FOR

2014 ANNUAL MEETING OF STOCKHOLDERS

May 22, 2014

INFORMATION CONCERNING SOLICITATION AND VOTING

General

The Board of Directors of the Company is furnishing this Proxy Statement to you in connection with the solicitation of proxies for use at our 2014 Annual Meeting of Stockholders (the Annual Meeting) to be held on May 22, 2014, at 8:00 a.m., local time, at our offices at 39300 Civic Center Drive, Suite 150, Fremont, California, or any adjournment(s) or postponement(s) thereof, for the purposes set forth in this Proxy Statement and in the accompanying notice of our Annual Meeting. References in this proxy statement to the Company, we, our, us and Identive Group or Identiv are to Identive Group, Inc.

Copies of this Proxy Statement, the enclosed proxy card and our 2013 Annual Report to Stockholders are expected to first be sent or given to stockholders on or about May 1, 2014.

Important Notice Regarding Internet Availability of Proxy Materials and Annual Report

Pursuant to the rules of the Securities and Exchange Commission (SEC), we are providing access to our proxy materials, including this Proxy Statement, together with a notice of the meeting and our Annual Report, over the Internet. In addition to receiving your proxy materials for this year's Annual Meeting via mail, all stockholders will have the ability to access the proxy materials on our website at www.identiv.com.

Record Date

Our Board of Directors has fixed the close of business on April 21, 2014 as the record date (the Record Date) for the determination of our stockholders entitled to notice of, and to vote at, the Annual Meeting and any adjournment(s) or postponement(s) thereof.

Shares Outstanding

At the Record Date, _____ shares of our Company's common stock, par value \$0.001 per share (Common Stock), were outstanding and entitled to vote at the Annual Meeting. Our Common Stock is listed on the NASDAQ Capital Market under the symbol INVE.

Quorum

The holders of one-third (1/3) of the outstanding shares of our Common Stock entitled to vote at the meeting, present in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes (as described below) will be treated as being present at the Annual Meeting for purposes of establishing a quorum for the transaction of business.

Voting Rights and Vote Required

Each stockholder of record on the Record Date is entitled to one vote per share of Common Stock held by him or her on the Record Date on all matters submitted for consideration of, and to be voted upon by, the stockholders at the Annual Meeting.

Assuming that a quorum is present, the affirmative vote of a plurality of the votes cast is required for the election of the nominee for director. No stockholder will be entitled to cumulative votes at the Annual Meeting for the election of any members of our Board of Directors.

The proposals to increase the number of shares of our Common Stock authorized, change our name and effect a reverse split of our Common Stock require the affirmative vote of the holders of a majority of the outstanding shares of our Common Stock.

The proposal to amend the 2011 Incentive Compensation Plan requires the affirmative vote of the holders of a majority of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting.

All other matters being submitted to stockholders require the affirmative vote of a majority of the votes cast. Proposal No. 7 (the Say on Pay proposal) is a non-binding, advisory proposal.

Shares which abstain from voting as to a particular matter and shares held in street name by brokers or nominees who indicate on their proxies that they do not have discretionary authority to vote such shares as to a particular matter (broker non-votes) will be counted for purposes of determining whether a quorum is present for the transaction of business, but will not be considered as voting on such matter. Accordingly, neither abstentions nor broker non-votes will have any effect upon the outcome of voting with respect to the election of directors, which requires a plurality of the votes cast, or other matters being submitted to stockholders, which require an affirmative vote of a majority of votes cast.

All votes will be tabulated by the inspector of elections appointed for the Annual Meeting. The inspector of elections will separately tabulate affirmative and negative votes, abstentions and broker non-votes.

Voting Procedures

If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company LLC, you are considered the stockholder of record with respect to those shares. As the stockholder of record, you have the right to vote in person at the meeting. If you choose to do so, you can bring your proxy card or vote using the ballot provided at the meeting. However, even if you plan to attend the Annual Meeting, we recommend that you vote your shares in advance as described below so that your vote will be counted if you later decide not to attend the Annual Meeting.

If you hold your shares in street name through a stockbroker, bank or other nominee rather than directly in your own name, you are considered the beneficial owner of shares held in street name. Because a beneficial owner is not a stockholder of record, you may not vote these shares in person at the meeting unless you obtain a legal proxy from the broker, bank or nominee that holds your shares, giving you the right to vote those shares at the meeting. If you wish to attend the Annual Meeting and vote in person, you will need to contact your broker, bank or nominee to obtain a legal proxy.

If you are unable to attend the Annual Meeting, you may vote by proxy as follows:

Internet. You may submit a proxy over the Internet by following the instructions provided on the separate proxy card.

Telephone. You may submit a proxy over the telephone by following the instructions provided on the separate proxy card.

Mail. You may submit a proxy by mail by completing, signing and returning the separate proxy card in the prepaid and addressed envelope included with the proxy materials.

Stockholders are urged to specify their choices on the proxy they submit by Internet, telephone or mail. If you submit a proxy, but do not specify how you want to vote on a proposal, in the absence of contrary

instructions, the shares of Common Stock represented by such proxy will be voted as our Board of Directors recommends on each proposal and the persons named as proxies will vote on any other matters properly presented at the Annual Meeting in accordance with their best judgment. Stockholder votes will be tabulated by a representative of Broadridge Financial Solutions, Inc.

Brokers, banks, or other nominees that hold shares of Common Stock in street name for a beneficial owner of those shares typically have the authority to vote in their discretion if permitted by the stock exchange or other organization of which they are members. Brokers, banks, and other nominees are entitled to vote shares held for a beneficial holder on routine matters, such as the ratification of the appointment of BDO USA, LLP as our independent registered public accounting firm, without instructions from the beneficial holder of those shares, but, absent instructions from the beneficial holders of such shares, they are not entitled to vote shares held for a beneficial holder on non-routine matters, such as the election of directors, authorization of additional shares, change of company name, reverse stock split, amendment of the 2011 Incentive Compensation Plan, and the approval of the advisory resolution on Say on Pay. Consequently, if you do not give your broker specific instructions, your shares may not be voted on the non-routine matters and will not be counted in determining the number of shares necessary for approval, although they will count for purposes of determining whether a quorum exists. **Please instruct your bank or broker so your vote can be counted on all proposals.**

Solicitation of Proxies

The cost of soliciting proxies will be borne by us. We may reimburse brokerage firms, banks and other persons representing the beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners. Solicitation of proxies by mail may be supplemented by telephone, facsimile or personal solicitation by our directors, officers or regular employees without additional compensation. In addition, we have retained , a proxy solicitation firm, to assist in the solicitation of proxies for a fee of \$ plus reasonable out-of-pocket expenses.

Revocability of Proxies

Your proxy is revocable at any time before it is voted at the Annual Meeting either by delivering to the Secretary of the Company a written notice of revocation or a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. Attendance at the Annual Meeting, however, will not by itself revoke a proxy previously delivered to us. If you have executed and returned a proxy and are present in person at the Annual Meeting and wish to vote at the Annual Meeting, you may elect to do so by notifying the inspector of elections, thereby suspending the power of the proxy holders to vote the proxy previously delivered by you.

Annual Report and Other Matters

Our Annual Report on Form 10-K for the fiscal year ended December 31, 2013 (Fiscal 2013) which was made available to stockholders with or preceding this Proxy Statement, contains financial and other information about our Company, but is not incorporated into this Proxy Statement and is not to be considered a part of these proxy soliciting materials or subject to Regulations 14A or 14C or to the liabilities of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act).

We make all of our filings free of charge on our website, www.identiv.com, including our proxy statements (including this Proxy Statement), our Annual Reports on Form 10-K, our Quarterly Reports on Form 10-Q, and our Current Reports on Form 8-K, as well as Form 3, Form 4, and Form 5 Reports of our directors, officers, and principal stockholders, together with amendments to these reports filed or furnished pursuant to Section 13(a), 15(d), or 16 of the Exchange Act.

We will also provide to each stockholder of record as of the record date, without charge, copies of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, this Proxy Statement, and the related proxy card. Requests for copies may be made in writing directed to our executive offices at 39300 Civic Center Drive, Suite 160, Fremont, California 94538, Attention: Investor Relations, or by telephone at (949) 553-4251, or by e-mailing us at IR@Identiv.com.

Stockholder Proposals for 2015 Annual Meeting of Stockholders

Stockholder proposals submitted for inclusion in our proxy materials for the 2015 Annual Meeting of Stockholders pursuant to Rule 14a-8 under the Exchange Act must be received at our principal offices at 39300 Civic Center Drive, Suite 160, Fremont, California 94538, Attention: Secretary, by December 31, 2014; provided, however, that if the date of the annual meeting has been changed by more than 30 calendar days from the date of the Annual Meeting, then the deadline is a reasonable time before the Company begins to print and send its proxy materials.

PROPOSAL NO. 1**ELECTION OF CLASS I DIRECTORS**

Our Board of Directors is divided into three director classes with staggered three-year terms. Currently there are eight directors and one vacancy on the Board of Directors. Three directors serve in Class I (whose terms expire at this Annual Meeting), three directors serve in Class II (whose terms expire at the 2015 Annual Meeting) and two directors serve in Class III (whose terms expire at the 2016 Annual Meeting).

The Nominating Committee of the Board of Directors has recommended, and our Board of Directors has proposed, that Steven Humphreys and Daniel Wenzel be elected as Class I directors at the Annual Meeting. Dr. Hans Liebler has not been nominated for re-election but will continue to serve through the end of his current term. Our Board of Directors remains in the process of seeking candidates for the vacant Class I and Class III director positions and therefore we have a fewer number of nominees and directors than the number fixed by our Bylaws or a resolution adopted by the Board of Directors. Stockholders may not vote for a greater number of persons than the number of nominees named herein. Unless otherwise instructed, the proxy holders named in the enclosed proxy will vote the proxies received by them for Messrs. Humphreys and Wenzel, who currently serve as Class I directors of the Company. In the event that any nominee is unable or declines to serve as a director at the time of the Annual Meeting, the proxies received by the proxy holders named in the enclosed proxy will be voted for any nominee who is subsequently designated by the Board of Directors to fill the vacancy. We do not expect, however, that any of the nominees will decline to serve as a director at the Annual Meeting, as each has agreed to serve if elected.

The nominees for Class I Director receiving the highest number of votes will be elected as Class I Directors. A Withhold vote will have no effect on the vote. The nominees elected at the Annual Meeting will serve for a term ending on the date of the 2017 annual meeting of stockholders and until their successors have been elected and duly qualified, or upon the date of their earlier resignation or removal.

Set forth below is information about the directors nominated for election at the Annual Meeting and each of the other current directors:

Director Independence

Our Board of Directors has reviewed the independence of each of our directors and our director nominee and considered whether any director or nominee has had a material relationship with the Company or our management that could compromise his ability to exercise independent judgment in carrying out his duties and responsibilities. As a result of this review, our Board of Directors affirmatively determined that all of our directors, including all of our directors who served in Fiscal 2013 and all directors nominated to the Board of Directors for 2014, other than Messrs. Hart and Midland, and Ashour, are independent under applicable rules of the NASDAQ Stock Market and the SEC.

In connection with the determination of independence of Saad Alazem and Daniel S. Wenzel, our Board of Directors considered each director's relationship with the Company's largest stockholder, Mountain Partners AG, of which Mr. Alazem is an independent member of the board of directors and Mr. Wenzel is a co-founder and partner. Our Board of Directors determined that such relationships would not compromise Mr. Alazem's or Mr. Wenzel's ability to exercise independent judgment in carrying out their duties and responsibilities. In agreeing to serve as members of our Board of Directors, Mr. Alazem and Mr. Wenzel must act independently of Mountain Partners AG in discharging their fiduciary duties to stockholders of the Company and also are obligated not to disclose to Mountain Partners AG or use for their own benefit any confidential information that they may obtain during their service on our Board of Directors. Mr. Alazem and Mr. Wenzel each disclaim shared voting or dispositive power over any securities held by Mountain Partners AG.

BOARD MEETINGS AND COMMITTEES

In accordance with our Bylaws, the Board of Directors elects all officers of the Company, including our Chief Executive Officer and our Chairman, and each of these positions may be held by the same person or may be held by two persons. The Board of Directors has determined that a Lead Independent Director should be elected when the roles of the Chairman of the Board and the Chief Executive Officer are filled by the same person, and that Lead Independent Director should be an independent director as defined by applicable NASDAQ Stock Market rules and the Company's Corporate Governance Guidelines, and be elected annually. The role of the Lead Independent Director is to coordinate the activities of the independent directors, to advise the Chairman of the Board as to the information provided by Company management to the independent directors, to manage executive sessions of the Board of Directors' independent directors, and to act as principal liaison between the independent directors and the Chairman of the Board.

Currently, Jason Hart serves as our Chief Executive Officer and Steven Humphreys, who is an independent director, serves as Chairman of the Board of Directors. Prior to Mr. Hart's appointment in September 2013,

Ayman S. Ashour served both as Chief Executive Officer and as Chairman of the Board, Mr. Humphreys served as Lead Independent Director through March 2013 and Hans Liebler served as Lead Independent Director from April to September 2013. The Board of Directors believes that the current structure of the Board of Directors is appropriate to effectively manage the affairs of the Company.

