WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2012 (UNAUDITED)

1. BUSINESS

Wabtec is one of the world's largest providers of value-added, technology-based products and services for the global rail industry. Our products are found on virtually all U.S. locomotives, freight cars and passenger transit vehicles, as well as in more than 100 countries throughout the world. Our products enhance safety, improve productivity and reduce maintenance costs for customers, and many of our core products and services are essential in the safe and efficient operation of freight rail and passenger transit vehicles. Wabtec is a global company with operations in 19 countries. In the first six months of 2012, about 51% of the Company's revenues came from customers outside the U.S.

2. ACCOUNTING POLICIES

Basis of Presentation The unaudited condensed consolidated interim financial statements have been prepared in accordance with generally accepted accounting principles and the rules and regulations of the Securities and Exchange Commission and include the accounts of Wabtec and its majority owned subsidiaries. These condensed consolidated interim financial statements do not include all of the information and footnotes required for complete financial statements. In Management's opinion, these financial statements reflect all adjustments of a normal, recurring nature necessary for a fair presentation of the results for the interim periods presented. Results for these interim periods are not necessarily indicative of results to be expected for the full year.

The Company operates on a four-four-five week accounting quarter, and the quarters end on or about March 31, June 30, September 30 and December 31.

The notes included herein should be read in conjunction with the audited consolidated financial statements included in Wabtec's Annual Report on Form 10-K for the year ended December 31, 2011. The December 31, 2011 information has been derived from the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Revenue Recognition Revenue is recognized in accordance with Accounting Standards Codification (ASC) 605 Revenue Recognition. Revenue is recognized when products have been shipped to the respective customers, title has passed and the price for the product has been determined.

In general, the Company recognizes revenues on long-term contracts based on the percentage of completion method of accounting. The units-of-delivery method or other input-based or output-based measures, as appropriate, are used to measure the progress toward completion of individual contracts. Contract revenues and cost estimates are reviewed and revised at a minimum quarterly and adjustments are reflected in the accounting period as such amounts are determined. Provisions are made currently for estimated losses on uncompleted contracts. Unbilled accounts receivables were \$95.3 million and \$58.9 million, customer deposits were \$84.1 million and \$72.8 million, and provisions for loss contracts were \$11.4 million and \$9.3 million at June 30, 2012 and December 31, 2011, respectively.

Certain pre-production costs relating to long-term production and supply contracts have been deferred and will be recognized over the life of the contracts. Deferred pre-production costs were \$16.4 million and \$15.4 million at June 30, 2012 and December 31, 2011, respectively.

Use of Estimates The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and

Table of Contents

expenses during the reporting period. Actual amounts could differ from the estimates. On an ongoing basis, management reviews its estimates based on currently available information. Changes in facts and circumstances may result in revised estimates.

Stock-Based Compensation The Company recognizes compensation expense for stock-based compensation based on the grant date fair value amortized ratably over the requisite service period following the date of grant.

Financial Derivatives and Hedging Activities The Company has periodically entered into foreign currency forward contracts to reduce the impact of changes in currency exchange rates. Forward contracts are agreements with a counter-party to exchange two distinct currencies at a set exchange rate for delivery on a set date at some point in the future. There is no exchange of funds until the delivery date. At the delivery date the Company can either take delivery of the currency or settle on a net basis. At June 30, 2012, the Company had no forward contracts.

To reduce the impact of interest rate changes on a portion of its variable-rate debt, the Company entered into interest rate swaps which effectively converted a portion of the debt from variable to fixed-rate borrowings during the term of the swap contracts. The Company is exposed to credit risk in the event of nonperformance by the counterparties. However, since only the cash interest payments are exchanged, exposure is significantly less than the notional amount. The counterparties are large financial institutions with excellent credit ratings and history of performance. The Company currently believes the risk of nonperformance is negligible. The Company concluded that these interest rate swap agreements qualify for cash flow hedge accounting which permits the recording of the fair value of the interest rate swap agreements and corresponding adjustment to other comprehensive income (loss), net of tax, on the balance sheet.

Effective June 30, 2012, the Company had interest rate swap agreements with a notional amount of \$107.0 million and which effectively changed the Company's interest rate on bank debt at June 30, 2012 from a variable rate to a fixed rate of 1.81%. The interest rate swap agreements mature on December 31, 2012. As of June 30, 2012, the Company has recorded a current liability of \$0.8 million and a corresponding offset in accumulated other comprehensive loss of \$0.5 million, net of tax, related to these agreements.

Also, the Company entered into a forward starting interest rate swap agreement with a notional value of \$150.0 million. Effective July 31, 2013, with a termination date of November 7, 2016, the interest rate swap agreement will convert a portion of the Company's then outstanding debt from a variable rate to a fixed-rate borrowing. During the term of the interest rate swap agreement the interest rate on the notional value will be fixed at 1.415% plus the applicable borrowing margin. As of June 30, 2012, the Company has recorded a current liability of \$2.8 million and a corresponding offset in accumulated other comprehensive loss of \$1.7 million, net of tax, related to this agreement.

Foreign Currency Translation Assets and liabilities of foreign subsidiaries, except for the Company's Mexican operations whose functional currency is the U.S. Dollar, are translated at the rate of exchange in effect on the balance sheet date while income and expenses are translated at the average rates of exchange prevailing during the year. Foreign currency gains and losses resulting from transactions, and the translation of financial statements are recorded in the Company's consolidated financial statements based upon the provisions of ASC 830 Foreign Currency Matters. The effects of currency exchange rate changes on intercompany transactions and balances of a long-term investment nature are accumulated and carried as a component of accumulated other comprehensive loss. The effects of currency exchange rate changes on intercompany transactions that are denominated in a currency other than an entity's functional currency are charged or credited to earnings. Foreign exchange transaction gains recognized in other income (expense), net were \$631,000 for the three months ended June 30, 2012. Foreign exchange transaction losses recognized in other income (expense), net were \$589,000 for the three months ended June 30, 2011. Foreign exchange transaction gains recognized in other income (expense), net were \$1.0 million for the six months ended June 30, 2012. Foreign exchange transaction losses recognized in other income (expense), net were \$266,000 for the six months ended June 30, 2011.

Table of Contents

Non-controlling Interests In accordance with ASC 810, the Company has classified non-controlling interests as equity on our condensed consolidated balance sheets as of June 30, 2012 and December 31, 2011. Net income attributable to non-controlling interests for the three and six months ended June 30, 2012 and 2011 was not material.

Other Comprehensive Income Comprehensive income is defined as net income and all other non-owner changes in shareholders' equity.

The components of accumulated other comprehensive loss were:

<i>In thousands</i>	June 30, 2012	December 31, 2011
Foreign currency translation loss	\$ (8,065)	\$ (2,447)
Unrealized loss on interest rate swap contracts, net of tax	(2,177)	(871)
Pension benefit plans and post retirement benefit plans, net of tax	(56,056)	(57,579)
Total accumulated comprehensive loss	\$ (66,298)	\$ (60,897)

3. ACQUISITIONS

The Company made the following acquisitions within the Transit Segment:

On November 18, 2011, the Company acquired Fulmer Company (Fulmer), a leading manufacturer of motor components for rail, power generation and other industrial markets, for a net purchase price of \$13.6 million, resulting in preliminary additional goodwill of \$2.0 million, which will be deductible for tax purposes.

On June 29, 2011, the Company acquired an aftermarket transit parts business (ATP) from GE Transportation, a parts supply business for propulsion and control systems for the passenger transit car aftermarket in North America for a net purchase price of \$21.1 million, resulting in no additional goodwill.

On February 25, 2011, the Company acquired Brush Traction Group (Brush Traction), a UK-based provider of locomotive overhauls, services and aftermarket components for a net purchase price of approximately \$30.7 million, resulting in additional goodwill of \$20.5 million, which will be deductible for tax purposes.

On June 14, 2012, the Company acquired Mors Smitt Holding (Mors Smitt), a leading manufacturer of electronic components for rail and industrial markets with operations in the Netherlands, the United Kingdom, the U.S., France, China and Hong-Kong, for a net purchase price of approximately \$88.4 million, net of cash, resulting in preliminary additional goodwill of \$35.0 million, none of which will be deductible for tax purposes.

