PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held May 10, 2018

Solicitation and Revocability of Proxies

The Board of Directors (the "Board of Directors" or the "Board") of Capital Senior Living Corporation (the "Company" or "Capital Senior") is soliciting your proxy for voting on the proposals to be presented at our annual meeting of our stockholders to be held on May 10, 2018 (the "Annual Meeting"). The Annual Meeting will be held at The Westin Galleria Dallas, 13340 Dallas Parkway, Dallas Texas 75240, on the 10th day of May, 2018 at 9:00 a.m. Central Time for the purposes set forth in the accompanying notice and described in this proxy statement. When proxies in the accompanying form are properly executed and received, the shares represented thereby will be voted at the Annual Meeting in accordance with the directions noted thereon, unless the proxy is subsequently revoked.

Any stockholder giving a proxy has the unconditional right to revoke his or her proxy at any time prior to the voting thereof either in person at the Annual Meeting by delivering a duly executed proxy bearing a later date or by giving written notice of revocation to us addressed to David R. Brickman, Senior Vice President, General Counsel and Secretary, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254. However, no such revocation will be effective unless such notice of revocation has been received by us at or prior to the Annual Meeting.

Our principal executive offices are located at, and our mailing address is, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254.

Our management does not intend to present any business at the Annual Meeting for a vote other than the matters set forth in the accompanying notice and has no knowledge that others will do so. If other matters requiring a vote of our stockholders properly come before the Annual Meeting, then it is the intention of the persons named in the accompanying form of proxy to vote the shares represented by the proxies held by them in accordance with their judgment on such matters.

This proxy statement and accompanying form of proxy are being mailed on or about April 6, 2018. The annual report to our stockholders covering our fiscal year ended December 31, 2017, which was mailed to our stockholders on or about April 6, 2018, does not form any part of the materials for solicitation of proxies.

In addition to the solicitation of proxies by mail, our officers, directors and employees may solicit proxies by telephone, telecopy, email or through personal contact. Such officers, directors and employees will not be additionally compensated by us but will be reimbursed for any out-of-pocket expenses. We have retained Georgeson Shareholder Communications Inc. to assist in the solicitation of proxies for a fee of \$8,000. This amount includes fees payable to Georgeson, but excludes salaries and expenses of our officers, directors and employees. Brokerage houses and other custodians, nominees and fiduciaries will, in connection with shares of our common stock registered in their names, be requested to forward solicitation material to the beneficial owners of such shares of our common stock.

Edgar Filing: CAPITAL SENIOR LIVING CORP - Form DEF 14A

The cost of preparing, printing, assembling and mailing the annual report, the accompanying notice, this proxy statement and the enclosed form of proxy, as well as the reasonable cost of forwarding solicitation materials to the beneficial owners of shares of our common stock, and other costs of solicitation, will be exclusively borne by us.

Some banks, brokers and other record holders have begun the practice of householding proxy statements and annual reports. Householding is the term used to describe the practice of delivering a single copy of this

Table of Contents

proxy statement and the annual report to any household at which two or more stockholders share an address. This procedure would reduce the volume of duplicative information and our printing and mailing costs. We will deliver promptly, upon written or oral request, a separate copy of this proxy statement and the annual report to any stockholder at a shared address to which a single copy of such documents was delivered. Any stockholder who would like to receive a separate copy of the proxy statement and annual report, now or in the future, should submit this request to David R. Brickman, Senior Vice President, General Counsel and Secretary, at our principal executive offices, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254 or by calling (972) 770-5600. Beneficial owners sharing an address who receive multiple copies of proxy materials and annual reports and who would like to receive a single copy of such materials in the future will need to contact their broker, bank or other nominee to request that only a single copy of each document be mailed to all stockholders at the shared address in the future.

Date for Receipt of Stockholder Proposals

Stockholder proposals to be included in the proxy statement for the 2019 annual meeting of our stockholders must be received by us at our principal executive offices on or before December 7, 2018 for inclusion in the proxy statement relating to that meeting.

Our Amended and Restated Certificate of Incorporation, as amended (the "Certificate of Incorporation"), establishes an advance notice procedure with regard to certain matters, including stockholder proposals and nominations of individuals for election to the Board, to be proposed at an annual meeting of our stockholders. Notice of a stockholder proposal or a director nomination to be brought at an annual meeting of our stockholders must be delivered to, or mailed and received at, our principal executive offices not less than 60 but not more than 90 days before the scheduled date of the meeting, regardless of any postponement, deferral or adjournment of that meeting to a later date; provided, however, that if less than 70 days' notice or prior public disclosure of the date of the meeting is given or made to stockholders, the notice must be delivered or received no later than the close of business on the tenth day following the earlier of (1) the day on which such notice of the date of meeting was mailed or (2) the day on which such public disclosure was made. The notice of a stockholder proposal or a director nomination must also contain specified information and conform to certain requirements set forth in our Certificate of Incorporation. The chairman of the meeting may disregard the introduction of any such proposal or nomination if it is not made in compliance with the foregoing procedures or the applicable provisions of our Certificate of Incorporation.

Quorum and Voting

The record date for the determination of our stockholders entitled to notice of and to vote at the Annual Meeting was the close of business on March 26, 2018. At such time, there were 30,725,313 shares of our common stock issued and outstanding.

Each holder of our common stock is entitled to one vote per share on all matters to be acted upon at the Annual Meeting, and neither our Certificate of Incorporation nor our Second Amended and Restated Bylaws (the "Bylaws") allows for cumulative voting rights. Each proposal is tabulated separately. The holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, is necessary to constitute a quorum at the Annual Meeting. If a quorum is not present or represented at the Annual Meeting, a majority of the stockholders entitled to vote at the Annual Meeting, present in person or represented by proxy, may adjourn the Annual Meeting, from time to time, without notice or other announcement at the Annual Meeting until a quorum is present or represented.

Pursuant to our Bylaws, assuming the presence of a quorum, the affirmative vote of the holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, at the Annual

Meeting is required to (i) ratify the appointment of the independent auditors; and (ii) approve, on an advisory basis, the Company's executive compensation. Abstentions and broker non-votes

Table of Contents

(as described below) will not be counted as votes cast FOR such proposals, but may be treated as votes AGAINST such proposals. With respect to an uncontested election of directors, assuming the presence of a quorum, each director nominee will be elected to the Board if the number of shares voted FOR the election of such director nominee exceeds the number of shares voted WITHHOLD for such director nominee (with abstentions and broker non-votes not counted as votes cast either FOR or WITHHOLD for such director nominee's election).

The Board of Directors unanimously recommends that you vote (1) FOR the election of each director nominee named in this proxy statement, (2) FOR the ratification of the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2018, and (3) FOR the approval, on an advisory basis, of the Company's executive compensation. The Board of Directors also recommends that you vote FOR the ability of the proxy holders to vote the proxy in their discretion with respect to any other matters that properly come before the Annual Meeting.

If you hold shares registered directly in your name and you sign and return a proxy card without giving specific voting instructions, the persons named as proxy holders will vote your proxy (1) in favor of the election of each director nominee named in this proxy statement, (2) in favor of the ratification of the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2018, (3) in favor of the approval, on an advisory basis, of the Company's executive compensation, and (4) as the proxy holders may determine in their discretion with respect to any other matters that properly come before the Annual Meeting.

If you hold shares in street name and do not submit specific voting instructions to your broker, bank or other nominee, the organization that holds your shares may generally vote your shares with respect to discretionary items, but not with respect to non-discretionary items. Discretionary items are proposals considered to be routine under the rules of the New York Stock Exchange (NYSE), and in the absence of voting instructions, your broker, bank or other nominee may vote the shares it holds in street name on such items. On non-discretionary items for which you do not submit specific voting instructions to your broker, bank, or other nominee, the shares will be treated as broker non-votes. Broker non-votes will be considered present at the Annual Meeting for purposes of determining a quorum at the Annual Meeting. The proposal to ratify the appointment of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2018 (Proposal 2) is considered to be routine, and therefore, may be voted upon by your broker, bank or other nominee if you do not provide instructions to such broker, bank or other nominee. However, pursuant to the NYSE's rules, brokers, banks or other nominees will not have discretion to vote your shares on the election of directors (Proposal 1) and the advisory vote on executive compensation (Proposal 3), as such proposals are considered to be non-routine items. We encourage you to provide voting instructions to your broker, bank or other nominee if you hold your shares in street name so that your voice is heard on such matters.

Requests for Written Copies of Annual Report

We will provide, without charge, a copy of our annual report upon the written request of any registered or beneficial owner of our common stock entitled to vote at the Annual Meeting. Requests should be made by mailing David R. Brickman, Senior Vice President, General Counsel and Secretary, at our principal executive offices, 14160 Dallas Parkway, Suite 300, Dallas, Texas 75254 or by calling (972) 770-5600. BOARD OF DIRECTORS AND COMMITTEES

General

Our Board of Directors currently consists of ten directors. The Board has determined that Ed A. Grier, Philip A. Brooks, Kimberly S. Lody, Dr. E. Rodney Hornbake, Jill M. Krueger, Ronald A. Malone, Michael W. Reid, Paul J. Isaac and Ross B. Levin, each an existing director, are independent within the meaning of the corporate governance rules of the NYSE and no such individual has any relationship with us, except as a director, stockholder and/or director nominee, as applicable. In addition, we have adopted a Director Independence Policy, as described in greater detail below under the heading Director Independence Policy, which establishes guidelines for the Board to follow in making the determination as to which of our directors is independent. Our Director Independence Policy is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is available in print to any stockholder who requests it. The Board has determined that Messrs. Grier, Brooks, Hornbake, Malone, Reid, Isaac and Levin and Ms. Lody and Ms. Krueger, each an existing director, are independent in accordance with our Director Independence Policy.

During 2017, the Board held 10 board meetings, including regularly scheduled and special meetings, and took action by written consent on one occasion. During 2017, no incumbent director attended fewer than 75% of the aggregate of (i) the total number of meetings of the Board and (ii) the total number of meetings held by all committees of the Board on which such director served. Under our Corporate Governance Guidelines, each of our directors is expected to attend all meetings of the Board, the annual stockholders meeting and meetings of the committees of the Board on which they serve. Each of our incumbent directors attended our 2017 annual meeting of stockholders. Our independent directors meet in executive sessions without any management directors, and Mr. Reid, the independent Chairman of the Board, presided over these meetings during 2017.

Advance Resignation Policy

Under our Corporate Governance Guidelines, for uncontested director elections, as a condition to nomination by the Board of an incumbent director, such nominee must submit an irrevocable resignation to the Board. Any such nominee who receives a greater number of votes withholding authority for or against such nominee's election than votes for such nominee's election (with abstentions and broker non-votes not counted as votes cast either for or withhold authority for or against such nominee's election), and who remains on the Board as a holdover director, will have his or her irrevocable resignation considered by the Nominating and Corporate Governance Committee. Following the certification of the voting results in an uncontested election of directors, the Nominating and Corporate Governance Committee will make a recommendation to the Board as to the treatment of any such nominee that did not receive the requisite majority vote, including whether to accept or reject any such tendered resignation. Thereafter, the Board will determine whether to accept the Nominating and Corporate Governance Committee's recommendation. If such nominee's resignation is accepted by the Board, then such director will immediately cease to be a member of the Board upon the date of such acceptance.

Director Independence Policy

The Board undertakes an annual review of the independence of all non-management directors. In advance of the meeting at which this review occurs, each non-management director is asked to provide the Board with full information regarding the director's business and other relationships with us in order to enable the Board to evaluate the director's independence. Directors have an affirmative obligation to inform the Board of any material changes in their circumstances or relationships that may impact their designation by the Board as independent. This obligation includes all business relationships between, on the one hand, directors or members of their immediate family, and, on

the other hand, us, whether or not such business relationships are described above.