The Board of Directors Role in Risk Oversight

The Board of Directors has an active role, as a whole and also at the committee level, in overseeing management of the Company's risks. The Board of Directors regularly reviews information regarding the Company's credit, liquidity and operations, as well as the risks associated with each. The Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation plans and arrangements. The Audit Committee of the Board of Directors oversees management of financial risks. The Nominating Committee manages risks associated with the independence of the Board of Directors and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed through committee reports about such risks.

Board Meeting Attendance

Our Board of Directors held 13 meetings in 2013, of which 12 were telephonic meetings and one was a physical meeting. During 2013, we had three standing committees: an Audit Committee, a Compensation Committee and a Nominating Committee. Each standing committee has a written charter which is available on the Corporate Governance page within the Investor Relations section of our website at www.identiv.com. The Board of Directors may choose to amend its committee charters from time to time. All members of our standing Board committees are appointed by the Board of Directors and are non-employee directors. From time to time the Board of Directors may choose to create additional committees.

Each of our current directors attended at least 75% of the meetings of the Board of Directors and meetings of committees on which he served during 2013, except for Mr. Clarke. During each physical Board of Directors meeting and additionally as needed, our independent directors meet in executive session without Company management present to address any issues they determine to be appropriate. The Lead Independent Director or independent Chairman of the Board presides at such executive sessions.

Communications with the Board of Directors

Although we do not have a formal policy regarding communications between our stockholders and our Board of Directors, stockholders may communicate with the Board of Directors by sending an email to IR@Identiv.com or by writing to the Board of Directors at: Identive Group, Inc., 39300 Civic Center Drive, Suite 160, Fremont, California 94538, Attention: Investor Relations. The Investor Relations staff will forward such communication to the Board of Directors or to any individual director or directors to whom the communication is directed as applicable, if the communication is relevant to the Company's business and financial operations, policies or corporate philosophy. If the communication is unduly hostile, threatening, illegal or similarly inappropriate, or advertisements, solicitations for periodicals or other subscriptions, and other similar communications are received, the Investor Relations staff has the authority to discard the communication or take appropriate legal action regarding the communication.

Director Attendance at Stockholder Meetings

We do not have a policy regarding director attendance at stockholder meetings. No directors attended the 2013 Annual Meeting of Stockholders.

See *Report of the Audit Committee of the Board of Directors* below for more information.

Compensation Committee

The Compensation Committee of our Board of Directors held three meetings and took action via unanimous written consent on three occasions during 2013. Currently, the Compensation Committee consists of Messrs. Alazem, Libin and Wenzel, and Mr. Alazem serves as Chairman. Previously, Mr. Turner served as Chairman of the Compensation Committee until his departure from the Board of Directors at the end of June 2013. The Board of Directors has determined that each member of the Compensation Committee currently serving or having served during 2013 is independent within the meaning of the applicable SEC and NASDAQ Stock Market rules.

Pursuant to its charter, the Compensation Committee has responsibility for and authority to:

Review and approve corporate goals and objectives relevant to Chief Executive Officer compensation, evaluate the Chief Executive Officer's performance in light of those goals and objectives, and set the Chief Executive Officer's compensation level based on this evaluation;

Develop, review and approve compensation policies and practices applicable to the Company's officers who are deemed to be executive officers of the Company for SEC reporting purposes, including the criteria upon which executive compensation is based,

Edgar Filing: IDENTIVE GROUP, INC. - Form PRE 14A

the specific relationship of corporate performance to executive compensation and the composition of benefits;

Make recommendations to the Board of Directors with respect to the Company's incentive compensation and equity-based compensation plans;

Review the compensation and benefits offered to non-employee directors and recommend changes to the Board of Directors as appropriate; and

Administer and evaluate the Company's incentive, equity-based and other executive compensation programs, including approving guidelines, granting awards and establishing annual award levels for employee stock options, units, restricted shares and other incentive and equity-based awards under such programs, interpreting and promulgating rules relating to the plans, modifying or canceling awards, designating eligible participants and imposing limitations and conditions on awards.

The Compensation Committee is authorized to delegate any portion of its authority to subcommittees and to engage external independent consultants, as deemed necessary.

Processes and Procedures. On an annual or more frequent basis, the Company's Chief Executive Officer recommends to the Compensation Committee salary, annual bonus and long-term compensation levels for less senior officers, including the other named executive officers. The executive officers named in the Summary Compensation Table of this proxy statement are referred to as our Named Executive Officers. Each Named Executive Officer is reviewed annually based on whether various performance objectives were met during the preceding review period. An evaluation of each officer's performance is presented to the Compensation Committee and used in the Compensation Committee's review and analysis of such officer's overall compensation. No other Named Executive Officer currently has a role in determining or recommending the form or amount of compensation paid to the Named Executive Officers, other than providing such financial or other information as the Compensation Committee may request from time to time. Although the participation of our CEO could influence performance targets, our Compensation Committee rather than our CEO makes all determinations regarding performance goals and targets. Our CEO does not attend any portion of meetings at which his compensation is discussed.

Independent Compensation Consultant. As indicated above, pursuant to its charter, the Compensation Committee has the power, in its discretion, to retain at the Company's expense, such independent counsel and other advisors and experts as it deems necessary or appropriate to carry out the Compensation Committee's duties. Under its charter, the Compensation Committee has the express authority to decide whether to retain a compensation consultant to assist in the evaluation of compensation. If the Compensation Committee decides in its discretion to retain such a firm, the Board of Directors delegates to the Compensation Committee the sole authority to retain and terminate any compensation consultant engaged to assist in the evaluation of the compensation of the Company's senior executive officers (including all of the Named Executive Officers).

The Company did not engage a compensation consultant to advise on executive compensation in 2013.

Compensation Committee Interlocks and Insider Participation. No director who served on the Compensation Committee during 2013 and no current member of the Compensation Committee is a current or former executive officer or employee of the Company. No director who served on the Compensation Committee had any relationships requiring disclosure by the Company under the SEC's rules requiring disclosure of certain relationships and related-party transactions.

Analysis of Risk in Compensation Programs. In setting compensation, the Compensation Committee also considers the risks to the Company's stockholders, and the Company as a whole, arising out of the Company's compensation programs. The Compensation Committee did not perform a risk analysis of the Company's compensation practices in 2013. Previously, the Compensation Committee considered the various elements of the Company's compensation practices, including base salary, annual bonus programs, short and long-term incentive awards, the use of cash and equity awards, and how performance is evaluated. While our annual bonus programs may encourage short-term risk taking on the part of participating employees, the Compensation Committee believed that these risks were balanced by the use of fixed base salaries and long-term equity incentives that encourage employees to take a long-term view of our business aligned with the interests of the Company's stockholders. The Compensation Committee did not identify any risks arising from the Company's compensation policies and practices reasonably likely to have a material adverse effect on the Company.

Nominating Committee

The Nominating Committee assists in identifying individuals qualified to become members of the Board of Directors. Currently, the Nominating Committee consists of Messrs. Humphreys, Liebler and Wenzel, with Mr. Wenzel serving as the committee's Chairman. The Board of Directors has determined that each of the members of the Nominating Committee is independent within the meaning of the NASDAQ Stock Market director independence standards. The Nominating Committee held three meetings during Fiscal 2013.

POLICY FOR DIRECTOR RECOMMENDATIONS AND NOMINATIONS

The primary role of the Nominating Committee is to develop and recommend to the Board of Directors criteria for identifying and evaluating director candidates and to establish a procedure for consideration of director candidates recommended by our stockholders. The Nominating Committee periodically assesses the appropriate size of the Board of Directors and whether any vacancies are expected due to retirement or otherwise. In the event that vacancies are anticipated, the Nominating Committee seeks to identify and evaluate potential candidates at meetings of the Nominating Committee, which can take place at any point during the year.

Candidates may come to the attention of the Board of Directors through current members of the Board of Directors, professional search firms, stockholders or other parties. All candidates are evaluated based on a review of the individual's qualifications, skills, independence and expertise. The Nominating Committee will consider candidates submitted by stockholders as nominees for election as directors of the Company. Stockholders wishing to have the Nominating Committee consider a candidate should submit the name(s) and supporting information to Corporate Secretary, c/o Identive Group, Inc., 39300 Civic Center Drive, Suite 160, Fremont, California 94538, and should include the following information: (a) the name(s) and address(es) of the stockholder(s) making the recommendation and of the persons to be nominated; (b) a representation that the stockholder is a record holder of stock of the Company entitled to vote for the election of Directors on the date of such notice and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (c) a description of all arrangements or understandings between the stockholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the stockholder; (d) such other information regarding each nominee proposed by such stockholder as would be required to be included in the Proxy Statement filed pursuant to the proxy rules of the SEC, had the nominee been nominated, or intended to be nominated, by the Board of Directors; (e) the consent of each nominee to serve as a director of the Company if so elected; and (f) appropriate biographical information and a statement as to the qualifications of the candidate. Written notice of a nomination must be received by us within the timeframe described under *Stockholder Proposals for 2015 Annual Meeting of Stockholders* above.

As part of its selection process, the Nominating Committee may consider recommendations of director candidates with diverse backgrounds and experience who are expected to enhance the quality of the Board of Directors, serve stockholders' long-term interests and contribute to our overall corporate goals. Pursuant to our Corporate Governance Guidelines, we endeavor to have a Board of Directors representing diverse experience at policy-making levels in various areas that are relevant to our global activities. While the Nominating Committee has not established specific minimum criteria for candidates, the philosophy of the Nominating Committee is that directors should possess the highest personal and professional ethics, integrity and values, informed judgment, and sound business experience and be committed to representing the long-term interests of our stockholders. Candidates must also have an inquisitive and objective perspective, the ability to make independent analytical inquiries, practical wisdom and mature judgment. In evaluating candidates, the Nominating Committee may consider a candidate's work experience related to our business, general professional experience and overall expected contributions to the Board of Directors in relation to other directors already serving on the Board of Directors. When evaluating existing directors for nomination for re-election, the Nominating Committee may also consider the directors' past Board of Directors and committee meeting attendance and participation.

The Nominating Committee evaluates stockholder-recommended candidates using the same process and the same criteria it uses to evaluate candidates from other sources.

The Nominating Committee has the authority to retain outside counsel, experts, and other advisors as it determines appropriate to assist it in the full performance of its functions, including sole authority to retain and terminate any search firm used to identify director candidates, and to approve the search firm's fees and other retention terms.

CORPORATE GOVERNANCE

The Company and our Board of Directors regularly review and evaluate the Company's corporate governance practices. The Company's corporate governance documents are posted on the investor relations page of our website at www.identiv.com.

Corporate Governance Guidelines

The Board of Directors has adopted Corporate Governance Guidelines that assist the directors in following corporate practices that serve the best interests of the Company and its stockholders, including guidelines relating to board composition, director qualifications and selection process, director independence, board committees and auditor independence. The Corporate Governance Guidelines are available on the Corporate Governance page within the Investor Relations section of our website at www.identiv.com. The Nominating Committee and the Board of Directors review the Corporate Governance Guidelines annually and the Board of Directors may amend the Corporate Governance Guidelines at any time.

Insider Trading Policy

Under our Code of Conduct and Ethics, all employees are prohibited from using confidential information for stock trading purposes. To use material, non-public information for personal financial benefit or to tip others who might make an investment decision on the basis of this information is not only unethical and against Company policy, it is also illegal. We maintain an insider trading policy applicable to all of our Directors, officers, and employees, their family members, and specially designated outsiders who have access to the Company's material non-public information. This policy includes restrictions on the timing of transactions involving the Company's stock and establishes a Compliance Committee that must authorize all proposed stock trades by officers, directors and designated key employees. Sales of stock obtained through the exercise of stock options are subject to the restrictions of Company trading windows and blackout windows and must be pre-approved by a representative of the Compliance Committee.

Code of Conduct and Ethics

The Board of Directors has adopted a Code of Conduct and Ethics for all of our employees, including our Chief Executive Officer, Chief Financial Officer and any other principal accounting officer, and for the members of our Board of Directors. Our Code of Conduct and Ethics is posted on the Corporate Governance page within the Investor Relations section of our website, at www.identiv.com. The Board of Directors may amend the Code of Conduct and Ethics at any time and has the sole authority to approve any waiver of the Code of Conduct and Ethics relating to the activities of any of our senior financial officers, other executive officers and directors.

COMPENSATION OF DIRECTORS

During 2013, each non-employee member of our Board of Directors was eligible to receive compensation consisting of cash and options awards, which are further described below.

Annual Cash Compensation

During 2013, each non-employee member of our Board of Directors was eligible to receive cash compensation, payable quarterly, as detailed below. However, a director may elect to take, in lieu of cash, restricted stock units or stock under the Company's 2011 Incentive Compensation Plan (the 2011 Plan). Cash compensation for each eligible director included:

an annual retainer of \$25,000 paid in cash, or \$30,000 paid in stock (representing the cash fee amount plus a 20% uplift for agreeing to accept shares in lieu of cash);

beginning in May 2013, an additional annual retainer for service as Lead Director of the Board of Directors;

an additional annual retainer of \$5,000 for service on the Audit Committee of the Board of Directors, except for the committee Chairman, who is eligible to receive an annual retainer of \$10,000, with all amounts paid in cash or stock; and

an additional annual retainer of \$2,000 for service on the Compensation or Nominating Committees of the Board of Directors, except for the Chairman of such committees, each of whom is eligible to receive an annual retainer of \$4,000, with all amounts paid in cash or stock.