On July 13, 2012, subsequent to the close of our accounting quarter, the Company acquired Tec Tran Corp. and its affiliates (Tec Tran), the only U.S.-owned manufacturer of hydraulic braking systems for transit cars, based in North Carolina, for a net purchase price of approximately \$8.3 million, net of cash.

The Company made the following acquisition within the Freight Segment:

On November 3, 2011, the Company acquired Bearward Engineering (Bearward), a UK-based manufacturer of cooling systems and related equipment for power generation and other industrial markets, for a net purchase price of approximately \$43.6 million, net of

cash, resulting in preliminary additional goodwill of \$24.2 million, none of which will be deductible for tax purposes.

Table of Contents

The acquisitions listed above, excluding Tec Tran, include escrow deposits of \$13.7 million, which act as security for indemnity and other claims in accordance with the purchase and related escrow agreements.

For the Bearward, Fulmer and Mors Smitt acquisitions, the following table summarizes the preliminary estimated fair values of the assets acquired and liabilities assumed at the date of the acquisition. For the Brush Traction and ATP acquisitions, the following table summarizes the final fair value of the assets acquired and liabilities assumed at the date of acquisition.

<i>In thousands</i>	Brush Traction February 25, 2011	ATP June 29, 2011	Bearward November 3, 2011	Fulmer November 18, 2011	Mors Smitt June 14, 2012
Current assets	\$ 19,558	\$	\$ 14,777	\$ 4,203	\$ 23,947
Property, plant & equipment	8,862		4,498	1,636	6,536
Goodwill and other intangible assets	30,816	21,100	43,200	8,409	84,000
Other assets			16		944
Total assets acquired	59,236	21,100	62,491	14,248	115,427
Total liabilities assumed	(28,559)		(18,865)	(657)	(27,057)
Net assets acquired	\$ 30,677	\$ 21,100	\$ 43,626	\$ 13,591	\$ 88,370

Of the allocation of \$105.8 million of acquired intangible assets for the companies listed in the above table exclusive of goodwill, \$74.4 million was assigned to customer relationships, \$22.8 million was assigned to trade names, \$2.1 million was assigned to a license agreement, \$1.0 million was assigned to non-compete agreements and \$5.5 million was assigned to customer backlog. The trade names are considered to have an indefinite useful life while the customer relationships' average useful life is 20 years, the license agreement's useful life is 20 years, and the non-compete agreements average useful life is two years.

The following unaudited pro forma financial information presents income statement results as if the acquisitions listed above, excluding Tec Tran, had occurred on January 1, 2011:

<i>In thousands</i>	Three Months Ended June 30, 2012	Three Months Ended June 30, 2011	Six Months Ended June 30, 2012	Six Months Ended June 30, 2011
Net sales	\$ 623,548	\$ 517,481	\$ 1,220,608	\$ 1,013,673
Gross profit	179,124	154,090	354,212	299,717
Net income attributable to Wabtec shareholders	64,305	38,387	123,611	83,744
Diluted earnings per share				
As Reported	\$ 1.33	\$ 0.75	\$ 2.56	\$ 1.60
Pro forma	\$ 1.33	\$ 0.79	\$ 2.56	\$ 1.73

4. INVENTORIES

The components of inventory, net of reserves, were:

<i>In thousands</i>	June 30, 2012	December 31, 2011
Raw materials	\$ 162,982	\$ 154,885
Work-in-process	131,128	110,179
Finished goods	94,688	83,110
Total inventories	\$ 388,798	\$ 348,174

Table of Contents**5. INTANGIBLES**

Goodwill was \$623.9 million and \$587.5 million at June 30, 2012 and December 31, 2011, respectively. The change in the carrying amount of goodwill by segment for the six months ended June 30, 2012 is as follows:

<i>In thousands</i>	Freight Segment	Transit Segment	Total
Balance at December 31, 2011	\$ 388,221	\$ 199,310	\$ 587,531
Acquisition		34,951	34,951
Adjustment to preliminary purchase allocation	1,901	992	2,893
Foreign currency impact	362	(1,806)	(1,444)
Balance at June 30, 2012	\$ 390,484	\$ 233,447	\$ 623,931

As of June 30, 2012 and December 31, 2011, the Company's trademarks had a net carrying amount of \$124.7 million and \$114.6 million, respectively, and the Company believes these intangibles have an indefinite life. Intangible assets of the Company, other than goodwill and trademarks, consist of the following:

<i>In thousands</i>	June 30, 2012	December 31, 2011
Patents and other, net of accumulated amortization of \$33,806 and \$32,316	\$ 13,120	\$ 14,849
Customer relationships, net of accumulated amortization of \$25,684 and \$21,295	159,851	127,960
Total	\$ 172,971	\$ 142,809

The weighted average remaining useful life of patents, customer relationships and intellectual property were five years, 16 years and 17 years, respectively. Amortization expense for intangible assets was \$3.3 million and \$6.3 million for the three and six months ended June 30, 2012, respectively and \$3.3 million and \$6.4 million for the three and six months ended June 30, 2011, respectively.

Amortization expense for the five succeeding years is as follows (in thousands):

Remainder of 2012	\$ 8,402
2013	11,780
2014	11,132
2015	10,635
2016	10,478

6. LONG-TERM DEBT

Long-term debt consisted of the following:

<i>In thousands</i>	June 30, 2012	December 31, 2011
6.875% Senior Notes, due 2013	\$ 150,000	\$ 150,000
Revolving Credit Facility	292,000	245,000
Capital Leases	1,131	873

Edgar Filing: WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORP - Form 10-Q

Total	443,131	395,873
Less current portion	43	68
Long-term portion	\$ 443,088	\$ 395,805

Table of Contents

2011 Refinancing Credit Agreement

On November 7, 2011, the Company refinanced its existing revolving credit and term loan facility with a consortium of commercial banks. This 2011 Refinancing Credit Agreement provides the Company with a \$600 million, five-year revolving credit facility. The Company incurred approximately \$2.0 million of deferred financing cost related to the 2011 Refinancing Credit Agreement. The facility expires on November 7, 2016. The 2011 Refinancing Credit Agreement borrowings bear variable interest rates indexed to the indices described below. At June 30, 2012, the Company had available bank borrowing capacity of approximately \$259.0 million, net of \$49.0 million of letters of credit, subject to certain financial covenant restrictions.

Under the 2011 Refinancing Credit Agreement, the Company may elect a Base Rate of interest or an interest rate based on the London Interbank Offered Rate (LIBOR) of interest (the Alternate Rate). The Base Rate adjusts on a daily basis and is the greater of the Federal Funds Effective Rate plus 0.5% per annum, the PNC, N.A. prime rate or the Daily LIBOR Rate plus 100 basis points and an additional margin that ranges from 0 to 75 basis points. The Alternate Rate is based on quoted LIBOR rates plus a margin that ranges from 75 to 175 basis points. Both the Base Rate and Alternate Rate margins are dependent on the Company s consolidated total indebtedness to cash flow ratios. The current Base Rate margin is 0 basis points and the Alternate Rate margin is 100 basis points.

At June 30, 2012 the weighted average interest rate on the Company s variable rate debt was 1.25%. To reduce the impact of interest rate changes on a portion of this variable-rate debt, the Company entered into interest rate swap agreements which effectively convert a portion of the debt from a variable to a fixed-rate borrowing during the term of the swap contracts. On June 30, 2012, the notional value of the interest rate swaps outstanding was \$107.0 million and effectively changed the Company s interest rate on bank debt at June 30, 2012 from a variable rate to a fixed rate of 1.81%. The interest rate swap agreements mature on December 31, 2012. The Company is exposed to credit risk in the event of nonperformance by the counterparties. However, since only the cash interest payments are exchanged, exposure is significantly less than the notional amount. The counterparties are large financial institutions with excellent credit ratings and history of performance. The Company currently believes the risk of nonperformance is negligible.

Also, the Company entered into a forward starting interest rate swap agreement with a notional value of \$150.0 million. Effective July 31, 2013, with a termination date of November 7, 2016, the interest rate swap agreement will convert a portion of the Company s then outstanding debt from a variable rate to a fixed-rate borrowing. During the term of the interest rate swap agreement the interest rate on the notional value will be fixed at 1.415% plus the applicable borrowing margin.

