ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the SEC) using the shelf registration process under the Securities Act of 1933, as amended (the Securities Act). Under the shelf registration process, we may sell the Senior Debt Securities, Subordinated Debt Securities, Preference Shares and American Depositary Shares (collectively, the securities) described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement that will contain specific information about the terms of the securities. The prospectus supplement may also add to or update or change information contained in this prospectus. You should read both this prospectus and any prospectus supplement together with the additional information described under the heading Where You Can Find More Information.

As used in this prospectus and in your prospectus supplement, the terms Prudential, we, us and our each refer to Prudential plc.

In connection with any issue of securities through this prospectus, a stabilizing manager or any person acting for it may over-allot or effect transactions with a view to supporting the market price of such securities and any associated securities at a level higher than that which might otherwise prevail for a limited period after the issue date. However, there will be no obligation on the stabilizing manager or any of its agents to do this. Such stabilizing, if commenced, may be discontinued at any time, and must be brought to an end after a limited period.

FINANCIAL INFORMATION

We have derived the financial data set forth in this prospectus from year-end figures in our audited consolidated financial statements and interim figures in our unaudited condensed consolidated interim financial statements. Both the audited consolidated financial statements and unaudited condensed consolidated interim financial statements from which such financial data was derived were prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IASB) and as endorsed by the European Union (EU) (IFRS). The condensed financial statement schedule set forth in our most recent annual report on Form 20-F has been prepared in accordance with U.K. generally accepted accounting practice (U.K. GAAP).

Our consolidated financial statements are published in pounds sterling. In this prospectus and any prospectus supplement, U.S. dollars or \$ refers to U.S. currency, pounds sterling, £ or pence refers to U.K. currency, and refers to the currency introduced at the start of the third stage of the Economic and Monetary Union pursuant to the Treaty on the Functioning of the European Union, as amended.

L IMITATIONS ON ENFORCEMENT OF U.S. LAWS AGAINST US, OUR MANAGEMENT AND OTHERS

We are an English public limited company. Most of our directors and executive officers (and the experts named in this prospectus or in documents incorporated by reference) are resident outside the United States, and a substantial portion of our assets and the assets of such persons are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon these persons or to enforce against them or us in U.S. courts judgments obtained in U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States. We have been advised by our English solicitors, Slaughter and

1

May, that there is doubt as to enforceability in England and Wales, in original actions or in actions to enforce judgments of U.S. courts, of civil liabilities based on U.S. securities laws.

EXCLUSIVE JURISDICTION

Under our Articles of Association (the Articles), any proceeding, suit or action between a shareholder and Prudential and/or our directors arising out of or in connection with the Articles or otherwise, between Prudential and any of our directors (to the fullest extent permitted by law), between a shareholder and our professional service providers and/or between Prudential and our professional service providers (to the extent such proceeding, suit or action arises in connection with a proceeding, suit or action between a shareholder and such professional service provider) may only be brought in the courts of England and Wales.

WHERE YOU CAN FIND MORE INFORMATION

We file annual reports and special reports and other information with the SEC. You may read and copy any document we file with the SEC at the SEC s public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at (800) SEC-0330 for further information on the public reference room. Documents that we file with the SEC are also available on the website maintained by the SEC at http://www.sec.gov. The address of the SEC s website is provided solely for the information of prospective investors and is not intended to be an active link.

The SEC allows us to incorporate by reference in this prospectus the information in the documents that we file with it, which means we can disclose important information to you by referring you to those documents. The information incorporated by reference in this prospectus is considered to be an integral part of this prospectus. We incorporate by reference in this prospectus the documents listed below:

our annual report on Form 20-F for the year ended December 31, 2013 (the 2013 20-F);

our Half Year Financial Report on Form 6-K furnished to the SEC on September 19, 2014;

any future annual reports on Form 20-F that we may file with the SEC under the Securities Exchange Act of 1934, as amended (the Exchange Act), prior to the termination of any offering contemplated by this prospectus; and

any future reports on Form 6-K that we may furnish to the SEC under the Exchange Act, including future Half Year Financial Reports, but only to the extent that such reports expressly state that we incorporate them by reference herein.

All information appearing in this prospectus is qualified in its entirety by the information and financial statements, including the notes thereto, contained in the documents that we incorporate by reference herein. You may request a copy of these documents at no cost to you by writing or telephoning us at our principal executive offices, located at 12 Arthur Street, London EC4R 9AQ, England, (+44) 20 7220 7588, Attention: Group Secretarial.

Information in this prospectus may be modified by information included in subsequent Exchange Act filings that we incorporate by reference, the result of which is that only the information as modified will be part of this prospectus. Other information in the prospectus will not be affected by the replacement of this superseded information nor will an investor s ability to rely on such superseded information be affected, to the extent such reliance occurs prior to the delivery of the superseding information.

For further information regarding the ways in which we are regulated, including the details of how our regulatory capital is calculated for the purposes of the U.K. Prudential Regulation Authority (the PRA), please refer to the Bank of England s website (www.bankofengland.co.uk/pra).

FORWARD-LOOKING STATEMENTS

This prospectus, the documents incorporated by reference herein, and any accompanying prospectus supplements may contain forward-looking statements with respect to certain of Prudential s plans and its goals and expectations relating to its future financial condition, performance, results, strategy and objectives. Statements that are not historical facts, including statements about Prudential s beliefs and expectations and including, without limitation, statements containing the words may, will, should, continue, aims, estimates, projects, believes, intends, expe anticipates, and words of similar meaning, are forward-looking statements. These statements are based on plans, estimates and projections as at the time they are made, and therefore undue reliance should not be placed on them. By their nature, all forward-looking statements involve risk and uncertainty. A number of important factors could cause Prudential s actual future financial condition or performance or other indicated results to differ materially from those indicated in any forward-looking statement. Such factors include, but are not limited to, future market conditions, including fluctuations in interest rates and exchange rates and the potential for a sustained low-interest rate environment, and the performance of financial markets generally; the policies and actions of regulatory authorities, including, for example, new government initiatives related to the financial crisis and the effect of the European Union s Solvency II requirements on Prudential s capital maintenance requirements; the impact of Prudential s continuing designation as a Global Systemically Important Insurer or G-SII; the impact of competition, economic growth, inflation, and deflation; experience in particular with regard to mortality and morbidity trends, lapse rates and policy renewal rates; the timing, impact and other uncertainties of future acquisitions or combinations within relevant industries; the impact of changes in capital, solvency standards, accounting standards or relevant regulatory frameworks, and tax and other legislation and regulations in the jurisdictions in which Prudential and its affiliates operate; and the impact of legal actions and disputes. These and other important factors may for example result in changes to assumptions used for determining results of operations or re-estimations of reserves for future policy benefits. Further discussion of these and other important factors that could cause Prudential s actual future financial condition or performance or other indicated results to differ, possibly materially, from those anticipated in Prudential s forward-looking statements can be found in Item 3 Risk Factors of Prudential s most recent annual report on Form 20-F filed with the SEC and in any accompanying prospectus supplements.

Any forward-looking statements contained in this prospectus, the documents incorporated by reference herein, and any accompanying prospectus supplements speak only as of the date on which they are made. Prudential may also make or disclose written and/or oral forward-looking statements in reports filed with or furnished to the SEC, the PRA and the U.K. Financial Conduct Authority (the FCA) or other regulatory authorities, as well as in its annual report and accounts to shareholders, proxy statements, offering circulars, registration statements, prospectuses and, prospectus supplements, press releases and other written materials and in oral statements made by directors, officers or employees of Prudential to third parties, including financial analysts. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed in Item 3 Risk Factors of Prudential s most recent annual report on Form 20-F filed with the SEC and in any accompanying prospectus supplements. These risk factors are not exhaustive as Prudential operates in a continually changing business environment with new risks emerging from time to time that it may be unable to predict or that it currently does not expect to have a material adverse effect on its business. Prudential expressly disclaims any obligation to update any of the forward-looking statements contained in this prospectus, the documents incorporated by reference herein, and any accompanying prospectus supplements or any other forward-looking statements it may make, whether as a result of future events, new information or otherwise except as required pursuant to the U.K. Prospectus Rules, the U.K. Listing Rules, the U.K. Disclosure and Transparency Rules, the Hong Kong Listing Rules, the SGX-ST listing rules or other applicable laws and regulations.

USE OF PROCEEDS

Except as otherwise specified in any prospectus supplement, the net proceeds from the sale of the securities described in this prospectus will be used for our operations or for other general corporate purposes.

6

RATIOS OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for each of the periods indicated using financial information calculated in accordance with IFRS:

	Six Months Ended June 30,		Year Ended December 3		ember 31,	
	2014	2013	2012	2011	2010	2009
			IF	TRS		
Historical Ratio of Earnings ⁽¹⁾ to Fixed Charges ⁽²⁾	7.2	5.2	7.2	4.8	5.0	4.7
Supplemental Ratio of Earnings ⁽³⁾ to Fixed Charges ⁽⁴⁾	7.5	5.2	8.2	6.1	4.6	3.4
Notes:						

(1) For the purposes of calculating the ratios, earnings on the historical basis represent profit from continuing operations before tax (being tax attributable to shareholders—and policyholders—returns), non-controlling interests and share of profits from equity method accounted joint ventures and associates plus fixed charges and distributed income from equity method accounted joint ventures and associates.