Additionally, the Company reimburses its non-employee directors for all reasonable out-of-pocket expenses incurred in the performance of their duties as directors, which in practice primarily consist of travel expenses associated with Board of Directors or committee meetings or with committee assignments.

Equity Compensation

During 2013, each of the Company's non-employee directors was eligible to receive option awards under the terms of the 2011 Plan. Under this plan, each new member of the Board of Directors is automatically granted an option to purchase 10,000 shares of Common Stock, or such other number of shares as determined by the Board of Directors in its sole discretion. Continuing members of the Board of Directors who have served for at least six months receive an annual option grant to purchase 20,000 shares of Common Stock on the date of our Annual Meeting of stockholders. Both of these option grants vest 1/12th per month over the one-year period following the date of grant.

Non-employee directors who served on the Strategic Committee were eligible to receive an option grant to purchase 5,000 shares of Common Stock each quarter, with such options granted at the end of each quarter and being fully vested at the date of grant. The Strategic Committee was dissolved as of April 15, 2014.

For directors who elect to receive shares in lieu of cash as payment for their service on the Board of Directors, such shares may not be sold for so long as such director serves on the Board of Directors except in exceptional circumstances and subject to the prior approval of the Compensation Committee.

If this proposal is approved by our stockholders, our Board of Directors will have the authority, without further action on the part of the stockholders, to implement the Reverse Stock Split at any ratio within the range set forth above by filing an amendment to the Restated Certificate with the Delaware Secretary of State. If this proposal is approved by our stockholders, we anticipate that the Reverse Stock Split will be implemented as soon as practicable following the Annual Meeting in order to meet the NASDAQ listing requirements discussed below in *Purpose and Background of the Reverse Stock Split*. We will not effect the Reverse Stock Split if our Board of Directors does not deem it to be in the best interests of the Company and its stockholders. If the amendment to the Restated Certificate has not been filed with the Delaware Secretary of State by the close of business on December 31, 2014, our Board of Directors will abandon the amendment and will not have the authority to implement the Reverse Stock Split without again seeking and obtaining approval from our stockholders.

Except for any changes as a result of the treatment of fractional shares, each stockholder will hold the same percentage of our outstanding Common Stock immediately after the Reverse Stock Split as such stockholder held immediately prior to the Reverse Stock Split. The Reverse Stock Split will not affect the number of shares of Common Stock authorized in the Restated Certificate, which is 130,000,000, and therefore the effect of the proposed Reverse Stock Split will be an increase in the authorized, but unissued, shares of Common Stock.

Purpose and Background of the Reverse Stock Split

The primary reason for implementing the Reverse Stock Split would be to increase the market price per share of our Common Stock. Our Board of Directors believes that a higher price per share would better enable us to maintain the listing of our Common Stock on the NASDAQ Capital Market. In addition, our Board of Directors believes that a higher price per share could result in an increased level of institutional stock ownership and provide us with better opportunities to raise capital to fund our operations, expand our business and execute our business plan.

Our Common Stock is currently listed on the NASDAQ Capital Market. There are a number of continued listing requirements that we must satisfy in order to maintain our listing on the NASDAQ Capital Market, including a requirement that our Common Stock maintain a closing price per share of at least \$1.00 (the Minimum Bid Price Rule). On June 11, 2013, we received notification from NASDAQ that we were not in compliance with the Minimum Bid Price Rule because the closing price of our Common Stock was below \$1.00 per share for the prior 30 consecutive business days. NASDAQ granted us 180 calendar days to regain compliance by attaining a closing bid price of at least \$1.00 for ten consecutive business days. We did not regain compliance with the Minimum Bid Rule and, on December 16, 2013, NASDAQ granted us an additional 180 days in which to achieve compliance with the Minimum Bid Price Rule. In return for the extension, we agreed to move the listing of our securities from the NASDAQ Global Market to the NASDAQ Capital Market, which move was effected on December 18, 2013.

To regain compliance, our Common Stock must close at or above the \$1.00 minimum bid price for at least 10 consecutive business days or more at the discretion of NASDAQ by June 9, 2014. If we do not regain

compliance by June 9, 2014 in accordance with terms of the notice, NASDAQ will provide written notice that our securities will be subject to delisting from the NASDAQ Capital Market on a date shortly after June 9, 2014. We may appeal that decision to a NASDAQ Listing Qualifications Panel in which case our securities will remain listed on the NASDAQ Capital Market pending a written decision by the Panel following a hearing. In the event that the NASDAQ Listing Qualifications Panel determines not to continue our listing and we are delisted from the NASDAQ Capital Market, our Common Stock will be delisted and will instead be traded on the OTC Bulletin Board or other small trading markets, such as the pink sheets.

Our Board of Directors believes that maintaining the listing of our Common Stock on the NASDAQ Capital Market is in the best interests of the Company and its stockholders. Delisting could adversely affect the liquidity of our Common Stock since alternatives, such as the OTC Bulletin Board and the pink sheets, are generally considered to be less efficient markets. Many investors likely would not buy or sell our Common Stock due to difficulty in accessing over-the-counter markets, policies preventing them from trading in securities not listed on a national exchange or other reasons. Further, maintaining our listing on the NASDAQ Capital Market may enhance our access to capital that is necessary to execute on our business plan and fund our operations.

Based on our current stock price, our Board of Directors believes that the Reverse Stock Split is an effective means for us to regain compliance with the Minimum Bid Price Rule by June 9, 2014. NASDAQ generally views reverse stock splits as the only definitive near-term plan to resolve a bid price deficiency.

Determination of Ratio

The ratio of the Reverse Stock Split, if approved and implemented, will be a ratio within the range of 1-for-3 and 1-for-10, as determined by our Board of Directors in its sole discretion. In determining the reverse stock split ratio, our Board of Directors will consider numerous factors including:

the historical and projected performance of our Common Stock;

prevailing market conditions;

general economic and other related conditions prevailing in our industry and in the marketplace;

the projected impact of the selected reverse stock split ratio on trading liquidity in our Common Stock and our ability to continue the Common Stock's listing on the NASDAQ Capital Market;

our capitalization (including the number of shares of Common Stock issued and outstanding);

the prevailing trading price for our Common Stock and the volume levels thereof; and

potential devaluation of our market capitalization as a result of a reverse stock split.

The purpose of asking for authorization to implement the Reverse Stock Split at a ratio to be determined by our Board of Directors, as opposed to a ratio fixed in advance, is to give our Board of Directors the flexibility to take into account then-current market conditions and changes in the price of our Common Stock and to respond to other developments that may be deemed relevant when considering the appropriate ratio.

Certain Risks Related to Reverse Stock Split

We cannot assure you that the Reverse Stock Split will increase our stock price and have the desired effect of maintaining compliance with NASDAQ Marketplace Rules.

Edgar Filing: IDENTIVE GROUP, INC. - Form PRE 14A

Our Board of Directors expects that the Reverse Stock Split of our Common Stock will increase the market price of our Common Stock so that we are able to regain and maintain compliance with the NASDAQ minimum bid price listing standard; however, the effect of a reverse stock split upon the market price of our Common Stock cannot be predicted with any certainty, and the history of similar stock splits for companies in like circumstances is varied. It is possible that the per share price of our Common Stock after the Reverse Stock Split

will not rise in proportion to the reduction in the number of shares of our Common Stock outstanding resulting from the Reverse Stock Split, and the market price per for our Common Stock following the Reverse Stock Split may not exceed or remain in excess of the \$1.00 minimum bid price for a sustained period of time, and the Reverse Stock Split may not result in a per share price that would attract brokers and investors who do not trade in lower priced stocks.

Our total market capitalization immediately after the Reverse Stock Split may be lower than immediately before the Reverse Stock Split.

There are numerous factors and contingencies that could affect our stock price following implementation of the Reverse Stock Split, including the status of the market for our stock at the time, our results of operations in future periods, and general economic, market and industry conditions. Accordingly, the market price of our Common Stock may not be sustainable at the direct arithmetic result of the Reverse Stock Split. If the market price of our Common Stock declines after the Reverse Stock Split, our total market capitalization (the aggregate value of all of our outstanding Common Stock at the then existing market price) after the split will be lower than before the split. Even if the market price for our Common Stock following the Reverse Stock Split remains in excess of \$1.00 per share, we may be delisted due to a failure to meet other continued listing requirements, including NASDAQ requirements related to the minimum number of shares that must be in the public float, the minimum market value of the public float and the minimum number of round lot holders.

The Reverse Stock Split may result in some stockholders owning odd lots that may be more difficult to sell or require greater transaction costs per share to sell.

The Reverse Stock Split may result in some stockholders owning odd lots of less than 100 shares of our Common Stock following the Reverse Stock Split. Odd Lots may be more difficult to sell, or require greater transaction costs per share to sell, than shares in round lots of even multiples of 100 shares.

The Reverse Stock Split may decrease the liquidity of our stock.

While our Board of Directors believes that a higher stock price may help generate investor interest, there can be no assurance that the Reverse Stock Split will result in a per share price that will attract institutional investors or investment funds or that such share price will satisfy the investing guidelines of institutional investors or investment funds. As a result, the trading liquidity of our Common Stock may not improve. In addition, investors might consider the increased proportion of unissued authorized shares to issued shares to have an anti-takeover effect under certain circumstances, since the proportion allows for dilutive issuances.

Principal Effects of the Reverse Stock Split

If the stockholders approve the proposal to authorize our Board of Directors to implement the Reverse Stock Split and our Board of Directors implements the Reverse Stock Split, we will amend our Restated Certificate to read as set forth in Annex A. If implemented, the Reverse Stock Split will be effected simultaneously for all issued and outstanding shares of Common Stock. The Reverse Stock Split will affect all holders of shares of our Common Stock uniformly and will not affect any stockholder's percentage ownership interests in the Company, except to the extent that the Reverse Stock Split results in any of our stockholders owning a fractional share. After the Reverse Stock Split, the shares of our Common Stock will have the same proportional voting rights and rights to dividends and distributions and will be identical in all other respects to our Common Stock now authorized. The Reverse Stock Split will not affect the Company continuing to be subject to the periodic reporting requirements of the Exchange Act. The Reverse Stock Split is not intended to be, and will not have the effect of, a going private transaction covered by Rule 13e-3 under the Exchange Act. Furthermore, because the number of shares of authorized Common Stock will not be affected, the Reverse Stock Split will result in an increase in the authorized, but unissued, shares of Common Stock.

The Reverse Stock Split will reduce the number of shares of Common Stock available for issuance under the Company's employee and director equity plans in proportion to the exchange ratio. Under the terms of the Company's outstanding equity awards, the Reverse Stock Split will cause a reduction in the number of shares of Common Stock issuable upon exercise or vesting of such awards in proportion to the exchange ratio of the Reverse Stock Split and will cause a proportionate increase in the exercise price of such awards to the extent they are stock options. The number of shares of Common Stock issuable upon exercise or vesting of outstanding equity awards will be rounded to the nearest whole share and no cash payment will be made in respect of such rounding.

The table below illustrates the number of shares of Common Stock authorized for issuance following the Reverse Stock Split, the approximate number of shares of our Common Stock that would remain outstanding following the Reverse Stock Split, the approximate number of shares of our Common Stock reserved for future issuance pursuant to the 2011 Plan and other existing contractual obligations following the Reverse Stock Split, and the number of unreserved shares of our Common Stock available for future issuance following the Reverse Stock Split. The information in the following table is based on the following information as of March 31, 2014: (i) 77,603,033 shares of our Common Stock issued and outstanding, (ii) 7,916,481 shares of our Common Stock reserved for future issuance pursuant to the 2011 Plan and (iii) 39,789,775 shares of our Common Stock reserved for other issuances, including issuances pursuant to outstanding warrants and obligations under purchase agreements.

Exchange of Stock Certificates

The combination of, and reduction in, the number of shares of our outstanding common stock as a result of the Reverse Stock Split will occur automatically and without any action on the part of our stockholders on the date that the amendment to the Restated Certificate effecting the Reverse Stock Split is filed with the Delaware Secretary of State (the Effective Date).

As soon as practicable after the Effective Date, our transfer agent, acting as our exchange agent for purposes of implementing the exchange of certificates, will mail each stockholder of record a transmittal form accompanied by instructions specifying other details of the exchange. Upon receipt of the transmittal form, each stockholder should surrender the certificates representing our Common Stock prior to the Reverse Stock Split in accordance with the applicable instructions. Each holder who surrenders certificates will receive new certificates representing the whole number of shares of our Common Stock that he or she holds as a result of the Reverse Stock Split. New certificates will not be issued to a stockholder until the stockholder has surrendered his or her outstanding certificate(s) together with the properly completed and executed transmittal form to the exchange agent.

If your shares are held in an account at a brokerage firm or financial institution, which is commonly referred to as your shares being held in street name, then you are the beneficial owner of those shares and the brokerage

firm or financial institution holding your account is considered to be the stockholder of record. We intend to treat stockholders holding common stock in street name in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding common stock in street name. However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your bank, broker or nominee.

Any stockholder whose certificate has been lost, destroyed or stolen will be entitled to a new certificate only after complying with the requirements that we and our transfer agent customarily apply in connection with replacing lost, stolen or destroyed certificates.

