**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**(1) Interim Financial Statements**

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements of Beasley Broadcast Group, Inc. and its subsidiaries (the Company) included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. These financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the financial statements reflect all adjustments necessary for a fair statement of the financial position and results of operations for the interim periods presented and all such adjustments are of a normal and recurring nature. The Company's results are subject to seasonal fluctuations therefore the results shown on an interim basis are not necessarily indicative of results for the full year.

**(2) Recent Accounting Pronouncements**

In March 2017, the Financial Accounting Standards Board (FASB) issued guidance to improve the presentation of net periodic pension cost and net periodic postretirement benefit cost. The new guidance is effective for annual periods beginning after December 15, 2017. The Company adopted the new guidance in the first quarter of 2018 with no material impact on its financial statements.

In August 2016, the FASB issued guidance to reduce diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The new guidance is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. The Company adopted the new guidance in the first quarter of 2018 with no material impact on its financial statements.

In February 2016, the FASB issued guidance to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. There continues to be a differentiation between finance leases and operating leases, however lease assets and lease liabilities arising from operating leases should now be recognized in the statement of financial position. New disclosures are required to meet the objective of enabling users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases. The new guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company continues to review the new guidance and is currently researching lease management software. The Company expects the new guidance to result in a significant impact on the balance sheet, however that impact will not be quantified until closer to the adoption date. The Company's initial assessment, which is subject to change, is that the new guidance is not expected to have a significant impact on the statement of comprehensive income.

In January 2016, the FASB issued guidance that changes how entities measure equity investments and present changes in the fair value of financial liabilities. The new guidance requires entities to measure equity investments that do not result in consolidation and are not accounted for under the equity method at fair value and recognize any changes in

fair value in net income unless the investments qualify for the new practicality exception. A practicality exception will apply to those equity investments that do not have a readily determinable fair value and do not qualify for the practical expedient to estimate fair value, and as such, these investments may be measured at cost. The new guidance is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company adopted the new guidance in the first quarter of 2018 with no material impact on its financial statements.

In May 2014, the FASB issued guidance to clarify the principles for recognizing revenue. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance provides a comprehensive framework for revenue recognition that supersedes current general revenue guidance and most industry-specific guidance. In addition, the guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. In 2016, the FASB issued several updates to address implementation issues and to clarify guidance for principal versus agent considerations and identifying performance obligations and licensing. The Company adopted the new guidance on January 1, 2018, using the modified retrospective method, with no impact on its financial statements. The cumulative effect of initially applying the new guidance had no impact on the opening balance of retained earnings as of January 1, 2018. There was no impact on the condensed consolidated balance sheet as of March 31, 2018 or on the condensed consolidated statement of comprehensive income for the three months ended March 31, 2018. The comparative information has not been restated and continues to be reported under the accounting guidance in effect for that period. The Company does not expect the new guidance to have a material impact on its financial statements in future periods.

**(3) Acquisitions and Dispositions**

*Greater Media Merger*

On November 1, 2016, (the Acquisition Date), the Company completed the acquisition of Greater Media, Inc. (Greater Media), pursuant to the merger agreement, dated as of July 19, 2016 by and among the Company, Greater Media, Beasley Media Group 2, Inc., an indirect wholly-owned subsidiary of the Company (Merger Sub), and Peter A. Bordes, Jr., as the Stockholders Representative (the Merger Agreement). On the Acquisition Date, Merger Sub was merged with and into Greater Media, with Greater Media surviving the merger as an indirect wholly-owned subsidiary of the Company (the Merger). As a result of the Merger, the Company added 21 radio stations in the Boston, MA, Detroit, MI, Charlotte, NC, Middlesex, NJ, Monmouth, NJ, Morristown, NJ and Philadelphia, PA markets.