The 2011 Refinancing Credit Agreement limits the Company s ability to declare or pay cash dividends and prohibits the Company from declaring or making other distributions, subject to certain exceptions. The 2011 Refinancing Credit Agreement contains various other covenants and restrictions including the following limitations: incurrence of additional indebtedness; mergers, consolidations, sales of assets and acquisitions; additional liens; sale and leasebacks; permissible investments, loans and advances; certain debt payments; and imposes a minimum interest expense coverage ratio of 3.0 and a maximum debt to cash flow ratio of 3.25. The Company does not expect that these measurements will limit the Company in executing our operating activities.

6.875% Senior Notes Due August 2013

In August 2003, the Company issued \$150.0 million of Senior Notes due in 2013 (the Notes). The Notes were issued at par. Interest on the Notes accrues at a rate of 6.875% per annum and is payable semi-annually on January 31 and July 31 of each year. The proceeds were used to repay debt outstanding under the Company s existing credit agreement, and for general corporate purposes. The principal balance is due in full at maturity.

The Notes are senior unsecured obligations of the Company and rank pari passu with all existing and future senior debt and senior to all existing and future subordinated indebtedness of the Company. The indenture under

Table of Contents

which the Notes were issued contains covenants and restrictions which limit among other things, the following: the incurrence of indebtedness, payment of dividends and certain distributions, sale of assets, change in control, mergers and consolidations and the incurrence of liens.

7. EMPLOYEE BENEFIT PLANS**Defined Benefit Pension Plans**

The Company sponsors defined benefit pension plans that cover certain U.S., Canadian, German, and United Kingdom employees and which provide benefits of stated amounts for each year of service of the employee.

The Company uses a December 31 measurement date for the plans. The following tables provide information regarding the Company's defined benefit pension plans summarized by U.S. and international components.

<i>In thousands, except percentages</i>	U.S. Three months ended June 30,		International Three months ended June 30,

Rate of compensation increase	3.00%	3.00%	3.21%	3.17%

The Company's funding methods are based on governmental requirements and differ from those methods used to recognize pension expense. The Company expects to contribute \$1.7 million to the U.S. plans and \$6.6 million to the international plans during 2012.

Table of Contents**Post Retirement Benefit Plans**

In addition to providing pension benefits, the Company has provided certain unfunded postretirement health care and life insurance benefits for a portion of North American employees. The Company is not obligated to pay health care and life insurance benefits to individuals who had retired prior to 1990.

The Company uses a December 31 measurement date for all post retirement plans. The following tables provide information regarding the Company's post retirement benefit plans summarized by U.S. and international components.

8. STOCK-BASED COMPENSATION

As of June 30, 2012, the Company maintains employee stock-based compensation plans for stock options, restricted stock, restricted units, and incentive stock awards as governed by the 2011 Stock Incentive Compensation Plan (the "2011 Plan") and the 2000 Stock Incentive Plan, as amended (the "2000 Plan"). The 2011 Plan was approved by stockholders of Wabtec on May 11, 2011. The Company also maintains a Non-Employee Directors' Fee and Stock Option Plan ("Directors Plan"). No awards may be made under the 2000 Plan or the Directors Plan subsequent to October 31, 2016. The 2011 Plan has a 10-year term through March 27, 2021 and provides a maximum of 1,900,000 shares for grants or awards.

Stock-based compensation expense was \$10.1 million and \$9.4 million for the six months ended June 30, 2012 and 2011, respectively. Included in the stock-based compensation expense for 2012 above is \$1.3 million of expense related to stock options, \$2.4 million related to restricted stock, \$377,000 related to restricted units, \$5.6 million related to incentive stock awards and \$400,000 related to awards issued for Directors' fees. At June 30, 2012, unamortized compensation expense related to stock options, restricted stock, restricted units and incentive stock awards expected to vest totaled \$28.2 million and will be recognized over a weighted average period of 1.5 years.

Table of Contents

Stock Options Stock options are granted to eligible employees and directors at the fair market value, which is the average of the high and low Wabtec stock price on the date of grant. Under the 2011 Plan and the 2000 Plan, options become exercisable over a four-year vesting period and expire 10 years from the date of grant. Under the Directors Plan, options become exercisable over a three-year vesting period and expire 10 years from the date of grant.

The following table summarizes the Company's stock option activity and related information for the 2011 Plan, the 2000 Plan and the Directors Plan for the six months ended June 30, 2012:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate intrinsic value (in thousands)
Outstanding at December 31, 2011	862,392	\$ 34.74	6.5	\$ 30,362
Granted	74,698	70.63		551
Exercised	(58,883)	24.88		(3,128)
Canceled	(26,717)	34.46		(1,164)
Outstanding at June 30, 2012	851,490	\$ 38.58	6.4	\$ 33,572
Exercisable at June 30, 2012	562,786	\$ 31.69	6.1	\$ 26,070

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions:

	Six months ended June 30,	
	2012	2011
Dividend yield	.23%	.07%
Risk-free interest rate	1.34%	3.03%
Stock price volatility	44.95%	45.58%
Expected life (years)	5.0	5.0

The dividend yield is based on the Company's dividend rate and the current market price of the underlying common stock at the date of grant. Expected life in years is determined from historical stock option exercise data. Expected volatility is based on the historical volatility of the Company's stock. The risk-free interest rate is based on the U.S. Treasury bond rates for the expected life of the option.

Restricted Stock, Restricted Units and Incentive Stock Beginning in 2006 the Company adopted a restricted stock program. As provided for under the 2011 and 2000 Plans, eligible employees are granted restricted stock or restricted units that generally vests over four years from the date of grant. Under the Directors Plan, restricted stock awards vest one year from the date of grant.

In addition, the Company has annually issued incentive stock awards to eligible employees that vest, upon attainment of certain three year performance goals. Based on the Company's performance for each three year period then ended, the incentive stock awards can vest and be awarded ranging from 0% to 200% of the initial incentive stock awards granted. The incentive stock awards included in the table below represent the number of shares that are expected to vest based on the Company's estimate for meeting those established performance targets. As of June 30, 2012, the Company estimates that it will achieve 200%, 200% and 100% for the incentive stock awards expected to vest based on performance for the three year periods ending December 31, 2012, 2013, and 2014, respectively, and has recorded incentive compensation expense accordingly. If our estimate of the number of these stock awards expected to vest changes in a future accounting period, cumulative compensation expense could increase or decrease and will be recognized in the current period for the elapsed portion of the vesting period and would change future expense for the remaining vesting period.

Table of Contents

Compensation expense for the restricted stock and incentive stock awards is based on the average of the high and low Wabtec stock price on the date of grant and recognized over the applicable vesting period.

The following table summarizes the restricted stock and unit activity for the 2011 Plan, the 2000 Plan and the Directors Plan, and incentive stock awards activity for the 2011 Plan and the 2000 Plan with related information for the six months ended June 30, 2012:

	Restricted Stock and Units	Incentive Stock Awards	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2011	274,609	646,362	\$ 44.04
Granted	105,647	118,660	70.71
Vested	(97,694)	(122,079)	35.63
Adjustment for incentive stock awards expected to vest		14,802	42.96
Canceled	(13,008)	(2,219)	39.72
Outstanding at June 30, 2012	269,554	655,526	\$ 52.46

9. INCOME TAXES

The overall effective income tax rate was 33.7% and 34.0% for the three and six months ended June 30, 2012, respectively, and 30.3% and 33.0% for the three and six months ended June 30, 2011, respectively. The increase in the effective tax rate is due to a \$1.7 million benefit recorded in the second quarter of 2011 relating to settlements with taxing authorities and the expiration of statutory review periods in various jurisdictions.

As of June 30, 2012, the liability for income taxes associated with uncertain tax positions is \$7.5 million, of which \$1.6 million, if recognized would favorably affect the Company's effective tax rate. As of December 31, 2011 the liability associated with uncertain tax positions was \$8.2 million, of which \$2.1 million, if recognized, would favorably affect the Company's effective tax rate.

The Company includes interest and penalties related to uncertain tax positions in income tax expense. As of June 30, 2012 the total accrued interest and penalties are \$2.3 million and \$1.2 million, respectively. As of December 31, 2011 the total accrued interest and penalties were \$2.8 million and \$1.5 million, respectively.

The Internal Revenue Service is currently auditing the 2009 and 2010 tax years. With limited exception, the Company is no longer subject to examination by various U.S. and foreign taxing authorities for years before 2009.

At this time, the Company believes that it is reasonably possible that unrecognized tax benefits of approximately \$0.1 million may change within the next 12 months due to the expiration of statutory review periods and current examinations.