No service charges, brokerage commissions or transfer taxes shall be payable by any holder of any old certificate, except that if any new certificate is to be issued in a name other than that in which the old certificate(s) are registered, it will be a condition of such issuance that (i) the person requesting such issuance must pay to us any applicable transfer taxes or establish to our satisfaction that such taxes have been paid or are not payable, (ii) the transfer complies with all applicable federal and state securities laws, and (iii) the surrendered certificate is properly endorsed and otherwise in proper form for transfer.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATES AND SHOULD NOT SUBMIT THEIR STOCK CERTIFICATES UNTIL THEY RECEIVE A TRANSMITTAL FORM FROM OUR TRANSFER AGENT.

Fractional Shares

No fractional shares will be issued in connection with the Reverse Stock Split. Stockholders of record who otherwise would be entitled to receive a fractional share of Common Stock as a consequence of the Reverse Stock Split will, upon the submission of a transmission letter by a stockholder holding the shares in book-entry form and, where shares are held in certificated form upon surrender to the exchange agent of certificates representing such shares, be entitled to receive cash in an amount equal to the product obtained by multiplying (i) the closing sale price of our Common Stock on the business day immediately preceding the effective date of the Reverse Stock Split as reported on the NASDAQ Capital Market by (ii) the number of shares of our Common Stock held by the stockholder that would otherwise have been exchanged for the fractional share interest.

Stockholders should be aware that, under the escheat laws of the various jurisdictions where stockholders reside, where the Company is domiciled, and where the funds will be deposited, sums due for fractional interests that are not timely claimed after the effective date of the Reverse Stock Split may be required to be paid to the designated agent for each such jurisdiction, unless correspondence has been received by the Company or the exchange agent concerning ownership of such funds within the time permitted in such jurisdiction. Thereafter, stockholders otherwise entitled to receive such funds will have to seek to obtain them directly from the state to which they were paid.

Accounting Matters

The par value of our Common Stock will remain unchanged at \$0.001 per share after the Reverse Stock Split. As a result, our stated capital, which consists of the par value per share of the Common Stock multiplied by the aggregate number of shares of the Common Stock issued and outstanding, will be reduced proportionately at the effective time of the Reverse Stock Split. Correspondingly, our additional paid-in capital, which consists of the difference between our stated capital and the aggregate amount paid to us upon the issuance of all currently outstanding shares of Common Stock, will be increased by a number equal to the decrease in stated capital. Further, net loss per share, book value per share, net income and other per share amounts will be increased as a result of the Reverse Stock Split because there will be fewer shares of Common Stock outstanding.

No Dissenters Rights

Under the General Corporation Law of the State of Delaware, our stockholders will not be entitled to dissenters rights with respect to the Reverse Stock Split, and we do not intend to independently provide stockholders with any such right.

Material United States Federal Income Tax Consequences of the Reverse Stock Split

The following discussion describes the material United States Federal income tax consequences to U.S. holders (as defined below) of Company Common Stock relating to the Reverse Stock Split. This discussion is based upon the Internal Revenue Code of 1986, as amended (the Code), Treasury Regulations, judicial authorities, published positions of the Internal Revenue Service (IRS), and other applicable authorities, all as currently in effect and all of which are subject to change or differing interpretations (possibly with retroactive effect). We have not obtained a ruling from the IRS or an opinion of legal or tax counsel with respect to the tax consequences of the Reverse Stock Split. The following discussion is for informational purposes only and is not intended as tax or legal advice. Each holder should seek advice based on the holder's particular circumstances from an independent tax advisor.

For purposes of this discussion, the term U.S. holder means a beneficial owner of Company Common Stock that is for United States Federal income tax purposes:

an individual citizen or resident of the United States;

a corporation (or other entity treated as a corporation for U.S. Federal income tax purposes) organized under the laws of the United States, any state, or the District of Columbia;

an estate with income subject to United States Federal income tax regardless of its source; or

a trust that (a) is subject to primary supervision by a United States court and for which United States persons control all substantial decisions or (b) has a valid election in effect under applicable Treasury Regulations to be treated as a United States person.

This discussion assumes that a U.S. holder holds Company Common Stock as a capital asset within the meaning of Code Section 1221. This discussion does not address all of the tax consequences that may be relevant to a particular Company stockholder or to Company stockholders that are subject to special treatment under United States Federal income tax laws including, but not limited to, banks, financial institutions, tax-exempt organizations, insurance companies, regulated investment companies, real estate investment trusts, persons that are broker-dealers, traders in securities who elect the mark-to-market method of accounting for their securities, certain former citizens or long-term residents of the U.S., or Company stockholders holding their shares of Company Common Stock as part of a straddle, hedge, conversion transaction, or other integrated transaction. This discussion also does not address the tax consequences to the Company, or to Company stockholders that own 5% or more of our Common Stock, are affiliates of the Company, or are not U.S. holders. In addition, this discussion does not address other United States Federal taxes (such as gift or estate taxes or alternative minimum taxes), the tax consequences of the Reverse Stock Split under state, local, or foreign tax laws or certain tax reporting requirements that may be applicable with respect to the Reverse Stock Split. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences set forth below.

If a partnership (or other entity treated as a partnership for United States Federal income tax purposes) is a Company stockholder, the tax treatment of a partner in the partnership, or any equity owner of such other entity will generally depend upon the status of the person and the activities of the partnership or other entity treated as a partnership for United States Federal income tax purposes.

Tax Consequences of the Reverse Stock Split Generally

We believe that the Reverse Stock Split will qualify as a reorganization under Section 368(a)(1)(E) of the Code, with the following consequences:

A U.S. holder will not recognize any gain or loss as a result of the Reverse Stock Split (except to the extent of cash received in lieu of a fractional share).

A U.S. holder's aggregate tax basis of such U.S. holder's post-Reverse Stock Split shares will be equal to the aggregate tax basis in the pre-Reverse Stock Split shares exchanged therefor, reduced by the amount of the adjusted basis of any pre-Reverse Stock Split shares exchanged for such post-Reverse Stock Split shares that is allocated to any fractional share for which cash is received.

A U.S. holder's holding period for the post-Reverse Stock Split shares will include the period during which such stockholder held the pre-Reverse Stock Split shares surrendered in the Reverse Stock Split.

Cash Received Instead of a Fractional Share

A U.S. holder who receives cash instead of a fractional share of post-Reverse Stock Split shares will be treated as having received the fractional share of post-Reverse Stock Split shares pursuant to the Reverse Stock Split and then as having exchanged the fractional share of post-Reverse Stock Split shares for cash in a transaction treated as a sale of the shares. Gain or loss generally will be recognized based on the difference between the amount of cash received and the portion of the U.S. holder's adjusted tax basis of the pre-Reverse Stock Split shares exchanged in the Reverse Stock Split which is allocable to such fractional share. Such gain or loss generally will be long-term capital gain or loss if the U.S. holder's holding period for such pre-Reverse Stock Split shares is more than one year as of the effective date of the Reverse Stock Split, and otherwise will be short-term capital gain or loss.

Information Reporting and Backup Withholding

Cash payments received by a U.S. holder of Company Common Stock pursuant to the Reverse Stock Split are subject to information reporting, and may be subject to backup withholding at the applicable rate specified by the U.S. Internal Revenue Service (currently 28%) if the holder fails to provide a valid taxpayer identification number and comply with certain certification procedures or otherwise establish an exemption from backup withholding. Backup withholding is not an additional United States Federal income tax. Rather, the U.S. Federal income tax liability of the person subject to backup withholding will be reduced by the amount of the tax withheld. If backup withholding results in an overpayment of taxes, a refund may be obtained provided that the required information is timely furnished to the IRS.

STOCKHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES TO THEM OF THE REVERSE STOCK SPLIT, INCLUDING THE APPLICABILITY OF ANY STATE, LOCAL, GIFT, OR FOREIGN TAX LAWS, CHANGES IN APPLICABLE TAX LAWS, AND ANY PENDING OR PROPOSED LEGISLATION OR AUTHORITY.

Vote Required and Board of Directors Recommendation

Approval of the amendment to our Restated Certificate to effect the Reverse Stock Split requires a **FOR** vote of at least a majority of the Common Stock outstanding and entitled to vote on this proposal. Abstentions and broker non-votes (to the extent a broker does not exercise its authority to vote) will be counted towards the vote total for this proposal and will have the same effect as **against** votes.

Recommendation of the Board of Directors

The Board of Directors believes that Proposal No. 2 is in the best interests of the Company and our stockholders and recommends a vote FOR the resolution authorizing the Board of Directors to effect the Reverse Stock Split of our Common Stock at a ratio within the range of 1-for-3 to 1-for-10.

PROPOSAL NO. 3

APPROVAL OF AMENDMENT TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

Our Board of Directors has approved, and is asking the stockholders to approve, an amendment to our Restated Certificate to increase the number of shares of Common Stock authorized for issuance by 15,000,000, from 130,000,000 to 145,000,000 (the Share Increase). The number of shares of Preferred Stock authorized for issuance under our Certification of Incorporation would remain unchanged at 10,000,000 shares.

As of March 31, 2014, 77,603,033 shares of our Common Stock have been issued and are outstanding. In addition, an aggregate of 47,706,256 shares of Common Stock have been reserved for issuance as follows: (i) 15,641,617 shares under our existing incentive programs, (ii) 19,933,047 under outstanding warrants, (iii) 2,035,691 shares under agreements and option plans assumed in the acquisition of Bluehill ID AG, (iv) 1,261,421 shares to be issued to remaining Bluehill ID AG stockholders, 4,409,701 shares for future issuance to Lincoln Park Capital under a purchase agreement, and 4,424,779 shares for contingent consideration related to the acquisition of idOnDemand, Inc.. 4,690,711 shares of our Common Stock remain available for future issuances.

Even if our stockholders approve the increase in the number of authorized shares of Common Stock pursuant to this Proposal No. 3, the Company reserves the right not to effect the increase if, in the opinion of the Board of Directors, it would not be in the best interests of the Company and its stockholders. **In the event Proposal No. 2 relating to the Reverse Stock Split is approved and adopted, we will not effect the increase in the authorized shares of Common Stock pursuant to this Proposal No. 3.**

After evaluating the number of authorized shares of Common Stock issued and outstanding and the number reserved for issuance, our Board of Directors has determined that the current number of authorized shares of Common Stock unreserved and available for issuance may not be sufficient to allow the Company to take future corporate actions that it believes are necessary to our growth and success and in the best interests of the Company and its stockholders.

The increase in authorized shares of Common Stock would provide the Company with additional flexibility in considering and planning for future corporate needs, including but not limited to: (i) selling shares of Common Stock for cash, (ii) continuing the issuance of additional equity-based compensation awards under the 2011 Plan, and any amendment thereto, and (iii) potential strategic transactions. The Company might also use the additional shares to discourage a third-party transaction providing an above market premium that is favored by a majority of the independent stockholders. If the proposed increase in the amount of authorized shares of Common Stock is approved, the shares of Common Stock could be issued by action of our Board of Directors, at any time and for any purpose, without the expense and delay of further approval or action by the stockholders, subject to the provisions of our Restated Certificate and other applicable legal requirements. If the proposed increase in the amount of authorized shares of Common Stock is not approved, the Company will not be able to raise additional funds through the sale of its Common Stock or securities convertible into or exchangeable for Common Stock, as may be required. The Company currently plans to issue shares of Common Stock in connection with our equity-based compensation plans. We may also attempt to raise additional funds through the sale of Common Stock or securities convertible into or exchangeable for Common Stock at some future time, if possible. There are no current plans or arrangements regarding any offering.

Our Board of Directors believes that the Share Increase is necessary to ensure that the Company has sufficient shares available to support various future corporate actions and is asking the stockholders to vote in favor of the Share Increase to increase the number of authorized shares of our Common Stock from 130,000,000 shares to 145,000,000 shares. The full text of the proposed amendment to the Restated Certificate to effect the Share Increase is set forth in Annex A.

Required Vote

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock is required for approval of the Share Increase described above. As a result, abstentions and broker non-votes will have the same effect as voting against the proposal. If stockholders do not approve this Share Increase, then the current amount of Common Stock authorized for issuance under the Restated Certificate will remain unchanged.

Recommendation of the Board of Directors

The Board of Directors believes that Proposal No. 3 is in the best interests of the Company and our stockholders and recommends a vote FOR the amendment to increase the number of authorized shares of Common Stock.

PROPOSAL NO. 4

APPROVAL OF AMENDMENT TO CHANGE THE NAME OF THE COMPANY FROM

IDENTIVE GROUP, INC. TO IDENTIV, INC.

Purpose and Rationale for the Proposed Amendment

Our Board of Directors has approved and is recommending that our stockholders approve an amendment to the Restated Certificate to change the name of the Company from Identive Group, Inc. to Identiv, Inc. (the Name Change). Following the realignment of our organizational structure in Q1 2014 to operate as a single, unified company rather than as a group of individual businesses, we adopted a new corporate identity using the word mark and logo Identiv in place of Identive Group . Our Board of Directors believes that it is the best interests of the Company and our stockholders to change our name to be consistent with our corporate identity.

Effect of the Proposed Amendment

If the Name Change is approved by our stockholders, we intend to promptly file a Certificate of amendment to our Restated Certificate with the Delaware Secretary of State amending Article 1 of our Restated Certificate to read in its entirety as follows: The name of this corporation is Identiv, Inc. (hereinafter sometimes referred to as the Corporation).