Profit from continuing operations before tax (being tax attributable to shareholders and policyholders returns) is the formal profit before tax measure under IFRS but is not the result attributable to shareholders.

- (2) Fixed charges, included in the historical ratios, consist of interest expensed in the income statement under IFRS and interest payments on lease obligations for land and buildings but exclude interest expense on tax liabilities. Due to the complexity of determining the interest portion of lease payments on land and buildings, one-third of our lease payments on land and buildings has been included in fixed charges to represent a reasonable approximation of interest payments on these obligations. Fixed charges also include product-related charges. Product-related fixed charges consist of interest credited to policyholders on wholesale funding arrangements, guaranteed investment contracts and certain annuity products entered into by Jackson National Life Insurance Company (Jackson).
- (3) Management believes that the supplemental ratios are more indicative of the ability to cover our fixed charges than the historical ratios. Presentation of the supplemental ratios is neither required nor encouraged by the SEC. On the supplemental basis, the profit included in earnings represents profit from continuing operations before tax attributable to shareholders.
- (4) Fixed charges incorporated in the supplemental ratios are fixed charges explained in (2) above, but exclude product-related fixed charges, fixed charges on non-recourse borrowings and also those which are borne by the with-profits funds. Our earnings in respect of with-profit funds reflect up to one-ninth of the value of bonuses paid to policyholders, which is not directly affected by the amount of fixed charges incurred by the funds. Exclusion of fixed charges borne by with-profit funds from those included within supplemental ratios reflects the regulatory structures and accounting bases of profit recognition that attach to these particular types of with-profits business. The nature and operation of the profit sharing arrangement between policyholders and shareholders

regarding results of the with-profits funds business is distinctive to the U.K. and certain Asian operations. Separate legally ring-fenced funds are maintained in our group companies having with-profits business. Shareholder funds are only entitled to receive profit distributions from the with-profits funds as a function of profit participation bonuses distributed or credited to policyholders. In the case of the Scottish Amicable Insurance Fund (SAIF), shareholders are not entitled to any profit from the fund other than investment management fees. Earnings from with-profits business are recognized only when with-profits bonuses are declared and the shareholders—share of bonuses is transferred to the shareholders—equity. Fixed charges incurred by with-profits funds do not directly impact the level of bonuses, and therefore do not directly impact earnings.

An explanation of the basis of profits under IFRS for with-profits business is included in the 2013 Form 20-F incorporated by reference herein under Item 18 Financial Statements Note A3.1(d) Measurement of policyholder liabilities and unallocated surplus of with-profits funds and Item 5 Operating and Financial Review and Prospects Summary Consolidated Results and Basis of Preparation of Analysis Explanation of Movements in Profits After Tax and Profits Before Shareholder Tax by Reference to the Basis Applied for Segmental Disclosure Summary by Business Segment and Geographical Region United Kingdom Basis of Profits.

Fixed charges on non-recourse borrowings issued by investment subsidiaries managed by PPM America (our U.S. fund management operation) and up until 2011 by the Piedmont trust entity subsidiary (an 80% Jackson-held static trust formed as a result of a securitization of asset-backed securities in 2003) are excluded.

On the supplemental basis, after adjusting for the items described above, fixed charges consist of mainly interest arising on the core structural borrowings of Prudential (and related finance subsidiaries) required to support Prudential s main business activities and other Prudential s borrowings such as commercial paper, floating and medium term notes, which are borrowings that support a short-term fixed income securities reinvestment program.

We have not presented a table of combined fixed charges and preference dividends to earnings ratios. There is no difference between the ratios shown in the table of earnings to fixed charges above and those calculated for the ratio of combined fixed charges and preference dividends to earnings as we have not historically paid out any preference dividends.

8

DESCRIPTION OF THE SENIOR DEBT SECURITIES

As required by U.S. federal law for all bonds and notes of companies that are publicly offered, our senior debt securities (the Senior Debt Securities) will be issued under and governed by a document called an indenture. The senior indenture relating to the Senior Debt Securities is a contract between us, as issuer, and Wilmington Trust Company, as senior trustee. The senior trustee has two main roles:

first, the senior trustee can enforce the rights of holders of the Senior Debt Securities against us if we default. There are some limitations on the extent to which the senior trustee acts on behalf of holders of the Senior Debt Securities, described under Defaults, Remedies and Waivers of Default; and

second, the senior trustee performs administrative duties for us, such as sending interest payments and notices to the holders of the Senior Debt Securities.

The senior indenture and its associated documents, including any supplemental indenture relating to a particular series of Senior Debt Securities and the Senior Debt Securities in question, contain the full text of the matters summarized in this section and in your prospectus supplement. The senior indenture has been incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part, and any supplemental indentures relating thereto will be filed as exhibits to future filings with the SEC from time to time. See Where You Can Find More Information above for information on how to obtain copies.

The statements and descriptions in this prospectus or in any prospectus supplement regarding the provisions of the senior indenture and the Senior Debt Securities are summaries, do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all the provisions of the senior indenture (together with any related amendments or supplements thereto) and the Senior Debt Securities themselves, including the definitions therein of certain terms. Although we will include in a supplement to this prospectus the specific terms of each series of Senior Debt Securities being offered, the senior indenture (together with any related amendments or supplements thereto) and the Senior Debt Securities themselves, and not any summary of the terms thereof, will govern the rights of holders of the Senior Debt Securities.

General

The senior indenture does not limit the aggregate principal amount of Senior Debt Securities that we may issue thereunder. We may issue such securities from time to time in one or more series. All Senior Debt Securities of any one series need not be issued at the same time.

Your prospectus supplement will describe the specific terms of the series of Senior Debt Securities to which it relates, including some or all of the following terms:

the designation, authorized denominations and aggregate principal amount of the series of Senior Debt Securities;

the stated maturity of the series of Senior Debt Securities;

the price or prices at which the Senior Debt Securities will be originally issued, expressed as a percentage or percentages of the principal amount of the Senior Debt Securities of the same series, and the original issue date or dates or periods during which the Senior Debt Securities may be issued;

the date or dates on which (or, if applicable, the range of dates within which) any payment of principal, interest or premium on the Senior Debt Securities will be payable (or the manner of determining the same), and the record date for any such payment;

the place or places at which any payments on the Senior Debt Securities will be payable, where any transfer, conversion or exchange will occur and where notice or demands to or upon us may be served;

9

if interest is payable, the interest rate or rates, or how the interest rate or rates may be determined;

the terms and conditions of any mandatory or optional redemption, repayment or repurchase of the Senior Debt Securities, including, if applicable, notice requirements, legal and regulatory requirements, redemption, repayment or repurchase dates, periods and prices or amounts;

the manner in which the amount of any payments on the Senior Debt Securities may be determined by reference to an index or formula, or other reference asset or factors;

the currency or currencies in which the Senior Debt Securities are denominated, and in which we will make any payments;

if we or holders of the Senior Debt Securities have the right to elect the currency or currencies in which any payments on the Senior Debt Securities will be made, the currency or currencies that we or the holders may elect, the terms and conditions applicable to such elections and the time and manner of determining the relevant exchange rate and calculating currency equivalents;

the amount, or how to determine the amount, that we will pay if the Senior Debt Securities are redeemed before their stated maturity or accelerated;

provisions, if any, for the satisfaction or discharge of the Senior Debt Securities, or a statement that no such provisions apply;

any mandatory or optional sinking funds or analogous provisions;

the terms and conditions, if any, under which the Senior Debt Securities may or will be converted into or exchanged for other specified securities, whether issued by Prudential or otherwise;

if applicable, the circumstances under which we will pay additional amounts on any Senior Debt Securities and under which we may redeem the Senior Debt Securities of the series if we have to pay additional amounts;

any other terms or conditions applicable to payment of any principal, interest or premium on the Senior Debt Securities;

any notices to legal or regulatory authorities or consents from legal and regulatory authorities that comprise part of, or are required in order to give effect to, the terms of the Senior Debt Securities of the series;

any addition to, elimination of or other change in the events of default or other events permitting remedies that apply to the Senior Debt Securities, and the remedies available following the occurrence thereof;

whether the Senior Debt Securities of the series will be issued in whole or in part as one or more global securities and, if so issued, the conditions that must be satisfied before we will issue the Senior Debt Securities in definitive form;

any listing of the Senior Debt Securities on a securities exchange;

the form of the Senior Debt Securities of the series (including the terms and conditions of such Senior Debt Securities);

any restrictions applicable to the offer, sale and delivery of the Senior Debt Securities;

the material tax consequences of acquiring, owning and disposing of the Senior Debt Securities under U.S. federal and U.K. income tax laws; and

any other terms of the series of Senior Debt Securities, including any addition to, elimination of or other change to the definitions or covenants or to any other terms or conditions set forth in the senior indenture.

10

Unless otherwise indicated in your prospectus supplement, holders of the Senior Debt Securities will not be entitled to any voting rights except as otherwise described herein.

