditions similar to those of the UST Plan. For example, UST Participants will not be eligible to receive an allocation of the Company Contribution, but will be eligible to receive a matching contribution from their participating company of a dollar for each dollar, up to the first six percent (6%) of participant contributions made to the Plan after completing one year of service.

Investment Options:

The Plan was amended on January 1, 2010 to add the following three investment options in which contributions to the Plan and existing account balances may be invested: the Vanguard Total Bond Market Index Fund, the Vanguard PRIMECAP Fund and the Vanguard Capital Opportunities Fund.

Table of Contents**DEFERRED PROFIT-SHARING PLAN FOR HOURLY EMPLOYEES****NOTES TO FINANCIAL STATEMENTS**

(continued)

Change in Company Contribution Formula:

Effective for calendar years beginning in 2010, the Plan formula for computing the amount of the Company Contribution was changed from three percent (3%) of Philip Morris's Operating Profit to three percent (3%) of Altria Group, Inc.'s Consolidated Earnings, as defined in the Plan document.

11. Reconciliation of Financial Statements to Form 5500:

The following is a reconciliation of the net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2009 and 2008 (in thousands of dollars):

	2009	2008
Net assets available for benefits per the financial statements	\$ 1,157,502	\$ 770,911
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	4,833	(9,300)
Net assets available for benefits per the Form 5500	\$ 1,162,335	\$ 761,611

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009 (in thousands of dollars):

	2009
Change in net assets available for benefits per the financial statements	\$ 386,591
Adjustment for the net change in contract value of fully benefit-responsive investment contracts	14,133
Change in net assets available for benefits per the Form 5500	\$ 400,724
