Managed Distribution Plan (MDP)

The Board of Directors of the Fund has authorized quarterly distributions under the MDP at an annual rate of 10% of the Fund's net asset value (NAV) per share recorded on the last business day of the previous calendar year. With each distribution, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund's MDP exemptive order. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

2011 Semi-Annual Report

April 30, 2011

Highlights

June 4, 2011 marks the Fund's 30th Anniversary since its original listing on the New York Stock Exchange (NYSE). We wish to thank our stockholders for the confidence granted to the Fund's management during these 30 years and reiterate our commitment to continue providing our best efforts to add value to your investment in the Fund.

The first half of the Fund's fiscal year 2011 ended on April 30, 2011. The Mexican economy has registered positive growth rates since the first quarter of calendar 2010. The Mexican gross domestic product (GDP) increased 5.4% during 2010 and 4.6% during the first quarter of calendar 2011, compared with the same periods of the previous years.

The Fund registered positive performance during the first half of fiscal 2011; the Fund's market price registered a total return¹ of 12.00%, while the Fund's NAV per share registered a total return¹ of 12.75%. The total return registered by the Fund's NAV per share compares favorably with returns of 9.88% and 11.60% registered by the Morgan Stanley Capital International (MSCI) Mexico Index and Bolsa IPC Index, respectively.

The Board has ratified the continuation of the Fund's Managed Distribution Plan (MDP) during fiscal 2011 at the annual rate of 10% of NAV per share as of December 31, 2010, equivalent to \$0.7920 per share. The Fund paid the first distribution corresponding to fiscal 2011 on April 19, 2011 and has declared the second distribution to be paid on July 21, 2011. The Board expects to pay two additional distributions corresponding to fiscal 2011 in October 2011 and January 2012.

During the first half of fiscal 2011, the Fund repurchased and cancelled 16,597 Fund shares in open market transactions, equivalent to 0.12% of the Fund's average number of outstanding shares during this period. Under the Fund's open market share repurchase policy, the Fund may repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price which is at a discount of at least 10% to NAV.

As of April 30, 2011, the Fund's market price and NAV per share were \$28.60 and \$31.76, respectively, reflecting a discount of 9.95%, compared with 8.92% at the end of fiscal 2010. During the first half of fiscal 2011, the average discount was 9.98%.

¹ Performance figures consider reinvestment of distributions.

To Our Stockholders:

We present to you the Fund's 2011 Semi Annual Report for the period ended April 30, 2011. In this Report, we summarize the period's prevailing economic, political and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this Report useful and informative.

Economic Environment

The Mexican economy continues to recover from the global financial crisis and has decoupled from the fiscal and solvency concerns in some members of the Eurozone, such as Greece, Portugal and Spain. Mexico has healthy public sector finances, with a modest fiscal deficit that during calendar 2010 was equivalent to 2.8% of gross domestic product (GDP) and that is expected by analysts to represent 2.5% of GDP at the end of 2011. GDP registered positive growth rates of 5.4% and 4.6% during 2010 and the first quarter of calendar 2011, respectively. Mexican exports and imports increased 22.7% and 20.7%, respectively, during the first four months of 2011 and the trade balance registered a surplus of \$1.79 billion during the same period. Also, domestic interest rates continue attracting important amounts of foreign investment, which have further strengthened the Mexican peso. Analysts surveyed by the Mexican Central Bank at the end of April 2011 estimate that the GDP will grow 4.37% and 4.07%, during 2011 and 2012, respectively, over the prior calendar year.

The Mexican Central Bank has maintained domestic reference interest rates at 4.50% since July 17, 2009 and the yield paid by 28-day Cetes (Treasury Bills) increased from 3.84% at the end of fiscal 2010 to 4.24% at the end of April 2011. The Mexican government continues to auction 30-year bonds, denominated in local currency, once every six weeks, which paid a yield of 8.50% at the end of April 2011. Mexico's country risk, as measured by the spread between the yields of Mexican sovereign debt instruments denominated in dollars and traded abroad versus US Treasury bonds, increased from 129 basis points at the end of October 2010 to 141 basis points at the end of April 2011, the second lowest among Latin American countries, only above Chile's country risk of 124 basis points, and lower than Brazil and Argentina with 169 and 555 basis points, respectively. Analysts estimate that the Mexican Central Bank will leave unchanged reference interest rates at least until the last quarter of calendar 2011 and project that the rate of 28-day Cetes will be 4.71% at the end of 2011 and 5.59% at the end of 2012.