Unless otherwise indicated in your prospectus supplement, the provisions of the senior indenture (together with any related amendments or supplements thereto) and the Senior Debt Securities themselves do not afford holders of the Senior Debt Securities protection in the event of a highly leveraged or other transaction involving us that might adversely affect them.

Legal Ownership and Form

Unless the applicable prospectus supplement provides otherwise, we will issue Senior Debt Securities registered in the name of holders as set out in the books of a security registrar (*i.e.*, in registered form). Our obligations, as well as the obligations of the senior trustee and those of any third parties employed by us or the senior trustee, run only to persons who are registered as holders of the Senior Debt Securities.

Investors who hold Senior Debt Securities in accounts with banks or brokers will generally not be recognized by us as legal holders of the Senior Debt Securities. This is called holding in street name. Instead, we would recognize only the bank or broker, or the financial institution the bank or broker uses to hold its Senior Debt Securities, as legal holders. These intermediary banks, brokers and other financial institutions pass along principal, interest and other payments, either because they agree to do so in their customer agreements or because they are legally required to do so. As noted above, we do not have obligations to an investor who holds in street name or other indirect means, either because the investor chooses to hold Senior Debt Securities in that manner or because the Senior Debt Securities are issued in the form of global securities as described below. For example, once we make payment to the registered holder, we have no further responsibility for the payment even if that holder is legally required to pass the payment along to the investor as a street name customer but does not do so.

A global security is a special type of indirectly held security. If Senior Debt Securities in registered form are represented by one or more global securities, we will require that such global securities be registered in the name of a financial institution we select, and not be transferred to the name of any other direct holder unless certain special circumstances described in the section Global Securities occur. The financial institution that acts as the sole direct holder of the global security is called the depositary. Any person wishing to own a beneficial interest in a global security must do so indirectly by virtue of an account with a broker, bank or other financial institution that in turn has an account with the depositary. The rights of these indirect owners will be governed solely by the applicable procedures of the depositary and its participants. Unless the applicable prospectus supplement provides otherwise, Senior Debt Securities in registered form will be represented by interests in one or more global securities.

Global securities are further discussed in the section Global Securities in this prospectus.

Please note that when we refer to holders in this Description of the Senior Debt Securities , we mean direct holders of the Senior Debt Securities and not street name or other indirect holders of the Senior Debt Securities. When we refer to you in this Description of the Senior Debt Securities , we mean those who invest in the Senior Debt Securities being offered, whether they are the holders or only indirect owners of those securities.

Status of the Senior Debt Securities

The Senior Debt Securities will constitute our direct unsubordinated and (subject to the provisions set forth under Senior Debt Securities Negative Pledge below) unsecured obligations. In each case, these obligations shall be without any preference among themselves and will rank at least equally with all of our other unsecured and unsubordinated

obligations. This will be subject to such exceptions as are from time to time applicable under the laws of the United Kingdom and to laws or legal procedures of general applicability relating

11

to or affecting creditors rights. Other unsecured and unsubordinated indebtedness may contain covenants, events of default and other provisions that are different from or which are not contained in the Senior Debt Securities.

Senior Debt Securities Negative Pledge

So long as any Senior Debt Securities remain outstanding, we will not, and will ensure (so far as we can do so by the proper exercise of our voting and other rights or powers of control exercisable in relation to such company) that the Principal subsidiary (as defined below) will not create or permit to exist any mortgage or charge upon the whole or any part of our or its undertaking or assets (other than assets representing the fund or funds we maintain, or as the case may be, the Principal subsidiary maintains, in respect of long-term business (as defined in the Financial Services and Markets Act 2000 of the United Kingdom)), present or future, to secure payment of any of our present or future Relevant indebtedness (as defined below) of any of our Subsidiaries (as defined below), or to secure any guarantee or indemnity in respect thereof, without at the same time securing such outstanding Senior Debt Securities and all amounts payable under the senior indenture in respect thereof equally and ratably with the same security as is created or subsisting to secure any such Relevant indebtedness, guarantee or indemnity, or such other security as shall be approved by the holders of at least 75% in principal amount of the outstanding Senior Debt Securities of that series.

Subsidiary means, for the purposes of this Senior Debt Securities Negative Pledge section, a company that is a subsidiary of Prudential, within the meaning of Section 1159 of the Companies Act 2006 of Great Britain (Section 1159). Section 1159 provides that a company will be our subsidiary where:

we hold the majority of its voting rights,

we are a member of it and have the right to appoint or remove a majority of its board of directors,

we are a member of it and control alone, pursuant to an agreement with other shareholders or members, a majority of the voting rights in it, or

such company is a subsidiary of a company that is our subsidiary.

Principal subsidiary means The Prudential Assurance Company Limited for so long as it remains our Subsidiary.

Relevant indebtedness means any indebtedness for borrowed money (other than indebtedness in the form of sterling debenture stock (as defined in the senior indenture) or indebtedness that has a stated maturity not exceeding one year) which is in the form of, or represented or evidenced by, bonds, notes, debentures, loan stock or other securities that, with our agreement or the agreement of any relevant Subsidiary (as defined above), as the case may be, are quoted, listed, dealt in or traded on a stock exchange or over the counter or other recognized securities market (whether or not distributed by way of private placement), excluding any indebtedness for borrowed money in respect of which the person to whom such indebtedness is owed has no recourse whatsoever to us or the Principal subsidiary (as defined above), as the case may be, for repayment other than recourse for amounts limited to the cash flow or net cash flow (other than historic cash flow or historic net cash flow) from such asset.

Defaults, Remedies and Waivers of Default

Defaults and Remedies

Unless the applicable prospectus supplement provides otherwise, an event of default with respect to each series of Senior Debt Securities shall result if:

1. we do not pay any principal (or premium, if any) on any Senior Debt Securities of that series on the due date for payment, or default is made on the payment of interest, and, in each case, such default continues for a period of 14 days from the due date for payment;

12

- 2. any covenant or warranty in the senior indenture (other than as stated above with respect to payments when due) has been breached in any material respect and that breach has not been remedied within 30 days of receipt by us of a written notice from the senior trustee, or receipt by us and the senior trustee of written notice of such breach from holders of at least 25% in aggregate principal amount of the outstanding Senior Debt Securities of that series, requiring that the breach be remedied;
- 3. either a court of competent jurisdiction issues an order that is not successfully appealed within 30 days, or an effective shareholders—resolution is validly adopted, for our winding up or for the winding up of the Principal subsidiary (except, in the case of the Principal subsidiary, for the purposes of, or in connection with, a reconstruction or amalgamation the terms of which have previously been approved in writing by the holders of at least 75% in aggregate principal amount of the outstanding Senior Debt Securities of that series or in the event of a voluntary solvent winding up where surplus assets are available for distribution);
- 4. we or the Principal subsidiary stop or threaten to stop payments to creditors generally or we or the Principal subsidiary cease or threaten to cease to carry on our or its business or substantially the whole of our or its business (except for the purposes of, or in connection with, a reconstruction or amalgamation the terms of which have previously been approved in writing by the holders of at least 75% in aggregate principal amount of the outstanding Senior Debt Securities of that series or, in the case of the Principal subsidiary, in the event of a voluntary solvent winding up where surplus assets are available for distribution);
- 5. an encumbrancer takes possession or an administrative or other receiver or an administrator is appointed of the whole or any substantial part of our undertaking, property and assets or the whole or substantial part of the undertaking, property and assets of the Principal subsidiary, or if a distress or execution is levied or enforced upon or sued out against the whole or any substantial part of our chattels or property or the whole or substantial part of the chattels or property of the Principal subsidiary and, in the case of any of the foregoing events, is not discharged within 60 days;
- 6. we or the Principal subsidiary are unable to pay debts within the meaning of Section 123(2) of the Insolvency Act 1986 of the United Kingdom;
- 7. our indebtedness or the indebtedness of the Principal subsidiary for moneys borrowed (as defined below), which indebtedness in respect of any single company has an outstanding aggregate principal amount of at least £30,000,000 (or its equivalent in any other currency or currencies) is not paid on its due date as extended by any applicable grace period and following a demand therefor, or is declared to be or automatically becomes, due and payable prior to its stated maturity by reason of default or if any guarantee or indemnity in respect of indebtedness for moneys borrowed of any third party that we or the Principal subsidiary have given (having in respect of any single company an outstanding aggregate principal amount as aforesaid) is not honored when due and called upon and, in any such case, our liability or the liability of the Principal subsidiary, as the case may be, to make payment is not being contested in good faith; or
- 8. the Principal subsidiary shall cease to be our Subsidiary, except pursuant to an amalgamation, reconstruction or winding-up the terms of which have previously been approved in writing by the holders of at least 75% in

aggregate principal amount of the outstanding Senior Debt Securities of that series or a voluntary solvent winding-up where surplus assets are available for distribution.

Indebtedness for moneys borrowed means the principal amount of (i) all moneys borrowed and (ii) all debentures (together in each case with any fixed or minimum premium payable on final redemption or repayment) that neither we nor any of our Subsidiaries beneficially owns for the time being.

For the purposes of paragraph 8 above and the definition of indebtedness for moneys borrowed, Subsidiary has the same meaning given to it in Senior Debt Securities Negative Pledge.

