Summary

This summary highlights information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. Because this is a summary, it may not contain all of the information that is important to you. Before making an investment decision, you should read the entire prospectus supplement, the accompanying prospectus and the documents incorporated by reference, including the section entitled "Supplemental risk factors" in this prospectus supplement and "Part I, Item 1A Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014 (as such risk factors may be updated from time to time in our public filings).

Our company

We are the fourth largest incumbent local exchange carrier (ILEC) in the United States, with 3.5 million customers across 28 states and approximately 17,800 employees. Our products and services include wireline voice, data and video for 3.2 million residential customers and approximately 300,000 business customers. We have transformed from a smaller rural provider of telephone services into a provider of communications and entertainment services that is diversified across rural, suburban and metropolitan markets. We generated revenues of approximately \$4.8 billion for the year ended December 31, 2014 and approximately \$1.4 billion for the three months ended March 31, 2015.

Following the consummation of the Verizon Transaction, we will operate in 29 states, passing approximately 14.6 million households, with approximately 4.6 million broadband connections, 1.8 million video connections and 7.2 million total customers. Moreover, our fiber/U-verse services will be available to more than 30% of the homes we pass. Pro forma for the Verizon Transaction and the Connecticut Acquisition, which was consummated on October 24, 2014, our total revenues for the year ended December 31, 2014 would have been approximately \$11.5 billion, approximately double our standalone operations, before giving effect to the Connecticut Acquisition and the Verizon Transaction.

We offer a broad portfolio of high-quality communications services, including voice services, Internet access, broadband-enabled services, and video services for residential and business customers in each of our markets. We offer these services both on a standalone basis and as bundled packages that are designed to simplify customer purchasing decisions and to provide the customer with attractive pricing. We have skilled technicians and supervisors staffed in our local markets. Our call center operations and field technicians are staffed with 100% U.S.-based employees.

Our mission is to be the leader in providing communications services to residential and business customers in our markets. We are committed to delivering innovative and reliable products and solutions with an emphasis on convenience, service and customer satisfaction. We believe that our local engagement structure enables us to adapt our offerings and marketing to the needs of local markets and that our 100% U.S.-based workforce and innovative product positioning will continue to differentiate us from our competitors in the markets in which we compete.

The Verizon Transaction

On February 5, 2015, we entered into a Securities Purchase Agreement (the "Verizon Purchase Agreement") with Verizon Communications Inc. ("Verizon") to acquire, among other things, Verizon's wireline business and statewide fiber networks that provide services to residential, commercial and wholesale customers in

Table of Contents

California, Texas and Florida, along with certain of Verizon's FiOS customers in those states (the Verizon Transaction) for a purchase price of \$10.54 billion in cash and assumed debt, subject to certain adjustments specified in the Verizon Purchase Agreement. Pursuant to the Verizon Purchase Agreement, we will acquire all of the issued and outstanding limited liability company interests of a limited liability company to be formed by Verizon (Newco), which will hold the outstanding limited liability company interests and capital stock of Verizon Florida LLC, GTE Southwest Incorporated and Verizon California Inc. (collectively with Newco, the Verizon Transferred Companies). Prior to the closing under the Verizon Purchase Agreement, (i) Verizon will transfer to the Verizon Transferred Companies certain assets and cause the Verizon Transferred Companies to assume certain liabilities relating to the business to be acquired and (ii) the Verizon Transferred Companies will transfer to Verizon certain assets, and Verizon will assume certain liabilities of the Verizon Transferred Companies, to be retained by Verizon following the closing (the Verizon Transferred Companies, taking into account such transactions, being referred to as the Verizon Separate Telephone Operations or VSTO).

The Verizon assets complement our existing platform and position us well strategically. We believe that these assets offer attractive demographics because the operations we are acquiring from Verizon are in the three most populated states in the United States (California, Florida, and Texas) and they also have economic growth that is above the U.S. average. The network assets are high quality, with high fiber penetration approximately 54% of the footprint is FiOS-enabled allowing us to offer customers market-leading broadband speeds and very high-quality video products. The acquisition of the Verizon properties is aligned with our strategic focus on broadband as it will increase our broadband base by 2.2 million customers. We also anticipate potential for incremental growth with business customers, which we will pursue with carrier Ethernet products we have made available to business and other carrier customers within our existing footprint. We also anticipate there will be an opportunity to sell Frontier Secure, our security/technical support/identity protection suite, into customers within these new regions.

The VSTO generated operating revenues of approximately \$5.8 billion and net loss of approximately \$32 million for the fiscal year ended December 31, 2014, and operating revenues of approximately \$1.4 billion and net income of approximately \$88 million for the three months ended March 31, 2015. We would have generated, on a pro forma basis after giving effect to the Verizon Transaction and the Connecticut Acquisition, which was consummated on October 24, 2014, revenues of approximately \$11.5 billion and net loss of approximately \$126 million for the fiscal year ended December 31, 2014, and revenues of approximately \$2.8 billion and net loss of approximately \$96 million for the three months ended March 31, 2015. As of March 31, 2015, the VSTO had approximately 3.6 million voice, 2.2 million broadband and 1.2 million video connections. The Verizon Transaction will add approximately 11,000 employees to our Company. The consummation of the Verizon Transaction is subject to the satisfaction of certain conditions, including review or approval by various federal and state regulatory agencies and other closing conditions as more fully described in the Verizon Purchase Agreement. We currently expect the Verizon Transaction to close in the first half of 2016. There can be no assurance that we will be able to consummate the Verizon Transaction on a timely basis or at all. See Description of the Verizon Transaction.

On February 5, 2015, in connection with the execution of the Verizon Purchase Agreement, we entered into a commitment letter (the Commitment Letter), dated February 5, 2015, with JPMorgan Chase Bank, N.A., J.P. Morgan Securities LLC, Bank of America, N.A., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Citigroup Global Markets Inc. (such financial institutions being referred to as the Commitment Parties), pursuant to which the Commitment Parties have committed to provide two bridge loan facilities, initially for a total amount of \$11.594 billion, which amount was subsequently reduced by us to \$10.850 billion, for the purposes of funding

Table of Contents

(i) the cash consideration for the Verizon Transaction and (ii) the fees and expenses incurred in connection with the transactions contemplated by the Verizon Purchase Agreement. The first bridge loan facility was initially in the amount of \$8.594 billion (the 8/10 Year Bridge Facility), which amount was automatically reduced in accordance with its terms by \$744 million in connection with the effectiveness of certain amendments entered into on March 5, 2015 to our two outstanding credit agreements with CoBank, ACB and certain other lenders. The second bridge loan facility is in the amount of \$3.0 billion (the 18 Month Bridge Facility). The commitments in respect of the 8/10 Year Bridge Facility and the 18 Month Bridge Facility will be automatically reduced, subject to certain exceptions and limitations, on a dollar-for-dollar basis by (x) the gross cash proceeds of any issuance of senior unsecured notes by Frontier (with such amounts being applied first to reduce the 8/10 Year Bridge Facility), (y) the net cash proceeds of the incurrence by Frontier of certain indebtedness for borrowed money (with such amounts being applied first to reduce the 8/10 Year Bridge Facility) and (z) the net cash proceeds from any issuance of equity by Frontier, including the proceeds from the concurrent offering and the sale of the securities in this offering (with such amounts being applied first to reduce the 18 Month Bridge Facility). The financing commitments of the Commitment Parties are currently undrawn and are subject to various conditions set forth in the Commitment Letter.

We intend to use the proceeds of this offering along with the proceeds of the concurrent offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The proceeds of this offering together with the proceeds of the concurrent offering will reduce the commitments under the 18 Month Bridge Facility. The balance of the financing in connection with the Verizon Transaction could take any of several forms or any combination of them, including but not limited to the following: (i) we may issue senior notes in the public and/or private capital markets; (ii) we may enter into one or more senior secured first lien term loan facilities; (iii) we may use cash on hand; and (iv) we may draw funds under the 18 Month Bridge Facility and the 8/10 Year Bridge Facility. We refer to the financing transactions relating to the Verizon Transactions, including this offering and the concurrent offering, as the Verizon Financing Transactions.

The Connecticut Acquisition

On October 24, 2014, we acquired the wireline properties of AT&T Inc. (AT&T) in Connecticut by acquiring all of the issued and outstanding capital stock of The Southern New England Telephone Company and SNET America, Inc. (the Transferred AT&T Companies) for a purchase price of \$2.0 billion in cash, excluding adjustments for working capital (the Connecticut Acquisition), pursuant to a Stock Purchase Agreement, dated as of December 16, 2013 (the AT&T Purchase Agreement). Prior to the closing of the Connecticut Acquisition, (i) AT&T transferred to the Transferred AT&T Companies certain assets and caused the Transferred AT&T Companies to assume certain liabilities relating to the business to be acquired and (ii) the Transferred AT&T Companies transferred to AT&T certain assets, and AT&T assumed certain liabilities of the Transferred AT&T Companies, to be retained by AT&T following the closing (the Transferred AT&T Companies, after giving effect to such transactions, are referred to herein as the Connecticut Operations). The Company financed the Connecticut Acquisition using the net proceeds of an offering of \$1.55 billion aggregate principal amount of senior unsecured notes, borrowings of \$350 million under a term loan credit agreement and cash on hand (the Connecticut Financing Transactions).

As of March 31, 2015, on a pro forma basis to give effect to the Verizon Transaction and the other events described under Unaudited pro forma condensed combined financial information, we would have had a total of approximately \$18.6 billion of outstanding indebtedness, including long-term debt, short-term debt and long-term financial obligations. We have the ability to, and may incur, additional indebtedness in the future. See Unaudited pro forma condensed combined financial information.

Acquisition termination redemption If the Verizon Transaction has not closed on or before 5:00 p.m. (New York City time) on August 6, 2016, the Verizon Purchase Agreement is terminated or if we determine in our reasonable judgment that the Verizon Transaction will not occur, we may, at our option, in our sole discretion, give notice of acquisition termination redemption to the holders of the shares of Mandatory Convertible Preferred Stock. If we provide such notice, then, on the acquisition termination redemption date (as defined herein), we will be required to redeem the shares of Mandatory Convertible Preferred Stock, in whole but not in part, at a redemption amount per share of Mandatory Convertible Preferred Stock equal to the acquisition termination make-whole amount described herein.

If redeemed, we will pay the acquisition termination make-whole amount in cash unless the acquisition termination share price described herein is greater than the initial price. If the acquisition termination share price is greater than the initial price, we will pay the acquisition termination make-whole amount in shares of our common stock and cash, unless we elect, subject to certain limitations, to pay cash or shares of our common stock in lieu of such amounts. See Description of Mandatory Convertible Preferred Stock Acquisition termination redemption.

Other than pursuant to the provisions described in this prospectus supplement, the shares of Mandatory Convertible Preferred Stock will not be redeemable by us. See Description of Mandatory Convertible Preferred Stock Acquisition termination redemption.

Mandatory Conversion Date June 29, 2018.

fundamental change or redeemed as described under Description of Mandatory Convertible Preferred Stock Acquisition termination redemption, on the mandatory conversion date (subject to postponement in certain cases), each then outstanding share of the Mandatory Convertible Preferred Stock will automatically convert into a number of shares of our common stock based on the conversion rate described below. See Description of Mandatory Convertible Preferred Stock Conversion rights Mandatory conversion.

Mandatory conversion rate

If we declare a dividend for the dividend period ending on the mandatory conversion date, we will pay such dividend to the holders presenting the Mandatory Convertible Preferred Stock for conversion. If, prior to the mandatory conversion date, we have not declared and paid all or any portion of the accumulated dividends on the Mandatory Convertible Preferred Stock, the conversion rate will be adjusted so that holders receive an additional number of shares of our common stock equal to the amount of such accumulated dividends (such amount, the additional conversion amount) divided by the greater of the floor price and 97% of the average price with respect to the dividend payment date falling on June 29, 2018. To the extent that the additional conversion amount exceeds the product of the number of additional shares and 97% of the average price, we will, if we are legally able to do so, declare and pay such excess amount in cash pro rata to the holders of the Mandatory Convertible Preferred Stock. The conversion rate for each share of the Mandatory Convertible Preferred Stock will be not more than 20.0000 shares of our common stock and not less than 17.0213 shares of our common stock (the maximum conversion rate and minimum conversion rate, respectively), depending on the applicable market value (as defined below) of our common stock, subject to certain anti-dilution adjustments.

The applicable market value of our common stock is the average VWAP per share of our common stock for the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day immediately preceding June 29, 2018.

Table of Contents

The following table illustrates the conversion rate per share of the Mandatory Convertible Preferred Stock, subject to adjustment as described under Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments, in this prospectus supplement, based on the applicable market value of our common stock on the mandatory conversion date (subject to postponement in certain cases):

Applicable Market Value of our Common Stock on the Mandatory Conversion Date	Conversion Rate Per Share of the Mandatory Convertible Preferred Stock
Less than or equal to \$5.00 (which is the initial price).	20.0000 shares of our common stock.
Greater than \$5.00 and less than \$5.875 (the threshold appreciation price).	Between 20.0000 and 17.0213 shares, determined by dividing \$100.00 by the applicable market value of our common stock.
Equal to or greater than the threshold appreciation price.	17.0213 shares of our common stock.

Early conversion at the option of the holder At any time prior to June 29, 2018, other than during a fundamental change conversion period (as defined below), a holder of shares of the Mandatory Convertible Preferred Stock may elect to convert such holder's shares of Mandatory Convertible Preferred Stock, in whole or in part, into shares of our common stock, at the minimum conversion rate of 17.0213 shares of our common stock per share of the Mandatory Convertible Preferred Stock, subject to certain anti-dilution adjustments. See Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder in this prospectus supplement.

If, as of the effective date of any early conversion (the early conversion date), we have not declared all or any portion of the accumulated dividends for all dividend periods ending on a dividend payment date prior to such early conversion date, the conversion rate for such early conversion will be adjusted so that holders converting their Mandatory Convertible Preferred Stock at such time receive an additional number of shares of our common stock equal to such amount of accumulated and unpaid dividends for such prior dividend periods, divided by the greater of the floor price and the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day immediately preceding the early conversion date (the early conversion average price). To the extent that the cash amount of the accumulated and unpaid dividends for all dividend periods ending on a dividend payment date prior to the relevant conversion date exceeds the value of the product of the number of additional shares added to the conversion rate and the early conversion average price, we will not have any obligation to pay the shortfall in cash.

Early conversion at the option of the holder upon a fundamental change Upon the occurrence of a fundamental change (as defined under Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change) prior to June 29, 2018, under certain circumstances we will deliver or pay to holders who convert their shares of the Mandatory Convertible Preferred Stock during the period from, and including, the effective date of the fundamental change to, but excluding, the earlier of (A) the mandatory conversion date and (B) the date selected by us that is not less than 30 and not more than 60 days after the effective date of such fundamental change (the fundamental change conversion period), a number of shares of our common stock or, if the fundamental change also constitutes a reorganization event, units of exchange property (as defined under Description of Mandatory Convertible Preferred Stock Recapitalizations, reclassifications and changes of our common Stock), determined using the applicable fundamental change conversion rate. The fundamental change conversion rate will be determined based on the effective date of the fundamental change and the price per share of our common stock paid or deemed paid in such fundamental change (the stock price).

Holders who convert their Mandatory Convertible Preferred Stock within the fundamental change conversion period will also receive a fundamental change dividend make-whole amount, in cash or in shares of our common stock or a combination thereof, equal to the present value (computed using a discount rate of 6.00% per annum) of all remaining dividend payments on their shares of the Mandatory Convertible Preferred Stock (excluding any accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date immediately preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change) from such effective date to, but excluding, the mandatory conversion date. If we elect to pay the fundamental change dividend make-whole amount in shares of our common stock in lieu of cash, the number of shares of our common stock that we will deliver will equal (x) the fundamental change dividend make-whole amount divided by (y) the greater of the floor price and 97% of the stock price.

In addition, to the extent that, as of the effective date of the fundamental change, we have not declared any or all of the accumulated dividends on the Mandatory Convertible Preferred Stock as of such effective date (including accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date immediately preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change, the accumulated dividend amount), upon conversion, we will pay or deliver, as the case may be, such accumulated dividend amount in cash (to the extent we are legally permitted to do so) or shares of our common stock, or any combination thereof at our election, to holders who convert Mandatory Convertible Preferred Stock within the fundamental change conversion period. If we elect to pay the accumulated dividend amount in shares

of our common stock in lieu of cash, the number of shares of our common stock that we will deliver will equal (x) the accumulated dividend amount divided by (y) the greater of the floor price and 97% of the stock price.

To the extent that the sum of the fundamental change dividend make-whole amount and accumulated dividend amount or any portion thereof paid in shares of our common stock exceeds the product of the number of additional shares we deliver in respect thereof and 97% of the stock price, we will, if we are legally able to do so, declare and pay such excess amount in cash. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion at the option of the holder upon a fundamental change Fundamental change dividend make-whole amount and accumulated dividend amount.

Fundamental change

A fundamental change will be deemed to have occurred, at such time after the initial issue date of the Mandatory Convertible Preferred Stock, upon: (i) any person or group (within the meaning of Sections 13(d) of the Securities Exchange Act of 1934, or Exchange Act) filing a Schedule TO or any schedule, form or report under the Exchange Act disclosing that such person or group has become the beneficial owner (as defined in Rule 13d-3 under the Exchange Act) of our common equity representing more than 50% of the voting power of our common equity; (ii) the consummation of any recapitalization, reclassification, change of our common stock (subject to certain exceptions), share exchange, consolidation or merger as a result of which our common stock would be converted into, exchanged for or represent solely the right to receive stock, other securities, other property or assets or any sale, lease or other transfer of all or substantially all of our assets to another person (other than in each case, a transaction in which at least 90% of the consideration received or to be received by our common stockholders consists of common stock that is listed on, or immediately after the transaction or event will be listed on, any of the New York Stock Exchange, the NASDAQ Global Select Market or the NASDAQ Global Market or any of their respective successors); (iii) our stockholders approve any plan for our liquidation or dissolution or (iv) our common stock (or, following a reorganization event (as defined herein), any common stock, depositary receipts or other securities representing common equity interests into which the Mandatory Convertible Preferred Stock becomes convertible in connection with such reorganization event) ceases to be listed for trading on the New York Stock Exchange, the NASDAQ Global Select Market, the NASDAQ Global Market (or any of their respective successors) or another U.S. national securities exchange.

Conversion rate adjustments

Each of the minimum conversion rate, the maximum conversion rate, the initial price, the threshold appreciation price, the floor price, the applicable market value, the fundamental change conversion rate and the stock price for purposes of a fundamental change, among other terms, will be adjusted upon the occurrence of certain events and transactions. Also includes capital expenditures relating to integration activities in connection with certain businesses acquired from Verizon in 2010 of \$54 million for the year ended December 31, 2012.

(2) Adjusted EBITDA is a non-GAAP (as defined herein) financial measure which we define as operating income plus depreciation and amortization, as adjusted to add back acquisition and integration costs, non-cash pension/pension and other postretirement benefit (OPEB) costs, severance costs, pension settlement costs and gains/losses on the sale of certain assets. A reconciliation of the differences between Adjusted EBITDA and the most comparable financial measure calculated and presented in accordance with accounting principles generally accepted in the United States of America (GAAP) is set forth below. Adjusted EBITDA is not a measure of financial performance under GAAP and is not an alternative to operating income or net income, as reflected in the statement of operations, or to cash flows, as reflected in the statement of cash flows, and it is not necessarily indicative of cash available to fund all cash needs. Adjusted EBITDA as used by us may not be comparable to similarly titled measures of other companies.

We believe that presentation of Adjusted EBITDA provides useful information to investors regarding our financial condition and results of operations because Adjusted EBITDA, when used in conjunction with related GAAP financial measures, (i) provides a more comprehensive view of our core operations and ability to generate cash flow, (ii) provides investors with the financial analytical framework upon which management bases financial, operational, compensation and planning decisions and (iii) presents measurements that investors and rating agencies have indicated to management are useful to them in assessing us and our results of operations.

Our management uses Adjusted EBITDA to (i) assist in analyzing our underlying financial performance from period to period, (ii) evaluate the financial performance of our business units, (iii) analyze and evaluate strategic and operational decisions, (iv) establish criteria for compensation decisions and (v) assist management in understanding our ability to generate cash flow and, as a result, to plan for future capital and operational decisions. We believe that Adjusted EBITDA is meaningful and useful for the reasons outlined above.

While we utilize Adjusted EBITDA in managing and analyzing our business and financial condition and believe it is useful to management and to investors for the reasons described above, Adjusted EBITDA has certain shortcomings. Management compensates for the shortcomings by utilizing Adjusted EBITDA in conjunction with comparable GAAP financial measures. The information presented in this section should be read in conjunction with the consolidated financial statements and the related notes incorporated by reference in this prospectus supplement and the accompanying prospectus.

The following are the components of Adjusted EBITDA for the three months ended March 31, 2015 and 2014 and for each of the years in the three-year period ended December 31, 2014.

The summary unaudited pro forma condensed combined statement of operations information, which has been prepared for the year ended December 31, 2014 and three months ended March 31, 2015, gives effect to the Verizon Transaction and other events described above as if they had occurred on January 1, 2014.

On October 24, 2014, we acquired the wireline properties of AT&T in Connecticut by acquiring all of the issued and outstanding capital stock of Transferred AT&T Companies for a purchase price of \$2.0 billion in cash, excluding adjustments for working capital, pursuant to the AT&T Purchase Agreement. Prior to the closing of the Connecticut Acquisition, (i) AT&T transferred to the Transferred AT&T Companies certain assets and caused the Transferred AT&T Companies to assume certain liabilities relating to the business to be acquired and (ii) the Transferred AT&T Companies transferred to AT&T certain assets, and AT&T assumed certain liabilities of the Transferred AT&T Companies, to be retained by AT&T following the closing. The Company financed the Connecticut Acquisition using the net proceeds of an offering of \$1.55 billion aggregate principal amount of

senior unsecured notes, borrowings of \$350 million under a term loan credit agreement and cash on hand. The summary unaudited pro forma condensed combined statement of operations information for the year ended December 31, 2014 gives effect to the Connecticut Acquisition as if it had occurred on January 1, 2014.

The summary unaudited pro forma condensed combined financial information was prepared using, and should be read in conjunction with, (1) the audited combined financial statements of the VSTO for the year ended December 31, 2014, (2) the unaudited interim condensed combined financial statements of the VSTO as of and for the three months ended March 31, 2015, (3) the unaudited interim condensed combined financial statements of the Connecticut Operations for the nine months ended September 30, 2014, (4) the audited consolidated financial statements of Frontier for the year ended December 31, 2014, and (5) the unaudited interim condensed consolidated financial statements of Frontier as of and for the three months ended March 31, 2015.

The summary unaudited pro forma condensed combined financial information is presented for informational purposes only and is not necessarily indicative of the results of operations that would have been achieved had the Verizon Transaction and other events described above been completed at the dates indicated above. In addition, the summary unaudited pro forma condensed combined financial information does not purport to project the future results of operations of Frontier after completion of the Verizon Transaction and the other events described above. In the opinion of Frontier's management, all adjustments considered necessary for a fair presentation have been included.

The summary unaudited pro forma condensed combined financial information does not give effect to any potential cost savings or other operating efficiencies that could result from the Connecticut Acquisition, other than an annualized run rate of \$165 million of synergies that were achieved by year-end 2014 subsequent to the closing of the Connecticut Acquisition and which are reflected in our operating results for the year ended December 31, 2014 and an annualized run rate of \$230 million of synergies that are reflected in our operating results for the quarter ended March 31, 2015.

The summary unaudited pro forma condensed combined financial information also does not give effect to any potential cost savings or other operating efficiencies that could result from the Verizon Transaction. We expect to realize \$525 million of annual cost synergies following the consummation of the Verizon Transaction, and an additional \$175 million of annual cost synergies by the end of the third year following the consummation of the Verizon Transaction.

The anticipated synergies that we refer to above are based on estimates and assumptions that we consider to be reasonable but that are uncertain. Our anticipated synergies are subject to significant business, economic, regulatory and competitive uncertainties and contingencies.

