ROBERT HALF INTERNATIONAL INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

March 31, 2014

Note A Summary of Significant Accounting Policies

Nature of Operations. Robert Half International Inc. (the Company) provides specialized staffing and risk consulting services through such divisions as *Accountemps*®, *Robert Half*® Finance & Accounting, *OfficeTeam*®, *Robert Half*® Technology, *Robert Half*® Management Resources, *Robert Half*® Legal, *The Creative Group*®, and *Protiviti*®. The Company, through its *Accountemps*, *Robert Half Finance & Accounting*, and *Robert Half Management Resources* divisions, is a specialized provider of temporary, full-time, and project professionals in the fields of accounting and finance. *OfficeTeam* specializes in highly skilled temporary administrative support personnel. *Robert Half Technology* provides information technology professionals. *Robert Half Legal* provides temporary, project, and full-time staffing of attorneys and specialized support personnel within law firms and corporate legal departments. *The Creative Group* provides project staffing in the advertising, marketing, and web design fields. *Protiviti* provides business consulting and internal audit services, and is a wholly-owned subsidiary of the Company. Revenues are predominantly derived from specialized staffing services. The Company operates in North America, South America, Europe, Asia and Australia. The Company is a Delaware corporation.

Basis of Presentation. The unaudited Condensed Consolidated Financial Statements (Financial Statements) of the Company are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and the rules of the Securities and Exchange Commission (SEC). The comparative year-end condensed consolidated statement of financial position data presented was derived from audited financial statements. In the opinion of management, all adjustments (consisting of only normal recurring adjustments) necessary for a fair statement of the financial position and results of operations for the periods presented have been included. These Financial Statements should be read in conjunction with the audited Consolidated Financial Statements of the Company for the year ended December 31, 2013, included in its annual report on Form 10-K. The results of operations for any interim period are not necessarily indicative of, nor comparable to, the results of operations for a full year.

Principles of Consolidation. The Financial Statements include the accounts of the Company and its subsidiaries, all of which are wholly-owned. All intercompany balances have been eliminated.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. As of March 31, 2014, such estimates included allowances for uncollectible accounts receivable, workers' compensation losses, and income and other taxes. Management estimates are also utilized in the Company's goodwill impairment assessment.

Advertising Costs. The Company expenses all advertising costs as incurred. Advertising costs for the three months ended March 31, 2014 and 2013, are reflected in the following table (in thousands):

Three Months Ended	
March 31,	
2014	2013

Advertising costs	\$ 9,753	\$ 9,903
-------------------	----------	----------

Internal-use Software. The Company capitalizes direct costs incurred in the development of internal-use software. Amounts capitalized are reported as a component of computer software within property and equipment.

	Three Months Ended March 31,	
	2014	2013
Internal-use software development costs	\$ 5,892	\$ 1,170

Note B New Accounting Pronouncements

Income Taxes. In September 2013, the Financial Accounting Standards Board (FASB) issued authoritative guidance in regards to the presentation of unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendment states that an unrecognized tax benefit or a portion of the unrecognized tax benefit should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. This authoritative guidance is to be applied for fiscal years, and interim periods within those years, beginning after December 15, 2013. The adoption of this guidance as of March 31, 2014, did not have a material impact on the Company's Financial Statements.

Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. In April 2014, the FASB issued authoritative guidance in regards to the criteria for reporting discontinued operations while enhancing disclosures in this area. Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The amendments in the authoritative guidance are effective in the first quarter of 2015 for public organizations with calendar year ends. The Company does not expect the adoption of this guidance to have a material impact on its Financial Statements.

Note G Commitments and Contingencies

On April 23, 2010, Plaintiffs David Opalinski and James McCabe, on behalf of themselves and a putative class of similarly situated Staffing Managers, filed a Complaint in the United States District Court for the District of New Jersey naming the Company and one of its subsidiaries as Defendants. The Complaint alleges that salaried Staffing Managers located throughout the U.S. have been misclassified as exempt from the Fair Labor Standards Act's overtime pay requirements. Plaintiffs seek an unspecified amount for unpaid overtime on behalf of themselves and the class they purport to represent. Plaintiffs also seek an unspecified amount for statutory penalties, attorneys' fees and other damages. On October 6, 2011, the Court granted the Company's motion to compel arbitration of the Plaintiffs' allegations. At this stage, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from these allegations and, accordingly, no amounts have been provided in the Company's Financial Statements. The Company believes it has meritorious defenses to the allegations, and the Company intends to continue to vigorously defend against the allegations.