On the Acquisition Date, in accordance with the Merger Agreement, the Company placed 867,679 shares of the Company's Class A common stock with a fair value of \$4.2 million in escrow. These escrow shares were to be distributed either to the Company for cancellation or to Greater Media based upon a working capital adjustment. As of the Acquisition Date based on the estimated working capital adjustment, the Company estimated that 189,915 shares of Class A common stock would be released to Greater Media and the remainder would be forfeited to the Company for cancellation. The estimated number of shares to be released to Greater Media had a fair value of \$0.9 million as of the Acquisition Date and were included in the purchase price. The estimated shares to be forfeited were not indexed to the Company's stock price and therefore were adjusted to fair value based on the Company's closing stock price on each reporting date with changes in fair value recorded in earnings. The estimated number of shares to be forfeited had a fair value of \$3.3 million as of the Acquisition Date.

Also, in accordance with the Merger Agreement, the purchase price was to be adjusted by certain proceeds from the sale of Greater Media's towers assets. Based on the proceeds from the tower sale, the former stockholders of Greater Media were required to return a certain number of shares of Class A common stock to the Company for cancellation. The Company accounted for this arrangement as contingent consideration subject to the ultimate sale of the tower assets. As of the Acquisition Date, the Company estimated the sales price of the towers to be \$28.0 million which resulted in the expected return of 650,759 shares. As of the Acquisition Date, the estimated number of shares to be returned had a fair value of \$3.4 million. On February 27, 2017, the former stockholders of Greater Media entered into an asset purchase agreement to sell the towers for \$28.0 million.

On December 29, 2017, the Company entered into a settlement agreement with Greater Media regarding the working capital adjustment and proceeds from the tower sale. As a result, all 867,679 shares held in escrow for the working capital adjustment were forfeited to the Company and recorded in treasury stock on March 15, 2018 and the former stockholders of Greater Media returned 470,480 shares to the Company related to the tower sale proceeds, which were recorded in treasury stock on March 15, 2018. The forfeited shares previously held in escrow for the working capital adjustment had a fair value of \$11.6 million and \$8.8 million as of December 31, 2017 and March 15, 2018, respectively. The shares returned by the former stockholders of Greater Media related to the tower sale proceeds had a fair value of \$6.3 million and \$4.8 million as of December 31, 2017 and March 15, 2018, respectively.

The Company has engaged a third party to evaluate certain net operating loss carryforwards related to Greater Media, Inc. and several of its subsidiaries to determine the amount of net operating loss carryforwards that may be utilized by

the Company in future tax returns. These evaluations have not been finalized, therefore an estimate of \$3.6 million for net operating loss carryforwards was included in the purchase price. The accounting for this item was not finalized before the end of the measurement period and any adjustment will now be recognized in current operations during the period in which the accounting is finalized.

Effective on the Acquisition Date, the Company entered into an agreement with the former CEO of Greater Media to provide consulting services for a period of one year. The costs associated with this agreement are reported in other operating expenses in the accompanying statement of comprehensive income for the three months ended March 31, 2017.

The Company repaid a portion of the outstanding balance under its credit facility with the sales proceeds. The Company recorded a \$0.3 million loss on disposition during the first quarter of 2017.

**Table of Contents****BEASLEY BROADCAST GROUP, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

On May 1, 2017, the Company completed the sale of substantially all of the assets used in the operations of WIKS-FM, WMGV-FM, WNCT-AM, WNCT-FM, WSFL-FM and WXNR-FM in its Greenville-New Bern-Jacksonville, NC market cluster to CMG Coastal Carolina, LLC for \$11.0 million in cash and a translator license and equipment with a fair value of \$0.3 million. The Company repaid a portion of the outstanding balance under its credit facility with the cash sales proceeds. The Company recorded a \$4.0 million gain on disposition during the second quarter of 2017.

*Asset Exchange*

On December 19, 2017, the Company completed an asset exchange with CBS Radio Stations, Inc., Entercom Boston, LLC, and The Entercom Divestiture Trust under which the Company agreed to exchange all of the assets used or useful in the operations of WMJX-FM in Boston, MA for all of the assets used or useful in the operations of WBZ-FM in Boston, MA. In addition, the Company also paid \$12.0 million in cash, which was partially financed with \$6.0 million in borrowings from our credit facility and partially funded with \$6.0 million in cash from operations. The asset exchange broadened and diversified the Company's local radio broadcasting platform and revenue base in the Boston radio market. Further information regarding the asset exchange is included in Note 3 to the consolidated financial statements contained in Item 8 in the Company's Annual Report on Form 10-K for the year ended December 31, 2017 filed on February 20, 2018.