In addition, the fair value of the assets acquired and liabilities assumed are based upon estimates. The final purchase price allocation is dependent upon valuations and other studies that have not yet been completed. Accordingly, the purchase price allocation pro forma adjustments are preliminary and are subject to further adjustments as additional information becomes available and additional analyses are performed, and each further adjustment may be material. Such adjustments have been made solely for the purpose of providing unaudited pro forma condensed combined financial information.

Supplemental risk factors

*You should carefully consider the risks described below in addition to the risks described in **Risk Factors** in the accompanying prospectus and in any free writing prospectus with respect to the offering filed by us with the SEC, as well as in **Part I, Item 1A. Risk Factors** in our Annual Report on Form 10-K for the year ended December 31, 2014 (as such risk factors may be updated from time to time in our public filings), which is incorporated by reference into this prospectus supplement and the accompanying prospectus, as well as the other information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus, before investing in the securities offered hereby. See **Where you can find more information** and **Incorporation of certain documents by reference**. You could lose part or all of your investment.*

Risks related to the Verizon Transaction

The Verizon Transaction may not be consummated on the terms or timeline currently contemplated, or at all.

The consummation of the Verizon Transaction is subject to certain conditions, including (i) the absence of a court or other governmental order prohibiting consummation of the transaction, (ii) the receipt of applicable regulatory consents, (iii) the absence of a material adverse effect on the business to be acquired from Verizon and (iv) other customary closing conditions. See **Description of the Verizon Transaction**. We can make no assurances that the Verizon Transaction will be consummated on the terms or timeline currently contemplated, or at all. We have expended and will continue to expend a significant amount of capital and management's time and resources on the Verizon Transaction, and a failure to consummate the Verizon Transaction as currently contemplated, or at all, could have an adverse effect on our business, our results of operations and our cash flows.

In addition, we may choose to raise all or a portion of the additional financing required to complete the Verizon Transaction prior to the closing of such transaction. If the Verizon Transaction is ultimately not consummated or is delayed for a significant period of time, we could be obligated to pay significant interest expense, additional dividends and other costs in connection with the financing without achieving the expected benefits of the Verizon Transaction. The trading price of our securities could be adversely affected if the Verizon Transaction is not consummated as currently contemplated, or at all. Neither this offering nor the concurrent offering is conditioned upon the completion of the Verizon Transaction.

Our effort to combine our business and the business to be acquired from Verizon may not be successful.

We are devoting a significant amount of time and attention to the process of integrating the operations of our business and the business to be acquired from Verizon, which may decrease the time that management will have to serve existing customers, attract new customers and develop new services or strategies. The size and complexity of the acquired business and the process of using our existing common support functions and systems to manage the acquired business after the acquisition, if not managed and completed successfully by management, may result in interruptions of the business activities of the Company that could have an adverse effect on our business, financial condition and results of operations. In addition, following the consummation of the Verizon Transaction we will be assuming certain liabilities and obligations of Verizon, including with respect to certain litigation and regulatory matters, the outcome of which could have an adverse impact on our business, financial condition and results of operations if determined adversely to us following the consummation of the Verizon Transaction.

Table of Contents

We may not realize the cost synergies that are anticipated from the Verizon Transaction.

The success of the Verizon Transaction will depend, in part, on our ability to realize anticipated cost synergies. Our success in realizing these cost synergies, and the timing of this realization, depends on the successful integration of our business and operations with the acquired business and operations. Even if we are able to integrate the acquired businesses and operations successfully, this integration may not result in the realization of the full benefits of the cost synergies that we currently expect within the anticipated time frame or at all.

If the assets included in the business to be purchased from Verizon are insufficient to operate the acquired business, it could adversely affect the Company's business, financial condition and results of operations.

Pursuant to the Verizon Purchase Agreement, Verizon will contribute to the acquired business certain assets and liabilities of its local exchange business and related landline activities in California, Florida and Texas, including video, broadband internet and switched long distance services provided to designated customers located in those states. However, the contributed assets may not be sufficient to operate all aspects of the acquired business and we may have to use assets or resources from our existing business or acquire additional assets in order to operate the acquired business, which could cost us more than we anticipate.

The Company's business, financial condition and results of operations may be adversely affected following consummation of the Verizon Transaction if we are not able to obtain requisite consents or enter into certain agreements.

The products and services of the acquired business are currently provided by Verizon to certain customers pursuant to master agreements, together with other Verizon products or services. Pursuant to the Verizon Purchase Agreement, we and Verizon have jointly agreed to use our reasonable best efforts for six months following the consummation of the Verizon Transaction to obtain any consents required to separate from such master agreements and assign to Frontier the portion thereof related to the acquired business. To the extent that the parties are not able to obtain any such required consent, such contracts will not be assigned to us and we may not be able to establish a direct relationship with such customers.

Regulatory agencies may delay approval of the Verizon Transaction, fail to approve it, or approve it in a manner that may diminish the anticipated benefits of the Verizon Transaction.

Completion of the Verizon Transaction is conditioned upon the receipt of certain government consents, approvals, orders and authorizations. While we intend to pursue vigorously all required governmental approvals and do not know of any reason why we would not be able to obtain the necessary approvals in a timely manner, the requirement to receive these approvals before completion of the Verizon Transaction could delay its completion. A lengthy delay in the completion of the Verizon Transaction could diminish the anticipated benefits and/or result in additional transaction and financing costs, loss of revenues or other effects associated with uncertainty about the transaction. In addition, until the Verizon Transaction is completed, the attention of our management may be unnecessarily diverted from ongoing business and regular business responsibilities.

Further, governmental agencies may decline to grant required approvals, or they may impose conditions on their approval of the Verizon Transaction that could have an adverse effect on our business, financial condition and results of operations. If certain governmental agencies decline to grant any required approval for the Verizon Transaction, the Verizon Transaction may not be consummated. In addition, conditions imposed by governmental agencies in connection with their approval of the Verizon Transaction (such as service quality or capital expenditure requirements) may restrict our ability to achieve anticipated synergies, revenues and cash flows.

Table of Contents

The Verizon Purchase Agreement contains provisions that may discourage other companies from trying to acquire Frontier.

The Verizon Purchase Agreement contains provisions that may discourage a third party from submitting a business combination proposal to us prior to the closing of the Verizon Transaction that might result in greater value to our stockholders than the Verizon Transaction. The Verizon Purchase Agreement provides that we may not sell all or substantially all of our assets unless the buyer assumes in writing our obligations, including the payment of the purchase price, under the Verizon Purchase Agreement. This would represent an additional cost for a potential third party seeking a business combination with us.

The trading price of our common stock and the trading price of the Mandatory Convertible Preferred Stock may be adversely affected if we are unable to consummate the Verizon Transaction.

If the Verizon Transaction is not completed for any reason, the trading price of our common stock and the trading price of the Mandatory Convertible Preferred Stock may decline to the extent that the market price of such securities reflects positive market assumptions that the Verizon Transaction will be completed and the related benefits will be realized. We may also be subject to additional risks if the Verizon Transaction is not completed, including:

significant costs related to the transaction, such as legal, accounting, filing, financial advisory, and integration costs that have already been incurred or will continue up to closing. While the Company currently expects that it will incur approximately \$450 million of operating expenses and capital expenditures in total related to acquisition and integration activities in 2015 and 2016 associated with the Verizon Transaction, the amount of such operating expenses and capital expenditures may increase based on a variety of factors;

additional dividend costs as a result of this offering and the concurrent offering;

if Frontier completes a financing of debt securities prior to closing the Verizon Transaction, significant interest expense and potential redemption premiums with respect to such debt securities;

the market price of our common stock and the Mandatory Convertible Preferred Stock could decline as a result of further sales of our common stock or equity-linked securities in the market or the perception that these sales could occur; and

potential disruption to our business and distraction of our workforce and management team.

The pendency of the Verizon Transaction could adversely affect the business and operations of Frontier and the acquired business.

In connection with the pending Verizon Transaction, some customers of the acquired business may delay or defer decisions or may end their relationships with Verizon prior to completion of the Verizon Transaction or with the Company after the Verizon Transaction closes.

We will incur substantial debt and debt service obligations to finance the Verizon Transaction.

We have a significant amount of indebtedness, which amounted to \$9.7 billion at March 31, 2015. We expect to incur additional indebtedness to fund the Verizon Transaction. On a pro forma basis to give effect to the Verizon Transaction and the other events described under Unaudited pro forma condensed combined financial information, we would have had \$18.6 billion of outstanding indebtedness as of March 31, 2015 based on our current financing plans which may be subject to change. We also have access to a \$750 million revolving credit facility and may also take on additional long-term debt and working capital lines of credit to meet future financing needs, subject to certain restrictions under the terms of our existing indebtedness.

Table of Contents

The potential significant negative consequences on our financial condition and results of operations that could result from our substantial debt include:

limitations on our ability to obtain additional debt or equity financing on favorable terms or at all;

instances in which we are unable to meet the covenants contained in our debt agreements or to generate cash sufficient to make required debt payments, which circumstances have the potential of accelerating the maturity of some or all of our outstanding indebtedness;

the allocation of a substantial portion of our cash flow from operations to service our debt, thus reducing the amount of our cash flow available for other purposes, including operating costs, capital expenditures and dividends that would otherwise improve our competitive position, results of operations or stock price;

requiring us to sell debt or equity securities or to sell some of our core assets, possibly on unfavorable terms, to meet payment obligations;

compromising our flexibility to plan for, or react to, competitive challenges in our business and the communications industry; and

the possibility of our being put at a competitive disadvantage with competitors who do not have as much debt as we do, and competitors who may be in a more favorable position to access additional capital resources.

In addition, our senior notes are rated below investment grade by independent ratings agencies. This can result in higher borrowing costs for us. We cannot assure you that these rating agencies will not lower our current debt ratings, if in the rating agencies' judgment such an action is appropriate. A lowering of a rating may further increase our future borrowing costs and reduce our access to capital.

We will have broad discretion to use the proceeds from this offering and the concurrent offering, if consummated.

Because the closing of the Verizon Transaction is subject to a number of closing conditions, we cannot assure you that the Verizon Transaction will close. If the Verizon Transaction does not close, we will have significant discretion to allocate the proceeds from this offering and the concurrent offering, if consummated, to other uses. In addition, while we intend to place a portion of the proceeds of this offering and the concurrent offering into escrow pursuant to the terms of the Verizon Purchase Agreement, we do not intend to place all proceeds into escrow. We will have broad discretion to use any proceeds that are not escrowed pursuant to the terms of the Verizon Purchase Agreement. In addition, while we have the option, we are not required to redeem the Mandatory Convertible Preferred Stock issued hereby if the Verizon Transaction does not close. We can make no assurances that we will exercise such redemption option or that we will otherwise have opportunities to allocate the proceeds from this offering and the concurrent offering, if consummated, for other productive uses or that other uses of the proceeds from this offering and the concurrent offering will result in a favorable return to investors.

The pro forma financial statements included and incorporated by reference in this prospectus supplement are presented for illustrative purposes only and may not be an indication of our financial condition or results of operations after giving effect to the Connecticut Acquisition or the Verizon Transaction, as applicable.

The pro forma financial statements contained and incorporated by reference in this prospectus supplement and the accompanying prospectus are presented for illustrative purposes only, are based on various adjustments, assumptions and preliminary estimates and may not be an indication of our financial condition or results of operations following the Connecticut Acquisition or the Verizon Transaction, as applicable, for several reasons.

Table of Contents

See Unaudited pro forma condensed combined financial information. Our actual financial condition and results of operations following the Connecticut Acquisition and the Verizon Transaction may not be consistent with, or evident from, these pro forma financial statements. In addition, the assumptions used in preparing the pro forma financial information may not prove to be accurate, and other factors may affect our financial condition or results of operations following the Connecticut Acquisition or the Verizon Transaction.

Risks related to ownership of the Mandatory Convertible Preferred Stock, our common stock and this offering

You will bear the risk of a decline in the market price of our common stock between the pricing date for the Mandatory Convertible Preferred Stock and the mandatory conversion date.

The number of shares of our common stock that you will receive upon mandatory conversion of the Mandatory Convertible Preferred Stock is not fixed but instead will depend on the applicable market value of our common stock, which is the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day immediately preceding the mandatory conversion date. The aggregate market value of our common stock that you would receive upon mandatory conversion of the Mandatory Convertible Preferred Stock may be less than the aggregate liquidation preference of the Mandatory Convertible Preferred Stock. Specifically, if the applicable market value of our common stock is less than the initial price of \$5.00, the market value of our common stock that you would receive upon mandatory conversion of each share of the Mandatory Convertible Preferred Stock will be less than the \$100.00 liquidation preference per share, and an investment in the Mandatory Convertible Preferred Stock would result in a loss. Therefore, you will bear the risk of a decline in the market price of our common stock, which decline could be substantial.

The opportunity for equity appreciation provided by your investment in the Mandatory Convertible Preferred Stock is less than that provided by a direct investment in our common stock.

The market value of each share of our common stock that you would receive upon mandatory conversion of each share of the Mandatory Convertible Preferred Stock on the mandatory conversion date will only exceed the liquidation preference of \$100.00 per share of the Mandatory Convertible Preferred Stock if the applicable market value of our common stock exceeds the threshold appreciation price of \$5.875. The threshold appreciation price represents an appreciation of 17.50% over the initial price. In this event, on the mandatory conversion date, you would receive approximately 85.11% (which percentage is equal to the initial price divided by the threshold appreciation price) of the value of our common stock that you would have received if you had made a direct investment in our common stock on the date of this prospectus supplement. This means that the opportunity for equity appreciation provided by an investment in the Mandatory Convertible Preferred Stock is less than that provided by a direct investment in our common stock.

In addition, if the market value of our common stock appreciates and the applicable market value of our common stock is equal to or greater than the initial price but less than or equal to the threshold appreciation price, the aggregate market value of our common stock that you would receive upon mandatory conversion of the Mandatory Convertible Preferred Stock will only be equal to the aggregate liquidation preference of the Mandatory Convertible Preferred Stock, and you will not realize any equity appreciation on our common stock.

The adjustment to the conversion rate and the payment of the fundamental change dividend make-whole amount upon the occurrence of certain fundamental changes may not adequately compensate you.

If a fundamental change (as defined in Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change) occurs on or prior to the mandatory conversion date, holders will be entitled to convert their Mandatory Convertible Preferred Stock during the fundamental change conversion period at the fundamental change conversion rate (in each case as defined in Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the

Table of Contents

holder upon a fundamental change). The fundamental change conversion rate represents an adjustment to the conversion rate otherwise applicable unless the share price is less than \$1.50 or above \$20.00 (in each case, subject to adjustment). In addition, with respect to Mandatory Convertible Preferred Stock converted during the fundamental change conversion period, you will also receive, among other considerations, a fundamental change dividend make-whole amount. Although this adjustment to the conversion rate and the payment of the fundamental change dividend make-whole amount are designed to compensate you for the lost option value of the Mandatory Convertible Preferred Stock and lost dividends as a result of a fundamental change, they are only an approximation of such lost value and lost dividends and may not adequately compensate you for your actual loss. Furthermore, our obligation to adjust the conversion rate in connection with a fundamental change and pay the fundamental change dividend make-whole amount (whether in cash or shares of our common stock or any combination thereof) could be considered a penalty under state law, in which case your ability to enforce such adjustments would be subject to general principles of reasonableness of economic remedies.

The conversion rate of the Mandatory Convertible Preferred Stock may not be adjusted for all dilutive events that may adversely affect the market price of the Mandatory Convertible Preferred Stock or our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock.

The number of shares of our common stock that you are entitled to receive upon conversion of the Mandatory Convertible Preferred Stock is subject to adjustment for stock splits and combinations, dividends and certain other transactions. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments for further discussion of anti-dilution adjustments. However, other events, such as employee and director equity grants or offerings of our common stock or securities convertible into shares of our common stock (other than those set forth in Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments) for cash or in connection with acquisitions, which may adversely affect the market price of our common stock, may not result in any adjustment. Further, if any of these other events adversely affects the market price of our common stock, it may also adversely affect the market price of the Mandatory Convertible Preferred Stock. In addition, the terms of the Mandatory Convertible Preferred Stock do not restrict our ability to offer common stock or securities convertible into common stock in the future or to engage in other transactions that could dilute our common stock. We have no obligation to consider the interests of the holders of the Mandatory Convertible Preferred Stock in engaging in any such offering or transaction.

Investors will not have any rights to require us to redeem the Mandatory Convertible Preferred Stock in the event that an acquisition termination event occurs or the Verizon Transaction is not completed by August 6, 2016.

Investors will not have any rights to require us to redeem the Mandatory Convertible Preferred Stock if an acquisition termination event occurs or the Verizon Transaction is not completed by 5:00 p.m. (New York City time) on August 6, 2016. Further, investors will not have any right to require us to redeem the Mandatory Convertible Preferred Stock if, subsequent to the completion of this offering, we or Verizon experience any changes in our business or financial condition or if the terms of the Verizon Transaction or the financing thereof change. Even if we redeem the Mandatory Convertible Preferred Stock, investors may not obtain their expected return and may not be able to reinvest the proceeds from such redemption in an investment that results in a comparable return.

The Mandatory Convertible Preferred Stock is subject to redemption at our option upon the occurrence of an acquisition termination event or if the Verizon Transaction is not completed on or prior to 5:00 p.m. (New York City time) on August 6, 2016.

If the Verizon Transaction is not completed on or before 5:00 p.m. (New York City time) on August 6, 2016, or if an acquisition termination event (as defined herein) occurs, we will be entitled, but not required, to redeem the

Table of Contents

Mandatory Convertible Preferred Stock, in whole but not in part, at a redemption price equal to \$100.00 per Mandatory Convertible Preferred Stock plus accumulated and unpaid dividends to the date of redemption or, in certain circumstances, at an early redemption price that includes a make-whole adjustment. Although the redemption price is designed to compensate you for the lost option value of your Mandatory Convertible Preferred Stock and lost dividends as a result of the acquisition termination redemption, it is only an approximation of such lost value and may not adequately compensate you for your actual loss.

The proceeds of this offering will not be deposited into an escrow account in favor of holders of Mandatory Convertible Preferred Stock pending any acquisition termination redemption of the Mandatory Convertible Preferred Stock. Our ability to pay the redemption price to holders of the Mandatory Convertible Preferred Stock in connection with an acquisition termination redemption may be limited by our then existing financial resources, and sufficient funds may not be available when necessary to make any required purchases of the Mandatory Convertible Preferred Stock following our election to redeem the Mandatory Convertible Preferred Stock.

Recent regulatory actions may adversely affect the trading price and liquidity of the Mandatory Convertible Preferred Stock.

Investors in, and potential purchasers of, the Mandatory Convertible Preferred Stock who employ, or seek to employ, a convertible arbitrage strategy with respect to the Mandatory Convertible Preferred Stock may be adversely impacted by regulatory developments that may limit or restrict such a strategy. The SEC and other regulatory and self-regulatory authorities have implemented various rules and may adopt additional rules in the future that restrict and otherwise regulate short selling and over-the-counter swaps and security-based swaps, which restrictions and regulations may adversely affect the ability of investors in, or potential purchasers of, the Mandatory Convertible Preferred Stock to conduct a convertible arbitrage strategy with respect to the Mandatory Convertible Preferred Stock. This could, in turn, adversely affect the trading price and liquidity of the Mandatory Convertible Preferred Stock.

You will have no rights with respect to our common stock until the Mandatory Convertible Preferred Stock is converted, but you may be adversely affected by certain changes made with respect to our common stock.

You will have no rights with respect to our common stock, including voting rights, rights to participate in common stock tender offers, if any, and rights to receive dividends or other distributions on our common stock, if any (other than through a conversion rate adjustment), prior to the conversion date with respect to a conversion of the Mandatory Convertible Preferred Stock, but your investment in the Mandatory Convertible Preferred Stock may be negatively affected by these events. Upon conversion, you will be entitled to exercise the rights of a holder of common stock only as to matters for which the record date occurs after the conversion date. For example, in the event that an amendment is proposed to our Certificate of Incorporation requiring stockholder approval and the record date for determining the stockholders of record entitled to vote on the amendment occurs prior to the conversion date of the Mandatory Convertible Preferred Stock, you will not be entitled to vote on the amendment, although you will nevertheless be subject to any changes resulting in the powers, preferences or rights of our common stock. See Description of capital stock in the accompanying prospectus for further discussion of our common stock.

You will have no voting rights with respect to the Mandatory Convertible Preferred Stock except under limited circumstances.

You will have no voting rights with respect to the Mandatory Convertible Preferred Stock, except (i) with respect to certain amendments to the terms of the Mandatory Convertible Preferred Stock, (ii) in the case of certain dividend arrearages, (iii) in certain other limited circumstances and (iv) as specifically required by Delaware law. You will have no right to vote for any members of our board of directors, except upon certain dividend arrearages.

Table of Contents

If dividends on any shares of the Mandatory Convertible Preferred Stock (i) have not been declared and paid, or (ii) have been declared but a sum of cash or number of shares of our common stock sufficient for payment thereof has not been set aside for the benefit of the holders thereof on the applicable record date, for the equivalent of six or more dividend periods, whether or not for consecutive dividend periods, the holders of shares of Mandatory Convertible Preferred Stock, voting together as a single class with holders of any and all other classes or series of our preferred stock ranking equally with the Mandatory Convertible Preferred Stock either as to dividends or the distribution of assets upon liquidation, dissolution or winding-up and having similar voting rights, will be entitled to elect a total of two additional members of our board of directors, subject to the terms and limitations described in the section of this prospectus supplement entitled Description of Mandatory Convertible Preferred Stock Voting rights.

In certain circumstances where the rights, preferences, privileges or voting powers of the Mandatory Convertible Preferred Stock are adversely affected thereby, holders of shares of the Mandatory Convertible Preferred Stock will have the right to vote with respect to certain amendments to our Certificate of Incorporation or in connection with certain reclassifications, mergers or consolidation transactions. See Description of Mandatory Convertible Preferred Stock Voting rights.

Our ability to declare and pay dividends on the Mandatory Convertible Preferred Stock may be limited.

Our declaration and payment of dividends on the Mandatory Convertible Preferred Stock in the future will be determined by our board of directors in its sole discretion and will depend on business conditions, our financial condition, earnings and liquidity and other factors. Our ability to declare and pay dividends and make other distributions with respect to our capital stock, including the Mandatory Convertible Preferred Stock, is restricted by the terms of certain of our existing financing arrangements and may be restricted by the terms of financing arrangements that we enter into in the future. In the event that the agreements governing any such indebtedness restrict our ability to declare and pay dividends in cash on the shares of Mandatory Convertible Preferred Stock, we may be unable to declare and pay dividends in cash on the shares of Mandatory Convertible Preferred Stock unless we can repay or refinance the amounts outstanding under such agreements.

In addition, under Delaware law, our board of directors may only declare and pay dividends on shares of our capital stock out of our statutory surplus (which is the amount equal to total assets minus total liabilities, in each case at fair market value, minus statutory capital), or if there is no such surplus, out of our net profits for the then current and/or immediately preceding fiscal year. Further, even if we are permitted under our contractual obligations and Delaware law to declare and pay cash dividends on the shares of Mandatory Convertible Preferred Stock, we may not have sufficient cash to declare and pay dividends in cash on the shares of Mandatory Convertible Preferred Stock.

If upon (i) mandatory conversion, (ii) an early conversion at the option of a holder or (iii) an early conversion upon a fundamental change, we have not declared and paid all or any portion of the accumulated dividends payable on the Mandatory Convertible Preferred Stock for specified periods, converting holders will receive an additional number of shares of our common stock having a market value generally equal to the amount of such undeclared, accumulated and unpaid dividends, subject to the limitations described under Description of Mandatory Convertible Preferred Stock Conversion rights Mandatory conversion, Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder and Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change, respectively. In the case of mandatory conversion or conversion upon a fundamental change, if these limits to the adjustment of the conversion rate are reached, we will pay the shortfall in cash if we are legally permitted to do so and not restricted by the terms of our indebtedness at that time. We will not have an obligation to pay the shortfall in cash if these limits to the adjustment of the conversion rate are reached in the case of an early conversion at the option of the holder.

