The percentage of beneficial ownership of the Reporting Persons was calculated by dividing (i) the shares of Common Stock beneficially owned and deemed to be beneficially owned by the Reporting Persons as of the date of this Statement; by (ii) 88,255,129 shares of Common Stock, which is the sum of (a) 79,075,834 shares of Common Stock outstanding on October 31, 2014, as set forth in the Quarterly Report on Form 10-Q of the Issuer (as defined below) for the period ended September 30, 2014, filed with the Securities and Exchange Commission on November 7, 2014; and (b) 9,179,295 shares of Common Stock that may be issuable upon conversion of the Tranche I Note, Tranche II Note and Convertible Note.