The following unaudited pro forma information for the three months ended March 31, 2017 assumes that the acquisitions and dispositions had occurred on January 1, 2017. This unaudited pro forma information has been prepared based on estimates and assumptions, which management believes are reasonable, and is not necessarily indicative of what would have occurred had the acquisition been completed on January 1, 2017 or of results that may occur in the future.

The credit facility is secured by substantially all assets of the Company and its subsidiaries and is guaranteed jointly and severally by the Company and its subsidiaries. If the Company defaults under the terms of the credit agreement, the Company and its subsidiaries may be required to perform under their guarantees. As of March 31, 2018, the maximum amount of undiscounted payments the Company and its applicable subsidiaries would have been required to make in the event of default was \$222.0 million. Failure to comply with financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of the credit agreement could result in the acceleration of the maturity of the Company's outstanding debt, which could have a material adverse effect on the Company's business or results of operations. As of March 31, 2018, the Company was in compliance with all applicable financial covenants under the credit agreement.

The aggregate scheduled principal repayments of the credit facility and capital lease obligations for the remainder of 2018, the next four years and thereafter are as follows:

is generally due within 30 days although certain advertisers are required to pay in advance. Revenues are reported at the amount the Company expects to be entitled to receive under the contract. The Company has elected to use the practical expedient to expense sales commissions as incurred. Payments received from advertisers before the performance obligation is satisfied are recorded as deferred revenue in the balance sheet. Substantially all deferred revenue is recognized within twelve months of the payment date. Deferred revenue was \$1.9 million and \$3.0 million as of December 31, 2017 and March 31, 2018, respectively. Losses on receivables from contracts with advertisers were \$0.1 million and \$0.2 million for the three months ended March 2017 and 2018, respectively.

Commercial advertising includes revenue from the sale or trade of commercial spots to advertisers directly or through national, regional or local advertising agencies. Commercial spots may be aired or streamed. Each commercial spot is considered a performance obligation. Revenue is recognized when the commercial spots have aired or streamed. Trade sales are recorded at the estimated fair value of the goods or services received. If commercial spots are aired or streamed before the goods or services are received then a trade sales receivable is recorded. If goods or services are received before the commercial spots are aired or streamed then a trade sales payable is recorded. Trade sales revenue was \$2.6 million and \$1.9 million for the three months ended March 31, 2017 and 2018, respectively. Trade sales receivable was \$1.6 million and \$1.7 million as of December 31, 2017 and March 31, 2018, respectively. Trade sales payable was \$1.3 million as of both December 31, 2017 and March 31, 2018.

Digital advertising includes revenue from the sale of streamed commercial spots station-owned assets and third party products. Each station-owned asset and third party product is considered a performance obligation. Station-owned assets are generally scheduled over a period of time and revenue is recognized over time as the digital items are used for advertising content. Third-party products are generally scheduled over a period of time with an impression target each month. Revenue from the sale of third-party products is recognized over time as the digital items are used for advertising content and impression targets are met each month.

Other revenue includes revenue from concerts, promotional events, talent fees and other miscellaneous items. Revenue is generally recognized when the event is completed, as the promotional events are completed, or as the talent services are completed.

**(6) Employee Benefit Plans**

Effective May 31, 2017, the Company terminated the Greater Media, Inc. Pension Plan (the Pension Plan). In December 2017, lump sum payments were made from the trust to participants who elected to receive a lump sum payment. In January 2018, a payment of \$52.0 million was made from the trust to an insurance company to purchase annuities for the remaining participants who elected to receive annuity payments. As a result of the termination, the Company recognized a \$1.0 million gain that was recorded in corporate general and administrative expenses for the three months ended March 31, 2018. This completes the recognition in earnings of the amount related to the Pension Plan that remained in accumulated other comprehensive income as of December 31, 2017.