If approved by the stockholders, the name change will not alter the terms or rights of holders of Common Stock, change the number of shares held, or affect the validity or transferability of any existing stock certificates that bear the name Identive Group, Inc. Stockholders with certificated shares should continue to hold their existing stock certificates. Direct registration accounts and any new stock certificates that are issued after the name change becomes effective will bear the name Identiv, Inc.

If the Name Change is not approved by the stockholders, the Article I of the Restated Certificate will not be amended and the name of the Company will remain Identive Group, Inc.

Required Vote

The affirmative vote of the holders of a majority of the outstanding shares of Common Stock is required for approval of the amendment to our Restated Certificate described above. As a result, abstentions and broker non-votes will have the same effect as voting against the proposal. If stockholders do not approve this amendment to our Restated Certificate, then the name of the Company under the Restated Certificate will remain unchanged.

Recommendation of the Board of Directors

The Board of Directors believes that Proposal No. 4 is in the best interests of the Company and our stockholders and recommends a vote FOR the amendment to change the name of the Company to Identiv, Inc.

PROPOSAL NO. 5

**APPROVAL OF AMENDMENT TO INCREASE NUMBER OF SHARES RESERVED FOR
ISSUANCE UNDER THE COMPANY'S 2011 INCENTIVE COMPENSATION PLAN**

The Company's stockholders are being asked to approve an amendment to the Company's 2011 Incentive Compensation Plan (the "2011 Plan"), which was adopted, subject to stockholder approval, by the Board of Directors on April 7, 2011 and approved by the Company's stockholders on June 6, 2011. The proposed amendment would increase the number of shares of Common Stock reserved for issuance under the 2011 Plan by an additional 5,000,000 shares, to an aggregate of 13,599,561 shares. The 2011 Plan is the primary plan from which the Company may grant equity-based awards to our employees, officers, directors and consultants.

Background

An aggregate of 8,599,561 shares of our Common Stock have been authorized for issuance under the 2011 Plan, including the shares that remained available for issuance under our 2007 Stock Option Plan and 2010 Bonus and Incentive Plan at the time of those plans' termination. As of March 31, 2014, a total of 2,813 shares had been exercised and issued under the 2011 Plan; 6,985,788 shares remained subject to outstanding stock options under the 2011 Plan, with a weighted average exercise price of \$0.9046 per share and a weighted average remaining term of approximately 8.61 years; 680,267 shares remained subject to unvested restricted stock unit awards; and 930,693 shares remained available for the future grant of equity-based awards under the 2011 Plan. The closing market price on the NASDAQ Stock Market for a share of our Common Stock on March 31, 2014 was \$1.13 per share. Unless earlier terminated by the Board of Directors, the 2011 Plan will terminate on April 7, 2021, the tenth anniversary of its initial adoption.

Summary of the Proposal

Our Board of Directors approved an amendment to the 2011 Plan on April 15, 2014, subject to approval by our stockholders at the Annual Meeting, that increases by 5,000,000 the aggregate maximum number of shares that may be issued under the 2011 Plan.

As part of our overall compensation program, the Company grants equity-based compensation awards to our employees, officers, directors and consultants at the time of engagement, annually, and in certain other circumstances. We believe that these awards are an important component of compensation in the technology industry, as they provide the opportunity to acquire or increase a proprietary interest in the Company and encourage recipients to expend their maximum efforts in the creation of stockholder value. We believe this amendment reflects best practices in our industry and allows the establishment of a stronger pay-for-performance culture.

With only 930,693 shares remaining available for the future grant of equity-based awards as of March 31, 2014, we believe we will not be able to continue to offer competitive equity packages to retain our current employees and hire new employees in fiscal year 2014 and future years. This could significantly hamper our plans for growth and adversely affect our ability to operate our business. In addition, if we were unable to grant competitive equity awards, we may be required to offer additional cash-based incentives to replace equity as a means of competing for talent. This could have a significant effect upon our quarterly results of operations and balance sheet and not be competitive with other companies that offer equity. Based upon our review of our current and anticipated equity award requirements, we believe that the authorization of an additional 5,000,000 shares under the 2011 Plan will provide us with enough shares to continue to offer competitive equity compensation through fiscal year 2015.

If our stockholders do not approve this 2011 Plan proposal, then the current share limits under, and other terms and conditions of, the 2011 Plan will continue in effect for its existing term.

Summary Description of the 2011 Plan

The principal terms of the 2011 Plan are summarized below. The following summary is qualified in its entirety by the full text of the 2011 Plan, which appears (as proposed to be amended) as Annex B to this Proxy Statement.

General

The purpose of the 2011 Plan is to assist the Company in attracting, motivating, retaining and rewarding high-quality employees, officers, directors and consultants with annual and long-term performance equity awards. Our current growth strategy is largely dependent upon the services of our executive officers, directors and key personnel. These incentives may be provided through the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, bonus share awards, performance shares, performance units, other stock-based awards and dividend equivalent awards.

Shares Available for Awards

As amended, an aggregate total of 13,599,561 shares of Common Stock would be cumulatively authorized for issuance under the 2011 Plan, of which 5,930,693 shares would have remained available for grant as of March 31, 2014 had the proposed amendment been effective at that time. In addition, to comply with applicable tax rules, the 2011 Plan also limits to 5,000,000 the number of shares that may be issued upon the exercise of incentive stock options granted under the 2011 Plan.

Share Counting

The number of shares remaining available for grant at any time will be increased by the number of shares of Common Stock with respect to which awards previously granted under the 2011 Plan that are forfeited, expire or otherwise terminate without issuance of shares of Common Stock, or that are settled for cash or otherwise do not result in the issuance of shares of Common Stock, and the number of shares of Common Stock that are tendered (either actually or by attestation) or withheld upon exercise of an award to pay the exercise price or any tax withholding requirements will not reduce the number of shares remaining available for grant. Awards issued in substitution for awards previously granted by a company acquired by the Company or a Related Entity, or with which the Company or any Related Entity combines, do not reduce the limit on grants of awards under the Plan.

Annual Per-Person Limitations

The 2011 Plan imposes individual limitations on the amount of certain awards in part to comply with Code Section 162(m). Under these limitations, during any fiscal year of the Company, no participant may be granted (i) stock options or stock appreciation rights with respect to more than 500,000 shares of Common Stock, or (ii) shares of restricted stock, restricted stock units, performance shares and other stock based-awards with respect to more than 500,000 shares of Common Stock, in each case, subject to adjustment in certain circumstances. The maximum amount that may be paid out as performance units with respect to any 12-month performance period is \$3,000,000 (pro-rated for any 12-month performance period that is less than 12 months), and with respect to any performance period that is more than 12 months, \$3,000,000 multiplied by the number of full 12-month periods that are in the performance period.

Adjustments for Capital Structure Changes

A committee designated by the Board of Directors consisting of not less than two directors (the *Committee*) will make appropriate adjustments to the number of shares authorized under the 2011 Plan and the limitations described in the preceding paragraph and to outstanding awards (including adjustments to exercise prices of options and other affected terms of awards) in the event that a dividend or other distribution (whether in cash, shares of Common Stock or other property), recapitalization, forward or reverse split, reorganization,

merger, consolidation, spin-off, combination, repurchase, share exchange or other similar corporate transaction or event affects the Common Stock. The Compensation Committee is also authorized to adjust performance conditions and other terms of awards in response to these kinds of events or in response to changes in applicable laws, regulations or accounting principles.

Eligibility

The persons eligible to receive awards under the 2011 Plan are the officers, directors, employees, consultants and other persons who provide services to the Company or any Related Entity. The foregoing notwithstanding, only employees of the Company, or any parent corporation or subsidiary corporation of the Company (as those terms are defined in Sections 424(e) and (f) of the Code, respectively), are eligible for purposes of receiving any incentive stock options (ISOs). An employee on leave of absence may be considered as still in the employ of the Company or a Related Entity for purposes of eligibility for participation in the 2011 Plan.

Administration

The 2011 Plan is administered by the Compensation Committee, provided, however, that except as otherwise expressly provided in the Plan, the Board may exercise any power or authority granted to the Compensation Committee under the 2011 Plan. Subject to the terms of the 2011 Plan, the Compensation Committee is authorized to select eligible persons to receive awards, determine the type, number and other terms and conditions of, and all other matters relating to, awards, prescribe award agreements (which need not be identical for each Participant), and the rules and regulations for the administration of the 2011 Plan, construe and interpret the 2011 Plan and award agreements, correct defects, supply omissions or reconcile inconsistencies therein, and make all other decisions and determinations as the Compensation Committee may deem necessary or advisable for the administration of the 2011 Plan.

Stock Options and Appreciation Rights

The Compensation Committee is authorized to grant stock options, including ISOs, which can result in potentially favorable tax treatment to the participant, and non-qualified stock options, and stock appreciation rights entitling the participant to receive the amount by which the fair market value of a share of Common Stock on the date of exercise exceeds the grant price of the stock appreciation right. The exercise price per share subject to an option and the grant price of a stock appreciation right are determined by the Compensation Committee, provided that the exercise price per share of an ISO shall be no less than 100% of the fair market value of a share of Common Stock on the date such option is granted. An option granted to a person who owns or is deemed to own stock representing 10% or more of the voting power of all classes of stock of the Company or any parent company (sometimes referred to as a 10% owner) will not qualify as an ISO unless the exercise price for the option is not less than 110% of the fair market value of a share of Common Stock on the date such ISO is granted.

For purposes of the 2011 Plan, the term fair market value means the fair market value of Common Stock, awards or other property as determined by the Compensation Committee or under procedures established by the Compensation Committee. Unless otherwise determined by the Compensation Committee, the fair market value of Common Stock as of any given date is the closing sales price per share of Common Stock as reported on the principal stock exchange or market on which Common Stock is traded on the date as of which such value is being determined or, if there is no sale on that date, then on the last previous day on which a sale was reported.

The maximum term of each option or stock appreciation right, the times at which each option or stock appreciation right will be exercisable, and provisions requiring forfeiture of unexercised options or stock appreciation rights at or following termination of employment generally are fixed by the Compensation Committee, except that no option or stock appreciation right may have a term exceeding ten years, and no ISO

granted to a 10% stockholder (as described above) may have a term exceeding five years (to the extent required by the Code at the time of grant). Methods of exercise and settlement and other terms of options and stock appreciation rights are determined by the Compensation Committee. The Compensation Committee, thus, may permit the exercise price of options awarded under the Plan to be paid in cash, shares, other awards or other property (including loans to participants).

Automatic Options for Non-Employee Directors and Stock in Lieu of Fees

The 2011 Plan provides that in addition to any other options that non-employee directors may be granted, non-employee directors will automatically be granted options as follows: (i) an initial grant on the date Board service begins of options to acquire that number of shares as determined by the Board of Directors or, if no amount is established by the Board, to acquire 10,000 shares and (ii) annual grants on the date of re-election at an annual meeting of options to acquire that number of shares as determined by the Board of Directors or, if no amount is established by the Board, 5,000 shares. Initial and annual grants will vest as to one-twelfth (1/12th) of the total award each month so that the option is fully vested on the first anniversary of the grant. If an optionholder's status as director terminates for any reason other than death, he or she will have 90 calendar days to exercise his or her options (to the extent that the optionholder was entitled to exercise such options as of the date of such termination). If an optionholder's status as director terminates due to death, his or her estate will have twelve months to exercise his or her options (to the extent that the optionholder was entitled to exercise such options as of the date of such termination).

In addition, the Compensation Committee may grant shares of Common Stock or other awards in lieu of Company obligations to pay cash under any compensatory arrangements, including the payment of fees to directors for their service on the Board of Directors, subject to such terms as the Compensation Committee may specify.

Restricted Stock and Restricted Stock Units

The Compensation Committee is authorized to grant restricted stock and restricted stock units. Restricted stock is a grant of shares of Common Stock which may not be sold or disposed of until vested, and which is subject to such risks of forfeiture and other restrictions as the Compensation Committee may impose. A participant granted restricted stock generally has all of the rights of a stockholder of the Company, unless otherwise determined by the Compensation Committee. An award of restricted stock units confers upon a participant the right to receive shares of Common Stock or cash equal to the fair market value of the specified number of shares of Common Stock covered by the restricted stock units at the end of a specified deferral period, subject to such risks of forfeiture and other restrictions as the Compensation Committee may impose. Prior to settlement, an award of restricted stock units carries no voting or dividend rights or other rights associated with share ownership, although dividend equivalents may be granted, as discussed below.

Dividend Equivalents

The Compensation Committee is authorized to grant dividend equivalents conferring on participants the right to receive, currently or on a deferred basis, cash, shares of Common Stock, other awards or other property equal in value to dividends paid on a specific number of shares of Common Stock or other periodic payments. Dividend equivalents may be granted alone or in connection with another award, may be paid currently or on a deferred basis and, if deferred, may be deemed to have been reinvested in additional shares of Common Stock, awards or otherwise as specified by the Compensation Committee.

Bonus Stock and Awards in Lieu of Cash Obligations

The Compensation Committee is authorized to grant shares of Common Stock as a bonus free of restrictions, or to grant shares of Common Stock or other awards in lieu of Company obligations to pay cash under the 2011 Plan or other plans or compensatory arrangements, subject to such terms as the Compensation Committee may specify.