ROBERT HALF INTERNATIONAL INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****March 31, 2014****Note G Commitments and Contingencies (continued)**

On March 13, 2014, Plaintiff Leonor Rodriguez, on her own behalf and on behalf of a putative class of allegedly similarly situated individuals, filed a complaint against the Company in the Superior Court of California, San Diego County. The complaint alleges that a putative class of current and former employees of the Company working in California since March 13, 2011 were denied compensation for the time they spent interviewing with clients of the Company as well as performing activities related to the interview process. Rodriguez seeks recovery on her own behalf and on behalf of the putative class in an unspecified amount for this allegedly unpaid compensation. Rodriguez also seeks recovery of an unspecified amount for the alleged failure of the Company to provide her and the putative class with accurate wage statements. Rodriguez also seeks an unspecified amount of other damages, attorneys' fees, and statutory penalties, including but not limited to statutory penalties on behalf of herself and other allegedly aggrieved employees as defined by California's Labor Code Private Attorney General Act. At this stage of the litigation, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from this proceeding and, accordingly, no amounts have been provided in the Company's Financial Statements. The Company believes it has meritorious defenses to the allegations and the Company intends to vigorously defend against the litigation.

The Company is involved in a number of other lawsuits arising in the ordinary course of business. While management does not expect any of these other matters to have a material adverse effect on the Company's results of operations, financial position or cash flows, litigation is subject to certain inherent uncertainties.

Legal costs associated with the resolution of claims, lawsuits and other contingencies are expensed as incurred.

Note H Stockholders' Equity

Stock Repurchase Program. As of March 31, 2014, the Company is authorized to repurchase, from time to time, up to 7.3 million additional shares of the Company's common stock on the open market or in privately negotiated transactions, depending on market conditions. The number and the cost of common stock shares repurchased during the three months ended March 31, 2014 and 2013, are reflected in the following table (in thousands):

	Three Months Ended March 31,	
	2014	2013
Common stock repurchased (in shares)	825	836
Common stock repurchased	\$ 33,415	\$ 29,740

Additional stock repurchases were made in connection with employee stock plans, whereby Company shares were tendered by employees for the payment of exercise price and applicable statutory withholding taxes. The number and the cost of employee stock plan repurchases made during the three months ended March 31, 2014 and 2013, are

reflected in the following table (in thousands):

	Three Months Ended March 31,	
	2014	2013
Employee stock plan repurchased (in shares)	239	453
Employee stock plan repurchased	\$ 9,876	\$ 15,933

ROBERT HALF INTERNATIONAL INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****March 31, 2014****Note H Stockholders Equity (continued)**

The repurchased shares are held in treasury and are presented as if constructively retired. Treasury stock is accounted for using the cost method. Repurchase activity for the three months ended March 31, 2014 and 2013, is presented in the unaudited Condensed Consolidated Statements of Stockholders Equity.

Repurchases of shares and issuances of cash dividends are applied first to the extent of retained earnings and any remaining amounts are applied to capital surplus.

Note I Net Income Per Share

The calculation of net income per share for the three months ended March 31, 2014 and 2013 is reflected in the following table (in thousands, except per share amounts):

	Three Months Ended March 31,

ROBERT HALF INTERNATIONAL INC. AND SUBSIDIARIES**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****March 31, 2014****Note J Business Segments**

The Company, which aggregates its operating segments based on the nature of services, has three reportable segments: temporary and consultant staffing, permanent placement staffing, and risk consulting and internal audit services. The temporary and consultant segment provides specialized staffing in the accounting and finance, administrative and office, information technology, legal, advertising, marketing and web design fields. The permanent placement segment provides full-time personnel in the accounting, finance, administrative and office, and information technology fields. The risk consulting segment provides business and technology risk consulting and internal audit services.