Table of Contents**10. EARNINGS PER SHARE**

The computation of basic and diluted earnings per share for net income attributable to Wabtec shareholders is as follows:

<i>In thousands, except per share</i>	Three Months Ended June 30,	
	2012	2011
Numerator		
Numerator for basic and diluted earnings per common share net income attributable to Wabtec shareholders	\$ 64,712	\$ 36,334
Less: dividends declared common shares and non-vested restricted stock	(1,442)	(484)
Undistributed earnings	63,270	35,850
Percentage allocated to common shareholders(1)	99.5%	99.5%
	62,954	35,671
Add: dividends declared common shares	1,435	482
Numerator for basic and diluted earnings per common share	\$ 64,389	\$ 36,153
Denominator		
Denominator for basic earnings per common share weighted-average shares	47,835	47,950
Effect of dilutive securities:		
Assumed conversion of dilutive stock-based compensation plans	587	513
Denominator for diluted earnings per common share adjusted weighted-average shares and assumed conversion	48,422	48,463
Net income per common share attributable to Wabtec shareholders		
Basic	\$ 1.35	\$ 0.75
Diluted	\$ 1.33	\$ 0.75
(1) Basic weighted-average common shares outstanding	47,835	47,950
Basic weighted-average common shares outstanding and non-vested restricted stock expected to vest	48,066	48,191
Percentage allocated to common shareholders	99.5%	99.5%

Table of Contents

<i>In thousands, except per share</i>	Six Months Ended June 30,	
	2012	2011
Numerator		
Numerator for basic and diluted earnings per common share net income attributable to Wabtec shareholders	\$ 123,973	\$ 77,286
Less: dividends declared common shares and non-vested restricted stock	(2,880)	(965)
Undistributed earnings	121,093	76,321
Percentage allocated to common shareholders(1)	99.5%	99.5%
	120,488	75,939
Add: dividends declared common shares	2,865	963
Numerator for basic and diluted earnings per common share	\$ 123,353	\$ 76,902
Denominator		
Denominator for basic earnings per common share weighted-average shares	47,740	47,805
Effect of dilutive securities:		
Assumed conversion of dilutive stock-based compensation plans	593	498
Denominator for diluted earnings per common share adjusted weighted-average shares and assumed conversion	48,333	48,303
Net income per common share attributable to Wabtec shareholders		
Basic	\$ 2.58	\$ 1.61
Diluted	\$ 2.56	\$ 1.60
(1) Basic weighted-average common shares outstanding	47,740	47,805
Basic weighted-average common shares outstanding and non-vested restricted stock expected to vest	47,989	48,041
Percentage allocated to common shareholders	99.5%	99.5%

The Company's non-vested restricted stock contains rights to receive nonforfeitable dividends, and thus, are participating securities requiring the two-class method of computing earnings per share. The calculation of earnings per share for common stock shown above excludes the income attributable to the non-vested restricted stock from the numerator and excludes the dilutive impact of those shares from the denominator.

11. WARRANTIES

The following table reconciles the changes in the Company's product warranty reserve as follows:

<i>In thousands</i>	Six Months Ended June 30,	
	2012	2011
Balance at December 31, 2011 and 2010, respectively	\$ 50,640	\$ 35,513
Warranty expense	12,914	9,384
Acquisitions	294	12,008
Warranty claim payments	(7,801)	(8,927)
Balance at June 30, 2012 and 2011, respectively	\$ 56,047	\$ 47,978

12. FAIR VALUE MEASUREMENT

ASC 820 Fair Value Measurements and Disclosures defines fair value, establishes a framework for measuring fair value and explains the related disclosure requirements. ASC 820 indicates, among other things, that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability and defines fair value based upon an exit price model.

Table of Contents

Valuation Hierarchy ASC 820 establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

The following table provides the liabilities carried at fair value measured on a recurring basis as of June 30, 2012, which are included in other current liabilities on the Condensed Consolidated Balance sheet:

<i>In thousands</i>	Fair Value Measurements at June 30, 2012 Using			
	Total Carrying Value at June 30, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swap agreements	3,603		3,603	
Total	\$ 3,603	\$	\$ 3,603	\$

The following table provides the liabilities carried at fair value measured on a recurring basis as of December 31, 2011, which is included in other current liabilities on the Condensed Consolidated Balance sheet:

<i>In thousands</i>	Fair Value Measurements at December 31, 2011 Using			
	Total Carrying Value at December 31, 2011	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swap agreements	1,442		1,442	
Total	\$ 1,442	\$	\$ 1,442	\$

To reduce the impact of interest rate changes on a portion of its variable-rate debt, the Company entered into interest rate swaps which effectively converted a portion of the debt from variable to fixed-rate borrowings during the term of the swap contracts. For certain derivative contracts whose fair values are based upon trades in liquid markets, such as interest rate swaps, valuation model inputs can generally be verified and valuation techniques do not involve significant management judgment. The fair values of such financial instruments are generally classified within Level 2 of the fair value hierarchy.

13. COMMITMENTS AND CONTINGENCIES

Claims have been filed against the Company and certain of its affiliates in various jurisdictions across the United States by persons alleging bodily injury as a result of exposure to asbestos-containing products. Further information and detail on these claims is described in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, in Note 18 therein, filed on February 24, 2012. During the first six months for 2012, there were no material changes to the information described in the Form 10-K.

The Company is also subject to litigation from time to time arising out of its operations in the ordinary course of business, including claims based on product liability, contracts, intellectual property, or other causes of action. Further information and detail on any potentially material litigation is as described in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, in Note 18 therein, filed on February 24, 2012. During the first six months of 2012, there were no material changes to the information described in the Form 10-K.

Table of Contents

The Company is also subject to other commitments and contingencies arising from environmental conditions or regulations as described in its Annual Report on Form 10-K for the year ended December 31, 2011, in Note 18 therein, filed on February 24, 2012. During the first six months of 2012, there were no material changes to the information described in the Form 10-K.

14. SEGMENT INFORMATION

Wabtec has two reportable segments the Freight Segment and the Transit Segment. The key factors used to identify these reportable segments are the organization and alignment of the Company's internal operations, the nature of the products and services, and customer type. The business segments are:

Freight Segment primarily manufactures and services components for new and existing freight cars and locomotives, builds new switcher locomotives, rebuilds freight locomotives, supplies railway electronics, positive train control equipment, signal design and engineering services, friction products, and provides related heat exchange and cooling systems. Customers include large, publicly traded railroads, leasing companies, manufacturers of original equipment such as locomotives and freight cars, and utilities.

Transit Segment primarily manufactures and services components for new and existing passenger transit vehicles, typically subway cars and buses, builds new commuter locomotives, friction products, and refurbishes subway cars. Customers include public transit authorities and municipalities, leasing companies, and manufacturers of subway cars and buses around the world.

The Company evaluates its business segments' operating results based on income from operations. Corporate activities include general corporate expenses, elimination of intersegment transactions, interest income and expense and other unallocated charges. Since certain administrative and other operating expenses and other items have not been allocated to business segments, the results in the following tables are not necessarily a measure computed in accordance with generally accepted accounting principles and may not be comparable to other companies.

Segment financial information for the three months ended June 30, 2012 is as follows:

<i>In thousands</i>	Freight Segment	Transit Segment	Corporate Activities and Elimination	Total
Sales to external customers	\$ 407,706	\$ 202,114	\$	\$ 609,820
Intersegment sales/(elimination)	5,850	3,037	(8,887)	
Total sales	\$ 413,556	\$ 205,151	\$ (8,887)	\$ 609,820
Income (loss) from operations	\$ 83,417	\$ 21,934	\$ (4,486)	\$ 100,865
Interest expense and other, net			(3,286)	(3,286)
Income (loss) from operations before income taxes	\$ 83,417	\$ 21,934	\$ (7,772)	\$ 97,579

Table of Contents

Segment financial information for the three months ended June 30, 2011 is as follows:

<i>In thousands</i>	Freight Segment	Transit Segment	Corporate Activities and Elimination	Total
Sales to external customers	\$ 280,036	\$ 198,863	\$	\$ 478,899

15. GUARANTOR SUBSIDIARIES FINANCIAL INFORMATION

Effective August 2003, the Company issued \$150 million of Senior Notes due in 2013 (the Notes). The obligations under the Notes are fully and unconditionally guaranteed by all U.S. subsidiaries as guarantors. In accordance with positions established by the Securities and Exchange Commission, the following shows separate financial information with respect to the parent, the guarantor subsidiaries and the non-guarantor subsidiaries. The principal elimination entries eliminate investment in subsidiaries and certain intercompany balances and transactions.