Table of Contents

You may be subject to U.S. federal income or withholding tax with respect to the Mandatory Convertible Preferred Stock even though you do not receive a corresponding cash distribution.

The conversion rate of the Mandatory Convertible Preferred Stock is subject to adjustment in certain circumstances. See Description of Mandatory Convertible Preferred Stock Conversion rights Conversion rate adjustments. If, as a result of an adjustment (or failure to make an adjustment), your proportionate interest in our assets or earnings and profits is increased, you may be deemed to have received for U.S. federal income tax purposes a taxable distribution without the receipt of any cash. In addition, we may make distributions to holders of the Mandatory Convertible Preferred Stock that are paid in our common stock, and any such distribution would be taxable to the same extent as a cash distribution of the same amount. In these circumstances and possibly others, you, as a holder of Mandatory Convertible Preferred Stock, may be subject to U.S. federal income tax even though you have received no cash, thus giving rise to an out-of-pocket expense. If you are a Non-U.S. Holder (as defined in U.S. federal income tax considerations), you may be subject to U.S. federal withholding taxes in connection with such a deemed distribution or distribution payable in shares of our common stock. If a broker or other applicable withholding agent pays any withholding taxes on behalf of a Non-U.S. Holder as a result of a deemed distribution, such withholding agent may set off such payments against cash payments and other distributions otherwise deliverable to the Non-U.S. Holder (or other assets of the Non-U.S. Holder held by such withholding agent). See U.S. federal income tax considerations for a further discussion of U.S. federal income tax considerations with respect to the Mandatory Convertible Preferred Stock.

Certain rights of the holders of the Mandatory Convertible Preferred Stock and certain contractual and statutory provisions could delay or prevent an otherwise beneficial takeover or takeover attempt of us and, therefore, the ability of holders of Mandatory Convertible Preferred Stock to exercise their rights associated with a potential fundamental change.

Certain rights of the holders of the Mandatory Convertible Preferred Stock could make it more difficult or more expensive for a third party to acquire us. For example, if a fundamental change were to occur on or prior to June 29, 2018, holders of the Mandatory Convertible Preferred Stock may have the right to convert their Mandatory Convertible Preferred Stock, in whole or in part, at an increased conversion rate and will also be entitled to receive a fundamental change dividend make-whole amount equal to the present value of all remaining dividend payments on their Mandatory Convertible Preferred Stock. See Description of Mandatory Convertible Preferred Stock Conversion rights Early conversion at the option of the holder upon a fundamental change. These features of the Mandatory Convertible Preferred Stock could increase the cost of acquiring us or otherwise discourage a third party from acquiring us or removing incumbent management.

In addition, provisions of Delaware law and our Certificate of Incorporation and Bylaws (Bylaws), and contracts to which we are a party, could make it more difficult for a third party to acquire control of us or have the effect of discouraging a third party from attempting to acquire control of us. See Description of capital stock in the accompanying prospectus.

An active trading market for the Mandatory Convertible Preferred Stock does not exist and may not develop.

The Mandatory Convertible Preferred Stock is a new issue of securities with no established trading market. We have applied to have the Mandatory Convertible Preferred Stock listed on the NASDAQ under the symbol FTRPR. Even if the Mandatory Convertible Preferred Stock is approved for listing on the NASDAQ, such listing does not guarantee that a trading market for the Mandatory Convertible Preferred Stock will develop or, if a trading market for the Mandatory Convertible Preferred Stock does develop, the depth or liquidity of that market or the ability of the holders to sell the Mandatory Convertible Preferred Stock, or to sell the Mandatory Convertible Preferred Stock at a favorable price.

Table of Contents

The trading price of our common stock will directly affect the trading price of the Mandatory Convertible Preferred Stock.

The trading price of the Mandatory Convertible Preferred Stock will be directly affected by, among other things, the trading price of our common stock. It is impossible to predict whether the price of our common stock will rise or fall. Our operating results, prospects and economic, financial, political and other factors will affect trading prices of our common stock and the Mandatory Convertible Preferred Stock, as will future issuances of our common stock. In addition, market conditions can affect the capital markets generally, thereby affecting the price of our common stock. These conditions may include the level of, and fluctuations in, the trading prices of stocks generally and sales of substantial amounts of our common stock in the market after this offering of the Mandatory Convertible Preferred Stock or the perception that such sales could occur. See The price of our Mandatory Convertible Preferred Stock and common stock may be volatile. Accordingly, you may not be able to resell your Mandatory Convertible Preferred Stock or our common stock at or above the price at which you purchased or received them.

Additionally, Fluctuations in interest rates may give rise to arbitrage opportunities based upon changes in the relative value of the Mandatory Convertible Preferred Stock and the common stock underlying the Mandatory Convertible Preferred Stock. In addition, the issuance of the Mandatory Convertible Preferred Stock may result in hedging activity by holders of shares of the Mandatory Convertible Preferred Stock that view such Mandatory Convertible Preferred Stock as a more attractive means of equity participation in us than a direct investment in our common stock. This arbitrage and hedging could, in turn, negatively affect the trading prices of the Mandatory Convertible Preferred Stock and our common stock.

We may issue additional series of preferred stock that rank on a parity with the Mandatory Convertible Preferred Stock as to dividend payments and liquidation preference and that vote with the Mandatory Convertible Preferred Stock on most issues on which the preferred stock is permitted to vote, which may negatively affect your investment.

Without giving effect to the shares of Mandatory Convertible Preferred Stock that we are offering hereby, we have the authority under our Certificate of Incorporation to issue 50,000,000 shares of preferred stock. Our Certificate of Incorporation does not prohibit us from issuing additional series of preferred stock that would rank on a parity with the Mandatory Convertible Preferred Stock. The issuance of any such series of preferred stock could have the effect of reducing the amounts available to the holders of the Mandatory Convertible Preferred Stock in the event of our liquidation. If we do not have sufficient funds to pay dividends on the outstanding Mandatory Convertible Preferred Stock and such other series of preferred stock, it would also reduce amounts available to the holders of the Mandatory Convertible Preferred Stock for the payment of dividends. Except with respect to changes to our Certificate of Incorporation that adversely affect only one series of our preferred stock, the holders of the Mandatory Convertible Preferred Stock and any other series of preferred stock that we issue vote together, as a class, on the issues on which our preferred stock has the right to vote, including our consolidation or merger with another corporation. The interests of the holders of any other series of preferred stock that we issue may be different from the interests of the holders of the Mandatory Convertible Preferred Stock.

Shares eligible for future sale may adversely affect our common stock price and the market price of the Mandatory Convertible Preferred Stock.

Sales of our common stock or other securities (including the Mandatory Convertible Preferred Stock) in the public or private market, or the perception that these sales may occur, or the conversion of the Mandatory Convertible Preferred Stock or the payment of dividends on the Mandatory Convertible Preferred Stock in the form of our common stock, or the perception that such conversions or dividends could occur, could cause the

Table of Contents

market price of our common stock and thus, the market price of the Mandatory Convertible Preferred Stock, to decline. This could also impair our ability to raise additional capital through the sale of our equity securities. Under our Certificate of Incorporation, we are authorized to issue up to 1,750,000,000 shares of common stock and 50,000,000 shares of preferred stock and we are authorized to convert our authorized preferred stock (including the Mandatory Convertible Preferred Stock) into common stock. We cannot predict the size of future issuances of our common stock or other securities or the effect, if any, that the concurrent offering of our common stock and future sales and issuances of our common stock and other securities would have on the market price of our common stock.

The price of our Mandatory Convertible Preferred Stock and common stock may be volatile. Accordingly, you may not be able to resell your Mandatory Convertible Preferred Stock or our common stock at or above the price at which you purchased or received them.

The trading price of our common stock has fluctuated in the past. The trading price of our common stock and the Mandatory Convertible Preferred Stock could fluctuate significantly in the future and could be negatively affected in response to various factors, including:

market conditions in the broader stock market in general;

our ability to make investments with attractive risk-adjusted returns;

market perception of our current and projected financial condition, potential growth, future earnings and future cash dividends;

announcements we make regarding dividends;

actual or anticipated fluctuations in our quarterly financial and operating results;

additional offerings of our common stock or equity-linked securities;

actions by rating agencies;

short sales of our common stock and the Mandatory Convertible Preferred Stock;

any decision to pursue a distribution or disposition of a meaningful portion of our assets;

issuance of new or changed securities analysts' reports or recommendations;

market perception or media coverage of us, other similar companies or the outlook of the markets and industries in which we compete;

major reductions in trading volumes on the exchanges on which we operate;

legislative or regulatory developments, including changes in the status of our regulatory approvals or licenses;

litigation and governmental investigations; and

any decision to pursue a spin-off of a portion of our assets.

These and other factors may cause the market price and demand for our common stock and Mandatory Convertible Preferred Stock to fluctuate substantially, which may negatively affect the price or liquidity of our common stock and the Mandatory Convertible Preferred Stock. If the market price of our common stock declines, you may not realize any return on your investment in the Mandatory Convertible Preferred Stock and may lose some or all of your investment. When the market price of a stock has been volatile or has decreased

significantly in the past, holders of that stock have, at times, instituted securities class action litigation against the company that issued the stock. If any of our stockholders brought a lawsuit against us, we could incur substantial costs defending, settling or paying any resulting judgments related to the lawsuit. Such a lawsuit could also divert the time and attention of our management from our business and hurt our share price.

The Mandatory Convertible Preferred Stock may adversely affect the market price of our common stock.

The market price of our common stock is likely to be influenced by the Mandatory Convertible Preferred Stock. For example, the market price of our common stock could become more volatile and could be depressed by:

investors' anticipation of the potential resale in the market of a substantial number of additional shares of our common stock received upon conversion of the Mandatory Convertible Preferred Stock;

possible sales of our common stock by investors who view the Mandatory Convertible Preferred Stock as a more attractive means of equity participation in us than owning shares of our common stock; and

hedging or arbitrage trading activity that may develop involving the Mandatory Convertible Preferred Stock and our common stock.

Future issuances of our shares of common stock could reduce the market price of our shares of common stock and the Mandatory Convertible Preferred Stock.

In the future we may issue additional securities to raise capital. We may also acquire interests in other companies by using a combination of cash and our common stock or just our common stock. We may also issue securities convertible into our common stock in addition to the Mandatory Convertible Preferred Stock offered hereby. Any of these events may dilute your ownership interest in our Company and have an adverse impact on the price of our common stock and the price of the Mandatory Convertible Preferred Stock.

Our shares of common stock will rank junior to the Mandatory Convertible Preferred Stock and both equity securities will rank junior to all of our consolidated liabilities.

In the event of a bankruptcy, liquidation, dissolution or winding up, our assets will be available to pay obligations on the Mandatory Convertible Preferred Stock and our common stock only after all of our consolidated liabilities have been paid. In the event of a bankruptcy, liquidation, dissolution or winding up, there may not be sufficient assets remaining, after paying our and our subsidiaries' liabilities, to pay any amounts with respect to the Mandatory Convertible Preferred Stock and our common stock then outstanding. Additionally, no distribution of our assets may be made to holders of our common stock until we have paid to holders of the Mandatory Convertible Preferred Stock a liquidation preference equal to \$100.00 per share plus accrued and unpaid dividends. We have a significant amount of indebtedness, which amounted to \$9.7 billion at March 31, 2015. We expect to incur additional indebtedness to fund the Verizon Transaction. On a pro forma basis to give effect to the Verizon Transaction and the other events described under "Unaudited pro forma condensed combined financial information," we would have had \$18.6 billion of outstanding indebtedness as of March 31, 2015. We also have access to a \$750 million revolving credit facility and may also take on additional long-term debt and working capital lines of credit to meet future financing needs, subject to certain restrictions under the terms of our existing indebtedness.

Certain provisions of the General Corporation Law of the State of Delaware ("DGCL"), our Certificate of Incorporation and our Bylaws may delay, hinder or prevent a change of control in us, which could have an adverse effect on the market price of our common stock and the Mandatory Convertible Preferred Stock.

Provisions of the DGCL and our Certificate of Incorporation and Bylaws could delay or discourage some transactions involving an actual or potential change in control of us or our management and may limit the

Table of Contents

ability of our stockholders to remove current management or approve transactions that our stockholders may deem to be in their best interests. These provisions:

authorize our board of directors to establish one or more series of preferred stock, the terms of which can be determined by our board of directors at the time of issuance;

provide an advanced written notice procedure with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors;

state that special meetings of our stockholders may be called by the Chairman of our board of directors or the Chief Executive Officer and must be called on the request in writing or by vote of a majority of our board of directors or on request in writing of stockholders of record owning 50% of the capital stock outstanding and entitled to vote;

allow our directors, and not our stockholders, to fill vacancies on our board of directors, including vacancies resulting from removal or enlargement of our board of directors; and

grant our board of directors the authority to amend and repeal our by-laws without a stockholder vote; provided, however, that such authority of our board of directors is subject to the power of the stockholders to change or repeal any by-laws by a majority vote of the stockholders present and represented at any annual meeting or at any special meeting called for such purpose.

These provisions may also make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt of our Company that is opposed by our management or our board of directors. Stockholders who might desire to participate in those types of transactions may not have an opportunity to do so, even if the transaction is favorable to the stockholders. These anti-takeover provisions could substantially impede the ability of public stockholders to benefit from a change in control or change our management or our board of directors and, as a result, may adversely affect the market price of our common stock and the Mandatory Convertible Preferred Stock and the ability of stockholders to realize any potential change of control premium.

We cannot assure that we will be able to continue paying dividends on our common stock.

On December 11, 2014, our board of directors approved a 5% increase over the 2014 dividend rate in the planned quarterly cash dividend rate, commencing with the dividend for the first quarter of 2015 which equaled \$0.105 per share of common stock and was paid on March 31, 2015 to holders of record at the close of business on March 12, 2015. On an annual basis, this plan would increase the dividend from \$0.40 to \$0.42 per share. On May 5, 2015, we announced that our board of directors declared an equal cash dividend of \$0.105 per share of common stock for the second quarter of 2015, payable on June 30, 2015 to holders of record at the close of business on May 28, 2015. Purchasers in this offering will not receive the June 30, 2015 dividend with respect to the securities purchased in this offering. The amount and timing of future dividend payments and our ability to make other distributions is subject to applicable law and will be made at the discretion of our board of directors based on factors such as cash flow and cash requirements, capital expenditure requirements, financial condition and other factors. No dividends will be declared or paid on our common stock unless full cumulative dividends have been paid or set aside for payment on all outstanding Mandatory Convertible Preferred Stock for all accrued dividend periods.

We have a significant amount of goodwill and other intangible assets on our balance sheet. If our goodwill or other intangible assets become impaired, we may be required to record a non-cash charge to earnings and reduce our stockholders' equity.

Under GAAP, intangible assets are reviewed for impairment on an annual basis or more frequently whenever events or circumstances indicate that their carrying value may not be recoverable. We monitor relevant circumstances, including general economic conditions, enterprise value EBITDA multiples for other rural ILEC properties, our overall financial performance and the market prices for our common stock, and the potential impact that changes in such circumstances might have on the valuation of our goodwill or other intangible assets. If our goodwill or other intangible assets are determined to be impaired in the future, we may be required to record a non-cash charge to earnings during the period in which the impairment is determined, which would reduce our stockholders' equity.

Table of Contents**Ratio of earnings to combined fixed charges and preferred stock dividends**

The following table contains our historical consolidated ratio of earnings to combined fixed charges and preferred stock dividends for the periods indicated. For purposes of this ratio, earnings consist of pre-tax income (loss) from continuing operations before income (loss) from equity investees, and after deductions for income attributable to the noncontrolling interest in a partnership, plus fixed charges (except for interest capitalized) and distributed income of equity investees. Fixed charges consist of interest expensed and capitalized, plus the portion of rent expense under operating leases deemed to be representative of interest. We had no preferred securities outstanding during the periods presented. Therefore, the ratio of earnings to combined fixed charges and preferred stock dividends is the same as the ratio of earnings to fixed charges.

We estimate that the net proceeds from the concurrent offering will be approximately \$726.50 million (or approximately \$799.25 million if the underwriters exercise their option to purchase additional securities in full), after deducting underwriting discounts and commissions and estimated offering expenses. Neither this offering nor the concurrent offering is conditioned on the consummation of the Verizon Transaction, and there can be no assurance that the Verizon Transaction will be consummated on the terms described herein or at all. If the Verizon Transaction is not consummated, we intend to use the proceeds of this offering and the proceeds from the concurrent offering, net of certain fees and expenses and net of the aggregate redemption amount paid in cash if we choose to exercise our acquisition termination option to redeem all of the Mandatory Convertible Preferred Stock offered hereby, for general corporate purposes, which may include share repurchases, acquisitions or debt repayment.

The designations, powers, preferences and other rights, and the qualifications, limitations and restrictions shall be set forth in a certificate of designations filed with the Secretary of State of the State of Delaware. As of the date of this prospectus supplement, no shares of preferred stock are outstanding. See Description of capital stock in the accompanying prospectus. At the consummation of this offering, we will issue 17,500,000 shares of the Mandatory Convertible Preferred Stock. When issued, the Mandatory Convertible Preferred Stock and our common stock issuable upon the conversion of the Mandatory Convertible Preferred Stock will be fully paid and non-assessable. The holders of the Mandatory Convertible Preferred Stock and common stock issued upon conversion of the Mandatory Convertible Preferred Stock will have no pre-emptive or preferential right to purchase or subscribe to our stock, obligations, warrants or other securities of any class.

The transfer agent, registrar, conversion and dividend disbursing agent for shares of the Mandatory Convertible Preferred Stock and the transfer agent and registrar for shares of our common stock is Computershare Trust Company, N.A.

Ranking

The Mandatory Convertible Preferred Stock, with respect to dividend rights and the rights to distribution of assets upon our liquidation, winding-up or dissolution, will rank:

senior to our common stock and to each other class of capital stock or series of preferred stock established after the original issue date of the Mandatory Convertible Preferred Stock (which we refer to as the issue date), the terms of which do not expressly provide that such class or series ranks senior to, or on a parity with, the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up (which we refer to collectively as junior stock);

equally with any class of capital stock or series of preferred stock established after the issue date, the terms of which expressly provide that such class or series will rank equally with the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up, in each case without regard to whether dividends accrue cumulatively or non-cumulatively (which we refer to collectively as parity stock);

Table of Contents

junior to each class of capital stock or series of preferred stock established after the issue date, the terms of which expressly provide that such class or series will rank senior to the Mandatory Convertible Preferred Stock as to dividend rights and/or rights to distribution of assets upon our liquidation, dissolution or winding-up; and

junior to our existing and future indebtedness and other liabilities (including trade payables).

In addition, the Mandatory Convertible Preferred Stock, with respect to dividend rights or rights to distribution of assets upon our liquidation, winding-up or dissolution, will be structurally subordinated to existing and future indebtedness of our subsidiaries. As of March 31, 2015, on a pro forma basis to give effect to the Verizon Transaction and the other events described under Unaudited Pro Forma Condensed Combined Financial Information, we would have had a total of approximately \$18.1 billion of outstanding indebtedness, including long-term debt, short-term debt and long-term financial obligations. See Unaudited Pro Forma Condensed Combined Financial Information.

Dividends

Subject to the rights of holders of any class or series of our capital stock ranking senior to the Mandatory Convertible Preferred Stock with respect to dividends, holders of shares of the Mandatory Convertible Preferred Stock will be entitled to receive, when, as and if declared by our board of directors or an authorized committee of our board of directors and to the extent lawful, cumulative dividends at an annual rate of 11.125% of the initial liquidation preference of \$100.00 per share of Mandatory Convertible Preferred Stock (equivalent to \$11.125 per year per share). We will pay such dividends in cash, by delivery of shares of our common stock or by delivery of any combination of cash and our common stock, at our election, as described under Method of payment of dividends below. If declared, dividends on the Mandatory Convertible Preferred Stock will be payable quarterly on the last business day of each of March, June, September and December of each year, commencing on September 30, 2015 and ending on June 29, 2018 (each, a dividend payment date), at such annual rate, and shall accumulate from the most recent date as to which dividends shall have been paid or, if no dividends have been paid, from the issue date of the Mandatory Convertible Preferred Stock, whether or not in any dividend period or periods there have been funds or stock lawfully available for the payment of such dividends. A dividend period refers to a period commencing on, and including, a dividend payment date (or if no dividend payment date has occurred, commencing on, and including, the issue date), and ending on, and including, the day immediately preceding the next succeeding dividend payment date.

A business day means any day other than a Saturday or Sunday or other day on which commercial banks in New York City are authorized or required by law or executive order to close. Any accumulated and unpaid dividends from any preceding dividend period can be declared and paid on a date determined by the board of directors or an authorized committee of our board of directors in its sole discretion.

Dividends will be payable to holders of record as they appear on our stock register at 5:00 p.m., New York City time, on the 15th calendar day of the month in which such dividend payment falls or such other record date fixed by our board of directors or any duly authorized committee thereof that is not more than 60 nor less than 10 days prior to such dividend payment date, but only to the extent a dividend has been declared to be payable on such dividend payment date (each, a regular record date), except that dividends payable on the mandatory conversion date, as defined below, will be payable to the holders presenting the Mandatory Convertible Preferred Stock for conversion. The regular record date shall apply regardless of whether it is a business day.

Dividends payable on the Mandatory Convertible Preferred Stock for each full dividend period will be computed by dividing the annual dividend rate by four. Dividends payable on the Mandatory Convertible Preferred Stock for any period other than a full dividend period will be based upon the actual number of days elapsed during

Table of Contents

the period and computed on the basis of a 360-day year consisting of twelve 30-day months. The initial dividend on the Mandatory Convertible Preferred Stock for the first dividend period, assuming the issue date is June 10, 2015, is expected to be \$3.4611 per share (based on the annual dividend rate of 11.125% and an initial liquidation preference of \$100.00 per share) and will be payable, if declared, on September 30, 2015 to the holders of record thereof on September 15, 2015. Each subsequent quarterly dividend on the Mandatory Convertible Preferred Stock, when, as and if declared, will be \$2.78125 per share (based on the annual dividend rate of 11.125% and an initial liquidation preference of \$100.00 per share). Accumulated dividends on shares of Mandatory Convertible Preferred Stock will not bear interest if they are paid subsequent to the applicable dividend payment date.

No dividend will be declared or paid upon, or any sum of cash or number of shares of our common stock set apart for the payment of dividends upon, any outstanding shares of Mandatory Convertible Preferred Stock with respect to any dividend period unless all dividends for all preceding dividend periods have been declared and paid, or declared and a sum of cash or number of shares sufficient for the payment thereof has been set apart for the payment of such dividends, upon all outstanding shares of the Mandatory Convertible Preferred Stock.

No dividend will be paid upon any outstanding shares of Mandatory Convertible Preferred Stock unless and until our board of directors, or an authorized committee of our board of directors, declares a dividend payable with respect to the Mandatory Convertible Preferred Stock. Our ability to declare and pay dividends and make other distributions with respect to our capital stock, including the Mandatory Convertible Preferred Stock, is restricted by the terms of certain of our existing financing arrangements and may be restricted by the terms of financing arrangements that we enter into in the future. In addition, our ability to declare and pay dividends may be limited by applicable Delaware law. See Risk factors Risks related to our common stock and this offering Our ability to declare and pay dividends on the Mandatory Convertible Preferred Stock may be limited.

Method of payment of dividends

Subject to the limitations described below, we may pay any declared dividend (or any portion of any declared dividend) on the Mandatory Convertible Preferred Stock (whether or not for a current dividend period or any prior dividend period), including in connection with the payment of declared and unpaid dividends pursuant to the provisions described under Conversion rights Mandatory conversion, Conversion rights Early conversion at the option of the holder, and Conversion rights Early conversion at the option of the holder upon a fundamental change, determined in our sole discretion:

in cash;

by delivery of shares of our common stock; or

through payment or delivery, as the case may be, of any combination of cash and shares of our common stock; *provided* that in the case of conversion upon and following a fundamental change that is a reorganization event (as defined below), dividends otherwise payable in shares of our common stock may be paid by delivery of units of exchange property, as described under Recapitalizations, reclassifications and changes of our common stock ; and *provided further*, that if our board of directors may not lawfully authorize payment of all or any portion of such accumulated and unpaid dividends in cash, it shall authorize payment of such dividends in shares of our common stock or units of exchange property, as the case may be, if lawfully permitted to do so.

