WISDOMTREE CONTINUOUS COMMODITY INDEX FUND

61,000,000 Common Units of Beneficial Interest

WisdomTree Continuous Commodity Index Fund (the Fund) is offering shares representing common units of beneficial interest in and ownership of the Fund (the Shares). The Shares are listed on the NYSE Arca under the symbol GCC.

The Fund invests substantially all of its assets in WisdomTree Continuous Commodity Index Master Fund (the Master Fund) and together with the Fund, the Funds) in a master-feeder structure. The Master Fund uses the proceeds from the Fund s investment to actively trade exchange traded futures on a portfolio of commodities comprising the Thomson Reuters Continuous Commodity Index (the Index), with a view to tracking the performance of the Index over time, regardless of whether the Index is rising, falling or flat over any particular period. The Master Fund also realizes interest income from its holdings in U.S. Treasury obligations and other high credit-quality, short-term fixed income securities.

The Fund continuously offers and redeems baskets (Baskets) of 50,000 Shares to authorized participants (Authorized Participants) at a price based on the Master Fund s net asset value per Share. Authorized Participants, in turn, may offer such Shares to the public at a per Share offering price that varies depending on, among other factors, the trading price of the Shares, the Master Fund s net asset value, and the supply of and demand for the Shares at the time of the offer. Shares initially comprising the same Basket but offered by the Authorized Participants to the public at different times may have different offering prices. Except when aggregated in Baskets, the Shares are not redeemable securities. An Authorized Participant may receive commissions or fees from investors who purchase Shares through such Authorized Participant. Subscription proceeds received from Authorized Participants will be immediately released to the Fund. The offering of Shares will terminate on the third anniversary of the Registration Statement of which this Prospectus is a part unless prior thereto a new Registration Statement is filed.

The Fund is treated as a partnership for U.S. federal income tax purposes. Each investor in the Fund will receive a Schedule K-1 that reports such investor s allocable portion of partnership tax items. WisdomTree Commodity Services, LLC (the Managing Owner) anticipates making this form available to investors on or before April 15 each year following the taxable year to which it relates.

For each of the Funds, WisdomTree Commodity Services, LLC serves as the commodity pool operator and Managing Owner, and GreenHaven Advisors LLC serves as the commodity trading advisor (the Sub-Adviser).

Investing in the Shares involves significant risk. See Risk Factors beginning on Page 8. The Fund is not a mutual fund registered under the Investment Company Act of 1940, as amended, and is not subject to regulation thereunder.

Price Per Unit⁽¹⁾
\$18.76

Price Per Basket⁽¹⁾
\$938,000

Proceeds to the Fund⁽¹⁾
\$1,144,360,000

(1) Based on closing net asset value on September 30, 2017. The price may vary based on net asset value in effect on a particular day.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION (THE SEC) NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED THESE SECURITIES, OR DETERMINED IF THIS PROSPECTUS IS TRUTHFUL OR COMPLETE. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

THE COMMODITY FUTURES TRADING COMMISSION HAS NOT PASSED UPON THE MERITS OF PARTICIPATING IN THIS POOL NOR HAS THE COMMISSION PASSED ON THE ADEQUACY OR ACCURACY OF THIS DISCLOSURE DOCUMENT.

The Shares are neither interests in nor obligations of the Managing Owner, the Funds trustee, the Sub-Adviser or any of their respective affiliates. The Shares are not insured by the Federal Deposit Insurance Corporation or any other governmental agency.

This Prospectus is in two parts: a disclosure document and a statement of additional information. These parts are bound together, and both contain important information.

The date of this Prospectus is October 26, 2017

RISK DISCLOSURE STATEMENT

YOU SHOULD CAREFULLY CONSIDER WHETHER YOUR FINANCIAL CONDITION PERMITS YOU TO PARTICIPATE IN A COMMODITY POOL. IN SO DOING, YOU SHOULD BE AWARE THAT COMMODITY INTEREST TRADING CAN QUICKLY LEAD TO LARGE LOSSES AS WELL AS GAINS. SUCH TRADING LOSSES CAN SHARPLY REDUCE THE NET ASSET VALUE OF THE POOL AND CONSEQUENTLY THE VALUE OF YOUR INTEREST IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL. IN ADDITION, RESTRICTIONS ON REDEMPTIONS MAY AFFECT YOUR ABILITY TO WITHDRAW YOUR PARTICIPATION IN THE POOL.

FURTHER, COMMODITY POOLS MAY BE SUBJECT TO SUBSTANTIAL CHARGES FOR MANAGEMENT, AND ADVISORY AND BROKERAGE FEES. IT MAY BE NECESSARY FOR THOSE POOLS THAT ARE SUBJECT TO THESE CHARGES TO MAKE SUBSTANTIAL TRADING PROFITS TO AVOID DEPLETION OR EXHAUSTION OF THEIR ASSETS. THIS DISCLOSURE DOCUMENT CONTAINS A COMPLETE DESCRIPTION OF EACH EXPENSE TO BE CHARGED THIS POOL AT PAGES 22 THROUGH 25 AND A STATEMENT OF THE PERCENTAGE RETURN NECESSARY TO BREAK EVEN, THAT IS, TO RECOVER THE AMOUNT OF YOUR INITIAL INVESTMENT, AT PAGE 22.