**(7) Stock-Based Compensation**

The Beasley Broadcast Group, Inc. 2007 Equity Incentive Award Plan (the 2007 Plan ) permits the Company to issue up to 7.5 million shares of Class A common stock. The 2007 Plan allows for eligible employees, directors and certain consultants of the Company to receive restricted stock units, shares of restricted stock, stock options or other stock-based awards. The restricted stock units and restricted stock awards that have been granted under the 2007 Plan generally vest over one to five years of service.

A summary of restricted stock unit activity is presented below:

**(8) Income Taxes**

The Company's effective tax rate was approximately (5.9)% and (13.7)% for the three months ended March 31, 2017 and 2018, respectively. These rates differ from the federal statutory rate of 35% and 21% in 2017 and 2018, respectively, due to the effect of state income taxes and certain expenses that are not deductible for tax purposes. The effective tax rate for the three months ended March 31, 2018 also reflects a \$1.2 million increase due to the change in fair value of contingent consideration. The effective tax rate for the three months ended March 31, 2017 also reflects a \$3.0 million decrease due to the change in fair value of contingent consideration.

**(9) Financial Instruments**

The carrying amount of the Company's financial instruments including cash and cash equivalents, accounts receivable and accounts payable approximate fair value due to the short term nature of these financial instruments.

The carrying amount of the Company's long-term debt, including the term loan, the revolving credit facility, capital lease obligations and current installments, as of March 31, 2018 was \$222.6 million which approximated fair value based on current market interest rates. ## **Financial Statement Presentation**

The following discussion provides a brief description of certain key items that appear in our financial statements and general factors that impact these items.

*Net Revenue.* Our net revenue is primarily derived from the sale of commercial spots to advertisers directly or through national, regional or local advertising agencies. Revenues are reported at the amount we expect to be entitled to receive under the contract. Local revenue generally consists of commercial advertising sales, digital advertising sales and other sales to advertisers in a radio station's local market either directly to the advertiser or through the advertiser's agency. National revenue generally consists of commercial advertising sales through advertiser agencies. National advertiser agencies generally purchase advertising for multiple markets. National sales are generally facilitated by our national representation firm, which serves as our agent in these transactions.

Our net revenue is generally determined by the advertising rates that we are able to charge and the number of advertisements that we can broadcast without jeopardizing listener levels. Advertising rates are primarily based on the following factors:

a radio station's audience share in the demographic groups targeted by advertisers as measured principally by periodic reports issued by Nielson Audio;

the number of radio stations, as well as other forms of media, in the market competing for the attention of the same demographic groups;

the supply of, and demand for, radio advertising time; and

the size of the market.

Our net revenue is affected by general economic conditions, competition and our ability to improve operations at our market clusters. Seasonal revenue fluctuations are also common in the radio broadcasting industry and are primarily due to variations in advertising expenditures by local and national advertisers. Our revenues are typically lowest in the

first calendar quarter of the year.

We use trade sales agreements to reduce cash paid for operating costs and expenses by exchanging advertising airtime for goods or services; however, we endeavor to minimize trade revenue in order to maximize cash revenue from our available airtime.

We also continue to invest in digital support services to develop and promote our radio station websites. We derive revenue from our websites through the sale of advertiser promotions and advertising on our websites and the sale of advertising airtime during audio streaming of our radio stations over the internet. We also generate revenue from selling other digital products.

*Operating Expenses.* Our operating expenses consist primarily of (1) programming, engineering, sales, advertising and promotion, and general and administrative expenses incurred at our radio stations, (2) general and administrative expenses, including compensation and other expenses, incurred at our corporate offices, and (3) depreciation and amortization. We strive to control our operating expenses by centralizing certain functions at our corporate offices and consolidating certain functions in each of our market clusters.

**Table of Contents****Critical Accounting Estimates**

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect reported amounts and related disclosures. We consider an accounting estimate to be critical if:

it requires assumptions to be made that were uncertain at the time the estimate was made; and

changes in the estimate or different estimates that could have been selected could have a material impact on our results of operations or financial condition.