We will make each payment of a declared dividend on the shares of Mandatory Convertible Preferred Stock in cash, except to the extent we elect to make all or any portion of such payment in shares of our common stock.

Table of Contents

We will give the holders of the Mandatory Convertible Preferred Stock notice of any such election and the portion of such payment that will be made in cash and the portion that will be made in shares of our common stock no later than 10 scheduled trading days (as defined below) prior to the dividend payment date for such dividend; *provided* that if we do not provide timely notice of this election, we will be deemed to have elected to pay the relevant dividend in cash. If we elect to make any such payment of a declared dividend, or any portion thereof, in shares of our common stock, such shares shall be valued for such purpose, in the case of any dividend payment or portion thereof, at 97% of the average VWAP per share of our common stock over the five consecutive trading day (as defined below) period beginning on and including the seventh scheduled trading day (as defined below) prior to the applicable dividend payment date (the average price).

However, in no event will the number of shares of our common stock delivered in connection with any dividend, including any dividend payable in connection with a conversion, exceed a number equal to the total dividend payment divided by \$1.75, which amount represents 35% of the initial price (as defined below), subject to adjustment in a manner inversely proportional to any anti-dilution adjustment to each fixed conversion rate (such dollar amount, as adjusted, the floor price). To the extent that the amount of the dividend exceeds the product of the number of shares of our common stock delivered in connection with such dividend and 97% of the average price, we will, if we are legally able to do so, pay such excess amount in cash.

No fractional shares of our common stock will be delivered to the holders of the Mandatory Convertible Preferred Stock in payment or partial payment of a dividend. We will instead pay a cash adjustment (computed to the nearest cent) based on the average price with respect to such dividend.

The initial price is \$5.00, which equals the last reported sale price of our common stock on June 4, 2015.

To the extent we determine in our reasonable judgement that a shelf registration statement is required in connection with the issuance of, or for resales of, shares of our common stock issued as payment of a dividend on the shares of Mandatory Convertible Preferred Stock, to (or by) holders thereof that are not affiliates of ours for purposes of the Securities Act, including dividends paid in connection with a conversion, we will, to the extent such a registration statement is not currently filed and effective, if we determine to issue such shares of common stock, use our commercially reasonable efforts to file and maintain the effectiveness of such a shelf registration statement until the earlier of such time as all such shares of common stock have been resold thereunder and such time as all such shares would be freely tradable without registration. To the extent applicable, we will also use our commercially reasonable efforts to have such shares of common stock qualified or registered under applicable state securities laws, if required, and approved for listing on the NASDAQ Global Select Market (or if shares of our common stock are not listed on the NASDAQ Global Select Market, on the principal other U.S. national or regional securities exchange on which shares of our common stock are then listed).

Definitions

For purposes of this Description of mandatory convertible preferred stock section, the following terms have the meanings set forth below:

Volume weighted average price or VWAP per share of our common stock on any trading day means such price as displayed under the heading Bloomberg VWAP on Bloomberg (or any successor service) page FTR <Equity> AQR (or its equivalent successor if such page is not available) in respect of the period from the scheduled open to 4:00 p.m., New York City time, on such trading day; or, if such price is not available, the volume weighted average price means the market value per share of our common stock on such trading day as determined, using a volume-weighted average method, by a nationally recognized independent investment banking firm retained by us for this purpose. The average VWAP means, for any period, the average of the volume weighted average prices for each trading day in such period.

Table of Contents

A trading day is any day on which:

there is no market disruption event (as defined below); and

the NASDAQ Global Select Market is open for trading, or, if our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) is not listed on the NASDAQ Global Select Market, any day on which the principal national securities exchange on which our common stock (or such other security) is listed is open for trading, or, if the common stock (or such other security) is not listed on a national securities exchange, any business day. A trading day only includes those days that have a scheduled closing time of 4:00 p.m., New York City time, or the then standard closing time for regular trading on the relevant exchange or trading system.

A market disruption event means any of the following events:

any suspension of, or limitation imposed on, trading by the relevant exchange or quotation system during any period or periods aggregating one half-hour or longer and whether by reason of movements in price exceeding limits permitted by the relevant exchange or quotation system or otherwise relating to our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) or in futures or option contracts relating to our common stock (or such other security) on the relevant exchange or quotation system;

any event (other than a failure to open or a closure as described below) that disrupts or impairs the ability of market participants during any period or periods aggregating one half-hour or longer in general to effect transactions in, or obtain market values for, our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) on the relevant exchange or quotation system or futures or options contracts relating to our common stock (or such other security) on any relevant exchange or quotation system; or

the failure to open of one of the exchanges or quotation systems on which futures or options contracts relating to our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) are traded or the closure of such exchange or quotation system prior to its respective scheduled closing time for the regular trading session on such day (without regard to after-hours or other trading outside the regular trading session hours) unless such earlier closing time is announced by such exchange or quotation system at least one hour prior to the earlier of the actual closing time for the regular trading session on such day and the submission deadline for orders to be entered into such exchange or quotation system for execution at the actual closing time on such day.

For purposes of the first two bullets of the definition of market disruption event above, the relevant exchange or quotation system will be the NASDAQ Global Select Market; *provided* that if our common stock (or any other security into which the Mandatory Convertible Preferred Stock becomes convertible in connection with any reorganization event) is not listed on the NASDAQ Global Select Market, such relevant exchange or quotation system will be the principal national securities exchange on which our common stock (or such other security) is listed for trading.

A scheduled trading day is any day that is scheduled to be a trading day, except that if our common stock is not listed on a national securities exchange, scheduled trading day means a business day.

Dividend stopper

So long as any share of Mandatory Convertible Preferred Stock remains outstanding:

no dividend or distribution shall be declared or paid on our common stock or any other shares of junior stock, except dividends payable solely in shares of our common stock or other junior stock or rights to acquire same;

no dividend or distribution shall be declared or paid on our parity stock, except as provided below; and

no common stock, junior stock or parity stock shall be, directly or indirectly, purchased, redeemed or otherwise acquired for consideration by us or any of our subsidiaries, unless all accumulated and unpaid dividends for all past dividend periods, including the latest completed dividend period, on all outstanding shares of the Mandatory Convertible Preferred Stock have been or are contemporaneously declared and paid in full (or have been declared and a sufficient sum of cash or number of shares of our common stock for the payment thereof has been set aside for the benefit of the holders of shares of the Mandatory Convertible Preferred Stock on the applicable record date).

The limitations on distributions described in the immediately preceding paragraph will not apply to:

redemptions, purchases or other acquisitions of shares of our common stock or other junior stock in connection with the administration of any employee benefit plan or other incentive plan, including employment contracts, in the ordinary course of business (including purchases of shares in lieu of tax withholding and purchases of shares to offset the share dilution amount (as defined below) pursuant to a publicly announced repurchase plan); *provided* that any purchases to offset the share dilution amount shall in no event exceed the share dilution amount;

any dividends or distributions of rights or junior stock in connection with a stockholders' rights plan or any redemption or repurchase of rights pursuant to any stockholders' rights plan;

purchases of ordinary shares or junior stock pursuant to a contractually binding requirement to buy same existing prior to the preceding dividend period;

the acquisition by us or any of our subsidiaries of record ownership in junior stock or parity stock for the beneficial ownership of any other persons (other than for the beneficial ownership by us or any of our subsidiaries), including as trustees or custodians; and

the exchange or conversion of junior stock for or into other junior stock or of parity stock for or into other parity stock (with the same or lesser aggregate liquidation preference) or junior stock and, in each case, the payment of cash solely in lieu of fractional shares.

Share dilution amount means the increase in the number of diluted shares outstanding (determined in accordance with generally accepted accounting principles in the United States, and as measured from the date of our consolidated financial statements most recently filed with the SEC prior to the issue date) resulting from the grant, vesting or exercise of equity-based compensation to employees, directors or consultants and equitably adjusted for any stock split, stock dividend, reverse stock split, reclassification or similar transaction.

When dividends are not paid (or declared and a sufficient sum of cash or number of shares of our common stock for payment thereof set aside for the benefit of the holders thereof on the applicable record date) on any dividend payment date (or, in the case of parity stock having dividend payment dates different from such dividend payment dates, on a dividend payment date falling within a dividend period related to such dividend payment date) in full upon the Mandatory Convertible Preferred Stock and any shares of parity stock, all

dividends declared on the Mandatory Convertible Preferred Stock and all such parity stock and payable on such dividend payment date (or, in the case of parity stock having dividend payment dates different from such dividend payment dates, on a dividend payment date falling within a dividend period related to such dividend payment date) shall be declared and paid pro rata so that the respective amounts of such dividends declared shall bear the same ratio to each other as all accumulated and unpaid dividends per share on the shares of the Mandatory Convertible Preferred Stock and all parity stock payable on such dividend payment date (or, in the case of parity stock having dividend payment dates different from such dividend payment dates, on a dividend payment date falling within a dividend period related to such dividend payment date) (subject to their having been declared by our board of directors or a duly authorized committee of our board of directors out of lawfully available funds and including, in the case of parity stock that bears cumulative dividends, all accrued but unpaid dividends) bear to each other. If our board of directors or a duly authorized committee of our board of directors determines not to pay any dividend or a full dividend on a dividend payment date, we will provide 10 business days written notice to the holders of the Mandatory Convertible Preferred Stock prior to such dividend payment date, or as reasonably practicable thereafter.

Subject to the foregoing, dividends (payable in cash, securities or other property) as may be determined by our board of directors or any duly authorized committee of our board of directors may be declared and paid on any securities, including our common stock and other junior stock, from time to time out of any funds lawfully available for such payment, and holders of the Mandatory Convertible Preferred Stock shall not be entitled to participate in any such dividends.

Acquisition termination redemption

We expect to use the net proceeds from this offering in connection with the acquisition of Verizon Communications Inc.'s wireline operations that provide services to residential, commercial and wholesale customers in California, Florida and Texas (the "Verizon Acquisition"), as described under "Summary". Within ten Business Days following the earlier of (a) the date on which an acquisition termination event (as defined below) occurs and (b) 5:00 p.m. (New York City time) on August 6, 2016, if the Verizon Acquisition has not closed on or prior to such time on such date, we will be entitled, but not required, in our sole discretion, to mail a notice of acquisition termination redemption to the holders of the Mandatory Convertible Preferred Stock (*provided* that, if the Mandatory Convertible Preferred Stock are held in book-entry form through DTC we may give such notice in any manner permitted by DTC). If we provide notice of acquisition termination redemption to holders of the Mandatory Convertible Preferred Stock, then, on the acquisition termination redemption date (as defined below), we will be required to redeem the Mandatory Convertible Preferred Stock, in whole but not in part, at a redemption amount per share of Mandatory Convertible Preferred Stock equal to the acquisition termination make-whole amount (as defined below).

acquisition termination event means either (1) the Verizon Purchase Agreement (as such term is defined under "Summary") is terminated or (2) we determine in our reasonable judgment that the Verizon Acquisition will not occur.

acquisition termination make-whole amount means, for each share of Mandatory Convertible Preferred Stock, an amount in cash equal to \$100.00 plus accumulated and unpaid dividends to the acquisition termination redemption date (whether or not declared); *provided, however*, that if the acquisition termination share price (as defined below) exceeds the initial price, the acquisition termination make-whole amount will equal the reference amount (as defined below).

The acquisition termination share price means the average VWAP per share of our common stock over the 10 consecutive trading day period ending on the trading day preceding the date on which we provide notice of acquisition termination redemption.

Table of Contents

The reference amount will equal the sum of the following amounts:

(i) a number of shares of our common stock equal to the acquisition termination conversion rate (as defined below); plus

(ii) cash in an amount equal to the acquisition termination dividend amount (as defined below);

provided that we may deliver cash in lieu of all or any portion of the shares of our common stock set forth in clause (i) above, and we may deliver shares of our common stock in lieu of all or any portion of the cash amount set forth in clause (ii) above, in each case, as described below.

acquisition termination conversion rate means a rate equal to the fundamental change conversion rate assuming for such purpose that the date on which we provide notice of acquisition termination redemption is the fundamental change effective date (as defined below) and that the fundamental change share price is the acquisition termination share price.

acquisition termination dividend amount means an amount of cash equal to the sum of (x) the fundamental change dividend make-whole amount and (y) the accumulated dividend amount, assuming in each case, for such purpose that the date on which we provide notice of acquisition termination redemption is the fundamental change effective date.

For a description of the terms fundamental change conversion rate, fundamental change dividend make-whole amount, accumulated dividend amount and fundamental change share price, see Early conversion at the option of the holder upon a fundamental change.

If the acquisition termination share price exceeds the initial price, we may pay cash (computed to the nearest cent) in lieu of delivering all or any portion of the number of shares of our common stock equal to the acquisition termination conversion rate. If we make such an election, we will deliver cash (computed to the nearest cent) in an amount equal to such number of shares of our common stock in respect of which we have made this election multiplied by the acquisition termination market value.

In addition, if the acquisition termination share price exceeds the initial price, we may deliver shares of our common stock in lieu of cash for some or all of the acquisition termination dividend amount. If we make such an election, we will deliver a number of shares of our common stock equal to such portion of the acquisition termination dividend amount to be paid in shares of our common stock divided by the greater of the floor price and 97% of the acquisition termination market value; *provided* that, if the acquisition termination dividend amount or portion thereof in respect of which shares of our common stock are delivered exceeds the product of such number of shares of our common stock multiplied by 97% of the acquisition termination market value, we will, if we are legally able to do so, declare and pay such excess amount in cash (computed to the nearest cent).

acquisition termination market value means the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the third trading day following the date on which we provide notice of acquisition termination redemption.

acquisition termination redemption date means the date specified by us in our notice of acquisition termination redemption that is not less than 30 nor more than 60 days following the date on which we provide notice of such acquisition termination redemption; *provided*, that, if (a) the acquisition termination share price is greater than the initial price and (b)(i) we elect to pay cash in lieu of delivering all or any portion of the shares of our common stock equal to the acquisition termination conversion rate, or (ii) we elect to deliver shares of our common stock in lieu of all or any portion of the acquisition termination dividend amount, then the acquisition termination redemption date will be also not earlier than the third business day following the last trading day of the 20 consecutive trading day period used to determine the acquisition termination market value.

Table of Contents

The notice of acquisition termination redemption will specify, among other things:

the acquisition termination make-whole amount;

if the acquisition termination share price exceeds the initial price, the number of shares of our common stock and the amount of cash comprising the reference amount per share of Mandatory Convertible Preferred Stock (before giving effect to any election to pay or deliver, with respect to each share of Mandatory Convertible Preferred Stock, cash in lieu of a number of shares of our common stock equal to the acquisition termination conversion rate or shares of our common stock in lieu of cash in respect of the acquisition termination dividend amount);

if applicable, whether we will deliver cash in lieu of all or any portion of the number of shares of our common stock equal to the acquisition termination conversion rate comprising a portion of the reference amount (specifying, if applicable, the number of such shares of our common stock in respect of which cash will be delivered);

if applicable, whether we will deliver shares of our common stock in lieu of all or any portion of the acquisition termination dividend amount comprising a portion of the reference amount (specifying, if applicable, the percentage of the acquisition termination dividend amount in respect of which shares of our common stock will be delivered in lieu of cash); and

the acquisition termination redemption date.

If any portion of the acquisition termination make-whole amount is to be paid in shares of our common stock, no fractional shares of our common stock will be delivered to the holders of the Mandatory Convertible Preferred Stock. We will instead, to the extent we are legally permitted to do so, pay a cash amount (computed to the nearest cent) to each holder that would otherwise be entitled to a fraction of share of our common stock based on the average VWAP per share of our common stock over the five consecutive trading day period beginning on, and including, the seventh scheduled trading day immediately preceding the acquisition termination redemption date. If more than one share of Mandatory Convertible Preferred Stock is to be redeemed from a holder, the number of our shares of common stock issuable in connection with the payment of the reference amount shall be computed on the basis of the aggregate number of Mandatory Convertible Preferred Stock so redeemed.

All cash payments to which a holder of the Mandatory Convertible Preferred Stock are entitled in connection with an acquisition termination redemption will be rounded to the nearest cent.

While we expect to use the net proceeds from this offering in connection with the Verizon Acquisition, there is no guarantee that the acquisition will be consummated and if it is not consummated, we may use the proceeds of the offering for other purposes. We may, in our sole discretion, determine to redeem the Mandatory Convertible Preferred Stock as further described hereunder. The proceeds of this offering will not be deposited into an escrow account pending any acquisition termination redemption of the Mandatory Convertible Preferred Stock. Our ability to pay the acquisition termination make-whole amount to holders of the Mandatory Convertible Preferred Stock in connection with an acquisition termination redemption may be limited by our then-existing financial resources, and sufficient funds may not be available when necessary to make any required purchases of the Mandatory Convertible Preferred Stock following our election to redeem the Mandatory Convertible Preferred Stock.

To the extent a shelf registration statement is required in our reasonable judgment in connection with the issuance of or for resales of our shares of common stock issued as payment of any portion of the acquisition termination make-whole amount, we will, to the extent such a shelf registration statement is not currently filed and effective, use our commercially reasonable efforts to file and maintain the effectiveness of such a shelf

registration statement until the earlier of such time as all such shares of our common stock have been resold thereunder and such time as all such shares would be freely tradable without registration by holders thereof that are not affiliates of ours for purposes of the Securities Act. To the extent applicable, we will also use our commercially reasonable efforts to have such shares of our common stock qualified or registered under applicable U.S. state securities laws, if required, and approved for listing on the NASDAQ Global Select Market (or if our shares of common stock are not listed on the NASDAQ Global Select Market, on the principal other U.S. national or regional securities exchange on which our shares of common stock are then listed).

Other than pursuant to the acquisition termination redemption provisions described above, the Mandatory Convertible Preferred Stock will not be redeemable.

Conversion rights

Mandatory conversion

Each outstanding share of the Mandatory Convertible Preferred Stock will automatically convert on June 29, 2018 (the mandatory conversion date) into a number of shares of our common stock equal to the conversion rate described below, unless such share of the Mandatory Convertible Preferred Stock has been previously redeemed in the manner described in Acquisition termination redemption or converted in the manner described in Conversion rights Early conversion at the option of the holder or Conversion rights Early conversion at the option of the holder upon a fundamental change; provided that if the mandatory conversion date is not a business day, the mandatory conversion date will be postponed to the following business day and; provided, further, that if the applicable market value (as defined below) is first determinable on a date later than the mandatory conversion date because there are one or more scheduled trading days that are not trading days during the 20 consecutive scheduled trading day period commencing on and including the 22nd scheduled trading day prior to June 29, 2018, the mandatory conversion date will be postponed to such later date.

The conversion rate, which is the number of shares of common stock issuable upon conversion of each share of the Mandatory Convertible Preferred Stock on the applicable conversion date (excluding shares of common stock, if any, issued in respect of accumulated and unpaid dividends), will be as follows:

if the applicable market value of our common stock is equal to or greater than \$5.875, which we refer to as the threshold appreciation price, then the conversion rate will be 17.0213 shares of our common stock per share of Mandatory Convertible Preferred Stock (the minimum conversion rate), which is equal to \$100.00 divided by the threshold appreciation price;

if the applicable market value of our common stock is less than the threshold appreciation price but greater than \$5.00 (i.e., the initial price), then the conversion rate will be equal to \$100.00 divided by the applicable market value of our common stock; or

if the applicable market value of our common stock is less than or equal to the initial price, then the conversion rate will be 20.0000 shares of common stock per share of Mandatory Convertible Preferred Stock, which we refer to as the maximum conversion rate, which is equal to \$100.00 divided by the initial price.

We refer to the minimum conversion rate and the maximum conversion rate collectively as the fixed conversion rates.

If prior to the mandatory conversion date we have not declared all or any portion of the accumulated dividends on the Mandatory Convertible Preferred Stock, the conversion rate will be adjusted so that holders receive an additional number of shares of our common stock equal to the amount of such accumulated dividends (the additional conversion amount) divided by the greater of the floor price and 97% of average price. To the

Table of Contents

extent that the additional conversion amount exceeds the product of such number of additional shares and the applicable market value, we will, if we are legally able to do so, declare and pay such excess amount in cash pro rata to the holders of the Mandatory Convertible Preferred Stock.

The applicable market value of our common stock is the average VWAP per share of our common stock for the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day prior to June 29, 2018.

The initial price is \$5.00. The threshold appreciation price is \$5.875, which represents approximately a 17.50% appreciation over the initial price. Each of the fixed conversion rates, the initial price, the threshold appreciation price and the applicable market value are subject to adjustment as described under Conversion rights Conversion rate adjustments below.

Based on the foregoing, if the market price of our common stock on the mandatory conversion date (subject to postponement as described above) is the same as the applicable market value, the aggregate market value of the shares of our common stock you receive upon mandatory conversion (other than any shares of our common stock received in connection with any dividend payment) will be:

greater than the initial liquidation preference of the Mandatory Convertible Preferred Stock, if the applicable market value is greater than the threshold appreciation price;

equal to the initial liquidation preference, if the applicable market value is less than or equal to the threshold appreciation price and greater than or equal to the initial price; and

less than the initial liquidation preference, if the applicable market value is less than the initial price.

Early conversion at the option of the holder

Holders of the Mandatory Convertible Preferred Stock will have the right to convert the Mandatory Convertible Preferred Stock, in whole or in part (but in no event less than one share of Mandatory Convertible Preferred Stock), at any time prior to the mandatory conversion date, other than during the fundamental change conversion period (as defined below), into shares of our common stock at the minimum conversion rate of 17.0213 shares of our common stock per share of the Mandatory Convertible Preferred Stock, subject to adjustment as described under Conversion rights Conversion rate adjustments below.

If, as of the effective date of any early conversion (the early conversion date), we have not declared all or any portion of the accumulated dividends for all dividend periods ending on a dividend payment date prior to such early conversion date, the conversion rate for such early conversion will be adjusted so that holders converting their shares of Mandatory Convertible Preferred Stock at such time receive an additional number of shares of our common stock equal to such amount of accumulated and unpaid dividends for such prior dividend periods, divided by the greater of the floor price and the average VWAP per share of our common stock over the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day prior to the early conversion date (the early conversion average price). To the extent that the cash amount of the accumulated and unpaid dividends for prior dividend periods ending on a dividend payment date prior to the relevant early conversion date exceeds the value of the product of the number of additional shares added to the conversion rate and the early conversion average price, we will not have any obligation to pay the shortfall in cash.

Except as described above, upon any optional conversion of any Mandatory Convertible Preferred Stock, we will make no payment or allowance for unpaid dividends on such Mandatory Convertible Preferred Stock, unless such early conversion date occurs after the record date for a declared dividend and on or prior to the immediately succeeding dividend payment date, in which case such dividend will be paid on such dividend payment date to the holder of record of the converted shares of Mandatory Convertible Preferred Stock as of such record date, as described under Dividends above.

Table of Contents

Early conversion at the option of the holder upon a fundamental change

If a fundamental change (as defined below) occurs on or prior to the mandatory conversion date, holders of the Mandatory Convertible Preferred Stock will have the right to:

(1) convert their Mandatory Convertible Preferred Stock, in whole or in part (but in no event less than one share of Mandatory Convertible Preferred Stock):

(i) into shares of our common stock at the conversion rate determined using the table below (the fundamental change conversion rate); or

(ii) units of exchange property based on the fundamental change conversion rate if the fundamental change also constitutes a reorganization event described under Recapitalizations, reclassifications and changes of our common stock ;

(2) with respect to such converted shares, receive a fundamental change dividend make-whole amount (as defined below) payable in cash or shares of our common stock (or, if applicable, units of exchange property); and

(3) with respect to such converted shares, receive the accumulated dividend amount (as defined below) payable in cash or shares of our common stock (or, if applicable, units of exchange property),

subject, in the case of clauses (2) and (3) above, to certain limitations with respect to the number of shares of our common stock that we will be required to deliver, all as described below in Fundamental change dividend make-whole amount and accumulated dividend amount .