Balance Sheet as of June 30, 2012:

<i>In thousands</i>	Parent	Guarantors	Non-Guarantors	Elimination	Consolidated

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the information in the unaudited condensed consolidated financial statements and notes thereto included herein and Westinghouse Air Brake Technologies Corporation's Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in its Annual Report on Form 10-K for the year ended December 31, 2011, filed with the Securities and Exchange Commission on February 24, 2012.

OVERVIEW

Wabtec is one of the world's largest providers of value-added, technology-based products and services for the global rail industry. Our products are found on virtually all U.S. locomotives, freight cars and passenger transit vehicles, as well as in more than 100 countries throughout the world. Our products enhance safety, improve productivity and reduce maintenance costs for customers, and many of our core products and services are essential in the safe and efficient operation of freight rail and passenger transit vehicles. Wabtec is a global company with operations in 19 countries. In the first six months of 2012, about 51% of the Company's revenues came from customers outside the U.S.

Management Review and Future Outlook

Wabtec's long-term financial goals are to generate cash flow in excess of net income, maintaining a strong credit profile while minimizing our overall cost of capital; increase margins through strict attention to cost controls and implementation of the Wabtec Performance System; and increase revenues through a focused growth strategy, including global and market expansion, new products and technologies, aftermarket products and services, and acquisitions. In addition, Management evaluates the Company's current operational performance through measures such as quality and on-time delivery.

The Company monitors a variety of factors and statistics to gauge market activity. The North America freight rail industry is largely driven by general economic conditions, which can cause fluctuations in rail traffic. Based on those fluctuations, railroads can increase or decrease purchases of new locomotives and freight cars. In 2011 U.S. freight rail traffic increased due to the improving overall economy, which had a favorable effect on the Company's Freight Segment, with increased demand for new locomotives and freight cars, and for aftermarket products and services. Whether demand continues to improve will depend largely on the overall economy and in rail traffic volumes. Through June 30, 2012 compared to the previous year, according to the Association of American Railroads, carloadings decreased 2.8% and revenue ton-miles decreased 2.0%, while intermodal loadings increased 3.4%. Excluding coal, carloadings increased 3.3%.

The North American transit rail industry is driven by government spending and ridership. According to the American Public Transportation Association, ridership increased 2.3% in 2011 and 5% in the first quarter of 2012. In June 2012, the U.S. federal government passed a two-year transportation funding bill, called MAP-21. As part of this bill, funding for transit programs is expected to be about \$10.5 billion in each of the next two fiscal years, about the same as it was in the previous three years. Most government entities at all levels continue to face budget issues, which could have a negative effect on demand for the Company's products and services.

In 2008, the U.S. government enacted rail safety legislation that requires certain freight and passenger railroads to equip certain locomotives with positive train control (PTC) technology by the end of 2015. This technology includes an on-board locomotive computer and related software, which are being developed by Wabtec. As the industry leader, Wabtec expects to benefit from increased sales of train control-related products and engineering services as the technology is deployed throughout the industry. Wabtec expects PTC revenue to exceed \$200 million in 2012 compared to about \$125 million in 2011.

Wabtec continues to expand its presence in freight rail and passenger transit markets outside the U.S., particularly in Europe, Asia-Pacific and South America. In Europe, the majority of the rail system serves the

Table of Contents

passenger transit market, which is larger than the transit market in the U.S. Our presence in the U.K., Germany and Italy has positioned the Company to take advantage of this market. Asia-Pacific is a growth market and our various joint ventures and direct exports to China have positioned the Company to take advantage of this growth. Economic growth in Australia and Brazil led to growth for the Company in those markets as commodity suppliers use our products to meet the demands of their regional customers.

This year and beyond, general economic and market conditions in the United States and internationally could have an impact on our sales and operations. To the extent that these factors cause instability of capital markets, shortages of raw materials or component parts, longer sales cycles, deferral or delay of customer orders or an inability to market our products effectively, our business and results of operations could be materially adversely affected. In addition, we face risks associated with our four-point growth strategy including the level of investment that customers are willing to make in new technologies developed by the industry and the Company, and risks inherent in global expansion. When necessary, we will modify our financial and operating strategies to reflect changes in market conditions and risks.

RESULTS OF OPERATIONS

The following table shows our Consolidated Statements of Operations for the periods indicated.

<i>In millions</i>	Three Months Ended June 30,		Six Months Ended June 30,

Acquisitions	20,561	4,540	25,101
<i>Change in Sales by Product Line:</i>			
Specialty Products & Electronics	72,366	2,364	74,730
Remanufacturing, Overhaul & Build	21,785	2,959	24,744
Brake Products	14,865	(7,608)	7,257
Other Transit Products		6,623	6,623
Foreign Exchange and Other	(1,907)	(5,627)	(7,534)
Second Quarter 2012 Net Sales	\$ 407,706	\$ 202,114	\$ 609,820

Net sales increased by \$130.9 million to \$609.8 million from \$478.9 million for the three months ended June 30, 2012 and 2011, respectively. The increase is due to higher Specialty Products and Electronics sales of \$74.7 million primarily from increased demand for freight original equipment rail products, positive train control electronics and aftermarket products; higher Remanufacturing, Overhaul and Build sales of \$24.7 million from increased demand for freight original equipment locomotives and aftermarket services for locomotives; and sales from acquisitions of \$25.1 million. Company net sales decreased \$10.0 million due to unfavorable effects of foreign exchange, but income from operations was generally not impacted by foreign exchange. Net income for the three months ended June 30, 2012 was \$64.7 million or \$1.33 per diluted share. Net income for the three months ended June 30, 2011 was \$36.4 million or \$0.75 per diluted share. Net income increased due to higher sales volume and decreased operating expenses discussed below.

Freight Segment sales increased by \$127.7 million, or 45.6%, due to higher sales of \$72.4 million for Specialty Products and Electronics, primarily resulting from increased demand for original equipment rail products, positive train control electronics and aftermarket rail products; \$21.8 million from demand for freight original equipment locomotives and aftermarket services for locomotives; \$20.6 million from acquisitions and \$14.9 million for Brake Products. For the Freight Segment, net sales decreased by \$3.9 million due to unfavorable effects of foreign exchange.

Transit Segment sales increased by \$3.2 million, or 1.6%, due to higher sales of \$6.6 million primarily from certain transit car build contracts and demand for transit bus doors, \$4.5 million from acquisitions, and \$3.0 million from increased demand for transit car rebuild and overhauls. Partially offsetting these increases were lower sales of \$7.6 million from decreased demand for transit brake products. For the Transit Segment, net sales decreased by \$6.1 million due to unfavorable effects of foreign exchange.

Cost of Sales and Gross Profit. Cost of Sales increased by \$100.2 million to \$436.4 million in the second quarter of 2012 compared to \$336.2 million in the same period of 2011. In the second quarter of 2012, cost of sales, as a percentage of sales was 71.6% compared to 70.2% in the same period of 2011.

Raw material costs increased as a percentage of sales to approximately 45% in the second quarter of 2012 from 43% in the same period of 2011. Labor costs as a percentage of sales were approximately 11% in the second quarter of 2012 and 2011. Overhead costs as a percentage of sales were approximately 16% in the second quarter of 2012 and 2011. Freight Segment raw material costs increased as a percentage of sales to approximately 46% in the second quarter of 2012 from 44% in the same period of 2011. Freight Segment labor costs as a percentage of sales were approximately 10% in the second quarter of 2012 and 2011, and overhead costs decreased as a percentage of sales to approximately 14% in the second quarter of 2012 from 15% in the same period of 2011. Transit Segment raw material costs decreased as a percentage of sales to approximately 42% in the second quarter of 2012 from 43% in the same period of 2011. Transit Segment labor costs increased as a

Table of Contents

percentage of sales to approximately 14% in the second quarter of 2012 from 11% in the same period of 2011, and overhead costs as a percentage of sales were approximately 18% in the second quarter of 2012 and 2011. Transit Segment labor costs increased as a percentage of sales due to higher service related sales, which carry higher labor costs on a cost of sales percentage basis.