THIS BRIEF STATEMENT CANNOT DISCLOSE ALL THE RISKS AND OTHER FACTORS NECESSARY TO EVALUATE YOUR PARTICIPATION IN THIS COMMODITY POOL. THEREFORE, BEFORE YOU DECIDE TO PARTICIPATE IN THIS COMMODITY POOL, YOU SHOULD CAREFULLY STUDY THIS DISCLOSURE DOCUMENT, INCLUDING A DESCRIPTION OF THE PRINCIPAL RISK FACTORS OF THIS INVESTMENT, AT PAGES 8 THROUGH 18.

THIS PROSPECTUS DOES NOT INCLUDE ALL OF THE INFORMATION OR EXHIBITS IN THE REGISTRATION STATEMENT OF THE FUND AND THE MASTER FUND. INVESTORS CAN READ AND COPY THE ENTIRE REGISTRATION STATEMENT AT THE PUBLIC REFERENCE FACILITIES MAINTAINED BY THE SEC IN WASHINGTON, D.C.

THE FUND AND THE MASTER FUND FILE QUARTERLY AND ANNUAL REPORTS WITH THE SEC. INVESTORS CAN READ AND COPY THESE REPORTS AT THE SEC PUBLIC REFERENCE FACILITIES IN WASHINGTON, D.C. PLEASE CALL THE SEC AT 1-800-SEC-0330 FOR FURTHER INFORMATION.

THE FILINGS OF THE FUND AND THE MASTER FUND ARE POSTED AT THE SEC WEBSITE AT WWW.SEC.GOV.

REGULATORY NOTICES

NO DEALER, SALESMAN, OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATION NOT CONTAINED IN THIS PROSPECTUS, AND, IF GIVEN OR MADE, SUCH OTHER INFORMATION OR REPRESENTATION MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE FUND, THE MASTER FUND, THE MANAGING OWNER, THE SUB-ADVISER, THE AUTHORIZED PARTICIPANTS OR ANY OTHER PERSON.

THIS PROSPECTUS DOES NOT CONSTITUTE AN OFFER TO SELL OR A SOLICITATION OF AN OFFER TO BUY THE SECURITIES OFFERED HEREBY TO ANY PERSON OR BY ANYONE IN ANY JURISDICTION IN WHICH SUCH OFFER OR SOLICITATION MAY NOT LAWFULLY BE MADE.

THE BOOKS AND RECORDS OF THE FUND AND THE MASTER FUND ARE MAINTAINED AS FOLLOWS:

ALL MARKETING MATERIALS WILL BE MAINTAINED AT THE OFFICES OF WISDOMTREE COMMODITY SERVICES, TELEPHONE NUMBER (866) 909-9473;

ACCOUNTING AND CERTAIN OTHER FINANCIAL BOOKS AND RECORDS (INCLUDING FUND ACCOUNTING RECORDS, LEDGERS WITH RESPECT TO ASSETS, LIABILITIES, CAPITAL, INCOME AND EXPENSES, THE REGISTRAR, TRANSFER JOURNALS AND RELATED DETAILS) AND BASKET CREATION AND REDEMPTION BOOKS AND RECORDS AND TRADING AND RELATED DOCUMENTS RELATED TO CUSTODY OF ASSETS RECEIVED FROM FUTURES COMMISSION MERCHANTS WILL BE MAINTAINED BY STATE STREET BANK AND TRUST COMPANY, TELEPHONE NUMBER (866) 909-9473;

TRADING RECORDS AND RELATED DOCUMENTS RECEIVED FROM FUTURES COMMISSION MERCHANTS WILL BE MAINTAINED BY GREENHAVEN ADVISORS LLC, TELEPHONE NUMBER (404) 389-9744; AND

ALL OTHER BOOKS AND RECORDS OF THE FUND AND THE MASTER FUND (INCLUDING MINUTE BOOKS AND OTHER GENERAL CORPORATE RECORDS) ARE MAINTAINED AT THE FUND'S PRINCIPAL OFFICE, C/O WISDOMTREE COMMODITY SERVICES LLC, 245 PARK AVENUE, 35TH FLOOR, NEW YORK, NEW YORK 10167, TELEPHONE NUMBER (866) 909-9473.

SHAREHOLDERS HAVE THE RIGHT, DURING NORMAL BUSINESS HOURS, TO HAVE REASONABLE ACCESS TO AND COPY (UPON PAYMENT OF REASONABLE REPRODUCTION COSTS) SUCH BOOKS AND RECORDS IN PERSON OR BY THEIR AUTHORIZED ATTORNEY OR AGENT. THERE WILL SIMILARLY BE DISTRIBUTED TO SHAREHOLDERS, NOT MORE THAN 90 DAYS AFTER THE CLOSE OF EACH OF THE FUND'S FISCAL YEARS, CERTIFIED AUDITED FINANCIAL STATEMENTS AND (IN NO EVENT LATER THAN MARCH 15 OF THE IMMEDIATELY FOLLOWING YEAR) THE TAX INFORMATION RELATING TO SHARES OF THE FUND NECESSARY FOR THE PREPARATION OF SHAREHOLDERS' ANNUAL FEDERAL INCOME TAX RETURNS.

THE DIVISION OF INVESTMENT MANAGEMENT OF THE SEC REQUIRES THAT THE FOLLOWING STATEMENT BE PROMINENTLY SET FORTH HEREIN: NEITHER WISDOMTREE CONTINUOUS COMMODITY INDEX FUND NOR WISDOMTREE CONTINUOUS COMMODITY INDEX MASTER FUND IS A MUTUAL FUND OR ANY OTHER TYPE OF INVESTMENT COMPANY WITHIN THE MEANING OF THE INVESTMENT COMPANY ACT OF 1940, AS AMENDED, AND IS NOT SUBJECT TO REGULATION THEREUNDER.

