Corporate Governance Information

I Underlying Concept of Corporate Governance, Capital Structure, Corporate Attributes, and Other Fundamental Information

1. Underlying Concept

Nomura Holdings Inc. (the Company) strives for transparency and speed in the management of its operations and while aiming to enhance the corporate value of the group in the medium to long term, the Company places the highest importance on strengthening and further enhancing its corporate governance system.

Among its endeavors, the Company has been proactively moving forward with reforms for establishing transparent management. When the Company adopted the holding company structure in October 2001, the Company appointed Outside Directors to strengthen oversight functions and established an Executive Management Committee on which Outside Directors also participated (currently the Internal Controls Committee) and established a compensation committee consisting of a majority of Outside Directors, as well as an Advisory Board of external experts. Also, in connection with its listing on the New York Stock Exchange (the NYSE) in December of the same year, the Company further enhanced its information disclosure system and has progressed with the building of a highly transparent management framework.

In June 2003, the Company adopted a committee-based corporate governance system, which separates management oversight functions from the day-to-day execution of business, and by putting into place the Nomination Committee, Audit Committee and Compensation Committee, each comprised of a majority of Outside Directors, strengthened oversight and transparency of its management. At the same time, to manage the Company's consolidated operations with speed, the Board of Directors has delegated to the Executive Officers a wide scope of authority for business execution.

Further, in 2004, the Company adopted the Code of Ethics of Nomura Group, which outlines the Company's policies on issues related to corporate governance and corporate social responsibility. All officers and employees of the Nomura Group should comply with the code in order to fulfill our responsibilities not only to the Company's shareholders but also to all other stakeholders.

The Compensation Policy of Nomura Group is as follows.

Nomura group is establishing its status firmly as a globally competitive financial services group. To support this, we recognize that our people are our most valuable asset. We have therefore developed our Compensation Policy to ensure we attract, retain, motivate and develop our key talent.

Our Compensation Policy is based around six key themes:

1. Align with Nomura Values and Strategies

Compensation is designed to support delivery against the broader strategic aims of the Group.

Levels and structures of compensation reflect the needs of each business line and allow the Group to effectively compete for key talent in the market.

We develop our staff to support the Nomura values.

2. Reflect Firm, Division and Individual Performance

Pay for Performance is our fundamental principle to motivate and reward our key talent regardless of personal background.

We manage compensation on a firm-wide basis, taking into account the performance of the Group and supporting our ethos of sustainable growth, collaboration and client service. This enables us to manage strategic investments and still operate market-competitive compensation practices.

An individual's compensation is determined by properly reflecting the Group, division and individual performance, ensuring that it is aligned with both the business strategy and market considerations.

Edgar Filing: NOMURA HOLDINGS INC - Form 6-K

Individual compensation award decisions are underpinned by valid and rigorous performance management processes and supporting systems.

3. Establish Appropriate Performance Measurement with a Focus on Risk

Compensation is not determined by reference solely to revenues. Risk-adjusted profits are being emphasized in Nomura's management information and performance systems and processes.

In addition, qualitative factors such as cross-divisional collaboration, risk management, alignment with organizational values, and compliance are stressed when evaluating performance.

Performance measurement reflects the business needs, taking account of risk associated with each business. Such risk includes market, credit, operational, and liquidity risk among others.

In assessing and measuring risk for compensation, input and advice is received from the risk management and finance divisions.

4. Align Employee and Shareholder Interests

Compensation of group executives and higher paid employees should reflect the achievement of targets which are in line with the creation of shareholder value.

For higher paid executives and employees, a part of their compensation is delivered in equity linked awards with appropriate vesting periods to ensure that their interests are closely aligned with those of shareholders.

5. Appropriate Compensation Structures

The compensation structure reflects our desire to grow and develop our talent. It is merit based, reflecting performance and is regularly reviewed to ensure its fairness.

For higher paid executives and employees, a significant portion of compensation is deferred, balancing short-term interests with longer-term stewardship of the Group.

Deferred compensation should be subject to forfeiture or clawback in the event of a material restatement of earnings or other significant harm to the business of Nomura.

The percentage of deferral increases as an employee's total compensation increases. A part of deferred compensation is delivered in mid/long-term incentive plans, such as equity linked awards with appropriate vesting periods.

Guarantees of bonus/compensation should be allowed only in limited circumstances such as new hiring or strategic business needs, and multi-year guarantees should not be used as a matter of course.

There should be no special or expensive retirement/severance guarantees for senior executives.

Nomura will respect all areas in which it operates and will seek to ensure pay structures reflect the needs of the organization as well as regulatory and government bodies.

6. Ensure Robust Governance and Control Processes

This Policy and any change hereof must be approved by Nomura Holdings Compensation Committee, a majority of which consists of non-executive outside directors.

The Compensation Committee of Nomura Holdings decides individual amounts as well as compensation policy for Directors and Executive Officers of Nomura Holdings, in line with this Policy.

Globally, we institute a review and authorization policy for senior or high-level contracts ensuring consistency with this Policy. This is administered by Human Resources, involves Finance, Risk Management and Regional Compensation Committees and is reviewed by the Executive Managing Board.

Compensation for employees of risk management and compliance functions is determined independently of other business divisions.

The Compensation Committee uses market and specialist advisory groups to advise on appropriate compensation structures and levels as necessary.

Audit and Oversight

Given that the Company utilizes a committee-based system of corporate governance, the central role in business oversight is taken by the Board of Directors and the Audit Committee, the latter of which comprises a majority of Outside Directors. The chair of the Board of Directors is held by a Director not serving concurrently as an Executive Officer, allowing the Board to better oversee the business conducted by the Executive Officers. The Audit Committee is chaired by an Outside Director, making its independence from management even clearer. In addition, we have established an internal controls system based on a decision made by the Board of Directors, so as to ensure the effectiveness of audits. A full-time Director not serving concurrently as an Executive Officer may be appointed as Audit Mission Director . The Company has established an Office of Audit Committee with the sole duty of providing support to the Audit Committee.

We have established the Group Internal Audit Department, which is independent from business divisions and, along with internal audit departments established in significant subsidiaries and working under its direction, conducts internal audits of the Company and its subsidiaries, so as to ensure the effectiveness and suitability of internal controls. The Group Internal Audit Department acts under the direction of the Internal Controls Committee, and results of audits are reported not only to business lines, but also to the Audit Committee and the Audit Mission Directors.

We have appointed Ernst & Young ShinNihon LLC as an Independent Auditor.

3. Reasons for Adopting the Current Corporate Governance System

The Company strives for transparency and speed in the management of its operations to enhance the corporate value of Nomura Group in the medium to long term. Under the Committee System, management oversight and business execution functions are clearly separated with authority for the execution of business functions broadly delegated by the Board of Directors to the Executive Officers allowing for speedy and efficient decision-making; and the three committees, the Nomination Committee, Audit Committee and Compensation Committee, each of which are comprised of a majority of Outside Directors have the function of enhancing management oversight and transparency. For these reasons, we have determined the Committee System to be the most suitable form of corporate governance for the Company. Further, as a corporation listed on the NYSE, the Company believes that, among various organizational structures applicable in Japan, an organizational structure based on this Committee System is most compatible with the corporate governance standards stipulated in the NYSE Listed Company Manual.