13

If an event of default occurs and is continuing, the senior trustee or the holders of at least 25% of the aggregate principal amount of the outstanding Senior Debt Securities of that series may declare:

the entire principal amount of (including premium, if any, on) (or, in the case of discounted securities, a lesser amount specified in your prospectus supplement) of all such Senior Debt Securities; and

if specified in your prospectus supplement, any accrued but unpaid interest payments thereon, to be due and payable immediately. This is called an acceleration of the maturity. If the maturity of any Senior Debt Securities has been accelerated, but a judgment for payment has not yet been obtained, the holders of a majority in aggregate principal amount of the outstanding Senior Debt Securities of the affected series may, under certain circumstances, cancel the acceleration.

If an event of default occurs, the senior trustee will have certain additional duties. In that situation, the senior trustee will be obligated to use its rights and powers under the senior indenture, and in so doing, to use the same degree of care and skill in its exercise of the rights and powers vested in it by the senior indenture as a prudent person would exercise under the circumstances in the conduct of such person s own affairs.

The senior trustee will be under no obligation to exercise any of its rights or powers under the senior indenture at the request of any holder of Senior Debt Securities, unless such holder shall have offered to the senior trustee security and indemnity satisfactory to the senior trustee against any loss, liability or expense, and then only to the extent required by the terms of the senior indenture. Subject to these senior indenture provisions for the indemnification of the senior trustee, the holder(s) of a majority in aggregate principal amount of the outstanding Senior Debt Securities of any series will, subject to certain limitations, have the right to direct the time, method and place of conducting any proceeding seeking any remedy available to the senior trustee.

Unless the applicable prospectus supplement provides otherwise, before holders are allowed to bypass the senior trustee and bring their own lawsuit or other formal legal action or take other steps to enforce their rights or protect their interests relating to the Senior Debt Securities, all of the following must generally occur:

such holders must give the senior trustee written notice that an event of default has occurred, and the event of default must not have been cured or waived;

holders of at least 25% of the aggregate principal amount of the outstanding Senior Debt Securities of that series must make a written request that the senior trustee take action because of the event of default, and they or other holders must offer to the trustee indemnity satisfactory to the senior trustee against the cost and other liabilities of taking that action;

the senior trustee must not have taken action for 60 days after the above steps have been taken; and

during those 60 days, the holders of a majority of the aggregate principal amount of the outstanding Senior Debt Securities of that series must not have given the trustee directions that are inconsistent with the written request of the holders of at least 25% of the aggregate principal amount of the outstanding Senior Debt Securities of that series.

Notwithstanding these limitations, nothing will impair the right of a holder of the Senior Debt Securities to institute suit for the enforcement of payment of the principal of (and premium, if any, on) and interest, if any, on such Senior Debt Securities on or after the respective stated maturities, if any, thereof, as provided in the senior indenture or the Senior Debt Securities.

The senior trustee will, within 90 days of a default with respect to the Senior Debt Securities of any series, give to each holder of the Senior Debt Securities of the affected series notice of any default it knows about, unless the default has been cured or waived. However, except in the case of a default in the payment of the principal of (or premium, if any), or interest, if any, on the affected Senior Debt Securities, the senior trustee will be entitled to withhold such notice if it determines in good faith that withholding of the notice is in the interest of the holder(s) of such series.

14

We Will Give the Senior Trustee Information about Defaults Annually

We will furnish the senior trustee with an annual certificate of certain of our officers certifying, to the best of their knowledge, whether we are, or have been, in default and specifying the nature and status of any such default. In addition, we are required to provide the senior trustee with written notice within five days of our becoming aware of any event of default, or event that could mature into an event of default, under the senior indenture.

Waivers of Certain Defaults

The holders of not less than a majority in aggregate principal amount of the outstanding Senior Debt Securities of a particular affected series may generally also waive any events of default. If this happens, the relevant event of default will be treated as if it had not occurred. No one, however, can waive defaults by us in the payment of the principal of (and premium, if any, on) and interest, if any, on any such Senior Debt Securities or in respect of a covenant or a provision that under the senior indenture (together with any related amendments or supplements thereto) cannot be modified or amended without the consent of each holder of the outstanding Senior Debt Securities of such a series.

Consolidation, Merger and Sale or Lease of Assets

Unless otherwise indicated in your prospectus supplement, we may, without the consent of the holders of any Senior Debt Securities, consolidate with or merge into or transfer or lease our properties and assets substantially as an entirety, provided, however, that any successor corporation formed by any such consolidation or merger or any such transferee or lessee of our assets is a corporation or other person organized and validly existing under the laws of a member country of the Organisation for Economic Co-operation and Development that assumes our obligations on the Senior Debt Securities and the senior indenture, and a number of other conditions are met.

Note that any such conditions will apply only if we wish to merge or consolidate with another entity or sell our assets substantially as an entirety to another entity. We will not need to satisfy these conditions if we enter into other types of transactions, including any transaction in which we acquire the securities or assets or another entity, any transaction that involves a change of control of Prudential but in which we do not merge or consolidate, and any transaction in which we sell less than substantially all our assets.

Modifications

Under certain circumstances, we can make changes to the senior indenture and the Senior Debt Securities. The following three types of changes are possible.

Changes Requiring Approval by each Holder

The first type of change comprises changes that cannot be made without the specific approval of each holder of each affected series of Senior Debt Securities. These include changes that:

change the stated maturity of the principal, any installment of principal or any interest on any Senior Debt Security;

reduce the rate or amount of any interest;

reduce the principal or any premium payable on redemption;

change the place or currency of payment;

change the right of holders to waive an existing default by majority vote;

impair the right to sue for payment;

15

reduce the percentage of holders who must consent to a waiver or amendment of the senior indenture or the waiver of defaults; and

make any change to the list of changes that requires the approval of each holder, including the foregoing. *Changes Requiring 50% Approval*

The second type of change comprises changes that require approval by the holders of at least 50% of the aggregate principal amount of the outstanding Senior Debt Securities of each affected series. Most changes fall into this category, except for clarifying changes and other changes that would not adversely affect holders in any material respect.

Changes Not Requiring Approval

The third type of change does not require any approval by holders of Senior Debt Securities. This type is limited to clarifications and other changes that would not adversely affect holders of the Senior Debt Securities in any material respect.

Waivers of Certain Covenants

Our obligations to comply with certain restrictive covenants in the senior indenture pertaining to corporate existence and maintenance of certain agencies or as pertain to the negative pledge covenant described under Senior Debt Securities Negative Pledge above may be waived by holders of not less than a majority in aggregate principal amount (or any greater requisite amount, as the case may be) of the outstanding Senior Debt Securities of each affected series. See also the discussion in Defaults, Remedies and Waivers of Default Waivers of Certain Defaults with respect to the ability of holders to waive events of default.

Further Issuances

We may from time to time, without notice to or the consent of the holders of the outstanding Senior Debt Securities of a series, create and issue under the applicable indenture (together with any related amendments or supplements thereto) further Senior Debt Securities of such series ranking *pari passu* with such outstanding Senior Debt Securities in all respects (or in all respects except for the payment of interest accruing prior to the issue date of such further Senior Debt Securities or except for the first payment of interest following the issue date of such further Senior Debt Securities) and so that any further Senior Debt Securities of such series shall be consolidated and form a single series with the outstanding Senior Debt Securities of such series and shall have the same terms as to status, redemption or otherwise as such outstanding Senior Debt Securities.

Notices

Notices to holders of Senior Debt Securities in registered form will be given by mail to the addresses of such holders as they appear in the security register, or in any other permitted manner specified in your prospectus supplement.

Title

We, the senior trustee and any of our agents or any agents of the senior trustee may treat the registered owner of any Senior Debt Security in registered form as the absolute owner thereof (whether or not such security shall be overdue and notwithstanding any notice to the contrary) for the purpose of making payment and for all other purposes.

Consent to Service; Jurisdiction

We have appointed Jackson National Life Insurance Company at 1 Corporate Way, Lansing, Michigan 48951, as our authorized agent for service of process in any suit or proceeding to which we are party arising out of or relating to the Senior Debt Securities or the senior indenture that may be instituted in any federal or state court in the Borough of Manhattan in New York City and have submitted to the jurisdiction of those courts. Notwithstanding the foregoing, actions relating to the Senior Debt Securities or the senior indenture may (subject to the limitations on enforcement described in this prospectus and, if applicable, in your prospectus supplement) be instituted by the holder of any Senior Debt Security in any competent court in England and Wales.

Governing Law

The senior indenture and the Senior Debt Securities will be governed by and construed in accordance with the laws of the State of New York.

17

DESCRIPTION OF THE SUBORDINATED DEBT SECURITIES

As required by U.S. federal law for all bonds and notes of companies that are publicly offered, our subordinated debt securities (the Subordinated Debt Securities) will be issued under and governed by a document called an indenture. The subordinated indenture relating to the Subordinated Debt Securities is a contract between us, as issuer, and Deutsche Bank Trust Company Americas, as subordinated trustee. The subordinated trustee has two main roles:

first, the subordinated trustee can enforce the rights of holders of the Subordinated Debt Securities against us if we default. There are some limitations on the extent to which the subordinated trustee acts on behalf of holders of the Subordinated Debt Securities, described under Defaults, Remedies and Waivers of Default; and

second, the subordinated trustee performs administrative duties for us, such as sending interest payments and notices to holders of the Subordinated Debt Securities.