AUTHORIZED PARTICIPANTS MAY BE REQUIRED TO DELIVER A PROSPECTUS WHEN TRANSACTING IN SHARES. SEE PLAN OF DISTRIBUTION.

STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

All statements other than statements of historical fact included or incorporated by reference in this Prospectus, including without limitation, statements regarding (i) the Funds' future performance, projected costs and plans and objectives, (ii) the Managing Owner's and/or the Sub-Adviser's strategy, future operations and objectives, and (iii) matters effecting the commodities markets, changes in the commodities markets and indices that track such movements, are forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology such as may, will, should, expect, intend, plan, anticipate, believe, estimate, potential or the negative thereof, variations thereon or similar terminology. These statements are only predictions, and actual events or results may differ materially. These statements are based upon certain assumptions and analyses of the Managing Owner founded on a variety of considerations, including but not limited to the Managing Owner's perception of historical trends, current conditions and expected future developments. Important factors that could cause actual results to differ materially from the forward-looking statements described herein, referred to herein as cautionary statements, are disclosed under *Risk Factors* and elsewhere in this Prospectus. Such factors include but are not limited to general economic, market and business conditions, changes in laws or regulations, and other world economic and political developments. Consequently, all of the forward-looking statements made in this Prospectus are qualified by these cautionary statements, and there can be no assurance that actual results or developments described herein will be realized or, even if substantially realized, that such results or developments will result in the expected consequences to, or have the expected effects on, the Funds, the Managing Owner or the value of the Shares.

SUMMARY

The following is only a summary of the information contained in this Prospectus. The following summary does not contain or summarize all of the information about the Funds described in this Prospectus that is material and/or which may be important to investors. Investors are urged to read the entire Prospectus, including the section entitled "Risk Factors" and the exhibits attached to the Registration Statement of which this Prospectus is a part, before making an investment decision regarding the Shares.

The Funds

WisdomTree Continuous Commodity Index Fund (the **Fund**) and WisdomTree Continuous Commodity Index Master Fund (the **Master Fund** and together with the Fund, the **Funds**) are commodity pools that were organized as Delaware statutory trusts on October 27, 2006. WisdomTree Commodity Services, LLC serves as the commodity pool operator and managing owner (the **Managing Owner**) of the Funds, and GreenHaven Advisors LLC serves as the commodity trading advisor (the **Sub-Adviser**).

The Fund continuously offers shares representing common units of fractional undivided beneficial interest in and ownership of the Fund (**Shares**). Upon inception of the Fund, the Fund issued 50 of its general units to the Managing Owner in exchange for a capital contribution of \$1,500.

The Fund invests substantially all of its assets in the Master Fund in a master-feeder structure. The Master Fund is wholly-owned by the Fund and the Managing Owner. The Master Fund and the Fund each follow the same investment objective. The Fund holds no investment assets other than the Master Fund's common units of beneficial interest (**Master Fund Units**). Upon inception of the Master Fund, the Master Fund issued 50 of its general units to the Managing Owner in exchange for a capital contribution of \$1,500. Each Share issued by the Fund correlates to a Master Fund Unit held by the Fund.

The principal executive offices of the Funds and the Managing Owner are located at 245 Park Avenue, 35th Floor, New York, New York 10167, telephone (866) 909-9473.

Investment Objective; Use of Proceeds

The Funds' investment objective is to provide investors with exposure to the daily change in the price of a portfolio of commodities (the **Index Commodities**) comprising the Thomson Reuters Continuous Commodity Index, sometimes referred to as the Continuous Commodity Total Return Index or Equal Weight Continuous Commodity Total Return Index (the **Index**), before Fund liabilities and expenses. The Index Commodities consist of corn, soybeans, wheat, live cattle, lean hogs, gold, silver, copper, cocoa, coffee, sugar, cotton, soybean oil, platinum, crude oil, NY Harbor ULSD (formerly known as heating oil), and natural gas.

The Fund pursues its investment objective by investing substantially all of its assets in the Master Fund. The Master Fund pursues its investment objective by actively trading exchange traded futures (**Commodity Futures**) on the Index Commodities, with a view to tracking the performance of the Index over time, regardless of whether the Index is rising, falling or flat over any particular period. The Master Fund's non-discretionary investment strategy is designed to provide investors with a cost-effective and convenient way to invest in an equal-weight portfolio of commodity futures.

The Master Fund's portfolio (the **Portfolio**) also includes cash, U.S. Treasury obligations and other high credit-quality, short-term fixed income securities (collectively, **U.S. Treasuries**) for deposit with the Fund's commodity broker as margin or otherwise held to cover the Master Fund's notional exposure to Commodity Futures.

An investment in the Shares is:

Easily Accessible and Relatively Cost Efficient. As the Shares are listed on the NYSE Arca, investors can indirectly invest in a portfolio comprised of the Index Commodities through a traditional brokerage account. Investors are able to more effectively implement strategic and tactical asset allocation strategies that are affected by changes in the performance of the Index by investing in the Shares as compared to other means of investing in the underlying Index Commodities.

Exchange-traded and Transparent. The Shares trade on the NYSE Arca, providing investors with an efficient means to implement various investment strategies. Furthermore, the Managing Owner will attempt to cause the composition of the Portfolio to be posted at www.wisdomtree.com daily, providing investors with a clear and timely picture of the Funds' holdings.