Table of Contents

No director qualifies as independent unless the Board affirmatively determines that the director has no material relationship with us. The following guidelines are considered in making this determination:

a director who is, or has been within the last three years, employed by us, or whose immediate family member is, or has been within the last three years, one of our executive officers, is not independent ;

a director who received, or whose immediate family member received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from us, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), is not independent ;

a director (a) who is or whose immediate family member is a current partner of a firm that is our internal or external auditor, (b) who is a current employee of such a firm, (c) whose immediately family member is a current employee of such a firm and participates in the firm's audit, assurance or tax compliance (but not tax planning) practice, or (d) who is, or whose immediate family member was within the last three years (but is no longer), a partner or employee of such a firm and personally worked on our audit within that time, is not independent ;

a director who is, or whose immediate family member is, or has been within the last three years, employed as an executive officer of another company where any of our present executive officers at the same time serves or served on that other company's compensation committee, is not independent ;

a director who is a current employee, or whose immediate family member is a current executive officer, of a company that has made payments to, or received payments from, us for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million or 2% of such other company's consolidated gross revenues, is not independent ;

a director who serves as an executive officer, or whose immediate family member serves as an executive officer, of a tax exempt organization that, within the preceding three years, received contributions from us, in any single fiscal year, of an amount equal to the greater of \$1 million or 2% of such organization's consolidated gross revenue, is not independent ; and

a director who has a beneficial ownership interest of 10% or more in a company which has received remuneration from us in any single fiscal year in an amount equal to the greater of \$1 million or 2% of such company's consolidated gross revenue is not independent until three years after falling below such threshold. In addition, members of the Compensation Committee must not have any relationship or affiliation with us that would materially affect the director's ability to be independent from management as a Compensation Committee member and must otherwise be independent under our Director Independence Policy. Members of the Audit Committee may not accept any consulting, advisory or other compensatory fee from us or any of our subsidiaries or affiliates other than directors' compensation.

The terms *us*, *we* and *our* refer to Capital Senior Living Corporation and any direct or indirect subsidiary of Capital Senior Living Corporation, which is part of the consolidated group. An *immediate family member* includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law and anyone (other than domestic employees) who shares such person's home.

Committees

Committees of the Board include the Audit Committee, the Nominating and Corporate Governance Committee, and the Compensation Committee.

Audit Committee

The Audit Committee consists of Messrs. Brooks, Grier, Reid and Levin and Ms. Krueger, each of whom is independent as defined by the listing standards of the NYSE in effect as of the date of this proxy statement.

The Board has determined that Ms. Krueger qualifies as an audit committee financial expert within the meaning of SEC regulations. The Board has adopted an amended and restated Audit Committee Charter, which is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is also available in print to any stockholder who requests a copy. Pursuant to its charter, the Audit Committee:

oversees our financial reporting process and internal control system;

appoints, replaces, provides for compensation of and oversees our independent accountants;

provides an open avenue of communication among our independent accountants, senior management and the Board; and

conducts an annual review of the adequacy of its charter and recommends any proposed changes to the Board for its approval.

During 2017, the Audit Committee held seven meetings, including regularly scheduled and special meetings.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee consists of Messrs. Malone, Brooks and Hornbake and Ms. Lody, each of whom is independent as defined by the listing standards of the NYSE in effect as of the date of this proxy statement. The Board has adopted an amended and restated Nominating and Corporate Governance Committee Charter, which is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is also available in print to any stockholder who requests a copy. Pursuant to its charter, the Nominating and Corporate Governance Committee:

identifies individuals qualified to become directors;

recommends director nominees to the Board;

develops, and recommends for Board's approval, our Corporate Governance Guidelines;

reviews with management and assists and advises the Board with respect to resident care and services;

oversees the evaluation of the Board and management; and

conducts an annual review of the adequacy of its charter and recommends any proposed changes to the Board for its approval.

During 2017, the Nominating and Corporate Governance Committee held five meetings, including regularly scheduled and special meetings.

Compensation Committee

The Compensation Committee consists of Messrs. Malone, Isaac and Reid and Ms. Lody and Ms. Krueger, each of whom is independent as defined by the listing standards of the New York Stock Exchange in effect as of the date of this proxy statement. The Board has adopted an amended and restated Compensation Committee Charter, which is available on our website at <http://www.capitalsenior.com> in the Investor Relations section and is also available in print to any stockholder who requests a copy. Pursuant to its charter, the Compensation Committee's responsibilities include, among other things, the responsibility to:

review and approve, on an annual basis, the corporate goals and objectives, and any amendments to those goals and objectives, relevant to the compensation of our Chief Executive Officer and our other executive officers, evaluate each such individual's performance in light of such objectives and, either as a committee or together with other independent directors (as directed by the Board), determine and approve the compensation for each such individual based on such evaluation (including base salary, bonus, incentive and equity compensation);

perform any other activities consistent with our Certificate of Incorporation, Bylaws and governing law as the Compensation Committee or the Board deems appropriate.

During 2017, the Compensation Committee held nine meetings, including regularly scheduled and special meetings.

The Compensation Committee's processes for fulfilling its responsibilities and duties with respect to executive compensation and the role of our executive officers and management in the compensation process are each described under "Compensation Discussion and Analysis" "Process for Determining Executive Compensation" beginning on page 30 of this proxy statement.

In fulfilling its responsibilities and duties with respect to the compensation of our directors, the Compensation Committee periodically reviews the compensation paid to the non-employee directors of the companies in our peer group, and may recommend to the Board adjustments to our director compensation levels and practices so as to remain competitive with the companies in our peer group.

Pursuant to its charter, the Compensation Committee may retain such compensation consultants, outside counsel and other advisors as it may deem appropriate in its sole discretion and it has the sole authority to approve related fees and other retention terms. From time to time, the Compensation Committee has engaged third parties to compile statistical information with respect to the executive compensation practices of other comparable public companies and has retained independent compensation consultants to review the Company's compensation arrangements for certain of its named executive officers and its independent directors. As described in greater detail in "Compensation Discussion and Analysis" "Process for Determining Executive Compensation" "Role of the Compensation Consultant," the Compensation Committee engaged Axiom Talent and Rewards Consulting in the first half of 2017 and Meridian Compensation Partners, LLC (the "Compensation Consultant" or "Meridian") in the middle of 2017, to review the Company's 2017 and 2018 compensation arrangements for certain of its named executive officers and its independent directors, respectively, including an analysis of both the competitive market and the design of the compensation arrangements. As part of its reports to the Compensation Committee, the Compensation Consultant evaluated the compensation arrangements of both our self-selected peer group companies and a broader group of industry peer companies selected by the Compensation Consultant, and provided competitive compensation data and analysis relating to the compensation of our Chief Executive Officer, Executive Vice President and Chief Operating Officer, Senior Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary and our independent directors. The fees payable by the Company to Axiom and Meridian for their services as of December 31, 2017 were

approximately \$54,987 and \$90,958, respectively. The Compensation Committee evaluated the independence of each consultant and concluded that each consultant was independent and presented no conflict of interest.

Board of Director s Leadership Structure

In 2010, our Board separated the roles of Chairman of the Board and Chief Executive Officer by electing a non-executive, independent director, as Chairman of the Board. Since 2016, Mr. Reid has served as

Table of Contents

non-executive Chairman of the Board. The separation of the roles was implemented to allow Mr. Cohen, our Chief Executive Officer, to continue to focus his efforts on the successful management of the Company while allowing our independent Chairman to focus his efforts on the continued development of a high-performing Board, including (1) ensuring the Board remains focused on the Company's long-term strategic plans, (2) working with Company management to ensure the Board continues to receive timely and adequate information, (3) coordinating activities of the committees of the Board, and (4) ensuring effective stakeholder communications. The Board believes, due to the continued leadership and experience provided by these two individuals, that having separate positions is the appropriate leadership structure for the Company at this time and demonstrates our commitment to good corporate governance.

Board of Director's Role in Risk Oversight

Our Company, like others, faces a variety of enterprise risks, including credit risk, liquidity risk, and operational risk. In fulfilling its risk oversight role, the Board focuses on the adequacy of the Company's risk management process and overall risk management system. The Board believes an effective risk management system will (1) adequately identify the material risks that the Company faces in a timely manner, (2) implement appropriate risk management strategies that are responsive to the Company's risk profile and specific material risk exposures, (3) integrate consideration of risk and risk management into business decision-making throughout the Company, and (4) include policies and procedures that adequately transmit necessary information with respect to material risks to senior executives and, as appropriate, to the Board or relevant committee.

The Audit Committee has been designated to take the lead in overseeing risk management at the Board level. Accordingly, the Audit Committee schedules time for periodic reviews of risk management, in addition to its other duties. In this role, the Audit Committee receives information from management and other advisors, and strives to generate serious and thoughtful attention to the Company's risk management process and system, the nature of the material risks the Company faces, and the adequacy of the Company's policies and procedures designed to respond to and mitigate these risks.

In addition, the Nominating and Corporate Governance Committee is responsible under its charter for reviewing with management and assisting and advising the Board with respect to resident care and services. This risk management and risk assessment includes management compliance with regulatory requirements related to resident care and services and other related matters, including meeting the Company's expectations for providing quality care and services to its residents.

Although the Board's primary risk oversight has been assigned to the Audit Committee, the full Board also periodically receives information about the Company's risk management system and the most significant risks that the Company faces. This is principally accomplished through the Audit Committee's discussions with the full Board and summary versions of the briefings provided by management and advisors to the Audit Committee.

In addition to the formal compliance program, the Board and the Audit Committee encourage management to promote a corporate culture that understands risk management and incorporates it into the overall corporate strategy and day-to-day business operations. The Company's risk management structure also includes an ongoing effort to assess and analyze the most likely areas of future risk for the Company. As a result, the Board and Audit Committee periodically ask the Company's executives to discuss the most likely sources of material future risks and how the Company is addressing any significant potential vulnerability.

Director Nominations

The Nominating and Corporate Governance Committee is responsible under its charter for identifying and recommending qualified candidates for election to the Board. In addition, stockholders who would like to recommend a candidate for election to the Board may submit the recommendation to the chairman of the Nominating and Corporate Governance Committee, in care of David R. Brickman, our Senior Vice President, General Counsel and Secretary. Any recommendation must include name, contact information, background,

Table of Contents

experience and other pertinent information on the proposed candidate and must be received in writing by November 15, 2018 for consideration by the Nominating and Corporate Governance Committee for the 2019 annual meeting of our stockholders.

Although the Nominating and Corporate Governance Committee is willing to consider candidates recommended by our stockholders, it has not adopted a formal policy with regard to the consideration of any director candidates recommended by our stockholders. The Nominating and Corporate Governance Committee believes that a formal policy is not necessary or appropriate because of the small size of the Board and because the current Board already has a diversity of business background and industry experience.

The Nominating and Corporate Governance Committee does not have specific minimum qualifications that must be met by a candidate for election to the Board in order to be considered for nomination by the Nominating and Corporate Governance Committee. In identifying and evaluating nominees for director, the Nominating and Corporate Governance Committee considers each candidate's qualities, experience, background and skills, as well as any other factors that the candidate may be able to bring to the Board. The process is the same whether the candidate is recommended by a stockholder, another director, management or otherwise. Although the Nominating and Corporate Governance Committee does not have a formal diversity policy in place for the director nomination process, an important factor in the Nominating and Corporate Governance Committee's consideration and assessment of a candidate is the diversity of the candidate's viewpoints, professional experience, education and skill set. The Nominating and Corporate Governance Committee does not pay a fee to any third party for the identification of candidates, but it has paid fees in the past to third parties for background checks on candidates.

With respect to this year's nominees for director, Messrs. Reid, Isaac and Levin and Ms. Krueger currently serve as directors of the Company.

Among other things, the standstill restricts Arbiter from: (i) engaging in certain proxy contest activities, (ii) entering into voting agreements, (iii) seeking to effect any merger, business combination, restructuring or other extraordinary transaction, (iv) instituting any litigation against the Company, (v) taking actions in support of: (a) changing or influencing the Board or management, or (b) any material change in the Company's business, corporate strategy or corporate structure or (vi) acquiring beneficial ownership of more than 15.25% of the Company's common stock, in each case, until the Expiration Date (as defined in the Support Agreement).

The foregoing description of the Support Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Agreement, a copy of which the Company filed with the SEC as Exhibit 99.1 to a Current Report on Form 8-K on March 8, 2017.

Overview and Executive Summary

2017 Business Performance Highlights & Strategy

2017 Highlights

Business Overview & Execution on Long-Term Strategy:

Capital Senior is one of the largest senior housing owner-operators in North America. We operate 129 senior housing communities serving more than 16,500 residents. We have a clear and differentiated real estate strategy focused on driving industry-leading growth and superior shareholder value. We benefit from our substantially all private-pay business model, which insulates us from possible pressure by government payers on pricing, and positions us to benefit from an improving economy, which could increase the available supply of prospective residents for our communities. The senior housing industry benefits from favorable demographics, need-driven demand, a solid housing market, limited competitive new supply in our geographic markets and a growing economy. The industry is also highly fragmented, providing us with an opportunity to consolidate, a strategy we have employed in the past and anticipate employing in the future, and allowing us to benefit from competitive advantages that we enjoy as a larger-company operator. Our strategy is focused on creating long-term sustainable growth by focusing on core organic growth, accretive acquisitions, conversions and increasing real estate ownership.