In general, raw material costs increased as a percentage of sales reflecting the higher mix of revenue generated from freight original equipment sales, which has a higher raw material component as cost of sales, partially offset by lower transit raw material costs. Overhead costs vary as a percentage of sales depending on product mix and changes in sales volume.

In addition, included in cost of sales is warranty expense. The provision for warranty expense is generally established for specific losses, along with historical estimates of customer claims as a percentage of sales, which can cause variability in warranty expense between quarters. Warranty expense was \$2.8 million higher in the second quarter of 2012 compared to the same period of 2011 due to increased sales and increases for certain transit contracts.

Gross profit increased to \$173.4 million in the second quarter of 2012 compared to \$142.7 million in the same period of 2011, for the reasons discussed above. Accordingly, for the second quarter of 2012, gross profit, as a percentage of sales, was 28.4% compared to 29.8%, for the second quarter of 2011.

Operating expenses The following table shows our operating expenses:

<i>In thousands</i>	Three months ended June 30,		
	2012	2011	Percent Change
Selling, general and administrative expenses	\$ 59,163	\$ 73,943	(20.0)%
Engineering expenses	10,145	9,132	11.1%
Amortization expense	3,254	3,307	(1.6)%
Total operating expenses	\$ 72,562	\$ 86,382	(16.0)%

Selling, general, and administrative expenses decreased \$14.8 million in the second quarter of 2012 compared to the same period of 2011 primarily due to an \$18.1 million charge for a court ruling, partially offset by a benefit of \$2.4 million for a settlement related to a prior acquisition which were both recorded in the second quarter of 2011. Engineering expense increased by \$1.0 million in the second quarter of 2012 compared to the same period of 2011 as the company focused engineering resources on product development. Costs related to engineering for specific customer contracts are included in cost of sales. Total operating expenses were 11.9% and 18.0% of sales for the second quarter of 2012 and 2011, respectively.

Segment operating expenses consist of specific segment costs such as, sales and marketing, information technology, insurance, and audit and tax fees, allocated corporate costs, and other segment specific discrete charges. Corporate costs are allocated to the freight and transit segments based on segment revenues. Certain corporate departmental expenses are not allocated. Corporate non-allocated operating expenses decreased \$17.6 million because of the charge for a court ruling discussed above, partially offset by increases in other non-allocated departmental expenses.

Freight segment operating expenses increased \$2.7 million in the second quarter of 2012 compared to the same period of 2011 because of \$2.0 million of incremental expense from acquisitions and an increase in selling, general and administrative expense supporting higher sales volume. Freight segment operating expenses were 9.2% and 12.5% of sales for the second quarter of 2012 and 2011, respectively.

Transit segment operating expenses increased \$1.1 million in the second quarter of 2012 compared to the same period of 2011 because of \$0.9 million of incremental expense from acquisitions and a benefit of \$2.4 million for a settlement related to a prior acquisition which was recorded in the second quarter of 2011,

Table of Contents

partially offset by a decrease of \$1.1 million in the expenses allocated to the operating segments and a decrease in other selling, general and administrative expenses from cost saving initiatives. Transit segment operating expenses were 14.5% and 14.3% of sales for the second quarter of 2012 and 2011, respectively.

Income from operations Income from operations totaled \$100.9 million or 16.5% of sales in the second quarter of 2012 compared to \$56.4 million or 11.8% of sales in the same period of 2011. Income from operations increased due to higher sales volume and decreased operating expenses discussed above.

Interest expense, net Overall interest expense, net, was comparable to the prior period.

Other income (expense), net The Company recorded foreign exchange gains of \$0.6 million in the second quarter of 2012 and foreign exchange losses of \$0.6 million in the second quarter of 2011 due to the effect of currency exchange rate changes on intercompany transactions that are non U.S. dollar denominated and charged or credited to earnings.

Income taxes The effective income tax rate was 33.7% and 30.3% for the second quarter of 2012 and 2011, respectively. The increase in the effective rate is due to a \$1.7 million benefit recorded in the second quarter of 2011 relating to settlements with taxing authorities and the expiration of statutory review periods in various jurisdictions.

Net income Net income for the second quarter of 2012 increased \$28.4 million, compared with the same period of 2011. The increase in net income is due to higher sales volume and decreased operating expenses discussed above.

FIRST SIX MONTHS OF 2012 COMPARED TO FIRST SIX MONTHS OF 2011

The following table summarizes the results of operations for the period:

<i>In thousands</i>	Six months ended June 30,		Percent Change
	2012	2011	
Freight Segment	\$ 804,994	\$ 544,892	47.7%
Transit Segment	388,135	389,266	(0.3)%
Net sales	1,193,129	934,158	27.7%
Income from operations	194,975	122,739	58.9%
Net income attributable to Wabtec shareholders	\$ 123,973	\$ 77,286	60.4%

The following table shows the major components of the change in sales in the first six months of 2012 from the first six months of 2011:

<i>In thousands</i>	Freight Segment	Transit Segment	Total
First Six Months of 2011 Net Sales	\$ 544,892	\$ 389,266	\$ 934,158
Acquisitions	40,576	17,624	58,200
<i>Change in Sales by Product Line:</i>			
Specialty Products & Electronics	140,077	7,572	147,649
Remanufacturing, Overhaul & Build	47,383	(5,507)	41,876
Brake Products	28,627	(14,668)	13,959
Other Transit Products		1,873	1,873
Foreign Exchange and Other	3,439	(8,025)	(4,586)
First Six Months of 2012 Net Sales	\$ 804,994	\$ 388,135	\$ 1,193,129

Table of Contents

Net sales increased by \$259.0 million to \$1,193.1 million from \$934.1 million for the six months ended June 30, 2012 and 2011, respectively. The increase is due to higher Specialty Products and Electronics sales of \$147.6 million primarily from increased demand for freight original equipment rail products, positive train control electronics and aftermarket products; sales related to acquisitions of \$58.2 million; higher Remanufacturing, Overhaul and Build sales of \$41.9 million from increased demand for freight original equipment locomotives and aftermarket services for locomotives; and higher Brake Products sales of \$14.0 million due to higher demand for original equipment brakes. Company net sales decreased \$12.2 million and income from operations decreased \$1.0 million due to unfavorable effects of foreign exchange. Net income for the six months ended June 30, 2012 was \$124.0 million or \$2.56 per diluted share. Net income for the six months ended June 30, 2011 was \$77.3 million or \$1.60 per diluted share. Net income increased due to higher sales volume and decreased operating expenses discussed below.

Freight Segment sales increased by \$260.1 million, or 47.7%, due to higher sales of \$140.1 million for Specialty Products and Electronics, primarily resulting from increased demand for original equipment rail products, positive train control electronics and aftermarket rail products; \$47.4 million from demand for freight original equipment locomotives and aftermarket services for locomotives; \$40.6 million from acquisitions and \$28.6 million for Brake Products. For the Freight Segment, net sales decreased by \$3.3 million due to unfavorable effects of foreign exchange.

Transit Segment sales decreased by \$1.1 million, or 0.3%, due to lower sales of \$20.2 million primarily from decreased demand for transit brake products and the completion of certain transit locomotive build contracts. Partially offsetting this decrease was \$17.6 million of sales from acquisitions and \$7.6 million of higher electronic sales from increased demand for transit positive train control electronics. For the Transit Segment, net sales decreased by \$8.9 million due to unfavorable effects of foreign exchange.

Cost of Sales and Gross Profit Cost of Sales increased by \$192.1 million to \$850.3 million in the first six months of 2012 compared to \$658.2 million in the same period of 2011. In the first six months of 2012, cost of sales, as a percentage of sales was 71.3% compared to 70.5% in the same period of 2011.

Raw material costs increased as a percentage of sales to approximately 44% in the first six months of 2012 from 43% in the same period of 2011. Labor costs as a percentage of sales were approximately 11% in the first six months of 2012 and 2011. Overhead costs decreased as a percentage of sales to approximately 16% in the first six months of 2012 from 17% in the same period of 2011. Freight Segment raw material costs increased as a percentage of sales to approximately 45% in the first six months of 2012 from 43% in the same period of 2011. Freight Segment labor costs as a percentage of sales were approximately 10% in the first six months of 2012 and 2011, and overhead costs decreased as a percentage of sales to approximately 15% in the first six months of 2012 from 16% in the same period of 2011. Transit Segment raw material costs decreased as a percentage of sales to approximately 42% in the first six months of 2012 from 43% in the same period of 2011. Transit Segment labor costs increased as a percentage of sales to approximately 13% in the first six months of 2012 from 11% in the same period of 2011, and overhead costs decreased as a percentage of sales to approximately 18% in the first six months of 2012 from 19% in the same period of 2011. Transit Segment labor costs increased as a percentage of sales due to higher service related sales, which carry higher labor costs on a cost of sales percentage basis.