Notwithstanding clauses (2) and (3) above, if the effective date of a fundamental change or the relevant fundamental change conversion date falls during a dividend period for which we have declared a dividend on the Mandatory Convertible Preferred Stock, we will pay such dividend on the relevant dividend payment date to the holders of record on the immediately preceding record date, as described in Dividends. In such case the accumulated dividend amount will not include the amount of such dividend, and the fundamental change dividend make-whole amount will not include the present value of such dividend.

To exercise this right, holders must submit their Mandatory Convertible Preferred Stock for conversion at any time during the period (the fundamental change conversion period) from, and including, the effective date of such fundamental change (as defined below) (the effective date) to, but excluding, the earlier of (x) the mandatory conversion date and (y) the date selected by us that is not less than 30 and not more than 60 days after the effective date (the fundamental change conversion date), at the conversion rate specified in the table below (the fundamental change conversion rate). Holders of Mandatory Convertible Preferred Stock who do not submit their shares for conversion during the fundamental change conversion period will not be entitled to convert their Mandatory Convertible Preferred Stock at the fundamental change conversion rate or to receive the fundamental change dividend make-whole amount or, in connection with the fundamental change, the accumulated dividend amount.

We will notify holders, to the extent practicable, at least 20 calendar days prior to the anticipated effective date of such fundamental change, but in any event not later than two business days following our becoming aware of the occurrence of a fundamental change; provided that we will not be required to deliver such notice before such date that we would otherwise be required to deliver notice pursuant to applicable securities laws or the rules of any securities exchange on which shares of our common stock are then traded (the fundamental change company notice). Such fundamental change company notice will state, among other things, whether we have elected to pay all or any portion of accumulated and unpaid dividends in shares of our common stock or units of exchange property, as the case may be, and, if so, the portion thereof (as a percentage) that will be paid in shares of our common stock or units of exchange property.

The exact stock price and effective date may not be set forth in the table, in which case:

if the stock price is between two stock price amounts in the table or the effective date is between two dates in the table, the fundamental change conversion rate will be determined by straight-line interpolation between the fundamental change conversion rates set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;

if the stock price is greater than \$20.00 per share (subject to adjustment as described below), then the fundamental change conversion rate will be the minimum conversion rate, subject to adjustment as set forth under Conversion rights Conversion rate adjustments ; and

if the stock price is less than \$1.50 per share (subject to adjustment as described below) (the minimum stock price), then the fundamental change conversion rate will be determined (x) as if the stock price equaled the minimum stock price and (y) if the effective date is between two dates on the table, using straight-line interpolation, as described herein, subject to adjustment.

The stock price in the fundamental change will equal:

in the case of a fundamental change described in clause (2) below in which the holders of our common stock receive only cash in the fundamental change, the cash amount paid per share of our common stock; and

otherwise, the average VWAP per share of our common stock over the five consecutive trading day period ending on, and including, the trading day immediately preceding the effective date of the fundamental change (the fundamental change market value).

The stock prices set forth in the first row of the table (i.e., the column headers) will be adjusted as of any date on which the fixed conversion rates of the Mandatory Convertible Preferred Stock are adjusted. The adjusted stock prices will equal the stock prices applicable immediately prior to such adjustment multiplied by a fraction, the numerator of which is the minimum conversion rate immediately prior to the adjustment giving rise to the stock price adjustment and the denominator of which is the minimum conversion rate as so adjusted. Each of the conversion rates in the table will be subject to adjustment in the same manner as each fixed conversion rate as set forth under Conversion rights Conversion

A fundamental change will be deemed to have occurred if any of the following occurs:

- (1) a person or group within the meaning of Section 13(d) of the Exchange Act, other than us, our subsidiaries and our or their employee benefit plans, files a Schedule TO or any schedule, form or report under the Exchange Act disclosing that such person or group has become the direct or indirect beneficial owner, as defined in Rule 13d3 under the Exchange Act, of our common equity representing more than 50% of the voting power of our common equity or we otherwise become aware of such ownership;
- (2) the consummation of (A) any recapitalization, reclassification or change of our common stock (other than a change only in par value, from par value to no par value or from no par value to par value, or changes resulting from a subdivision or combination of our common stock) as a result of which our common stock would be converted into, or exchanged for, or represent solely the right to receive, stock, other securities, other property or assets; (B) any share exchange, consolidation or merger of us pursuant to which our common stock will be converted into, or exchanged for, or represent solely the right to receive, stock, other securities, other property or assets; or (C) any sale, lease or other transfer in one transaction or a series of transactions of all or substantially all of the consolidated assets of us and our subsidiaries, taken as a whole, to any person other than one of our wholly-owned subsidiaries;
- (3) our stockholders approve any plan or proposal for the liquidation or dissolution of us; or
- (4) our common stock (or, following a reorganization event (as defined below), any common stock, depositary receipts or other securities representing common equity interests into which the Mandatory Convertible Preferred Stock becomes convertible in connection with such reorganization event) ceases to be listed on any of the NYSE, the NASDAQ Global Select Market or the NASDAQ Global Market (or any of their respective successors) or another U.S. national securities exchange.

A transaction or transactions described in clause (2) above will not constitute a fundamental change, however, if at least 90% of the consideration received or to be received by our common stockholders (excluding cash payments for fractional shares or pursuant to appraisal rights) in connection with such transaction or transactions consists of shares of common stock that are listed on any of the NYSE, the NASDAQ Global Select Market or the NASDAQ Global Market (or any of their respective successors), or will be so listed when issued or exchanged in connection with such transaction or transactions, and as a result of such transaction or transactions the Mandatory Convertible Preferred Stock becomes convertible into such consideration, excluding cash payments for fractional shares. For the purposes of this definition of fundamental change, any transaction or event that constitutes a fundamental change under both clause (1) and clause (2) above will be deemed to constitute a fundamental change solely under clause (2) of this definition of fundamental change.

Fundamental change dividend make-whole amount and accumulated dividend amount

For any shares of Mandatory Convertible Preferred Stock that are converted during the fundamental change conversion period, in addition to the common stock issued upon conversion at the fundamental change conversion rate, we will at our option:

- (1) pay you in cash, to the extent we are legally permitted to do so, the present value, computed using a discount rate of 6.00% per annum, of all dividend payments on your Mandatory Convertible Preferred Stock for all the remaining dividend periods (excluding any accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change) from such effective date to but excluding the mandatory conversion date (the fundamental change dividend make-whole amount),

Table of Contents

(2) increase the number of shares of common stock to be issued on conversion by a number equal to (x) the fundamental change dividend make-whole amount divided by (y) the greater of the floor price and 97% of the stock price, or

(3) pay the fundamental change dividend make whole amount in a combination of cash and shares of our common stock in accordance with the provisions of clauses (1) and (2) above.

In addition, for any shares of Mandatory Convertible Preferred Stock that are converted during the fundamental change conversion period, to the extent that, as of the effective date of the fundamental change, we have not declared any or all of the accumulated dividends on the Mandatory Convertible Preferred Stock as of such effective date (including accumulated and unpaid dividends for all dividend periods ending on or prior to the dividend payment date preceding the effective date of the fundamental change as well as dividends accumulated to the effective date of the fundamental change, the accumulated dividend amount), holders who convert Mandatory Convertible Preferred Stock within the fundamental change conversion period will be entitled to receive such accumulated dividend amount upon conversion. The accumulated dividend amount will be payable at our election in either:

cash, to the extent we are legally permitted to do so;

an additional number shares of our of common stock equal to (x) the accumulated dividend amount divided by (y) the greater of the floor price and 97% of the stock price; or

a combination of cash and shares of our common stock in accordance with the provisions of the preceding two bullets.

We will pay the fundamental change dividend make-whole amount and the accumulated dividend amount in cash, except to the extent we elect on or prior to the second business day following the effective date of a fundamental change to make all or any portion of such payments in shares of our common stock. In addition, if we elect to deliver shares of our common stock in respect of all or any portion of the fundamental change dividend make-whole amount or accumulated dividend amount, to the extent that the fundamental change dividend make-whole amount or the accumulated dividend amount or any portion thereof paid in shares of our common stock exceeds the product of the number of additional shares we deliver in respect thereof and 97% of the stock price, we will, if we are legally able to do so, declare and pay such excess amount in cash.

Not later than the second business day following the effective date of a fundamental change (or, if we provide notice to holders of the fundamental change after the effective date of a fundamental change as described above, on the date we give holders notice of the effective date of a fundamental change), we will notify holders of:

the fundamental change conversion rate;

the fundamental change dividend make-whole amount and whether we will pay such amount in cash, shares of our common stock or a combination thereof, specifying the combination, if applicable; and

the accumulated dividend amount as of the effective date of the fundamental change and whether we will pay such amount in cash, shares of our common stock or a combination thereof, specifying the combination, if applicable.

Our obligation to adjust the conversion rate in connection with a fundamental change and pay the fundamental change dividend make-whole amount (whether in cash or shares of our common stock or any combination thereof) could be considered a penalty, in which case the enforceability thereof would be subject to general principles of reasonableness of economic remedies.

Conversion procedures

Any outstanding shares of Mandatory Convertible Preferred Stock will automatically convert into shares of our common stock on the mandatory conversion date (subject to postponement as described above under *Mandatory conversion*). The person or persons entitled to receive the shares of our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock will be treated as the record holder(s) of such shares as of 5:00 p.m., New York City time, on the mandatory conversion date (subject to postponement as described above under *Mandatory conversion*). Except as provided in *Conversion rate adjustments* , prior to 5:00 p.m., New York City time, on the mandatory conversion date, the shares of our common stock issuable upon conversion of the Mandatory Convertible Preferred Stock will not be outstanding for any purpose and you will have no rights with respect to such shares of common stock, including, without limitation, voting rights, rights to respond to tender offers and rights to receive any dividends or other distributions on our common stock, in each case by virtue of holding the Mandatory Convertible Preferred Stock.

If you elect to convert your Mandatory Convertible Preferred Stock prior to the mandatory conversion date, in the manner described in *Early conversion at the option of the holder*, or *Early conversion at the option of the holder upon a fundamental change*, you must observe the following conversion procedures:

if the shares of Mandatory Convertible Preferred Stock are in global form, to convert your shares of Mandatory Convertible Preferred Stock you must deliver to DTC the appropriate instruction form for conversion pursuant to DTC's conversion program; or

if your shares of Mandatory Convertible Preferred Stock are held in certificated form, you must comply with certain procedures set forth in our Certificate of Incorporation or the Certificate of Designations establishing the terms of the Mandatory Convertible Preferred Stock. The conversion date will be the date on which you have satisfied the foregoing requirements. You will not be required to pay any taxes or duties relating to the issuance or delivery of shares of our common stock if you exercise your conversion rights, but you will be required to pay any tax or duty that may be payable relating to any transfer involved in the issuance or delivery of the shares of common stock in a name other than your own.

Shares of common stock will be issued and delivered only after all applicable taxes and duties, if any, payable by you have been paid in full and will be issued on the later of the third business day immediately succeeding the conversion date and the business day after you have paid in full all applicable taxes and duties, if any.

The person or persons entitled to receive the common stock issuable upon conversion of the Mandatory Convertible Preferred Stock prior to the mandatory conversion date will be treated as the record holder(s) of such shares as of 5:00 p.m., New York City time, on the applicable conversion date. Prior to 5:00 p.m., New York City time, on the applicable conversion date, the common stock issuable upon conversion of the Mandatory Convertible Preferred Stock will not be outstanding for any purpose and you will have no rights with respect to such common stock, including voting rights, rights to respond to tender offers and rights to receive any dividends or other distributions on the common stock, by virtue of holding the Mandatory Convertible Preferred Stock. No fractional shares of our common stock will be issued to holders of shares of the Mandatory Convertible Preferred Stock upon conversion. In lieu of any fractional shares of common stock otherwise issuable upon conversion (including in connection with a dividend payment), that holder will be entitled to receive an amount in cash (computed to the nearest cent) based on the VWAP per share of our common stock on the trading day immediately preceding the applicable conversion date. If more than one share of the Mandatory Convertible Preferred Stock is surrendered for conversion at one time by or for the same holder, the number of full shares of our common stock issuable upon conversion thereof shall be computed on the basis of the aggregate number of shares of the Mandatory Convertible Preferred Stock so surrendered.

Conversion rate adjustments

Each fixed conversion rate will be adjusted from time to time as follows:

(i) If we issue our common stock as a dividend or distribution to all or substantially all holders of our common stock, or if we effect a subdivision or combination (including, without limitation, a stock split or a reverse stock split) of our common stock, each fixed conversion rate will be adjusted based on the following formula:

$$CR_1 = CR_0 \times \frac{OS_1}{OS_0}$$

Where,

CR_0 = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date (as defined below) for such dividend or distribution or immediately prior to 9:00 a.m., New York City time, on the effective date for such subdivision or combination, as the case may be;

CR_1 = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on such record date or immediately after 9:00 a.m., New York City time, on such effective date, as the case may be;

OS_0 = the number of shares of our common stock outstanding immediately prior to 5:00 p.m., New York City time, on such record date or immediately prior to 9:00 a.m., New York City time, on such effective date, as the case may be (and prior to giving effect to such event); and

OS = the number of shares of our common stock that would be outstanding immediately after, and solely as a result of, such dividend, distribution, subdivision or combination.

Any adjustment made under this clause (i) will become effective immediately after 5:00 p.m., New York City time, on the record date for such dividend or distribution, or immediately after 9:00 a.m., New York City time, on the effective date for such subdivision or combination, as the case may be. If any dividend, distribution, subdivision or combination of the type described in this clause (i) is declared but not so paid or made, each fixed conversion rate will be immediately readjusted, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to pay or make such dividend, distribution, subdivision or combination and (b) the date the dividend or distribution was to be paid or the date the subdivision or combination was to have been effective, to the fixed conversion rate that would then be in effect if such dividend, distribution, subdivision or combination had not been declared.

(ii) If we issue to all or substantially all holders of our common stock any rights, options or warrants entitling them for a period expiring 60 days or less from the date of issuance of such rights, options or warrants to subscribe for or purchase shares of our common stock at less than the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement for such issuance, each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{(OS_0 + X)}{(OS_0 + Y)}$$

Table of Contents

where,

- CR_0 = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such issuance;
- CR_1 = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on such record date;
- OS_0 = the number of shares of our common stock outstanding immediately prior to 5:00 p.m., New York City time, on such record date;
- X = the number of shares of our common stock issuable pursuant to such rights, options or warrants; and
- Y = the aggregate price payable to exercise such rights, options or warrants, divided by the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement for such issuance.

Any increase in the fixed conversion rates made pursuant to this clause (ii) will become effective immediately after 5:00 p.m., New York City time, on the record date for such issuance. To the extent such rights, options or warrants are not exercised prior to their expiration or termination, each fixed conversion rate will be decreased, effective as of the date of such expiration or termination, to the fixed conversion rate that would then be in effect had the increase with respect to the issuance of such rights, options or warrants been made on the basis of delivery of only the number of shares of common stock actually delivered. If such rights, options or warrants are not so issued, each fixed conversion rate will be decreased, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to issue such rights, options or warrants and (b) the date such rights, options or warrants were to have been issued, to the fixed conversion rate that would then be in effect if such issuance had not been announced.

For purposes of this clause (ii), in determining whether any rights, options or warrants entitle the holders thereof to subscribe for or purchase shares of our common stock at less than average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement for such issuance, and in determining the aggregate price payable to exercise such rights, options or warrants, there will be taken into account any consideration we receive for such rights, options or warrants and any amount payable on exercise thereof, with the value of such consideration, if other than cash, to be determined by our board of directors or a duly authorized committee thereof, which determination shall be final.

(iii) If we pay a dividend or other distribution to all or substantially all holders of our common stock of shares of our capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets, excluding:

- (a) any dividend, distribution or issuance as to which an adjustment was effected pursuant to clause (i) or (ii) above;
- (b) dividends or distributions paid exclusively in cash as to which an adjustment was effected pursuant to clause (iv) below;
- (c) spin-offs as to which the provisions set forth below in this clause (iii) apply; and
- (d) any dividends or distributions in connection with a reorganization event that is included in exchange property (as described below),

Table of Contents

then each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{SP_0}{(SP_0 - FMV)}$$

where,

CR_0 = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such dividend or distribution;

CR_1 = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on such record date;

SP_0 = the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the ex-dividend date for such dividend or distribution; and

FMV = the fair market value (as determined in good faith by our board of directors or a duly authorized committee thereof, which determination shall be final) on the ex-dividend date for such dividend or distribution of shares of our capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets, expressed as an amount per share of our common stock.

If our board of directors or a duly authorized committee thereof determines the FMV (as defined above) of any dividend or other distribution for purposes of this clause (iii) by referring to the actual or when-issued trading market for any securities, it will in doing so consider the prices in such market over the average VWAP per share of our common stock for the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the record date for such dividend or distribution.

Notwithstanding the foregoing, if FMV (as defined above) is equal to or greater than SP_0 (as defined above), in lieu of the foregoing increase, each holder of shares of the Mandatory Convertible Preferred Stock will receive, in respect of each share thereof, at the same time and upon the same terms as holders of our common stock, the amount and kind of shares of our capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets that such holder would have received if such holder owned a number of shares of our common stock equal to the maximum conversion rate in effect immediately prior to the close of business on the record date for such dividend or other distribution.

Any increase made under the portion of this clause (iii) above will become effective immediately after 5:00 p.m., New York City time, on the record date for such dividend or other distribution. If such dividend or other distribution is not so paid or made, each fixed conversion rate will be decreased, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to pay the dividend or other distribution and (b) the date such dividend or distribution was to have been paid, to the fixed conversion rate that would then be in effect if the dividend or other distribution had not been declared.

Table of Contents

If the transaction that gives rise to an adjustment pursuant to this clause (iii) is one pursuant to which the payment of a dividend or other distribution on our common stock consists of shares of capital stock of, or similar equity interests in, a subsidiary or other business unit of ours (i.e., a spin-off) that are, or, when issued, will be, traded on a U.S. national securities exchange or a reasonably comparable non-U.S. equivalent, then each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{(FMV_0 + MP_0)}{(MP_0)}$$

where,

- CR₀ = the fixed conversion rate in effect at 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the ex-dividend date for such dividend or distribution;
- CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the ex-dividend date for such dividend or distribution;
- FMV₀ = the average VWAP per share of such capital stock or similar equity interests distributed to holders of our common stock applicable to one share of our common stock over the 10 consecutive trading day period commencing on, and including, the ex- dividend date for such dividend or distribution; and
- MP₀ = the average VWAP per share of our common stock over the 10 consecutive trading day period commencing on, and including, the ex-dividend date for such dividend or distribution.

The adjustment to each fixed conversion rate under the immediately preceding paragraph will occur at 5:00 p.m., New York City time, on the 10th consecutive trading day immediately following, and including, the ex-dividend date for such dividend or distribution, but will be given effect as of 9:00 a.m., New York City time, on the date immediately following the record date for such dividend or distribution. Because we will make the adjustments to the fixed conversion rates at the end of the 10 consecutive trading day period with retroactive effect, we will delay the settlement of any conversion of shares of the Mandatory Convertible Preferred Stock if the conversion date occurs after the record date for such dividend or other distribution and prior to the end of such 10 consecutive trading day period. In such event, we will deliver the shares of common stock issuable in respect of such conversion (based on the adjusted fixed conversion rates as described above) on the first business day immediately following the last trading day of such 10 consecutive trading day period.

(iv) If we pay a distribution consisting exclusively of cash to all or substantially all holders of our common stock, excluding any regular quarterly cash dividends or distributions of up to \$0.105 per share of our common stock (the initial dividend threshold), each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{SP_0}{(SP_0 - C)}$$

Table of Contents

where,

- CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such distribution;
- CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on the record date for such distribution;
- SP₀ = the average VWAP per share of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the ex-dividend date for such distribution;
- C = an amount of cash per share of our common stock we distribute to holders of our common stock; *provided* that in the case of a regular quarterly cash dividend or distribution, such amount shall only include the amount of such dividend or distribution in excess of the initial dividend threshold.

Notwithstanding the foregoing, if C (as defined above) is equal to or greater than SP₀ (as defined above), in lieu of the foregoing increase, each holder of shares of the Mandatory Convertible Preferred Stock will receive, in respect of each share thereof, at the same time and upon the same terms as holders of shares of our common stock, the amount of cash that such holder would have received if such holder owned a number of shares of our common stock equal to the maximum conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the record date for such distribution.

The initial dividend threshold is subject to adjustment in a manner inversely proportional to adjustments to the fixed conversion rates; *provided* that no adjustment will be made to the initial dividend threshold for any adjustment made to the fixed conversion rates under this clause (iv).

Any adjustment to the fixed conversion rates pursuant to this clause (iv) will become effective immediately after 5:00 p.m., New York City time, on the record date for such distribution. If such distribution is not so paid, the fixed conversion rates will be decreased, effective as of the earlier of (a) the date our board of directors or a duly authorized committee thereof determines not to pay such dividend and (b) the date such dividend was to have been paid, to the fixed conversion rates that would then be in effect if such distribution had not been declared.

(v) If we or one or more of our subsidiaries purchases our common stock pursuant to a tender offer or exchange offer pursuant to a Schedule TO or registration statement on Form S-4 for our common stock (excluding any securities convertible or exchangeable for our common stock, and except as provided below, and the cash and value of any other consideration included in the payment per share of our common stock validly tendered or exchanged exceeds the average VWAP per share of our common stock over the 10 consecutive trading day period commencing on, and including, the trading day next succeeding the last date on which tenders or exchanges may be made pursuant to such tender or exchange offer (the expiration date), each fixed conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{(FMV + (SP_1 \times OS_1))}{(SP_1 \times OS_0)}$$

Table of Contents

where,

- CR₀ = the fixed conversion rate in effect immediately prior to 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the trading day next succeeding the expiration date;
- CR₁ = the fixed conversion rate in effect immediately after 5:00 p.m., New York City time, on the tenth trading day immediately following, and including, the trading day next succeeding the expiration date;
- FMV = the fair market value (as determined in good faith by our board of directors or a duly authorized committee thereof) as of the expiration date of the aggregate value of all cash and any other consideration paid or payable for shares of our common stock validly tendered or exchanged and not withdrawn as of the expiration date (the purchased shares);
- OS₁ = the number of shares of our common stock outstanding as of the last time tenders or exchanges may be made pursuant to such tender or exchange offer (the expiration time), less any purchased shares;
- OS₀ = the number of shares of our common stock outstanding at the expiration time, including any purchased shares; and
- SP₁ = the average VWAP per share of our common stock over the 10 consecutive trading day period commencing on, and including, the trading day next succeeding the expiration date.

The adjustment to each fixed conversion rate under the immediately preceding paragraph will occur at 5:00 p.m., New York City time, on the 10th consecutive trading day immediately following, and including, the trading day immediately following the expiration date, but will be given effect as of 9:00 a.m., New York City time, on the expiration date. Because we will make the adjustments to the fixed conversion rates at the end of the 10 consecutive trading day period with retroactive effect, we will delay the settlement of any conversion of shares of the Mandatory Convertible Preferred Stock if the conversion date occurs during such 10 consecutive trading day period. In such event, we will deliver the shares of common stock issuable in respect of such conversion (based on the adjusted fixed conversion rates as described above) on the first business day immediately following the last trading day of such 10 consecutive trading day period.

Record date means, for purpose of a conversion rate adjustment, with respect to any dividend, distribution or other transaction or event in which the holders of our common stock have the right to receive any cash, securities or other property or in which our common stock (or other applicable security) is exchanged for or converted into any combination of cash, securities or other property, the date fixed for determination of holders of our common stock entitled to receive such cash, securities or other property (whether such date is fixed by our board of directors or by statute, contract or otherwise).

Ex-dividend date means the first date on which the shares of common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive the issuance or distribution in question or, if applicable, from the seller of such common stock (in the form of due bills or otherwise) as determined by such exchange or market.