We experienced growth in revenue and Adjusted EBITDAR in 2017 despite significant attrition in the first quarter of the year, primarily related to a severe and prolonged flu season. During the first quarter, we began taking immediate action to overcome challenges, drive sustainable profitable growth and enhance shareholder value as we execute on our comprehensive strategy to deliver higher revenues, improve cash flow and maximize the value of our owned real estate. A few of the actions we initiated included the following:

We implemented immediate occupancy growth plans and budget recovery goals for each community;

We eliminated rent concessions and simplified pricing;

Table of Contents

We restructured incentive bonus programs for regional managers, sales directors and executive directors to align performance with corporate financial goals and enhance accountability;

We restructured our sales and marketing organization to instill greater accountability and drive operational excellence. We also introduced formal sales training to develop stronger skills and increase closing ratios. These initiatives have focused and empowered our sales organization by providing metrics-driven, objective growth targets to build and sustain occupancy;

We strengthened our leadership team by hiring Brett Lee as Chief Operating Officer. Brett has a proven record of operational success within the healthcare services sector and brings valuable experience leading operations within complex care delivery environments;

We are building a more centralized, robust operating platform to improve all facets of community operations to better serve residents;

We are leveraging our operational scale to further optimize supply chain and large expense items;

We restructured our health benefit programs to reduce and drive more consistent expenses;

We began implementing a new integrated system for Sales/CRM, Care Assessment, Census/Accounts Receivable, Electronic Medical Records and Billing into one platform to give us consistent data and greatly enhance our reporting capabilities while creating efficiencies.

We experienced significant improvement in our operating results in the second half of 2017 as a result of these actions.

Our fourth quarter 2017 same-community NOI growth led the industry by greater than 200 basis points. We also achieved year-over-year growth in Adjusted EBITDAR and CFFO in the fourth quarter of 2017. We expect continued growth in 2018 and beyond as we execute on these and other initiatives.

In addition to increasing rents, maximizing level of care fees and proactively managing our expenses to grow our core operations, we are focused on meeting the current and future needs of our senior residents and improving our key financial metrics by converting independent living units to assisted living and memory care units across our portfolio. From 2015 through 2017, we completed conversions of more than 1,300 units, which are producing growth in occupancy, revenue and net operating income. For example, at our communities where the first 400 unit conversions were completed by the middle of 2015, revenue increased 26.0% in the fourth quarter of 2017 as compared to the quarter prior to conversion, the second quarter of 2014, while net operating income increased 23.0% during the same time period.

(1) *Represents the 400 units with conversions completed as of 2Q15.*

From 2015 through 2017, we spent \$144.8 million for these conversions as well as important renovations, refurbishments and the repositioning of communities across approximately 80% of our portfolio. Because this work resulted in these approximately 1,300 units being taken out of service while work was being completed, the investments did not generate significant increases in our key financial metrics during this time. As of January 1, 2018, we have 628 available units in lease up that are expected to contribute approximately \$2.5 million in Adjusted EBITDAR and \$1.5 million in Adjusted CFFO in 2018 and, when stabilized, are expected to contribute approximately \$5.0 million to \$6.0 million to Adjusted EBITDAR and \$3.5 million to \$4.5 million to Adjusted CFFO.

From 2010 through 2017, we acquired 64 communities for a combined purchase price of \$962 million. These acquisitions have generated an initial return on equity invested of approximately 16%, and meaningful increases in the Company's revenues, earnings and real estate value.

The table below shows our cash-on-cash returns in the first year of our acquisitions during each of the last seven years.

We believe that owning our real estate provides significant strategic and financial benefits, including the following:

Maximizes cash flow and real estate value by providing valuation support;

Creates a stronger margin profile;

Provides for sustainable cash flows, including stable interest expense related to attractive long-term fixed rate, non-recourse mortgage loans versus escalating lease expense at our leased communities;

Optimizes asset management flexibility, including the ability to adapt our units to market demands; and

Enhances financial flexibility, including the ability to increase loans based on appreciated value to re-deploy the capital into growth initiatives.

Due to the acquisitions noted above, our real estate ownership as a percentage of our total portfolio has increased from 32.5% in 2010 to 64.3% at December 31, 2017, as illustrated in the table below:

From 2015 through 2017, our real estate ownership strategy yielded \$73.4 million in proceeds from supplemental loans, which has been re-deployed to the Company's growth initiatives. The communities on which we executed supplemental loans increased in value by an aggregate of \$143 million since their original loans were executed approximately three years earlier, a 43% increase in property value, as shown below.

The successful execution of our strategy over the past several years has resulted in significant growth amidst a challenging time in the Healthcare Facility sector. The table that follows highlights our low-double digits to mid-teens compound annual growth rates in revenue, Adjusted EBITDAR and Adjusted CFFO from 2011 through 2017:

Strategy and Execution Have Delivered Strong Growth

Stock prices of companies in our industry remain negatively impacted by general concerns relating to (i) sensitivity to possible escalators in lease obligations we and other industry companies carry, (ii) sensitivity to possible rising interest rates as a result of the debt loads we and other industry companies carry, (iii) new supply in certain markets, which are limited in our geographically concentrated markets, (iv) increasing labor costs to providers of healthcare services, which our focus on senior housing mitigates, and (v) post-acquisition integration challenges related to large-company consolidation. Despite the challenges the Healthcare Facility sector has experienced over the past few years, our 5-year total shareholder return (TSR) has exceeded that of our peers (Brookdale Senior Living Inc. and Five Star Senior Living Inc.).

Our Compensation Philosophy & Principles

Our ability to deliver on our compensation philosophy and founding principles begins with how well our executives individually perform

We must offer competitive compensation to attract and retain experienced, talented and motivated employees

Executive-level pay should be focused on performance-based pay and closely aligned with our stockholder interest

The Compensation Committee plays an important role in establishing increasingly challenging corporate performance criteria to align executive compensation with performance of the Company relative to its strategy

Prudent risk-taking is necessary by executives

We must align our goals, efforts and results through comprehensive executive compensation design, process and overall package

We must continually engage with stockholders in the overall process

We believe these principles collectively link compensation to overall Company performance and directly link compensation to the objectives set forth in our 2017 business plan, which was developed with our Board of Directors. These principles help ensure that the interests of our named executive officers are closely aligned with the interests of our stockholders.

For 2017, a significant portion of the total compensation opportunity available to our named executive officers who were eligible to participate in our Incentive Compensation Plan was linked to the

achievement of specified corporate and individual goals. Adjusted CFFO per share and adjusted EBITDAR were the key metrics for corporate goals under our Incentive Compensation Plan for 2017. We believe these metrics provide for a balanced approach to measuring annual Company performance. See Appendix B for a discussion of such metrics.

We further link compensation and performance through grants of performance-based equity awards to our named executive officers, whose vesting is subject to our achievement of certain performance targets over a three-year period, which is primarily designed to encourage our named executive officers to focus on our long-term performance.

Prior Say-on-Pay Vote and Engagement with Stockholders

2017 Say on Pay Vote

We provided our stockholders with a say on pay advisory vote in 2017 on our executive compensation pursuant Section 14A of the Securities Exchange Act of 1934, as amended. At our 2017 Annual Meeting of Stockholders, our stockholders expressed overwhelming support for the compensation of our named executive officers, with approximately 97.35% of the votes cast for the approval of the say on pay advisory vote on executive compensation (assuming abstentions and broker non-votes do not constitute votes cast). In evaluating our executive compensation programs, the Compensation Committee considered the results of the 2017 advisory vote along with the many other factors discussed in this Compensation Discussion and Analysis, including the Compensation Committee's assessment of the interaction of our compensation programs with our corporate business objectives, input received from our senior management, the analysis, reports and recommendations of the Compensation Consultant, and the Compensation Committee's own judgment. While each of these factors impacted the Compensation Committee's decisions regarding our named executive officers' compensation, due to the significant changes that were made to the pay programs over the past two years in response to prior say on pay vote outcomes, the Compensation Committee did not make any changes to our executive compensation program and policies as a result of the 2017 say on pay advisory vote, but continues to assess and seek to improve the Company's overall compensation program and engage with stockholders.

Summary of Recent Compensation Program Changes Due to

Stockholder Feedback & Performance

Over the last two years, the Compensation Committee implemented many significant changes as a direct result of the advisory votes on executive compensation. The following chart summarizes some of the comments that we received from one or more stockholders following the 2016 and 2017 advisory vote on executive compensation, and the changes that the Compensation Committee made last year to both payouts in respect of 2016 performance and to the overall compensation program for 2017:

What We heard:

Generally pleased with the pay mix emphasizing pay-at-risk and long-term pay, but **overall magnitude of pay is not aligned with stockholder experience** when the sector and TSR is in a downturn like 2016

Would like to see a **focus of peers beyond Healthcare into Real Estate** as well to align with the long-term strategy

Would like to see implementation of **3-Year LTI Goals** and **double trigger on equity**

Would like to see a **TSR element** within the LTI programs to help the payouts respond appropriately to the current stockholder experience

How We Responded:

1. **Negative adjustments** of -30% were applied to 2016 Annual Incentive payouts for CEO and CFO
2. **Decreased Target LTI Awards** for 2017 (see detail below)
3. **Changed the 2017 Company Peer Group** to include additional peers in Real Estate
4. Implemented **3-Year Cumulative Long-term Goals** in LTI Program
5. Implemented a **Double Trigger for Equity Award Acceleration**
6. Changed the LTI Program Design to Include a **Relative TSR Modifier**
7. **Changed the LTIP mix** to 60% performance-based restricted shares and 40% time-based restricted shares (from 50% /50%) to further emphasize performance-based pay

8. Implemented Director and Executive Share **Ownership Guidelines**

Certain of these changes were implemented in the following ways:

Three-Year Cumulative Long-Term LTI Program: Rather than setting three one-year goals for a three-year period, we now set three-year targets for performance share awards.

Double Trigger for Equity: We now have a double trigger for equity award vesting in the event of a change in control, meaning that with respect to awards that are assumed, substituted for or replaced in connection with a change in control, there would be no acceleration of vesting in the absence of a subsequent termination of employment.

Relative TSR Modifier: Beginning with our 2017 LTI awards, the performance share award program includes an adjustment factor based on our relative TSR as compared to a Healthcare Services Group (see Appendix A to this proxy statement).

LTIP Mix: We changed the overall mix of long-term incentives to 60% performance-based restricted stock and 40% time-based restricted stock (from a historical 50/50 mix).

Ownership Guidelines: Beginning in 2017, we implemented new stock ownership guidelines, as follows:

Outside Directors: 3x Annual Retainer;

CEO: 5x Base Salary;

CFO & COO: 3x Base Salary; and

General Counsel: 2x Base Salary.

Engagement with Stockholders:

The Company has been actively engaging in dialogue with a significant number of large stockholders to continue to reinforce our understanding of our stockholders' views regarding the Company's compensation programs.

The Company is committed to maintaining regular dialogue with its investors intended to:

Solicit their feedback on the executive compensation and governance-related matters

Evaluate the Company's compensation programs

Report stockholders' views directly to the Compensation Committee and the Board

Following the 2017 say on pay advisory vote, the Company reached out to its largest 25 institutional shareholders, representing nearly 85% of the Company's common shares outstanding. The feedback that we received about our executive compensation programs from those shareholders with whom we spoke was generally positive.

Shareholders expressed no concerns over the current program, and viewed the changes made to the 2017 pay program favorably, particularly with regards to increasing the portion of performance-based LTI and using a full 3-year EBITDAR goal for the performance-based LTI.

Some shareholders expressed a desire to include a balance sheet metric in the annual incentive plan, which the Compensation Committee has adopted for 2018, see [Changes to be Implemented for the 2018 Annual Incentive Plan](#).

The Company will continue its shareholder outreach efforts in future years and the Compensation Committee will continue to discuss and take the feedback into consideration in future executive compensation decisions.

Alignment of Executive Compensation

Our compensation programs are designed to attract and retain high-quality talent, reward executives for performance that successfully executes the Company's long-term strategy and align compensation with the long-term interests of our stockholders.

