Accumulation Discovery in the Pre-Salt Layer of Campos Basin

Rio de Janeiro, August 10, 2017 Petróleo Brasileiro S.A. Petrobras reports the discovery of oil accumulation in the Campos Basin's pre-salt layer, in the area of Marlim Sul field.

This is the first commercial discovery of oil in the pre-salt layer of the Marlim Sul area. The discovery occurred during drilling of well 6-BRSA-1349-RJS (ANP nomenclature) / 6-MLS-233-RJS (Petrobras nomenclature), informally known as Poraquê Alto, at final depth of 4,568 m.

The well which identified the discovery is located 115 km off the coast of Rio de Janeiro State, at 1,107 m water depth.

The discovery was confirmed by profile data, gas detector, formation testing by cable, and fluid samples. The analysis of current data indicates carbonate reservoirs of good porosity and permeability features, at 4,420 m depth and 45 m thick with oil presence.

This result demonstrates the potential for new discoveries in mature basins, with production infrastructure already deployed.

FORWARD-LOOKING STATEMENTS

This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are subject to risks and uncertainties. The forward-looking statements, which address the Company's expected business and financial performance, among other matters, contain words such as believe, expect, estimate, anticipate, optimistic, intend, plan, aim, will, may, should, could, would, likely, and similar expressions cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. There is no assurance that the expected events, trends or results will actually occur. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.

The Company's actual results could differ materially from those expressed or forecast in any forward-looking statements as a result of a variety of assumptions and factors. These factors include, but are not limited to, the following: (i) failure to comply with laws or regulations, including fraudulent activity, corruption, and bribery; (ii) the outcome of ongoing corruption investigations and any new facts or information that may arise in relation to the Lava Jato Operation ; (iii) the effectiveness of the Company's risk management policies and procedures, including operational risk; and (iv) litigation, such as class actions or proceedings brought by governmental and regulatory agencies. A description of other factors can be found in the Company's Annual Report on Form 20-F for the year ended December 31, 2015, and the Company's other filings with the U.S. Securities and Exchange Commission.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