The Mexican currency continued to strengthen during the first half of fiscal 2011, as the exchange rate of the peso against the US dollar declined from Ps. 12.34 per dollar at the end of October 2010 to Ps. 11.50 per dollar at the end of April 2011. Some of the factors that have contributed to the strength of the peso are: i) a flow of foreign investment to debt instruments due to the attractive spread between US and Mexican interest rates, ii) a recovery trend of remittances sent from Mexican citizens living abroad, and iii) high levels of international oil prices. Analysts surveyed by the Central Bank at the end of April 2011 estimate that the exchange rate will be Ps. 12.00 and Ps. 12.32, at the end of 2011 and 2012, respectively. For the year ended April 30, 2011, Mexico's inflation rate was 3.36%, compared with 4.40% and 3.57% at

Table of Contents

The Mexico Fund, Inc.

the end of calendar 2010 and 2009, respectively. Analysts estimate that inflation will be around 3.87% and 3.80% at the end of calendar 2011 and 2012, respectively. In an attempt to enhance investors' confidence in Mexico, the Mexican Central Bank continues implementing a policy to accumulate international reserves. Almost \$20 billion was accumulated during 2010 and another \$9.0 billion during the first four months of calendar 2011, for a total amount of \$122.6 billion of international reserves at the end of April 2011 which, when added to \$72 billion in credit lines from the International Monetary Fund provide Mexico with almost \$195 billion of resources with which to further strengthen its economy, particularly in light of those risks associated with the challenging economic and financial environment globally. Mexico's current account deficit continued to be modest, as it registered a level of \$5.7 billion during 2010, equivalent to 0.5% of GDP. Foreign direct investment amounted to \$17.73 billion during the same period, 16.6% higher than during calendar 2009 and analysts estimate it will amount to \$19.10 and \$21.08 billion during calendar 2011 and 2012, respectively.

Security Situation in Mexico

As has been widely publicized in the U.S. and worldwide media, certain regions of Mexico have experienced an increase in violence and crime as a result of conflict between drug-trafficking organizations for control of trafficking routes. The violence and crime has been concentrated primarily in certain parts of the country. More than half of the casualties that occurred during the first ten months of calendar 2010 were concentrated in just three of the 32 states in Mexico. However, the media attention given to the violence in Mexico has affected international perceptions of the country as a whole, and Mexico's position as a recipient of direct foreign investment (mostly in northern states) and tourism.

The administration of President Calderon has engaged in a serious effort to disband these organizations and to curb the resulting violence and crime, working to strengthen security institutions and law enforcement agencies to enhance the rule of law. President Calderón has sent several bills to the Mexican Congress and some of them have already been approved, such as the Federal Police Law, the Criminal Justice System Reform and the Federal Law of Domain Extinction. However, these initiatives will take time to have a significant impact, and their results are expected to be seen in the medium- and long-terms.

The Fund's Board of Directors and the Investment Adviser recognize that investors may be concerned about the security situation in Mexico and the possibility that government expenditures required to combat the violence may divert resources away from other productive uses, such as economic development and related initiatives. However, Fund management believes that Mexico's prevailing stable economic environment, as well as the generally positive performance of Mexican listed companies and financial markets are indicators that investors in Mexico have decoupled the security situation from their investment decisions, and that with the exception of the impact in a few tourist destinations, the security situation has not significantly affected the Mexican economy and financial markets. The Fund and most Mexican

public companies continue obtaining positive results, as discussed in the following section.

Management Discussion of Fund s Performance and Portfolio Strategy

The Mexican equity market and the value of the Fund continued to increase during the first half of fiscal 2011. Some of the factors that contributed to this positive performance were increased investor optimism regarding the Mexican economic recovery, positive financial results of listed companies and the excess liquidity resulting from the expansionary monetary policy implemented by the U.S. Federal Reserve. We are pleased to report that the Fund outperformed the most representative indices of the Mexican equity market. During the first half of fiscal 2011, the Bolsa IPC Index and MSCI Mexico Index registered returns of 11.60% and 9.88%, respectively, while the Fund s market price and NAV registered returns¹ of 12.00% and 12.75%, respectively. The Fund obtained these positive results through over-weighted investments in selected companies with strong fundamentals and attractive growth potential.

The following table shows the top five contributors to the outperformance of the Fund s NAV relative to the Bolsa IPC Index during the first half of fiscal 2011. The table is sorted according to the relative contribution of these issuers to the Fund s outperformance, and shows their market price returns during such period, when the Fund maintained an overweight exposure to these companies.