As a result, our executive compensation programs closely link pay to performance. Similar to our peers, approximately half of our compensation is delivered in long-term incentives; we will continue to focus executive pay on long-term, performance-based compensation.

2017 Benchmarking Target Direct Pay Mix Versus Peers

The pie charts reflect CEO, COO, CFO, and General Counsel pay mix for Capital Senior Living and Peers as disclosed in the 2017 proxy filings.

Table of Contents

Beginning in 2017, this focus on performance has been further emphasized through the increased weighting of performance-based restricted shares and the implementation of our Relative TSR modifier as noted above.

Alignment of CEO Pay & Performance

Using the process described beginning on page 26, adjustments have been made by the Compensation Committee (the Committee) where appropriate to maintain proper alignment between CEO compensation and corporate performance.

The chart below illustrates the alignment of CEO realized pay and performance. The equity grants included in the Summary Compensation Table (SCT) reflect their grant date fair value. The SCT is not updated for subsequent changes in share price, up or down, and therefore does not reflect compensation actually realized by the CEO. As previously discussed, the Long-Term Care industry prices began a precipitous decline in 2015, which continued into 2017. This decline has negatively impacted our shareholder returns, and the CEO s realized pay.

Target compensation above is the sum of base salary, target annual incentives, grant date value of long-term incentives and all other compensation.

Summary compensation table pay is as reported in the Summary Compensation Table below.

Realized pay includes base salary, non-equity incentive plan payouts, value of stock vested in 2017 and all other compensation.

Process for Determining Executive Compensation

Role of the Compensation Committee

The Compensation Committee is responsible for reviewing and approving the base salary increases (other than annual base salary increases contemplated by existing employment agreements) and bonus levels of our executive officers, including our named executive officers, evaluating the performance of such executives and reviewing any related matters. Equity and other forms of compensation for our executive officers, including our named executive officers, are also considered by the Compensation Committee. In applying the above-described objectives for our executive compensation program, the Compensation Committee primarily relies upon the following factors:

Peer Group Data. The Compensation Committee has consistently sought to structure our executive compensation program to provide amounts and forms of compensation to our named executive officers that are generally commensurate with those paid to executive officers with comparable duties and responsibilities at companies that provide senior living services and companies that have significant real estate ownership of senior living communities that the Compensation Committee, in consultation with our independent compensation consultant and senior management, periodically determines to be the most directly comparable to the company. See the discussion below regarding our peer group of companies for 2017 and 2018.

Third Party Industry Surveys and Compensation Consultants. As part of its ongoing efforts to provide independent oversight and review of our compensation programs, the Compensation Committee periodically reviews information compiled by third parties with respect to the executive compensation practices of other companies in our industry. The Compensation Committee reviews such information for purposes of obtaining a general understanding of current compensation practices of companies in our peer group and industry. The information reviewed is part of a larger competitive analysis and does not mandate a particular decision regarding the compensation opportunities of our named executive officers.

The Compensation Committee does not target the compensation of our named executive officers to fall within a specific percentile range of the companies in our peer or industry, but rather considers several factors, such as the experience levels of individuals and market factors, before exercising its discretion in determining the total compensation mix and opportunities available to our named executive officers. Based upon the results of such review, the Compensation Committee may determine to modify the amounts and/or the forms of compensation that are available to our named executive officers, in light of the objectives we have identified for our executive compensation program.

The Compensation Committee is also authorized to engage independent compensation consultants from time to time to review our executive compensation arrangements. As described in greater detail below under **Role of Compensation Consultant**, the Compensation Committee engaged Meridian Compensation Partners, LLC as its independent compensation consultant to review our 2017 compensation arrangements for our Chief Executive Officer, Executive Vice President and Chief Operating Officer, Senior Vice President and Chief Financial Officer, and Senior Vice President, General Counsel and Secretary.

Other Factors. Other key factors beyond compensation market data also affect the Compensation Committee's judgment with respect to our executive compensation program. These factors include our financial and stock performance, and the contribution of each named executive officer relative to his individual responsibilities and

capabilities,- the individual s experience in their role and tenure with the Company, internal alignment with the executive team and retention concerns among other relevant factors.

Table of Contents

Role of the Compensation Consultant

During 2017, the Compensation Committee engaged two consulting firms to assist with executive compensation matters. Axiom Talent and Rewards Consulting was engaged through the first half of 2017. Mid-year 2017, the Compensation Committee selected and directly engaged Meridian Compensation Partners, LLC as its independent compensation consultant to review our compensation arrangements for our named executive officers. Axiom and Meridian were each engaged to provide analysis and market data on executive and director compensation matters, both generally and within our industry.

Axiom and Meridian also assisted the Compensation Committee with the ongoing design of the annual and long-term incentive program (including an evaluation of the compensation arrangements of both our self-selected peer group companies and a broader group of industry peer companies selected by the Compensation Consultant) and with reviewing the annual risk assessment of our compensation policies and practices applicable to our NEOs and other employees. Neither Axiom nor Meridian determined or recommended any amounts or levels of our executive compensation for fiscal 2017. The Compensation Committee recognizes that it is essential to receive objective advice from its external advisors. Consequently, the Compensation Committee is solely responsible for retaining and terminating its consultants; Axiom and Meridian each reported directly to the Compensation Committee; and did not provide any other services during fiscal 2017. The Compensation Committee has determined that the work resulting from Axiom and Meridian's engagement did not raise any conflicts of interest.

Role of Management

The Compensation Committee has also relied in part upon the input and recommendations of our CEO when considering annual increases to base salaries for our named executive officers, the annual establishment of our Incentive Compensation Plan (which aligns with the Company's business plan), and whether to grant long-term incentive awards to our named executive officers, and if so, in what forms and amounts. The Compensation Committee typically takes into account these recommendations from our CEO.

Peer Group Determination

The Compensation Committee, in consultation with its consultant, annually establishes a group of peer companies, which are generally in the Healthcare and Real Estate sectors, for comparative purposes.

Peer group determinations are based on a number of factors, including:

stockholder feedback;

their real estate ownership;

their size and complexity;

their revenue and market capitalization;

their competition with us for talent;

the nature of their businesses;

the industries and regions in which they operate; and

the structure of their executive compensation programs (including the extent to which they rely on bonuses and other variable, performance-based compensation) and the availability of information about these programs within public disclosures.

2017 Compensation Analysis Strategy, Process & Rationale

Consistent with previous years, the competitive data was analyzed using two separate versions of the 2017 Peer Group. The purpose of providing these two versions of data was to separate peers with significant real estate ownership from broader industry peers solely focused on non-owner healthcare services.

Table of Contents

The first set of data represented a broader set of peers operating in a non-owner business model within the Homecare, Long-term Care Facility and broader Healthcare industry. This grouping of **Industry Peers** included Addus Homecare, Almost Family, Civitas Solutions, Diversicare Healthcare Services, Genesis Healthcare (pre-acquisition), LHC Group, National Healthcare Corporation, Providence Service Corporation, The Ensign Group, and U.S. Physical Therapy, Inc.

The second set of data represented peers the Company considered to be those most closely aligned in the makeup of their business model representing significant real estate ownership or a direct competitor for talent. This grouping of **Direct Peers** included Five Star Quality Care, Brookdale Senior Living, Healthcare Realty Trust Incorporated, LTC Properties, National Health Investors Inc., Omega Healthcare Investors and Sabra Health Care REIT.

We noticed a considerable difference in peers operating under the owner model vs. broader non-owner operator model. Below is a snapshot of CEO Compensation highlighting the differences in pay package structure between the Direct Peers and Industry Peers in 2017.

2018 Peer Group

In late 2017, the Compensation Committee again reviewed and modified the peer group to achieve better alignment with revenues, to more strongly reflect the determination factors listed above and to have stronger representation of companies with an owner-operator business model. The 15 companies listed below are those that will be used for benchmarking officer pay levels to help inform compensation decisions for 2018:

Table of Contents

EXECUTIVE COMPENSATION PROGRAM

Components of Executive Compensation

The four primary components of our executive compensation program are designed to provide a target value for compensation that is competitive with our peers and will attract and retain the talented executives necessary to execute on the Company's strategic plan.

2017 Target Compensation Pay Mix

Our target pay mix is aggressively weighted toward long-term performance-based pay-at-risk to align executive payouts with excellent performance.

Base Salary

Base salary represents the only fixed component of the four primary components of our executive compensation program and is intended to provide a baseline amount of annual compensation for our NEOs. While base salary is a major component of compensation for salaried employees, it becomes a smaller component as a percentage of total pay for executives.

The position-based study we conduct analyzes peer market data from the Company's compensation consultant, which, along with the Company's recommendations, is reviewed with the Committee. See "Process for Determining Executive Compensation" above.

NEO Base Salaries Fiscal 2016, 2017 and 2018:

Executive	Principal Position	2016	2017	2018	% Change per year
Lawrence A. Cohen	Vice Chairman of the Board and CEO	\$757,561	\$772,712	\$788,166	2.00%
Brett D. Lee	EVP and Chief Operating Officer	N/A	450,000	459,000	2.00%

David W. Beathard	Senior Vice President Operations	213,128	217,390	221,738	2.00%

For 2017, the Compensation Committee set such percentage at 2.0%. The Compensation Committee also authorizes our CEO to approve base salary increases for other individuals in his discretion.

Annual Incentive Plan Design

Annual cash performance incentives are awarded to our named executive officers, other than Messrs. Brickman and Beathard, pursuant to the incentive compensation plan, which we refer to as our Incentive Compensation Plan. The Incentive Compensation Plan is designed to reward our CEO, COO and CFO for accomplishing the Company's 2017 Business Plan and additional compensation for performance beyond the 2017 Business Plan.

The Incentive Compensation Plan represents the Compensation Committee's determination that, although a substantial portion of the cash performance incentive opportunity for our eligible named executive officers should be dependent upon measures that are reflective of our overall financial performance, the Incentive Compensation Plan should also reward the individual contributions of each eligible named executive officer for the achievement of elements of our business plan that are within such individual's sphere of influence.

Under the Incentive Compensation Plan, cash performance incentives are targeted at a pre-determined percentage of each eligible named executive officer's base salary for such year. These percentages are established by the Compensation Committee based upon (i) its general review of publicly-available information with respect to similar programs offered by the companies in our peer group, (ii) each officer's ability, by virtue of his position with us, to exert a significant influence over the factors upon which cash performance incentives under the Incentive Compensation Plan are contingent and (iii) the compensation consultant's market analysis and reports described above. In determining the corporate and individual performance metrics under our Incentive Compensation Plan, the Compensation Committee endeavors to use metrics that drive shareholder value creation and incentivize achieving the Company's strategic plan.

Table of Contents

For 2017, the bonus opportunities under the Incentive Compensation Plan for Messrs. Cohen, Lee and Hendrickson are set forth below.

2017 Annual Incentive Plan Metrics and Weightings as a Percent of Target

Corporate Performance Goals

Of the cash performance incentive amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, a pre-determined percentage of that amount is contingent upon our achievement of certain objectively verifiable measures of our performance for the applicable year. These corporate goals are approved by the Compensation Committee in the first quarter of each fiscal year based upon the recommendations of our CEO, COO and CFO regarding certain initiatives and the related corresponding metrics that such executive officers believe are directly related to the achievement of our business plan for that year.

Adjusted EBITDAR

Adjusted EBITDAR was defined as income from operations before provision for income taxes, interest, depreciation and amortization (including non-cash charges), facility lease expense, non-cash compensation expense and provision for bad debts.

CFFO Per Share

CFFO was defined as net cash provided by (used in) operating activities adjusted for changes in operating assets and liabilities and recurring capital expenditures. Recurring capital expenditures included expenditures capitalized in accordance with GAAP that were funded from reserves pursuant to our mortgage loans and leases.

Our eligible named executive officers earn percentages of certain awards based on the achievement of Target Adjusted EBITDAR and Adjusted CFFO per share goals based on the sliding scale presented below. We set challenging Target Adjusted EBITDAR goals based on internal business plans.

