This report contains a copy of the press release entitled Textainer Group Holdings Limited Reports Record Second-Quarter 2012 Results and Increases Quarterly Dividend, dated August 7, 2012.

Exhibit

1. Press Release dated August 7, 2012

Textainer Group Holdings Limited Reports Second-Quarter 2012 Results and Increases Quarterly Dividend

HAMILTON, Bermuda, August 7, 2012 (BUSINESS WIRE) Textainer Group Holdings Limited (NYSE: TGH), the world's largest lessor of intermodal containers based on fleet size, today reported results for the second quarter ended June 30, 2012.

Highlights:

Total revenues increased 13.5%, to \$120.0 million, from the prior year quarter;

Net income attributable to Textainer Group Holdings Limited (Textainer, or the Company) common shareholders was \$45.8 million, or \$0.91 per diluted common share. Net income excluding gain on sale of containers to noncontrolling interest⁽¹⁾ for the second quarter of 2011 was \$36.9 million;

Adjusted net income⁽¹⁾ increased 10.5% to \$44.7 million, or \$0.89 per diluted common share, from the prior year quarter;

Utilization continued at very high levels, averaging 97.5% during the second quarter and ending the quarter at 98.1%;

The strong pace of expansion continued, as Textainer invested more than \$760 million in new and used containers, as well as purchases from our managed fleet through August 2012. Approximately 25% of the Company's new container investments were in refrigerated containers, as Textainer continues to expand market share in the refrigerated container sector;

Annualized 2012 return on equity of 26%, continuing Textainer's performance whereby the Company has delivered an average annual return on equity of 23% since its October 2007 initial public offering; and

Textainer paid a \$0.40 per share dividend in the second quarter and declared a \$0.42 per share dividend in the third quarter of 2012, an increase of 5.0% from the first quarter and the Company's tenth consecutive quarterly increase.

Our second quarter results marked a solid finish to the first half of 2012 for Textainer, commented Philip K. Brewer, President and Chief Executive Officer of Textainer. We saw double digit top line and bottom line growth during the second quarter and first half of 2012, as we benefited from our opportunistic investment in new containers late last year and early this year. We have also benefited from an increase in utilization of more than 1 percentage point since the start of the second quarter.

Many of our customers are shifting to leasing in lieu of buying containers. We are benefitting from the strong demand created by this very positive secular trend in the industry. We have invested more than \$760 million in new and used dry-freight and refrigerated containers, as well as purchases from our managed fleet. As a result, we have gained market share in both dry-freight and refrigerated containers. Our fleet now stands at more than 2.6 million TEU marking our continued leadership position in the industry.

Key Financial Information (in thousands except for per share and TEU amounts):

| | 2012 | Q2 QTD 2011 | % Change | 2012 | Q2 YTD 2011 | % Change |
|--|------------|----------------|----------|------------|----------------|----------|
| Total revenues | \$ 119,990 | \$ 105,736 | 13.5% | \$ 237,505 | \$ 196,938 | 20.6% |
| Net income attributable to Textainer Group Holdings Limited common shareholders | \$ 45,809 | \$ 51,697 | (11.4%) | \$ 95,719 | \$ 88,887 | 7.7% |
| Net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share | \$ 0.91 | \$ 1.03 | (11.7%) | \$ 1.90 | \$ 1.78 | 6.7% |

| Adjusted EBITDA ⁽¹⁾ | \$ 92,698 | \$ 86,545 | 7.1% | \$ 183,052 | \$ 156,387 | 17.1% |
| Average fleet utilization | 97.5% | 98.7% | (1.2%) | 97.2% | 98.4% | (1.2%) |
| Total fleet size at end of period (TEU) | 2,615,282 | 2,441,561 | 7.1% | | | |
| Owned percentage of total fleet at end of period | 60.4% | 57.3% | 5.4% | | | |

Net income excluding gain on sale of containers to noncontrolling interest, adjusted net income and adjusted EBITDA are Non-GAAP Measures that are reconciled to GAAP measures in footnote 1. Net income excluding gain on sale of containers to noncontrolling interest (NCI) is defined as net income attributable to Textainer Group Holdings Limited common shareholders before gain on sale of containers to NCI and related impact on net (loss) income attributable to the NCI. Adjusted net income is defined as net income attributable to Textainer Group Holdings Limited common shareholders before unrealized (gains) losses on interest rate swaps and caps, net, gain on sale of containers to NCI and related impact of reconciling item on net (loss) income attributable to the NCI. Adjusted EBITDA is defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and interest expense, realized and unrealized losses (gains) on interest rate swaps and caps, net, income tax expense, net income attributable to the NCI, depreciation and amortization expense, gain on sale of containers to NCI and related impact of reconciling items on net (loss) income attributable to the NCI. Footnote 1 provides certain qualifications and limitations on the use of Non-GAAP Measures.