Competitively Priced. The Managing Owner's fee and certain other expenses paid by the Funds represent costs to an investor in the Shares. An investor's decision to purchase Shares may be influenced by such fees and expenses relative to the costs associated with investing in the Index Commodities by other means.

There can be no assurance that the Funds will achieve their investment objective or avoid substantial losses. The value of the Shares is expected to fluctuate generally in relation to changes in the value of the Master Fund Units.

Fees and Expenses

The Managing Owner and its predecessor have paid and will continue to pay the costs and expenses incurred in connection with the continuous offering of the Shares, including the Funds' ordinary and ongoing administrative costs and expenses, and the fees payable to the Sub-Adviser and certain of the Fund's other advisers. The Fund will pay the Managing Owner a fee for its services provided to the Fund, and is responsible for the payment of all of the Fund's brokerage and extraordinary fees and expenses. See *Charges Fees and Expenses*.

The Offering

Offering of the Shares

The Fund continuously offers baskets (Baskets) of 50,000 Shares to certain authorized participants (each an Authorized Participant) at a price based on the Master Fund's Net Asset Value (as defined below) per Share. See *Authorized Participants*. Authorized Participants, in turn, may offer Shares to the public at offering prices that are expected to be influenced by a variety of factors. An Authorized Participant may receive commissions or fees from investors who purchase Shares through such Authorized Participant. See *Description of the Shares* and *Creation and Redemption of Shares*.

Exchange Symbol

The Shares are listed on the NYSE Arca under the symbol GCC.

CUSIP

97718W 108

<i>Affiliates and Agents</i>	<i>Managing Owner</i>	WisdomTree Commodity Services, LLC
	<i>Sub-Adviser</i>	GreenHaven Advisors LLC
	<i>Trustee</i>	Delaware Trust Company
	<i>Commodity Broker</i>	Morgan Stanley & Co. LLC
	<i>Administrator</i>	State Street Bank and Trust Company
	<i>Distributor</i>	Foreside Fund Services LLC

Creation and Redemption of Shares The Fund creates and redeems Shares from time to time, but only in one or more whole Baskets. Except when aggregated in Baskets, the Shares are not redeemable securities. Authorized Participants pay a transaction fee of \$200 per creation or redemption order to the Administrator. See *Creation and Redemption of Shares*.

Authorized Participants Baskets may be created or redeemed only by Authorized Participants. Each Authorized Participant must (1) be a registered broker-dealer or other securities market participant such as a bank or other financial institution that is not required to register as a broker-dealer to engage in securities transactions, (2) be a participant in The Depository Trust Company (DTC), and (3) have entered into a participant agreement with the Fund, among other parties (a Participant Agreement). See *Authorized Participants*.

Net Asset Value Net Asset Value means the total assets of the Master Fund including, but not limited to, all cash and cash equivalents or other debt securities, less total liabilities of the Master Fund, each determined on the basis of generally accepted accounting principles in the U.S., consistently applied under the accrual method of accounting. The Administrator calculates the Net Asset Value once each NYSE Arca trading day. The Net Asset Value for a particular trading day is released after 5:00 p.m. New York time and posted at www.wisdomtree.com. The Managing Owner anticipates that the NYSE Arca will disseminate the indicative fund value on a per Share basis every 15 seconds during regular NYSE Arca trading hours of 9:30 a.m. ET to 4:00 p.m. New York time.

Segregated Accounts/ Interest Income The Managing Owner estimates that (i) approximately 15% of the Net Asset Value will be held as margin in the form of U.S. Treasuries in segregated accounts with the Commodity Broker (or another eligible financial institution, as applicable), and (ii) approximately 85% of the Net Asset Value will be maintained in segregated accounts in the name of the Master Fund in bank deposits or U.S. Treasuries. The Master Fund receives 100% of the interest income earned on its interest income assets.

See *Use of Proceeds*.

Clearance and Settlement

The Shares are evidenced by global certificates on deposit with DTC and registered in the name of Cede & Co., as nominee for DTC. The

Shares are available only in book-entry form. Registered or beneficial owners of the Shares (Shareholders) may hold their Shares through DTC, if they are participants in DTC, or indirectly through entities that are participants in DTC. See *The Securities Depository; Book-Entry Only System; Global Security*.

U.S. Federal Income Tax Considerations The Fund and Master Fund are treated as partnerships for U.S. federal income tax purposes. Accordingly, it is expected that the Funds will not incur U.S. federal income tax liability and each Shareholder will have tax liability on its allocable share of the Fund's income, gain, loss, deduction and other items. See *Certain Material U.S. Federal Income Tax Considerations*.

Distributions The Fund will make distributions at the discretion of the Managing Owner. Because the Managing Owner does not presently intend to make ongoing distributions, a Shareholder's income tax liability with respect to Shares held will, in all likelihood, exceed any distributions from the Fund. See *Description of the Shares Distributions* and *Certain Material U.S. Federal Income Tax Considerations*.

Reports to Shareholders The Managing Owner furnishes annual reports of the Funds in the manner required by the rules and regulations of the United States Securities and Exchange Commission (the SEC), in addition to reports required by the Commodity Futures Trading Commission (the CFTC) and the National Futures Association (the NFA), including, but not limited to, annual audited financial statements examined and certified by an independent registered public accounting firm, and any other reports required by any other governmental authority that has jurisdiction over the activities of the Funds. Monthly account statements conforming to CFTC and NFA requirements, as well as the annual and quarterly reports and other filings made with the SEC, are posted at www.wisdomtree.com. Shareholders of record will also be provided with appropriate information to permit them to file U.S. federal and state income tax returns (on a timely basis) with respect to Shares held. Additional reports may be posted at www.wisdomtree.com at the discretion of the Managing Owner or as required by regulatory authorities. See *The Trust Agreements Reports to Shareholders*.