Table of Contents**Annual Incentive Corporate Goals**

Level	Performance as a Percent of Target Goal	Adjusted EBITDAR performance goal	CFFO per share performance goal	Payout Opportunity as a Percent of Target
Threshold Opportunity	85%	\$ 137,445,000	\$ 1.47	50%
Target Opportunity	100%	\$ 161,700,000	\$ 1.73	100%
Maximum Opportunity	115%	\$ 185,955,000	\$ 1.99	150%

Annual Incentive Corporate Goal Achievement

Corporate Metrics	Achievement Amount	Achievement % of Target	Payout Factor
Adjusted EBITDAR	\$ 153,364,000	94.7%	82.8%
CFFO per Share	\$ 1.56	89.9%	67.3%
Combined Payout for Corporate Goals			71.8%

Performance below threshold level results in no payout for the applicable performance metric. Payouts are capped at the maximum level for performance that exceeds maximum goals. Payouts for performance between threshold, target and maximum levels is interpolated.

Individual Performance Goals

Of the cash performance incentive amount that an eligible named executive officer may earn pursuant to the Incentive Compensation Plan, a pre-determined percentage of that amount is contingent upon the eligible named executive officer's achievement of certain objectively verifiable individual goals within such named executive officer's sphere of influence for the applicable year. These individual goals are approved by the Compensation Committee in the first quarter of each fiscal year based upon the recommendations of our CEO, COO and CFO regarding certain initiatives and the corresponding measures therefor that such executive officers believe are directly related to the achievement of our business plan for that year.

Lawrence A. Cohen

CFFO Per Share. With respect to our Chief Executive Officer, the entire target bonus percentage attributable to the achievement of individual goals was based upon our achievement of a CFFO per outstanding share target during 2017, upon the same terms and conditions as described above regarding the corporate goals portion of the Incentive Compensation Plan for 2017. The Compensation Committee determined to establish a separate individual CFFO per share bonus opportunity for our Chief Executive Officer based upon its belief that our Chief Executive Officer, by

virtue of his position with us, exerts a more significant influence as compared to the other eligible named executive officers over this important performance metric.

As our CFFO per share for 2017 was \$1.56, Mr. Cohen achieved 67.3% of his target bonus for this opportunity.

Brett Lee

A portion of Mr. Lee's annual bonus was based upon our net operating income generated from our senior housing communities, or the Facility NOI and the results of annual satisfaction surveys completed by residents at our senior housing communities, or Resident Satisfaction. Mr. Lee's potential annual bonus of 27% of his target bonus opportunity is paid based on the sliding scale of achievement of the targeted Facility NOI and Resident Satisfaction presented below. We set challenging Facility NOI and Resident Satisfaction goals based on internal business plans.

A portion of Mr. Hendrickson's annual bonus was based upon our controllable general and administrative expenses—accounting, finance, information systems, investor relations and administration, or the Controllable G&A Expenses. Mr. Hendrickson's potential annual bonus of 14% of his target bonus opportunity is paid based on the sliding scale of achievement of the targeted Controllable G&A Expenses presented below. We set challenging Target Controllable G&A Expense goals based on internal business plans.

As our CFFO per share for 2017 was \$1.56, Mr. Hendrickson achieved 67.3% of his target bonus for this opportunity.

For fiscal 2017, the Compensation Committee further reduced the Annual Incentive Plan payouts for Messrs. Cohen and Hendrickson to better align the payouts with the broader performance outcomes of the Company and with the shareholders' experience in 2017. Mr. Lee's payout was not reduced as he began his employment with

the Company in August 2017. Mr. Cohen's Annual Incentive Plan payout was reduced from \$610,451 to \$489,460, and Mr. Hendrickson's Annual Incentive Plan payout was reduced from \$228,566 to \$164,814.

Other Named Executive Officers

Although Messrs. Brickman and Beathard do not participate in the Incentive Compensation Plan, the Compensation Committee has the ability to award annual cash performance incentives to such named executive officers in its discretion pursuant to the terms of their respective employment agreements. In doing so, the Compensation Committee takes into account the performance achievement of Adjusted EBITDAR and CFFO per share goals discussed above, but also other factors over which each officer has more direct control and influence.

David R. Brickman

The determination as to whether Mr. Brickman will receive a cash performance incentive with respect to a particular year is typically made by our CEO and approved by the Committee in the first quarter of the following year. In determining whether Mr. Brickman is entitled to receive a cash performance incentive, and if so, in what amount, our CEO typically reviews peer group data, the reports of any compensation consultant engaged by the Compensation Committee for such year, our financial performance for the relevant fiscal year, the past performance of Mr. Brickman, the total cash compensation necessary to retain top executive talent, and the budget for Mr. Brickman's internal department. Based upon such review, our CEO recommended that Mr. Brickman receive a cash performance incentive of \$131,165 for 2017, which the Committee approved.

David W. Beathard

The determination as to whether Mr. Beathard will receive a cash performance incentive with respect to a particular year is typically made by our CEO and COO in the first quarter of the following year. In determining whether Mr. Beathard is entitled to receive a cash performance incentive, and if so, in what amount, our senior management typically reviews peer group data, the reports of any compensation consultant engaged by the Compensation Committee for such year, our financial performance for the relevant fiscal year, the past performance of Mr. Beathard, the total cash compensation necessary to retain top executive talent, and the budget for Mr. Beathard's internal department. Based upon such review, our CEO and COO approved a cash performance incentive for Mr. Beathard in the amount of \$29,680 for 2017.

For a further description of the cash performance incentives paid to our named executive officers for 2017, please refer to the Summary Compensation Table on page 47 of this proxy statement.

Changes to be Implemented for the 2018 Annual Incentive Plan

Beginning in 2018, all named executive officers will participate in the same Annual Incentive Plan. For 2018, we have changed the performance metrics and weightings. Same store facility net operating income was added to the

Table of Contents

plan to reward for organic operating income growth. Debt metric was added to the plan to incorporate the balance sheet, incentivize prudent management of the Company's debt and in response to shareholder feedback. The Annual Incentive Plan metrics and weightings will be:

CFFO per share (30%)

Same Store Facility Net Operating Income (20%)

Adjusted EBITDAR (20%)

Net Debt to EBITDAR Ratio (10%)

Individual Performance (20%)

Long-Term Incentive Awards

Our primary long-term incentive compensation programs for executives are Performance-Based Restricted Stock Awards (PSAs) and Time-Based Restricted Stock Awards (RSAs).

For 2017, the Committee changed the targeted mix to place greater weighting on PSAs, and also changed the performance period to a cumulative three-year performance period instead of three annual performance periods.

Vehicle	Weighting	Vesting	Performance Metrics
RSAs	40%	3-year ratable vesting	N/A
PSAs	60%	3-year cumulative performance measurement	Adjusted EBITDAR

Relative TSR Modifier vs. a Healthcare Services Group (see Appendix A) can modify the amounts earned by adjusted EBITDAR performance as follows, with linear interpolation between achievement levels:

th 25th Percentile = -25%

th 50th Percentile = 0%

th 75th Percentile = +25%

Table of Contents

Purpose of PSAs

The Compensation Committee awards PSAs and selected adjusted EBITDAR for the PSAs granted in 2017 to align with:

The Company's strategic plan,

Stockholder feedback and interests

Research analysts and investors, who use EBITDAR to evaluate the performance and valuations of companies in our industry with significant real-estate holdings.

Although the choice of Adjusted EBITDAR as the metric for the PSAs resulted in some overlap between incentive programs with Adjusted EBITDAR metrics being used for both the PSAs and the annual performance incentives the Adjusted EBITDAR performance for PSAs is measured over a full three-year period as opposed to one-year in the Annual Incentive Plan. The Compensation Committee considered the partial overlap to be appropriate for reasons stated above. Adjusted EBITDAR was defined the same as for the Annual Incentive Plan described above.

Purpose of RSAs

RSAs motivate our executive officers to achieve our business objectives by tying incentives to the performance of our common stock over the long term while also motivating our executive officers to remain with the Company by mitigating swings in long-term incentive values during periods of high stock price volatility.

2017 Long-Term Incentive Awards

In determining the amount and types of long-term incentive awards to be granted to our named executive officers, the Compensation Committee primarily relies upon the same factors described earlier in this Compensation Discussion & Analysis, along with the amount of equity held by each named executive officer, including the amount of any unvested equity awards; and the amount of cash compensation, in the form of base salary and cash performance incentive, that each named executive officer is eligible to earn for the relevant fiscal year.

On March 2017, the Compensation Committee, after taking into account the foregoing factors, granted the following named executive officers (other than Mr. Lee, whose shares of restricted stock were granted on September 20, 2017 following the commencement of his employment) shares of restricted stock in the amounts set forth in the table below.

Name	Targeted Value of Time-Based Restricted Stock	Number of Shares of Time-Based Restricted Stock	Targeted Value of Performance- Based Restricted	Number of Shares of Performance- Based Restricted Stock

Long-term Incentive Performance and Payouts

Portions of awards granted prior to 2017 (which provided for three annual performance periods) became vested in 2017 based on the specific vesting or performance criteria associated with the applicable annual performance criteria for each award. These are summarized below.

Table of Contents***Vesting of 2016 Performance-Based Awards.***

For the fiscal 2016 PSAs, the vesting of 33% of the performance shares was subject to our achievement of adjusted EBITDAR goals as provided in the table below, which was based on our internal business plan and was viewed as a challenging performance target.

Level	Performance as a Percent of Target Goal	2017 Adjusted EBITDAR performance goal	Payout as a Percentage of Target
Threshold Opportunity	80%	\$ 123,032,800	80%
Target Opportunity	100%	\$ 153,791,000	100%
Maximum Opportunity	100%	\$ 153,791,000	100%
2017 Achievement for 33% Tranche of 2016 PSAs			
	99.7%	\$ 153,364,000	99.7%

Performance below threshold level results in no payout for the applicable performance metric. Payouts are capped at the maximum level for performance that exceeds maximum goals. Payouts for performance between threshold, target and maximum levels is interpolated.

Vesting of 2015 Performance-Based Awards

In February 2015, the Compensation Committee granted Messrs. Cohen, Hendrickson, and Brickman, 50,000, 25,000 and 15,000 shares of performance-based restricted stock, respectively. These shares were scheduled to vest in installments of 33%, 33% and 34% on February 26, 2016, February 26, 2017 and February 26, 2018 respectively, in each case, subject to the named executive officer's continued employment by us and our achievement of certain adjusted EBITDAR performance targets that were established by the Compensation Committee for each of fiscal 2015, fiscal 2016 and fiscal 2017. The adjusted EBITDAR goals for the 2017 performance year are provided in the table below.

Level	Performance as a Percent of Target Goal	2017 Adjusted EBITDAR performance goal	Payout as a Percentage of Target
Threshold Opportunity	90%	\$ 153,250,200	90%
Target Opportunity	100%	\$ 170,278,000	100%
Maximum Opportunity	100%	\$ 170,278,000	100%
2017 Achievement for 33% Tranche of 2015 PSAs			
	90.1%	\$ 153,364,000	90.1%

Performance below threshold level results in no payout for the applicable performance metric. Payouts are capped at the maximum level for performance that exceeds maximum goals. Payouts for performance between threshold, target and maximum levels is interpolated.

For a description of the long-term incentives awarded to our named executive officers for 2017, please refer to the 2017 Grants of Plan-Based Awards Table on page 48 of this proxy statement.

2018 Long-Term Incentive Target Awards

The Committee established LTI grants for the NEOs based on the following criteria: level of responsibility, individual performance, current market practice, peer group data, and the number of shares available.

After consideration of peer group data on median values for long-term incentives, the Committee approved a dollar value for a base-level LTI awards and the mix of awards to be delivered. For 2018 awards the Committee

Table of Contents

also considered additional feedback received on the total magnitude of LTI, and based on such feedback, set target payout opportunities for 2018 at amounts that were less than the target payout opportunities for the 2017 awards.

The table below provides a summary of the potential target opportunities in 2017 and 2018:

Target LTI Awards 2016 vs. 2017 vs. 2018

	2016	2017	2017	2018
Executive	Awards (\$)	Awards (\$)	Decrease (%)	Awards (\$)
Larry Cohen	\$ 2,445,472	\$ 1,760,721	-28%	\$ 1,761,000
Brett Lee	\$ -	\$ 947,809	N/A	\$ 948,000
Carey Hendrickson	\$ 1,222,720	\$ 867,611	-29%	\$ 868,000
David Brickman	\$ 733,626	\$ 715,451	-2%	\$ 716,000
David Beathard	\$ 73,359	\$ 48,302	-34%	\$ 48,300

The 2017 LTI target opportunity was set to capture the depth and breadth of the management team's experience in senior housing as well as specific organizational competencies. The Committee feels that the Company performed better than its peers and believes in the team's ability to deliver on the strategy.