If we have in effect a shareholder rights plan while any shares of the Mandatory Convertible Preferred Stock remain outstanding, holders of shares of the Mandatory Convertible Preferred Stock will receive, upon a conversion of shares of the Mandatory Convertible Preferred Stock, in addition to common stock, rights under our shareholder rights agreement unless, prior to such conversion, the rights have expired,

Table of Contents

terminated or been redeemed or unless the rights have separated from our common stock. If the rights provided for in our rights plan have separated from our common stock in accordance with the provisions of the applicable rights agreement so that holders of shares of the Mandatory Convertible Preferred Stock would not be entitled to receive any rights in respect of our common stock, if any, that we are required to deliver upon conversion of shares of the Mandatory Convertible Preferred Stock, each fixed conversion rate will be adjusted at the time of separation as if we had distributed to all holders of our common stock, capital stock (other than our common stock), evidences of our indebtedness, our assets or rights to acquire our capital stock, our indebtedness or our assets pursuant to paragraph (iii) above, subject to readjustment upon the subsequent expiration, termination or redemption of the rights. A distribution of rights pursuant to a rights plan will not trigger a conversion rate adjustment pursuant to paragraphs (ii) or (iii) above. We currently do not have a rights plan in effect.

Notwithstanding the foregoing, no adjustment to the fixed conversion rates need be made if holders of shares of the Mandatory Convertible Preferred Stock participate in the transaction that would otherwise require an adjustment (other than in the case of a share split or share combination), at the same time, upon the same terms and otherwise on the same basis as holders of our common stock and solely as a result of holding shares of the Mandatory Convertible Preferred Stock, as if such holders held a number of shares of our common stock equal to the maximum conversion rate as of the record date for such transaction, multiplied by the number of shares of the Mandatory Convertible Preferred Stock held by such holders.

The fixed conversion rates will not be adjusted except as provided above. Without limiting the foregoing, the fixed conversion rates will not be adjusted for:

the issuance of any shares of our common stock (or rights with respect thereto) pursuant to any present or future plan providing for the reinvestment of dividends or interest payable on our securities and the investment of additional optional amounts in our common stock under any plan;

the issuance of any shares of our common stock or options or rights to purchase those shares pursuant to any present or future employee, director or consultant benefit plan, employee agreement or arrangement or program of ours or any of our subsidiaries;

the issuance of any shares of our common stock pursuant to any option, warrant, right, or exercisable, exchangeable or convertible security outstanding as of the issue date;

a change solely in the par value of our common stock;

stock repurchases that are not tender offers, including structured or derivative transactions;

as a result of a tender offer solely to holders of fewer than 100 shares of our common stock;

a third-party tender or exchange offer; or

the payment of dividends on the Mandatory Convertible Preferred Stock, whether in cash or in shares of our common stock. All required calculations will be made to the nearest cent or 1/10,000th of a share.

In addition, we may make such increases in each fixed conversion rate as we deem advisable in order to avoid or diminish any income tax to holders of our common stock resulting from any dividend or distribution of our shares (or issuance of rights or warrants to acquire our shares) or from any event treated as such for income tax purposes or for any other reason. We may only make such a discretionary adjustment if we make the same proportionate adjustment to each fixed conversion rate.

S-60

Table of Contents

We will be required, within 10 business days after the conversion rate is adjusted, to provide or cause to be provided written notice of the adjustment to the holders of shares of Mandatory Convertible Preferred Stock. We will also be required to deliver a statement setting forth in reasonable detail the method by which the adjustment to each fixed conversion rate was determined and setting forth each revised fixed conversion rate.

Adjustments to the fixed conversion rates will be calculated to the nearest 1/10,000th of a share of our common stock. Prior to the mandatory conversion date, no adjustment in a fixed conversion rate will be required unless the adjustment would require an increase or decrease of at least one percent in such fixed conversion rate. If any adjustment is not required to be made because it would not change the fixed conversion rates by at least one percent, then the adjustment will be carried forward and taken into account in any subsequent adjustment; provided, however, that on the earlier of the mandatory conversion date, an early conversion date and the effective date of a fundamental change, adjustments to the fixed conversion rates will be made with respect to any such adjustment carried forward that has not been taken into account before such date.

If an adjustment is made to the fixed conversion rates, an inversely proportional adjustment also will be made (x) to the threshold appreciation price and the initial price solely for the purposes of determining which clause of the definition of the conversion rate will apply on the conversion date and (y) to the floor price. Because (a) each of the applicable market value and the acquisition termination market value are an average VWAP per share of our common stock over a 20 consecutive trading day period, and (b) the fundamental change market value is an average VWAP per share of our common stock over a five consecutive trading day period, we will make appropriate adjustments (including, without limitation, to the VWAP per share used to calculate the applicable market value, the fundamental change market value and the acquisition termination market value, as the case may be) to account for any adjustments to the fixed conversion rates that become effective during the period in which the applicable market value or the fundamental change market value, as the case may be, is being calculated.

Recapitalizations, reclassifications and changes of our common stock

In the event of:

any reclassification of our common stock (other than changes only in par value or resulting from a subdivision or combination);

any consolidation or merger of us with or into another person or any statutory exchange or binding share exchange; or

any sale, transfer, lease or conveyance to another person of all or substantially all the property and assets of us and our subsidiaries; in each case, as a result of which the shares of our common stock are exchanged for, or converted into, other securities, property or assets (including cash or any combination thereof) (any such event, a reorganization event), then, at the effective time of such reorganization event, each share of Mandatory Convertible Preferred Stock outstanding immediately prior to such reorganization event will, without the consent of the holders of the Mandatory Convertible Preferred Stock, become convertible into the kind and amount of such other securities, property or assets (including cash or any combination thereof) that holders of our common stock received in such reorganization event (the exchange property), and, at the effective time of such reorganization event, we will amend the Certificate of Designations to provide for such change in the convertibility of the Mandatory Convertible Preferred Stock; *provided* that if the kind and amount of exchange property receivable upon such reorganization event is not the same for each share of our common stock held immediately prior to such

Table of Contents

reorganization event by a person, then the exchange property receivable upon such reorganization event will be deemed to be the weighted average of the types and amounts of consideration received by the holders of our common stock that affirmatively make an election with respect to the kind and amount of exchange property so receivable (or of all such holders if none makes an election). The conversion rate then in effect will be applied on the applicable conversion date to the amount of such exchange property received per share of our common stock in the reorganization event (a unit of exchange property), as determined in accordance with this section. For the purpose of determining which bullet of the definition of conversion rate will apply on the mandatory conversion date (subject to postponement as described above under Mandatory conversion) and for the purpose of calculating the conversion rate if the second bullet in the definition thereof is applicable, the value of a unit of exchange property will be determined in good faith by our board of directors or a duly authorized committee thereof, except that if a unit of exchange property includes common stock or ADRs that are traded on a U.S. national securities exchange, the value of such common stock or ADRs will be the average VWAP for a share of such common stock or a single ADR, as the case may be, for the 20 consecutive trading day period commencing on and including the 22nd scheduled trading day prior to the mandatory conversion date (or for the purpose of determining the stock price in connection with a fundamental change, the value of such common stock or ADRs will be the average VWAP for a share of such common stock or a single ADR, as the case may be, for the five consecutive trading day period ending on, and including, the trading day immediately preceding the effective date). For the purpose of paying accumulated and unpaid dividends in units of exchange property as contemplated under Method of payment of dividends, the value of a unit of exchange property (other than cash) will equal 97% of the value determined pursuant to the immediately preceding sentence.

The above provisions of this section will similarly apply to successive reorganization events and the Conversion rights Conversion rate adjustments section will apply to any shares of our capital stock (or of any successor) received by the holders of our common stock in any such reorganization event.

The amendment to the Certificate of Designations providing that the Mandatory Convertible Preferred Stock will be convertible into exchange property will also provide for anti-dilution and other adjustments that are as nearly equivalent as possible to the adjustments described under Conversion rate adjustments above. We will agree in the Certificate of Designations for the Mandatory Convertible Preferred Stock not to become a party to any such transaction unless its terms are consistent with the foregoing.

We (or any successor of us) will, as soon as reasonably practicable (but in any event within five business days) after the occurrence of any reorganization event, provide written notice to the holders of the Mandatory Convertible Preferred Stock of such occurrence of such event and of the kind and amount of the cash, securities or other property that constitute the exchange property. Failure to deliver such notice will not affect the operation of this section or the effectiveness of such transaction.

Liquidation preference

In the event of our liquidation, dissolution or winding-up, whether voluntary or involuntary, each holder of shares of the Mandatory Convertible Preferred Stock will be entitled to receive out of our assets available for distribution to our stockholders, subject to rights of our creditors, before any payment or distribution is made to holders of junior stock (including our common stock), payment in full of the amount of \$100.00 per share of the Mandatory Convertible Preferred Stock, plus an amount equal to any accumulated and unpaid dividends, whether or not declared, on such shares to (but not including) the date fixed for liquidation, dissolution or winding-up. If in any such distribution our assets or proceeds thereof are not sufficient to pay in full the amounts payable with respect to all outstanding shares of the Mandatory Convertible Preferred Stock and any other stock ranking equally with the Mandatory Convertible Preferred Stock as to such distribution, the holders of shares of the Mandatory Convertible Preferred Stock and such other stock will share ratably in any such

Table of Contents

distribution in proportion to the full accrued and unpaid respective distributions to which they are entitled. After payment of the full amount of the liquidation preference, including an amount equal to any accumulated and unpaid dividends, to which they are entitled, the holders of the Mandatory Convertible Preferred Stock will have no right or claim to any of our remaining assets.

Neither the sale, lease or exchange (for cash, securities or other property) of all or substantially all our assets, nor our merger or consolidation with any other corporation or other entity, will be deemed to be a liquidation, dissolution or winding-up of our company.

The Certificate of Designations will not contain any provision requiring funds to be set aside to protect the liquidation preference of the Mandatory Convertible Preferred Stock even though it is substantially in excess of the par value thereof.

Voting rights

The holders of shares of the Mandatory Convertible Preferred Stock will have no voting rights in respect of such shares except as set forth below or as otherwise required by law or our Certificate of Incorporation from time to time. In matters where holders of the Mandatory Convertible Preferred Stock are entitled to vote, each share of the Mandatory Convertible Preferred Stock shall be entitled to one vote.

Preferred directors

Whenever, at any time or times, dividends payable on the shares of the Mandatory Convertible Preferred Stock have not been paid for an aggregate of six or more dividend periods, whether or not consecutive (an event of non-payment), the holders of the Mandatory Convertible Preferred Stock will have the right, with holders of shares of any one or more other classes or series of outstanding parity stock upon which like voting rights have been conferred and are exercisable at the time, voting together as a class (and with voting rights allocated pro rata based on the liquidation preference of each such class or series), to elect two directors (together, the preferred directors and each, a preferred director) at the next annual meeting or special meeting of our stockholders and at each subsequent annual meeting or special meeting of our stockholders until all accumulated and unpaid dividends have been paid in full or fully set aside for payment on the Mandatory Convertible Preferred Stock, at which time such right will terminate, except as otherwise provided in this prospectus supplement or expressly provided by law, subject to re-vesting in the event of each and every event of non-payment; *provided* that it will be a qualification for election for any preferred director that the election of such preferred director will not cause us to violate any corporate governance requirements of any securities exchange or other trading facility on which our securities may then be listed or traded that listed or traded companies, including that we have a majority of independent directors.

Upon any termination of the right set forth in the immediately preceding paragraph, the preferred directors will cease to be qualified as directors, the term of office of all preferred directors then in office will terminate immediately, and the authorized number of directors will be reduced by the number of preferred directors elected as described above.

Any preferred director may be removed at any time, with or without cause, and any vacancy created thereby may be filled, only at a meeting of our stockholders at which this is a permitted action by the affirmative vote of the holders of a majority in voting power of the shares of the Mandatory Convertible Preferred Stock at the time outstanding voting separately as a class together with the holders of shares of parity stock upon which like voting rights have been conferred and are exercisable at the time (and with voting rights allocated pro rata based on the liquidation preference of each such class or series), to the extent the voting rights of such holders described above are then exercisable. If the office of any preferred director becomes vacant for any reason

Table of Contents

other than removal from office as described above, the remaining preferred director may choose a successor who will hold office for the unexpired term in respect of which such vacancy occurred.

At any time after the right of the holders of the Mandatory Convertible Preferred Stock to elect directors has become vested and is continuing but a meeting of our stockholders to elect such directors has not yet been held, or if a vacancy shall exist in the office of any such preferred director that has not been filled by the remaining preferred director, our board of directors may, but shall not be required to, call a special meeting of the holders of the Mandatory Convertible Preferred Stock and any one or more classes or series of outstanding parity stock upon which like voting rights have been conferred and are exercisable at the time, for the purpose of electing the directors that such holders are entitled to elect; *provided* that in the event our board of directors does not call such special meeting, such election will be held at the next annual meeting. At any such meeting held for the purpose of electing such a director (whether at an annual meeting or special meeting), the presence in person or by proxy of the holders of shares representing at least a majority of the voting power of the Mandatory Convertible Preferred Stock and any parity stock having similar voting rights shall be required to constitute a quorum of the Mandatory Convertible Preferred Stock and any parity stock having similar voting rights. The affirmative vote of the holders of the Mandatory Convertible Preferred Stock and any parity stock having similar voting rights constituting a majority of the voting power of such shares present at such meeting, in person or by proxy, shall be sufficient to elect any such director.

When a supermajority vote is required

In addition to any other vote or consent of stockholders required by law or our Certificate of Incorporation, the affirmative vote or consent of the holders of at least two-thirds in voting power of the outstanding shares of the Mandatory Convertible Preferred Stock and all other parity stock having similar voting rights that are exercisable at the time (subject to the last paragraph of this section *When a supermajority vote is required*), voting as a single class (and with voting rights allocated pro rata based on the liquidation preference of each such class or series), given in person or by proxy, either in writing without a meeting or by vote at any meeting called for such purpose, or by written consent in lieu of such meeting, will be required to:

amend or alter our Certificate of Incorporation or the Certificate of Designations to authorize or create or increase the authorized amount of, or any issuance of, any shares of, or any securities convertible into or exchangeable or exercisable for shares of, any class or series of our capital stock ranking senior to the Mandatory Convertible Preferred Stock with respect to either or both the payment of dividends and/or the distribution of assets on our liquidation, dissolution or winding-up;

amend, alter or repeal any provision of our Certificate of Incorporation or Certificate of Designations (including, unless no vote on such merger or consolidation is required in accordance with the following bullet, any amendment, alteration or repeal by means of a merger, consolidation or otherwise) so as to adversely affect the rights, preferences, privileges or voting powers of the Mandatory Convertible Preferred Stock; or

consummate a binding share exchange, a reclassification involving the Mandatory Convertible Preferred Stock, or a merger or consolidation of us with another corporation or other entity, unless in each case (x) the Mandatory Convertible Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which we are not the surviving or resulting entity, is converted into or exchanged for preference securities of the surviving or resulting entity or its ultimate parent, and (y) the Mandatory Convertible Preferred Stock remaining outstanding or such new preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, taken as a whole, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of the Mandatory Convertible Preferred Stock immediately prior to such consummation, taken as a whole;

Table of Contents

provided, however, that the creation and issuance, or an increase in the authorized or issued amount, whether pursuant to pre-emptive or similar rights or otherwise, of any series of preferred stock, or any securities convertible into or exchangeable or exercisable for any other series of preferred stock (including the Mandatory Convertible Preferred Stock), ranking equally with and/or junior to the Mandatory Convertible Preferred Stock with respect to the payment of dividends (whether such dividends are cumulative or non-cumulative) and the distribution of assets upon our liquidation, dissolution or winding-up, shall not be deemed to adversely affect the rights, preferences or voting powers, and shall not require the affirmative vote or consent of, the holders of the shares of the Mandatory Convertible Preferred Stock.

If any amendment, alteration, repeal, share exchange, reclassification, merger or consolidation specified above would adversely affect one or more but not all series of parity stock (including the Mandatory Convertible Preferred Stock for this purpose), then only the one or more series of parity stock adversely affected and entitled to vote, rather than all series of parity stock, shall vote as a class.

Without the consent of the holders of the Mandatory Convertible Preferred Stock, so long as such action does not adversely affect the special rights, preferences, privileges or voting powers of the Mandatory Convertible Preferred Stock, and limitations and restrictions thereof, we may amend, alter, supplement, or repeal any terms of the Mandatory Convertible Preferred Stock for the following purposes:

to cure any ambiguity or mistake, or to correct or supplement any provision contained in the Certificate of Designations establishing the terms of the Mandatory Convertible Preferred Stock that may be defective or inconsistent with any other provision contained in such Certificate of Designations;

to make any provision with respect to matters or questions relating to the Mandatory Convertible Preferred Stock that is not inconsistent with the provisions of the Certificate of Designations establishing the terms of the Mandatory Convertible Preferred Stock; or

to waive any of our rights with respect thereto; provided that any such amendment, alteration, supplement or repeal of any terms of the Mandatory Convertible Preferred Stock effected in order to conform the terms thereof to the description of the terms of the Mandatory Convertible Preferred Stock set forth under Description of Mandatory Convertible Preferred Stock in this prospectus supplement shall be deemed not to adversely affect the special rights, preferences, privileges and voting powers, and limitations and restrictions thereof, of the Mandatory Convertible Preferred Stock.

Reservation of common stock

We will at all times reserve and keep available out of the authorized and unissued shares of common stock, solely for issuance, the full number of shares of common stock issuable upon payment of accumulated and unpaid dividends and upon conversion of the Mandatory Convertible Preferred Stock at the maximum conversion rate then in effect.

Upon listing, we have agreed to use our reasonable best efforts to keep the Mandatory Convertible Preferred Stock listed on the NASDAQ Global Select Market. Listing the Mandatory Convertible Preferred Stock on the NASDAQ Global Select Market does not guarantee that a trading market will develop or, if a trading market does develop, the depth of that market or the ability of holders to sell their shares of the Mandatory Convertible Preferred Stock.

Concurrently with this offering, we are offering 150,000,000 shares of our common stock, par value \$0.25 per share (or 165,000,000 shares if the underwriters exercise in full their option to purchase additional shares of our common stock) at a public offering price of \$5.00 per share, equaling gross proceeds to us of \$750.0 million (or \$825.0 million if the underwriters exercise in full their option to purchase additional shares of our common stock).

We intend to use the proceeds of the concurrent offering of our common stock, together with the proceeds of this offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The closing of this offering and the concurrent offering are not conditioned on each other or on the closing of the Verizon Transaction which, if completed, will occur subsequent to the closing of this offering. Description of the Verizon Transaction

On February 5, 2015, we entered into a Securities Purchase Agreement with Verizon to acquire, among other things, Verizon's wireline business and statewide fiber networks that provide services to residential, commercial and wholesale customers in California, Texas and Florida, along with certain of Verizon's FiOS customers in those states for a purchase price of \$10.54 billion in cash and assumed debt, subject to certain adjustments specified in the Verizon Purchase Agreement. The consummation of the Verizon Transaction is subject to the satisfaction of certain conditions, including review or approval by various federal and state regulatory agencies and other closing conditions. We expect the Verizon Transaction to close in the first half of 2016. There can be no assurance that we will be able to consummate the Verizon Transaction on a timely basis or at all.

The Verizon Purchase Agreement

The following summary of the Verizon Purchase Agreement is not complete and is subject to, and is qualified in its entirety by reference to, all provisions of the Verizon Purchase Agreement (including the definitions of terms used therein). You should read the Verizon Purchase Agreement for provisions that may be important to you. A copy of the Verizon Purchase Agreement was filed as Exhibit 2.1 to our Current Report on Form 8-K filed with the SEC on February 5, 2015, which is incorporated by reference herein. See [Where you can find more information](#) in this prospectus supplement.

Pursuant to the Verizon Purchase Agreement, we have agreed to acquire all of the issued and outstanding limited liability company interests of Newco, which will hold the outstanding limited liability company interests and capital stock of Verizon Florida LLC, GTE Southwest Incorporated and Verizon California Inc. Prior to the closing under the Verizon Purchase Agreement, (i) Verizon will transfer to the Verizon Transferred Companies certain assets and cause the Verizon Transferred Companies to assume certain liabilities relating to the business to be acquired and (ii) the Verizon Transferred Companies will transfer to Verizon certain assets, and Verizon will assume certain liabilities of the Verizon Transferred Companies, to be retained by Verizon following the closing. We refer you to the separate financial statements of the VSTO incorporated herein by reference.

Consummation of the transactions contemplated by the Verizon Purchase Agreement is subject to the satisfaction of certain conditions, including (i) receipt of the necessary approvals required to be obtained from the Federal Communications Commission, the California Public Utility Commission and the Public Utility Commission of Texas and (ii) receipt of such other approvals required to be obtained from certain other state and local regulatory bodies, except for those approvals the failure of which to be obtained would not reasonably be expected to be materially adverse in relation to the VSTO. The Federal Trade Commission granted early termination of the waiting period under the Hart-Scott-Rodino Act on May 8, 2015.

Our obligation to consummate the transactions contemplated by the Verizon Purchase Agreement is also subject to, among other things, (i) the completion of an extraction of customer data for the VSTO that meets certain requirements, (ii) Verizon's delivery of certain financial statements and unqualified auditor reports related thereto required to be delivered pursuant to the Verizon Purchase Agreement prior to the closing and (iii) the absence of a Seller Material Adverse Effect (as defined in the Verizon Purchase Agreement) after the date of the Verizon Purchase Agreement. In addition, we are not obligated to proceed with the closing under the Verizon Purchase Agreement until the third business day following the Marketing Period Termination Date (as defined in the Verizon Purchase Agreement).

The parties to the Verizon Purchase Agreement have made to each other certain representations and warranties, and have agreed to certain covenants and agreements, including with respect to cooperation,

Table of Contents

regulatory approvals, the financial statements for the VSTO, our financing of the transaction (including a covenant that we do not reduce the commitments under the 8/10 Year Bridge Facility or 18 Month Bridge Facility with the proceeds of the financing transactions described in clauses (x) through (z) of the first paragraph of Financing of the Verizon Transaction below unless the amount of the remaining commitments plus the net cash proceeds of such financing transactions that are placed into escrow exceeds a threshold requirement set forth in the Verizon Purchase Agreement), the conduct and operation of the Verizon Transferred Companies prior to the closing and similar matters. In addition, the Verizon Purchase Agreement contemplates that Verizon and the Company will enter into certain ancillary agreements in connection with the transaction.

Subject to certain limitations, Verizon has agreed to indemnify for certain losses, as more fully described in the Verizon Purchase Agreement.

The Verizon Purchase Agreement may be terminated in certain circumstances, including, among others, if the transaction does not close by April 5, 2016 (subject to extension to August 5, 2016 in certain circumstances). Additionally, either party may terminate the Verizon Purchase Agreement upon a breach by the other party of any representation, warranty, covenant or agreement made by such breaching party in the Verizon Purchase Agreement, such that the conditions related to the representations, warranties, covenants and agreements made by such breaching party would not be satisfied and such breach or condition is not curable or, if curable, is not cured within the earlier of 60 days after written notice or the termination date of the Verizon Purchase Agreement.

Financing of the Verizon Transaction

On February 5, 2015, in connection with the execution of the Verizon Purchase Agreement, we entered into the Commitment Letter, dated February 5, 2015, with the Commitment Parties, pursuant to which the Commitment Parties have committed to provide two bridge loan facilities, initially for a total amount of \$11.594 billion, which amount was subsequently reduced by us to \$10.850 billion, for the purposes of funding (i) the cash consideration for the Verizon Transaction and (ii) the fees and expenses incurred in connection with the transactions contemplated by the Verizon Purchase Agreement. The 8/10 Year Bridge Facility was initially in the amount of \$8.594 billion, which amount was automatically reduced in accordance with its terms by \$744 million in connection with the effectiveness of certain amendments entered into on March 5, 2015 to our two outstanding credit agreements with CoBank, ACB and certain other lenders. The 18 Month Bridge Facility is in the amount of \$3.0 billion. The commitments in respect of the 8/10 Year Bridge Facility and the 18 Month Bridge Facility will be automatically reduced, subject to certain exceptions and limitations, on a dollar-for-dollar basis by (x) the gross cash proceeds of any issuance of senior unsecured notes by Frontier (with such amounts being applied first to reduce the 8/10 Year Bridge Facility), (y) the net cash proceeds of the incurrence by Frontier of certain indebtedness for borrowed money (with such amounts being applied first to reduce the 8/10 Year Bridge Facility) and (z) the net cash proceeds from any issuance of equity by Frontier, including the proceeds from the concurrent offering and the sale of the securities in this offering (with such amounts being applied first to reduce the 18 Month Bridge Facility). The financing commitments of the Commitment Parties are currently undrawn and are subject to various conditions set forth in the Commitment Letter.