Issuer	Industry	Return
Alfa	Holding Company	83.1%
El Puerto de Liverpool	Retail	33.1%
Mexichem	Chemical Products	20.7%
First Cash Financial Services	Retail	35.0%

As of April 30, 2011, the Fund had total net assets of \$425.07 million. The composite volume of Fund shares traded on all US consolidated markets during the first half of fiscal 2011 was 2,501,386 million shares, compared with 13,385,148 million shares outstanding at the end of the period.

The following chart shows the Fund's portfolio composition by sector, expressed as a percentage of the Fund's net assets, as of April 30, 2011. More detailed information about the Fund's portfolio is available below in this report.

Portfolio Composition by Sector

Percentage of Net Assets,

April 30, 2011

Mexican listed companies continued to perform better than the rest of the economy. During the first quarter of calendar 2011, sales of listed companies increased 13.7%, EBITDA² increased 10.7% and net income increased 28.6%, all compared with the same period of 2010. The average price-to-earnings ratio (PER) of the market at the end of April 2011 was 18.5 times, while the price-to-book value ratio was 2.9 times³. The market capitalization of the Bolsa at the end of April 2011 amounted to \$531 billion.

² EBITDA refers to earnings before interest, taxes, depreciation and amortization.

We believe that the recovery of the Mexican economy will continue to bring about attractive investment opportunities in selected issuers. However, we will continue to be cautious and look for companies with strong balance sheets, positive free cash flows, strong corporate governance policies, and proven business models.

Annual Meeting of Stockholders

The Fund held its Annual Meeting of Stockholders on March 9, 2011 at 9:30 a.m. Central Time at the State Suite of The St. Regis Houston Hotel, Room 1204, 1919 Briar Oaks Lane, Houston, Texas, 770277. Stockholders re-elected Emilio Carrillo Gamboa and elected Jonathan Davis Arzac as Directors of the Fund. A total of 11,414,575 Fund shares were represented at the meeting, constituting a quorum of 85.19%. The results of the Annual Meeting were as follows:

	For	% Outstanding	% of Voted	Withheld	% Outstanding	% of Voted
Emilio Carrillo Gamboa	9,838,773	73.43%	86.19%	1,575,801	11.76%	13.81%
Jonathan Davis Arzac	11,190,730	83.52%	98.03%	223,844	1.67%	1.96%

Discount Reduction Efforts

The Fund continues to maintain and implement the following strategies as part of its ongoing discount reduction efforts:

- i) Under the Fund's MDP, the Fund pays quarterly distributions at an annual rate of 10% of the Fund's NAV per share recorded on the last business day of the previous calendar year. See details below.
- ii) The Fund has in place an open market share repurchase policy. See details below.
- iii) In an effort to provide investors with more timely information about the Fund's assets, since March 2010, the Fund has been publishing, during the first five business days of each month, its portfolio of investments as part of its Monthly Summary Report, which is filed with the SEC on Form 8K and is also available at the Fund's website. Please see the section captioned "Investors Relations; Reports to Stockholders" below for more information.

The discount between the Fund's market price and NAV at the end of April 2011 was 9.95%, compared with 8.92% at the end of fiscal 2010.

Declaration of Distributions Under MDP

Edgar Filing: MEXICO FUND INC - Form N-CSRS

Under the MDP, the Fund pays quarterly distributions at an annual rate of 10% of the Fund's NAV per share recorded on the last business day of the previous calendar year. The Fund has maintained this rate of distributions since May 2009. All of the distributions corresponding to the fiscal years 2009 and 2010 were comprised of net investment income and long-term realized capital gains. The Board has ratified the continuation of the Fund's MDP during fiscal 2011 at the same annual rate of 10%, with distributions to be based on the Fund's NAV per share as of December 31, 2010.

Table of Contents

The Mexico Fund, Inc.

Pursuant to the MDP, the Board of Directors has declared a dividend distribution of \$0.7920 per share, payable in cash on July 21, 2011 to stockholders of record on July 6, 2011.

For each distribution under the MDP, the Fund will issue a notice to stockholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information. The Fund's Board of Directors may amend or terminate the MDP at any time without prior notice to stockholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund's investment performance from the amount of distributions or from the terms of the Fund's MDP.

