| | |
|---------------|---------------------------------|
| | As of September 30, 2013 |
| Total balance | ¥ 1,090,215 million |

The amounts given in Notes 3 through 6 above are gross amounts before deduction of amounts for the Reserves for Possible Losses on Loans.

7. In accordance with Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Bank Industry (JICPA Industry Audit Committee Report No. 24), bills discounted are accounted for as financing transactions. The banking subsidiaries have rights to sell or pledge these bankers' acceptances, commercial bills, documentary bills and foreign exchange bills purchased. The face value of these bills amounted to ¥1,076,350 million.

8. The following assets were pledged as collateral.

| | |
|----------------------------|---------------------------------|
| | As of September 30, 2013 |
| Trading Assets | ¥ 5,721,037 million |
| Securities | ¥ 15,412,735 million |
| Loans and Bills Discounted | ¥ 8,650,503 million |
| Other Assets | ¥ 1,110 million |
| Total | ¥ 29,785,387 million |

| Call Money and Bills Sold | ¥ 1,609,800 million |
| Payables under Repurchase Agreements | ¥ 7,307,149 million |

Rediscount of bills is conducted as financial transaction based on Treatment of Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Bank Industry (JICPA Industry Audit Committee Report No. 24). As a result, there was no balance for bankers' acceptances, commercial bills, documentary bills or foreign exchange bills purchased.

9. | Of which, contracts of which the original contractual maturity is one year or less | |

(or which are unconditionally cancelable at any time) ¥ 56,666,087 million

Since many of these contracts expire without being exercised, the unutilized balance itself does not necessarily affect future cash flows. A provision is included in many of these contracts that entitles the banking subsidiaries to refuse the execution of loans, or reduce the maximum amount under contracts when there is a change in the financial situation, necessity to preserve a claim or other similar reasons. The banking subsidiaries require collateral such as real estate and securities when deemed necessary at the time the contract is entered into. In addition, they periodically monitor customers' business conditions in accordance with internally established standards and take the necessary measures to manage credit risks such as amendments to contracts.

10. In accordance with the Land Revaluation Law (Proclamation No.34 dated March 31, 1998), land used for business operations of domestic consolidated banking subsidiaries was revalued. The applicable income taxes on the entire excess of revaluation are included in Deferred Tax Liabilities for Revaluation Reserve for Land under Liabilities, and the remainder, net of applicable income taxes, is stated as Revaluation Reserve for Land, net of Taxes included in Net Assets.

Revaluation date: March 31, 1998

Revaluation method as stated in Article 3, Paragraph 3 of the above law: Land used for business operations was revalued by calculating the value on the basis of the valuation by road rating stipulated in Article 2, Paragraph 4 of the Enforcement Ordinance relating to the Land Revaluation Law (Government Ordinance No.119 promulgated on March 31, 1998) with reasonable adjustments to compensate for sites with long depth and other factors, and also on the basis of the appraisal valuation stipulated in Paragraph 5.

3. Impairment (Devaluation) of Securities

Securities other than Trading Securities (excluding Securities for which it is deemed to be extremely difficult to determine the fair value) are devalued to the fair value, and the difference between the acquisition cost and the fair value is treated as the loss for the period (impairment (devaluation)), if the fair value (primarily the closing market price at the consolidated balance sheet date) has significantly deteriorated compared with the acquisition cost (including amortized cost), and unless it is deemed that there is a possibility of a recovery in the fair value. The amount of impairment (devaluation) for the period was ¥10,846 million.

The criteria for determining whether a security's fair value has significantly deteriorated are outlined as follows:

Securities whose fair value is 50% or less of the acquisition cost

Securities whose fair value exceeds 50% but is 70% or less of the acquisition cost and the quoted market price maintains a certain level or lower.