We intend to use the proceeds of this offering along with the proceeds of the concurrent offering to finance a portion of the cash consideration payable in connection with the Verizon Transaction and to pay related fees and expenses. The proceeds of this offering together with the proceeds of the concurrent offering will reduce the commitments under the 18 Month Bridge Facility. The balance of the financing in connection with the Verizon Transaction could take any of several forms or any combination of them, including but not limited to the following: (i) we may issue senior notes in the public and/or private capital markets; (ii) we may enter into

Table of Contents

one or more senior secured first lien term loan facilities; (iii) we may use cash on hand; and (iv) we may draw funds under the 18 Month Bridge Facility and the 8/10 Year Bridge Facility.

The VSTO

As of March 31, 2015, the VSTO had approximately 3.6 million voice, 2.2 million broadband and 1.2 million video connections. The Verizon Transaction will add approximately 11,000 employees to our Company.

The Verizon assets complement our existing platform and position us well strategically. We believe that these assets offer attractive demographics because the operations we are acquiring from Verizon are in the three most populated states in the United States (California, Florida, and Texas) and they also have economic growth that is above the U.S. average. The network assets are high quality, with high fiber penetration approximately 54% of the footprint is FiOS-enabled allowing us to offer customers market-leading broadband speeds and very high-quality video products. The acquisition of the Verizon properties is aligned with our strategic focus on broadband as it will increase our broadband base by 2.2 million customers. We also anticipate potential for incremental growth with business customers, which we will pursue with carrier Ethernet products we have made available to business and other carrier customers within our existing footprint. We also anticipate there will be an opportunity to sell Frontier Secure, our security/technical support/identity protection suite, into customers within these new regions.

Notes to unaudited pro forma condensed combined financial information

1. Description of the Verizon Transaction

On February 5, 2015, Frontier entered into an agreement with Verizon to acquire Verizon's wireline operations that provide services to residential, commercial and wholesale customers in California, Florida and Texas for a purchase price of \$10.54 billion in cash and assumed debt, excluding adjustments for working capital. As of the date of the announcement, these Verizon properties included 3.7 million voice connections, 2.2 million broadband connections, and 1.2 million FiOS® video connections. The network being acquired is the product of substantial capital investments made by Verizon, with an estimated 54% of the residential households being enabled with FiOS®. Subject to regulatory approvals, the Verizon Transaction is expected to close in the first half of 2016.

On October 24, 2014, pursuant to the AT&T Purchase Agreement, the Company acquired the wireline properties of AT&T in Connecticut for a purchase price of \$2.0 billion in cash, excluding adjustments for working capital. Following the Connecticut Acquisition, Frontier now owns and operates the wireline business and fiber optic network servicing residential, commercial and wholesale customers in Connecticut. The Company also acquired the AT&T U-verse® video and DISH® satellite TV customers in Connecticut.

The unaudited pro forma condensed combined financial information was prepared for the purpose of developing the pro forma financial statements necessary to comply with the applicable disclosure and reporting requirements of the SEC. For purposes of the unaudited pro forma condensed combined financial information, the estimated aggregate transaction costs (other than debt incurrence fees in connection with the bridge financing, as set forth in note 3(b)), which are charged as an expense of Frontier as they are incurred, are expected to be approximately \$27 million and include estimated costs associated primarily with investment banker advisory fees, legal fees, and regulatory and auditor services of Frontier. This balance is reflected as an accrual in the Pro Forma Adjustments column on the unaudited pro forma condensed combined balance sheet as of March 31, 2015. The combined company will also incur integration costs primarily related to information systems, network and process conversions (including hardware and software costs). Integration costs will be incurred in part in advance of the consummation of the Verizon Transaction, and are recorded based on the nature and timing of the specific action. For purposes of the unaudited pro forma condensed combined financial information, it was assumed that no amounts would be paid, payable or forgone by Verizon pursuant to orders or settlements issued or entered into in order to obtain governmental approvals from the Federal Communications Commission and in the States of California, Florida and Texas that will be required to complete the Verizon Transaction.

Frontier is considered the accounting acquirer for purposes of the preparation of the unaudited pro forma condensed combined financial information. This conclusion is based upon Frontier's consideration of all relevant factors included in the accounting standard regarding business combinations, including the purchase of a newly formed legal entity to which Verizon will contribute Verizon California Inc., Verizon Florida LLC and GTE Southwest Inc. (doing business as Verizon Southwest) pursuant to the Verizon Purchase Agreement.

Table of Contents**2. Basis of purchase price allocation**

The estimated purchase price (\$10.54 billion less \$594 million in assumed debt) has been allocated to the tangible and intangible assets acquired and liabilities assumed on a preliminary basis as follows (dollars in millions):

Estimated transaction consideration:	\$ 9,946
Current assets	\$ 537
Property, plant & equipment	8,125
Goodwill	223
Other intangibles Customer list	2,410
Other assets	48
Current liabilities	(517)
Long-term debt	(594)
Other liabilities	(286)
 Total net assets acquired	 \$ 9,946

The allocation of the purchase price to assets and liabilities is preliminary. The final allocation of the purchase price will be based on the fair values of the assets acquired and liabilities assumed as of the date of the Verizon Transaction, as determined by third-party valuation for certain assets and liabilities. The valuation will be completed after the consummation of the Verizon Transaction. There can be no assurance that the actual allocation will not differ significantly from the preliminary allocation.

Frontier and Verizon have agreed to make a joint election under Section 338(h)(10) of the Internal Revenue Code, and comparable state and local tax code provisions.

3. Pro forma balance sheet adjustments:

- (a) VSTO is adjusted to (1) exclude assets and liabilities that will be retained by Verizon that are included in VSTO's financial statements and (2) give effect to certain assets and liabilities relating to the business to be contributed by Verizon to these entities in connection with the Verizon Transaction. A brief description of these items follows (dollars in millions):

The pension and other postretirement employee benefits adjustments are based on amounts recorded by Verizon whereby the pension and OPEB obligations related to active employees only will be transferred to Frontier and pension obligations will be fully funded as of the closing date of the Verizon Transaction. An actuarial evaluation will be completed subsequent to the completion of the Verizon Transaction and may be different from that reflected in the unaudited pro forma condensed combined financial information. This difference may be material.

- (b) Frontier has received a commitment for bridge financing from J.P. Morgan, Bank of America Merrill Lynch, Citibank and certain other parties to fund the cash consideration for the Verizon Transaction and to pay related fees and expenses. The Verizon Transaction is not subject to a financing condition. The pro forma adjustment to cash reflects an equity offering of approximately \$2,500 million, less fees incurred of \$69 million, as well as bridge financing of \$8,350 million. As previously announced, the Company currently intends to complete a debt offering of approximately \$8,350 million, prior to closing the Verizon Transaction, which would replace the need to utilize the bridge financing. The Company intends to use proceeds from the debt offering, together with the proceeds from the equity offering, to finance the Verizon Transaction and to pay related fees and expenses. At this time, however, no assurance can be given that these offerings will be successfully completed, on terms deemed acceptable by the Company.

The pro forma adjustment to cash reflects the proceeds of the equity offering and bridge financing, excluding the related fees.

The adjustment presented reflects the equity and debt incurrence of \$10,850 in the aggregate, less assumed equity and debt incurrence fees and commissions of approximately \$270 million (of which

Table of Contents

\$58 million has been incurred). Additionally, an adjustment was made for \$143 million to reflect the acceleration of deferred financing costs related to the bridge financing.

- (c) (i) This adjustment reflects the purchase price of \$10,540 million less assumed debt of \$594 million resulting in \$9,946 million of cash that will be paid at closing of the Verizon Transaction (excluding any potential working capital purchase price adjustment as set forth in the Verizon Purchase Agreement).
- (ii) This adjustment in the amount of \$161 million eliminates the deferred tax assets of VSTO as of March 31, 2015.
- (iii) This adjustment in the amount of \$223 million reflects the goodwill associated with the excess of the Verizon Transaction consideration issued over the preliminary estimated fair value of the underlying identifiable net tangible and intangible assets at March 31, 2015.
- (iv) This adjustment in the amount of \$2,410 million reflects the preliminary fair value of the identifiable intangible asset (customer list) which was estimated by Frontier's management primarily based on the fair values assigned to similar assets in recently completed acquisitions (a market approach). A third party valuation firm will be utilized to help determine the final fair value after the Verizon Transaction is completed, but this determination has not yet begun. There can be no assurance that the actual fair value determination will not differ significantly from the preliminary fair value determination. For purposes of the preliminary fair value determination, the estimated useful life of the customer list asset was assumed to be ten years.
- (v) This adjustment in the amount of \$27 million records the estimated unpaid non-recurring costs for acquisition related transaction costs, primarily bankers, lawyers and consulting advisory fees.
- (vi) This adjustment in the amount of \$2,093 million eliminates the deferred tax liabilities of VSTO as of March 31, 2015.
- (vii) This adjustment in the amount of \$5,408 million eliminates the as adjusted net equity of VSTO (\$5,381 million) and recognizes unpaid estimated transaction costs of \$27 million as of March 31, 2015.

4. Pro forma statement of operations adjustments VSTO:

- (a) This adjustment reflects results of operations related to certain operations, assets and facilities that will not be transferred to Frontier in the Verizon Transaction.
- (b) This adjustment reflects the reclassification of bad debt expense from cost and expenses to revenue in order to conform to Frontier's accounting policy.
- (c) This adjustment reflects pension, other postretirement employee benefits of retirees and postemployment benefits retained by Verizon based on the terms of the Verizon Purchase Agreement whereby the pension and OPEB obligations related to active employees only will be transferred to Frontier and pension obligations will be fully funded as of the closing date of the Verizon Transaction. The adjustment includes \$11 million and \$64 million for pension and OPEB costs related to active employees and retirees to be retained by Verizon for the three months ended March 31, 2015 and the year ended December 31, 2014, respectively. This adjustment also reflects the reversal of \$571 million in actuarial losses that were recorded by Verizon in order to conform to Frontier's accounting policy for pension and other postretirement benefits for the year ended December 31, 2014.
- (d) This adjustment reflects amortization expense associated with the customer list asset estimated in note 3(c) above assuming an accelerated method of amortization and an estimated useful life of ten years,

Table of Contents

which corresponds to an increase in depreciation and amortization of \$99 million and \$438 million for the three months ended March 31, 2015 and the year ended December 31, 2014, respectively. Amortization expense, based on our current estimate of useful lives, is estimated to be approximately \$394 million, \$351 million, \$307 million, \$263 million and \$219 million for the years ended December 31, 2015, 2016, 2017, 2018 and 2019, respectively. No adjustment has been reflected for depreciation expense based on the assumption that the straight line method is similar to the composite method.

The actual depreciation and amortization expense will be based on the final fair value attributed to the identifiable tangible and intangible assets based upon the results of the third-party valuation of the acquired assets. The depreciation and amortization rates may also change based on the results of this third-party valuation. There can be no assurance that the actual depreciation and amortization expense will not differ significantly from the pro forma adjustment presented.

- (e) This adjustment primarily reflects depreciation expense for facilities that will not be transferred to Frontier in the Verizon Transaction.
- (f) This adjustment reflects the removal of losses on disposition of assets that were recorded by Verizon in cost and expenses in order to conform to Frontier's accounting policy for fixed asset dispositions under the composite method of depreciation.
- (g) This adjustment reflects the removal of acquisition and integration expenses related to costs incurred by Frontier in connection with the Verizon Transaction and the Connecticut Acquisition.
- (h) This adjustment reflects additional interest expense on the \$8,350 million bridge financing, based on an assumed weighted average interest rate determined based on appropriate current market rates as of March 31, 2015 of 12.17% and 8.65% for the three months ended March 31, 2015 and the year ended December 31, 2014, respectively, the elimination of interest expense related to a bridge loan facility, and the elimination of affiliate interest expense. As previously announced, it is our intention to raise debt financing, which would replace the bridge financing, however, at present, in conformity with the SEC rules, the unaudited pro forma condensed combined financial statements only reflect the bridge financing. An increase or decrease to the interest rate of 25 basis points would result in a change of approximately \$5 million and \$20 million for the three months ended March 31, 2015 and the year ended December 31, 2014, respectively.
- (i) This adjustment reflects the income tax effect of the pro forma adjustments described in notes 4(a) through 4(h) above, using an estimated effective income tax rate of 38%.
- (j) In calculating basic and diluted net income (loss) per common share for the three months ended March 31, 2015 and the year ended December 31, 2014, net income (loss) was reduced by expected dividends on mandatory convertible preferred shares as a result of the offering of mandatory convertible preferred shares. Basic weighted average shares outstanding were 995 million and 994 million as of March 31, 2015 and December 31, 2014, respectively. Pro forma weighted average shares outstanding of 1,140 million for the three months ended March 31, 2015 and the year ended December 31, 2014 included an estimated 146 million common shares as a result of the common stock offering, based on the last reported sale price of our common stock on the NASDAQ on May 29, 2015 of \$5.15 per share. In calculating pro forma diluted net loss per common share for the three months ended March 31, 2015 and the year ended December 31, 2014, the effect of the mandatory convertible preferred shares as a result of the offering of mandatory convertible preferred shares was excluded from the computation as the effect would be antidilutive.

5. Pro forma statement of operations adjustments Connecticut Operations:

- (a) This adjustment reflects results of operations related to contracts, primarily with unaffiliated third parties that were not transferred to Frontier in the Connecticut Acquisition.
- (b) This adjustment reflects the incremental change related to contracts with AT&T affiliates that were transferred to Frontier under modified terms.
- (c) This adjustment reflects results of operations related to certain operations (substantially with AT&T affiliates) that did not continue after the closing of the Connecticut Acquisition.
- (d) This adjustment reflects the reclassification of bad debt expense from cost and expenses to revenue.
- (e) This adjustment reflects the reclassification of allocated depreciation and amortization from cost and expenses to depreciation and amortization.
- (f) This adjustment reflects pension, other postretirement employee benefits of retirees and postemployment benefits retained by AT&T based on the terms of the AT&T Purchase Agreement whereby the pension and OPEB obligations related to active employees only were transferred to Frontier and pension obligations were fully funded as of the October 24, 2014 closing date of the Connecticut Acquisition.
- (g) This adjustment reflects the removal of costs related to employee headcount that were not transferred to Frontier associated with the adjustment described in 5(c) above.
- (h) This adjustment reflects the removal of royalty expense charged by AT&T for the use of its name and trademark that did not continue after the Connecticut Acquisition.
- (i) This adjustment reflects additional amortization expense associated with the customer list asset acquired from AT&T assuming an accelerated method of amortization and an estimated useful life of ten years, which corresponds to an increase in depreciation and amortization expense of \$64 million for the year ended December 31, 2014. Amortization expense, based on our current estimate of useful lives, is estimated to be approximately \$76 million, \$67 million, \$57 million, \$48 million and \$38 million for the years ended December 31, 2015, 2016, 2017, 2018 and 2019, respectively. No adjustment has been reflected for depreciation expense. The actual depreciation and amortization expense will be based on the final fair value attributed to the identifiable tangible and intangible assets based upon the results of the third-party valuation of the acquired assets. The depreciation and amortization rates may also change based on the results of this third-party valuation. There can be no assurance that the actual depreciation and amortization expense will not differ significantly from the pro forma adjustment presented.
- (j) This adjustment reflects additional interest expense on the \$1,550 million aggregate principal amount of senior notes related to the debt offering in September 2014 and the \$350 million CoBank Connecticut Acquisition Facility (\$71 million for the year ended December 31, 2014), based on an assumed weighted average interest rate of 6.68% for the year ended December 31, 2014 and the elimination of interest expense related to a bridge loan agreement.

Edgar Filing: FRONTIER COMMUNICATIONS CORP - Form 424B2

- (k) This adjustment reflects the removal of acquisition and integration expenses related to costs incurred by Frontier in connection with the Connecticut Acquisition.

- (l) This adjustment reflects the income tax effect of the pro forma adjustments described in notes 5(a) through 5(k) above, using an estimated effective income tax rate of 38%.

U.S. federal income tax considerations

The following is a summary of U.S. federal income tax considerations generally applicable to the ownership and disposition of our Mandatory Convertible Preferred Stock and common stock into which such Mandatory Convertible Common Stock may be converted by U.S. Holders (as defined below) and Non-U.S. Holders (as defined below) that acquire our Mandatory Convertible Preferred Stock in this offering at the initial offering price.

This summary is based upon existing U.S. federal income tax laws, which are subject to differing interpretations and may be changed, perhaps retroactively, so as to result in U.S. federal income tax considerations different from those summarized below. We cannot assure prospective investors that a change in law, possibly with retroactive application, will not alter significantly the tax considerations that we describe in this summary.

This summary does not address all aspects of U.S. federal income taxation that may be relevant to holders in light of their particular circumstances, and does not deal with taxes other than the federal income tax (such as estate and gift tax or Medicare contribution tax) or with foreign, state, local or other tax considerations. Special rules, not discussed here, may apply to certain holders, including: a U.S. expatriate, a financial institution, an insurance company, a tax-exempt entity, a trader, broker or dealer in securities or currencies, traders that elect to mark-to-market their securities, a controlled foreign corporation, a passive foreign investment company, corporations that accumulate earnings to avoid U.S. federal income tax, a U.S. Holder who holds Mandatory Convertible Preferred Stock or common stock through a non-U.S. broker or other non-U.S. intermediary an entity treated as a partnership or other pass-through entity for U.S. federal income tax purposes (or an investor in such a pass-through entity), a person subject to the alternative minimum tax, a person who acquired shares of our Mandatory Convertible Preferred Stock or common stock as compensation or otherwise in connection with the performance of services, or a person who has acquired shares of our Mandatory Convertible Preferred Stock or common stock as part of a straddle, hedge, conversion transaction or other integrated investment). Such holders should consult their tax advisors to determine the U.S. federal, state, local and non-U.S. tax considerations that may be relevant to them. This summary applies only to holders who hold our Mandatory Convertible Preferred Stock or common stock as a capital asset.

For purposes of this summary, a U.S. Holder means a beneficial owner of our Mandatory Convertible Preferred Stock or common stock that is for U.S. federal income tax purposes any of the following:

an individual who is a citizen or resident of the United States;

a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) created or organized under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more U.S. persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

For the purposes of this summary, a Non-U.S. Holder means a beneficial owner of our Mandatory Convertible Preferred Stock or common stock that is, for U.S. federal income tax purposes, a person (other than a partnership) that is not a U.S. Holder.

In the case of an entity that is classified as a partnership for U.S. federal income tax purposes that holds our Mandatory Convertible Preferred Stock or common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. A prospective investor that is a partnership and partners in such a partnership are urged to consult their tax advisors about the U.S. federal income tax considerations relating to the purchase, ownership, or disposition of our Mandatory Convertible Preferred Stock or common stock.

Taxation of U.S. holders

Distributions

Distributions of cash or property that we pay in respect of our Mandatory Convertible Preferred Stock or common stock will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits (as determined under U.S. federal income tax principles) and will be includible in gross income by a U.S. Holder upon receipt. Any such dividend will be eligible for the dividends received deduction if received by an otherwise qualifying corporate U.S. Holder that meets the holding period and other requirements for the dividends received deduction. Dividends paid to non-corporate U.S. Holders (including individuals) are eligible for U.S. federal income taxation at the rates generally applicable to long-term capital gains for non-corporate U.S. Holders (at a maximum tax rate of 20%), provided that the U.S. Holder receiving the dividend satisfies the applicable holding period and other requirements. To the extent any distribution exceeds our current and accumulated earnings and profits, such excess first will be treated as a tax-free return of capital to the extent of the U.S. Holder's adjusted tax basis in our Mandatory Convertible Preferred Stock or common stock (determined separately for each share) which will not be subject to tax, and thereafter will be treated as capital gain (and thus treated in the manner described in "Disposition" below).

Share distributions

We may make distributions to holders of our Mandatory Convertible Preferred Stock that are paid in our common stock. While not free from doubt, these distributions will be treated for U.S. federal income tax purposes as if the holder received a distribution of cash in an amount equal to the fair market value of the distributed common stock on the date of the distribution and thus would generally be subject to the rules applicable to cash distributions (as discussed in "Distributions" above). Accordingly, a U.S. Holder may have a tax liability on account of such distributions in excess of the cash (if any) that is received. A U.S. Holder's initial tax basis in any common stock received as a distribution on the Mandatory Convertible Preferred Stock will generally equal the fair market value of the common stock on the date of the distribution, and the holding period for that common stock will begin on the day after the distribution.

Adjustments to the conversion rate

The conversion rate of the Mandatory Convertible Preferred Stock will be adjusted in certain circumstances. Adjustments (or failure to make adjustments) that have the effect of increasing a U.S. Holder's proportionate interest in our assets or earnings and profits may, in some circumstances, result in a deemed distribution to the U.S. Holder. Adjustments to the conversion rate made pursuant to a bona fide reasonable adjustment formula that has the effect of preventing the dilution of the interest of the U.S. Holder of the Mandatory Convertible Preferred Stock, however, will generally not be considered to result in a deemed distribution to the U.S. Holder. Certain of the possible conversion rate adjustments provided in the terms of the Mandatory Convertible Preferred Stock (including adjustments in respect of taxable dividends paid to holders of common stock) may not qualify as being pursuant to a bona fide reasonable adjustment formula. If adjustments that have the effect of increasing a U.S. Holder's proportionate interest in our assets or earnings and profits and that do not qualify as being pursuant to a bona fide reasonable adjustment formula are made, U.S. Holders of Mandatory Convertible Preferred Stock may generally be deemed to have received a distribution even though they have not received any cash or property. Any such deemed distribution will generally be taxable to a U.S. Holder in the same manner as an actual distribution as described above under "Distributions."

Table of Contents

Extraordinary dividends

Dividends that exceed certain thresholds in relation to a U.S. Holder's tax basis in the Mandatory Convertible Preferred Stock or our common stock could be characterized as an extraordinary dividend under the Code. If a corporate U.S. Holder receives an extraordinary dividend on stock it has held for two years or less before the dividend announcement date, such corporate U.S. Holder will generally be required to reduce its tax basis in the Mandatory Convertible Preferred Stock or common stock, as applicable, with respect to which such dividend was made by the nontaxed portion of such dividend. If the amount of the reduction exceeds the corporate U.S. Holder's tax basis in such stock, the excess is treated as taxable gain.

A non-corporate U.S. Holder will be required to treat any losses on the sale of Mandatory Convertible Preferred Stock or our common stock as long-term capital losses to the extent that any extraordinary dividends received by such non-corporate U.S. Holder would otherwise qualify as a dividend.

Conversion into common stock

Except as provided below (regarding amounts paid in respect of the present value of future dividends), a U.S. Holder will generally not recognize gain or loss upon the conversion of the Mandatory Convertible Preferred Stock into shares of common stock, except that (1) a U.S. Holder's receipt of cash (if any) in respect of dividends in arrears or possibly accrued and unpaid dividends will be taxable as described under Distributions above, (2) a U.S. Holder's receipt of common stock (if any) in respect of dividends in arrears or possibly accrued but unpaid dividends will be taxable as described under Distributions above as if the U.S. Holder had received cash in respect of such dividends in arrears or possibly accrued but unpaid dividends equal to the fair market value of such common stock on the date of conversion and (3) a U.S. Holder's receipt of cash in lieu of a fractional share of our common stock will result in capital gain or loss (measured by the difference between the cash received in lieu of the fractional share of our common stock and the holder's adjusted tax basis in the fractional share of our common stock).