Other Stock-Based Awards

The Compensation Committee or the Board is authorized to grant awards that are denominated or payable in, valued by reference to, or otherwise based on or related to shares of Common Stock. The Compensation Committee determines the terms and conditions of such awards.

Performance Awards

The Compensation Committee is authorized to grant performance awards to participants on terms and conditions established by the Compensation Committee. The performance criteria to be achieved during any performance period and the length of the performance period is determined by the Compensation Committee upon the grant of the performance award. Performance awards may be valued by reference to a designated number of Shares (in which case they are referred to as performance shares) or by reference to a designated amount of property including cash (in which case they are referred to as performance units). Performance awards may be settled by delivery of cash, shares of Common Stock or other property, or any combination thereof, as determined by the Compensation Committee. Performance awards granted to persons whom the Compensation Committee expects will, for the year in which a deduction arises, be covered employees (as defined below) will, if and to the extent intended by the Compensation Committee, be subject to provisions that should qualify such awards as performance-based compensation not subject to the limitation on tax deductibility by the Company under Code Section 162(m). For purposes of Section 162(m), the term covered employee means the Company's chief executive officer and each other person whose compensation is required to be disclosed in the Company's filings with the SEC by reason of that person being among the three highest compensated officers of the Company (other than the Company's chief executive officer or principal financial officer) as of the end of a taxable year. If and to the extent required under Section 162(m) of the Code, any power or authority relating to a performance award intended to qualify under Section 162(m) of the Code is to be exercised by the Compensation Committee and not the Board.

If and to the extent that the Compensation Committee determines that these provisions of the 2011 Plan are to be applicable to any award, one or more of the following business criteria for the Company, on a consolidated basis, and/or for Related Entities, or for business or geographical units of the Company and/or a Related Entity (except with respect to the total stockholder return and earnings per share criteria), are to be used by the Compensation Committee in establishing performance goals for awards under the 2011 Plan: (1) earnings per share; (2) revenues or margins; (3) cash flow; (4) operating margin; (5) return on net assets, investment, capital, or equity; (6) economic value added; (7) direct contribution; (8) net income; pretax earnings; earnings before interest and taxes; earnings before interest, taxes, depreciation and amortization; earnings after interest expense and before extraordinary or special items; operating income or income from operations; income before interest income or expense, unusual items and income taxes, local, state or federal and excluding budgeted and actual bonuses which might be paid under any ongoing bonus plans of the Company; (9) working capital; (10) management of fixed costs or variable costs; (11) identification or consummation of investment opportunities or completion of specified projects in accordance with corporate business plans, including strategic mergers, acquisitions or divestitures; (12) total stockholder return; (13) debt reduction; (14) market share; (15) entry into new markets, either geographically or by business unit; (16) customer retention and satisfaction; (17) strategic plan development and implementation, including turnaround plans; and/or (18) the fair market value of a share of Common Stock. Any of the above goals may be determined on an absolute or relative basis (e.g. growth in earnings per share) or as compared to the performance of a published or special index deemed applicable by the Compensation Committee including, but not limited to, the Standard & Poor's 500 Stock Index or a group of companies that are comparable to the Company. The Compensation Committee may exclude the impact of an event or occurrence which the Compensation Committee determines should appropriately be excluded, including without limitation (i) restructurings, discontinued operations, extraordinary items (as defined pursuant to generally accepted accounting principles), and other unusual or non-recurring charges; (ii) an event either not directly related to the operations of the Company or not within the reasonable control of the Company's management; (iii) a change in accounting standards required by generally accepted accounting principles; or (iv) such other exclusions or adjustments as the Compensation Committee specifies at the time the award is granted.

The Compensation Committee may, in its discretion, determine that the amount payable as a performance award will be reduced from the amount of any potential award.

Other Terms of Awards

Awards may be settled in the form of cash, shares of Common Stock, other awards or other property, in the discretion of the Compensation Committee. The Compensation Committee may require or permit participants to defer the settlement of all or part of an award in accordance with such terms and conditions as the Compensation Committee may establish, including payment or crediting of interest or dividend equivalents on deferred amounts, and the crediting of earnings, gains and losses based on deemed investment of deferred amounts in specified investment vehicles. The Compensation Committee is authorized to place cash, shares of Common Stock or other property in trusts or make other arrangements to provide for payment of the Company's obligations under the 2011 Plan. The Compensation Committee may condition any payment relating to an award on the withholding of taxes and may provide that a portion of any shares of Common Stock or other property to be distributed will be withheld (or previously acquired shares of Common Stock or other property be surrendered by the participant) to satisfy withholding and other tax obligations. Awards granted under the 2011 Plan generally may not be pledged or otherwise encumbered and are not transferable except by will or by the laws of descent and distribution, or to a designated beneficiary upon the participant's death, except that the Compensation Committee may, in its discretion, permit transfers, subject to any terms and conditions the Compensation Committee may impose thereon.

Awards under the 2011 Plan are generally granted without a requirement that the participant pay consideration in the form of cash or property for the grant (as distinguished from the exercise), except to the extent required by law. The Compensation Committee may, however, grant awards in exchange for other awards under the 2011 Plan, awards under other Company plans, or other rights to payment from the Company, and may grant awards in addition to and in tandem with such other awards, rights or other awards.

Acceleration of Vesting; Change in Control

The Compensation Committee may, in its discretion, accelerate the exercisability, the lapsing of restrictions or the expiration of deferral or vesting periods of any award, and such accelerated exercisability, lapse, expiration and vesting shall occur automatically in the case of a change in control of the Company, as defined in the 2011 Plan (including the cash settlement of stock appreciation rights which may be exercisable in the event of a change in control). In addition, the Compensation Committee may provide in an award agreement that the performance goals relating to any performance award will be deemed to have been met upon the occurrence of any change in control.

Amendment and Termination

The Board of Directors may amend, alter, suspend, discontinue or terminate the 2011 Plan or the Compensation Committee's authority to grant awards without further stockholder approval (including in a manner adverse to the rights of a participant under an outstanding award), except that stockholder approval must be obtained for any amendment or alteration if such approval is required by law or regulation or under the rules of any stock exchange or quotation system on which shares of Common Stock are then listed or quoted. Thus, stockholder approval may not necessarily be required for every amendment to the 2011 Plan which might increase the cost of the 2011 Plan or alter the eligibility of persons to receive awards. Stockholder approval will not be deemed to be required under laws or regulations, such as those relating to ISOs, that condition favorable treatment of participants on such approval, although the Board may, in its discretion, seek stockholder approval in any circumstance in which it deems such approval advisable. Unless earlier terminated by the Board, the 2011 Plan, as amended, will terminate at the earliest of (a) such time as no shares of Common Stock remain available for issuance under the 2011 Plan, (b) termination of the 2011 Plan by the Board of Directors, or (c) the tenth anniversary of the date of the Annual Meeting. Awards outstanding upon expiration of the 2011 Plan shall remain in effect until they have been exercised or terminated, or have expired.

Summary of Federal Income Tax Consequences of Awards

The following summary is intended only as a general guide to the U.S. federal income tax consequences of participation in the 2011 Plan and does not attempt to describe all possible federal or other tax consequences of such participation or tax consequences based on particular circumstances. The 2011 Plan is not qualified under the provisions of section 401(a) of the Code and is not subject to any of the provisions of the Employee Retirement Income Security Act of 1974.

Nonqualified Stock Options

An optionholder generally is not taxable upon the grant of a nonqualified stock option granted under the 2011 Plan. On exercise of a nonqualified stock option granted under the 2011 Plan, an optionholder will recognize ordinary income equal to the excess, if any, of the fair market value on the date of exercise of the shares of stock acquired on exercise of the option over the exercise price. If the optionholder is an employee of the Company or a Related Entity, that income will be subject to the withholding of Federal income tax. The optionholder's tax basis in those shares will be equal to their fair market value on the date of exercise of the option, and his holding period for those shares will begin on that date.

The Company will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income taxable to the optionholder, provided that the deduction is not otherwise disallowed under the Code.

Incentive Stock Options

The 2011 Plan provides for the grant of stock options that qualify as incentive stock options as defined in section 422 of the Code, which we refer to as ISOs. Under the Code, an optionholder generally is not subject to tax upon the grant or exercise of an ISO. In addition, if the optionholder holds a share received on exercise of an ISO for at least two years from the date the option was granted and at least one year from the date the option was exercised, which we refer to as the Required Holding Period, the difference, if any, between the amount realized on a sale or other taxable disposition of that share and the holder's tax basis in that share will be long-term capital gain or loss.

If, an optionholder disposes of a share acquired on exercise of an ISO before the end of the Required Holding Period, which we refer to as a Disqualifying Disposition, the optionholder generally will recognize ordinary income in the year of the Disqualifying Disposition equal to the excess, if any, of the fair market value of the share on the date the ISO was exercised over the exercise price. If, however, the Disqualifying Disposition is a sale or exchange on which a loss, if realized, would be recognized for Federal income tax purposes, and if the sales proceeds are less than the fair market value of the share on the date of exercise of the option, the amount of ordinary income recognized by the optionholder will not exceed the gain, if any, realized on the sale. If the amount realized on a Disqualifying Disposition exceeds the fair market value of the share on the date of exercise of the option, that excess will be short-term or long-term capital gain, depending on whether the holding period for the share exceeds one year.

For purposes of the alternative minimum tax, the amount by which the fair market value of a share of stock acquired on exercise of an ISO exceeds the exercise price of that option generally will be an adjustment included in the optionholder's alternative minimum taxable income for the year in which the option is exercised. If, however, there is a Disqualifying Disposition of the share in the year in which the option is exercised, there will be no adjustment with respect to that share. If there is a Disqualifying Disposition in a later year, no income with respect to the Disqualifying Disposition is included in the optionholder's alternative minimum taxable income for that year. In computing alternative minimum taxable income, the tax basis of a share acquired on exercise of an ISO is increased by the amount of the adjustment taken into account with respect to that share for alternative minimum tax purposes in the year the option is exercised.

The Company is not allowed an income tax deduction with respect to the grant or exercise of an incentive stock option or the disposition of a share acquired on exercise of an incentive stock option after the Required Holding Period. However, if there is a Disqualifying Disposition of a share, the Company is allowed a deduction in an amount equal to the ordinary income includible in income by the optionholder, provided that the deduction is not otherwise disallowed under the Code.

Stock Awards

Generally, the recipient of a stock award will recognize ordinary compensation income at the time the stock is received equal to the excess, if any, of the fair market value of the stock received over any amount paid by the recipient in exchange for the stock. If, however, the stock is non-vested when it is received under the 2011 Plan (for example, if the employee is required to work for a period of time in order to have the right to sell the stock), the recipient generally will not recognize income until the stock becomes vested, at which time the recipient will recognize ordinary compensation income equal to the excess, if any, of the fair market value of the stock on the date it becomes vested over any amount paid by the recipient in exchange for the stock. A recipient may, however, file an election with the Internal Revenue Service, within 30 days of his or her receipt of the stock award, to recognize ordinary compensation income, as of the date the recipient receives the stock award, equal to the excess, if any, of the fair market value of the stock on the date the stock award is granted over any amount paid by the recipient in exchange for the stock.

The recipient's basis for the determination of gain or loss upon the subsequent disposition of shares acquired as stock awards will be the amount paid for such shares plus any ordinary income recognized either when the stock is received or when the stock becomes vested. Upon the disposition of any stock received as a stock award under the 2011 Plan the difference between the sale price and the recipient's basis in the shares will be treated as a capital gain or loss and generally will be characterized as long-term capital gain or loss if the shares have been held for more than one year from the date as of which he or she would be required to recognize any compensation income.

The Company will be entitled to a deduction for Federal income tax purposes equal to the amount of ordinary income taxable to the recipient, provided that the deduction is not otherwise disallowed under the Code.

Stock Appreciation Rights

The Company may grant SARs separate from any other award, which we refer to as Stand-Alone SARs, or in tandem with options, which we refer to as Tandem SARs, under the 2011 Plan. Generally, the recipient of a Stand-Alone SAR will not recognize any taxable income at the time the Stand-Alone SAR is granted.

With respect to Stand-Alone SARs, if the recipient receives the appreciation inherent in the SARs in cash, the cash will be taxable as ordinary compensation income to the recipient at the time that the cash is received. If the recipient receives the appreciation inherent in the SARs in shares of stock, the recipient will recognize ordinary compensation income equal to the excess of the fair market value of the stock on the day it is received over any amounts paid by the recipient for the stock.

With respect to Tandem SARs, if the recipient elects to surrender the underlying option in exchange for cash or shares of stock equal to the appreciation inherent in the underlying option, the tax consequences to the recipient will be the same as discussed above relating to the Stand-Alone SARs. If the recipient elects to exercise the underlying option, the holder will be taxed at the time of exercise as if he or she had exercised a nonqualified stock option (discussed above), i.e., the recipient will recognize ordinary income for federal tax purposes measured by the excess of the then fair market value of the shares of stock over the exercise price.

In general, there will be no federal income tax deduction allowed to the Company upon the grant or termination of Stand-Alone SARs or Tandem SARs. Upon the exercise of either a Stand-Alone SAR or a

Tandem SAR, however, the Company will be entitled to a deduction for federal income tax purposes equal to the amount of ordinary income that the employee is required to recognize as a result of the exercise, provided that the deduction is not otherwise disallowed under the Code.