Open Market Repurchases

During the first half of fiscal 2011, the Fund repurchased and cancelled 16,597 Fund shares in open market transactions, equivalent to 0.12% of the Fund's average number of outstanding shares during this period. These shares were repurchased at an average price of \$27.77 per share, which represented an average discount of 10.53% to the NAV per share, for a total amount of \$461,444. Under the Fund's open market share repurchase policy, the Fund may repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price which is at a discount of at least 10% to NAV. During the first half of fiscal 2011, the volume-weighted average discount was 9.99%.

We are pleased with the positive results obtained by the Fund during the first half of fiscal 2011 and will continue working hard to offer stockholders our best efforts to find the most attractive investment opportunities in the Mexican equity market. We hope you find this report useful and informative, and we thank you for your continued confidence in the Fund.

Sincerely yours,

José Luis Gómez Pimienta

General Information

Renewal of Investment Advisory and Management Agreement

On March 9, 2011, the Board of the Fund, including all independent Directors, approved the continuation of the Investment Advisory and Management Agreement (Agreement) with Impulsora del Fondo México, SC (Impulsora) based on its consideration of various factors, including (1) the nature, extent and quality of services provided by Impulsora to the Fund; (2) the investment performance of the Fund; (3) the costs and services provided (including a comparison of such costs to other comparable funds) and profits to be realized by Impulsora from its relationship with the Fund; (4) the extent to which economies of scale have been realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors; and (5) other benefits to Impulsora from its relationship with the Fund (and any corresponding benefit to the Fund). In response to a specific request by the Independent Directors, Impulsora provided detailed information concerning the foregoing factors. The Board also received a memorandum from their independent legal counsel discussing the duties of board members in considering the approval of the continuation of the Agreement. The Board also evaluated information consisting of comparative figures of overall expenses, management and other fees, of a group of substantially similar funds. As discussed more fully below, the Board considered the Fund's historical performance through the end of January 2011, as well as the Fund's current advisory fee rate, which is below both the median and average for regional closed-end funds followed by Lipper, Inc. The Board determined that the fees payable to Impulsora were reasonable, especially in light of the quality of the services provided, as well as the level of advisory fees paid by comparable funds.

The following discussion is not intended to be all-inclusive. The Board reviewed a variety of factors and considered a significant amount of information, including information received on an ongoing basis at meetings of the Board and Board committees. In view of the broad scope and variety of these factors and information, the Board did not find it practicable, and did not make specific assessments of, quantify or otherwise assign relative weights to the specific factors in reaching their conclusions and determination to approve the continuance of the Agreement.

The nature, extent and quality of the advisory services provided. The Board considered the nature, extent and quality of advisory services provided under the Agreement during the past year. The Board noted that it received information at regular meetings throughout the year regarding the services rendered by Impulsora concerning the management of the Fund and Impulsora's role in coordinating providers of other services to the Fund. The Board further noted that Impulsora provides all facilities and services necessary to analyze, execute and maintain investments consistent with the Fund's objectives, and has done so since the Fund's inception in 1981. The Board had available to it the qualifications, backgrounds and responsibilities of the personnel primarily responsible for the day-to-day portfolio management of the Fund and recognized that these individuals report to the Board regularly and provide a detailed report on the Fund's performance at each regular

Table of Contents

The Mexico Fund, Inc.

meeting of the Board. The Board also received and considered financial information regarding Impulsora, including Impulsora's operating results during the last three years and efforts made by Impulsora to reduce its operating expenses. The Board concluded that overall, it was satisfied with the nature, quality and extent of services that Impulsora provides to the Fund under the Agreement.

The investment performance of the Fund. The Board received and considered information regarding Fund performance relative to the leading Mexican equity indices, including the Bolsa IPC Index (IPC) and the Morgan Stanley Capital International Mexico Index (MSCI), as well as comparable funds. The Board was provided with a description of the rationale for the use of a performance matrix rather than a single benchmark to evaluate Fund performance, a practice that has been used with respect to the Fund's performance since 2002. The Board noted that it had received information throughout the year at periodic intervals regarding the Fund's performance, including with respect to the leading Mexican equity indices. The Board was provided with the performance matrix as of January 31, 2011 with periods from one month to five years. The combination of positive performance by issuers with relative overexposure in the Fund's portfolio and trading activity in selected stocks generated favorable results. The Fund outperformed the IPC and MSCI indices in the periods from three months to one year. In three and five years, the Fund outperformed the MSCI index. The Fund's underperformance relative to the IPC index during the three-year period has narrowed and a recovery trend of the relative performance against the IPC index was evident. The Fund's price return is higher than all indices followed in periods from one to five years. The Board also considered the continuing efforts made by Impulsora to address the discount between the Fund's net asset value and market price, including the Fund's MDP, the open market repurchases conducted by the Fund, and efforts to provide investors with more timely information about the Fund's assets. Based on its review and Impulsora's explanation, the Board concluded that the Fund's performance has been positive and competitive.