Termination Events The Funds may be dissolved at any time and for any reason by the Managing Owner with written notice to the Shareholders. See *The Trust Agreements Fund Termination Events*.

Fiscal Year The Funds' fiscal year ends on December 31 of each year.

Investment Risks

An investment in the Shares is speculative and involves a high degree of risk. Prospective investors should be aware that:

An investor could lose a substantial portion or all of its investment.

Commodity trading is highly speculative and the Index, on which the Master Fund's trading is based, is likely to be volatile and could suffer from periods of prolonged decline in value.

The Fund, the Master Fund and the Managing Owner do not have operating history prior to the commencement of trading on January 24, 2008. The ownership and the principals of the Managing Owner recently changed and the Sub-Adviser is recently formed.

The Fund, the Master Fund, the Managing Owner and the Sub-Adviser are subject to numerous conflicts of interest, including those arising from the fact that the Managing Owner and/or Sub-Adviser, and their respective affiliates, may also serve as the managing owner, commodity pool operator and/or commodity trading advisor for other commodity pools and investment funds, and may sponsor others.

The Fund and the Master Fund are subject to the fees and expenses described herein and will be successful only if significant losses are avoided.

Past performance of the Index is not necessarily indicative of future results, and all or substantially all of an investment in the Fund could be lost.

The trading of the Master Fund's Portfolio takes place in very volatile markets.

The CFTC and commodity exchange rules impose speculative position limits on market participants trading in certain commodities included in the Index, which could limit the Funds' investment objective.

Shareholders will receive a Schedule K-1 which reports their allocable portion of tax items. Schedule K-1's are complex and, especially for individual investors, usually require the engagement of tax advisers. The Funds use certain conventions and make certain assumptions when preparing the Schedule K-1's which if not accepted by the Internal Revenue System (the IRS) could result in income, gain, loss and deduction being adjusted or reallocated in a manner that adversely affects one or more Shareholders.

Performance may not track the Index during particular periods or over the long term. Such tracking error may cause the Fund to outperform

or underperform the Index.

Thomson Reuters (Markets) LLC, formerly Thomson Reuters America LLC (the Index Sponsor), has the right to make adjustments to the Index or to cease making the Index available without regard to the particular interests of the Funds or the Shareholders. If the computers or other facilities of the Index Sponsor or any Index calculation agent, data providers and/or relevant stock exchange malfunction for any reason, calculation

and dissemination of Index values may be delayed and trading in the Shares may be suspended for a period of time. Errors in Index data, Index calculations and/or the construction of the Index may occur from time to time and may not be identified and/or corrected by the Index Sponsor for a period of time or at all, which may have an adverse impact on the Funds and the Shareholders.

The Funds and their service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. A breach in cyber security, intentional or unintentional, may adversely impact the Funds in many ways, including, but not limited to, disruption of the Funds' operational capacity, loss of proprietary information, theft or corruption of data, denial-of-service attacks on websites or network resources, and the unauthorized release of confidential information. Cyber-attacks affecting the Funds' third-party service providers and other parties may subject the Funds to many of the same risks associated with direct cyber security breaches and adversely impact the Funds.

The Funds and their service providers may experience disruptions that arise from human error, processing and communications errors, counterparty or third-party errors, technology or systems failures, any of which may have an adverse impact on the Funds.

See *Risk Factors* for a description of certain additional risks that prospective investors should consider before investing in the Shares.

Breakeven Table

The following table shows the estimated amount of fees and expenses that are anticipated to be incurred by a new investor in the Shares during the first twelve (12) months of ownership. The total estimated fees and expenses are expressed as a percentage of \$18.76 (the Net Asset Value per Share on September 30, 2017) or \$938,000 (the Net Asset Value per Basket on September 30, 2017). Although the Managing Owner has used actual numbers and good faith estimates in preparing this table, the actual expenses associated with an investment in the Shares may differ. See *Charges Fees and Expenses* for a description of the estimated fees, commissions, expenses and other charges of the Funds.

Income/Expense	Per Share ⁽¹⁾		Per Basket ⁽²⁾	
	\$	%	\$	%
Net Asset Value (at September 30, 2017)	\$ 18.76	100.00%	\$ 938,000	100.00%
Management Fee ⁽³⁾	\$ 0.14	0.75%	\$ 7,035	0.75%
Brokerage Commissions and Fees ⁽⁴⁾⁽⁵⁾	\$ 0.02	0.11%	\$ 1,032	0.11%
Organization and Offering Expenses ⁽⁶⁾				
Routine Operational, Administrative and Other Ordinary Expenses ⁽⁷⁾⁽⁸⁾				
Interest Income ⁽⁹⁾	\$ (0.16)	(0.86)%	\$ (8,067)	(0.86)%

Edgar Filing: WisdomTree Continuous Commodity Index Fund - Form 424B3

12-Month Breakeven (continuous Offering) ^(10,11)	\$ 0.00	0.00%	\$ 0	0.00%
---	---------	-------	------	-------

1. Assumes that the Shares have a constant month-end Net Asset Value and is based on \$18.76 as the Net Asset Value per share. The actual Net Asset Value of the Master Fund will differ.
2. Assumes that the Baskets have a constant month-end Net Asset Value and is based on \$938,000 as the Net Asset Value per Basket. The actual Net Asset Value of the Master Fund will differ.