Our critical accounting estimates are described in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2017. There have been no material changes to our critical accounting estimates during the first quarter of 2018.

**Recent Accounting Pronouncements**

Recent accounting pronouncements are described in Note 2 to the accompanying financial statements.

**Three Months Ended March 31, 2018 Compared to the Three Months Ended March 31, 2017**

The following summary table presents a comparison of our results of operations for the three months ended March 31, 2017 and 2018 with respect to certain of our key financial measures. These changes illustrated in the table are discussed in greater detail below. This section should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of this report.

	<b>Three Months ended</b>		<b>Change</b>	
	<b>2017</b>	<b>2018</b>	<b>\$</b>	<b>%</b>

Change in fair value of contingent consideration	7,533,292	(4,415,925)	(11,949,217)	(158.6)
Interest expense	4,827,339	3,625,240	(1,202,099)	(24.9)
Income tax expense (benefit)	(414,858)	380,501	795,359	191.7
Net income (loss)	7,486,496	(3,161,192)	(10,647,688)	(142.2)

*Net Revenue.* Net revenue increased \$1.4 million during the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. Significant factors affecting net revenue included \$4.5 million in additional advertising revenue from the asset exchange completed on December 19, 2017 in Boston, partially offset by a \$1.5 million decrease due to the disposition of our Greenville-New Bern-Jacksonville market cluster on May 1, 2017. Net revenue for the three months ended March 31, 2018 was comparable to net revenue for the same period in 2017 at our remaining market clusters.

*Station Operating Expenses.* Station operating expenses increased \$1.6 million during the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. Significant factors affecting station operating expenses included \$3.9 million in additional expenses from the asset exchange, partially offset by a \$1.3 million decrease in station operating expenses due to the disposition of our Greenville-New Bern-Jacksonville market cluster. Station operating expenses for the three months ended March 31, 2018 were comparable to station operating expenses for the same period in 2017 at our remaining market clusters.

*Corporate General and Administrative Expenses.* Corporate general and administrative expenses increased \$0.1 million during the three months ended March 31, 2018 as compared to the three months ended March 31, 2017. Significant factors affecting corporate general and administrative expenses included a \$0.5 million increase in cash compensation expense, which was primarily due to an increase in the number of employees at our corporate offices, and a \$0.3 million increase in stock-based compensation expense, offset by a \$1.0 million gain as a result of the Greater Media pension plan termination.

*Change in Fair Value of Contingent Consideration.* In connection with the acquisition of Greater Media, a certain number of shares of our Class A common stock placed in escrow on the acquisition date were forfeited based on a working capital adjustment. The fair value of the forfeited shares decreased \$2.9 million due to a change in our stock price from January 1, 2018 to March 15, 2018, the date the forfeited shares were recorded in treasury stock. The fair value of the estimated number of shares to be forfeited increased \$3.7 million over the three months ended March 31, 2017. In addition, a number of shares of our Class A common stock were returned to us by the former stockholders of Greater Media based on certain proceeds from the sale of Greater Media's tower

assets. The fair value of the returned shares decreased \$1.6 million due to a change in our stock price from January 1, 2018 to March 15, 2018, the date the returned shares were recorded in treasury stock. The fair value of the estimated number of shares to be returned increased \$3.8 million over the three months ended March 31, 2017.

*Interest Expense.* Interest expense decreased \$1.2 million during the three months ended March 31, 2018. The primary factor affecting interest expense was the decrease in long-term debt outstanding and the applicable interest rate.

*Income Tax Expense (Benefit).* Our effective tax rate was approximately (5.9)% and (13.7)% for the three months ended March 31, 2017 and 2018, respectively. These rates differ from the federal statutory rate of 35% and 21% in 2017 and 2018, respectively, due to the effect of state income taxes and certain expenses that are not deductible for tax purposes. The effective tax rate for the three months ended March 31, 2018 also reflects a \$1.2 million increase due to the change in fair value of contingent consideration. The effective tax rate for the three months ended March 31, 2017 also reflects a \$3.0 million decrease due to the change in fair value of contingent consideration.