Dividend Equivalents

Generally, the recipient of a dividend equivalent award will recognize ordinary compensation income at the time the dividend equivalent award is received equal to the fair market value of the amount received. The Company generally will be entitled to a deduction for federal income tax purposes equal to the amount of ordinary income that the employee is required to recognize as a result of the dividend equivalent award, provided that the deduction is not otherwise disallowed under the Code.

Section 162 Limitations

Section 162(m) to the Code, generally disallows a public company's tax deduction for compensation to covered employees in excess of \$1 million in any tax year. Compensation that qualifies as performance-based compensation is excluded from the \$1 million deductibility cap, and therefore remains fully deductible by the company that pays it. We intend that awards granted to participants under the Plan whom the Compensation Committee expects to be covered employees at the time a deduction arises in connection with such awards, may, if and to the extent so intended by the Compensation Committee, be granted in a manner that will qualify as such performance-based compensation, so that such awards would not be subject to the Section 162(m) deductibility cap of \$1 million. Future changes in Section 162(m) or the regulations thereunder may adversely affect our ability to ensure that awards under the 2011 Plan will qualify as performance-based compensation that are fully deductible by us under Section 162(m).

Specific Benefits Under the 2011 Plan

The Company has not approved any awards that are conditioned upon stockholder approval of the proposed amendments. For information regarding share-based awards granted to our Named Executive Officers during Fiscal 2013, see the material under the heading *Grants of Plan-Based Awards in Fiscal 2013* below.

Equity Compensation Information for Plans

For a description of the equity compensation information for plans, see the table under the section entitled *Equity Compensation Plan Information* within this Proxy Statement.

Required Vote

The affirmative vote of the holders of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote is required for approval of the amendment to the 2011 Plan described above. Under the rules of the NASDAQ, brokers are prohibited from giving proxies to vote on equity compensation plan matters unless the beneficial owner of such shares has given voting instructions on the matter. This means that if your broker is the record holder of your shares, you must give voting instructions to your broker with respect to Proposal No. 5 if you want your broker to vote your shares on the matter. If you hold your shares in your own name and abstain from voting on this matter, your abstention will have the same effect as a negative vote.

Recommendation of the Board of Directors

The Board believes that Proposal No. 5 is in the Company's best interests and in the best interests of its stockholders and recommends a vote FOR the amendment to increase the number of shares reserved for issuance under the 2011 Plan.

PROPOSAL NO. 6**RATIFICATION OF THE APPOINTMENT OF
INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

In April 2014, the Board of Directors, at the direction of the Audit Committee, appointed BDO USA, LLP (BDO), an independent registered public accounting firm, as the Company's independent auditor for the fiscal year ending December 31, 2014. The engagement of BDO was the result of our decision to move our corporate finance activities from our office in Ismaning, Germany to our headquarters in California. The appointment of BDO effectively dismissed Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft (EY) as the Company's independent registered public accounting firm as of April 7, 2014. The change in accountants did not result from any dissatisfaction with the quality of professional services rendered by EY.

Our Board of Directors is asking you to ratify the appointment of BDO as our independent auditor. Although our Bylaws and applicable legal requirements do not require stockholder ratification of the selection of BDO as our independent auditor, our Board of Directors is submitting the selection of BDO to our stockholders for ratification as a matter of good corporate practice. We expect that a representative of BDO will be available at the Annual Meeting to make a statement and will be available to respond to appropriate questions.

In the event that our stockholders fail to ratify the appointment of BDO as independent auditor, our Audit Committee may reconsider its selection. Even if the selection is ratified, the Audit Committee at its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

The reports of EY on the Company's consolidated financial statements as of and for the fiscal years ended December 31, 2013 and 2012 did not contain an adverse opinion or disclaimer of opinion, nor were such reports qualified or modified as to uncertainty, audit scope or accounting principles, other than to indicate that there was substantial doubt as to the Company's ability to continue as a going concern. In connection with the audits of the Company's consolidated financial statements for the fiscal years ended December 31, 2013 and 2012 and through the date of BDO's appointment, there were no disagreements with EY on any matters of accounting principles or practices, financial statement disclosure or auditing scope and procedures which, if not resolved to the satisfaction of EY, would have caused EY to make reference to the subject matter of the disagreement in their report. There were no reportable events (as defined in Item 304(a)(1)(v) of Regulation S-K and the related instructions to Item 304 of Regulation S-K) during the two fiscal years ended December 31, 2013 and 2012.

During the Company's two most recent fiscal years ended December 31, 2013 and through the date of BDO's engagement, the Company did not consult with BDO on matters that involved (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that may be rendered on the Company's financial statements, and BDO did not provide either a written report or oral advice to the Company that BDO concluded was an important factor considered by the Company in reaching a decision as to any accounting, auditing, or financial reporting issue; or (ii) any matter that was either the subject of any disagreement (as defined in Item 304(a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K) or a reportable event (as defined in Item 304 (a)(1)(v) of Regulation S-K and the related instructions to Item 304 of Regulation S-K).

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Our Independent Registered Public Accountants

In accordance with the charter of the Audit Committee of our Board of Directors, the Audit Committee pre-approves all audit and permissible non-audit services provided by our independent registered public accounting firm, including the estimated fees and other terms of any such engagement. In certain circumstance, the Audit Committee may provide subsequent approval of non-audit services not previously approved. Services provided by our independent registered public accounting firm may include audit services, audit-related services, tax services and other services. Actual amounts billed, to the extent in excess of the estimated amounts, were periodically reviewed and approved by the Audit Committee. The Audit Committee considers whether such audit or non-audit services are consistent with the SEC rules on auditor independence. The Audit Committee has determined that the services provided by EY are compatible with maintaining the independence of EY. All audit, audit-related, tax and other fees set forth in the table above were pre-approved pursuant to this policy.

Vote Required

The affirmative vote of the holders of a majority of the votes cast will be required to ratify the appointment of BOD to audit our financial statements for the fiscal year ending December 31, 2014.

Recommendation of the Board of Directors

The Board of Directors believes that Proposal No. 6 is in the best interests of the Company and our stockholders and recommends a vote FOR the ratification of the appointment of BOD USA, LLP, an independent registered public accounting firm, to serve as the Company's independent auditor for the fiscal year ending December 31, 2014.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The Audit Committee of the Board of Directors is composed of three members and acts under a written charter adopted and approved by the Board of Directors. The members of the Audit Committee are independent as defined by the Audit Committee's charter, the NASDAQ Capital Market listing standards and the Securities Exchange Act.

The Audit Committee assists the Board of Directors in fulfilling its responsibility for oversight of the quality and integrity of our financial reporting processes, system of internal controls, process for monitoring compliance with laws and regulations, audit process and standards of business conduct. The Audit Committee manages the relationship with our independent auditor, who reports directly to the Audit Committee. The Audit Committee also oversees the internal audit and Sarbanes-Oxley compliance functions of the Company, which report directly to the Audit Committee. The Audit Committee has the authority to obtain advice and assistance from outside legal, accounting or other advisors as the Audit Committee deems necessary to carry out its duties and to allocate appropriate funding, as determined by the Audit Committee, for such advice and assistance.

The Audit Committee has reviewed and discussed with management the audited financial statements of the Company for the fiscal year ended December 31, 2013. The Audit Committee also has discussed with the Company's independent auditor for the fiscal year ended December 31, 2013, Ernst & Young GmbH Wirtschaftspruefungsgesellschaft, an independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU Section 380), as amended. Furthermore, the Audit Committee has received the written communications from Ernst & Young GmbH Wirtschaftspruefungsgesellschaft required by the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence. The Audit Committee has discussed with Ernst & Young GmbH Wirtschaftspruefungsgesellschaft the auditor's independence from the Company and its management, and considered whether the provision of other non-audit services by Ernst & Young GmbH Wirtschaftspruefungsgesellschaft to the Company is compatible with the auditor's independence.

In performing all these functions, the Audit Committee acts only in an oversight capacity and necessarily relies on the work and assurances of our management and independent registered public accountants. Management has primary responsibility for preparing the Company's financial statements and for our financial reporting process. Our independent auditors for the fiscal year ended December 31, 2013, Ernst & Young GmbH Wirtschaftspruefungsgesellschaft, are responsible for expressing an opinion on the conformity of our audited financial statements to accounting principles generally accepted in the United States. In reliance on the reviews and discussions referred to in this report, and in light of its role and responsibilities, the Audit Committee recommended to the Board of Directors that the audited financial statements for the fiscal year ended December 31, 2013 be included for filing with the SEC in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, and the Board of Directors has approved such inclusion.

PROPOSAL NO. 7

ADVISORY VOTE ON NAMED EXECUTIVE OFFICER COMPENSATION SAY ON PAY

We are asking stockholders to approve an advisory resolution on the Company's compensation of our Named Executive Officers as reported in this Proxy Statement. As described below in the *Compensation Discussion and Analysis* section of this Proxy Statement, the Compensation Committee has designed the compensation of our Named Executive Officers to align each Named Executive Officer's compensation with the Company's short-term and long-term performance and to provide the compensation and incentives needed to attract, motivate and retain the Named Executive Officers, who are crucial to the Company's long-term success. You are urged to read the *Compensation Discussion and Analysis*, which describes in more detail our executive compensation policies, as well as the Summary Compensation Table and other related compensation tables and narrative, which provide detailed information on the compensation of the Company's Named Executive Officers.

The Company's compensation programs reflect our commitment to pay-for-performance, with a substantial portion of each Named Executive Officer's compensation being at-risk and subject to important performance measures aligned with long-term stockholder value. During 2013, a significant percentage of each Named Executive Officer's total compensation was at-risk, being comprised of performance-based cash bonus, stock option awards and stock awards, which become valuable to the executive only upon realized share appreciation. The Compensation Committee sets a significant portion of the compensation of the Named Executive Officers based on their ability to achieve annual operational objectives that advance the Company's long-term business objectives and that are designed to create sustainable long-term stockholder value. The Company's performance-based compensation elements are guided by the Compensation Committee's long-term objectives of maintaining market competitiveness and aligning the interests of our executives with the interests of our stockholders. The Compensation Committee believes that the compensation arrangements for Named Executive Officers are consistent with market practice and provide for compensation that is reasonable in light of the Company's and each individual officer's performance. Moreover, the Compensation Committee does not provide for egregious pay practices, such as excessive perquisites or tax gross up payments as elements of Named Executive Officers' compensation. The detailed ways in which the Company links pay with Company and individual performance and structures the Named Executive Officer compensation arrangements consistent with good governance practices is described in the *Compensation Discussion and Analysis* section below.

The advisory resolution, commonly known as a say-on-pay proposal, gives stockholders the opportunity to express their views on the Company's Named Executive Officers' compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the Company's Named Executive Officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, you are being asked to vote on the following resolution at the Annual Meeting:

RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the Named Executive Officers, as disclosed in the Company's Proxy Statement for the 2014 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2013 Summary Compensation Table and the other related tables and disclosure.

The say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation Committee or the Board of Directors; however, the Board of Directors and Compensation Committee value the opinions of the Company's stockholders and to the extent there is any significant vote against the Named Executive Officer compensation as disclosed in this Proxy Statement, the Compensation Committee will consider the Company's stockholders' concerns and will evaluate whether any actions are necessary to address those concerns.

Recommendation of the Board of Directors

The Board of Directors believes that Proposal No. 7 is in the best interests of the Company and our stockholders and recommends a vote FOR the approval of the advisory resolution on Named Executive Officer compensation as disclosed in this Proxy Statement.

Such officers, directors and 10% stockholders are also required by the SEC's rules and regulations to provide us with copies of all such reports on Forms 4 and 5 that they file under Section 16(a) of the Exchange Act.

EXECUTIVE COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes the material elements of compensation awarded to, earned by or paid to the principal executive and principal financial officers of the Company, the three other most highly compensated individuals who were serving as executive officers during 2013 or as of the last day of the fiscal year ending December 31, 2013, as well as our former principal executive and principal financial officers. These individuals are listed in the *Summary Compensation Table* below and referred to in this Proxy Statement as the *Named Executive Officers*.

Our executive compensation program bases a significant portion of the compensation of our executives, including the *Named Executive Officers*, on their ability to achieve annual operational objectives that advance the Company's long-term business goals and that are designed to create sustainable long-term stockholder value. The Company's performance-based compensation elements are guided by the Compensation Committee's long-term objectives of maintaining market competitiveness and aligning the interests of our executives with the interests of our stockholders. In addition, the Compensation Committee considers the results of the prior-year's stockholder advisory vote on our executive compensation as part of its compensation setting process. It believes these voting results provide useful feedback regarding whether stockholders agree that the Compensation Committee is achieving its goal of designing an executive compensation program that promotes the best interests of the Company and its stockholders by providing its executives with the appropriate compensation and meaningful incentives. As part of its 2013 compensation setting process, the Compensation Committee reviewed the results of the 2012 stockholder advisory vote, for which 97.6% of the votes cast were voted in favor of our executive compensation.

Key Business Developments During 2013

During the first eight months of 2013, we pursued a strategy to develop and sell a comprehensive range of secure identification (Secure ID) solutions for multiple markets around the world. In particular, we focused on reinforcing our position in established Secure ID markets, such as logical access, physical access and contactless ticketing, and on building a strong position in emerging markets, such as cloud-based credential management, cashless and mobile payment and near field communication (NFC). We delivered these solutions through various business entities operated under a group structure.