SEVERANCE ARRANGEMENTS

We have entered into employment agreements with each of our named executive officers which, among other things, provide for severance benefits upon the occurrence of certain events. Our employment agreements with Messrs. Cohen, Brickman and Beathard were each originally entered into in connection with our initial public offering in 1997 and have been modified several times as the agreements have come up for renewal. Leading up to our initial public offering, the Board, based upon input received from legal counsel, determined that it was in our best interests to implement a severance plan structure pursuant to which severance benefits would be payable to members of our executive and senior management, including such named executive officers, upon the occurrence of certain events. In determining the measures to use to calculate the amounts payable upon the happening of certain events and the types of events that would trigger a payment obligation under the severance plan structure, the Board relied in large part upon both input received from legal counsel and publicly-available information with respect to the severance practices of similarly-situated companies.

We entered into an employment agreement with Mr. Hendrickson and Mr. Lee in 2014 and 2017, respectively. In the course of negotiating these employment agreements, we relied upon publicly-available information with respect to the severance practices of the companies in our peer group in order to determine the measures to use to calculate the amounts payable upon the occurrence of certain events and the types of events that would trigger a payment obligation. In addition, the Compensation Committee also sought to achieve a degree of consistency with respect to the severance benefits available to our other named executive officers.

The Compensation Committee believes that such severance benefits advance the objectives of our executive compensation program by facilitating our ability to employ, retain and reward executives who are capable of leading us to achieve our business objectives. In addition, the Compensation Committee believes that formalizing such severance benefits provides certainty in terms of our obligations to our named executive officers in the event that our

relationship with such individuals is severed. Any time that the Compensation Committee considers the amount and mix of total compensation to be paid to our named executive officers it considers, among other things, the severance payments that each named executive officer would be entitled to receive upon the occurrence of the specified events. The Compensation Committee considers such information a relevant factor in analyzing proposed compensation arrangements, including raises in salary, bonus opportunities and grants of long-term incentive awards.

Table of Contents

For a more detailed description of the severance arrangements for our named executive officers, please refer to Termination of Employment and Change in Control Arrangements beginning on page 51 of this proxy statement.

PERQUISITES AND OTHER PERSONAL BENEFITS

Our named executive officers are eligible to participate in certain benefit plans that are generally available to all of our employees. The benefits available under such plans are the same for all of our employees, including our named executive officers, and include medical and dental coverage, long-term disability insurance and supplemental life insurance. In addition, all of our employees, including our named executive officers, are eligible to participate in our 401(k) plan, which is the only retirement benefit which we provide to our named executive officers. We may make discretionary matching cash contributions to the 401(k) plan in the amount of 100% of the named executive officer's contributions, but subject to a cap of 2% of the named executive officer's base salary. In determining the amount of such matchable contributions to the 401(k) plan, we rely primarily on publicly-available information with respect to the practices employed by the companies in our peer group.

Historically, our executive compensation program has contained limited perquisites. Other than the receipt of an automobile allowance by Mr. Cohen of approximately \$500 per month, our named executive officers did not receive any special perquisites during 2017.

The Compensation Committee has determined to offer the above-described perquisites and other benefits in order to attract and retain our named executive officers by offering compensation opportunities that are competitive with those offered by similarly-situated companies in the senior living industry. In determining the total compensation payable to our named executive officers for a given fiscal year, the Compensation Committee will examine such perquisites and other benefits in the context of the total compensation our named executive officers are eligible to receive. However, given the fact that such perquisites and other benefits represent a relatively insignificant portion of our named executive officers' total compensation, such items do not materially influence the Compensation Committee's decisions with respect to other elements of compensation available to our named executive officers.

For a description of the perquisites and other personal benefits received by our named executive officers during 2017, please refer to the Summary Compensation Table on page 47 of this proxy statement.

OTHER PRACTICES

Risk-Related Compensation Policies and Practices

The Committee has considered the risks associated with each of its executive and broad-based compensation programs and policies. As part of the review, the Committee considered the performance measures used as well as the different types of compensation, varied performance measurement periods and extended vesting schedules utilized under each incentive compensation program for both executives and other employees.

Below is a sample of the risk elements reviewed:

Total pay objective

Balance of fixed and variable pay

Blend of short-term and long-term horizons

Level at which performance is measured

Number and type of measures

Goal-setting process

Maximum payouts

43

Table of Contents

Balance of long-term incentive pay and performance

Ongoing investment requirements

Severance program

As a result of this review, the Committee has concluded the risks arising from the Company's compensation policies and practices for its employees are not reasonably likely to have a material adverse effect on the Company.

The Committee believes that balancing the various elements of executive compensation program:

Supports the achievement of competitive performance in variable economic and industry conditions without undue risk; and

Mitigates the potential to reward risk-taking that may produce short-term results that appear in isolation to be favorable, but that may undermine the successful execution of the Company's long-term business strategy and destroy shareowner value.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code") (as in effect during 2017), generally disallows public companies a tax deduction for federal income tax purposes of remuneration in excess of \$1 million paid to our Chief Executive Officer and each of our three other most highly compensated executive officers (other than our Chief Financial Officer) in any taxable year. Generally, remuneration in excess of \$1 million may only be deducted if it is performance-based compensation within the meaning of the Code. The exemption from the Section 162(m) deduction limit for performance-based compensation has been repealed, effective for taxable years beginning after December 31, 2017, such that compensation paid to our covered employees in excess of \$1 million will not be deductible unless it qualifies for limited transition relief applicable to certain arrangements in place as of November 2, 2017.

The Compensation Committee believes that, in establishing the cash and equity incentive compensation plans and arrangements for our executive officers, the potential deductibility of the compensation payable under those plans and arrangements should be only one of the relevant factors taken into consideration. For that reason, the Compensation Committee may deem it appropriate to provide one or more executive officers with the opportunity to earn compensation, whether through cash incentive awards or equity incentive awards, which may not be deductible by reason of Section 162(m) or other provisions of the Code.

The Compensation Committee believes it is important to maintain cash and equity incentive compensation at the requisite level to attract and retain the individuals essential to our financial success, even if all or part of that compensation may not be deductible by reason of the Section 162(m) limitation.

Stock Ownership Guidelines

Beginning in 2017, the Compensation Committee adopted the following stock ownership guidelines for executives and non-employee members of our Board of Directors:

Outside Directors: 3x Annual Retainer;

CEO: 5x Base Salary;

CFO & COO: 3x Base Salary; and

General Counsel: 2x Base Salary.

Table of Contents

Executives and non-employee Board members who become newly subject to the guideline or subject to a new guideline due to promotion or a change in guideline have five years to attain the applicable guideline. The Compensation Committee reviews the status of compliance with these guidelines on an annual basis. As of the end of 2017 all executives or non-employee Board members that are subject to the guidelines either meet or are on pace to meet the guideline by the allotted deadline.

Anti-Hedging and Anti-Pledging Policies

As part of our Policy on Insider Trading, directors, officers and employees are prohibited from engaging in hedging transactions with respect to securities of the Company. In addition, directors, officers and other employees are prohibited from holding securities of the Company in a margin account and are also prohibited from pledging securities of the Company as collateral for a loan unless such pledging has been disclosed to the Board and pre-approved by the Board.

Clawback/Compensation Recovery Policies

The Compensation Committee has adopted a recoupment policy pursuant to which, in the event that it is determined that a participant in the Incentive Compensation Plan has committed fraud or a willful misstatement related to the calculations used in determining an award under such plan, the participant involved in such fraud or willful misstatement must return to the Company any awards that were paid as a result of the fraud or willful misstatement. This feature of the Incentive Compensation Plan is separate from and in addition to any clawback provisions under applicable law, including the Sarbanes-Oxley Act of 2002.

Non-GAAP Performance Metrics and Financial Measures

We utilize non-GAAP financial measures such as Adjusted CFFO, Adjusted CFFO per share and Adjusted EBITDAR.

Adjusted EBITDAR is a financial valuation measure and Adjusted CFFO is a financial performance measure, neither of which is calculated in accordance with U.S. generally accepted accounting principles (GAAP). Non-GAAP financial measures may have material limitations in that they do not reflect all of the costs associated with our results of operations as determined in accordance with GAAP. As a result, these non-GAAP financial measures should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with GAAP.

Adjusted EBITDAR is a valuation measure commonly used by our management, research analysts and investors to value companies in the senior living industry. Because Adjusted EBITDAR excludes interest expense and rent expense, it allows our management, research analysts and investors to compare the enterprise values of different companies without regard to differences in capital structures and leasing arrangements.

The Company believes that Adjusted CFFO is a useful performance measure in identifying trends in day-to-day operations because it excludes the costs associated with acquisitions and conversions and other items that do not ordinarily reflect the ongoing operating results of our primary business. Adjusted CFFO provides an indicator to management of progress in achieving both consolidated and individual business unit operating performance and is used by research analysts and investors to evaluate the performance of companies in the senior living industry.

Please refer to Appendix B to this proxy statement for important information concerning such non-GAAP financial measures, including a reconciliation of such measures to GAAP.

Termination of Employment and Change in Control Arrangements

Employment Agreements

As previously discussed, we have entered into an employment agreement with each of our named executive officers, which, among other things, provides for severance benefits to be paid upon an involuntary termination of the named executive officer's employment or the occurrence of certain other events that may affect the named executive officer, with the amounts of such benefits varying based upon such individual's position with us. Each employment agreement contains a non-competition provision. In addition, pursuant to such employment agreements, each named executive officer has agreed that he will not, either during the term of his employment with us or at any time thereafter, divulge, communicate, use to our detriment or for the benefit of another, or make or remove any copies of, our confidential information or proprietary data or information. Such confidentiality obligations do not apply to information which is or becomes generally available to the public other than as a result of disclosure by the named executive officer, is known to him prior to his employment with us from other sources, or is required to be disclosed by law or regulatory or judicial process.

Lawrence A. Cohen

Termination Not in Conjunction with a Fundamental Change. If we terminate Mr. Cohen's employment because of death or disability or for any reason other than for cause, or if Mr. Cohen voluntarily resigns for good reason, then Mr. Cohen will be entitled to:

receive his base salary plus his annual bonus at the rate paid during the previous 12 months for the balance of the term of his employment agreement, but not less than two years from the date of the notice of termination;

retain all of his stock options that have vested; and

receive payment of all accrued but unpaid or unused vacation, sick pay and expense reimbursement.

If the employment of Mr. Cohen is terminated for any other reason, then we are to promptly pay Mr. Cohen his base salary and pro-rated annual bonus up to and through the date of termination as well as all accrued but unpaid or unused vacation, sick pay and expense reimbursement.

A resignation by Mr. Cohen will be deemed to be a resignation for good reason if the resignation is based on (i) a material diminution in Mr. Cohen's duties, which is not part of an overall diminution for all of our executive officers, or (ii) our material breach of our obligations to Mr. Cohen under his employment agreement or under our stock incentive plan.

A termination of Mr. Cohen's employment by us will be deemed to be for cause if it is based upon (i) a final, nonappealable conviction of Mr. Cohen for commission of a felony involving moral turpitude, (ii) Mr. Cohen's willful gross misconduct that causes us material economic harm or that brings substantial discredit to our reputation, or (iii) Mr. Cohen's material failure or refusal to perform his duties in accordance with his employment agreement, if Mr. Cohen has failed to cure such failure or refusal to perform within 30 days after we notify him in writing of such failure or refusal to perform.

Termination in Conjunction with a Fundamental Change. If Mr. Cohen's employment is terminated in conjunction with a fundamental change, Mr. Cohen will be entitled to receive the same severance payments and benefits described above (not in conjunction with a fundamental change), except that Mr. Cohen will be entitled to receive his base salary plus his annual bonus at the rate paid during the previous 12 months for three years from the date of the notice of termination.

Pursuant to his employment agreement, the term fundamental change generally means:

a merger, consolidation, statutory share exchange or sale, lease, exchange or other transfer of all or substantially all of our assets requiring the consent or vote of our stockholders, other than one in which our stockholders have the same proportionate ownership of the surviving corporation immediately after such transaction;

the approval by our stockholders of any plan or proposal for our liquidation or dissolution;

the cessation of control (by virtue of their not constituting a majority of directors) of the Board of Directors by the individuals who (i) at the date of the employment agreement were directors, or (ii) became directors after such date and whose election or nomination was approved by at least two-thirds of the directors then in office who were directors at such date, or whose election or nomination for election was previously so approved; or

the acquisition of 20% or more of the voting power of our common stock by any person or group who owned less than 15% of the voting power on the date of the employment agreement, or the acquisition of an additional five percent of the voting power by any person or group who owned at least 15% of such voting power on the date of such employment agreement.