The costs of advisory services provided and the level of profitability. The Board reviewed the fees charged by Impulsora for investment advisory services, as well as the gross revenues and pre-tax profits earned by Impulsora. The Board also reviewed and considered comparative information supplied by Lipper Inc., which the Board noted showed that the effective investment advisory fee of the Fund remained competitive and lower than the weighted average of other comparable regional closed-end funds. The Board also reviewed and considered comparative information regarding investment advisory fees, including asset breakpoints, charged by comparable investment advisers. The Board also reviewed the actual dollar amount of the fees payable under the Agreement, as well as the fee as a percentage of assets under management. On the basis of this information, the Board concluded that the level of investment advisory fee is appropriate in light of the nature, extent and quality of services provided to the Fund, and that the overall expense ratio compared favorably to other similar funds and the anticipated profitability of the relationship between the Fund and Impulsora.

General Information

Continued

Whether the advisory fees reflect economies of scale and the extent to which economies of scale will be realized as the Fund grows. The Board determined that the investment advisory fees payable under the advisory arrangements already reflect potential future economies of scale through the existing fee structure, which includes the imposition of breakpoints as Fund assets increase, of 1.00% of average net assets for assets up to and including \$200 million, 0.90% of average net assets in excess of \$200 million and up to \$400 million, and 0.60% of average net assets for assets in excess of \$400 million.

Other benefits to Impulsora from its relationship with the Fund (and any corresponding benefit to the Fund). The Board determined that other benefits described by Impulsora are reasonable and fair, and are consistent with industry practice and the best interest of the Fund and its stockholders. In this regard, the Board specifically considered the benefits to Impulsora due to the fact that it also serves, and receives an additional fee from, the Fund in its role as administrator to the Fund. With regard to brokerage, the Board noted that some brokers provide Impulsora with research in addition to brokerage services. With regard to benefits to the Fund, the Board considered the fact that Impulsora has been able to obtain from Mexican brokerage houses, on behalf of the Fund, one of the lowest commission rates in Mexico.

Investment Policy Relating to Temporary Defensive Investments

The Fund generally invests at least 80% of its total assets in equity securities listed on the Mexican Stock Exchange, but may reduce its holdings in equity securities listed on the Mexican Stock Exchange below 80% of its total assets for temporary defensive purposes when unusual market or economic conditions occur.

Investment Policy Relating to Issuers Listed on the Mexican Stock Exchange and Organized Outside of Mexico

The Fund may invest up to 20% of its assets in issuers that are listed on the Mexican Stock Exchange, but which are organized outside of Mexico, provided each such issuer has a subsidiary organized in Mexico.

Concentration Policy

The Fund has a concentration policy that permits it to concentrate its investments in any industry or group of industries in the IPC Index (or any successor or comparable index as determined by the Board to be an appropriate measure of the Mexican market) if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%.

At the end of April 2011, the only industry group that represented 20% or more of the value of the securities included in the IPC Index was the telecommunications industry group, with a weighting of 26.69% of the IPC Index. This industry group is composed of companies providing

Table of Contents

The Mexico Fund, Inc.

telephone services (both fixed and mobile). At the end of April 2011, 17.85% of the Fund's net assets were invested in the telecommunications sector. The Fund's Investment Adviser will continue to evaluate the concentration in this industry and may, at its discretion, choose not to concentrate in this industry group in the future or to concentrate in other industries subject to the concentration policy described above.

Proxy Voting

Information about how the Fund voted proxies during the twelve-month period ending June 30, 2011 is available, without charge, upon request by calling collect Mr. Eduardo Solano, the Fund's Investor Relations Vice President, or on the SEC's website at www.sec.gov. Distribution Reinvestment and Stock Purchase Plan

The Fund's Distribution and Reinvestment and Stock Purchase Plan (the Plan) provides a convenient way to increase your holdings in the common stock of the Fund through the reinvestment of distributions paid by the Fund. The Plan includes the following:

- (1) **Voluntary Stock Purchase Option.** All registered stockholders (regardless of whether they are Plan participants) can now make monthly voluntary cash investments in Fund shares through the Plan Agent, American Stock Transfer & Trust Company (AST). The minimum investment for a voluntary cash investment is \$25.00; you may vary the amount of your investment as long as it equals or exceeds this \$25.00 minimum. There is a transaction fee of \$2.50 and \$0.10 commission for this service. Optional cash payments can be made online or by mail, as described further in the enclosed brochure. Stockholders can also authorize AST to make automatic withdrawals from a bank account.
- (2) **Clarification Regarding Reinvestment of Distributions.** Distributions received through the Fund's Managed Distribution Plan can be reinvested directly in additional Fund shares, regardless of the character of such distributions for accounting and tax reporting purposes.
- (3) **Online Enrollment in the Plan.** As an alternative to mailing an authorization card to AST, stockholders may now enroll in the Plan through AST's website at www.amstock.com. To have distributions reinvested, stockholder authorization must be received by AST by the record date for a given distribution.
- (4) **Withdrawal from the Plan.** Stockholders may withdraw from the Plan by notifying AST. If a request for withdrawal is received by AST more than three (3) business days before a distribution payment date that distribution will be paid out in cash.

- (5) **Amendment of Plan.** The Fund reserves the right to amend or supplement the Plan at any time, but only by mailing to participants appropriate written notice at least thirty (30) days prior to the effective date thereof, except when necessary to comply with applicable laws or the rules or policies of the Securities and Exchange Commission or other regulatory authority.

If you are a Fund shareholder of record, you may enroll in the Plan by mail or online at www.amstock.com. Please contact AST for further information, or to request an authorization card for enrollment. If your shares are held in nominee or street name through a broker, bank or other nominee who does not provide an automatic reinvestment service and you wish to have distributions reinvested in shares of the Fund, you must notify such nominee and request that the change be made on your behalf or that your shares be re-registered in your own name.

You may withdraw from the Plan without penalty at any time by notice to AST. If your request to withdraw from the Plan is received more than three business days before any distribution payment date then that distribution will be paid out in cash. If your request to withdraw from the Plan is received less than three business days prior to any distribution payment date then that distribution will be reinvested. However, all subsequent distributions would be paid out in cash on all balances. Should you choose to withdraw any shares from the Plan or discontinue your participation in the Plan, you will receive a certificate or certificates for the appropriate number of full shares, along with a check in payment for any fractional share interest you may have. The payment for the fractional shares will be valued at the market price of the Fund's shares on the date your termination is effective. In lieu of receiving a certificate, you may request the Plan Agent to sell part or all of your shares at market price and remit the proceeds to you, net of any brokerage commissions.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of common stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Fund's Board (the valuation date), the market price of the common stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of common stock, the Plan Agent will invest the distribution in newly issued shares of common stock, which will be valued at the greater of NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the common stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy common stock in the open market. As a participant in the Plan, you will be charged a *pro-rata* portion of brokerage commissions on all open market purchases.

If you have any questions concerning the Plan or would like a hard copy of the Plan brochure, please contact AST using the contact information listed above.

Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the last business day of each year reported. Dividends and distributions, if any, are assumed to be reinvested at the lower of the net asset value or the closing market price on the dividend/distribution day. For fiscal 2007, the total return was calculated assuming a sale of the rights received on March 26, and reinvested in stock at the closing market price of that date. If the distribution corresponding to long-term capital gains in fiscal 2007 were taken in stock, which was issued at \$38.95 per share, the total return would have been 37.16%. If the distribution corresponding to long-term capital gains in fiscal 2008 were taken in stock, which was issued at \$32.92 per share, the total return would have been (56.64)%.

Notes to Financial Statements

April 30, 2011

(Unaudited)

1. Operations and Significant Accounting Policies:

The Mexico Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end non-diversified management investment company. The investment objective of the Fund is to seek long-term capital appreciation through investment in securities, primarily equity, listed on the Mexican Stock Exchange.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

Valuation of investments Investments in which the principal exchange is on the Mexican Stock Exchange are valued at the closing price reported by the Mexican Stock Exchange. The closing price represents the weighted average for the last twenty minutes of operations in any business day. Investments in which the principal exchange is the NASDAQ or the New York Stock Exchange are valued at the last sale price. Short-term securities with remaining maturities of less than 60 days at the time of purchase are carried at cost, plus accrued interest, which approximates market value. All other securities are valued in accordance with methods determined by the Board of Directors. If the Board of Directors believes that the price of a security obtained under the Fund's valuation procedures does not represent the amount that the Fund reasonably expects to receive on a current sale of the security, the Fund will value the security based on a method that the Board believes accurately reflects fair value.