3. The Fund is contractually obligated to pay the Managing Owner a Management Fee of 0.85% per annum based on the average daily Net Asset Value of the Master Fund, payable monthly in arrears. The Managing Owner voluntarily agreed to waive a portion of its Management Fee in the amount of 0.10% per annum reducing the Management Fee to 0.75% per annum. From the Management Fee, the Managing Owner will be responsible for paying the fees and expenses of the Administrator, the Distributor and the Trustee, and the routine operational, administrative and other ordinary expenses of the Fund including the fee payable to the Sub-Adviser. See *Charges Fees and Expenses*.
4. Investors may pay customary brokerage commissions to their brokers in connection with the purchases of Shares. Because brokerage commission rates will vary from investor to investor, brokerage commissions are not included in the Breakeven Table. Investors are encouraged to review the terms of their brokerage accounts for details on applicable charges.
5. The costs to the Funds for brokerage commissions and trading fees will vary by the broker or brokers involved to execute specific contracts for the Funds' interest. The Funds expect to pay rates that are commensurate with the going market rate for commissions and brokerage. The costs to the Funds will also be subject to the trading frequency of the Funds.
6. All organizational and offering costs incurred in connection with organizing the Funds and the offering of the Shares will be borne by the Managing Owner.
7. Routine operational, administrative and other ordinary expenses include, but are not limited to, annual audit, accounting, and fund administration and other fund expenses. Such amounts are paid by the Managing Owner, and are not subject to reimbursement by the Fund.
8. In connection with orders to create and redeem Baskets, Authorized Participants will pay a transaction fee in the amount of \$200 per order. Because these transactions fees are de minimis in amount, are charged on a transaction-by-transaction basis (and not on a Basket-by-Basket basis), and are borne by the Authorized Participants, they have not been included in the Breakeven Table.
9. Interest income currently is estimated to be earned at an annual rate of 1.06%, based upon the September 30, 2017 yield on 90-day U.S. Treasury bills. Because it is currently expected that interest income will exceed the fees and costs incurred by the Fund and the Master Fund at the end of the first twelve months of an investment, the interest rate shown in the breakeven table has been limited to 0.86% per annum so that the 12-Month Breakeven would not be less than zero.
10. Because it is currently expected that interest income will exceed the fees and costs incurred by the Fund and the Master Fund at the end of the first twelve months of an investment based upon the September 30, 2017 yield on 90-day U.S. Treasury bills, the percentage of trading profit required for the Funds to break even at the end of the first twelve months of an investment, by definition, is expected to be zero.
11. The Fund and the Master Fund are subject to (i) a Management Fee of 0.75% per annum and (ii) estimated brokerage commissions and fees of 0.11% per annum. The Fund and the Master Fund are subject to fees and expenses in the aggregate amount of approximately 0.86% per annum. The Fund and Master Fund will be successful only if their annual returns from the underlying futures contracts, including annual income from 3-month U.S. Treasury bills, exceed approximately 0.86% per annum. The Master Fund (and, in turn, the Fund) is expected to earn 1.06% per annum, based upon the yield of 3-month U.S. Treasury bills as of September 30, 2017. Therefore, based upon the difference between the yield of 3-month U.S. Treasury bills and the annual fees and expenses, the Fund would be expected to earn approximately 0.20% per annum, assuming that the Fund has not experienced either gains or losses resulting from investing in the underlying Commodity Futures. Actual interest income could be higher or lower than the current yield of 3-month U.S. Treasury bills.

The Funds will be successful only if the annual return from trading, plus its annual interest income from U.S. Treasuries (if any), exceeds its fees and expenses per annum. The Master Fund is currently expected to earn interest income at an annual rate of 1.06% (based on September 30, 2017 yields on 90-day U.S. Treasury bills) which is 0.20% per annum more than the annual fees and expenses set forth above. Therefore, to break even in one year on Shares purchased, the Funds must generate, on an annual basis, trading profits of zero percent.

RISK FACTORS

Investors should consider carefully the risks described below and elsewhere in this Prospectus before making an investment decision. Before investing in the Shares, investors should also refer to the other information included in this Prospectus, and the Funds' financial statements and the related notes as reported in the Funds' Annual Report on Form 10-K for the fiscal year ended December 31, 2016, which is incorporated by reference herein.

The value of the Shares relates directly to the value of the Master Fund's Portfolio.

The Shares are designed to reflect, as closely as possible, the performance of the Index through the Master Fund's Portfolio of exchange-traded Commodity Futures on the Index Commodities. Accordingly, the value of the Shares relate directly to the value of the Portfolio, less the Funds' liabilities (including estimated accrued but unpaid expenses). The markets and prices of the Index Commodities may fluctuate widely based on many factors, including:

changing supply and demand relationships;

general economic activities and conditions;

weather and other environmental conditions;

acts of God;

agricultural, fiscal, monetary and exchange control programs and policies of governments;

national and international political and economic events and policies;

changes in rates of inflation; or

the general emotions and psychology of the marketplace, which at times can be volatile and unrelated to other more tangible factors.

In addition to the factors set forth above, each commodity has risks that are inherent in the investment in such commodity.

Metals Commodities: Price movements in Commodity Futures held by the Master Fund in metals commodities such as gold, silver, platinum and copper are affected by many specific other factors. Some of these metal specific factors include, but are not limited to:

A change in economic conditions, such as a recession, can adversely affect the price of both industrial and precious metals. An economic downturn may have a negative impact on the usage and demand of metals

which may result in a loss for the Master Fund.