In September 2013, Ayman Ashour resigned from his position as Chief Executive Officer, and our Board of Directors appointed Jason Hart, formerly the CEO of our idOnDemand subsidiary, as our Chief Executive Officer. Lawrence W. Midland was appointed as President and Manfred Mueller was appointed as Chief Operating Officer, and no other individuals were appointed as executive officers of the Company. Brian Nelson, previously Chief Financial Officer of our idOnDemand business, and most recently a consultant to the Company, was appointed as our Chief Financial Officer in December 2013.

Following Mr. Hart's appointment, we undertook a strategic review of our business and initiated a series of actions to simplify our business structure and focus. We realigned our organizational structure to operate as a single, unified company rather than as a group of individual businesses, and signaled this change to stakeholders with a new corporate identity featuring the word mark and logo *Identiv*. Additionally, we reorganized our operational functions to enable centralized management of key activities on a global basis and streamline our operations. Further, we divested certain businesses that were determined to be non-core to our ongoing strategy in order to focus our resources and investments on higher-growth and more profitable opportunities in the security technology market.

Our current strategy aims to drive revenue growth by focusing our resources and activities to deliver trust solutions to customers globally. Our trust solutions leverage core expertise from our existing product portfolio

with a focus on cloud and mobile technologies, as well as our significant experience addressing customers' security challenges across multiple markets, including the U.S. Government, transportation, healthcare, education, banking, critical infrastructure, foreign governments and others.

Impact on 2013 Executive Compensation

The mixture of established and new business opportunities available to us as a security technology company influences our compensation practices. We seek to attract and retain executives with significant experience in security, RFID, and cloud technologies and markets while also motivating them to be innovative and entrepreneurial in their approach to advancing our business.

We Pay for Performance

The compensation program implemented by the Compensation Committee in 2013 demonstrates our continued commitment to pay-for-performance, with a substantial portion of each Named Executive Officer's compensation being at-risk and subject to important performance measures aligned with long-term stockholder value. Compensation for our Named Executive Officers has been designed to reward high performance through short- and long-term incentives. In Fiscal 2013:

A significant portion of the compensation of each Named Executive Officer was at-risk, being comprised of the opportunity to earn a performance-based cash bonus and the opportunity to receive an at-the-money stock option award and stock bonus award subject to our achievement of pre-established performance objectives.

The Compensation Committee established performance-based award criteria based on our annual corporate performance, including the attainment of specific objectives for growth in sales, growth in Adjusted EBITDA (defined as earnings before interest, taxes, depreciation and amortization, equity-based compensation, and certain other adjustments) and growth in volume-weighted share price performance. The specific corporate performance goals that were established for 2013 are discussed in detail below under

Fiscal 2013 Incentive Compensation to our Named Executive Officers

Consistent with our commitment to becoming sustainably profitable, none of these performance-based awards would be earned by our Named Executive Officers unless we achieved positive Adjusted EBITDA

Our financial results in Fiscal 2013 reflected mixed sales strength across our three main product areas, very little change in our gross profit margin and a modest reduction in base operating expenses. Taken together, these results did not allow us to attain our goals for growth in sales or Adjusted EBITDA.

Sales of our RFID and NFC products for emerging contactless applications grew more than 50% and sales of smart card readers for secure PC and network access grew 10%. These increases were offset by a 29% decrease in sales of our physical access control solutions as a result of budget delays and deferrals due to the U.S. Government budget sequester and government shutdown. Excluding discontinued operations of non-core businesses that were divested, total sales from continuing operations were \$75.6 million in 2013, up 4% compared with \$72.4 million in 2012.

Gross profit margin in 2013 was 44.5% compared with 44.2% in 2012.

Our base operating expenses (research and development, sales and marketing, and general and administrative expenses) decreased 4% in 2013 compared with 2012.

We did not achieve profitability on an Adjusted EBITDA basis.

Because we did not achieve the minimum performance objectives established by the Compensation Committee, our Named Executive Officers did not earn any portion of their performance-based cash bonus, stock option or stock bonus award opportunities.

Executive Compensation Program Objectives and Overview

Our current executive compensation program is intended to achieve three fundamental objectives:

attract, retain and motivate qualified executives;

reward executives based on the Company's performance; and

align executives' interests with the interests of our stockholders.

To achieve these objectives, we attempt to:

offer compensation packages that are competitive in the markets and countries where we operate and that provide an attractive base of salary and benefits;

maintain a substantial portion of total compensation at risk, with payment of that portion tied to achievement of specific financial, organizational or other performance goals; and

provide both short-term and long-term performance incentives through a combination of potential cash and equity-based awards.

As described in more detail below, the material elements of our current executive compensation program for Named Executive Officers include fixed base salary, performance-based compensation opportunities consisting of a mix of a cash bonus, shares of Common Stock and stock options, as well as various benefits and perquisites. Our executive compensation program strives to set annual salaries that are competitive but low relative to potential performance-based bonus awards, as we believe that this provides incentive for the achievement of corporate objectives. We believe that each element of our executive compensation program helps us to achieve one or more of our compensation objectives. For example, linking bonus payments to corporate performance-based criteria rewards executives based on the Company's performance. In addition, providing our executives with the opportunity to earn equity-based bonus awards aligns their interests with the long-term interests of our stockholders, as this subjects a significant portion of their total compensation to fluctuations in the market price of Common Stock and reinforces the incentive to manage the Company's business as owners.

Current Executive Compensation Program Elements

Base Salary. Base salary provides fixed compensation based on competitive local market practice and is intended to acknowledge and reward core competence of our executives relative to their skills, experience and contributions to the Company. Base salaries for executives are generally reviewed annually, and more frequently when there are any changes in responsibilities or market conditions.

Following the voluntary salary reductions taken in 2012 by each of our Named Executive Officers, in 2013 all salary levels were restored to their pre-reduction levels, but the Compensation Committee did not increase the salary levels of any of the Company's current or former Named Executive Officers, except for Brian Nelson.

In December 2013, we entered into an executive employment agreement with Brian Nelson, under which Mr. Nelson was named Chief Financial Officer. Mr. Nelson's annual base salary was set at \$295,000, effective December 20, 2013. Mr. Nelson's executive employment agreement is further described below in *Employment Agreements; Termination / Change in Control Arrangements*.

Performance-based Compensation. In April 2013, our Board of Directors adopted specific performance objectives for 2013 based upon the business performance criteria authorized by our 2011 Plan. In general, under the 2011 Plan the Compensation Committee may grant to our executives and other key employees the opportunity to earn certain cash-based and equity-based awards upon the achievement of performance goals whose attainment is measured at the end of a specified performance period of 12 months or longer. Such equity awards may include shares of Common Stock, nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, and performance share awards. The specific performance goals established for 2013 are discussed below under *Fiscal 2013 Incentive Compensation to our Named Executive*

Officers.

The 2011 Plan is designed to address the objectives of our compensation program by providing executives with the opportunity to earn substantial at-risk compensation, based on the Company's performance. We believe this helps us attract, retain and motivate qualified executives and emphasizes corporate performance as the basis for rewarding our executives. Through the Compensation Committee's use of a combination of performance-based cash bonuses and equity award opportunities granted under the 2011 Plan, we are able to provide both short-term and long-term incentives to remain with the Company and to work towards corporate performance goals on an ongoing basis.

Because the requisite corporate performance goals for 2013 were not achieved, as discussed below, no performance-based annual bonuses or equity awards were earned by our Named Executive Officers for 2013.

Other Equity Awards. In January 2013, the Compensation Committee granted an option for 250,000 shares to Mr. Ashour. At the date of grant, the option had a four-year vesting period, with 25% of the shares subject to the option vesting after one year and the remaining shares vesting 1/36th per month for the following three years. Under Mr. Ashour's amended employment agreement, discussed below under *Employment Agreements; Termination / Change in Control Arrangements*, vesting for the remainder of the option was accelerated upon Mr. Ashour's resignation from the Company on September 1, 2013, such that the option will be fully vested by August 31, 2015, and remain exercisable until August 31, 2017. The option grant was the result of a review of CEO compensation, which was planned after the Company entered into an amended employment agreement with Mr. Ashour on September 1, 2013. In light of the historical performance and the then current challenges of the Company, the Committee did not change any salary components, but deemed the grant of options appropriate in order to incentivize Mr. Ashour.

Special Performance Bonuses. The Compensation Committee, in its sole discretion, may determine that an executive officer is entitled to a one-time bonus or equity award in recognition of special services to the Company or achievements of individual performance targets or goals for the executive officer. No special performance bonuses were awarded in 2013.

Benefits and Perquisites. We provide all our employees with standard benefits for health and life insurance. On behalf of our executive officers in Europe, we make payments to government-mandated pension programs, to government-managed or private health insurance programs, and in some cases for unemployment insurance, as mandated under the employment laws of various European countries, including Germany, Switzerland and the United Kingdom. Additionally, we provide certain of our Named Executive Officers with either a company car or a comparable car allowance. For certain executives who are required to travel frequently to our facility in Ismaning, Germany, we also provide an allowance for local apartment rental. Payments made to or on behalf of our Named Executive Officers in 2013 are included in the *Summary Compensation Table* below.

Severance Benefits. As disclosed in the description of the individual employment agreements under *Employment Agreements; Termination / Change in Control Arrangements* below, our executive officers are entitled to continued salary payments ranging from three months to two years following termination by the Company without cause. The level of payment is negotiated on an individual basis and takes into account any requirements under local law as well as the executive's position within the Company. With the exception of Messrs. Ashour and Tassone, all of these employment agreements provide for payments or acceleration of equity awards in the event of a change in control of the Company.

Executive Employment Agreements. We have entered into employment agreements with each of our Named Executive Officers that provide for certain severance benefits. In most instances, notice of termination is required to be given by either the Company or the executive, and we are required to continue to compensate the executive for salary and eligible bonus amounts during this period. The length of the notice period is stated in the executive's employment contract. In lieu of *continuing* the employment relationship during the notice period, our employment agreements provide that we can immediately terminate the executive's employment and pay compensation for the notice period. Alternatively, we can require that the executive continue to work during the

notice period. Additionally, under labor practices applicable to our European employees, terminated employees also may be eligible to continue to receive health and unemployment insurance coverage, pension contributions, car leasing expenses or car allowance, or other benefits provided during their employment, for the duration of the notice period. Further, our Named Executive Officers, if terminated, may also be entitled to receive annual bonus payments, the amount of which would be pro-rated accordingly and based on a variety of factors, including the employee's length of service and perceived contributions to past or future company performance, as well as other factors. Actual bonus payments for which individual executives may become eligible are determined at or following termination, and cannot be projected.

Fiscal 2013 Incentive Compensation to our Named Executive Officers

The Compensation Committee approved specific performance goals for the payment of performance-based cash and equity incentive awards in 2013 and determined the potential award opportunities that could be earned by each of our Named Executive Officers. Specific performance targets under these performance goals reflected our operational goals for 2013. Award opportunities were based on the achievement of base performance (Base Bonus) criteria and peak performance (Peak Bonus) criteria. Each set of criteria was assigned a certain percentage value of the total potential Base Bonus or Peak Bonus. The potential Base Bonus and Peak Bonus amounts for each Named Executive Officer were determined by multiplying the sum of the percentage values of the Base Bonus and Peak Bonus by the executive's annual base salary.

Base Bonus. Each Named Executive Officer was eligible to earn a Base Bonus of up to 100% of his annual base salary, subject to achievement of the following performance goals:

10% to 20% growth in net sales over a base sales figure of \$94.6 million (the Growth in Sales Performance Target), with an award range of 2.5% to 25% of annual base salary;

Adjusted EBITDA (earnings before income taxes, depreciation and amortization, equity-based compensation expense and one-time expenses) of \$2.0 million to \$4.0 million (the Growth in Adjusted EBITDA Performance Target), with an award range of 2.5% to 25% of annual base salary; and

0% to 10% growth in the volume-weighted average value of the Company's share price in 2013 compared with 2012 (the Growth in Volume Weighted Average of Share Price Performance Target), with an award range of 5% to 50% of annual base salary.

No Base Bonus awards were to be earned unless we achieved at least \$2.0 million positive Adjusted EBITDA in 2013.

To the extent that Base Bonus performance targets were met, earned Base Bonus awards were to be paid in a combination of cash and shares of Common Stock. In addition, to the extent that the Base Bonus was earned in 2013, each Named Executive Officer would also be entitled to receive an option to acquire shares of Common Stock equal in number to 20% of the executive's annual base salary (measured in U.S. Dollars) divided by the fair market value of a share of our Common Stock determined on the date of grant.

Peak Bonus. Each Named Executive Officer also was eligible to earn a Peak Bonus of up to 100% of his annual base salary. Peak Bonuses would be earned if the Company achieved:

Adjusted EBITDA of \$4.0 million to \$5.0 million, with an award range of 0% to 50% of annual base salary; and

30% growth in total capitalization (calculated by comparing the Company's market capitalization, defined as outstanding shares times volume-weighted average share price) as of December 31, 2013, against a base market capitalization of \$90 million, with an award range of 0% to 50% of annual base salary.

Achievement of Base and Peak Performance Targets in 2013. The Company's 2013 financial performance failed to achieve the minimum threshold levels of performance required for our Named Executive Officers to earn either the Base Bonus or Peak Bonus, and accordingly such bonuses were not paid following the end of Fiscal 2013.