Textainer's adjusted net income benefited from an increase in the size of the owned container fleet in the second quarter of 2012, compared to the year ago quarter, partially offset by an increase in interest expense due to an increase in debt required to fund the expansion of our owned fleet.

During the quarter, one of Textainer's subsidiaries issued \$400 million of container-backed notes (the Notes). The Notes are fully amortizing notes payable on a straight-line basis over a scheduled payment term of ten years, with a maximum payment term of fifteen years. The Notes have a fixed interest rate, payable monthly, of 4.21% per annum.

The Company also restructured its securitization facility, increasing the size from \$850 million to \$1.2 billion and adding four new participant banks. The interest rate on the new facility is 2.625% over one-month LIBOR during the initial two-year revolving period.

Textainer ended the quarter with a debt-to-equity ratio of 2.3:1. The additional liquidity created by the recent financings puts the Company in a strong position to continue purchasing both new and used containers to meet the needs of shipping lines and their increased preference to lease containers.

In the second quarter of last year, net income included a gain on sale of containers to NCI of \$14.8 million net of the related impact on NCI as a result of restructuring Textainer's primary asset-owning subsidiary, Textainer Marine Containers Limited (TMCL) and eliminating a minority partner. As a result of the restructuring, the Company's wholly-owned subsidiary, Textainer Limited, now owns 100% of TMCL. The non-cash gain was the result of recognizing the fair value of containers and direct financing and sales-type leases in excess of their book value exchanged for TMCL's common shares at the time of the transaction and is excluded from the adjusted net income and adjusted EBITDA amounts.

Outlook

The run rate of our capital expenditures for new dry-freight and refrigerated containers already exceeds the record levels of 2011. In-fleet container utilization continues to remain at or near historic highs. Textainer is seeing an increase in purchase leaseback transactions and opportunities to purchase some of the Company's managed fleet. Additionally, industry data suggests that worldwide container production in 2012 will be approximately 2.3 million TEU, a 15% decline from 2011 production of approximately 2.7 million TEU. The Company expects declining production, coupled with increasing industry container disposals and limited new shipping line investment, will support continued high fleet utilization.

In spite of slowing economic growth rates and their impact on trade, we remain focused on organic growth. We believe the increasing owned percentage of our fleet, high percentage of long-term leases and high utilization rates will provide sustained performance, commented Mr. Brewer. Today, 80% of our fleet is committed to long-term operating, financing and sales-type leases, compared to 78% a year ago, further reducing the volatility of our utilization.

We are pleased to see more purchase leaseback and trading opportunities which increase container trading profits and signal the possibility of increased replacement demand for new containers.

Dividend

On August 3, 2012, Textainer's board of directors approved and declared a quarterly cash dividend of \$0.42 per share on Textainer's issued and outstanding common shares, payable on August 28, 2012 to shareholders of record as of August 17, 2012. This dividend is an increase of \$0.02 per share from the prior quarter. The current dividend represents 47% of adjusted net income⁽¹⁾.

In addition to driving value with our consistent performance, we are focused on total shareholder return, added Mr. Brewer. This quarter we increased our dividend by 5% which is our tenth consecutive quarterly increase and represents a 47% payout.

Investors Webcast

Textainer will hold a conference call and a Webcast at 11:00 am EDT on Tuesday, August 7, 2012 to discuss Textainer's 2012 second-quarter results. An archive of the Webcast will be available one hour after the live call through August 7, 2013. For callers in the U.S. the dial-in number for the conference call is (877) 303-9078; for callers outside the U.S. the dial-in number for the conference call is (970) 315-0455. To access the live Webcast or archive, please visit Textainer's website at <http://www.textainer.com>.

About Textainer Group Holdings Limited

Textainer Group Holdings Limited and its subsidiaries (Textainer) is the world's largest lessor of intermodal containers based on fleet size. The Company began operations in 1979 and as of the most recent quarter end had more than 1.7 million containers, representing more than 2.6 million TEU, in its owned and managed fleet. Textainer leases dry freight, refrigerated, and specialized containers. Each year the Company is one of the largest purchasers of new containers as well as one of the largest sellers of used containers. Textainer leases containers to approximately 400 shipping lines and other lessees and sells containers to more than 1,000 customers worldwide and provides services worldwide via a network of regional and area offices, as well as independent depots.