The accounting policies of the segments are set forth in Note A – Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. The Company evaluates performance based on income or loss from operations before net interest income, intangible amortization expense, and income taxes.

The following table provides a reconciliation of revenue and operating income by reportable segment to consolidated results (in thousands):

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain information contained in Management's Discussion and Analysis and in other parts of this report may be deemed forward-looking statements regarding events and financial trends that may affect the Company's future operating results or financial positions. These statements may be identified by words such as estimate, forecast, project, plan, intend, believe, expect, anticipate, or variations or negatives thereof or by similar or comparable words or phrases. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed in the statements. These risks and uncertainties include, but are not limited to, the following: the global financial and economic situation; changes in levels of unemployment and other economic conditions in the United States or foreign countries where the Company does business, or in particular regions or industries; reduction in the supply of candidates for temporary employment or the Company's ability to attract candidates; the entry of new competitors into the marketplace or expansion by existing competitors; the ability of the Company to maintain existing client relationships and attract new clients in the context of changing economic or competitive conditions; the impact of competitive pressures, including any change in the demand for the Company's services, on the Company's ability to maintain its margins; the possibility of the Company incurring liability for its activities, including the activities of its temporary employees, or for events impacting its temporary employees on clients' premises; the possibility that adverse publicity could impact the Company's ability to attract and retain clients and candidates; the success of the Company in attracting, training, and retaining qualified management personnel and other staff employees; the Company's ability to comply with governmental regulations affecting personnel services businesses in particular or employer/employee relationships in general; whether there will be ongoing demand for Sarbanes-Oxley or other regulatory compliance services; the Company's reliance on short-term contracts for a significant percentage of its business; litigation relating to prior or current transactions or activities, including litigation that may be disclosed from time to time in the Company's SEC filings; the ability of the Company to manage its international operations and comply with foreign laws and regulations; the impact of fluctuations in foreign currency exchange rates; the possibility that the additional costs the Company will incur as a result of health care reform legislation may adversely affect the Company's profit margins or the demand for the Company's services; the possibility that the Company's computer and communications hardware and software systems could be damaged or their service interrupted; and the possibility that the Company may fail to maintain adequate financial and management controls and as a result suffer errors in its financial reporting. Additionally, with respect to Protiviti, other risks and uncertainties include the fact that future success will depend on its ability to retain employees and attract clients; there can be no assurance that there will be ongoing demand for Sarbanes-Oxley or other regulatory compliance services; failure to produce projected revenues could adversely affect financial results; and there is the possibility of involvement in litigation relating to prior or current transactions or activities. Because long-term contracts are not a significant part of the Company's business, future results cannot be reliably predicted by considering past trends or extrapolating past results.

Critical Accounting Policies and Estimates

The Company's most critical accounting policies and estimates are those that involve subjective decisions or assessments and are included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. There were no material changes to these critical accounting policies during the three months ended March 31, 2014.

Recent Accounting Pronouncements

See Note B – New Accounting Pronouncements to the Company's Condensed Consolidated Financial Statements included under Part I Item 1 of this report.

Results of Operations

Demand for the Company's temporary and permanent placement staffing services and risk consulting and internal audit services is largely dependent upon general economic and labor market conditions both domestically

and abroad. Because of the inherent difficulty in predicting economic trends and the absence of material long-term contracts in any of our business units, future demand for the Company's services cannot be forecasted with certainty. We expect total Company results to continue to be impacted by general macroeconomic conditions in 2014.

The Company's temporary and permanent placement staffing services business has 342 offices in 42 states, the District of Columbia and 18 foreign countries, while Protiviti has 59 offices in 23 states and 11 foreign countries.