Pursuant to his employment agreement, Mr. Cohen has agreed that during the term of his employment with us and for one year thereafter, he will not, directly or indirectly, acquire, develop or operate senior living facilities anywhere in the United States, other than through us and except as otherwise requested by us. If we terminate Mr. Lee's employment because of death or disability or for any reason other than for cause, or if Mr. Lee voluntarily resigns for good reason, then Mr. Lee will be entitled to:

If Mr. Lee's employment is terminated for any other reason, then we are to pay Mr. Lee his base salary and earned bonus up to and through the date of termination as well as all accrued but unpaid or unused vacation, sick pay and expense reimbursement.

A termination of Mr. Lee's employment by us will be deemed to be for cause if it is based upon (i) Mr. Lee being charged with and then convicted of any misdemeanor or any felony involving personal dishonesty, (ii) disloyalty by Mr. Lee to us, including, but not limited to, embezzlement, or (iii) Mr. Lee's failure or refusal to perform his duties in accordance with his employment agreement.

Termination in Conjunction with a Fundamental Change. If Mr. Lee's employment is terminated in conjunction with a fundamental change of us, Mr. Lee will be entitled to receive the same severance payments and benefits described above (not in conjunction with a fundamental change), except that Mr. Lee will be entitled to receive his base salary plus his annual bonus paid during the term of his employment agreement in the past 12 months for two years. Under Mr. Lee's employment agreement, the term fundamental change means a merger, consolidation or any sale of all or substantially all of our assets that requires the consent or vote of our stockholders where we are not the survivor or in control.

Non-Competition. Pursuant to his employment agreement, Mr. Lee agreed that for a period of one year after any termination of his employment and after receipt of the last payment pursuant to his employment agreement, he will not, directly or indirectly, commence doing business which is in competition with all or any portion of our business in any state in which we then operate, own, or are in the process of developing more than three facilities. Mr. Lee's

The 2007 Stock Incentive Plan

Pursuant to the 2007 Stock Incentive Plan, in the event of a change in control transaction, unless otherwise expressly provided under the terms of an award or by the Compensation Committee prior to such transaction:

all outstanding awards (except performance awards which will be governed by their express terms) will become fully exercisable, nonforfeitable, or the restricted period will terminate, as the case may be; and

the Compensation Committee will have the right to cash out some or all outstanding non-qualified stock options, stock appreciation rights and shares of restricted stock on the basis of the highest price per share paid in any transaction reported on the NYSE or paid or offered in any bona fide transaction related to a change in control during the immediately preceding 60-day period, in each case as determined by the Compensation Committee (except that the cash out for stock appreciation rights related to incentive stock options will be based on transaction reported for the date on which the holder exercises the stock appreciation rights or, if applicable, the date on which the cash out occurs).

For purposes of the 2007 Stock Incentive Plan, a change in control generally means the first to occur of:

the consummation of a merger, consolidation, statutory share exchange or sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all or substantially all of our assets that requires the consent or vote of the holders of our common stock, other than where such holders immediately prior to such transaction have the same proportionate ownership of common stock of the surviving corporation immediately after such transaction;

our stockholders approve any plan or proposal for our liquidation or dissolution;

the cessation of control (by virtue of their not constituting a majority of our directors) of our Board by the individuals who (i) on the effective date of such transaction were our directors or (ii) subsequently become our directors and whose election or nomination by our stockholders was approved by at least two-thirds of our

directors then in office who were our directors at the effective date of such transaction or whose election or nomination was previously so approved;

the acquisition of beneficial ownership of 20% or more of the voting power of our outstanding voting securities by any person or group who beneficially owned less than 15% of such voting power on the effective date of such transaction, or the acquisition of beneficial ownership of an additional five percent of such voting power by any person or group who beneficially owned at least 15% of such voting power on the effective date of the transaction; provided, however, there is no change in control for acquisitions where the acquiror is (i) a trustee or other fiduciary holding securities under our employee benefit plan, (i) our wholly-owned subsidiary or a corporation owned, directly or indirectly, by our stockholders in the same proportions as their ownership of our voting securities; or

in a Title 11 bankruptcy proceeding, the appointment of a trustee or the conversion of a case involving us to a case under Chapter 7.

Table of Contents*Restricted Stock Award Agreements and Performance Award Agreements*

When our named executive officers are awarded shares of restricted stock under the 2007 Stock Incentive Plan with time-based vesting provisions, each of them enters into a restricted stock award agreement with us. These restricted stock award agreements generally provide that, if the holder's employment with us is terminated for any reason before the vesting date for the restricted shares, the restricted shares that have not previously vested will, automatically and without notice, terminate and be permanently forfeited as of such date, except that all unvested shares will vest in connection with the holder's death or disability or in the event of a change in control.

In addition, when our eligible named executive officers are awarded shares of performance-based restricted stock under the 2007 Stock Incentive Plan, each of them enters into a performance award agreement with us. These performance award agreements generally provide that (1) if the holder's employment with us is terminated for any reason before the vesting date for the performance shares, the performance shares that have not previously vested will, automatically and without notice, terminate and be permanently forfeited as of such date, and (2) the holder's right to receive the specified percentage of performance shares that do not vest as a result of our failure to achieve the applicable performance measures will be automatically terminated and permanently forfeited; provided, that any performance shares that have not been forfeited pursuant to clause (2) above, will vest in connection with the holder's death or disability or in the event of a change in control with respect to performance shares granted prior to fiscal 2017. With respect to performance shares granted in 2017, if the Committee has not made provision for the substitution, assumption, exchange or other continuation of the award in connection with a change in control, the unvested award shall fully vest immediately prior to the change in control.

Potential Realizable Value of Equity Awards Upon a Change in Control Without Termination

Under the 2007 Stock Incentive Plan, in the event of a change in control the vesting of outstanding awards may be accelerated regardless of whether the employment of the holder of such an award is terminated in connection therewith. The following table provides quantitative disclosure of the potential realizable value of outstanding awards granted to our named executive officers pursuant to the 2007 Stock Incentive Plan, assuming that:

an event which constituted a change in control under the 2007 Stock Incentive, as described above, was consummated on December 31, 2017, and the Compensation Committee has not determined that it is effective as of any other date;

the Compensation Committee has not expressly provided that the acceleration and cash-out provisions of the 2007 Stock Incentive Plan, each as described above, are not applicable to such change in control prior to its consummation; and

the portion of any award that is accelerated and cashed-out pursuant to the 2007 Stock Incentive Plan is not limited by Section 280G of the Code.

Pay Ratio Disclosure

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, we are providing the following information about the relationship of the annual total compensation of our employees and the annual total compensation of our CEO, Lawrence Cohen. The pay ratio included in this information is a reasonable estimate calculated in a manner consistent with Regulation S-K Item 402(u). The ratio of Mr. Cohen's annual total compensation for 2017, as reported in the Summary Compensation Table in this proxy statement, to the median employee annual total compensation determined on the same basis was 155:1. For 2017, the annual total compensation of our median employee (other than Mr. Cohen) was \$19,557. To identify the median employee, we prepared a list of all active Capital Senior Living employees as of December 31, 2017. The consistently applied compensation measure used to identify the median employee was annualized gross earnings paid in 2017. We annualized gross earnings for each active employee by dividing gross earnings by the number of active pay periods for each individual, then multiplying by 26 pay periods in 2017.

2017 DIRECTOR COMPENSATION

The following table summarizes the compensation earned by our non-employee directors in 2017. Mr. Cohen did not receive any compensation for his services as a director during 2017. Please refer to the Summary Compensation Table above for the compensation received by Mr. Cohen for his services as an executive officer during 2017.

Ms. Krueger and Mr. Malone each elected to receive 8,929 restricted stock units, with each unit representing the right to receive one share of the Company's common stock, which also vest in full on May 16, 2018. These are the only shares of restricted stock (and restricted stock units) that were held by the non-employee directors and outstanding as of December 31, 2017.

Compensation of Directors During 2017

The key elements of the compensation payable to our non-employee directors are as follows:

Cash Compensation

For their services to us, our non-employee directors each received an annual retainer of \$55,000 (in addition to the committee retainers and meeting fees discussed below). In addition, the independent Chairman of our Board (Mr. Reid), the Chairman of the Audit Committee (Ms. Kreuger), the Chairman of the Nominating and Corporate Governance Committee (Mr. Malone), and the Chairman of the Compensation Committee (Ms. Lody thereafter), each received an additional annual retainer of \$50,000, \$20,000, \$10,000 and \$15,000, respectively, for serving as the Chairpersons of the board or such committees in 2017. The board and committee annual retainers are paid on a quarterly basis at the end of each quarter. During 2017, our non-employee directors also each received \$1,500 for each committee meeting they attended and were reimbursed for their expenses in attending Board and committee meetings.

Equity Compensation

For their services to us, our non-employee directors each receive an equity grant effective immediately following the Annual Meeting with a value of \$120,000 on the date of grant. Accordingly, on May 16, 2017, the Compensation Committee granted each of our non-employee directors 8,929 shares of restricted stock pursuant to the 2007 Stock Incentive Plan, which vest in full on May 16, 2018; *provided, however*, that, in lieu of receiving such award, Ms. Krueger and Mr. Malone each elected to receive 8,929 restricted stock units, with each unit representing the right to receive one share of the Company's common stock, which also vest in full on May 16, 2018.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is or has been one of our officers or employees or has or had any relationship requiring disclosure pursuant to SEC rules. In addition, during 2017, none of our executive officers served as:

a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served on the Compensation Committee;

a director of another entity, one of whose executive officers served on the Compensation Committee; or

a member of the compensation committee (or other board committee performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as one of our directors.

Report of the Audit Committee

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed and discussed the audited financial statements in the Annual Report on Form 10-K with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

Table of Contents

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. The Audit Committee also discussed with the independent auditors matters required to be discussed by the statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol.1.AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Company's independent auditors also provided to the Audit Committee the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee discussed with the independent auditors their independence and the compatibility of non-audit services with such independence.

The Audit Committee discussed with the independent auditors the overall scope and plans for their respective audits. The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board of Directors has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2017 for filing with the SEC. The Audit Committee has also appointed, subject to stockholder ratification, Ernst & Young LLP as the Company's independent auditors for the fiscal year ending December 31, 2018.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Policy of the Board of Directors

The Board has adopted a statement of policy with respect to transactions involving us and related persons (generally our senior officers, directors, nominees for director, persons owning five percent or more of our outstanding common stock, immediate family members of any of the foregoing, or any entity which is owned or controlled by any of the foregoing persons or an entity in which any of the foregoing persons has a substantial ownership interest or control). The policy generally covers any related person transaction involving amounts greater than \$25,000 in which a related person has a direct or indirect material interest.

Under the policy, each related person transaction must be entered into on terms that are comparable to those that could be obtained as a result of arm's length dealings with an unrelated third party and must be approved by the Audit Committee. Pursuant to the policy, at the first regularly scheduled meeting of the Audit Committee each calendar year, members of our management will recommend related person transactions to be entered into by us for that year, including the proposed aggregate value of any such transaction. After review, the Audit Committee will approve or disapprove each such related person transaction. No member of the Audit Committee will participate in any discussion or approval of a related person transaction for which he or she is a related person, except that such member will provide all material information concerning the related person transaction. At each subsequently scheduled meeting of the Audit Committee, members of our management will update the Audit Committee as to any material change with respect to each approved related person transaction.

In the event that our management recommends any further related person transactions subsequent to the first meeting of the Audit Committee in a particular calendar year, such transactions may be presented to the Audit Committee for approval or disapproval, or preliminarily entered into by members of our management subject to ratification by the Audit Committee. However, if the Audit Committee ultimately declines to ratify any such related person transaction, our management will make all reasonable efforts to cancel or annul the transaction.