Important Cautionary Information Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements regarding: (i) Textainer's belief that the additional liquidity created by its recent financings puts it in a strong position to continue purchasing both new and used containers to meet the needs of shipping lines and their increased preference to lease containers; (ii) Textainer's belief that industry data suggests that worldwide container production in 2012 will be approximately 2.3 million TEU, a 15% decline from 2011 production of approximately 2.7 million TEU; (iii) Textainer's expectation that declining production, coupled with increasing industry container disposals and limited new shipping line investment, will support continued high fleet utilization; (iv) Textainer's belief that its increasing owned percentage of its fleet, high percentage of long-term leases and high utilization rates will provide sustained performance; (v) Textainer's belief that having 80% of its fleet committed to long-term operating and direct financing and sales-type leases, compared to 78% a year ago, reduces the volatility of its utilization; and (vi) Textainer's belief that more purchase leaseback and trading opportunities will increase trading container profits and signal the possibility of more replacement demand for new containers. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include, without limitation, the following items that could materially and negatively impact our business, results of operations, cash flows, financial condition and future prospects: any deceleration or reversal of the current domestic and global economic recoveries; lease rates may decrease and lessees may default, which could decrease revenue and increase storage, repositioning, collection and recovery expenses; we own a large and growing number of containers in our fleet and are subject to significant ownership risk; further consolidation of container manufacturers or the disruption of manufacturing for the major manufacturers could result in higher new container prices and/or decreased supply of new containers and any increase in the cost or reduction in the supply of new containers; the demand for leased containers depends on many political and economic factors beyond Textainer's control; the demand for leased containers is partially tied to international trade and if this demand were to decrease due to increased barriers to trade, or for any other reason, it could reduce demand for intermodal container leasing; as we increase the number of containers in our owned fleet, we will have significant capital at risk and may need to incur more debt, which could result in financial instability; Textainer faces extensive competition in the container leasing industry; the international nature of the container shipping industry exposes Textainer to numerous risks; gains and losses associated with the disposition of used equipment may fluctuate; our indebtedness reduces our financial flexibility and could impede our ability to operate; and other risks and uncertainties, including those set forth in Textainer's filings with the Securities and Exchange Commission. For a discussion of some of these risks and uncertainties, see Item 3 "Key Information - Risk Factors" in Textainer's Annual Report on Form 20-F/A filed with the Securities and Exchange Commission on June 27, 2012.

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this press release. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

- (1) The following is a reconciliation of certain GAAP measures to non-GAAP financial measures (such items listed in (a) to (d) below and defined as Non-GAAP Measures) for the three and six months ended June 30, 2012 and 2011, including:
- (a) net income attributable to Textainer Group Holdings Limited common shareholders to adjusted EBITDA (Adjusted EBITDA defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and interest expense, realized and unrealized losses on interest rate swaps and caps, net, income tax expense, net (loss) income attributable to the noncontrolling interest (NCI), depreciation and amortization expense, gain on sale of containers to NCI and the related impact of reconciling items on net (loss) income attributable to the NCI);
 - (b) net cash provided by operating activities to Adjusted EBITDA;
 - (c) net income attributable to Textainer Group Holdings Limited common shareholders to net income excluding gain on sale of containers to NCI (defined as net income attributable to Textainer Group Holdings Limited common shareholders before gain on sale of containers to NCI and the related impact on net (loss) income attributable to the NCI);
 - (d) net income attributable to Textainer Group Holdings Limited common shareholders to adjusted net income (defined as net income attributable to Textainer Group Holdings Limited common shareholders before unrealized (gains) losses on interest rate swaps and caps, net, gain on sale of containers to NCI and the related impact of reconciling items on net (loss) income attributable to the NCI); and
 - (e) net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share to adjusted net income per diluted common share (defined as net income attributable to Textainer Group Holdings Limited common shareholders per diluted common share before unrealized (gains) losses on interest rate swaps and caps, net, gain on sale of containers to NCI and the related impact of reconciling items on net (loss) income attributable to the NCI).

Non-GAAP Measures are not financial measures calculated in accordance with U.S. generally accepted accounting principles (GAAP) and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. Non-GAAP Measures are presented solely as supplemental disclosures. Management believes that adjusted EBITDA may be a useful performance measure that is widely used within our industry and adjusted net income may be a useful performance measure because Textainer intends to hold its interest rate swaps until maturity and over the life of an interest rate swap or cap held to maturity the unrealized (gains) losses will net to zero. Adjusted EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison.

Management also believes that net income excluding gain on sale of containers to noncontrolling interest, adjusted net income and adjusted net income per diluted common share are useful in evaluating our operating performance because unrealized (gains) losses on interest rate swaps and caps, net and gain on sale of containers to NCI are both noncash items and unrealized (gains) losses on interest rate swaps is a non-operating item. We believe Non-GAAP Measures provide useful information on our earnings from ongoing operations. We believe that adjusted EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. Non-GAAP Measures have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

They do not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;

Although depreciation is a noncash charge, the assets being depreciated may be replaced in the future, and neither Adjusted EBITDA, adjusted net income or adjusted net income per diluted common share reflects any cash requirements for such replacements;

They are not adjusted for all noncash income or expense items that are reflected in our statements of cash flows; and

Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