Non-GAAP Financial Measures

To help readers understand the Company's financial performance, the Company supplements its GAAP financial results with revenue growth rates derived from non-GAAP revenue amounts. Variations in the Company's financial results include the impact of changes in foreign currency exchange rates and billing days. The Company provides same billing days and constant currency revenue growth calculations to remove the impact of these items. These calculations show the year-over-year revenue growth rates for the Company's temporary and consultant staffing and permanent placement staffing segments on both a reported basis and also on a same day, constant-currency basis for global, U.S. and international operations. The Company has provided this data because management believes it better reflects the Company's actual revenue growth rates and aids in evaluating revenue trends over time. The Company expresses year-over-year revenue changes as calculated percentages using the same number of billing days and constant currency exchange rates.

In order to calculate constant currency revenue growth rates, as reported amounts are retranslated using foreign currency exchange rates from the prior year's comparable period. Management calculates a global, weighted-average number of billing days for each reporting period based upon input from all countries and all staffing lines of business. In order to remove the fluctuations caused by comparable periods having different billing days, the Company calculates same billing day revenue growth rates by dividing each comparative period's reported revenues by the calculated number of billing days for that period, to arrive at a per billing day amount. Same billing day growth rates are then calculated based upon the per billing day amounts. The term same billing days and constant currency means that the impact of different billing days has been removed from the constant currency calculation.

The non-GAAP financial measures provided herein may not provide information that is directly comparable to that provided by other companies in the Company's industry, as other companies may calculate such financial results differently. The Company's non-GAAP financial measures are not measurements of financial performance under GAAP, and should not be considered as alternatives to actual revenue growth derived from revenue amounts presented in accordance with GAAP. The Company does not consider these non-GAAP financial measures to be a substitute for, or superior to, the information provided by GAAP financial results. A reconciliation of the same-day, constant-currency revenue growth rates to the reported revenue growth rates is provided herein.

Three months ended March 31, 2014 and 2013

Revenues. The Company's revenues were \$1.08 billion for the three months ended March 31, 2014 compared to \$1.02 billion for the three months ended March 31, 2013. Revenues from foreign operations represented 23.7% of total revenues for the three months ended March 31, 2014, compared to 25.1% for the three months ended March 31, 2013. The Company analyzes its revenues for three reportable segments: temporary and consultant staffing, permanent placement staffing, and risk consulting and internal audit services. For the three months ended March 31, 2014, revenues for all three of the Company's reportable segments were up compared to the same period in 2013. Results were strongest domestically with demand also improving in several countries, most notably within Europe. Contributing factors for each reportable segment are discussed below in further detail.

Temporary and consultant staffing services revenues were \$857 million for the three months ended March 31, 2014, increasing by 4.1% compared to revenues of \$823 million for the three months ended March 31, 2013. On a same-day, constant-currency basis, temporary and consultant staffing services revenues increased 3.8% for the first quarter of 2014 compared to the first quarter of 2013. In the U.S., revenues in the first quarter of 2014 increased 5.9%, or 5.4% on a same-day basis, compared to the first quarter of 2013. For the Company's international operations, 2014 first quarter revenues decreased 1.2%, and on a same-day, constant-currency basis decreased 1.0%, compared to the first quarter of 2013.

Permanent placement staffing revenues were \$93 million for the three months ended March 31, 2014, increasing by 11.1% compared to revenues of \$83 million for the three months ended March 31, 2013. On a same-day, constant-currency basis, permanent placement revenues increased 11.6% for the first quarter of 2014 compared to the first quarter of 2013. In the U.S., revenues for the first quarter of 2014 increased 12.6%, or 12.1% on a same-day basis, compared to the first quarter of 2013. For the Company's international operations, revenues for the first quarter of 2014 increased 8.6%, and on a same-day, constant-currency basis increased 10.8%, compared to the first quarter of 2013. Historically, demand for permanent placement services is even more sensitive to economic and labor market conditions than demand for temporary and consulting staffing services and this is expected to continue.