Engagement of Paul, Weiss, Rifkind, Wharton & Garrison LLP

In 2017, the Company paid approximately \$258,000 to the law firm of Paul, Weiss, Rifkind, Wharton & Garrison LLP (Paul, Weiss) to provide various legal services. Mr. Cohen's son-in-law, David M. Klein, is a partner in Paul, Weiss. Our Audit Committee approved the engagement of Paul, Weiss.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Based on a review of reports filed by our directors, executive officers and beneficial holders of 10% or more of shares of our common stock, and upon representations from those persons, we believe that all SEC stock ownership reports required to be filed by those reporting persons during 2017 were timely made, except that Arbiter Partners, the beneficial owner of more than 10% of our common stock, filed two Statements of Changes in Beneficial Ownership on Form 4, one reporting three transactions and another reporting four transactions, later than the time prescribed by the SEC.

Table of Contents**PROPOSAL TO RATIFY APPOINTMENT OF INDEPENDENT AUDITORS****(PROPOSAL 2)**

The Audit Committee has appointed Ernst & Young LLP, independent auditors, to be our principal independent auditors and to audit our consolidated financial statements for the fiscal year ending December 31, 2018. Ernst & Young LLP has served as our independent registered public accounting firm since October 3, 2006.

Representatives of the firm of Ernst & Young LLP are expected to be present at the Annual Meeting and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

The Audit Committee has the responsibility for the selection of our independent auditors. Although stockholder ratification is not required for the selection of Ernst & Young LLP, and although such ratification will not obligate us to continue the services of such firm, the Board is submitting the selection for ratification with a view towards soliciting our stockholders' opinion thereon, which may be taken into consideration in future deliberations. If the appointment is not ratified, the Audit Committee must then determine whether to appoint other auditors before the end of the current fiscal year and, in such case, our stockholders' opinions would be taken into consideration.

The Board of Directors unanimously recommends a vote FOR the ratification of Ernst & Young LLP as our independent auditors for the fiscal year ending December 31, 2018.

FEES PAID TO INDEPENDENT AUDITORS

The aggregate fees billed by Ernst & Young LLP for fiscal years 2017 and 2016 were as follows:

Services Rendered	2017	2016
Audit fees(1)	\$ 1,128,500	\$ 1,038,250
Audit-Related fees(2)	35,250	39,500
Tax fees(3)		
All other fees		
Total	\$ 1,163,750	\$ 1,077,750

- (1) Includes professional services for the audit of our annual financial statements, reviews of the financial statements included in our Form 10-Q filings, and services that are normally provided in connection with statutory and regulatory filings or engagements.
- (2) Includes fees associated with assurance and related services that are reasonably related to the performance of the audit or review of our financial statements.
- (3) Includes fees associated with tax compliance, tax advice and tax planning.

The Audit Committee has considered whether the provision of the above services other than audit services is compatible with maintaining Ernst & Young LLP's independence and has concluded that it is.

The Audit Committee has the sole authority to appoint or replace the independent auditor and is directly responsible for the compensation and oversight of the work of the independent auditor. The Audit Committee is responsible for the engagement of the independent auditor to provide permissible non-audit services, which require pre-approval by the Audit Committee (other than with respect to *de minimis* exceptions described in the rules of the NYSE or the SEC that are approved by the Audit Committee). The Audit Committee ensures that approval of non-audit services by the independent auditor are disclosed to investors in periodic reports filed with the SEC.

ADVISORY VOTE ON EXECUTIVE COMPENSATION

(PROPOSAL 3)

We are submitting an Advisory Vote on Compensation to our stockholders.

As described in the Compensation Discussion and Analysis section of this proxy statement (beginning on page 18), the following key objectives are the cornerstone of our executive compensation program:

establish competitive target pay in line with those with whom we compete for executive level talent;

retain talented individuals;

designs revolving around a strong link between executive pay and company performance;

prudent risk taking by executives;

aligning our goals, efforts and results through a comprehensive executive compensation design, process and overall package; and

continually engaging stockholders in the overall process.

We believe these objectives collectively link compensation to overall Company performance and directly link compensation to the objectives set forth in our 2017 business plan that was developed with our Board of Directors. These objectives help ensure that the interests of our named executive officers are closely aligned with the interests of our stockholders. As described in Management's Discussion and Analysis of Financial Conditions and Results of Operations in our Annual Report on Form 10-K, our fiscal 2017 financial results, based upon various measures, increased significantly relative to our fiscal 2016 financial results.

Table of Contents

We seek to maintain high standards with respect to the governance of executive compensation. Key features of our compensation policies and practices that aim to drive performance and align with stockholder interests are highlighted below:

Our Compensation Practices (What we do)	Our Prohibited Compensation Practices (What we don't do)
<u>At-Risk Compensation</u> : Our incentive-based compensation represents a significant portion of our executives' compensation (including 77% for our CEO).	× <u>No Guaranteed Increases</u> : We do not guarantee salary increases or annual incentives for our named executive officers.
<u>Double Trigger Vesting</u> : We provide for double-trigger vesting following a change-of-control for equity awards granted in Fiscal 2017 and beyond for all equity participants.	× <u>No Hedging</u> : We prohibit the hedging of the Company's stock by directors, officers, or employees of the Company.
<u>Robust Stock Ownership Guidelines</u> : We implemented Stock Ownership Guidelines for both executives and directors in 2017.	× <u>No Pledging</u> : We prohibit the pledging of the Company's stock by directors and officers of the Company.
<u>Clawback Policy</u> : Our named executive officers are subject to a robust recoupment policy in the event the Company is required to restate its financial statements.	× <u>No Repricing Without Stockholder Approval</u> : We do not reprice underwater stock options without stockholder approval.
<u>Annual Review</u> : We conduct an annual review of our executive compensation program to ensure it rewards executives for strong performance, aligns with stockholder interests, retains top talent, and discourages unnecessary risk taking by our executives.	× <u>No Discount Grants</u> : We do not provide for grants of equity below fair market value.
<u>Independent Consultant</u> : We use an independent compensation consultant retained by the Compensation Committee, in its sole discretion, who performs no consulting or other services for the	× <u>No Excessive Perquisites or Special Benefits</u> : Our named executive officers are only eligible to participate in benefit plans that are generally available to all of our employees.
	× <u>No Excise Tax Gross-Ups</u> : We do not provide any gross-up payments for so called "golden parachute" payments in the event of a change in control.

Company's management.

× No Dividends on Unearned PSUs: We do not pay any dividends on unvested PSUs.

Caps on Incentive Payout: We cap incentive payouts for each named executive officer at a specified percentage of base pay for such officer.

Table of Contents

Our Compensation Practices
(What we do)

Our Prohibited Compensation Practices
(What we don't do)

Shareholder Engagement: We engage with our shareholders regarding their most-important compensation concerns, and, as described herein, implement practices to address such concerns.

For fiscal 2017, we believe our compensation programs, which are designed to reward our named executive officers for the achievement of short-term and long-term strategic and operational goals and the achievement of increased stockholder value, delivered payments commensurate with our strong financial performance.

Emphasis on Pay for Performance.

For 2017, a significant portion of the total compensation opportunity available to our named executive officers who were eligible to participate in our Incentive Compensation Plan was linked to the achievement of specified corporate and individual goals. Adjusted CFFO per share and adjusted EBITDAR were the key metrics for corporate goals under our Incentive Compensation Plan for 2017. We believe these metrics provide for a balanced approach to measuring annual Company performance. See Appendix B for a discussion of such metrics.

We further link compensation and performance through grants of performance-based equity awards to our named executive officers, whose vesting is subject to our achievement of certain performance targets over a three-year period, which is primarily designed to encourage our named executive officers to focus on our long-term performance.

The four primary components of our executive compensation program are designed to provide a target value for compensation that is competitive with our peers and will attract and retain the talented executives necessary to execute on the Company's strategic plan.

Our target pay mix is aggressively weighted toward long-term performance-based pay-at-risk to align executive payouts with excellent performance.

Although the annual incentive payout that was earned based on 2017 performance by the CEO and CFO was 71.8% and 78.4% of their target payouts, respectively, the Committee decreased the actual annual incentive payout for the CEO and CFO by 30% to acknowledge the broader industry downturn and its impact on our financial performance and our total stockholder return.

Stockholder Feedback and Company Response

The Compensation Committee carefully considers the views of the Company's stockholders as part of its annual compensation review process. Conversations the Company had with its investors and proxy advisory firms following the 2017 advisory vote on executive compensation were considered along with current market practices and general investor concern over certain pay practices.

Below summarizes some of the changes that the Compensation Committee decided to make both to payouts in respect of 2016 and 2017 performance, and to the overall compensation program for 2017:

Negative Adjustments of -30% were applied to 2016 Annual Incentive payouts for CEO and CFO;

2017 LTI Awards decreased \$684,000 for CEO and on average -27% for other NEOs;

Changed the 2017 Company Peer Group to include additional peers in Real Estate;

Implemented 3-Year Cumulative Long-Term Goals in LTI Program;

Implementing Double Trigger for Equity Award Acceleration;

Table of Contents

Changing the LTI Program Design to Include a Relative TSR Modifier; and

Changed the LTI mix to 60% performance-based restricted shares and 40% time-based restricted shares (from 50%/50%) to further emphasize performance-based pay.

The vote on this resolution is not intended to address any specific element of compensation, but rather relates to the compensation of our named executive officers, as described in this proxy statement in accordance with the compensation disclosure rules of the SEC. The vote is advisory, which means that it is not binding on us, our Board or the Compensation Committee. The SEC rules adopted in response to the matters pertaining to executive compensation in the Dodd-Frank Act did not specify a voting standard for this proposal. As a result, pursuant to our Bylaws, assuming the presence of a quorum, the affirmative vote of the holders of a majority of the outstanding shares of our common stock entitled to vote, present in person or represented by proxy, at the Annual Meeting is required to approve, on an advisory basis, this Proposal 3.

Accordingly, we ask our stockholders to vote on the following resolution at the Annual Meeting:

RESOLVED, that the compensation paid to the Company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby **APPROVED**.

The Board of Directors unanimously recommends a vote FOR the approval of the compensation of our named executive officers, as disclosed in this proxy statement.

OTHER BUSINESS

(PROPOSAL 4)

The Board of Directors knows of no other business to be brought before the Annual Meeting. If, however, any other business should properly come before the Annual Meeting, the persons named in the accompanying proxy will vote the proxy in their discretion as they may deem appropriate, unless directed by the proxy to do otherwise.

GENERAL

The cost of any solicitation of proxies by mail will be borne exclusively by us. Arrangements may be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of material to and solicitation of proxies from the beneficial owners of shares of our common stock held of record by such persons, and we will reimburse such brokerage firms, custodians, nominees and fiduciaries for reasonable out of pocket expenses incurred by them in connection therewith. Brokerage houses and other custodians, nominees and fiduciaries, in connection with shares of our common stock registered in their names, will be requested to forward solicitation material to the beneficial owners of such shares and to secure their voting instructions. We have retained Georgeson to assist in soliciting proxies for the Annual Meeting for a fee of \$8,000. The cost of such solicitation will be borne exclusively by us.

Certain Information With Respect to Non-GAAP Financial Measures Used in This Proxy Statement

In the attached proxy statement, the Company utilizes certain financial measures of operating performance, such as adjusted EBITDAR, adjusted CFFO and adjusted CFFO per share, that are not calculated in accordance with U.S. generally accepted accounting principles (GAAP).

Adjusted EBITDAR is a financial valuation measure and Adjusted CFFO is a financial performance measure that, neither of which is calculated in accordance with GAAP. Non-GAAP financial measures may have material limitations in that they do not reflect all of the costs associated with our results of operations as determined in accordance with GAAP. As a result, these non-GAAP financial measures should not be considered a substitute for, nor superior to, financial results and measures determined or calculated in accordance with GAAP.

Adjusted EBITDAR is a valuation measure commonly used by our management, research analysts and investors to value companies in the senior living industry. Because Adjusted EBITDAR excludes interest expense and rent expense, it allows our management, research analysts and investors to compare the enterprise values of different companies without regard to differences in capital structures and leasing arrangements.

The Company believes that Adjusted CFFO is a useful performance measure in identifying trends in day-to-day operations because it excludes the costs associated with acquisitions and conversions and other items that do not ordinarily reflect the ongoing operating results of our primary business. Adjusted CFFO provides an indicator to management of progress in achieving both consolidated and individual business unit operating performance and is used by research analysts and investors to evaluate the performance of companies in the senior living industry.

The Company strongly urges you to review the following reconciliation of net loss to Adjusted EBITDAR and the reconciliation of net loss to Adjusted CFFO, along with the Company's consolidated balance sheets, statements of operations, and statements of cash flows, which are included in the Company's Annual Report on Form 10-K filed with the SEC on March 2, 2018.