A sudden shift in political conditions of the world's leading metal producers may have a negative effect on the global pricing of metals.

An increase in the hedging of precious metals may result in the price of precious metals to decline.

Changes in global supply and demand for industrial and precious metals.

The price and quantity of imports and exports of industrial and precious metals.

Technological advances in the processing and mining of industrial and precious metals.

Agricultural Commodities: Price movements in Commodity Futures held by the Master Fund in agricultural commodities, such as wheat, corn and soybeans, are affected by many factors. Some of these agricultural specific factors include, but are not limited to:

Farmer planting decisions, general economic, market and regulatory factors all influence the price of agricultural commodities.

Weather conditions, including hurricanes, tornadoes, storms and droughts, may have a material adverse effect on crops, live cattle, live hogs and lumber, which may result in significant fluctuations in prices in such commodities.

Changes in global supply and demand for agriculture products.

The price and quantity of imports and exports of agricultural commodities.

Political conditions, including embargoes and war, in or affecting agricultural production, imports and exports.

Technological advances in agricultural production.

The price and availability of alternative agricultural commodities.

Energy Commodities: Price movements in Commodity Futures held by the Master Fund in energy commodities, such as crude oil, heating oil and natural gas, are subject to risks due to frequent and often substantial fluctuations in energy commodity prices. In the past, the prices of natural gas and crude oil have been extremely volatile, and the Managing Owner expects this volatility to continue. The markets and prices for energy commodities are affected by many factors. Some of those factors include, but are not limited to:

Changes in global supply and demand for oil and natural gas.

The price and quantity of imports and exports of oil and natural gas.

Political conditions, including embargoes and war, in or affecting other oil producing activities.

The level of global oil and natural gas exploration and production.

The level of global oil and natural gas inventories, production or pricing.

Weather conditions.

Technological advances effecting energy consumption.

The price and availability of alternative fuels.

None of these factors can be controlled by the Managing Owner or Sub-Adviser. Even if current and correct information as to substantially all factors are known or thought to be known, prices still will not always react as predicted. The profitability of the Fund and the Master Fund will depend on whether the Master Fund's Portfolio increases in value over time. If the value increases, the Fund will only be profitable if such increases exceed the fees and expenses of the Funds. If these values do not increase, the Fund will not be profitable and will incur losses.

Net Asset Value may not always correspond to the market price of the Shares.

The Net Asset Value will change as fluctuations occur in the market value of the Master Fund's Portfolio. Investors should be aware that the public trading price of a Basket of Shares may be different from the Net Asset Value per Basket of Shares (i.e., Shares may trade at a premium over, or a discount to, the Net Asset Value per Basket of Shares) and similarly the public trading market price per Share may be different from the Net Asset Value per Share. Consequently, an Authorized Participant may be able to create or redeem a Basket of Shares at a discount or a premium to Net Asset Value. This price difference may be due, in large part, to the fact that supply and demand forces are at work in the secondary trading market for Shares that is closely related to, but not identical to, the same forces influencing the prices of the Index Commodities trading individually or in the aggregate at any point in time. Investors also should note that the size of the Fund in terms of total assets held may change substantially over time and from time to time as Baskets are created and redeemed.

Authorized Participants or their clients or customers may have an opportunity to realize a profit if they can purchase a Basket at a discount to the public trading price of the Shares or can redeem a Basket at a premium

over the public trading price of the Shares. The Managing Owner expects that the exploitation of such arbitrage opportunities by Authorized Participants and their clients and customers will tend to cause the public trading price to not materially differ from the Net Asset Value per Share over time.

If the Fund issues all Shares registered in this offering, it could have to cease creating new Baskets until additional shares are registered for sale.

Investors should be aware that if the Fund issues all Shares registered in this offering, it could have to cease creating new Baskets until additional shares are registered for sale. This could increase the possibility that the trading price of the Fund's Shares may not accurately reflect the Index or the Net Asset Value of the Fund. As of the date of this prospectus, 61,000,000 shares are available for sale in this offering.

Moreover, soon after new Baskets are created and sold under this Prospectus, there is a possibility that the availability of newly created Shares may (or may not) affect the trading price of the Shares already issued, and both current Shareholders and purchasers of newly created Shares could be adversely affected by falling trading prices.

The License Agreement between the Index Sponsor and the Managing Owner could terminate.

The Index Sponsor entered into a license agreement with the Managing Owner whereby the Managing Owner was granted an exclusive license with respect to the development and creation of certain investment products, including U.S. exchange traded funds. The current license granted to the Managing Owner has a term ending December 31, 2020, which will automatically renew for an additional two years and will renew for successive two year terms thereafter. The term may be terminated under certain circumstances which could cause an investment in the Shares to decline significantly in value. In addition, a different product could be created under the license agreement, which could also cause an investment in the Shares to decline in value. If the license expires and is not renewed or is terminated, or a competitive product is created, then the Managing Owner may seek Shareholder approval to the extent required to either (i) liquidate the Funds or (ii) approve a different index for the Master Fund to track.

The Index Sponsor could change the Index or experience system failures.