*Net Income (Loss).* Net loss during the three months ended March 31, 2018 was \$3.2 million, a change of \$10.6 million compared to net income of \$7.5 million during the three months ended March 31, 2017 as a result of the factors described above.

## **Liquidity and Capital Resources**

*Overview.* Our primary sources of liquidity are internally generated cash flow and our revolving credit facility. Our primary liquidity needs have been, and for the next twelve months and thereafter, are expected to continue to be, for working capital, debt service, and other general corporate purposes, including capital expenditures and radio station acquisitions. Historically, our capital expenditures have not been significant. In addition to property and equipment associated with radio station acquisitions, our capital expenditures have generally been, and are expected to continue to be, related to the maintenance of our studio and office space and the technological improvement, including upgrades necessary to broadcast HD Radio, and maintenance of our broadcasting towers and equipment. We have also purchased or constructed office and studio space in some of our markets to facilitate the consolidation of our operations.

Our credit agreement permits us to repurchase sufficient shares of our common stock to fund withholding taxes in connection with the vesting of restricted stock units and shares of restricted stock, subject to compliance with financial covenants, up to an aggregate amount of \$2.5 million per year. We paid approximately \$25,000 to repurchase 2,325 shares during the three months ended March 31, 2018.

Our credit agreement restricts our ability to pay cash dividends and to repurchase additional shares of our common stock. The credit agreement does permit, however, (i) additional dividends of up to an aggregate amount of \$7.5 million each year if our Total Leverage Ratio is greater than 3.5x and up to an aggregate amount of \$10.0 million each year if our Total Leverage Ratio is less than or equal to 3.5x, (ii) an amount equal to our excess cash flow each year that is not required to prepay the credit agreement, subject to maintaining a Total Leverage Ratio of no greater than 3.75x and (iii) unlimited dividends each year if our Total Leverage Ratio is less than 3.5x and our First Lien Leverage Ratio (as defined in the credit agreement) is less than 2.5x. We paid cash dividends of \$1.3 million during the three months ended March 31, 2018. Also, on March 2, 2018, our board of directors declared a cash dividend of \$0.05 per share on our Class A and Class B common stock. The dividend of \$1.4 million in the aggregate was paid on April 6, 2018, to stockholders of record on March 30, 2018.

We expect to provide for future liquidity needs through one or a combination of the following sources of liquidity:

internally generated cash flow;

our revolving credit facility;

additional borrowings, other than under our revolving credit facility, to the extent permitted; and

additional equity offerings.

We believe that we will have sufficient liquidity and capital resources to permit us to provide for our liquidity requirements and meet our financial obligations for the next twelve months. However, poor financial results or unanticipated expenses could give rise to defaults under our credit facility, additional debt servicing requirements or other additional financing or liquidity requirements sooner than we expect, and we may not secure financing when needed or on acceptable terms.

**Table of Contents**

Our ability to reduce our total leverage ratio, as defined by our credit agreement, by increasing operating cash flow and/or decreasing long-term debt will determine how much, if any, of the remaining commitments under our revolving credit facility will be available to us in the future. Poor financial results or unanticipated expenses could result in our failure to maintain or lower our total leverage ratio and we may not be permitted to make any additional borrowings under our revolving credit facility.

*Cash Flows.* The following summary table presents a comparison of our capital resources for the three months ended March 31, 2017 and 2018 with respect to certain of our key measures affecting our liquidity. The changes set forth in the table are discussed in greater detail below. This section should be read in conjunction with the financial statements and notes to financial statements included in Item 1 of this report.

	<b>Three Months ended</b>	
	<b>March 31,</b>	
	<b>2017</b>	<b>2018</b>

*Net Cash Provided By Operating Activities.* Net cash provided by operating activities decreased \$1.3 million during the three months ended March 31, 2018. Significant factors affecting this decrease in net cash provided by operating activities included a \$2.9 million decrease in cash receipts from the sale of advertising airtime and a \$0.7 million increase in cash paid for corporate general and administrative expenses, partially offset by a \$1.3 million decrease in interest payments and a \$0.8 million decrease in expenses related to the acquisition of Greater Media.