In general, raw material costs increased as a percentage of sales reflecting the higher mix of revenue generated from freight original equipment sales, which has a higher raw material component as cost of sales, partially offset by lower transit raw material costs. Overhead costs vary as a percentage of sales depending on product mix and changes in sales volume.

In addition, included in cost of sales is warranty expense. The provision for warranty expense is generally established for specific losses, along with historical estimates of customer claims as a percentage of sales, which can cause variability in warranty expense between quarters. Warranty expense was \$3.5 million higher in the first six months of 2012 compared to the same period of 2011 due to increased sales and increases for certain transit contracts.

Table of Contents

Gross profit increased to \$342.8 million in the first six months of 2012 compared to \$275.9 million in the same period of 2011, for the reasons discussed above. Accordingly, for the first six months of 2012, gross profit, as a percentage of sales, was 28.7% compared to 29.5%, for the first six months of 2011.

Operating expenses The following table shows our operating expenses:

<i>In thousands</i>	Six months ended June 30,		Percent Change
	2012	2011	
Selling, general and administrative expenses	\$ 121,192	\$ 128,759	(5.9)%
Engineering expenses	20,294	18,020	12.6%
Amortization expense	6,347	6,421	(1.2)%
Total operating expenses	\$ 147,833	\$ 153,200	(3.5)%

Selling, general, and administrative expenses decreased \$7.6 million in the first six months of 2012 compared to the same period of 2011. The decrease is due primarily due to an \$18.1 million charge for a court ruling, partially offset by a benefit of \$2.4 million for a settlement related to a prior acquisition which were both recorded in the second quarter of 2011, \$5.4 million of expenses from acquisitions, and \$2.5 million of incentive and non-cash compensation. Engineering expense increased by \$2.3 million in the first six months of 2012 compared to the same period of 2011 as the company focused engineering resources on product development. Costs related to engineering for specific customer contracts are included in cost of sales. Amortization expense decreased slightly in the first six months of 2012 compared to the same period in 2011 due to amortization of intangibles in 2011 associated with acquisitions. Total operating expenses were 12.4% and 16.4% of sales for the first six months of 2012 and 2011, respectively.

Segment operating expenses consist of specific segment costs such as, sales and marketing, information technology, insurance, and audit and tax fees, allocated corporate costs, and other segment specific discrete charges. Corporate costs are allocated to the freight and transit segments based on segment revenues. Certain corporate departmental expenses are not allocated. Corporate non-allocated operating expenses decreased \$18.8 million because of the charge for a court ruling discussed above and decreases in other non-allocated departmental expenses.

Freight segment operating expenses increased \$10.4 million in the first six months of 2012 compared to the same period of 2011 because of \$3.9 million of expenses from acquisitions, an increase of \$2.9 million in expenses allocated to the operating segments and an increase in selling, general and administrative expense supporting higher sales volume. Freight segment operating expenses were 9.9% and 12.8% of sales for the first six months of 2012 and 2011, respectively.

Transit segment operating expenses increased \$3.0 million in the first six months of 2012 compared to the same period of 2011 because of \$1.7 million of expenses from acquisitions and a benefit of \$2.4 million for a settlement related to a prior acquisition which was recorded in the second quarter of 2011, partially offset by a decrease of \$0.6 million in the expenses allocated to the operating segments and a decrease in other selling, general and administrative expenses from cost saving initiatives. Transit segment operating expenses were 14.8% and 14.1% of sales for the first six months of 2012 and 2011, respectively.

Income from operations Income from operations totaled \$195.0 million or 16.3% of sales in the first six months of 2012 compared to \$122.7 million or 13.1% of sales in the same period of 2011. Income from operations increased due to higher sales volume and decreased operating expenses discussed above.

Interest expense, net Overall interest expense, net, was comparable to the prior period.

Table of Contents

Other income (expense), net The Company recorded foreign exchange gains of \$1.0 million in the first six months of 2012 and foreign exchange losses of \$0.3 million in the first six months of 2011 due to the effect of currency exchange rate changes on intercompany transactions that are non U.S. dollar denominated and charged or credited to earnings.

Income taxes The effective income tax rate was 34.0% and 33.0% for the first six months of 2012 and 2011, respectively. The increase in the effective rate is due to a \$1.7 million benefit recorded in the second quarter of 2011 relating to settlements with taxing authorities and the expiration of statutory review periods in various jurisdictions.

Net income Net income for the first six months of 2012 increased \$46.7 million, compared with the same period of 2011. The increase in net income is due to higher sales volume and decreased operating expenses discussed above.

Liquidity and Capital Resources

Liquidity is provided primarily by operating cash flow and borrowings under the Company's unsecured credit facility with a consortium of commercial banks. The following is a summary of selected cash flow information and other relevant data:

<i>In thousands</i>	Six months ended	
	June 30,	
	2012	2011
Cash provided by (used for):		
Operating activities	\$ 30,536	\$ 66,046
Investing activities	(104,738)	(64,262)
Financing activities	26,648	(25,112)
Decrease in cash	\$ (51,510)	\$ (15,466)

Operating activities In the first six months of 2012 and 2011, cash provided by operations was \$30.5 million and \$66.0 million, respectively. In comparison to the first six months of 2011, cash provided by operations in 2012 resulted from higher net income and higher non-cash items, offset by a net increase in working capital. In 2012, accounts receivable increased by \$87.1 million, due to higher sales, and inventory increased by \$28.4 million from the prior year due to certain Transit Segment contracts and to support the higher sales volume. Accounts payable decreased by \$2.2 million due to timing of payments and accrued income taxes decreased by \$16.2 million due to payments. All other operating assets and liabilities, net, provided cash of \$9.5 million. In 2011, accounts receivable increased by \$65.6 million and inventory increased by \$46.8 million from the prior year. Accounts payable decreased by \$6.5 million. All other operating assets and liabilities, net, used cash of \$68.1 million due primarily to the payment timing of certain accrued liabilities. The accrual of \$18.1 million for a court ruling and a \$47.1 million increase in customer deposits for certain contracts.

Investing activities In the first six months of 2012 and 2011, cash used in investing activities was \$104.7 million and \$64.3 million, respectively. Net cash paid for acquisitions was \$88.4 million and \$51.8 million for the first six months of 2012 and 2011, respectively. Refer to Note 3 of the Notes to Condensed Consolidated Financial Statements for additional information on acquisitions. Capital expenditures were \$16.5 million and \$12.8 million in the first six months of 2012 and 2011, respectively.

Financing activities In the first six months of 2012, cash provided by financing activities was \$24.7 million, which included \$172.4 million in proceeds from debt and \$125.4 million of repayments of debt on the revolving credit facility, \$2.9 million of dividend payments and \$21.9 million for the repurchase of 298,800 shares of stock. In the first six months of 2011, cash used in financing activities was \$25.1 million, which included \$79.0 million in proceeds from debt and \$75.0 million of repayments of debt on the revolving credit facility, \$29.8 million of debt repayments on the term loan and other debt, \$1.0 million of dividend payments and \$6.2 million for the repurchase of 95,000 shares of stock.

Table of Contents

The following table shows outstanding indebtedness at June 30, 2012 and December 31, 2011.

<i>In thousands</i>	June 30, 2012	December 31, 2011
6.875% Senior Notes, due 2013	\$ 150,000	\$ 150,000
Revolving Credit Facility	292,000	245,000
Capital Leases	1,131	873
Total	443,131	395,873
Less current portion	43	68
Long-term portion	\$ 443,088	\$ 395,805

Cash balance at June 30, 2012 and December 31, 2011 was \$234.1 million and \$285.6 million, respectively.

2011 Refinancing Credit Agreement

On November 7, 2011, the Company refinanced its existing revolving credit and term loan facility with a consortium of commercial banks. This 2011 Refinancing Credit Agreement provides the company with a \$600 million, five-year revolving credit facility. The Company incurred approximately \$2.0 million of deferred financing cost related to the 2011 Refinancing Credit Agreement. The facility expires on November 7, 2016.