A reconciliation of the non-GAAP year-over-year revenue growth rates to the as reported year-over-year revenue growth rates for the three months ended March 31, 2014, is presented in the following table:

	Global	United States	International
Temporary and consultant staffing			
As Reported	4.1%	5.9%	-1.2%
Billing Days Impact	-0.5%	-0.5%	-0.4%
Currency Impact	0.2%		0.6%
Same Billing Days and Constant Currency	3.8%	5.4%	-1.0%
Permanent placement staffing			
As Reported	11.1%	12.6%	8.6%
Billing Days Impact	-0.5%	-0.5%	-0.5%
Currency Impact	1.0%		2.7%
Same Billing Days and Constant Currency	11.6%	12.1%	10.8%

Risk consulting and internal audit services revenues were \$134 million for the three months ended March 31, 2014, increasing by 14.8% compared to revenues of \$117 million for the three months ended March 31, 2013. In the U.S., revenues in the first quarter of 2014 increased 19.0% compared to the first quarter of 2013. The Company's risk consulting and internal audit services revenues from international operations increased 0.4% compared to the first quarter of 2013.

Gross Margin. The Company's gross margin dollars were \$438 million for the three months ended March 31, 2014, increasing by 6.9% compared to \$410 million for the three months ended March 31, 2013. In the first quarter of 2014, gross margin dollars increased for all three of the Company's reportable segments compared to the first quarter of 2013. Gross margin as a percentage of revenues did not change for the Company's temporary and consultant staffing services and increased for risk consulting and internal audit services segments on a year-over-year basis. Contributing factors for each reportable segment are discussed below in further detail.

Gross margin dollars from the Company's temporary and consultant staffing services represent revenues less direct costs of services, which consist of payroll, payroll taxes and insurance costs for temporary employees, and reimbursable expenses. Gross margin dollars for the Company's temporary and consultant staffing services

division were \$309 million for the three months ended March 31, 2014, compared to \$297 million for the three months ended March 31, 2013. As a percentage of revenues, gross margin for temporary and consultant staffing services was 36.1% in the first quarter of both 2014 and 2013.

Gross margin dollars from permanent placement staffing services represent revenues less reimbursable expenses. Gross margin dollars for the Company's permanent placement staffing division were \$93 million for three months ended March 31, 2014, compared to \$83 million for the three months ended March 31, 2013. Because reimbursable expenses for permanent placement staffing services are de minimis, gross margin dollars are substantially explained by revenues previously discussed.

Gross margin dollars for risk consulting and internal audit services represent revenues less direct costs of services, which consist primarily of professional staff payroll, payroll taxes, insurance costs and reimbursable expenses. Gross margin dollars for the Company's risk consulting and internal audit division were \$36 million for the three months ended March 31, 2014, increasing by 22.4% compared to \$30 million for the three months ended March 31, 2013. As a percentage of revenues, gross margin for risk consulting and internal audit services was 27.4% in the first quarter of 2014, up from 25.7% in the first quarter of 2013. The year-over-year margin increase expressed as a percentage of revenues is primarily due to an increase in staff utilization levels. Utilization is the relationship of the time spent on client engagements to the total time available for the Company's risk consulting and internal audit services staff.

Selling, General and Administrative Expenses. The Company's selling, general and administrative expenses were \$336 million for the three months ended March 31, 2014, increasing by 4.9% compared to \$321 million for the three months ended March 31, 2013. As a percentage of revenues, the Company's selling, general and administrative expenses were 31.0% for the first quarter of 2014, slightly down from 31.3% for the first quarter of 2013. Contributing factors related to each reportable segment are discussed below in further detail.

Selling, general and administrative expenses for the Company's temporary and consultant staffing services division were \$232 million for the three months ended March 31, 2014, up 3.5% from \$224 million for the three months ended March 31, 2013. As a percentage of revenues, selling, general and administrative expenses for temporary and consultant staffing services were 27.0% in the first quarter of 2014, down slightly from 27.2% in the first quarter of 2013.

Selling, general and administrative expenses for the Company's permanent placement staffing division were \$75 million for the three months ended March 31, 2014, increasing by 6.4% compared to \$71 million for the three months ended March 31, 2013. As a percentage of revenues, selling, general and administrative expenses for permanent placement staffing services were 81.3% in the first quarter of 2014, down from 84.9% in the first quarter of 2013. For the first quarter of 2014 compared to the first quarter of 2013, the decrease in selling, general and administrative expenses as a percentage of revenue is primarily due to higher operating leverage obtained by higher revenues, partially offset by an increase in selling expenses.