GAAP establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's investments and are summarized in the following fair value hierarchy:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)
The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Table of Contents**The Mexico Fund, Inc.****Notes to Financial Statements**

April 30, 2011

Continued

The following is a summary of the inputs used as of April 30, 2011, in valuing the Fund's assets and liabilities carried at fair value:

Valuation Inputs	LEVEL 1	LEVEL 2	LEVEL 3	TOTAL
ASSETS:				
Investments in Securities:				
Equity Investments (a)	\$ 402,582,745			\$ 402,582,745
Short Term Investments (b)		\$ 22,771,218		\$ 22,771,218
Total Investments in Securities	\$ 402,582,745	\$ 22,771,218		\$ 425,353,963

(a) For detailed industry descriptions, see the accompanying Schedule of Investments.

(b) These assets consist of time deposits and repurchase agreements with maturities of one business day. They are classified as Level 2 solely as a result of the Fund's valuation technique for short-term investments, using cost plus accrued interest which approximates market value, instead of quoted prices in active markets, and thereby may not present any higher risk than Level 1 assets.

Security transactions and investment income Security transactions are recorded on the date which the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

Foreign Currency The market value of Mexican securities, currency holdings and other assets and liabilities denominated in Pesos (Ps.) was recorded in the financial statements after being translated into U.S. dollars based on the open market exchange rate prevailing in Mexico City at the end of the period. The open market exchange rate at April 30, 2011 was Ps.11.4958 to \$1.00.

The identified cost of portfolio holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when earned or incurred.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the year. Accordingly, the net realized and unrealized gain on investments presented in the accompanying financial statements include the effects of both such changes.

Reported net realized foreign exchange gains or losses arise from sales of short-term securities in exchange for cash, payment of services or functional currency denominated assets, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded by the Fund, and the U.S. dollar equivalent of the amount actually received or paid.

Edgar Filing: MEXICO FUND INC - Form N-CSRS

Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in common stocks, resulting from changes in the exchange rate.

Repurchase Agreements The Fund enters into repurchase agreements with approved institutions. The Fund's repurchase agreements are fully

Table of Contents

The Mexico Fund, Inc.

collateralized by Mexican or U.S. Government securities. The Fund takes possession of the collateral and the Fund's investment adviser monitors the credit standing of repurchase agreement counterparties. It is the Fund's policy that the fair value of the collateral be at least equal to the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

Realized gains and losses on investments Realized gains and losses on investments are determined on the identified cost basis.

Taxes No provision has been made for U.S. income or excise taxes for the six months ended April 30, 2011 on net investment company taxable income or net long-term capital gains as defined by the Internal Revenue Code (the "Code"), since the Fund intends to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of such income to its stockholders.

GAAP prescribes the minimum recognition threshold a tax position must meet before being recognized in the financial statements. An assessment of the Fund's tax positions has been made and it has been determined that there is no impact to the Fund's financial statements.

Each of the Fund's federal income tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Dividends to stockholders from net investment income are determined based on Federal income tax regulations, whereas the corresponding net investment income as reflected in the accompanying financial statements is presented in accordance with accounting principles generally accepted in the United States. Net realized gains from security transactions are distributed annually to stockholders.

Dividends to stockholders Cash dividends are recorded by the Fund on the ex-dividend date.

Risks of Investment in Mexican Securities Investing in Mexican securities involves certain considerations not typically associated with investing in securities of U.S. issuers, including (1) lesser liquidity and smaller market capitalization of the Mexican securities markets, (2) currency fluctuations, (3) higher rates of inflation and domestic interest rates and (4) less stringent disclosure requirements, less available information regarding Mexican public companies and less active regulatory oversight of Mexican public companies.

The Mexican Stock Exchange is a concentrated market. A large percentage of the value of the Mexican securities market is currently represented by certain industry sectors, in particular, the communications industry. Also, a certain individual has a controlling interest in companies representing around 35% of the market capitalization of the Mexican Stock Exchange. The value of the Mexican Stock Exchange may be subject to greater volatility than markets that are less concentrated. Any factors or events which impact this individual

could have negative repercussions for the issuers in which he holds a controlling interest, including certain Fund investments and the Mexican Stock Exchange as a whole.

2. Investment Advisory Agreement:

The Fund has a management contract with Impulsora del Fondo México, S.C. (the Adviser), a Mexican company registered under the U.S. Investment Advisers Act of 1940. The Adviser furnishes investment research and portfolio management services consistent with the Fund's stated investment policies. The Fund pays the Adviser a monthly fee at the annual rate of 1.00% on the first \$200 million of average daily net assets, 0.90% on the excess over \$200 million up to \$400 million and 0.60% on the excess over \$400 million.