Refer to Note 6 of the Notes to Condensed Consolidated Financial Statements for additional information regarding the 2011 Refinancing Credit Agreement.

6.875% Senior Notes Due August 2013

In August 2003, the Company issued \$150.0 million of Senior Notes due in 2013 (the Notes). The Notes were issued at par. Interest on the Notes accrues at a rate of 6.875% per annum and is payable semi-annually on January 31 and July 31 of each year. The proceeds were used to repay debt outstanding under the Company's existing credit agreement and for general corporate purposes. The principal balance is due in full at maturity. The Company is in compliance with the restrictions and covenants in the indenture under which the Notes were issued and expects that these restrictions and covenants will not be any type of limiting factor in executing our operating activities. Refer to Note 6 of the Notes to Condensed Consolidated Financial Statements for additional information regarding the Notes.

Management believes that based on current levels of operations and forecasted earnings, cash flow and liquidity will be sufficient to fund working capital and capital equipment needs as well as meeting debt service requirements. If sources of funds were to fail to satisfy the Company's cash requirements, the Company may need to refinance our existing debt or obtain additional financing. There is no assurance that such new financing alternatives would be available, and, in any case, such new financing, if available, may be more costly and burdensome than the debt agreements currently in place.

Company Stock Repurchase Plan

On May 11, 2011, the Board of Directors increased its stock repurchase authorization to \$150 million of the Company's outstanding shares. Through June 30, 2012, repurchases are \$47.9 million, leaving \$102.1 million under the authorization. This share repurchase authorization supersedes the previous authorization of \$150 million of which \$39.4 million was remaining.

The Company intends to purchase shares on the open market or in negotiated or block trades. No time limit was set for the completion of the programs which conforms to the requirements under the 2011 Refinancing Credit Agreement, as well as the Notes currently outstanding.

Table of Contents

During the first six months of 2012, the Company repurchased 298,800 shares of its stock at an average price of \$73.38 per share. During 2011, the Company repurchased 438,600 shares of its stock at an average price of \$59.33 per share. All purchases were on the open market.

Contractual Obligations and Off-Balance Sheet Arrangements

As of June 30, 2012, the Company has recognized a total liability of \$7.5 million for unrecognized tax benefits related to uncertain tax positions. At this time, the Company is unable to make a reasonably reliable estimate of the timing of cash settlement for any of the unrecognized tax benefits due to the uncertainty of the timing and outcome of its audits and other factors.

Since December 31, 2011, there have been no other significant changes in the total amount of the Company's contractual obligations or the timing of cash flows in accordance with those obligations, as reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Forward Looking Statements

We believe that all statements other than statements of historical facts included in this report, including certain statements under "Business and Management's Discussion and Analysis of Financial Condition and Results of Operations," may constitute forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. Although we believe that our assumptions made in connection with the forward-looking statements are reasonable, we cannot assure that our assumptions and expectations are correct.

These forward-looking statements are subject to various risks, uncertainties and assumptions about us, including, among other things:

Economic and industry conditions

prolonged unfavorable economic and industry conditions in the markets served by us, including North America, South America, Europe, Australia, Asia and South Africa;

decline in demand for freight cars, locomotives, passenger transit cars, buses and related products and services;

reliance on major original equipment manufacturer customers;

original equipment manufacturers' program delays;

demand for services in the freight and passenger rail industry;

demand for our products and services;

orders either being delayed, cancelled, not returning to historical levels, or reduced or any combination of the foregoing;

consolidations in the rail industry;

continued outsourcing by our customers; industry demand for faster and more efficient braking equipment;

fluctuations in interest rates and foreign currency exchange rates; or

availability of credit;

Operating factors

supply disruptions;

technical difficulties;

Table of Contents

changes in operating conditions and costs;

increases in raw material costs;

successful introduction of new products;

performance under material long-term contracts;

labor relations;

completion and integration of acquisitions; or

the development and use of new technology;

Competitive factors

the actions of competitors;

Political/governmental factors

political stability in relevant areas of the world;

future regulation/deregulation of our customers and/or the rail industry;

levels of governmental funding on transit projects, including for some of our customers;

political developments and laws and regulations, including those related to Positive Train Control;

federal and state income tax legislation; or

the outcome of our existing or any future legal proceedings, including litigation involving our principal customers and any litigation with respect to environmental, asbestos-related matters and pension liabilities; and

Transaction or commercial factors

the outcome of negotiations with partners, governments, suppliers, customers or others.

Edgar Filing: WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORP - Form 10-Q

Statements in this 10-Q apply only as of the date on which such statements are made, and we undertake no obligation to update any statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. Reference is also made to the risk factors set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Critical Accounting Policies

A summary of critical accounting policies is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011. In particular, judgment is used in areas such as accounts receivable and the allowance for doubtful accounts, inventories, goodwill and indefinite-lived intangibles, warranty reserves, pensions and postretirement benefits, income taxes and revenue recognition. There have been no significant changes in accounting policies since December 31, 2011.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

In the ordinary course of business, Wabtec is exposed to risks that increases in interest rates may adversely affect funding costs associated with its variable-rate debt. The Company's variable rate debt represents 42% and 35% of total long-term debt at June 30, 2012 and December 31, 2011, respectively. On an annual basis a 1% change in the interest rate for variable rate debt at June 30, 2012 would increase or decrease interest expense by about \$1.9 million. To reduce the impact of interest rate changes on a portion of this variable-rate

Table of Contents

debt, the Company entered into interest rate swap agreements which effectively converted a portion of the debt from variable to fixed-rate borrowings during the term of the swap contracts. Refer to *Financial Derivatives and Hedging Activities* in Note 2 of *Notes to Condensed Consolidated Financial Statements* for additional information regarding interest rate risk.

Foreign Currency Exchange Risk

The Company is subject to certain risks associated with changes in foreign currency exchange rates to the extent our operations are conducted in currencies other than the U.S. dollar. For the first six months of 2012, approximately 49% of Wabtec's net sales were to customers in the United States, 10% in the United Kingdom, 10% in Australia, 9% in Canada, 6% in Mexico, 2% in Germany and 14% in other international locations. To reduce the impact of changes in currency exchange rates, the Company has periodically entered into foreign currency forward contracts. Refer to *Financial Derivatives and Hedging Activities* in Note 2 of *Notes to Condensed Consolidated Financial Statements* for more information regarding foreign currency exchange risk.

Item 4. CONTROLS AND PROCEDURES

Wabtec's principal executive officer and its principal financial officer have evaluated the effectiveness of Wabtec's disclosure controls and procedures, (as defined in Exchange Act Rule 13a-15(e)) as of June 30, 2012. Based upon their evaluation, the principal executive officer and principal financial officer concluded that Wabtec's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by Wabtec in the reports filed or submitted by it under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and to provide reasonable assurance that information required to be disclosed by Wabtec in such reports is accumulated and communicated to Wabtec's Management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

There was no change in Wabtec's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2012, that has materially affected, or is reasonably likely to materially affect, Wabtec's internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS**

Except as described in Note 13 of the Notes to Condensed Consolidated Financial Statements, there have been no material changes regarding the Company's commitments and contingencies as described in Note 18 of the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Item 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On May 11, 2011, the Board of Directors increased its stock repurchase authorization to \$150 million of the Company's outstanding shares. Through June 30, 2012 repurchases are \$47.9 million, leaving \$102.1 million under the authorization. This share repurchase authorization supersedes the previous authorization of \$150 million, of which \$39.4 million was remaining.

The Company intends to purchase shares on the open market or in negotiated or block trades. No time limit was set for the completion of the programs which conforms to the requirements under the 2011 Refinancing Credit Agreement, as well as the Notes currently outstanding.

During the first six months of 2012, the Company repurchased 298,800 shares of its stock at an average price of \$73.38 per share. All purchases were on the open market.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Number of Shares Purchased for Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased
April 1, 2012 to April 28, 2012				\$ 123,977,547
April 29, 2012 to May 26, 2012	243,800	73.65	243,800	\$ 106,021,073
May 27, 2012 to June 30, 2012	55,000	72.19	55,000	\$ 102,050,526
Total	298,800	\$ 73.38	298,800	\$ 102,050,526