The subordinated indenture and its associated documents, including any supplemental indenture relating to a particular series of Subordinated Debt Securities and the Subordinated Debt Securities themselves, contain the full text of the matters summarized in this section and your prospectus supplement. The subordinated indenture has been incorporated by reference as an exhibit to the registration statement of which this prospectus forms a part, and any suppTD>\$0.864 Leverage as of January 31, 2011⁴ 36%

Fund Summary as of January 31, 2011 BlackRock MuniYield Pennsylvania Quality Fund

Fund Overview

Effective November 9, 2010, BlackRock MuniYield Pennsylvania Insured Fund changed its name to BlackRock MuniYield Pennsylvania Quality

Fund. BlackRock MuniYield Pennsylvania Quality Fund s (MPA) (the Fund) investment objective is to provide shareholders with as high a

level of current income exempt from federal and Pennsylvania income taxes as is consistent with its investment policies and prudent investment

management. The Fund seeks to achieve its investment objective by investing at least 80% of its assets in municipal obligations exempt from

federal income taxes (except that the interest may be subject to the federal alternative minimum tax) and Pennsylvania income taxes. Under

normal market conditions, the Fund invests primarily in long-term municipal obligations that are investment grade quality at the time of

investment. The Fund may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Fund s investment objective will be achieved.

Performance

Effective November 9, 2010, the Fund s investment policy was changed by the removal of the insurance investment policy that required at least

80% of Fund assets to be invested in insured municipal securities. Accordingly, the Fund was moved from the Lipper Single-State Insured

Municipal Debt Funds category into the Lipper Pennsylvania Municipal Debt Funds category. For the six months ended January 31, 2011,

the Fund returned (10.43)% based on market price and (6.76)% based on NAV. For the same period, the closed-end Lipper Pennsylvania

Municipal Debt Funds category posted an average return of (9.19)% based on market price and (6.17)% based on NAV, while the closed-end

Lipper Single-State Insured Municipal Debt Funds category posted an average return of (9.05)% based on market price and (6.44)% based on

NAV. All returns reflect reinvestment of dividends. The Fund's discount to NAV, which widened during the period, accounts for the difference

between performance based on price and performance based on NAV. A generally negative municipal market environment hindered Fund

performance. Conversely, the Fund maintained a low average cash reserve level, which benefited total return by boosting income accrual.

Increased exposure to tender option bonds to take advantage of the historically steep municipal yield curve also benefited the income

accrual. In addition, the Fund s holdings in corporate-backed municipals aided performance as non-traditional investors identified the

sector s attractive investment opportunities and subsequently drove up demand.

10 SEMI-ANNUAL REPORT JANUARY 31, 2011

The Benefits and Risks of Leveraging

The Funds may utilize leverage to seek to enhance the yield and NAV of their common shares of beneficial interest (Common Shares). However, these objectives cannot be achieved in all interest rate environments.

To leverage, the Funds issue preferred shares (Preferred Shares), which pay dividends at prevailing short-term interest rates, and invest the proceeds in long-term municipal bonds. In general, the concept of leveraging is based on the premise that the financing cost of assets to be obtained from leverage, which will be based on short-term interest rates, will normally be lower than the income earned by each Fund on its longer-term portfolio investments. To the extent that the total assets of each Fund (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Fund s holders of common shares (Common Shareholders) will benefit from the incremental net income.

To illustrate these concepts, assume a Fund s Common Shares capitalization is \$100 million and it issues Preferred Shares for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Fund pays dividends on the \$50 million of Preferred Shares based on the lower short-term interest rates. At the same time, the securities purchased by the Fund with assets received from the Preferred Shares issuance earn income based on long-term interest rates. In this case, the dividends paid to holders of preferred shares (Preferred Shareholders) are significantly lower than the income earned on the Fund s long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup on the Common Shares will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Fund pays dividends on the higher short-term interest rates whereas the Fund s total portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Fund s portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Fund s Preferred Shares does not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Fund s NAV positively or negatively in addition to the impact on Fund performance from leverage from Preferred Shares discussed above.

The Funds may also leverage their assets through the use of TOBs, as

described in Note 1 of the Notes to Financial Statements. TOB investments generally will provide the Funds with economic benefits in periods of declining short-term interest rates, but expose the Funds to risks during periods of rising short-term interest rates similar to those associated with Preferred Shares issued by the Funds, as described above. Additionally, fluctuations in the market value of municipal bonds deposited into the TOB may adversely affect each Fund s NAV per share.

The use of leverage may enhance opportunities for increased income to the Funds and Common Shareholders, but as described above, it also creates risks as short or long-term interest rates fluctuate. Leverage also will generally cause greater changes in the Funds NAVs, market prices and dividend rates than comparable portfolios without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, the Funds net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, the Funds net income will be less than if leverage had not been used, and therefore the amount available for distribution to Common Shareholders will be reduced. Each Fund may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause a Fund to incur losses. The use of leverage may limit each Fund s ability to invest in certain types of securities or use certain types of hedging strategies, such as in the case of certain restrictions imposed by ratings agencies that rate Preferred Shares issued by the Funds. Each Fund will incur expenses in connection with the use of leverage, all of which are borne by Common Shareholders and may reduce income to the Common Shares.

Under the Investment Company Act of 1940, the Funds are permitted to issue Preferred Shares in an amount of up to 50% of their total managed assets at the time of issuance. Under normal circumstances, each Fund anticipates that the total economic leverage from Preferred Shares and/or TOBs will not exceed 50% of its total managed assets at the time such leverage is incurred. As of January 31, 2011, the Funds had economic leverage from Preferred Shares and/or TOBs as a percentage of their total managed assets as follows:

	Percent of
	Leverage
MUC	45%
MUJ	39%
MFT	41%
MIY	39%
MJI	36%
MPA	40%

Derivative Financial Instruments

The Funds may invest in various derivative instruments, including financial futures contracts, as specified in Note 2 of the Notes to Financial Statements, which may constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the derivative instrument. Each Fund s ability to successfully use a derivative instrument depends on the investment advisor s ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require a Fund to sell or purchase portfolio securities at inopportune times or for distressed values, may limit the amount of appreciation a Fund can realize on an investment, may result in lower dividends paid to shareholders or may cause a Fund to hold an investment that it might otherwise sell. The Funds investments in these instruments are discussed in detail in the Notes to Financial Statements.

14 SEMI-ANNUAL REPORT JANUARY 31, 2011

Schedule of Investments (concluded) BlackRock MuniHoldings California Quality Fund, Inc. (MUC)

For Fund compliance purposes, the Fund s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements. The following table summarizes the inputs used as of January 31, 2011 in determining the fair valuation of the Fund's investments:

Schedule of Investments (concluded) BlackRock MuniHoldings New Jersey Quality Fund, Inc. (MUJ)

- (a) Variable rate security. Rate shown is as of report date.
- (b) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (c) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (d) Security is collateralized by Municipal or US Treasury obligations.
- (e) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (f) Securities represent bonds transferred to a TOB in exchange for which the Fund acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.
- (g) Investments in companies considered to be an affiliate of the Fund during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

	Shares Held		Shares Held	
	at July 31,	Net	at January 31,

BIF New Jersey				
Municipal				
Money Fund	1,117,529	7,443,493	8,561,022	\$ 1,305

(h) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the

Fund s own assumptions used in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of January 31, 2011 in determining the fair valuation of the Fund s investments:

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Investments in:				
Securities:				
Long-Term				
Investments ¹		\$ 467,162,931		\$ 467,162,931

22 SEMI-ANNUAL REPORT JANUARY 31, 2011

Schedule of Investments (concluded) BlackRock MuniYield Investment Quality Fund (MFT)

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements. The following table summarizes the inputs used as of January 31, 2011 in determining the fair valuation of the Fund's investments:

For Fund compliance purposes, the Fund s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements. The following table summarizes the inputs used as of January 31, 2011 in determining the fair valuation of the Fund's investments:

- (a) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (b) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (c) US government securities, held in escrow, are used to pay interest on this security as well as to retire the bond in full at the date indicated, typically at a premium to par.
- (d) Securities represent bonds transferred to a TOB in exchange for which the Fund acquired residual interest certificates. These securities serve as collateral in a financing transaction. See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOBs.
- (e) Investments in companies considered to be an affiliate of the Fund during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

	Shares Held		Shares Held	
	at July 31,	Net	at January 31,	
Affiliate	2010	Activity	2011	Income
BIF New Jersey				
Municipal				
Money Fund	4,549,254	(331,993)	4,217,261	\$ 593

(f) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical

or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements. The following table summarizes the inputs used as of January 31, 2011 in determining the fair valuation of the Fund's investments:

SEMI-ANNUAL REPORT JANUARY 31, 2011 31

Schedule of Investments (concluded) BlackRock MuniYield Pennsylvania Quality Fund (MPA)

(f) Investments in companies considered to be an affiliate of the Fund during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

	Shares Held		Shares Held	
	at July 31,	Net	at January 31,	
Affiliate	2010	Activity	2011	Income
BIF Pennsylvania				
Municipal				
Money Fund	8,508,134	(3,500,844)	5,007,290	

(g) Represents the current yield as of report date.

For Fund compliance purposes, the Fund s sector classifications refer to any one or more of the sector sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine such sector sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Fund's own assumptions used in determining the fair value of investments). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements. The following table summarizes the inputs used as of January 31, 2011 in determining the fair valuation of the Fund's investments:

1. Organization and Significant Accounting Policies:

BlackRock MuniHoldings California Quality Fund, Inc. (MUC), formerly MuniHoldings California Insured Fund, Inc., BlackRock MuniHoldings New Jersey Quality Fund, Inc. (MUJ), formerly BlackRock MuniHoldings New Jersey Fund, Inc., BlackRock MuniYield Investment Quality Fund, Inc. (MFT), formerly BlackRock MuniYield Insured Investment Fund, BlackRock MuniYield Michigan Quality Fund, Inc. (MIY), formerly BlackRock MuniYield Michigan Insured Fund, Inc., BlackRock MuniYield New Jersey Quality Fund, Inc. (MJI), formerly MuniYield New Jersey Insured Fund, Inc. and BlackRock MuniYield Pennsylvania Quality Fund, Inc. (MPA), formerly MuniYield Pennsylvania Insured Fund (collectively, the Funds or individually, as a Fund), are registered under the Investment Company Act of 1940, as amended (the 1940 Act), as non-diversified, closed-end management investment companies. MUC, MUJ, MIY and MJI are organized as Maryland corporations. MFT and MPA are organized as Massachusetts business trusts. The Funds' financial statements are prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"), which may require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The Funds determine, and make available for publication the net asset value of their Common Shares on a daily basis.

The following is a summary of significant accounting policies followed by the Funds:

Valuation: The Funds fair value their financial instruments at market value using independent dealers or pricing services under policies approved by each Fund s Board of Directors/Trustees (the Board). Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments and information with respect to various relationships between investments. Financial futures contracts traded on exchanges are valued at their last sale price. Short-term securities with remaining maturities of 60 days or less may be valued at amortized cost, which approximates fair value. Investments in open-end investment companies are valued at net asset value each business day.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment or is not available, the investment will be valued in accordance with a policy approved by the Board as reflecting fair

value ("Fair Value Assets"). When determining the price for Fair Value Assets, the investment advisor and/or the sub-advisor seeks to determine the price that each Fund might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Board or a committee thereof.

Zero-Coupon Bonds: The Funds may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

Forward Commitments and When-Issued Delayed Delivery Securities: The Funds may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. The Funds may purchase securities under such conditions with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may fluctuate prior to settlement. the Funds may be required to pay more at settlement than the security is worth. In addition, the Funds are not entitled to any of the interest earned prior to settlement. When purchasing a security on a delayed delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations. In the event of default by the counterparty, the Funds' maximum amount of loss is the unrealized appreciation of unsettled when-issued transactions, which is shown on the Schedules of Investments, if any.

Municipal Bonds Transferred to Tender Option Bond Trusts: The Funds leverage their assets through the use of TOBs. A TOB is established by a third party sponsor forming a special purpose entity, into which one or more funds, or an agent on behalf of the funds, transfers municipal bonds. Other funds managed by the investment advisor may also contribute municipal bonds to a TOB into which a Fund has contributed bonds. A TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors, and residual certificates (TOB Residuals), which are generally issued to the participating funds that made the transfer. The TOB Residuals held by a Fund include the right of a Fund (1) to cause the holders of a proportional share of the shortterm floating rate certificates to tender their certificates at par, including during instances of a rise in short-term interest rates, and (2) to transfer, within seven days, a corresponding share of the municipal bonds from the TOB to a Fund. The TOB may also be terminated without the consent of a Fund upon the occurrence of certain events as defined in the TOB agreements. Such termination events may include the bankruptcy or default of the municipal bond, a substantial downgrade in credit quality of the municipal bond, the inability of the TOB to obtain quarterly or annual renewal of the liquidity support agreement, a substantial decline in market value of

the municipal bond or the inability to remarket the short-term floating rate certificates to third party investors. During the six months ended January 31, 2011, no TOBs that the Funds participated in were terminated without the consent of the Funds.

The cash received by the TOB from the sale of the short-term floating rate certificates, less transaction expenses, is paid to a Fund, which typically invests the cash in additional municipal bonds. Each Fund's transfer of the municipal bonds to a TOB is accounted for as a secured borrowing, therefore the municipal bonds deposited into a TOB are presented in the Funds' Schedules of Investments and the proceeds from the issuance of

SEMI-ANNUAL REPORT JANUARY 31, 2011 45

Notes to Financial Statements (continued)

the short-term floating rate certificates are shown as trust certificates in the Statements of Assets and Liabilities.

Interest income, including amortization and accretion of premiums and discounts, from the underlying municipal bonds is recorded by the Funds on an accrual basis. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to a TOB are shown as interest expense and fees in the Statements of Operations. The short-term floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. At January 31, 2011, the aggregate value of the underlying municipal bonds transferred to TOBs, the related liability for trust certificates and the range of interest rates on the liability for trust certificates were as follows:

	Underlying	Liability	
	Municipal Bonds	for Trust	Range of
	Transferred to TOBs	Certificates	Interest Rates
MUC	\$326,430,224	\$181,854,633	0.29% 0.46%
MUJ	\$ 20,679,832	\$ 13,262,930	0.29% 0.39%
MFT	\$ 28,316,826	\$ 15,525,099	0.29% 0.44%
MIY	\$ 29,733,430	\$ 16,190,000	0.27% 0.46%
MJI	\$ 7,394,789	\$ 4,684,369	0.29% 0.39%
MPA	\$ 73,858,304	\$ 38,440,136	0.29% 0.49%

For the six months ended January 31, 2011, the Funds' average trust certificates outstanding and the daily weighted average interest rates, including fees, were as follows:

	Average Trust	Daily Weighted
	Certificates	Average
	Outstanding	Interest Rate
MUC	\$181,854,633	0.79%
MUJ	\$ 13,262,930	0.73%
MFT	\$ 16,529,486	0.84%
MIY	\$ 16,190,000	0.72%
MJI	\$ 4,684,369	0.73%
MPA	\$ 38,444,753	0.83%

Should short-term interest rates rise, the Funds' investments in TOBs may adversely affect the Funds' net investment income and dividends to Common Shareholders. Also, fluctuations in the market values of municipal bonds deposited into the TOB may adversely affect the Funds' net asset values per share.

Segregation and Collateralization: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that the Funds either deliver collateral or segregate assets in connection with certain investments (e.g., financial futures contracts), the Funds will, consistent with SEC rules and/or certain interpretive letters issued by the SEC, segregate collateral or designate on their books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each party has requirements to deliver/deposit securities as collateral for certain investments.

Investment Transactions and Investment Income: For financial reporting purposes, investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on investment transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income, including amortization and accretion of premiums and discounts on debt securities, is recognized on the accrual basis.

Dividends and Distributions: Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. The amount and timing of dividends and distributions are determined in accordance with federal income tax regulations, which may differ from US GAAP. Dividends and distributions to Preferred Shareholders are accrued and determined as described in Note 7.

Income Taxes: It is each Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

The Funds file US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Funds' US federal tax returns remains open for the year ended July 31, 2010, the period ended July 31, 2009 and for each of the two years ended June 30, 2009 for MUC, for each of the four years ended July 31, 2010 for MUJ and for each of the two years ended July 31, 2010 and period ended July 31, 2008 and for the year ended October 31, 2007 for MFT, MIY, MJI and MPA. The statutes of limitations on the Funds' state and local tax returns may remain open for an additional year depending upon the jurisdiction. Management does not believe there are any uncertain tax positions that require recognition of a tax liability.

Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan: Under the deferred compensation plan approved by each Fund's Board, non-interested Directors (Independent Directors) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of certain other BlackRock Closed-End Funds selected by the Independent Directors. This has approximately the same economic effect for the Independent Directors as if the Independent Directors had invested the deferred amounts directly in certain other BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations there-under represent general unsecured claims against the general assets of each Fund. Each Fund may, however, elect to invest in common shares of certain other BlackRock Closed-End Funds selected by the Independent Directors in order to match its deferred compensation obligations. Investments to cover each Fund's deferred compensation liability, if any, are included in other assets in the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Fund investments under the plan are included in income affiliated in the Statements of Operations.

Notes to Financial Statements (continued)

Other: Expenses directly related to a Fund are charged to the Fund. Other operating expenses shared by several funds are pro rated among those funds on the basis of relative net assets or other appropriate methods. The Funds have an arrangement with the custodian whereby fees may be reduced by credits earned on uninvested cash balances, which if applicable are shown as fees paid indirectly in the Statements of Operations. The custodian imposes fees on overdrawn cash balances, which can be offset by accumulated credits earned or may result in additional custody charges.

2. Derivative Financial Instruments:

The Funds engage in various portfolio investment strategies using derivative contracts both to increase the returns of the Funds and to economically hedge, or protect, their exposure to certain risks such as interest rate risk. These contracts may be transacted on an exchange.

Losses may arise if the value of the contract decreases due to an unfavorable change in the market rates or values of the underlying instrument or if the counterparty does not perform under the contract. Counterparty risk related to exchange-traded financial futures contracts is deemed to be minimal due to the protection against defaults provided by the exchange on which these contracts trade.

Financial Futures Contracts: The Funds purchase or sell financial futures contracts and options on financial futures contracts to gain exposure to, or economically hedge against, changes in interest rates (interest rate risk.) Financial futures contracts are agreements between the Fund and counterparty to buy or sell a specific quantity of an underlying instrument at a specified price and at a specified date. Depending on the terms of the particular contract, futures contracts are settled either through physical delivery of the underlying instrument on the settlement date or by payment of a cash settlement amount on settlement date. Pursuant to the contract, the Funds agree to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as margin variation and are recorded by the Funds as unrealized gains or losses. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of financial futures transactions involves the risk of an imperfect correlation in the movements in the price of financial futures contracts, interest rates and the underlying assets.

3. Investment Advisory Agreement and Other Transactions with Affiliates:

The PNC Financial Services Group, Inc. ("PNC"), Bank of America Corporation ("BAC") and Barclays Bank PLC ("Barclays") are the largest stockholders of BlackRock, Inc. ("BlackRock"). Due to the ownership structure, PNC is an affiliate of the Funds for 1940 Act purposes, but BAC and Barclays are not.

Each Fund entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Manager), the Funds' investment advisor, an indirect, wholly owned subsidiary of BlackRock, to provide investment advisory and administration services. The Manager is responsible for the management of each Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of each Fund. For such services, each Fund pays the Manager a monthly fee at the following annual rates of each Fund's average daily net assets:

MUC	0.55%
MUJ	0.55%
MFT	0.50%
MIY	0.50%
MJI	0.50%
MPA	0.50%

Average daily net assets are the average daily value of each Fund's total assets minus the sum of its accrued liabilities.

The Manager voluntarily agreed to waive its investment advisory fees by the amount of investment advisory fees each Fund pays to the Manager indirectly through its investment in affiliated money market funds, however the Manager does not waive its investment advisory fees by the amount of investment advisory fees paid through each Fund's investment in other affiliated investment companies, if any. This amount is shown as, or included in, fees waived by advisor in the Statements of Operations. For the six months ended January 31, 2011, the amounts waived were as follows:

MUC	\$24,371
MUJ	\$10,703
MFT	\$ 915
MIY	\$ 8,209
MJI	\$ 5,658
MPA	\$ 4,215

The Manager, for MUC and MUJ, voluntarily agreed to waive its investment advisory fee on the proceeds of the Preferred Shares and TOBs that exceed 35% of net assets applicable to Common Shareholders. This amount is

SEMI-ANNUAL REPORT JANUARY 31, 2011 47

included in fees waived by advisor in the Statements of Operations. For the six months ended January 31, 2011 the amounts waived were as follows:

	Amount
MUC	\$332,827
MUJ	\$ 43,110

The Manager entered into a sub-advisory agreement with BlackRock Investment Management, LLC ("BIM"), an affiliate of the Manager. The Manager pays BIM for services it provides, a monthly fee that is a percentage of the investment advisory fees paid by each Fund to the Manager.

For the period August 1, 2010 through December 31, 2010, the Funds reimbursed the Manager for certain accounting services, which are included in accounting services in the Statements of Operations. The reimbursements were as follows:

MUC	\$9,730
MUJ	\$1,949
MFT	\$1,828
MIY	\$1,728
MJI	\$ 828
MPA	\$2,571

Effective January 1, 2011, the Funds no longer reimburse the Manager for accounting services.

Certain officers and/or directors of the Funds are officers and/or directors of BlackRock or its affiliates. The Funds reimburse the Manager for compensation paid to the Funds' Chief Compliance Officer.

4. Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended January 31, 2011, were as follows:

	Purchases		Sales
MUC		\$166,658,216	\$110,073,312
MUJ		\$ 33,393,203	\$ 37,698,608
MFT		\$ 25,912,699	\$ 18,899,959

MIY	\$ 29,220,911	\$ 36,439,581

MPA	\$ 11,286,773	\$ 10,856,928

5. Capital Loss Carryforward:

As of July 31, 2010, the Funds had capital loss carryforwards available to offset future realized capital gains through the indicated expiration dates:

Expires July 31,	MUC	MFT	MIY	MPA
2011	\$ 3,015,538			
2012		\$ 2,081,725	\$3,875,883	
2016	2,097,897	659,619	1,689,814	
2017	8,756,104	993,919	2,031,132	\$2,948,179

Total	\$13,869,539	\$10,090,082	\$7,596,829	\$ 3,842,087

Under the recently enacted Regulated Investment Company Modernization Act of 2010, capital losses incurred by the Funds after July 31, 2011 will not be subject to expiration. In addition, these losses must be utilized prior to the losses incurred in pre-enactment taxable years.

6. Concentration, Market and Credit Risk:

MUC, MUJ, MIY, MJI and MPA invest a substantial amount of their assets in issuers located in a single state or limited number of states. Please see the Schedules of Investments for concentrations in specific states.

Many municipalities insure repayment of their bonds, which may reduce the potential for loss due to credit risk. The market value of these bonds may fluctuate for other reasons, including market perception of the value of such insurance, and there is no guarantee that the insurer will meet its obligation.

In the normal course of business, the Funds invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (issuer credit risk). The value of securities held by the Funds may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Funds; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to issuer credit risk, the Funds may be exposed to counterparty credit risk, or the risk that an entity with which the Funds have unsettled or open transactions may fail to or be unable to perform on its commitments. The Funds manage counterparty credit risk by entering into

transactions only with counterparties that they believe have the financial resources to honor their obligations and by monitoring the financial stability of those counterparties. Financial assets, which potentially expose the Funds to market, issuer and counterparty credit risks, consist principally of financial instruments and receivables due from counterparties. The extent of the Funds' exposure to market, issuer and counterparty credit risks with respect to these financial assets is generally approximated by their value recorded in the Funds' Statements of Assets and Liabilities, less any collateral held by the Funds.

MUC and MFT invest a significant portion of their assets in securities in the County/City/Special District/School District and Utilities sectors. MUJ and MJI invest a significant portion of their assets in securities in the State sector. MIY invests a significant portion of its assets in securities in the County/City/Special District/School District sector. MPA invests a significant portion of its assets in securities in the County/City/Special District/School District and State sectors.

Changes in economic conditions affecting the County/City/Special District/School District, State and Utilities sectors would have a greater impact on the Funds and could affect the value, income and/or liquidity of positions in such securities.

7. Capital Share Transactions:

MFT and MPA are authorized to issue an unlimited number of Common Shares, par value \$0.10 per share together with 1 million Preferred Shares of beneficial interest, par value is \$0.05 per share. Each Fund s Board is authorized, however, to reclassify any unissued shares without approval of Common Shareholders.

48 SEMI-ANNUAL REPORT JANUARY 31, 2011

Notes to Financial Statements (continued)

MUC, MUJ, MIY, and MJI are authorized to issue 200 million shares, including Preferred Shares, par value is \$0.10 per share or \$0.05 per share, all of which were initially classified as Common Shares. Each Fund s Board is authorized, however, to reclassify any unissued shares without approval of Common Shareholders.

Common Shares

Shares issued and outstanding remained constant for MUC and MIY during the six months ended January 31, 2011 and the year ended July 31, 2010, respectively.

For MUJ, shares issued and outstanding increased by 12,381 as a result of reinvestment of dividends for the six months ended January 31, 2011 and remained constant during the year ended July 31, 2010.

For MFT, shares issued and outstanding increased by 6,451 for the six months ended January 31, 2011 and increased by 5,456 as a result of reinvestment of dividends during the year ended July 31, 2010.

For MJI, shares issued and outstanding increased by 24,556 for the six months ended January 31, 2011 and increased by 15,316 as a result of reinvestment of dividends during the year ended July 31, 2010.

For MPA, shares issued and outstanding increased by 5,736 as a result of reinvestment of dividends for the six months ended January 31, 2011 and remained constant during the year ended July 31, 2010.

Preferred Shares

The Preferred Shares are redeemable at the option of each Fund, in whole or in part, on any dividend payment date at their liquidation preference per share plus any accumulated and unpaid dividends whether or not declared. The Preferred Shares are also subject to mandatory redemption at their liquidation preference plus any accumulated and unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of a Fund, as set forth in each Fund's Articles of Supplementary (the Governing Instrument) are not satisfied.

From time to time in the future, each Fund may effect repurchases of its Preferred Shares at prices below their liquidation preference as agreed upon by the Fund and seller. Each Fund also may redeem its Preferred Shares from time to time as provided in the applicable Governing Instrument. Each Fund intends to effect such redemptions and/or repurchases to the extent necessary to maintain applicable asset coverage requirements or for such other reasons as the Board may determine.

The holders of Preferred Shares have voting rights equal to the holders of Common Shares (one vote per share) and will vote together with holders of Common Shares (one vote per share) as a single class. However, the holders of Preferred Shares, voting as a separate class, are also entitled to elect two Directors for each Fund. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class would be required to (a) adopt any plan of

reorganization that would adversely affect the Preferred Shares, (b) change a Fund's sub-classification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

The Funds had the following series of Preferred Shares outstanding, effective yields and reset frequency as of January 31, 2011:

¹ The maximum applicable rate on this series of Preferred Shares is the higher of 110% plus or times (i) the Telerate/BAA LIBOR or (ii) 90% of Kenny S&P 30-day High Grade Index rate divided by 1.00 minus the marginal tax rate.

² The maximum applicable rate on this series of Preferred Shares is the higher of 110% of the AA commercial paper rate or 110% of 90% of the Kenny S&P 30-day High Grade Index rate divided by 1.00 minus the marginal tax rate.

Dividends on seven-day Preferred Shares are cumulative at a rate, which is reset every seven days, based on the results of an auction. If the Preferred Shares fail to clear the auction on an auction date, each Fund is required to pay the maximum applicable rate on the Preferred Shares to holders of such shares for successive dividend periods until such time as the shares are successfully auctioned. The maximum applicable rate on all series of Preferred Shares is the higher of 110% of the AA commercial paper rate or 100% of 90% of the Kenny S&P 30-day High Grade Index divided by 1.00 minus the marginal tax rate. The low, high and average dividend rates on the Preferred Shares for each Fund for the six months ended January 31, 2011 were as follows:

Since February 13, 2008, the Preferred Shares of the Funds failed to clear any of their auctions. As a result, the Preferred Shares dividend rates were reset to the maximum applicable rate, which ranged from 0.37% to 1.56% for the six months ended January 31, 2011. A failed auction is not an event of default for the Funds but it has a negative impact on the liquidity of Preferred Shares. A failed auction occurs when there are more sellers of a Fund's auction rate Preferred Shares than buyers. A successful auction for the Funds' Preferred Shares may not occur for some time, if ever, and even if liquidity does resume, Preferred Shareholders may not have the ability to sell the Preferred Shares at their liquidation preference.

The Funds may not declare dividends or make other distributions on Common Shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares is less than 200%.

The Funds pay commissions of 0.15% on the aggregate principal amount

of all shares that fail to clear their auctions and 0.25% on the aggregate principal amount of all shares that successfully clear their auctions. Certain broker dealers have individually agreed to reduce commissions for failed auctions.

Preferred Shares issued and outstanding remained constant for the six months ended January 31, 2011 for all Funds.

During the period, MIY and MPA entered into a Fee Agreement (the Agreement) with a financial institution in relation to the potential refinancing of Preferred Shares. Pursuant to the terms of the Agreement, effective February 1, 2011 MIY and MPA will pay a liquidity fee, through the earlier of the date of the potential refinancing or July 1, 2011, at an annual rate of 0.50% of the potential refinancing amounts.

8. Restatement Information:

During the year ended October 31, 2006 MIY determined that the criteria for sale accounting under US GAAP has not been met for certain transfers of municipal bonds related to investments in TOB Residuals, and that these transfers should have been accounted for as secured borrowings rather than as sales. As a result, certain financial highlights for the year ended October 31, 2005 for MIY have been restated to give effect to recording the transfers of the municipal bonds as secured borrowings, including recording interest on the bonds as interest income and interest on the secured borrowings as interest expense.

Proxy Results

The Annual Meeting of Shareholders was held on September 2, 2010 for shareholders of record on July 6, 2010, to elect director nominees for

each Fund. Due to a lack of quorum of Preferred Shares, action on the proposal regarding the Preferred Shares nominees' election for MFT,

MIY, MJI, MPA and MUC was subsequently adjourned to October 5, 2010; and action on the proposal regarding Preferred Shares nominees'

election for MFT and MPA was additionally adjourned to November 2, 2010. There were no broker non-votes with regard to any of the Funds.

Additional Information (continued)

Dividend Policy

The Funds dividend policy is to distribute all or a portion of their net investment income to its shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the Trusts may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net investment income earned in that month. As a result, the dividends paid by the Trusts for any particular month may be more or less than the amount of net investment income earned by the Funds during such month. The Funds current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

General Information

On June 10, 2010, BlackRock Advisors, LLC, the Funds investment advisor (the Manager), announced that MUJ and MIY each received a demand letter from a law firm on behalf of Common Shareholders of MUJ and MIY. The demand letters allege that the Manager and officers and Boards of Directors (the Boards) of MUJ and MIY breached their fiduciary duties by redeeming at par certain of MUJ and MIY s Preferred Shares, and demanded that the Boards take action to remedy those alleged breaches. In response to the demand letter, the Boards established a Demand Review Committee (the Committee) of the Independent Directors to investigate the claims made in the demand letters with the assistance of independent counsel. Based upon its investigation, the Committee recommended that the Boards reject the demand specified in the demand letters. After reviewing the findings of the Committee, the Board for each Fund unanimously adopted the Committee s recommendation and unanimously voted to reject the demand.

Electronic Delivery

Electronic copies of most financial reports are available on the Funds websites or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the Funds electronic delivery program.

Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

Householding

The Funds will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please call (800) 441-7762.

Availability of Quarterly Schedule of Investments

Each Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Funds Forms N-Q are available on the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. Each Fund s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

Availability of Proxy Voting Policies and Procedures

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling (800) 441-7762; (2) at http://www.blackrock.com; and (3) on the SEC s website at http://www.sec.gov.

Availability of Proxy Voting Record

Information about how the Funds voted proxies relating to securities held in the Funds portfolios during the most recent 12-month period ended June 30 is available upon request and without charge (1) at http://www.blackrock.com or by calling (800) 441-7762 and (2) on the SEC s website at http://www.sec.gov.

Availability of Fund Updates

BlackRock will update performance and certain other data for the Funds on a monthly basis on its website in the Closed-end Funds section of http://www.blackrock.com. Investors and others are advised to periodically check the website for updated performance information and the release of other material information about the Funds.

SEMI-ANNUAL REPORT JANUARY 31, 2011 53

Additional Information (continued)

Board Approvals

On September 1, 2010, the Board of Directors (the Boards) of MUC, MUJ, MFT, MIY, MJI, and MPA (the Funds) approved changes to certain investment policies of the Funds.

Historically, under normal market conditions, each Fund has been required to invest at least 80% of its assets in municipal bonds either (i) insured under an insurance policy purchased by the Fund or (ii) insured under an insurance policy obtained by the issuer of the municipal bond or any other party. In September 2008, the Funds adopted an amended investment policy of purchasing only municipal bonds insured by insurance providers with claims-paying abilities rated investment grade at the time of investment (the Insurance Investment Policy).

Following the onset of the credit and liquidity crises, the claims-paying ability rating of most of the municipal bond insurance providers was lowered by the rating agencies. These downgrades called into question the long-term viability of the municipal bond insurance market, which had the potential to severely limit the ability of the Manager to manage the Funds under the Insurance Investment Policy.

As a result, on September 1, 2010, the Manager recommended, and the Boards approved, the removal of the Insurance Investment Policy. As a result of this investment policy change, the Funds are not required to dispose of assets currently held within the Funds. The Funds will maintain, and have no current intention to amend, their investment policy of, under normal market conditions, generally investing in municipal obligations rated investment grade at the time of investment.

As each Fund increases the amount of its assets that are invested in municipal obligations that are not insured, the Fund s shareholders will be exposed to the risk of the failure of such securities issuers to pay interest and repay principal and will not have the benefit of protection provided under municipal bond insurance policies. As a result, shareholders will be more dependent on the analytical ability of the Manager to evaluate the credit quality of issuers of municipal obligations in which the Fund invests. The Boards believe that the amended investment policy is in the best interests of each Fund and its shareholders because it believes that the potential benefits from increased flexibility outweigh the potential increase in risk from the lack of insurance policies provided by weakened insurance providers. Of course, the new investment policy cannot assure that each Fund will achieve its investment objective.

As disclosed in each Fund s prospectus, each Fund is required to provide shareholders 60 days notice of a change to the Insurance Investment

Policy. Accordingly, a notice describing the changes discussed above was mailed to shareholders of record as of September 1, 2010. The new investment policy took effect on November 9, 2010. The Manager has been gradually repositioning each Fund s portfolios over time, and during such period, each Fund may continue to hold a substantial portion of its assets in insured municipal bonds. At this time, the repositioning of each Fund s portfolio is still taking place, and the Funds will continue to be subject to risks associated with investing a substantial portion of their assets in insured municipal bonds until the repositioning is complete. No action is required by shareholders of the Funds in connection with this change.

In connection with this change in non-fundamental policy, each of the Funds underwent a name change to reflect its new portfolio characteristics.

Each Fund continues to trade on the New York Stock Exchange under its current ticker symbol.

The approved changes did not alter any Fund s investment objective.

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Funds have leveraged their Common Shares, which creates risks for Common

Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares, and the risk

that fluctuations in the short-term dividend rates of the Preferred Shares, currently set at the maximum reset rate as a result of failed

auctions, may reduce the Common Shares yield. Statements and other information herein are as dated and are subject to change.