Selling, general and administrative expenses for the Company's risk consulting and internal audit services division were \$29 million for the three months ended March 31, 2014, increasing by 11.8% compared to \$26 million for the three months ended March 31, 2013. As a percentage of revenues, selling, general and administrative expenses for risk consulting and internal audit services were 21.9% in the first quarter of 2014, down from 22.5% in the first quarter of 2013. For the first quarter of 2014 compared to the first quarter of 2013, the decrease in selling, general and administrative expenses as a percentage of revenue is primarily due to higher operating leverage obtained by higher revenues, partially offset by an increase in variable overhead and administrative compensation.

Operating Income. The Company's total operating income was \$102 million, or 9.4% of revenues, for the three months ended March 31, 2014, increasing by 14.1% from \$90 million, or 8.7% of revenues, for the three months ended March 31, 2013. For the Company's temporary and consultant staffing services division, operating

income was \$78 million, or 9.0% of applicable revenues, up from \$73 million, or 8.9% of applicable revenues, in the first quarter of 2013. For the Company's permanent placement staffing division, operating income was \$17 million, or 18.7% of applicable revenues, up from an operating income of \$13 million, or 15.1% of applicable revenues, in the first quarter of 2013. For the Company's risk consulting and internal audit services division, operating income was \$7 million, or 5.5% of applicable revenues, up from an operating income of \$4 million, or 3.2% of applicable revenues, in the first quarter of 2013.

Provision for income taxes. The provision for income taxes was 39.7% and 37.5%, as a percentage of income before income taxes, for the three months ended March 31, 2014 and 2013, respectively. The higher tax rate is primarily due to fewer available foreign tax benefits.

Liquidity and Capital Resources

The change in the Company's liquidity during the three months ended March 31, 2014 and 2013 is primarily the net effect of funds generated by operations and the funds used for capital expenditures, repurchases of common stock and payment of dividends.

Cash and cash equivalents were \$268 million and \$225 million at March 31, 2014 and 2013, respectively. Operating activities provided \$59 million during the three months ended March 31, 2014, which was more than offset by \$18 million and \$50 million of net cash used in investing activities and financing activities, respectively. Operating activities provided \$28 million during the three months ended March 31, 2013, which was more than offset by \$38 million and \$49 million of net cash used in investing activities and financing activities, respectively.

Operating activities Net cash provided by operating activities for the three months ended March 31, 2014, was composed of net income of \$62 million, adjusted for non-cash items of \$26 million, and offset by changes in working capital of \$29 million. Net cash provided by operating activities for the three months ended March 31, 2013, was comprised of net income of \$56 million, adjusted for non-cash items of \$18 million, and offset by changes in working capital of \$46 million.

Investing activities Net cash used in investing activities for the three months ended March 31, 2014, was \$18 million. This was composed of capital expenditures of \$13 million and deposits to trusts for employee benefits and retirement plans of \$5 million. Net cash used in investing activities for the three months ended March 31, 2013, was \$38 million. This was comprised of capital expenditures of \$8 million and deposits to trusts for employee benefits and retirement plans of \$30 million.

Financing activities Net cash used in financing activities for the three months ended March 31, 2014, was \$50 million. This included repurchases of \$35 million in common stock and \$24 million in cash dividends to stockholders, offset by proceeds of \$8 million from exercises of stock options and \$1 million in excess tax benefits from stock-based compensation. Net cash used in financing activities for the three months ended March 31, 2013, was \$49 million. This included repurchases of \$46 million in common stock, \$22 million in cash dividends to stockholders and \$2 million in notes payable and other indebtedness, offset by proceeds of \$20 million from exercises of stock options and \$1 million in excess tax benefits from stock-based compensation.