*Net Cash Provided By (Used In) Investing Activities.* Net cash used in investing activities during the three months ended March 31, 2018 included payments of \$1.2 million for capital expenditures. Net cash provided by investing activities for the same period in 2017 included proceeds of \$24.0 million from the disposition of radio stations in Charlotte, partially offset by payments of \$1.0 million for capital expenditures, and payments of \$0.7 million for translator licenses.

*Net Cash Used In Financing Activities.* Net cash used in financing activities during the three months ended March 31, 2018 included repayments of \$3.0 million under our credit facility and payments of \$1.3 million for cash dividends. Net cash used in financing activities for the same period in 2017 included repayments of \$28.0 million under our credit facility, payments of \$1.3 million for cash dividends and payments of \$0.5 million for repurchases of our Class A common stock.

*Credit Facility.* As of March 31, 2018, the credit facility consisted of a term loan with a remaining balance of \$222.0 million and a revolving credit facility with a maximum commitment of \$20.0 million. As of March 31, 2018, we had \$20.0 million in available commitments under our revolving credit facility. At our option, the credit facility may bear interest at either (i) LIBOR plus a margin of 4.0% or (ii) the base rate plus a margin of 3.0%. The LIBOR interest rate for the term loan is subject to a 1% floor. Interest payments are, for loans based on LIBOR, due at the end of each applicable interest period unless the interest period is longer than three months, in which case they are due at the end of each three month period. Interest payments for loans based on the base rate are due quarterly. The revolving credit facility carried interest, based on LIBOR, at 5.8% as of March 31, 2018 and matures on November 17, 2022.

The term loan carried interest, based on LIBOR, at 5.8% as of March 31, 2018 and matures on November 1, 2023.

Commencing with the year ending December 31, 2018, the credit agreement requires mandatory prepayments equal to 50% of Excess Cash Flow (as defined in the credit agreement) when our Total Leverage Ratio (as defined in the credit agreement) is greater than 3.5x; mandatory prepayments equal to 25% of Excess Cash Flow when our Total Leverage Ratio is less than or equal to 3.5x but greater than 3.0x; and no mandatory prepayments when our Total Leverage Ratio is less than or equal to 3.0x. Mandatory prepayments of consolidated Excess Cash Flow are due 95 days after year end. The credit agreement also requires mandatory prepayments for defined amounts from net proceeds of asset sales, net insurance proceeds, and net proceeds of debt issuances.

The credit agreement requires us to comply with certain financial covenants which are defined in the credit agreement. These financial covenants include a First Lien Leverage Ratio that will be tested at the end of each quarter. For the period from December 31, 2017 through March 31, 2018, the maximum First Lien Leverage Ratio was 6.25x. For the period from June 30, 2018 through December 31, 2018, the maximum First Lien Leverage Ratio is 6.0x. For the period from March 31, 2019 through December 31, 2019, the maximum First Lien Leverage Ratio is 5.75x. The maximum First Lien Leverage Ratio is 5.25x for March 31, 2020 and thereafter.

**Table of Contents**

The credit facility is secured by substantially all assets of the Company and its subsidiaries and is guaranteed jointly and severally by the Company and its subsidiaries. If we default under the terms of the credit agreement, the Company and its subsidiaries may be required to perform under their guarantees. As of March 31, 2018, the maximum amount of undiscounted payments the Company and its applicable subsidiaries would have been required to make in the event of default was \$222.0 million. The guarantees for the credit facility expire on November 17, 2022 for the revolving credit facility and on November 1, 2023 for the term loan.

Failure to comply with financial covenants, scheduled interest payments, scheduled principal repayments, or any other terms of our credit agreement could result in the acceleration of the maturity of our outstanding debt, which could have a material adverse effect on our business or results of operations. As of March 31, 2018, we were in compliance with all applicable financial covenants under our credit agreement.

The aggregate scheduled principal repayments of the credit facility and capital lease obligations for the remainder of 2018, the next four years and thereafter are as follows:
