Item 2.05 Costs Associated with Exit or Disposal Activities

On February 12, 2015, Zynga Inc. (the Company) announced that it expects to terminate approximately 71 employees, or approximately 4% of the Company's total work force, in connection with the closure of its office in Beijing, China. The office is being closed as its recent launches of FarmVillage along with ongoing product localization initiatives are not meeting expectations and as part of an overall plan to reduce the Company's long term cost structure. The Company expects the terminations and office closure to be substantially completed by June 30, 2015.

The Company expects that the total pre-tax restructuring charges will be approximately \$3.1 million, consisting of approximately \$2.5 million in one-time cash severance and other employee-related costs, and approximately \$0.6 million in lease and contract termination costs. The Company expects to recognize substantially all of the pre-tax restructuring charges during the first quarter of 2015. The numbers set forth above are good faith estimates made as of the date of this filing and may change as a result of a number of factors, including the timing of the terminations and office closure.

This Form 8-K includes statements that may constitute forward-looking statements, including estimates of employee headcount reductions and office closures that may be implemented, savings that may be realized, future charges that may be incurred, and cash expenditures that may be made by the Company in connection with the restructuring plan described above. These forward-looking statements generally are identified by words such as estimate, plan and expect, or similar expressions. Forward-looking statements inherently involve risks and uncertainties that could cause actual results of the Company and its subsidiaries to differ materially from the forward-looking statements. Factors that could contribute to such differences include: the Company's ability to implement the restructuring in various jurisdictions; possible changes in the size and components of the expected costs and charges associated with the restructuring; risks associated with the Company's ability to achieve the benefits of the restructuring; and the risks detailed in the Company's registration statements and periodic reports filed with the Securities and Exchange Commission. By making these forward-looking statements, the Company undertakes no obligation to update these statements for revisions or changes after the filing of this Form 8-K.