The Index Sponsor has the right to make adjustments to the Index without regard to the particular interests of the Funds or the Shareholders. In addition, if the computers or other facilities of the Index Sponsor or any Index calculation agent, data providers and/or relevant stock exchange malfunction for any reason, calculation and dissemination of Index values may be delayed and trading in the Shares may be suspended for a period of time. Errors in Index data, Index computations and/or the construction of the Index may occur from time to time and may not be identified and/or corrected by the Index Sponsor for a period of time or at all, which may have an adverse impact on the Fund and the Shareholders. Any of the foregoing may lead to the errors in the Index, which may lead to a different investment outcome than would have been the case had such events not occurred. The Managing Owner, through the Sub-Adviser, seeks to manage the Funds to correspond to the Index provided by the Index Sponsor. Consequently, losses or costs associated with the Index's errors or other risks described above will generally be borne by the Funds and the Shareholders and neither the Managing Owner nor its affiliates or agents make any representations or warranties regarding the foregoing.

Regulatory and exchange position limits and other rules may restrict the creation of Baskets and the operation of the Master Fund.

CFTC and commodity exchange rules impose speculative position limits on market participants, including the Master Fund, trading in certain agricultural commodities. These position limits prohibit any person from holding a position of more than a specific number of such futures contracts. The Managing Owner anticipates that these position limits as well as accountability limits currently in place on exchanges will impact the Master Fund when the Net Asset Value

approaches \$1.2 billion, at which point the Managing Owner may either prevent the creation of additional Baskets or apply to the CFTC for relief from certain position limits.

If the Master Fund applies and is unable to obtain such relief, the Fund's ability to issue new Baskets, or the Master Fund's ability to reinvest income in additional Commodity Futures, may be limited to the extent these activities would cause the Master Fund to exceed applicable position limits. Limiting the size of the Fund may result in Shares trading at a premium or discount to the Net Asset Value.

Investors in Shares in the secondary market may be subject to brokerage commissions, over which the Funds have no control.

Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers, as determined by the applicable broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares. In addition, secondary market investors will also incur the cost of the difference between the price that an investor is willing to buy shares (the bid price) and the price at which an investor is willing to sell Shares (the ask price). This difference in bid and ask prices is often referred to as the spread or bid/ask spread. The bid/ask spread varies over time for Shares based on trading volume and market liquidity of the Shares and the Commodity Futures comprising the Master Fund's Portfolio, and is generally lower if Shares have more trading volume and market liquidity and higher if Shares have little trading volume and market liquidity. Further, a relatively small investor base in the Fund, asset swings in the Funds and/or increased market volatility may cause bid/ask spreads to increase. Shares, similar to shares of other issuers listed on a stock exchange, may be sold short and are therefore subject to the risk of increased volatility associated with short selling. Due to the costs of buying or selling Shares, including bid/ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in the Shares may not be advisable for investors who anticipate regularly making small investments.

The Fund may not always be able exactly to replicate the performance of the Index.

It is possible that the Fund may not fully replicate the performance of the Index due to disruptions in the markets for the Index Commodities or due to other extraordinary circumstances, including, without limitation, the inability to create additional Baskets. In addition, the Fund is not able to replicate exactly the performance of the Index because the total return generated by the Master Fund is reduced by expenses and transaction costs, including those incurred in connection with the Master Fund's trading activities, and increased by interest income from the Master Fund's holdings of U.S. Treasuries. Tracking the Index requires rebalancing of the Master Fund's Portfolio and is dependent upon the skills of the Sub-Adviser and its trading principals, among other factors.

The Managing Owner may permit the Master Fund to control commodity positions in excess of the value of the Master Fund's assets.

Commodity pools' trading positions in Commodity Futures or other commodity interests are typically required to be secured by the deposit of margin funds that represent only a small percentage of a Commodity Future's (or other commodity interests') entire market value. This feature permits commodity pools to increase their exposure to assets by purchasing or selling Commodity Futures (or other commodity interests) with an aggregate value in excess of the commodity pool's assets. While these actions can increase the pool's profits, relatively small adverse movements in the price of the pool's Commodity Futures can cause significant or complete losses to the pool. While the Sub-Adviser is not expected to have exposure to Commodity Futures in excess of the Master Fund's collateral, the Funds are dependent upon the trading and management skills of the Sub-Adviser to maintain the proper position sizes.

The Master Fund is not actively managed and will track the Index during periods in which the Index is flat or declining as well as when the Index is rising.

The Master Fund is not actively managed by traditional methods. Therefore, if positions in any one or more of the Index Commodities are declining in value, the Master Fund will not close out such positions, except in

connection with a change in the composition or weighting of the Index. The Sub-Adviser will seek to cause the Net Asset Value to track the Index during periods in which the Index is flat or declining as well as when the Index is rising.

The Exchange may halt trading in the Shares.

The Shares are listed for trading on NYSE Arca under the market symbol GCC. Trading in Shares may be halted due to market conditions or, in light of NYSE Arca rules and procedures, for reasons that, in the view of NYSE Arca, make trading in Shares inadvisable. In addition, trading is subject to trading halts caused by extraordinary market volatility pursuant to circuit breaker rules that require trading to be halted for a specified period based on a specified market decline in the equity markets. There can be no assurance that the requirements necessary to maintain the listing of the Shares will continue to be met or will remain unchanged. The Funds will be terminated if the Shares are delisted.

There can be no guarantee that an active trading market for the Shares will be maintained.

Although the Shares are listed and traded on the NYSE Arca, there can be no guarantee that an active trading market for the Shares will be maintained. Investors that are successful in trading their Shares at a time when no active market exists will likely receive a lower price than the price received if an active market did exist.

The Funds and their service providers are subject to cyber security risks.

The Funds and their service providers may be susceptible to operational and information security risks resulting from a breach in cyber security, including cyber-attacks. A breach in cyber security, intentional or unintentional, may adversely impact the Funds in many ways, including, but not limited to, disruption of the Funds
