Item 8.01 Other Events

On November 18, 2013, the Company issued a press release announcing that the journal *Epilepsia* has accepted for publication an original research paper that demonstrates proof of concept of CPP-115 suppressing infantile spasms (IS) in a pre-clinical study. CPP-115 is the Company's next-generation GABA aminotransferase inhibitor being developed for the treatment of IS. The Company also announced plans to initiate a Phase I multiple-dose ascending study in the first half of 2014 to evaluate the safety and tolerability of multiple ascending oral doses of CPP-115.

Our investors and others should note that we currently announce material financial and other information to our investors using SEC filings, press releases, and our investor relations website. We use these channels as well as social media channels to announce information about the Company. Consistent with SEC guidance regarding the use of social media channels to announce material and other information to investors, we are notifying investors, the media and others interested in the Company that in the future, we might choose to communicate material information through social media channels, and it is possible that the information we post on social media channels could be deemed to be material information. Accordingly, we encourage investors, the media and others interested in the Company to review the information we post on Twitter at <http://www.twitter.com/CatalystPharma>.

Item 9.01 Financial Statements and Exhibits.