Except as discussed in the next sentence, a U.S. Holder's initial tax basis in shares of common stock received upon conversion of the Mandatory Convertible Preferred Stock (and any fractional shares of our common stock treated as received and then exchanged for cash) will equal the basis of the converted shares of Mandatory Convertible Preferred Stock and the holding period of such shares of common stock will include the holding period of the converted shares of Mandatory Convertible Preferred Stock. Common stock received in payment of dividends in arrears or possibly accrued but unpaid dividends and taxed as a dividend upon receipt, if any, will have a basis equal to their fair market value on the date of conversion, and a new holding period will commence on the day after the conversion.

Upon certain conversions of our Mandatory Convertible Preferred Stock, we may, in respect of any such conversion, pay a holder common stock and/or cash in respect of the present value of future dividends (as described under Description of Mandatory Convertible Preferred Stock Conversion Rights Early Conversion at the Option of the Holder Upon a Fundamental Change). The tax considerations of such payment of cash or common stock are uncertain. Although not free from doubt, we believe that the better view is to treat any such cash or shares of our common stock as additional consideration received in the conversion. If this treatment is correct, then (i) to the extent a U.S. Holder realizes gain in the conversion, such gain should be taxable to the extent of any cash received by such U.S. Holder, (ii) any such taxable gain would generally be taxable as a dividend to the extent of our accumulated earnings and profits attributable thereto (provided that the conversion does not result in a meaningful reduction in such U.S. Holder's equity interest in us, in which case any such taxable gain would be treated as capital gain), (iii) a U.S. Holder's basis in the shares of common stock received upon conversion (including the shares of our common stock received in respect of future dividends, but excluding the shares of our common stock in respect of dividends in arrears and possibly accrued and unpaid dividends) should equal its basis in the Mandatory Convertible Preferred Stock being converted,

Table of Contents

increased by any gain recognized by such U.S. Holder and reduced by any cash received in respect of any future dividends and any basis allocable to any fractional shares of our common stock and (iv) a U.S. Holder's holding period in any common stock received upon conversion (including the shares of our common stock received in respect of future dividends, but excluding the shares of our common stock in respect of accrued and unpaid dividends) should include the holding period of the Mandatory Convertible Preferred Stock being converted. For this purpose, a U.S. Holder should realize gain on the conversion equal to the excess, if any, of the sum of the cash and the fair market value of shares of our common stock received (including the shares of our common stock received in respect of future dividends, but excluding the shares of our common stock in respect of accrued and unpaid dividends) over such a U.S. Holder's adjusted tax basis in our Mandatory Convertible Preferred Stock immediately prior to conversion. A U.S. Holder will not be permitted to recognize any loss realized upon its conversion of our Mandatory Convertible Preferred Stock into our common stock.

U.S. Holders should be aware that the tax treatment described in the preceding paragraph is not certain and may be challenged by the IRS, including on grounds that the amount received attributable to a portion of the then current dividend period or to future dividends represents a taxable dividend to the extent we have current or accumulated earnings and profits at the time of conversion, as described above under

Distributions. U.S. Holders should consult their tax advisors to determine the specific tax treatment of such additional shares in their particular circumstances.

Disposition

Upon a sale, exchange or other taxable disposition of our Mandatory Convertible Preferred Stock (other than pursuant to a conversion into common stock) or common stock, a U.S. Holder will generally recognize capital gain or loss equal to the difference, if any, between the amount realized on the sale, exchange or other taxable disposition and the U.S. Holder's adjusted tax basis in our Mandatory Convertible Preferred Stock or common stock. Such capital gain or loss will be long-term capital gain or loss if the U.S. Holder has held our Mandatory Convertible Preferred Stock or common stock for more than one year at the time of disposition. A U.S. Holder's tax basis and holding period in respect of common stock received in the conversion of the Mandatory Convertible Preferred Stock is discussed above under Conversion into Common Stock. Long-term capital gains of non-corporate U.S. Holders (including individuals) are generally subject to U.S. federal income taxation at a maximum rate of 20%. The deductibility of capital losses is subject to significant limitations under the Code.

Taxation of non-U.S. holders

Distributions

Distributions of cash or property that we pay in respect of our Mandatory Convertible Preferred Stock or common stock (including any constructive distributions resulting from certain adjustments (or failures to make adjustments) to the number of shares of common stock to be issued on conversion (as described under Share Distributions and Adjustments to Conversion Rate below) will generally constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Dividends paid to Non-U.S. Holders will generally be subject to withholding of U.S. federal income tax at a 30% rate or such lower rate as may be specified by an applicable income tax treaty. To the extent any distribution exceeds our current and accumulated earnings and profits, such excess first will be treated as a tax-free return of capital to the extent of the U.S. Holder's adjusted tax basis in our Mandatory Convertible Preferred Stock or common stock (determined separately for each share) which will not be subject to tax, and thereafter will be treated as capital gain (and thus treated in the manner described in Disposition below).

Table of Contents

In order to claim the benefit of an applicable income tax treaty for dividends, a Non-U.S. Holder must satisfy applicable certification and other requirements prior to the distribution date, such as providing the withholding agent with a properly completed Internal Revenue Service Form W-8BEN or W-8BEN-E (or other applicable form). Non-U.S. Holders eligible for a reduced rate of or an exemption from U.S. withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the Internal Revenue Service.

To the extent dividends paid are effectively connected with a Non-U.S. Holder's conduct of a trade or business within the United States, such effectively connected dividends will not be subject to withholding tax provided that certain certification and disclosure requirements are satisfied. Instead, such dividends will be subject to U.S. federal income tax on a net basis at regular graduated U.S. federal income tax rates in the same manner as if the Non-U.S. Holder were a United States person under the Code unless an applicable income tax treaty provides otherwise. In addition, if a Non-U.S. Holder is a corporate Non-U.S. Holder, earnings and profits attributable to such dividends that are effectively connected with such holder's conduct of a U.S. trade or business may also be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty.

Share distributions and adjustments to conversion rate

We may make distributions to holders of our Mandatory Convertible Preferred Stock that are paid in common stock. In general, while not free from doubt, distributions paid in common stock will be treated for U.S. federal income tax purposes as if the holder received a distribution of cash in an amount equal to the fair market value of the distributed common stock on the date of the distribution and thus would generally be subject to the rules applicable to cash distributions (as discussed in *Distributions* above). Similarly, as discussed above under the headings,

Taxation of U.S. Holders *Adjustments to the Conversion Rate*, adjustments to the conversion rate (or failure to make certain adjustments) can result in deemed distributions to holders of our Mandatory Convertible Preferred Stock which would be treated as discussed in *Distributions* above. Because distributions paid in common stock and deemed distributions would not give rise to any cash from which any applicable withholding tax could be satisfied, an applicable withholding agent will generally withhold the U.S. federal tax on any such dividend from any cash, common stock, or sales proceeds otherwise payable to a Non-U.S. Holder (or other assets of the Non-U.S. Holder held by such withholding agent).

Conversion into common stock

Except as provided in the next paragraph, a Non-U.S. Holder will not recognize gain or loss in respect of the receipt of common stock upon the conversion of the Mandatory Convertible Preferred Stock, except that (1) any cash or common stock received that is attributable to accrued and unpaid dividends, if any, will be treated in the manner described above under *Distributions*, (2) any common stock received in respect of dividends in arrears and possibly accrued and unpaid dividends, if any, should be treated in the manner described above under *Distributions* and

Share Distributions and Adjustments to Conversion Rate as if the Non-U.S. Holder had received cash in respect of such dividends equal to the fair market value of such common stock on the date of conversion and (3) the receipt of cash in lieu of a fractional share of our common stock will generally result in gain or loss (measured by the difference between the cash received in lieu of the fractional share of our common stock and the Non-U.S. Holder's adjusted tax basis in the fractional share of our common stock) and be treated as described below under *Disposition*.

Upon certain conversions of our Mandatory Convertible Preferred Stock, we may, in respect of any such conversion, pay a holder common stock and/or cash in respect of the present value of future dividends (as described under *Description of Mandatory Convertible Preferred Stock* *Conversion Rights* *Early Conversion*

Table of Contents

at the Option of the Holder Upon a Fundamental Change). As described above under the heading Taxation of U.S. Holders Conversion into Common Stock, the tax considerations of such payment of cash or common stock are uncertain. Although not free from doubt, we believe that the better view is to treat any such cash or shares of our common stock as additional consideration received in the conversion. Nevertheless, an applicable withholding agent may disagree and may treat any such payment as a dividend that is subject to U.S. federal withholding tax at a 30% rate as described above under Distributions unless (1) the Non-U.S. Holder qualifies for an exception or a reduction of this rate under an applicable income tax treaty or (2) such dividend is effectively connected income and an appropriate certification is provided. If any such cash is treated as additional consideration, gain, if any, may be recognized to the extent of any cash received (but would only be taxable as discussed below under Dispositions).

Disposition

Subject to the discussion below on backup withholding and FATCA withholding, a Non-U.S. Holder will generally not be subject to U.S. federal income tax with respect to gain realized on the sale or other taxable disposition of our Mandatory Convertible Preferred Stock, unless:

the Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the sale or other taxable disposition, and certain other conditions are met;

the gain is effectively connected with such Non-U.S. Holder's conduct of a trade or business within the United States, and, under an applicable treaty, the gain is attributable to a permanent establishment that such Non-U.S. Holder maintains in the United States; or

we are or have been during a specified testing period a United States real property holding corporation or USRPHC for U.S. federal income tax purposes.

Generally, a corporation is a USRPHC if the fair market value of its U.S. real property interests equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. We believe that we have not been and are not, and we do not anticipate becoming, a USRPHC for U.S. federal income tax purposes. If we are or were to become a USRPHC, so long as our Mandatory Convertible Preferred Stock or common stock, as applicable, is regularly traded on an established securities market (such as the NASDAQ Global Select Market), only a Non-U.S. Holder who, actually or constructively, holds or held (at any time during the shorter of the five year period preceding the date of disposition or the holder's holding period) more than 5% of our Mandatory Convertible Preferred Stock or common stock will be subject to U.S. federal income tax on the disposition of our Mandatory Convertible Preferred Stock or common stock. Non-U.S. Holders should consult their tax advisors concerning the tax considerations that could result if we are, or were to become, a USRPHC.

To the extent that gain recognized is effectively connected with the Non-U.S. Holder's conduct of a U.S. trade or business and, if required by an income tax treaty, the gain is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States, such gain will be subject to U.S. federal income tax on a net basis at regular graduated rates in the same manner as if such Non-U.S. Holder were a United States person as described under the Code. In addition, if a Non-U.S. Holder is a corporate Non-U.S. Holder, earnings and profits attributable to such gain that are effectively connected with such holder's conduct of a U.S. trade or business may also be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified in an applicable income tax treaty.

To the extent any gain recognized by a Non-U.S. Holder described in the first bullet above, such gain (net of certain U.S. source losses) will be subject to U.S. federal income tax at a rate of 30% (or lower applicable income tax treaty rate).

Foreign account tax compliance act

Withholding at a rate of 30% will generally be required in certain circumstances on dividends in respect of, and, after December 31, 2016, gross proceeds from the sale or other disposition of, the Mandatory Convertible Preferred Stock or common stock held by or through certain financial institutions (including investment funds), unless such institution (i) enters into, and complies with, an agreement with the Internal Revenue Service to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments or (ii) if required under an intergovernmental agreement between the U.S. and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which the Mandatory Convertible Preferred Stock or common stock is held will affect the determination of whether such withholding is required. Similarly, dividends, in respect of, and, after December 31, 2006, gross proceeds from the sale or other disposition of, the Mandatory Convertible Preferred Stock or common stock held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exemptions will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us that such entity does not have any substantial United States owners or (ii) provides certain information regarding the entity's substantial United States owners, which we will in turn provide to the U.S. Department of Treasury. Prospective investors should consult their tax advisors regarding the possible implications of the legislation on their investment in the Mandatory Convertible Preferred Stock or common stock.

Information reporting and backup withholding

We must report annually to the Internal Revenue Service and to each Non-U.S. Holder the amount of dividends paid to such Non-U.S. Holder and the amount of tax, if any, withheld with respect to such dividends. The Internal Revenue Service may make the information returns reporting such dividends and withholding available to the tax authorities in the country in which a Non-U.S. Holder is resident.

In addition, a Non-U.S. Holder may be subject to additional information reporting requirements and backup withholding (currently at a rate of 28%) with respect to dividends paid on, shares of our common stock, unless, generally, such Non-U.S. Holder certifies under penalties of perjury (usually on Internal Revenue Service Form W-8BEN or W-8BEN-E) that it is a Non-U.S. Holder or it otherwise establishes an exemption. Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale or other disposition by a Non-U.S. Holder of shares of our Mandatory Convertible Preferred Stock or common stock within the United States or conducted through certain U.S.-related financial intermediaries unless such Non-U.S. Holder certifies under penalty of perjury that it is not a United States person as described under the Code or otherwise establishes an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the Internal Revenue Service.

the transfer, sale or other disposal of shares of common stock (or any securities convertible into or exercisable or exchangeable for common stock) to a bona fide third party pursuant to a tender offer for our securities or any merger, consolidation or other business combination involving certain change of control transactions involving the Company occurring after the closing date of this offering; provided that the shares of common stock not so transferred, sold or disposed remain subject to the lock-up.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the Securities Act).

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of Mandatory Convertible Preferred Stock in the open market for the purpose of preventing or retarding a decline in the market price of the shares of Mandatory Convertible Preferred Stock while this offering is in progress. These stabilizing transactions may include making short sales of the shares of Mandatory Convertible Preferred Stock, which involves the sale by the underwriters of a greater number of shares of Mandatory Convertible Preferred Stock than they are required to purchase in this offering, and purchasing shares of Mandatory Convertible Preferred Stock on the open market to cover positions created by short sales. Short sales may be covered shorts, which are short positions in an amount not greater than the underwriters' overallotment option to purchase additional shares of the Mandatory Convertible Preferred Stock referred to above, or may be naked shorts, which are short positions in excess of that amount. The underwriters may close out any covered short position either by exercising their overallotment option to purchase additional shares of the Mandatory Convertible Preferred Stock, in whole or in part, or by purchasing shares of Mandatory Convertible Preferred Stock in the open market. In making this determination, the underwriters will consider, among other things, the price of shares of Mandatory Convertible Preferred Stock available for purchase in the open market compared to the price at which the underwriters may purchase shares of Mandatory Convertible Preferred Stock through the overallotment option to purchase additional shares of the Mandatory Convertible Preferred Stock. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares of Mandatory Convertible Preferred Stock in the open market that could adversely affect investors who purchase in this offering. To the extent that the underwriters create a naked short position, they will purchase shares of Mandatory Convertible Preferred Stock in the open market to cover the position.

The underwriters have advised us that, pursuant to Regulation M of the Securities Act, they may also engage in other activities that stabilize, maintain or otherwise affect the price of the Mandatory Convertible Preferred Stock, including the imposition of penalty bids. This means that if the representatives of the underwriters purchase shares of Mandatory Convertible Preferred Stock in the open market in stabilizing transactions or to cover short sales, the representatives can require the underwriters that sold those shares of Mandatory Convertible Preferred Stock as part of this offering to repay the underwriting discount received by them.

These activities may have the effect of raising or maintaining the market price of the Mandatory Convertible Preferred Stock or preventing or retarding a decline in the market price of the Mandatory Convertible Preferred Stock, and, as a result, the price of the Mandatory Convertible Preferred Stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The underwriters may carry out these transactions on the NASDAQ, in the over-the-counter market or otherwise. Specifically, prior to agreeing to purchase the shares being offered pursuant to the preliminary prospectus supplement, on June 4, 2015, J.P. Morgan Securities LLC purchased, on behalf of the syndicate, 1,327,341 shares of the Company's common stock at an average price of \$5.00 per share in stabilizing transactions.

In relation to each Member State of the European Economic Area (each, a Relevant Member State), no offer of the Mandatory Convertible Preferred Stock may be made to the public in that Relevant Member State other than:

- A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;

Table of Contents

- B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or
- C. in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of the Mandatory Convertible Preferred Stock shall require the Company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State who initially acquires any Mandatory Convertible Preferred Stock or to whom any offer is made will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive. In the case of any shares of Mandatory Convertible Preferred Stock being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares of Mandatory Convertible Preferred Stock acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any Mandatory Convertible Preferred Stock to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

The Company, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

This prospectus supplement has been prepared on the basis that any offer of Mandatory Convertible Preferred Stock in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Mandatory Convertible Preferred Stock. Accordingly any person making or intending to make an offer in that Relevant Member State of Mandatory Convertible Preferred Stock which is the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for the Company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters have authorized, nor do they authorize, the making of any offer of Mandatory Convertible Preferred Stock in circumstances in which an obligation arises for the Company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression an offer to the public in relation to any Mandatory Convertible Preferred Stock in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Mandatory Convertible Preferred Stock to be offered so as to enable an investor to decide to purchase or subscribe the Mandatory Convertible Preferred Stock, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Description of capital stock**General**

Under our restated certificate of incorporation, or Certificate of Incorporation, our total authorized capital stock consists of 50,000,000 shares of preferred stock, par value \$0.01 per share, or the preferred shares, and 1,750,000,000 shares of common stock, par value \$0.25 per share, or the common stock.

The following describes the material terms of our Certificate of Incorporation and by-laws, as amended, or By-laws, but it does not purport to describe all of the terms thereof. This summary is qualified in its entirety by reference to our Certificate of Incorporation and our By-laws, each of which is filed as an exhibit to the registration statement of which this prospectus is a part, and the applicable provisions of the General Corporation Law of the State of Delaware, or the DGCL. To find out where copies of our Certificate of Incorporation and By-laws can be obtained, see [Where You Can Find More Information](#).

Common stock***Dividends***

Holders of shares of our common stock are entitled to receive dividends and other distributions in cash, stock or property of Frontier as may be declared by our board of directors, or the Board, from time to time at its sole discretion out of our assets or funds legally available for dividends or other distributions. Dividends on common stock are not cumulative. Consequently, if dividends on our common stock are not declared, stockholders are not entitled to receive such payments in the future.

Rights upon liquidation

In the event of our voluntary or involuntary liquidation, dissolution or winding up, holders of shares of our common stock will be entitled to share in our assets remaining after payment of all debts and other liabilities, subject to the liquidation preference of any outstanding preferred stock.

Voting rights

Holders of common stock are entitled to one vote for each share held of record and may not cumulate votes for the election of directors.

Except as otherwise required by the DGCL and our Certificate of Incorporation and By-laws, action requiring stockholder approval may be taken by a vote of the holders of a majority of the common stock at a meeting at which a quorum is present.

Other rights

Holders of common stock do not have preemptive rights. Holders of common stock are subject to, and may be adversely affected by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Listing and transfer agent

Our common stock is listed on the NASDAQ Global Select Market under the trading symbol FTR. The transfer agent and registrar for our common stock is the Computershare Trust Company, N.A.

Preferred stock

Our Certificate of Incorporation provides that we may issue up to 50,000,000 shares of preferred stock in one or more series as may be determined by the Board.

The Board has broad discretionary authority with respect to the rights of each issued series of preferred stock and may take several actions without any vote or action of the holders of common stock, including:

determining the number of shares to be included in each series;

fixing the designation, powers, preferences and relative, participating, optional, conversion and other rights of the shares of each series and any qualifications, limitations or restrictions with respect to each series; and

increasing or decreasing the number of shares of any series.

The Board may authorize, without approval of holders of our common stock, the issuance of preferred stock with voting and conversion rights that could adversely affect the voting power and other rights of holders of common stock. For example, preferred stock may rank prior to common stock as to dividend rights, liquidation preferences or both, may have full or limited voting rights and may be convertible into shares of common stock.

Preferred stock could be issued quickly with terms designed to discourage, delay or prevent a change in the control of our company or to make the removal of our management more difficult, including a tender offer or other transaction that some, or a majority, of our common stockholders might believe to be in their best interest or in which stockholders might receive a premium for their stock over the then best current market price. This could have the effect of discouraging third-party bids for our common stock or may otherwise adversely affect the market price of our common stock.

We believe that the ability of the Board to issue one or more series of preferred stock provides us with flexibility in structuring possible future financings and acquisitions, and in meeting other corporate needs that might arise. The authorized shares of preferred stock, as well as shares of common stock, are available for issuance without action by holders of common stock, unless such action is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded.

Frontier s Certificate of Incorporation and By-laws

Provisions of the DGCL and our Certificate of Incorporation and By-laws could delay or discourage some transactions involving an actual or potential change in control of us or our management and may limit the ability of our stockholders to remove current management or approve transactions that our stockholders may deem to be in their best interests. These provisions:

authorize the Board to establish one or more series of preferred stock, the terms of which can be determined by the Board at the time of issuance;

provide an advanced written notice procedure with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the Board or a committee of the Board;

state that special meetings of our stockholders may be called by the Chairman of the Board or the Chief Executive Officer and must be called on the request in writing or by vote of a majority of the Board or on request in writing of stockholders of record owning 50% of the capital stock outstanding and entitled to vote;

allow our directors, and not our stockholders, to fill vacancies on the Board, including vacancies resulting from removal or enlargement of the Board; and

grant the Board the authority to amend and repeal the By-laws without a stockholder vote; provided, however, that such authority of the Board is subject to the power of the stockholders to change or repeal any By-laws by a majority vote of the stockholders present and represented at any annual meeting or at any special meeting called for such purpose.

Description of debt securities

We will set forth in the applicable prospectus supplement a description of any debt securities that may be offered pursuant to this prospectus.

Description of purchase contracts and purchase units

We may issue purchase contracts for the purchase or sale of common stock, preferred stock or debt securities issued by us or by third parties as specified in the applicable prospectus supplement. Each purchase contract will entitle the holder thereof to purchase or sell, and obligate us to sell or purchase on specified dates, such securities at a specified purchase price, which may be based on a formula, all as set forth in the applicable prospectus supplement. The purchase contracts may, however, permit us to satisfy our obligations, if any, with respect to such purchase contracts by delivering the cash value of such purchase contracts or the cash value of the securities otherwise deliverable, as set forth in the applicable prospectus supplement. The applicable prospectus supplement will also specify the methods by which the holders may purchase or sell such securities, and any acceleration, cancellation or termination provisions or other provisions relating to the settlement of a purchase contract. The price per security and the number of securities may be fixed at the time the purchase contracts are entered into or may be determined by reference to a specific formula set forth in the applicable purchase contracts.

The purchase contracts may be issued separately or as part of units consisting of a purchase contract and debt securities or debt obligations of third parties, including U.S. treasury securities, or any other securities described in the applicable prospectus supplement or any combination of the foregoing, securing the holders

obligations to purchase the securities under the purchase contracts, which we refer to herein as purchase units. The purchase contracts may require holders to secure their obligations under the purchase contracts in a specified manner. The purchase contracts also may require us to make periodic payments to the holders of the purchase contracts or the purchase units, as the case may be, or vice versa, and those payments may be unsecured or pre-funded on some basis.

The prospectus supplement relating to any purchase contracts or purchase units we may offer will contain the specific terms of the purchase contracts or purchase units. These terms may include the following:

whether the purchase contracts obligate the holder to purchase or sell, or both, our common stock, preferred stock or debt securities, and the nature and amount of each of those securities, or method of determining those amounts;

whether the purchase contracts are to be prepaid or not;

whether the purchase contracts are to be settled by delivery, or by reference or linkage to the value or performance of our common stock or preferred stock;

any acceleration, cancellation, termination or other provisions relating to the settlement of the purchase contracts; and

whether the purchase contracts will be issued in fully registered global form.

The description in the applicable prospectus supplement of any purchase contract or purchase unit we offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable purchase contract or purchase unit, which will be filed with the SEC if we offer purchase contracts or purchase units. For more information on how you can obtain copies of any purchase contract or purchase unit we may offer, see [Where You Can Find More Information](#). We urge you to read the applicable purchase contract or applicable purchase unit and any applicable prospectus supplement in their entirety.