3. Administrative Services Agreement:

The Fund has entered into an Administrative Services Agreement with the Adviser, which provides for certain services to be performed by the Adviser, including among other administrative activities, the determination and publication of the net asset value of the Fund, the maintenance of the Fund's books and records in accordance with applicable U.S. and Mexican Laws and assistance in the preparation and filing of annual reports and tax returns. The Fund pays the Adviser a monthly fee at the annual rate of 0.11% on the first \$600 million of average daily net assets, and 0.09% on the excess over \$600 million, with a minimum amount of \$450,000 per year.

4. Purchases and Sales of Investments:

Edgar Filing: MEXICO FUND INC - Form N-CSRS

Purchases and sales of investments, excluding short-term securities, for the six months ended April 30, 2011 were as follows:

Purchases	
Common Stock	\$ 37,602,250
Total Purchases	\$ 37,602,250
Proceeds from Investments Sold	
Common Stock	\$ 69,892,968
Total Sales	\$ 69,892,968

At April 30, 2011, there were 150,000,000 shares of \$1.00 par value common stock authorized, of which 13,385,148 shares were outstanding.

The Fund offers a Dividend Reinvestment Plan (Plan) to its stockholders. Fund stockholders are automatically enrolled as participants in the Plan unless they notify the Fund s transfer agent otherwise.

On June 8, 2010, the Board of Directors of the Fund considered and approved a payment to the Fund of \$346,758 by a Fund Director. The payment represents a profit realized by the Fund Director on sales of Fund shares made within a period of less than six months from purchase of Fund shares by the Fund Director of \$259,191 and a reimbursement of legal fees incurred by the Fund of \$87,567. Such amounts were recorded as a capital contribution to the Fund and a reimbursement of Fund expenses, respectively. The profit earned by the Fund Director has been paid to the Fund in satisfaction of the requirements of Section 16(b) of the Securities Exchange Act of 1934, as amended.

6. Distributions to Stockholders:

On August 12, 2008, the Fund received authorization from the Securities and Exchange Commission (SEC) which permits the Fund to distribute long-term capital gains to stockholders more than once per year. Accordingly, the Board of Directors approved the implementation of a Managed Distribution Plan (MDP) to make quarterly cash distributions to stockholders. Under the plan, distributions will be made from current income, supplemented by realized capital gains and, to the extent necessary, paid in capital.

The Board of Directors has authorized quarterly distributions under its Managed Distribution Plan (MDP) to an annual rate of 10% of net asset value.

The tax character of distributions paid during the fiscal year ended October 31, 2010 were as follows:

	2010
Distributions paid from:	
Ordinary income	\$ 7,036,441
Long term capital gains	25,120,992
Total distributions paid	\$ 32,157,433

As of April 30, 2011, the components of accumulated earnings on a tax basis were as follows:

Net long term capital gains	\$ 17,984,736
Undistributed ordinary income	1,178,156
Unrealized appreciation	126,050,659
 Total accumulated earnings	 \$ 145,213,551

As of April 30, 2011, the cost of investments for federal income tax purposes was \$299,726,429. Gross unrealized appreciation of investments was \$132,867,458 and gross unrealized depreciation of investments was \$7,239,925, resulting in net unrealized appreciation on investments of \$125,627,533, excluding foreign currency transactions. The difference between book basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to wash sale loss deferrals and different book and tax treatment on corporate reorganizations to securities held by the Fund.

7. Stock Repurchases:

On March 6, 2002, the Board of Directors of the Fund announced a policy contemplating in-kind repurchase offers at no less than 98% of net asset value for up to 100% of the Fund's outstanding shares. In June 2009, Fund stockholders voted to terminate the Fund's in-kind repurchase offer program as a fundamental policy of the Fund (the Policy). Since the Fund no longer has the Policy in place as a fundamental policy, the Board terminated the periodic in-kind repurchase offer program.

In June 2009, the Board authorized the Fund's investment adviser to repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price which is at a discount of at least 10% to NAV. The year ended October 31, 2010 the Fund repurchased 975,956 shares at a cost of \$22,676,136. As of April 30, 2011, the Fund has repurchased 16,597 shares at a cost of \$461,444.

8. Investments:

Certain members of the Board of Directors of the Fund are also members of Boards of Directors of certain companies held in the Fund's portfolio.

9. Commitments and Contingencies:

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties or provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.