As of March 31, 2014 the Company is authorized to repurchase, from time to time, up to 7.3 million additional shares of the Company's common stock on the open market or in privately negotiated transactions, depending on market conditions. During the three months ended March 31, 2014 and 2013, the Company repurchased 0.8 million shares and 0.8 million shares of common stock on the open market for a total cost of \$33 million and \$30 million, respectively. Additional stock repurchases were made in connection with employee stock plans, whereby Company shares were tendered by employees for the payment of exercise price and applicable statutory withholding taxes. During the three months ended March 31, 2014 and 2013, such repurchases totaled 0.2 million shares, at a cost of \$10

million, and 0.5 million shares, at a cost of \$16 million, respectively. Repurchases of shares have been funded with cash generated from operations.

The Company's working capital at March 31, 2014, included \$268 million in cash and cash equivalents. The Company expects that internally generated cash will be sufficient to support the working capital needs of the Company, the Company's fixed payments, dividends, and other obligations on both a short- and long-term basis.

On May 6, 2014, the Company announced a quarterly dividend of \$.18 per share to be paid to all shareholders of record as of May 23, 2014. The dividend will be paid on June 16, 2014.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to the impact of foreign currency fluctuations. The Company's exposure to foreign currency exchange rates relates primarily to the Company's foreign subsidiaries. Exchange rates impact the U.S. dollar value of the Company's reported earnings, investments in its foreign subsidiaries, and the intercompany transactions with its foreign subsidiaries.

For the three months ended March 31, 2014, approximately 24% of the Company's revenues were generated outside of the U.S. These operations transact business in their functional currency. As a result, fluctuations in the value of foreign currencies against the U.S. dollar, particularly the Canadian dollar, British pound, Euro, and Australian dollar, have an impact on the Company's reported results. Revenues and expenses denominated in foreign currencies are translated into U.S. dollars at the monthly average exchange rates prevailing during the period. Consequently, as the value of the U.S. dollar changes relative to the currencies of the Company's non-U.S. markets, the Company's reported results vary.

Fluctuations in currency exchange rates impact the U.S. dollar amount of the Company's stockholders' equity. The assets and liabilities of the Company's non-U.S. subsidiaries are translated into U.S. dollars at the exchange rates in effect at period end. The resulting translation adjustments are recorded in stockholders' equity as a component of accumulated other comprehensive income.

ITEM 4. Controls and Procedures

Management, including the Company's Chairman and Chief Executive Officer and the Vice Chairman and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, the Chairman and Chief Executive Officer and the Vice Chairman and Chief Financial Officer concluded that the disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports the Company files and submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

There have been no changes in the Company's internal controls over financial reporting identified in connection with the evaluation required by Rule 13a-15 of the Securities Exchange Act of 1934 that occurred during the Company's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. Legal Proceedings

On March 13, 2014, Plaintiff Leonor Rodriguez, on her own behalf and on behalf of a putative class of allegedly similarly situated individuals, filed a complaint against the Company in the Superior Court of California, San Diego County. The complaint alleges that a putative class of current and former employees of the Company working in California since March 13, 2011 were denied compensation for the time they spent interviewing with clients of the Company as well as performing activities related to the interview process. Rodriguez seeks recovery on her own behalf and on behalf of the putative class in an unspecified amount for this allegedly unpaid compensation. Rodriguez also seeks recovery of an unspecified amount for the alleged failure of the Company to provide her and the putative class with accurate wage statements. Rodriguez also seeks an unspecified amount of other damages, attorneys' fees, and statutory penalties, including but not limited to statutory penalties on behalf of herself and other allegedly aggrieved employees as defined by California's Labor Code Private Attorney General Act. At this stage of the litigation, it is not feasible to predict the outcome of or a range of loss, should a loss occur, from this proceeding and, accordingly, no amounts have been provided in the Company's Financial Statements. The Company believes it has meritorious defenses to the allegations and the Company intends to vigorously defend against the litigation.

There have been no material developments with regard to the legal proceedings previously disclosed in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2013.

ITEM 1A. Risk Factors

There have not been any material changes with regard to the risk factors previously disclosed in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2013.
